1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Bundled Application

Product bundling is becoming increasingly popular in retail banking. OBDX provides applicants with the opportunity to create a bundle of multiple products and enables them to apply for all these products through a single application. This enables applicants to save time and effort in filling out and submitting multiple application forms. Applicants can also easily track the bundled application and view the status of each individual product application within the bundled application from the application tracker.

In a manner that is similar to individual business product applications, both existing online banking business customers of the bank as well as businesses that do not have any prior relationship with the bank, can apply for bundled products by simply selecting the option provided on the bank portal. The applicant must then proceed to select a product from within each product category to be added to the bundle.

On having made a selection, the applicant can proceed to the application form which will be an amalgamation of all the application forms required for each different product type. The applicant will be required to enter information that is common for each product application, only once. E.g. section Business Details is common across all product applications as is Business Finances for Business Checking Account, Term Loan and Working Capital Loan applications. These sections will not be repeated in a bundled application. The applicant will be required to specify information pertaining to each account or loan specifically i.e. if applying for a bundle that comprises of products savings and checking accounts, the applicant will be required to specify Account Preferences specifically for each account type.

The application form is OCR (Optical Character Recognition) enabled so as to save the applicant's time and effort in filling out the application form. The various sections of the form get prefilled with information fetched through OCR based on the document uploaded in the inline Upload Documents feature provided against each section for which OCR is supported.

Online KYC of stakeholders that are prospects can also be conducted by means of liveness check (assisted or unassisted) or through integration with third party identity verification service providers. Online KYC is provided as an inline step that is enabled only in case the specific stakeholder does not have a relationship with the bank.

Businesses that are existing digital banking customers can simply provide their online banking credentials to have the Business Details and Business Finances section of the form prefilled with information as maintained with the bank. The applicant will be able to define stakeholder information as required and can add multiple stakeholders.

The application form has been designed in a manner that ensures that the information being captured adheres to all the regulations imposed by the US government. Additionally, all required disclosures and notices are also displayed as part of the application form.

The application tracker has been built so as to enable tracking of the application once it has been submitted. The application tracker also enables the applicant to retrieve and complete an application that has been saved. Additionally, the applicant can view documents that have been uploaded as part of the application form and can also view details as defined in the application form in PDF format.

Note:

1. Only one product per product category can be added in a bundle. The maximum number of products that can be added in a bundle is configurable. In this release, only upto 3 products can be added in a bundled application.

2. In this release, OBDX is integrated solely with Oracle FLEXCUBE Onboarding (OBO), for the submission and processing (including tracking) of SMB/Business application forms. Third party integration is not supported.

3. OBDX is integrated with Oracle KYC to fetch the applicant's risk level (high risk or low risk) along with the reference number for the same as generated in the Oracle KYC system, at the time of application submission. OBDX will further send this information to the mid office system to be utilized as required.

Once you have selected the option to apply for a bundled application, you will be required to go through the following steps before you can start filling out the application form:

- **Personalize your Bundle (Products Selection):** On selecting the bundled application option, under the Business tab, on the bank portal, you will be navigated to the **Personalize your Bundle** screen. This screen will list down all the business products as cards, under each product category. As is the case with individual product applications, only those products that are enabled for application through online banking will be listed on this screen. You can select multiple products across category and proceed to apply for the bundled application.
- **Kick Off:** This page serves as an introduction to the application form. You can also view the documents required to be uploaded as part of the application. As a business applicant, you can identify how you are going to proceed with the application. If your business is new to the bank, you can continue as a guest, or if your business has an existing relationship with the bank, you can select the provided option to simply login with your online banking credentials so as to have certain sections such as Business Details and Business Finances pre-populated in the application.

The steps that you will have to go through to submit your application will depend on whether you are applying for the bundled application as a guest user or as an existing online banking customer of the bank. These steps are documented under the **Steps in the Bundled Application** section of this user manual.

