U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

1. Preface

1.1 Intended Audience

This document is intended for the following audience:

- Customers
- Partners

1.2 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.3 Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Structure

This manual is organized into the following categories:

Preface gives information on the intended audience. It also describes the overall structure of the User Manual.

Introduction provides brief information on the overall functionality covered in the User Manual.

The subsequent chapters provide information on transactions covered in the User Manual.

Each transaction is explained in the following manner:

- Introduction to the transaction
- Screenshots of the transaction
- The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.
- Procedure containing steps to complete the transaction- The mandatory and conditional fields of the transaction are explained in the procedure. If a transaction contains multiple procedures, each procedure is explained. If some functionality is present in many transactions, this functionality is explained separately.

1.5 Related Information Sources

3. Customer Services

This module allows the bank customers to interact with bank and avail its services. It includes the following sub-modules:

- Channel On boarding: Channel Onboarding allows customers to register for channel access. Customers who do not have access to online channels can onboard themselves to access online channels without approaching a bank physically to request for channel access.
- Calculators: Calculators are the tools used by the users to simulate and thus understand the implications of financial decisions. The different kind of calculators could be, Term Deposit Calculator, Loan Calculator, Loan installment Calculator, Loan Eligibility Calculator, and Forex Calculator.
- .
- Mailbox: Mailbox allows bank customers to send and receive emails to a business user.
- Find ATM / Branch: ATM/ Branch locator allows a user to view the address and location of the ATMs and the branches at a geographic location.
- Reports: Reports are an integral part of actively managing any company. Management uses the reports to track progress towards its various goals, control expenditures, increase revenue, track fraudulent transactions if any. The two types of reports are, Adhoc Report and batch Reports
- Security Settings: Security settings are done to protect the sensitive data and information from security threats.
- View Transaction Limits: This option allows a user to view the utilized limits and available limits for use.
- Date Format: The date format can be configured at bank level as long or short e.g. DD/Month/YYYY or DD/MM/YY. The date in all the transactions, alerts and reports sent to the users displays the date as per the format defined in the locale.

4. Portal Page

A bank's landing page should be designed in a manner that connects with its customers and also leads to quick conversions of prospects into customers of the bank. The portal page should enable existing customers to easily login to the system and should also provide users to perform tasks such as to view and apply for the bank's product offerings, register for online banking access, track existing product applications, search for the bank's ATMs and branches etc.

The **Oracle Banking Digital Experience** portal page displays various options that enable users to undertake required tasks and gain information about the bank and its products. The different sections and features provided on the portal page are documented as follows:

Portal Page

Icons

The following icons are present on the portal page:

- : The logo of the bank.
- : Click the toggle menu to access various transactions.
- : Click this icon to log in to the application.
- : Click this icon to close the toggle menu. This icon appears if the toggle menu is open.

Toggle Menu transactions:

- **Our Products:** Click to view the product offerings of the bank.
- **Claim Money:** Click to claim money if you are a recipient of a peer to peer transfer.
- **Track your Application:** Click to track the progress of an account opening application.
- **Register:** Click to register for online banking access.
- **ATM & Branch Locator:** Click this option to view the address and location of the ATMs and the branches of the Bank. For more information, refer [ATM & Branch Locator](#).
- **Calculators:** Click to access the calculators provided by the bank.
- **Help:** Click this option to launch online help.
- **About:** Click this option to view information about the application such as version number, copyright etc.

Futura Wallet

Click **Sign Up** to apply for a Futura Wallet.

Our Product Offerings

This section displays the products offered by the bank. Users can select any product category in order to view the products under that specific category and can proceed to apply for a product of choice. This section also provides options to apply for bundled products and to the application tracker.

Easy and Secured Banking

Following mobile transactions are present in the application.

- **Face/ Fingerprint/ PIN/ Pattern based authentication**
Allows user to login to the mobile application by drawing a pattern on screen instead of entering his user id and password
- **Quick Snapshot**
User can view the account summary from mobile application and get important account information in a single view without going on the dashboard.
- **Chatbot**

Chatbot is an artificial intelligence system that interacts with users over a messaging platform.

- **QR Based Payment**

QR Based payment allows the user to initiate a payment to a beneficiary by scanning the QR code.

