# 1. Preface

## 1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

## 1.2 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <a href="http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc">http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc</a>.

## 1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit

http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

## 1.4 Structure

This manual is organized into the following categories:

*Preface* gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

## 1.5 **Related Information Sources**

For more information on Oracle Banking Digital Experience Release 22.2.3.0.0, refer to the following documents:

## 3. Introduction

As the word suggests, Cash Management refers to the optimum utilization of cash to ensure the right amount of liquidity and maximum profitability for an organization.

Money is the lifeline for any business and therefore every organization aims to ensure that there is adequate cash to meet the obligations while making sure that there are no idle funds. Cash management functions help businesses in achieving this goal.

On a broad level, Cash management functions include Collections, Receivable/Payable Management, Reconciliation of payments, and Cash Flow Forecasting.

**Note:** The Cash Management module is currently only supported on **Desktops** and **Landscape** mode of **Tablet** devices.

Functions of Cash Management:

#### Cash Flow Forecasting

Cash flow forecast helps corporates in estimating the amount of money that will move in and move out of the business during a specific period like for a month, date, or for a particular week. Based on the forecast, businesses can plan their future investments and ensure that they have enough liquidity to meet their future payables. For more information, refer the Cash Flow Forecasting section below.

#### Collections

It is a process of managing collection of physical instruments like cash and cheques. It not only saves the corporate's time and resources but also provides them a clear and detailed view of their collection status across locations

Home

## 4. Overview

The Cash Management Overview screen provides a quick view of the corporate's cashflow transactions expected in the near future so that the corporates can prepare business activities basis the inflows and outflows. The collection widgets also give a quick view of cash or cheques deposited or withdrawn into/from the accounts. This enables corporates to plan cash positions easily, in advance.

- Elick the toggle menu to access the transaction.
- X : Click this icon to close the toggle menu. This icon appears if the toggle menu is open.

## Overview

The **Overview** screen consists of the following widgets:

- Cashflow for next 30 Days
- Collections Summary
- Unrealized Cheque Aging
- Collections as per Pickup Points
- Cash Withdrawal Summary
- Cash Flow Forecast

**Note:** All the above widgets can also be viewed on a mobile device. The features, links, filters, and data that are available in these widgets on the web browsers on desktop computers, are also available on the mobile device.

**Cashflow for next 30 Days**: This widget displays the total cash in local currency that will flow during the next 30 days. You can also select different number of days from the dropdown list at the top of the widget. The options available are: 30 days, 15 days, 7 days, and today. The data can be viewed separately for cash inflows (in the **To Receive** tab) and cash outflows (in the **To Pay** tab). To view this information account-wise, you can select the required account from the dropdown list available at the top of this widget. The Reset icon in the top right corner, enables you to reset the widget data.

A doughnut graph depicts the 'To Receive' or 'To Pay' amounts, currency-wise, for the selected span of days. The amounts are also listed in figures along with the count of transactions for each currency. On clicking the arrow beside a count, an overlay section appears with the itemized categories or cashflow transactions, such as Credit Transfers, Cheques, Cash Deposits, and so on. The overlay section includes the **View Details** link, which when clicked displays the <u>View</u> <u>Expected Cash Flow</u> screen. The data displayed in this screen is based on what you select in the widget, with respect to the number of days, 'To Receive' or 'To Pay' options, account number, and currency.

**Collections Summary**: This widget displays a bar graph representing the amounts received through cheque collection or cash collection, or both. Daily collections for the last 10 days or monthly collections for the last 10 months can be viewed. All amounts are expressed in the local currency of the corporate. The bars representing the cheque collections are color coded to indicate the amounts that are realized and unrealized. The Collections Summary widget also displays the <u>View Cheque Deposits</u> and the <u>View Cash Deposits</u> links that can be clicked to visit the respective screens, which display detailed records of the summary.

**Unrealized Cheque Aging:** This widget displays the number of cheques that are presently unrealized, and will be realized in the coming days. These are grouped in terms of number of days, such as, cheques that will be realized in 0 - 7 days, 8 - 14 days, 15 - 21 days, and Above 21 days. A doughnut graph represents the percentage of cheques that will be realized in each of these time frames. Click on each specified time frame link to view the cheque number, the cheque amount, and the actual day on which the cheque will be realized. Click the <u>View Cheque</u> **Details** link in this widget to view further cheque details.

**Collections as per Pickup Points**: This widget displays a line graph indicating the amounts collected from the top 10 pickup points in the last 7 days. This data can also be viewed for the last 5 days, the previous day, or the present day. The graph consists of the pickup point codes on the X axis and the amounts in local currency on the Y axis. Data can be viewed with respect to cheque (default) or cash collections, using the switch on the top right corner of the widget. On selecting the 'Cheque' option, the <u>View Cheque Deposits</u> link appears at the bottom of the widget, which when clicked, displays the corresponding screen. Similarly, on selecting the 'Cash' option, the <u>View Cash Deposits</u> link appears. You can also view the collections for specific pickup locations, by clicking the filter icon and selecting the required locations.

**Cash Withdrawal Summary**: This widget displays a line graph depicting the daily cash withdrawals for the past 5 days, in local currency. You can also view the withdrawals for the past 5 months. The <u>View Cash Withdrawal</u> link is present at the bottom of the widget, which when clicked displays the <u>View Cash Withdrawal</u> screen. The data displayed in this screen will correspond to the past 5 days or past 5 months (in local currency) as per the selection in the widget.

**Cash Flow Forecast**: This widget displays the cash flow forecast data of the corporate on a bar graph for a span of 12 months, which includes today's date plus 6 months and minus 6 months. On the landing page, a monthly view of the expected inflows, outflows, surplus/deficit, reconciled for inflow, and reconciled for outflow data, is displayed. You can use the respective buttons to get daily, weekly, or quarterly views as well. You can zoom in, zoom out and scroll in this widget to go to a particular date/week/month/quarter range. You can also use the area graph at the bottom of this widget to set a specific period to view the details. The slider present on the area graph, can be moved or resized, as required.

# 5. Cash Flow

## 5.1 Cash Flow Forecasting

Cash flow forecasting is a projection of an organization's financial position based on records entered in the system for payments and receivables. While planning investments, the Corporate also needs to forecast future contingencies and ensure profitability. To enable this, the Corporate must use efficient cash flow forecasting and management tools. The Cash Flow Forecasting application facilitates financial liquidity within an organization and ensures that the business has the necessary cash to meet its future obligations, by efficiently managing cash inflows and outflows.

The **Cash Flow Forecasting** screen gives the Actual forecast as well as the Predicted forecast of the corporate's inflows and outflows. In the Predicted forecast, the system predicts the possible payment day of the cash flows on the basis of the patterns of its history. The system also projects a graphical representation and gives a detailed summary of the cash flows.

The application also gives an option to view the combined forecasts of Actual and Predicted data in a single screen.