How to reach here:

*Bank Portal Page > Product Offerings > Business > **Create your own bundle!***

OR

*Bank Portal page > toggle menu > Menu > Our Products > Product Offerings > Business > **Create your own bundle!***

To create and apply for a bundled application:

1. Select tab **Business** under the **Product Offerings** section in the Bank Portal page.
2. Select the bundle card under the **Product Offerings** section on the Bank Portal page.

The screen listing all the business products under each product category applicable to business customers will appear.

[Home](#)

3.1 Personalize your Bundle

This page is displayed once you select the bundled application option on the bank portal. All the product categories are displayed as tabs on this page. Each tab will list down the products of that category that are available for online application, as cards. Each product card will display the product name, a short description of the product as well as the key features of each product. You can view all the products under each category and select one product per category that best suits your needs. You can opt to view a detailed description of any product type by selecting the **Learn More** link provided on each product card. In order to add a product to your bundle, you can select the **Add to Bundle** option provided on each card.

Personalize your Bundle

The screenshot displays the 'Personalize your Bundle' interface on the Futura Bank website. At the top, there is a navigation bar with 'Futura Bank' and a search bar containing the text 'What would you like to do today?'. Below the navigation bar is a 'Select Products' header. The main content area is titled 'Personalize your Bundle' and includes the instruction 'Select one product per category and proceed to application.' There are four category tabs: 'Savings Accounts', 'Checking Accounts', 'Term Loans', and 'Working Capital Loans'. Two product cards are shown:

- SMB Power Current Account:** A Current Account suitable for local businesses that ensures smooth running of your business with a minimum Quarterly Average Balance (QAB) commitment and easy overdraft.
 - Available for cheque collection and payment anywhere across the country
 - Free online transactions through Real-Time Gross Settlement (RTGS) and National Electronic Funds Transfer (NEFT)
 - Free 100 cheque leaves per month.
- SMB Max Current Account:** SMB Max Current Account is beneficial for all who look to enhance their retail business and prosper.
 - Easy to Open Account. Exclusive relationship manager. No transaction charges

Each card has a 'Learn more' link and an 'Add to Bundle' radio button. At the bottom of the page, there is a copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. (SecurityInformation)Terms and Conditions'.

Field Description

Field Name	Description
Product Category	<p>Each product category is displayed as a tab with all the products, available for application through online banking channel, displayed as cards under each respective tab.</p> <p>Once you select a product under a specific product category, a tick mark will be displayed against the product category tab to signify product selection under the specific tab.</p>

The following information is displayed on each product card.

Product Name & Image The name of the product along with an image that represents the product is displayed on each card.

Product Description A short description of the product is displayed on each card.

Features Features of the product are listed down on each card.

- Click the product category tab of which products you wish to view to add to your bundled application.
All the products under the specific product category tab are displayed as cards.
Select the **Add to Bundle** option against any card. The selected product gets added to your bundle and the Bundle button gets updated with the count of products selected.
Click **Apply**. The **Products added to bundle** overlay layer gets displayed.
OR
Click on any other product category tab to view the products available under that category.
OR
Click the [Learn more](#) link displayed on any product card to view additional details of that product.
OR
Under the kebab menu –
 - Click the **View Other Products** option to navigate to the Product Offerings page.
OR
Click the **Track/Complete an Application** option to navigate to the Application Tracker.

[Home](#)

3.2 Products added to bundle

This overlay window gets displayed once you select Apply button that displays the count of products selected in the bundle.

Products added to bundle

Field Description

Field Name	Description
Product Names & Images	All the selected products will be listed down with their names and images.

4. Click **Continue** to apply for the bundled application. The Bundled Application **Kickoff** page is displayed.

OR

Click the  icon displayed against any product name and image to delete that product from the bundle.

OR

Click the  icon to close the overlay layer.

