## 3. Loans & Finances

A loan is nothing but an amount of money that is lent by a bank to a borrower for a certain period of time. Banks charge borrowers interest for the amount lent. Hence, loan accounts are valuable income generating assets for banks. It is therefore important for banks to enrich the end user's loan servicing experience so as to increase user satisfaction and retention. In order to achieve this, banks are constantly making efforts to enhance the online channel banking experience for their users by introducing and revamping loans servicing features on the digital platform.

The application provides a platform by which banks are able to offer their users an enriching online banking experience in servicing their loans.

Users can manage their banking requirements efficiently and effectively through the OBDX self-service channels. The loan module offers users a host of services that include, but are not limited to, viewing their loan account details, schedules and balances and also the facility to make loan repayments.

---

**Note:** In application

- 1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.
  - 2) Bank can configure the fields to be shown as additional values in the accounts drop-down.
- 

### Features Supported In the Application

The Small & Medium Business loans module of the OBDX application supports the following features:

- Loans Widget
- View Loans & Finances Summary
- View Loan & Finance Details (Active and Closed)
- Loan & Finance Repayment
- Loan & Finance Disbursement Inquiry
- Loan & Finance Schedule Inquiry
- Loan & Finance Transactions
- Loan & Finance Calculator and Loan & Finance Eligibility Calculator

### Pre-requisites

- Transaction access is provided to Small & Medium Business user.
- Loan accounts are maintained in the host system under a party ID mapped to the user.

### 3.1 Overview Widget

The Small & Medium Business overview widget displays an overview of the customer's holdings with the bank. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Investments and Credit Cards. It is a container and user can scroll from left to right, right to left. Each relationship card displays details specific to that account type. One such example is that of **Loans & Finances**. The total count of the loan accounts that the customer holds with the bank is displayed along with the total amount outstanding across all the loans held by the customer on the loan card.

Clicking on the card, basic details of each individual loan account are displayed as records. Details comprises of the loan account number, the product name, maturity date, and current outstanding balance, status of account, sanctioned loan amount and the **More Actions** menu.

---

**Note:** The Overview widget is available on both desktop and mobile (responsive) view.

---

#### How to reach here:

*Dashboard > Overview widget > Loans & Finances card*

The screenshot shows the Futura Bank dashboard. At the top, there is a search bar with the text "What would you like to do today?". Below the search bar, there are four account cards: "Current & Savings (5)" with a current balance of GBP 34,829,178.59; "Credit Cards (10)" with current dues of GBP 44,000.00; "Term Deposits (21)" with a current balance of GBP 1,272,869.00; and "Loans & Finances (2)" with a current outstanding balance of GBP 47,226.85. The "Loans & Finances" card is highlighted with a blue border and a right-pointing arrow. Below the account cards, there are three main sections: "Bills" with three items (Engie, Water, Engie) each with a "Pay Now" button; "Recent Transactions" showing three "ACCOUNT TO ACCOUNT TRANSFER" entries for 3/30/2020; and "Quick Insights" with a warning about a critically low savings account balance and a "Fund Account" button.

## 4. Loans & Finances Summary

The Loans & Finances summary page provides users with a holistic view of all their loan accounts held with the bank.

All the loan accounts of the user are listed as records. Each record comprises of information such as the loan account number, account nickname (if assigned), product name, sanctioned loan amount, and current outstanding balance. Click on the specific account to view further details of that account or view the summary of transactions undertaken through that account.

The **More Actions** menu on the right top corner of the page lists the relevant allowed actions on the module. The user can navigate to other Loan & Finance screens by selecting the desired option from the **More Actions** menu provided on the screen.

Utilizing the **'Manage Columns'** feature, users are empowered to tailor their display preferences to suit their individual needs. This includes the ability to handpick the columns they wish to see and rearrange them in the order that best aligns with their personal preferences. These customized preferences will be securely saved and persist for all subsequent logins, ensuring a seamless and personalized experience each time they access the platform.

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

## 6. Repayment

Customers can make a payment equal to the installment amount, lower than or more than the installment amount of the loan account. If the amount is higher than the installment amount, it can be considered as partial payoff or full settlement (depending upon the penalties and charges settings at the host).

Note: If customer makes a payment equal to the total outstanding loan amount (inclusive of arrears), it may lead to settlement of the loan account, depending upon the configuration (premature penalty/any charges) at the host system.

## 7. Disbursement Inquiry

Disbursement of the loan amount depends on the type of loan product availed by the user. Some loan products such as personal loan and auto loan have single disbursement policies. Certain loan products such as housing loan or education loan have multiple disbursement policies.

Especially in case of multiple loan disbursements, the user needs to be aware of the disbursement details of the loan account. This feature allows the user to view the disbursement details such as disbursed amount, disbursement date and sanctioned amount. It helps the user to analyze the current position of the loan account as to how much is disbursed and how much is yet to be disbursed.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns
- Remove specific columns.

---

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
  - 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

## 8. Schedule Inquiry

Through this feature, the user is able to gain an understanding of the loan repayment life cycle. This page displays details of each installment including the interest and principal amounts along with any charges, if applicable, and the total installment amount due on each specific date throughout the loan tenure.

The user is able to identify important information such as the frequency in which repayment installments are made, the total number of installments and the number of installments paid and those that are pending.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns
- Remove specific columns.

---

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
  - 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

## 10. Installment Calculator and Eligibility Calculator

The application provides users with two types of loan calculators – Installment Calculator and Eligibility Calculator.

Installment calculator enables users to identify the installment amount payable on a loan of a certain amount for a specific duration. This calculator is beneficial to users as it gives the user an opportunity to identify whether applying for a loan for a specific amount and duration is preferable or not.

Loan eligibility calculator enables users to compute the amount of loan that they are eligible for based on their monthly income and expenses and also the desired loan tenure and estimated interest rate.

### 10.1 Loans Installment Calculator

The loans installment calculator is a simple installment calculator which identifies the monthly installment amount payable on a loan based on the loan amount, tenure in years and interest percentage.

## 10.2 Loan Eligibility Calculator

Loan eligibility calculator plays an important role in helping a customer understand their current position with respect to their borrowing capacity. The calculator enables customers to gain an understanding of their loan eligibility, considering their average monthly income and expenditure. It computes the loan amount and repayment amount based on income, expense, interest rate and tenure of the loan. Loan eligibility is calculated by the application and is displayed to the customer.

The eligibility is calculated on the basis of:

- The customer's average monthly income
- The customer's average Monthly Expenditures
- Tenure of the loan being inquired applied
- Estimated rate of interest