### The widgets shown on the Cash Flow Forecasting screen are as follows:

### • Today's Snapshot

This widget provides a quick overview of the current day's expected inflows and outflows along with the opening and projected closing balances. The data is displayed in local currency by default on the landing page. If any filter value is selected from the top filter, then the data will be displayed as per the selected value in the filter.

### • Cash Flow Forecast

This widget provides a graphical representation of the cash flow forecast for the Corporate for future and past months. The data is displayed in local currency by default on the landing page. If any filter value is selected from the top filter, then the data will be displayed as per the selected value in the filter. It provides quarterly, monthly, weekly, or daily views of the expected inflows and outflows on a bar graph. A line graph depicts whether there is a surplus or deficit for a given quarter or month or week or day.

### • Cash Flow Summary

This widget provides the corporate user a quarterly, monthly, weekly, or daily view of the aggregated summary of cash flows (inflows and outflows) at a cash flow category level. It displays the total sum of inflows or outflows at a category level for a particular quarter or month or week or day, depending on which frequency is selected. The data is displayed in local currency by default on landing. If any filter value is selected from the top filter, then the data will be displayed as per the selected value in the filter.

• Cash Flow Details: This is an overlay window which appears on clicking any category link in the Cash Flow Summary widget. It displays detailed cash flow records for the entire period selected by the user. The records are grouped at a Real Account level by default. The user can choose to change the grouping to a Virtual Account level or a Counter-party level. The data is displayed in local currency by default on the landing page. Once the grouped data is expanded, the data is displayed in the currency of the respective record. If any filter value is selected from the top filter, then the data will be displayed as per the selected value in the filter.

## Prerequisites:

• Transaction access is provided to the corporate user

### **Field Description**

Field Name	Description

If you select the **Actual** forecast option, then the following fields are displayed in the **Today's Snapshot** widget.

Opening Balance	Displays the corporate's opening balance as of that particular time in local currency, by default on the landing page. It is the sum of balances of all CASA accounts, which are accessible to the user.
	Click the edit icon beside the opening balance amount to enter the required value. Click the save icon to save the entered value. The <b>Actual Projected Closing Balance</b> and the <b>Actual Surplus/Deficit</b> fields are automatically calculated and updated after considering the inflows and outflows of the day.
Actual Inflow	Displays the corporate's current day expected unreconciled inflow amount in local currency, by default on the landing page. The total number of inflow cash records is also displayed beside this field.
Actual Outflow	Displays the corporate's current day expected unreconciled outflow amount in local currency, by default on the landing screen. The total number of outflow cash records is also displayed beside this field.
Actual Surplus/Deficit	Displays the corporate's expected surplus or deficit amount for the current day.
	Note: 1) In case of Surplus, system display "Up Arrow" in Green colour (inflow amount is more than outflow for today) 2) In case of Deficit, system display "Down Arrow" in Red colour (outflow amount is more than inflow for today)

Field Name	Description
Actual Projected Closing Balance	Displays the projected closing balance of the corporate for the current day.
	This value is derived by adding the inflow amount to, and subtracting the outflow amount from the opening balance. If you edit the opening balance, then the closing balance is automatically calculated and updated.

## **Field Description**

### Field Name Description

If you select the **Predicted** forecast option, then the following fields are displayed in the **Today's Snapshot** widget. If any filter has been selected in the top filter, then the data is displayed as per the selected filter.

Opening Balance	Displays the corporate's opening balance as of that particular time in local currency by default, on the landing page. It is the sum of balances of all CASA accounts, which are accessible to the user.
	Click the edit icon beside the opening balance amount to enter the required value. Click the save icon to save the entered value. The <b>Predicted Projected Closing Balance</b> and the <b>Predicted Surplus/Deficit</b> fields are automatically calculated and updated after considering the predicted inflows and outflows of the day.
Predicted Inflow	Displays the corporate's predicted current day expected unreconciled inflow amount. The total number of inflow cash records is also displayed beside this field.
Predicted Outflow	Displays the corporate's predicted current day expected unreconciled outflow amount. The total number of outflow cash records is also displayed beside this field.

Field Name	Description			
Predicted Surplus/Deficit	Displays the corporate's predicted expected surplus or deficit amount for the current day.			
	Note: 1) In case of Surplus, system display "Up Arrow" in Gree colour (inflow amount is more than outflow for today) 2) In case of Deficit, system display "Down Arrow" in Rec colour (outflow amount is more than inflow for today)			
Predicted Projected Closing Balance	Displays the predicted projected closing balance of the corporate for the current day.			
	This value is derived by adding the inflow amount to, and subtracting the outflow amount from the opening balance. If you edit the opening balance, then the closing balance is automatically calculated and updated.			

## Today's Snapshot with 'Both' Option Selected

Note: A combination of the above fields (Actual and Predicted) is displayed if the Both

option is selected. The edit opening balance ( ) option is however not available for this option.

## 5.1.2 Cash Flow Forecast widget

## **Field Description**

#### Field Name

## Description

Cash Flow Forecast (Actual) widget (Displayed on selection of 'Actual' option)

This widget displays the actual cash flow forecast data of the corporate on a bar graph for a span of 12 months, which includes today's date plus 6 months and minus 6 months. On the landing page, a monthly view of the actual inflows, outflows, surplus/deficit, reconciled for inflow, and reconciled for outflow data, is displayed. You can also use the respective buttons to get daily, weekly, or quarterly views.

The frequency and time frame for viewing this data for a specific category (for inflow or outflow) can be entered by clicking the Filter ( $\nabla$ ) icon. A pop-up window appears, where you can set the desired parameters, and click **Apply**. The graph is updated accordingly. Once you set a time frame for a particular frequency, using this pop-up window, the other frequency buttons at the top of the widget, are disabled. Inorder to view a different frequency, either click the Reset ( $^{\bigcirc}$ ) icon, or click the Filter ( $\nabla$ ) icon again, and select the desired frequency and time frame.

You can zoom in, zoom out and scroll in this widget to go to a particular time range. You can also use the area graph at the bottom of this widget to set a specific period to view the details. The slider present on the area graph, can be moved or resized, as required.

Quarterly	Click this button to view the actual quarterly forecasted cash flow for a 12-month period (today plus 6 months and minus 6 months) or for any period selected in the filter. The actual values of inflow, outflow, surplus/deficit, and reconciled values aggregated for each quarter, are displayed.
Monthly	Click this button to view the actual monthly forecasted cash flow for a 12-month period (today plus 6 months and minus 6 months) or for any period selected in the filter. The actual values of inflow, outflow, surplus/deficit, and reconciled values aggregated for each month are displayed. This is also the default view on the landing page.