[Home](#)

3.3 Kick Off page

This page provides information that you are required to fill out in order to apply for the business bundled application. The information will cover the eligibility criteria that the business as well as the stakeholders are required to meet and the documents that can serve as various proofs. This page also provides the means by way of which you can proceed with the application form. If your business has an existing relationship with the bank, you can select the provided option to Login with the business' login credentials. This will yield an application form that is much shorter than that of the form you would be required to fill, if your business was new to the bank. In this scenario, since the information of your business is already available with the bank, you would not be required to specify Business Details. Additionally, all the existing financial information of your business will be displayed under the Business Finances section and you can update this information as required. If your business is new to the bank, you can select the option as provided, and proceed to provide information related to your business details, business finances, add stakeholders, etc.

Kick Off Page

The screenshot displays the Futura Bank web interface. At the top, there's a navigation bar with 'Futura Bank' logo, a search bar, and utility links like 'ATM & Branch Locator', 'English', and 'RPM 14.4 OBDXBUI8'. Below this is a 'Bundled Products' section. The main content area is a form titled 'You are applying for products'. It instructs the user to check eligibility criteria before beginning. A box titled 'Check Your Eligibility' contains two bullet points: 'You (the applicant) and all stakeholders have attained the age of legal majority.' and 'You are the owner or are authorized to apply on behalf of the business.' with a 'Read more' link. Below this is a checkbox option: 'The business is an Online Banking Customer of Futura Bank' with a sub-link 'Login for a faster application experience'. An 'Apply Now' button is positioned at the bottom center of the form. A footer contains copyright information: 'Copyright © 2006, 2007, Oracle and/or its affiliates. All rights reserved. [Security|Information|Terms and Conditions]'.

5. Click on the **View List** link. An overlay window on which the list of documents required to support the application for the selected product, will be listed.
6. Select the **New to the bank** option if you do not have an existing relationship with the bank. The **Mobile Verification** page will be displayed.
OR
Select the **An existing customer of the bank** option if the you are an existing online banking customer of the bank. The **Login** page appears.
For more information on the application of an existing online banking customer, view the **Existing Online Banking Customer** section.

OR
Under the kebab menu –
 - Click the **View Other Products** option to navigate to the Product Offerings page.
OR
Click the **Track/Complete an Application** option to navigate to the Application Tracker.

[Home](#)

3.4 Steps in the Bundled Application

The steps in a bundled application will be a combination of all the steps required for all the products you have chosen. Sections that are common across product applications will not be repeated. Sections that are specific to a product will be identified as such e.g. Loan Requirements will be titled as Term Loan Requirements for Term Loans.

Following are the steps that will be involved in the bundled application submission regardless of the types of products selected. You can refer the individual product application user manuals for in-depth information of each step.

1. **Mobile Verification:** This step is applicable if you are filling out the application as a new/unregistered business customer. You will be instructed to enter your registered business mobile number, after which the system will identify whether the mobile number is already registered with the bank or not. You will then be required to enter the OTP sent to this mobile number in order to proceed with the application form.
2. **Business Details:** This section captures information related to your business which includes information such as the business legal name, date and country of registration, registered address and other contact details.
3. **Stakeholder Information:** In this section, you can specify information pertaining to the stakeholders of the business. This will include basic information such as the relationship of the stakeholder with the business, date of association and ownership percentage, depending on the type of stakeholder (relationship with the business). Depending on whether the stakeholder is an existing customer of the bank or if they are new to the bank, you will either be required to simply capture basic information such as customer ID, name, date of birth or extensive information including address and contact details. If the stakeholder is new to the bank, you will have the option to complete the Online KYC of the stakeholder.

Online KYC of prospect stakeholders can be done through any of the following modes, depending on which mode has been enabled by the bank in the Originations Workflow Maintenance screen available to bank administrators.