- **Siri Payments and Balance Inquiry**

This feature harnesses Apple's voice command assistant, Siri, to enable users to initiate voice based payments to registered payees from their mobile devices.

- **iMessage Payments**

iMessage payment allows the user to initiate a payment to a beneficiary i.e. the contact in context of the conversation by launching the app from iMessage.

- **Push Notification**

Push notification is a way of propagating message to the user device(s) registered with the bank. Through push notifications, user can be notified of any event/transactions that has occurred in the user account.

5. Log-In & Log-Out

Log-in allows users to access the portal securely, view information and access transactions. Logging out enables users to exit from the system in a secure way, so that no one else can gain access to the system (without supplying valid credentials) and the entire system is secure.

Pre-requisites

The User must have a valid account with bank with online banking enabled. Other features related to accounts must be supported by the core banking system.

Features Supported In Application

- [Log-in to the application](#)
- [Log-out of the application](#)

In case the user has forgotten their username or password, they can use the [Forgot Username](#) and [Forgot Password](#) links to retrieve these details. For more information, refer the [Forgot Username](#) and [Forgot Password](#) sections respectively.

5.1 Log-in to the application

The user requires authentic credentials to log in to the **Oracle Banking Digital Experience** application.

To log in to the application:

1. Open an internet browser to access the application.
2. Type the **Oracle Banking Digital Experience** URL in the **Address** bar, and press **Enter**.
Portal Page appears.
3. Click **Login**.
The **Login** screen appears.
OR
Click **Register** if you are a new user.

Login Page

Field Description

Field Name	Description
Username	Enter your login user name.
Password	Enter your login password.

- In the **Username** field, enter the user ID.
OR
Click  icon to enter the username using the virtual keyboard.
- In the **Password** field, enter the password.
OR
Click  icon to enter the password using the virtual keyboard.

Note: The characters typed in the **Password** field appear masked (•••••) for security reasons.

- Click **Login**.
- The Dashboard **Overview** screen appears with broad level financial summary, outstanding and available balance in current and savings account, loans, term deposit, and credit cards.

5.2 Log-out of the application

To log out of the application:

1. In the top right corner, click  icon.
The drop-down with the options to view profile and logout appears.
2. Select the **Logout** option.
The success message of logging out appears.

5.3 Session Timeout

Session timeout represents the event occurring when a user does not perform any action on an application during a configured interval .

The below configurations are provided:

- To configure the inactive screen time. It is a backend configuration where the inactive time after which a warning message will be shown can be configured. This time needs to be lower than the configured active timeout. Note: Default inactive screen time is configured as 10 minutes
- To configure if timeout warning needs to be shown or not. Session timeout warning configuration flag is added on the System Configuration screen

The session timeout feature is available across Oracle Banking Digital Experience product i.e., for Retail User, Corporate User and Administrator screens.

A timeout warning message will be shown when the configured inactive time is reached. The user can view the time remaining for timeout in the warning message. The below actions will be visible to the user on the timeout warning message:

1. Stay Connected
2. Logout

When the user clicks on 'Stay Connected', whichever transaction the user was on will be shown with any pre-filled information previously captured. When the user clicks on 'Logout', the user will be logged out of the application. At the end of timeout, the 'Login' option will be shown to the user as the session is expired.

Note:

- In case the user clicks on 'x' (right hand side top corner on popup), then the popup will close but the timer would continue in the backend. If any action is performed, then timer will reset.
 - On timeout, if the user clicks on 'x' (right hand side top corner on popup) or login button, the login page will appear.
-