Field Name	Description
Weekly	Click this button to view the actual weekly forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The actual values of inflow, outflow, surplus/deficit, and reconciled values aggregated for each week are displayed. To view the weekly data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
Daily	Click this button to view the actual daily forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The actual values of inflow, outflow, surplus/deficit, and reconciled values aggregated for each day are displayed. To view the daily data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
$\nabla$	Click this icon to filter the cash flow forecasting details for a required frequency (quarterly/monthly/weekly/daily), and time frame. A pop-up window appears, where you can set the required parameters. You can also set a specific Inflow or Outflow category to view the cash flow forecasting data.
	Once you set a specific time frame for a particular frequency, using this pop-up window, the other frequency buttons at the top of the widget, are disabled. Inorder to view a different frequency, either click the Reset ( $^{\bigcirc}$ ) icon, or click the Filter ( $^{\checkmark}$ ) icon again, and select the desired frequency and time frame.
	The selected filter options are applied to the <b>Cash Flow Forecast</b> widget as well as the <b>Cash Flow Summary</b> widget.
G	Click this icon to reset the cash flow forecast graph.
Previous 3 Months	Click this button to view actual cash flow forecast data for the previous 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views, only if you set a time frame less than 12 months in the Filter ( $\checkmark$ ) pop-up window.
Next 3 Months	Click this button to view actual cash flow forecast data for the next 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views, only
	if you set a time frame less than 12 months in the Filter ( $oldsymbol{V}$ ) popup window.
The below mentioned Forecast graph.	fields appear in a tile, on hovering over the bars in the Cash Flow
Date or Week or Month or Quarter Details	Displays the date, week, month, or quarter for which forecasting is being viewed.
Actual Inflow	Displays the inflow amount for the selected period

Actual Inflow Displays the inflow amount for the selected period.

Field Name	Description
Reconciled for Inflow	Displays the amount reconciled for inflow, for the selected period.
Actual Outflow	Displays the outflow amount for the selected period.
Reconciled for Outflow	Displays the amount reconciled for outflow, for the selected period.

## Area graph

Under the cash flow forecasting widget, an area graph is displayed, which replicates the part displayed in the main graph. You can slide the rectangular box available in the area graph to navigate to a particular date range. You can also expand or contract the box to include different time frames. The data in the Cash Flow Forecast graph is updated based on the movement of the rectangular box in the area graph.

### Field Name Description

Cash Flow Forecast (Predicted) widget (Displayed on selection of Predicted option)

This widget displays the predicted cash flow forecast data of the corporate on a bar graph for a span of 12 months, which includes today's date plus 6 months and minus 6 months. The default data of 12 months is displayed only if the user has navigated from the default view of the Actual/Both forecast. If any filter values (top level or second level) are selected in the Actual/Both forecast, and if user has navigated to the Predicted forecast, then the data is displayed as per the filter. On the landing page, a monthly view of the predicted inflows, outflows, and surplus/deficit data is displayed. You can also use the respective buttons to get daily, weekly, or quarterly views.

The frequency and time frame for viewing this data for a specific category (for inflow or

outflow) can be entered by clicking the Filter ( $\nabla$ ) icon. A pop-up window appears, where you can set the desired parameters, and click **Apply**. The graph is updated accordingly. Once you set a time frame for a particular frequency, using this pop-up window, the other frequency buttons at the top of the widget, are disabled. Inorder to view a different frequency, either click the Reset ( $^{\bigcirc}$ ) icon, or click the Filter ( $\nabla$ ) icon again, and select the

desired frequency and time frame.

You can zoom in, zoom out and scroll in this widget to go to a particular time range. You can also use the area graph at the bottom of this widget to set a specific period to view the details. The slider present on the area graph, can be moved or resized, as required.

Quarterly	Click this button to view the predicted quarterly forecasted cash flow for a 12-month period (today plus 6 months and minus 6 months) or for any period selected in the filter. The predicted values of inflow, outflow, and surplus/deficit aggregated for each quarter, are displayed.
Monthly	Click this button to view the predicted monthly forecasted cash flow for a 12-month period (today plus 6 months and minus 6

flow for a 12-month period (today plus 6 monthly forecasted cash months) or for any period selected in the filter. The predicted values of inflow, outflow, and surplus/deficit aggregated for each month, are displayed.

Field Name	Description
Weekly	Click this button to view the predicted weekly forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The predicted values of inflow, outflow, and surplus/deficit aggregated for each week are displayed. To view the weekly data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
Daily	Click this button to view the predicted daily forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The predicted values of inflow, outflow, and surplus/deficit aggregated for each day are displayed. To view the daily data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
$\nabla$	Click this icon to filter the cash flow forecasting details for a required frequency (quarterly/monthly/weekly/daily), and time frame. A pop-up window appears, where you can set the required parameters. You can also set a specific Inflow or Outflow category to view the cash flow forecasting data.
	Once you set a specific time frame for a particular frequency, using this pop-up window, the other frequency buttons at the top of the widget, are disabled. Inorder to view a different frequency, either click the Reset $(\bigcirc)$ icon, or click the Filter $(\bigtriangledown)$ icon again,
	and select the desired frequency and time frame. The selected filter options are applied to the <b>Cash Flow Forecast</b> widget as well as the <b>Cash Flow Summary</b> widget.
$\nabla$	Click this icon to reset the cash flow forecast graph.
Previous 3 Months	Click this button to view predicted cash flow forecast data for the previous 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views,
	only if you set a time frame less than 12 months in the Filter ( $ abla$ ) pop-up window.
Next 3 Months	Click this button to view predicted cash flow forecast data for the next 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views, only
	if you set a time frame less than 12 months in the Filter ( $\mathbf{V}$ ) popup window.
The below mentioned Forecast graph.	fields appear in a tile, on hovering over the bars in the Cash Flow
Date or Week or Month or Quarter Details	Displays the date, week, month, or quarter for which forecasting is being viewed.

Field Name	Description			
Predicted Inflow	Displays the predicted inflow amount for the selected period.			
Predicted Outflow Displays the predicted outflow amount for the selected period				
Predicted Surplus/Deficit	Displays the predicted surplus/deficit amount for the selected period (Inflow-Outflow).			

### Area graph

Under the cash flow forecasting widget, an area graph is displayed, which replicates the part displayed in the main graph. You can slide the rectangular box available in the area graph to navigate to a particular date range. You can also expand or contract the box to include different time frames. The data in the Cash Flow Forecast graph is updated based on the movement of the rectangular box in the area graph.

### Cash Flow Forecast (Actual-Predicted) widget (Displayed on selection of 'Both' option)

This widget displays both actual and predicted cash flow forecast data of the corporate on a bar graph for a span of 12 months, which includes today's date plus 6 months and minus 6 months. The default data of 12 months is displayed only if the user has navigated from the default view of the Actual/Predicted forecast. If any filter values (top level or second level) are selected in the Actual/Predicted forecast, and if user has navigated to the 'Both' option forecast, then the data is displayed as per the filter. On the landing page, a monthly view of the actual and predicted inflows, outflows, and surplus/deficit is displayed. The actual values of 'reconciled for inflow', and 'reconciled for outflow' are also displayed. You can use the respective buttons to get daily, weekly, or quarterly views.

The frequency and time frame for viewing this data for a specific category (for inflow or outflow) can be entered by clicking the Filter ( $\nabla$ ) icon. A pop-up window appears, where you can set the desired parameters, and click **Apply**. The graph is updated accordingly. Inorder to reset the time frame, either click the Reset ( $^{\bigcirc}$ ) icon, or click the Filter ( $\overline{\nabla}$ ) icon again, and select the desired time frame.