4. **Liveness Check - Assisted:** If the mode of liveness check is assisted, the option to initiate a video call with a bank executive will be provided. The bank executive will verify the identity of the stakeholder and will also undertake liveness checks. In order to enable the bank executive to verify the stakeholder's identity, you will be required to first upload images of an ID document that contains the most recent photograph of the stakeholder. On completion of this step, if the bank executive has successfully verified the stakeholder's identity and conducted other checks, you will be able to proceed with the application form. The stakeholder's personal information will be prepopulated on the basis of the information defined in the ID document.
5. **Liveness Check – Unassisted:** In the case of unassisted liveness check, you will be required to first upload images of the stakeholder's ID proof document, following which the system will guide you to centre your face (the stakeholder's face) so as to be able to click a selfie using the device's camera. The third party identity verifying system will verify, through the use of certain algorithms, whether the photograph on the ID document matches that of the selfie. A success/failure message will then be displayed depending on the outcome.
6. **(National) ID Verification:** In this mode of KYC, you can select an ID that you would like to provide for verification and can enter the ID number in the provided input field. You will be sent an OTP to the mobile number defined against the ID. Your (the stakeholder's) ID will be verified once you have entered the correct OTP in the provided field. Subsequently, the stakeholder's information, as fetched from the third party service providers on the

basis of Identification provided, will be pre-populated in the stakeholder's information section.

7. **Review and Submit:** Once you have filled out all the information required in the application form, you will be displayed this information on the review page. You can verify the details provided and if required, can edit the information in any sections by selecting the option provided against **each** section. This step is documented as part of this user manual.
8. **Terms of Service:** On having reviewed the application, you can then proceed to view the terms and conditions of all the products that you are applying for. You can also add a digital signature **by** means of uploading a document containing your (a stakeholder's) signature or by physically signing the provided space if you are filling out the application from a touchscreen device.
9. **Confirmation:** Once you have submitted your application after having reviewed it and having accepted the terms and conditions, a confirmation page will be displayed. This page will display a **success** message along with the bundled application reference number. You can track your application on the basis of this reference number.

This step is documented as part of this user manual.

The following steps will be part of the application form if a business savings account or business checking account product has been selected to be part of the bundled application:

1. **Account Specifications:** The bank may offer certain add-on services for the account. These might include a Debit Card, Passbook, Cheque Book, Access to Direct Banking, Phone Banking, etc. In this section, you can define your preferences with regards to these features. You can also specify the currency in which you would like the account to be maintained and define your preferences regarding account statement frequency and mode of delivery. If you are applying for a checking account as well as a savings account as part of your bundled application, you will be required to provide your preferences for each product.
2. **Fund your account:** This step will be part of the application form if it has been configured for Checking Account and/or Savings Account products that are part of the bundled application. In this section, you **can** specify information pertaining to the account from which funds are to be transferred in order to fund your deposit.

The following steps will be part of the application form if a term loan or working capital loan product has been selected to be part of the bundled application:

1. **Loan Requirements:** The loan information section/s in the bundled application forms will capture information pertaining to the purpose of the loan, the estimated cost, customer contribution, etc.
2. **Collateral:** In the section you can specify information related to any collateral of the business that can be mentioned to support the loan/s that are part of the bundled application. You can add multiple collateral records as required.
3. **Disbursement and Repayment:** In this section, you can specify the account details for automatic disbursement of the sanctioned amount after creation of the loan account and also for repayment of the loan.

The following step will be part of the application form if a term loan, working capital loan and/or business checking account product has been selected to be part of the bundled application:

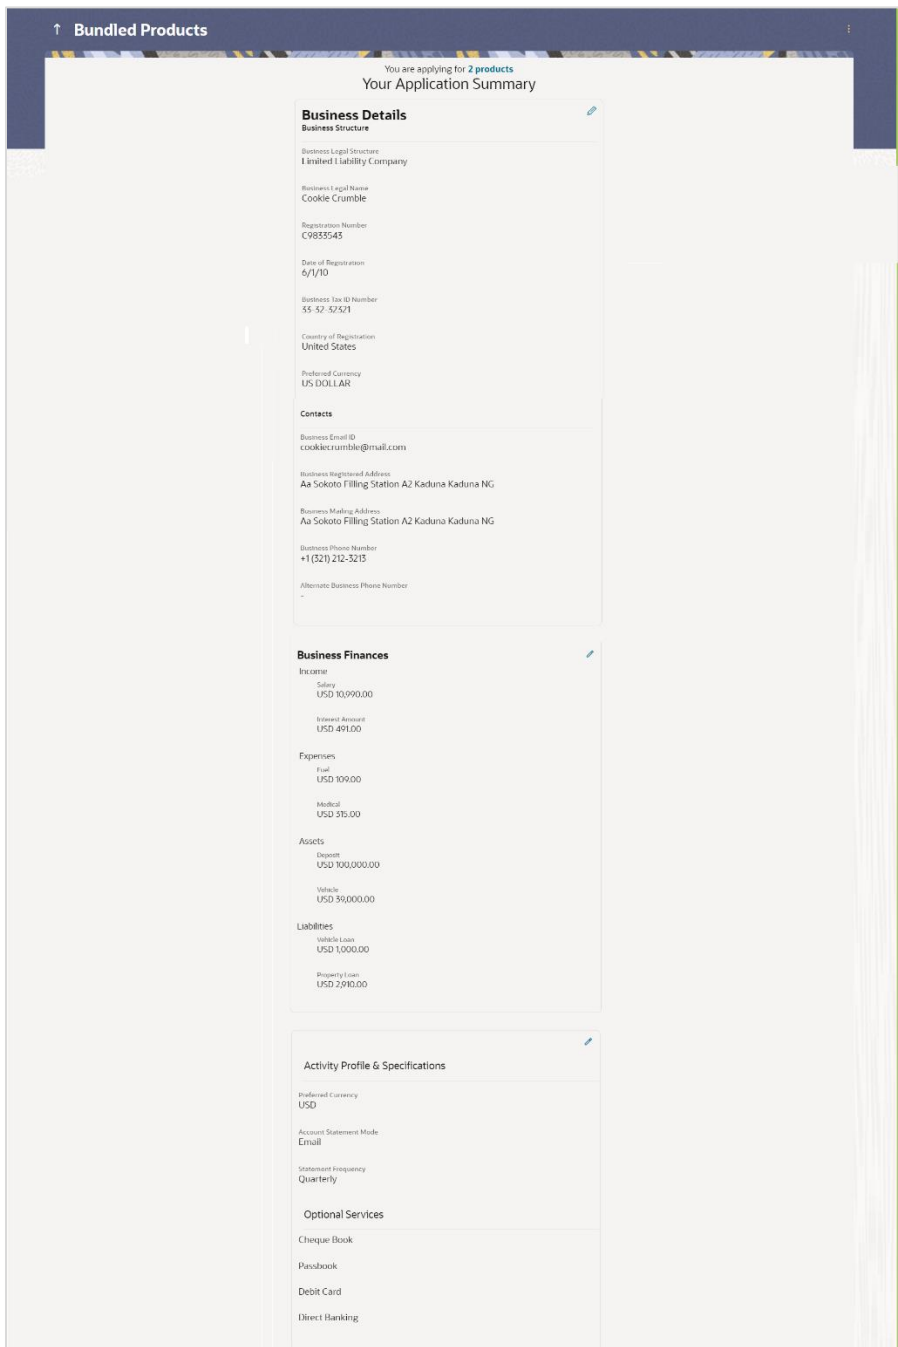

1. **Business Finances:** In this section, you can enter information pertaining to the finances of the business, which will include income, expenses, assets and liabilities.

3.5 Review and Submit

This step provides a summary of your application. Each step of the application is displayed under a section. The order of the section will be the same as the order of the steps in the application.

You can modify the information in any section by selecting the link provided against each section.

Review and Submit

The screenshot shows a mobile application interface with two main sections. The first section, titled 'Stakeholder 1', contains the following information:

- Relationship to the Business: Authorized Signatory
- Is the stakeholder an existing customer of the bank?: No
- Primary Details**
 - Title: Mr.
 - First Name: Jack
 - Middle Name (Optional): -
 - Last Name: Bruno
 - Date of Birth: 1/2/82
 - Citizenship: United States
 - Country of Birth: United States
- Identity**
 - Identification Type: Passport
 - ID Number: xxxxx995Z
 - Valid Till (Optional): 6/1/21
- Contact**
 - Home Address: AAAA, AA, AA, AA, California, United States, 90011
 - Current Location: United States Of America
 - Email ID: test@cookcolumbio.com
 - Mobile Number: +1 (545) 245-2432
 - Alternate Phone Number (Optional): -

The second section, titled 'Checking Account Specifications', contains the following information:

- Activity Profile & Specifications**
 - Preferred Currency: USD
 - Account Statement Mode: Email
 - Statement Frequency: Quarterly
- Optional Services**
 - Cheque Book
 - Passbook
 - Debit Card
 - Direct Banking

At the bottom of the form, there are two buttons: 'Confirm' and 'Back'.