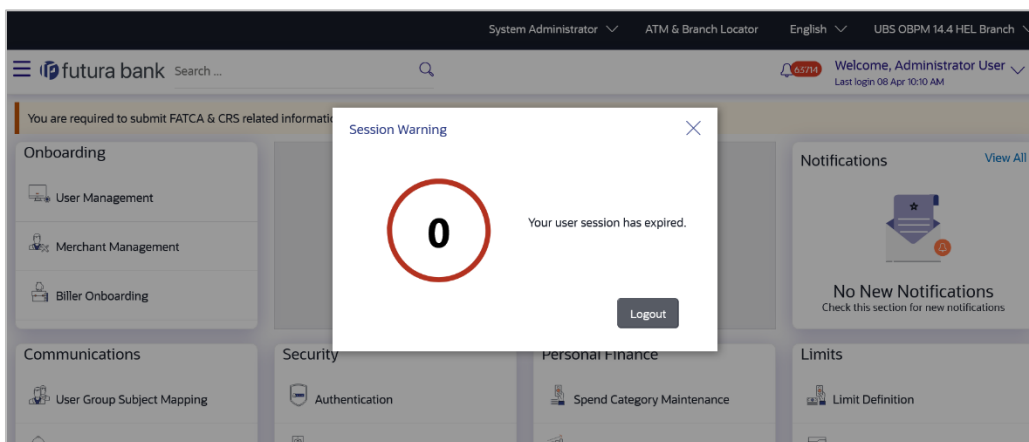

Session Waring – Pre Session Timeout Message

1. Click **Stay Connected** to continue.
OR
Click **Logout** to log out of the application.

When the session expires, the **Session Warning** popup appears.

Session Warning- Post Session Timeout Message

1. Click **Login** to re-login to the application.

[Home](#)

6. First Time Login

When a new user logs into the application for the first time with the user name and password provided by bank, there are certain tasks that he/she needs to fulfill before being able to access the online services of the bank. These steps are configured by Bank and can include accepting Terms and Conditions, Setting up Security Question, My profile and limit information.

Note: The steps and sequence for 'First Time Login' may vary for different users as defined or configured by System Administrator.

Each step will either have Next or Skip button basis on the configuration done by Bank Administrator.

Prerequisites:

- The bank administrator has enabled the First time login steps for Corporate users.

How to reach here:

Portal Page > Login

To log in to the application:

1. Open an internet browser to access the application.
2. Type the **Oracle Banking Digital Experience** URL in the Address bar, and press **Enter**. The **Portal** page appears.
3. Click **Login**. The **Login** screen appears.

Login

Field Description

Field Name	Description
Username	Enter your login user name. <u>Note: Usernames are case insensitive i.e. User can login in OBDX with any case.</u>

Field Name	Description
Password	Enter your login password.

- In the **Username** field, enter your user name.
OR
Click  icon to enter the username using the virtual keyboard.
- In the **Password** field, enter your password.
OR
Click  icon to enter the password using the virtual keyboard.

Note: The characters typed in the **Password** field appear masked (•••••) for security reasons.

- Click **Login**.
The next **configured** screen appears.

Note: Force Change password is not a part of First Time Login flow wizard, this screen will appear for every new user.
The Force Change Password screen will only appear for users for whom the password is set by administrator and not for the users who have self-registered themselves.

First Time Login - Terms and Condition

ATM/Branch

Welcome, Jones Smith

Thank You for choosing Futura Bank as your Banking needs partner.
We welcome you to the Futura Bank family.
Happy Banking!!!

Terms and Conditions

These Terms mentioned herein form the contract between the User using the Internet Banking services and the Bank. By applying for Internet Banking Services and accessing the service the User acknowledges and accepts these Terms of Service (Terms and Conditions). Any conditions relating to the accounts of customer other than these Terms will continue to apply except that in the event of any conflict between these Terms and the account conditions, these Terms will continue to prevail. The agreement shall remain valid until it is replaced by another agreement or terminated by either party or account is closed, whichever is earlier.

1. APPLICATION FOR INTERNET BANKING SERVICES

The Bank may offer Internet Banking Service to selected customers at its discretion. The customer would need to be Internet User or have access to the Internet. The acceptance of the application and the acknowledgement thereof does not automatically imply the acceptance of application for Internet Banking Services. The Bank may advise from time to time the Internet software such as Browser, which are required for using Internet Banking Services. There will be no obligation on the part of the Bank to support all the versions of this Internet software.