You can zoom in, zoom out and scroll in this widget to go to a particular time range. You can also use the area graph at the bottom of this widget to set a specific period to view the details. The slider present on the area graph, can be moved or resized, as required.

Field Name	Description
Quarterly	Click this button to view the actual-predicted quarterly forecasted cash flow for a 12-month period (today plus 6 months and minus 6 months) or for any period selected in the filter. The actual- predicted values of inflow, outflow, and surplus/deficit along with actual reconciled values, aggregated for each quarter, are displayed.
Monthly	Click this button to view the actual-predicted monthly forecasted cash flow for a 12-month period (today plus 6 months and minus 6 months) or for any period selected in the filter. The actual- predicted values of inflow, outflow, and surplus/deficit along with actual reconciled values, aggregated for each month are displayed.
Weekly	Click this button to view the actual-predicted weekly forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The actual-predicted values of inflow, outflow, and surplus/deficit along with actual reconciled values, aggregated for each week are displayed. To view the weekly data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
Daily	Click this button to view the actual-predicted daily forecasted cash flow for a span of 12 months, with an upfront view of 3 months, which includes the current month or for any period selected in the filter. The actual-predicted values of inflow, outflow, and surplus/deficit along with actual reconciled values, aggregated for each day are displayed. To view the daily data for the next/previous three months, click the 'Next 3 Months' or 'Previous 3 Months' buttons available below the graph.
$\nabla$	Click this icon to filter the cash flow forecasting details for a required frequency (quarterly/monthly/weekly/daily), and time frame. A pop-up window appears, where you can set the required parameters. You can also set a specific Inflow or Outflow category to view the cash flow forecasting data.
	Once you set a specific time frame for a particular frequency, using this pop-up window, the other frequency buttons at the top of the widget, are disabled. Inorder to view a different frequency,
	either click the Reset ( $^{\bigcirc}$ ) icon, or click the Filter ( $^{\bigtriangledown}$ ) icon again, and select the desired frequency and time frame.
	The selected filter options are applied to the <b>Cash Flow Forecast</b> widget as well as the <b>Cash Flow Summary</b> widget.
Ģ	Click this icon to reset the cash flow forecast graph.

Field Name	Description			
Previous 3 Months	Click this button to view actual-predicted cash flow forecast data for the previous 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views, only if you set a time frame less than 12 months in the Filter $(\nabla)$ pop-up window.			
Next 3 Months	Click this button to view actual-predicted cash flow forecast data for the next 3 months. This button is available by default for 'Daily' and 'Weekly' views. It appears for 'Monthly' and 'Quarterly' views, only if you set a time frame less than 12 months in the Filter ( $\nabla$ ) pop-up window.			

On hovering over the bars in the Cash Flow Forecast graph, the following fields are displayed:

- In case of an **Actual** forecast bar:
  - Date or Week or Month or Quarter
  - o Actual Inflow
  - Actual Outflow
  - Actual Surplus/Deficit
  - Reconciled for Inflow
  - o Reconciled for Outflow
- In case of a **Predicted** forecast bar:
  - o Predicted Inflow
  - Predicted Outflow
  - o Predicted Surplus/Deficit

This widget enables you to view the aggregated summary of cash flows (inflows and outflows) at a cash flow category level, for the time period selected in the filter in the Cash Flow Forecast widget. You can view the summary data quarter-wise, month-wise, weekwise, or day-wise. These time frames can be selected in the Cash Flow Forecast widget. By default, on the landing page, 12 months' data is displayed which includes today's date plus 6 months and minus 6 months. Following are the fields available in the Cash Flow Summary widget:

<previous arrow=""></previous>	Click this arrow to view data for the previous 6 days, or weeks, or months, or quarters, based on frequency selected.
<next arrow=""></next>	Click this arrow to view data for the next 6 days, or weeks, or months, or quarters, based on frequency selected.
i	Click this icon and select any particular date, week, month or quarter from the given calendar to view the cash flow summary. You can only select within the time frame that has been set in the Cash Flow Forecast widget.

Field Name	Description
Add Opening Balance	On clicking this link, the <b>Opening Balance</b> row appears in the summary grid along with the edit ( ) icons under each column. Click the icon to enter the opening balance in the required column. Upon entering the balance, click the save icon that appears, to save the balance. On save, system will calculate the surplus and deficit and the projected closing balance for that column and for all the following columns. (The closing balance of previous column becomes the opening balance of the next column.) The <b>Projected Closing Balance</b> value at the bottom of the grid, is updated accordingly. Click the <u>Hide Opening Balances</u> link to hide the opening balances.
Description	Displays the <b>Inflow</b> and <b>Outflow</b> grouped on the basis of categories. <b>Surplus/Deficit</b> is calculated as Outflow minus Inflow. Expand the Inflow and Outflow lists, to view the categories under each of them. The category names are hyperlinks, which when clicked display the <b>Cash Flow Details (Actual)</b> overlay window. For more details, refer the <u>Cash Flow Details (Actual)</u> overlay window section below.
	The overlay window displays the records belonging to the selected category for a 12-month period by default. If the filter has been used to select a different time range, then the records are displayed for the selected range. You can edit the time frame by clicking the edit icon in the top right corner of this window, and selecting the 'from' and 'to' dates within the specified range.
	The records are grouped by real account numbers or International Bank Account Number, based on the configuration set by the bank. You can choose to change the grouping into virtual account or counter party, by selecting the appropriate option from the <b>View</b> <b>by</b> list.
Quarterly Data	Displays the actual quarterly data for 4 quarters, by default, in the Cash Flow Summary widget. If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then quarterly data for the selected period is displayed. A maximum of 6 quarters can be displayed upfront, if the selected time range has 6 or more quarters. If there are more than 6 quarters then you can navigate to the next/previous quarters using the arrows.

Field Name	Description
Monthly Data	Displays the actual monthly data for six months, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 months' data. You can click the arrows available, to view the next/previous 6 months' data (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then the monthly data for the specified period is displayed. A maximum of 6 months from the first month of the selected period, is displayed upfront.
Weekly Data	Displays the actual weekly data for a 6-week period, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 weeks' data. You can click the arrows available, to view the next/previous 6 weeks' data (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 weeks from the first week of the selected period, is displayed.
Daily Data	Displays the actual daily data for six days, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 days' data. You can click the arrows available, to view the next/previous 6 days' data or can use the calendar to view the data for a particular date + 5 days (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 days from the first day of the selected period, is displayed.