7. Review the application details and click **Confirm**, to proceed with application submission. The **Terms of Service** page appears.

OR

Click the  icon against any section if you wish to update any information in the respective step.

OR

Click **Back** to navigate back to the previous step in the application.

OR

Click on the **Scan QR-code anytime to continue on mobile** link to continue the application on a mobile or tablet device.

OR

Under the kebab menu –

- Click the **Save and Continue Later** option to save the application.

OR

Click the **Continue on Mobile** option to continue the application on a mobile device.

3.6 Terms of Service

In this step you will be able to view the terms and conditions of all the products that you are applying for as part of the bundled application. You will be required to read the terms and conditions of each product and then click on the checkbox to provide your acknowledgement to having agreed to the terms and conditions.

You will be required to read these terms and conditions, disclosures and notices and then click on the respective checkboxes to provide your acknowledgment to having agreed to the terms and conditions.

The digital signature of any one stakeholder can also be added at this step.

3.7 Submitted Application - Confirmation

The confirmation page appears once you have submitted your application. This page displays the names of the products that you have applied for as part of the bundled application. The application reference number, by which you can track the status of your bundled application, will also be displayed. A link by way of which you can access the application tracker will also be provided on this page.

Confirmation

4. Click on the **Track your application** link to navigate to the Application Tracker Login page. For information on the Application tracker, refer to the **Originations Application Tracker User Manual**.

[Home](#)

3.8 **Existing User**

An application form being initiated for a business that is an existing online banking customer of the bank (registered user) will differ from that of one being initiated for a business that has no existing relationship with the bank.

You will be able to apply as an existing business customer by selecting the provided option on the kickoff page and proceeding to specify the business' login credentials.

[Home](#)

FAQ

- 1. Can I proceed with the application if I my business is an existing customer of the bank but does not have online banking access?**

You will need to first onboard the business on the digital banking platform. You can do so by contacting the bank.

- 2. How many products can I apply for as part of a bundled application?**

Out of the box, you can add a maximum of three products in a bundle. This number is configurable by the Bank and may change.

- 3. If I am applying for a product for a business that is an existing customer of the bank, can I update the business' information in the Business Details section while initiating an application?**

No, you cannot update any information of the business that is displayed as part of the Business Details section when applying on behalf of a business that is an existing online banking customer. You may contact the bank to update this information before applying for a new product.

- 4. Can I cancel one of the product applications that has been submitted as part of a bundled application?**

No. Currently, it is not possible to cancel a specific product application that is part of a bundled application. You can however, can the entire bundled application, if you wish to do so.

- 5. For how long I can access and resume my applications that are saved as drafts?**

This is based on the Bank's purging policy. The draft applications will be available for x days in the application tracker before they are purged by the bank.

- 6. Can I apply for a product that I have already applied for and that the bank is currently processing?**

Yes, you can still submit an application for the same product. The decision to process or reject either of the two (or more) applications will rest on the bank.

- 7. I have started my application on my laptop. However, I have realized that some of the documents that I need to upload are available on my tablet. Do I need to abandon the application that I started on my laptop to restart the entire process on my tablet?**

No, you can scan the QR code available on every step of the application form, post the Mobile Verification step, and resume the application from your tablet or mobile device.

- 8. Can bank administrators define the sequence in the steps of the application forms?**

Yes, Bank administrator can maintain the priority to be assigned to each product category that can be part of a bundled application using Origination Workflow Configuration.