2. INTERNET BANKING SERVICES

The Bank shall endeavor to provide to the User through internet Banking services such as inquiry about the balance in his/her account(s), details about transactions, statement of account, request for issue of cheque-books, request for transfer of funds between accounts of the same User and other accounts and many other facilities as the Bank may decide to provide from time to time. These facilities shall be offered in a phased manner at the discretion of the Bank. The Bank at its sole discretion may also make additions/deletions to the Internet Banking Services being offered without giving any prior notices or reasons. The availability /non-availability of a particular service shall be advised through the web page of the Bank or written communication or any other mode as the Bank thinks fit. The Bank shall take reasonable care to, ensure the security of and prevent unauthorized access to the Internet Banking Services using technology reasonably available to the Bank. The User shall not use or permit to use Internet Banking Service or any related service for any illegal or improper purposes.

The USER would be allotted a User-id and a password (to be used at the time of login) by the BANK in the first instance. The USER will be required to mandatorily change the User-id and password assigned by the BANK on accessing Internet Banking Services for the first time.

As a safety measure the USER shall change the password as frequently as possible, at least once in 90 days. In addition to User-id and Password the BANK may, at its discretion, advise the USER to adopt any other means of authentication including but not limited to One Time SMS Password and/or Digital certification issued by Bank, licensed or approved Certifying Authorities or vendors.

The USER shall not attempt or permit others to attempt accessing the account information stored in the computers and computer networks of the BANK through any means other than the Internet Banking Services.

3. USER-ID AND PASSWORD

The USER shall:

1. Keep the User-id and password totally confidential and not reveal them to any third party.
2. Create a password of at least 8 characters long and shall consist of a mix of alphabets, numbers and special characters which must not relate to any readily accessible personal data such as the USER's name, address, date of birth, telephone number, vehicle number, driver license etc. or easily guessable combination of letters and / or numbers.
3. Commit the User-id and password to memory and not record them in a written or electronic form; and
4. Not let any unauthorized person have access to his computer or leave the computer unattended while using Internet Banking Services.
5. Not disclose/reveal his/her personal or confidential information to anyone over email/SMS/phone call even if it's purportedly from our bank. Our bank or any of its representatives will never send you emails/SMS or call you over phone to seek your personal information like Username, passwords, One Time SMS passwords etc. For tips on safe usage of password(s), "Password Management" displayed as a link on the login page of our bank may be referred.
6. Not access internet banking if his/her computer device is not free of malware (Viruses, Trojans, etc.).

In the event of forgetting of User-id and/or password or expiry/ disability of password(s) USER can request for change of the password by sending a written request to the BANK or call up the customer care. The selection of a new password and/ or the replacement of User-id shall not be construed as the commencement of a new contract. The User agrees and acknowledges that BANK shall in no way be held responsible or liable if the User incurs any loss as a result of compromise of User-id and password by the User himself or User has failed to follow the Internet Banking Service instructions as published by the BANK on the site from time to time. User agrees to fully indemnify and hold harmless BANK in respect of the same.

Locking of User ID

Internet Banking Password / User ID shall get locked after a number of incorrect attempts, up to such number (at present 3 failed attempts) as may be decided by the Bank from time to time. The same shall be available on the next day. In case of emergency, the User ID / password can be unlocked through the branch.

Deactivation of User ID

The Bank has the discretion to deactivate a User Internet Banking ID, if the same has not been used for a period defined by the Bank. Also the Bank has the right to deactivate the Internet Banking login of User due to unsatisfactory behavior in the account.

7. Dashboard

Oracle Banking Digital Experience is a one-stop solution for a bank for its core banking operations, across corporate offerings. It is designed to help banks respond strategically to today's business challenges, while also transforming business models and processes to reduce operating costs and improve productivity across both front and back office.

Dashboard provides a quick view of the most relevant functions, to achieve a particular objective or complete a process.

OBDX Administrator dashboard is mapped at various available levels like Party, Segment, User Type or User. This displays the end user's dashboard auto painted based on the roles assigned. The logged in-user can add or remove widgets while creating the dashboard. Each widget can be assigned a priority as per the requirement and the widgets to be displayed on the module dashboards will be based upon the assigned priority.

Pre-requisites

- User must have the relevant access from bank with online banking enabled.
- Other features related to accounts must be supported by core banking system.

-  **Help** : Click this menu to launch the online help.
-  **About** : Click this menu to view the information about the application like version number, copyright etc.

Financial Overview

The section provides a graphical representation of the distribution of assets and liabilities across the Current and Savings Accounts, Term Deposits & Loans & Finances accounts held with the bank. It also displays the total amount of assets, liabilities and the Net Worth. Account types displayed in the section include CASA, term deposits, and loans & finances.