This widget enables you to view the predicted aggregated summary of cash flows (inflows and outflows) at a cash flow category level, for the time period selected in the filter in the Cash Flow Forecast widget. You can view the summary data quarter-wise, month-wise, week-wise, or day-wise. These frequencies can be selected in the Cash Flow Forecast widget. By default, on the landing page, 12 months' data is displayed which includes today's date plus 6 months and minus 6 months. If any filter values (top level or second level) are selected in the Actual/Both forecast, and if the user then navigates to the Predicted forecast, then the data is displayed as per the filter. Following are the fields available in the Cash Flow Summary widget:

Field Name	Description
<previous arrow=""></previous>	Click this arrow to view data for the previous 6 days, or weeks, or months, or quarters, based on frequency selected.
<next arrow=""></next>	Click this arrow to view data for the next 6 days, or weeks, or months, or quarters, based on frequency selected.
	Click this icon and select any particular date, week, month or quarter from the given calendar to view the cash flow summary. You can only select within the time frame that has been set in the Cash Flow Forecast widget.
Description	Displays the <b>Inflow</b> and <b>Outflow</b> grouped on the basis of categories. <b>Surplus/Deficit</b> is calculated as Outflow minus Inflow. The Opening Balance and Projected Closing Balance are also displayed, if present.
	Expand the Inflow and Outflow lists, to view the categories under each of them. The category names are hyperlinks, which when clicked display the <b>Cash Flow Details (Predicted)</b> overlay window. For more details, refer the <u>Cash Flow Details</u> <u>(Predicted)</u> overlay window section below.
	Upon landing on this page, the overlay window displays the records belonging to the selected category for a 12-month period by default. If the filter has been used to select a different range, then the records are displayed for the selected range. You can edit the time frame by clicking the edit icon in the top right corner of this window, and selecting the 'from' and 'to' dates within the specified range.
	The records are grouped by real account numbers or International Bank Account Number, based on the configuration set by the bank. You can choose to change the grouping into virtual account or counter party, by selecting the appropriate option from the <b>View</b> <b>by</b> list.
Quarterly Data	Displays the predicted quarterly data for 4 quarters, by default, in the Cash Flow Summary widget.
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then quarterly data for the selected period is displayed. A maximum of 6 quarters can be displayed upfront, if the selected time range has 6 or more quarters. If there are more than 6 quarters then you can navigate to the next/previous quarters using the arrows.
Monthly Data	Displays the predicted monthly data for six months, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 months' data. You can click the arrows available, to view the next/previous 6 months' data (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then the monthly data for the specified period is displayed. A maximum of 6 months from the first month of the selected period, is displayed upfront.

Field Name	Description
Weekly Data	Displays the predicted weekly data for a 6-week period, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 weeks' data. You can click the arrows available, to view the next/previous 6 weeks' data (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 weeks from the first week of the selected period, is displayed.
Daily Data	Displays the predicted daily data for six days, in the Cash Flow Summary widget.
	By default, the system shows the current + 5 days' data. You can click the arrows available, to view the next/previous 6 days' data or can use the calendar to view the data for a particular date + 5 days (depending upon the data available in the backend).
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 days from the first day of the selected period, is displayed.

This widget enables you to view the actual-predicted aggregated summary of cash flows (inflows and outflows) at a cash flow category level, for the time period selected in the filter in the Cash Flow Forecast widget. You can view the summary data quarter-wise, month-wise, week-wise, or day-wise. These frequencies can be selected in the Cash Flow Forecast widget. By default, on the landing page, 12 months' data is displayed which includes today's date plus 6 months and minus 6 months. The actual and predicted data for 3 months is displayed upfront. You can navigate to the other time periods using the arrows. If any filter values (top level or second level) are selected in the Actual/Predicted forecast, and if the user then navigates to the 'Both' option, then the data is displayed as per the filter. Following are the fields available in the Cash Flow Summary widget:

<previous arrow=""></previous>	Click this arrow to view data for the previous 6 days, or weeks, or months, or quarters, based on frequency selected.
<next arrow=""></next>	Click this arrow to view data for the next 6 days, or weeks, or months, or quarters, based on frequency selected.
	Click this icon and select any particular date, week, month or quarter from the given calendar to view the cash flow summary. You can only select within the time frame that has been set in the Cash Flow Forecast widget.

Field Name	Description
Description	Displays the <b>Inflow</b> and <b>Outflow</b> grouped on the basis of categories. <b>Surplus/Deficit</b> is calculated as Outflow minus Inflow. The Opening Balance and Projected Closing Balance are also displayed, if present.
	Expand the Inflow and Outflow lists, to view the categories under each of them. The category names are hyperlinks, which when clicked displays the <b>Cash Flow Details (Actual-Predicted)</b> overlay window. For more details, refer the <u>Cash Flow Details</u> ( <u>Actual-Predicted</u> ) overlay window section below.
	This window essentially displays all the cash flow records for the selected category, for a 12-month period by default. If the filter in the Cash Flow Forecast widget has been used to select a different range, then the records are displayed for the selected range. You can edit the time frame by clicking the edit icon in the top right corner of this window, and selecting the 'from' and 'to' dates within the specified range.
	The records are grouped by real account numbers or International Bank Account Number, based on the configuration set by the bank. You can choose to change the grouping into virtual account or counterparty, by selecting the appropriate option from the <b>View</b> <b>by</b> list.
Quarterly Data	Displays the actual-predicted quarterly data for 4 quarters, in the Cash Flow Summary widget, with an upfront view of 3 quarters (current + 2). You can navigate to the next/previous quarter using the arrows.
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then quarterly data for the selected period is displayed.
Monthly Data	Displays the actual-predicted monthly data for six months, in the Cash Flow Summary widget, with an upfront view of 3 months (current + 2). You can navigate to the next/previous months using the arrows.
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then the monthly data for the specified period is displayed.
Weekly Data	Displays the actual-predicted weekly data for a 6-week period, in the Cash Flow Summary widget, with an upfront view of 3 weeks (current + 2). You can navigate to the next/previous weeks using the arrows.
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 weeks from the first week of the selected period, is displayed.

Field Name	Description
Daily Data	Displays the actual-predicted daily data for six days, in the Cash Flow Summary widget, with an upfront view of 3 days (current + 2). You can navigate to the next/previous days using the arrows.
	If you have selected a different time frame using the filters in the Cash Flow Forecast widget, then data for 6 days from the first day of the selected period, is displayed.

## Cash Flow Details (Actual) overlay window

Actual Date	Displays the actual date of the predicted cash flow.
Actual Amount	Displays the actual amount of the predicted cash flow.
Unreconciled Amount	Displays the cash flow amount that is not yet reconciled.

# <u>FAQ</u>

#### 1. Can the user see the past month's inflows and outflows as well?

On the landing page, the system displays default data for a period of 12 months, which includes today's date plus 6 months and minus 6 months. However, you can search for any desired period range using the filter option available on top of the Cash Flow Forecast graph.

#### 2. What is Surplus and Deficit and how does it get calculated?

A surplus occurs when the inflow of money exceeds the outflows for a particular period. After subtracting the outflows for a particular period from inflows for that period, if a positive amount is obtained, it is called as Surplus. It denotes that corporate will have surplus of cash during that period.

A deficit occurs when the outflow of money exceeds the inflows for a particular period. After subtracting the outflows for a particular period from inflows for that period, if a negative amount is obtained, it is called as Deficit. It denotes that corporate will have a shortfall of cash during that period.

#### 3. What does Cash flow categories signifies?

Cash flow categories are the high-level inflow, out flow heads under which the inflows and out flows are expected. For example, under Outflows Payroll, Marketing, Taxes, Operating Expenses can be some of the examples of categories. Similarly, for Inflows, Collections, Royalties, Interest, Sale of Property can be some of examples. By looking the amount against these categories, user can get to know the aggregated sum of amount expected to receive or pay for each head.

# 5.2 Expected Cash Flow

The corporate user can record cash flows that are expected to occur in the future. Both inflow and outflow records can be added. For each cash flow entry, the user can add the expected date of the cash flow, the account number to be debited/credited, the linked reference number (such as, cheque number or invoice number), the amount, and the currency. Expected cash flow records are also considered in the Cash Flow Forecasting functionality.

The following functions are available for managing expected cash flow.

- Create Expected Cash Flow
- View Expected Cash Flow
- Edit Expected Cash Flow
- Delete Expected Cash Flow

#### Pre-requisites:

• Transaction access is provided to the corporate user.

## 5.2.1 Create Expected Cash Flow – Onscreen and Bulk File Upload

Expected cash flow records can be created in one of the following ways:

- By manually entering the details of the cash flow on the screen.
- By uploading a file (in one of .csv, .xls, .xlsx, or .xml format) that contains the cash flow details. This method enables the user to create bulk records.

Both one-time transaction records as well as recurring transaction records can be created.

#### 5.2.1.1 Creating Single/Recurring Cash Flow Records (manual entry)

#### How to reach here:

Dashboard > Toggle menu > Cash Management > Cash Flow > Create Expected Cash Flow

To create expected cash flow record (manual entry):

#### **Create Expected Cash Flow**

## Create Expected Cash Flow (overlay window)

Field Name	Description			
Create Expected Cash Flow (overlay window)				
Туре	Select whether the cash flow is an inflow or an outflow.			
Expected Date	Enter the expected date of expected cash flow transaction.			
Category	Select the category of the cash flow transaction. The values in this list depend on the option selected in the <b>Type</b> field (inflow or outflow).			
Category Code	Enter the code for the category. This field appears when you select the <b>Others</b> option from the <b>Category</b> list.			
Category Name	Enter a description for the category. This field appears when you select the <b>Others</b> option from the <b>Category</b> list.			
Customer Reference Number	Enter the customer's own reference number for the cash flow.			
Real Account	Select the account number of the corporate party for the expected cash flow transaction. The dropdown list either displays the real account numbers or the International Bank Account Number (IBAN), based on the configuration set by the bank.			
Virtual Account Number	Enter the virtual account number of the corporate party for the expected cash flow transaction.			
	<b>Note</b> : This field will be disabled if the Real Account is selected for expected cash flow transaction.			

Field Name	Description
Virtual Account Name	Enter the virtual account name of the corportate party for the expected cash flow transaction
	<b>Note</b> : This field will be disabled if the Real Account is selected for expected cash flow transaction.
Search	Click Search to search the virtual account with the account number, and account name specified.
Counter Party Id	Enter the ID of the counter party.
Counter Party Name	Enter the name of the counter party.
Currency	Select the currency for the expected cash flow transaction.
Amount	Enter the amount of the expected cash flow transaction.
Revised Expected Date	Enter the revised date when the cash flow is expected to take place, if required.
Narration	Enter the narration of the expected cash flow transaction.
Recurring	Switch the toggle on, if the expected cash flow transaction must recur.
	<b>Note:</b> On selecting a recurring transaction, when the user submits the cash flow set up, 'n' number of cash flow records are automatically created, depending on the frequency, start date and end date. Refer the ' <u>Added Cash Flow –</u> <u>Recurring Cash Flow Record</u> ' screenshot below.
Frequency	Select the frequency of recurrence of the expected cash flow transaction. This field appears if the <b>Recurring</b> toggle is switched on.
From Date / To Date	Enter the date range within which the expected cash flow transaction must recur. These fields appear if the <b>Recurring</b> toggle is switched on. Once you save a recurring transaction, those many records are created as are applicable between the <b>From Date</b> and <b>To Date</b> .

- 2. Once you add the required details, click **Add**. The cash flow transaction record is added to the **Added Cash Flow** list.
  - a. To edit or delete the added entry, click is beside the record, and select Edit or Delete.
  - b. To add further cash flow transaction records, click Add More.

# 6. Collections

Several corporates, such as retail stores, have a huge inflow of physical cash/cheques on a daily basis. This has to be deposited in the corporate's bank account(s) on a regular basis. The corporate can either arrange for the cash/cheques to be deposited at a branch or opt for the pick-up service, where a bank representative collects the cash/cheques and makes the deposit on behalf of the corporate.

The Collections services offered by the bank enable the corporate user to enter the details of the cash/cheque being deposited.

#### **Pre-Requisites:**

• Transaction access is provided to the corporate user.

# 6.1 Cash Deposits

## 6.1.1 Create Cash Deposit

Using this screen, you can enter the details of the physical cash being deposited into the corporate's account. Once you enter the cash details, you can also save the entry as a draft, to resume later.

#### How to reach here:

Dashboard > Toggle menu > Cash Management > Collections > Cash Deposit

#### To create a deposit slip:

# **Enrichment Details**

This section displays the additional information added as part of enrichment of data, for each deposit slip record.

#### **Additional Details**

This section displays the details entered for easy identification and reconciliation of the cash deposited.

**Number of Additional** Displays the number of fields of additional details. **Fields** 

**Field 1 – Field 10** Displays the additional details entered during cash deposit creation. The number of fields can range from 1 to 10.

# 6.2 <u>Cheques</u>

# 6.2.1 Create Cheque Deposit

Using this screen, you can enter the details of the cheques being deposited into the corporate's account. Once you enter the cheque details, you can also save the entry as a draft, to resume later.

For creating a cheque deposit slip, there are two separate entries to be made:

- Add Deposit Slip Details It is mandatory to create a deposit slip for every deposit being made.
- Add Cheque Details You can link one or more cheques to a single deposit slip.

#### How to reach here:

Dashboard > Toggle menu > Cash Management > Collections > Cheque Deposit

#### To create a deposit slip and add cheques to it:

Party Name ABZ Solutions   ***462	•	1						
Draft						Create D	eposit Slip

#### **Field Description**

Field Name	Description			
Create Cheque De	eposit			
Party Name	Select the party name from the dropdown list in which the Cheque Deposit must be created. By default, the primary party/gcif of the logged-in user is selected.			
	Note: Only accessible parties are displayed to the user.			

#### Draft

A list of cheque deposit entries saved as drafts is displayed, with the following fields.

Field Name	Description
Search	Indicates an option to search for specific cheque deposit drafts. Enter the partial or complete draft name, or reference number, or creation date, or last updated date, to view matching records.
	The search results appear as you type the search string.
Draft Name	Displays the name that has been used to save the cheque deposit draft. This is a hyperlink which when clicked enables you to edit the draft.
Creation Date	Displays the date of creation of the cheque deposit draft record.
Number of Deposit Slips	Displays the number of deposit slips present in the cheque deposit draft record.
Last Updated	Displays the date when the cheque deposit draft record was last updated.
団	Indicates an option to delete the cheque deposit draft record. On clicking this icon, a pop-up window appears requiring you to confirm the deletion.

1. In the **Create Cheque Deposit** screen, click **Create Deposit Slip** to create a new deposit slip. The **Add Deposit Slip Details** overlay window appears.

**Note:** If you have previously saved the deposit slip as a draft, then click the required link under **Draft Name**, to continue the creation process.

# **Field Description**

Field Name Description

Field Name	Description			
Add Deposit Slip Deta	ils (overlay window)			
Deposit Slip Number	Enter a unique number for the cheque deposit slip.			
Deposit Slip Date	Select the date of creation of the cheque deposit slip. This date must be greater than or equal to the current date.			
Credit Account Number	Select the account number for crediting the cheque amount. The dropdown list either displays the real account numbers or the International Bank Account Number (IBAN), based on the configuration set by the bank. Once you select an account number, the currency and balance of that specific account automatically appear below the account number.			
	If an account number is not provided in this field, then the same is picked up from the pooling details maintained. Click the <b>Pooling <u>Account Details</u></b> link in the overlay window, to view these. However, if pooling details are not maintained, then it is mandatory to provide an account number here.			
Division Code	Select the relevant division code. You must select a value in this field, if division code is mandatorily required as per enrichment set up for the corporate party.			
Service Type	Select the service to be used for depositing the cheque. The options are:			
	<ul> <li>Pickup – This option is available for selection only if the corporate is registered for the pick-up service.</li> </ul>			
	<ul> <li>Deposit at Branch – The corporate must make their own arrangements to deliver the cheque at the branch for depositing.</li> </ul>			
Pickup Date	Select a date for the bank to pick up the cheque. This field appears when you select the <b>Pickup</b> option in the <b>Service Type</b> field.			
Pickup Location	Select the location from where the bank must pick-up the cheque. This field appears when you select the <b>Pickup</b> option in the <b>Service Type</b> field.			
Pickup Point	Select the required pick-up point. This field appears when you select the <b>Pickup</b> option in the <b>Service Type</b> field.			
Pooling Account Details	This is a hyperlink which when clicked displays a pop-up window with the pooling level details fetched from the host.			
Percentage Pooling NO	Basis of Amount Credit     Pooling Level       Pooling Level     Account			
Pooling Level	Displays the pooling level set at the host.			

Field Name	Description
Basis of Amount Credit	Displays the level at which pooling will be applied to the cheque amount.
Percentage Pooling	Displays whether or not percentage pooling is applicable.
Pooling Account Number	Displays the account numbers that the cheque amount must be credited to. The list either displays the real account numbers or the International Bank Account Number (IBAN), based on the configuration set by the bank.
Percentage	Displays the percentage of cash being deposited in each account.

### Additional Details

This section is provided to enable you to capture additional data regarding the cheque deposit record, if required. You can decide the number of fields required and enter the information in the fields accordingly.

Number of Additional Fields	Enter the number of fields required for adding details. Once you add a number, those many data entry fields appear. The maximum value that is allowed in this field is 10.
Field 1 – Field 10	Enter the additional details in the data entry fields. A maximum of 10 fields can be present.

#### **Enrichment Details**

You can use this section to add enrichment information that must be associated with the cheque being deposited. The number and types of fields available in this section depend on what has been set up for the corporate, by the bank.

- Once you enter the required details, click Save Enrichment. A record entry with the enrichment details appears, with options to edit or delete it.
  - To edit the enrichment details, click
  - To delete the enrichment details, click  $\stackrel{{}_{\scriptstyle \ensuremath{\overline{12}}}}{=}$  .
- 3. Click Add. The record appears in the **Deposit Slip Details** list in the **Create Cheque Deposit** screen.
  - To edit or delete the deposit slip record, you can click and select the relevant option.
  - Click Save as Draft to save the entered values and resume at a later point in time.

Field Name	Description
Bank Name	Enter the partial or full bank name, on which the cheque has been drawn. This field should be used in conjunction with the branch field for the search.
	The search results appear as you type the search string.
Branch	Enter the partial or full branch name, on which the cheque has been drawn. This field should be used in conjunction with the bank field for the search.
	The search results appear as you type the search string.
Routing Number	Enter the partial or full routing number to search for the bank on which the cheque has been drawn.
	The search results appear as you type the search string.
Q	Click this icon to search for the bank on which the cheque has been drawn, after entering the search string(s). A list of matching bank names with their details appears. Click the <u>Select</u> link beside the required bank record. The selected bank record appears in the <b>Drawn on Bank Details</b> section.
0	Click this icon to reset the search string(s) entered.

# Additional Details

This section is provided to enable you to capture additional data regarding the cheque, if required. For example, you can enter details for easy identification and reconciliation of the cheque being deposited.

Number of Additional Fields	Enter the number of fields required for adding details. Once you add a number, those many data entry fields appear. The maximum value that is allowed in this field is 10.
Field 1 – Field 10	Enter the additional details in the data entry fields. A maximum of 10 fields can be present.

#### **Enrichment Details**

You can use this section to add enrichment information that must be associated with the cheque deposit record, for easy identification in future. The number of fields, their types, and whether they should be mandatory or optional during entry, are configured in the enrichment set up by the bank.

- 5. Once you enter the required details, click **Save Enrichment**.
- 6. Click **Add**. The cheque details are added to the deposit slip.
  - To add another cheque record, click the **<u>Add Cheque</u>** link.
  - To view the details of the cheques added, click the **<u>Show Cheques</u>** link. The number beside the link denotes the number of cheques added to the deposit slip.
  - To edit or delete the deposit slip, click •.
  - To add another deposit slip to the transaction, click Add Deposit Slip.
  - Click Save as Draft to save the entered details and resume at a later point in time.

Field Name	Description
------------	-------------

#### List of Cheques

This section displays a list of existing cheque deposit records. You can search for specific records using the search field and narrow the results down using the filter ( $\checkmark$ ) options. You can also download the list in CSV format.

Cheque Number Date	Displays the unique number of the cheque. This is a hyperlink which when clicked displays the details of the cheque. For more information on the details displayed, refer the <u>View Cheque Collection Details</u> section below. Also displays the date of issue of the cheque.			
Cheque Amount	Displays the amount for which the cheque has been drawn.			
Realization Amount	Displays the cheque amount that has been realized.			
Drawer Name	Displays the name of the party that has issued the cheque.			
Deposit Slip Number	Displays the reference number of the deposit slip created when depositing the cheque.			
Deposit Slip Date	Displays the date on the deposit slip.			
Cheque Status	Displays the status of the cheque.			
Credit Status	Displays the status of the cheque amount credit.			

- 1. In the View Cheque Collections screen, you can do one of the following:
  - To search for specific cheque deposits, in the **Search** field, enter the partial or complete cheque number / cheque amount / drawer name / deposit slip number. The matching results are dynamically displayed.
  - To filter the search results:
    - Click The Search overlay window appears. For more information on the fields in this overlay window, refer the <u>Search (overlay window)</u> section below.
    - Enter the search criteria in the overlay window.
    - Click Apply to filter the cheque deposit records. OR

Click **Reset** to clear the entered search criteria.

- Click **Download** to download the list of cheque deposits in CSV format.
- Click the link under Cheque Number to view the details of a specific cheque deposit record. The View Cheque Collection Details screen appears. For more information, refer the <u>View Cheque Collection Details</u> section below.
- Click **Cancel** to go to the dashboard.

# Search (overlay window)

Field Name	Description
Cash Withdrawal	
Party Name	Select the party name from the dropdown list in which the Cash Withdrawal must be created. By default, the primary party/gcif of the logged-in user is selected.
	Note: Only accessible parties are displayed to the user.

# Cash Withdrawal Details step

Field Name	Description
Slip Number	Enter the withdrawal slip number.
Branch Name	Select the branch to withdraw cash from.
Debit Account Number	Select the account to withdraw the cash from. The dropdown list either displays the real account numbers or the International Bank Account Number (IBAN), based on the configuration set by the bank. Once you select an account number, the <b>Balance</b> field appears along with the currency and the balance amount.
Cheque Number	Enter the cheque number if a cheque is being issued to withdraw cash.
Cheque Date	Click the calendar icon and select the date of issue of the cheque.
Withdrawal Amount	Select the currency and enter the amount to withdraw.
Debit Amount	Displays the currency and amount that is being debited from the account selected in the <b>Debit Account Number</b> field. It also displays the exchange rate between the withdrawal amount currency and debit account currency.
Withdrawal Date	Click the calendar icon and select the date of cash withdrawal.
Services	Select whether the cash is to be collected from the branch or delivered to the party. If you select the <b>Collect Cash</b> option then you must enter the recipient's details in the fields that follow. If you select the <b>Deliver</b> option, then you must select the delivery location in the field that follows.
Recipient Name	Enter the name of the recipient who is to collect the cash from the branch. This field appears if you select the <b>Collect Cash</b> option from the <b>Services</b> field.
ID Proof Type	Select the type of ID proof document that the recipient is to produce when collecting the cash from the branch. This field appears if you select the <b>Collect Cash</b> option from the <b>Services</b> field.
ID Proof Details	Enter the unique identifier number of the selected ID proof document. This field appears if you select the <b>Collect Cash</b> option from the <b>Services</b> field.
Contact Number	Enter the contact number of the recipient. This field appears if you select the <b>Collect Cash</b> option from the <b>Services</b> field.
Delivery Point	Select the location to deliver the cash. This field appears if you select the <b>Deliver</b> option from the <b>Services</b> field.

1. In the **Cash Withdrawal** screen, enter the required withdrawal details in the **Cash Withdrawal Details** step.

 Click Next to go to the Additional Details step. OR Click Cancel to cancel the transaction. OR

Click **Back** to go to the dashboard.

Field Name	Description
View Cash Withdrawa	I
Party Name	Select the party name from the dropdown list in which the associated party must be onboarded. By default, the primary party of the logged-in user is selected.
	<b>Note:</b> Only accessible parties are displayed to the user. Based on the party/gcif selection, the list of associated parties is displayed.

#### Field Name Description

#### List of Cash Withdrawal

This section displays a list of existing cash withdrawal requests. You can search for specific records using the search field and narrow the results down using the filter ( $\checkmark$ ) options. You can also download the list in CSV format.

- Host ReferenceDisplays the unique reference number of the cash withdrawal request as<br/>a hyperlink. Click this link to view the details of the cash withdrawal<br/>request. For more information, refer the View Cash Withdrawal Details<br/>section below.
- **Slip Number** Displays the withdrawal slip number.
- **Cheque Number** Displays the number of the cheque issued for withdrawal, if applicable.
- Withdrawal Date Displays the date of cash withdrawal.
- Debit AccountDisplays the number of the account being debited during the cash<br/>withdrawal. This can be either the real account number or the<br/>International Bank Account Number (IBAN), based on the configuration<br/>set by the bank.
- **Withdrawal Amount** Displays the withdrawal currency and amount.

### **Status** Displays the status of the cash withdrawal request.

- 1. In the View Cash Withdrawal screen, you can do one of the following:
  - To search for specific cash deposits, in the **Search** field, enter the partial or complete withdrawal slip number / host reference number / cheques number / debit account number / withdrawal amount. The matching results are dynamically displayed.
  - To filter the search results:
    - Click T. The Search overlay window appears. For more information on the fields in this overlay window, refer the <u>Search (overlay window)</u> section below.
    - Enter the search criteria in the overlay window.
    - Click Apply to filter the cash withdrawal requests.
       OR
       Click Reset to clear the entered search criteria.
  - Click **Download** to download the list of cash withdrawal requests in CSV format. In case you are viewing the cash withdrawal records on a mobile device, then click download the list. Refer the **Download (overlay window)** section below.
  - Click **Manage Columns** to reorder or modify or save column preferences in cash withdrawal screen, refer the **Manage Columns (overlay window)** section below.
  - Click the link under Host Reference Number to view the details of a specific cash withdrawal request. The View Cash Withdrawal Details screen appears. For more information, refer the <u>View Cash Withdrawal Details</u> section below.
  - Click **Cancel** to go to the dashboard.

<ul> <li>Select what the pickup is for. The options are:</li> <li>Cheque</li> <li>Cash</li> <li>Both</li> <li>This field appears only when you select Pickup from the Select Pickup or Delivery field.</li> </ul>							
Displays <b>Cash</b> by default. This field appears only when you select <b>Delivery</b> from the <b>Select Pickup or Delivery</b> field.							
Select the location of the pickup/delivery point to be searched.							
Select the unique code of the pickup/delivery point to be searched.							
Switch the toggle ON to view all pickup/delivery points where adhoc or on call pickup/delivery is supported.							
Switch the toggle ON to view all points where pickup/delivery on holidays is supported.							
Select the frequency of pickup/delivery of the points to be searched.							
Select or enter the day of the week that has been assigned to the pickup/delivery points being searched.							

On selecting/entering the required details, click **Apply** to apply the filter criteria. Or click **Reset** to reset them.

# 7. Netting

Netting module of the Oracle Banking Cash Management system involves setting off the value of multiple positions or payables between two or more parties. It ascertains the party who owed obligation in a Bi-party agreement. It reduces the absolute number and volume of payables and receivables transactions leading to significant cost savings.

# 7.1 Accept / Reject Netting

The 'Netting' screen helps user to accept or reject a netting transaction on a particular associated party against its receivables and payables so that the number of payment transactions between those two parties is reduced leading to significant cost savings. User can search for the netting transaction by Netting Reference Number.

## **Pre-requisites**

User must have valid corporate login credentials.

### How to reach here:

Dashboard > Toggle menu > Cash Management > Netting > Accept/Reject Netting

To view the Accept / Reject Netting