Position By Currency

The section displays currency wise position of user's assets and liabilities in the form of a bar graph. Each bar represents one currency.

Credit Line Usage

Credit Facility/Line Usage widget provides a quick understanding of the most and least utilized credit facilities (both in terms of amount and percentage) with their current available and utilized amounts. By looking at this widget the corporate user can quickly assess the facilities that can be utilized more and facilities that need a limit extension.

The bar graph shows the following two values:

- **Utilized Amount:** The limits utilized by the party from the total set limit.
- **Available Amount:** The limits remaining from the total set limit.

Click the bar of a particular facility ID to view the utilization details of that facility.

Bill Receivable/ Payable

The section displays the summary of all import and export bills associated with specific party/ parties. The dashboard allows the user to view the total amount receivable and payable with respect to the trade bills (Under LC and standalone) immediately after logging in.

Trade Instruments

Trade Instruments section allows the user to view the summary of all trade instruments (Import-Export LC, outward guarantee) that are going to expire in near future and are associated with specific party/ parties.

The user can view the trade instruments that are going to expire within 10 days, 15 days and 30 days by selecting the option from the drop-down.

Reports

The latest reports mapped and generated under a party/ parties mapped to the logged in user are listed in this section. Click View All to view all the reports generated.

Current and Savings/ Term Deposits/ Loans and Finances

The current and savings/ Term Deposit/ Loan account card displays the count of the account and total balance in these accounts along with the transaction currency. The section below the account card displays the summary of assigned CASAs/ Term Deposit / Loan with below details. Click the particular account number of CASA / Term Deposit / Loan account to go to the account details screen.

- Current and Savings:
 - Party Name: Displays the party names linked to the ID and holding the accounts
 - Account Number: Displays the Account Number (masked format), account nickname (if any), and the product name. Click the account number to go to the Account Details screen.

- Account Type: Displays the type of account viz., savings or current etc
- Net Balance: The balance amount in the account is displayed
- Term Deposits:
 - Party Name: Displays the party names linked to the ID and holding the deposits
 - Deposit Number: Displays the TD Account Number (masked format), account nickname (if any) and the product name. Click the account number to go to the Deposit Details screen.
 - Interest Rate: shows the applicable rate of interest on the TD
 - Maturity Date: shows the date of maturity of deposit
 - Principal Balance: shows the amount invested in deposit
 - Maturity Balance: shows the amount which would be available on the date of maturity.
- Loans and Finances
 - Loan Account Details: Displays the Loans Account Number (masked format), account nickname (if any) and the product name. Click the account number to go to the Loan Details screen.
 - Party Name: Displays the party names linked to the ID and holding the loans
 - Amount Financed: The loan amount that was initially availed
 - Outstanding: Outstanding Amount against the loan
 - Maturity Date: The Maturity Date of the Loan account
 - Rate: Applicable rate of interest

Using the **Search** field, the user can search for a specific Current and Savings/ Term Deposit/ Loan account. Click **Download** to download the account summary of Current and Savings/ Term Deposit/ Loan accounts.

Corporate Limits

The user can view the party cumulative transaction limits for each transaction, along with daily and monthly limits utilized and available for use, from the viewer dashboard. The transaction for which the limits must be viewed can be selected from the dropdown list that is provided.

The user can select the transaction from the drop-down to view the corporate limit of that transaction.

Click **View All** to access the Limits screen, where the user's limits and the corporate limits can be viewed. The user can also use the channels list and the transactions list to view limits for a specific transaction originating from a specific channel.

Transactions: This section has the following tabs

- Pending for Approval
- My Initiated List
- Transaction Log
- My Approved List

1) Pending for Approval

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial. User can click each tab to view the details of transactions that are pending for approval.

The transactions pending approval within a period can be searched across modules by providing a date range. The financial and non-financial sections display module wise count of transactions which are pending approval. The details can be viewed either in a graphical format or in a list format using a switch option.

Click on  icon to search the transactions based on Date range.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.
 - In the  graph view, on clicking the bars in the graph, the user will be navigated to the transaction listing page.
 - In the  list view, on clicking the module name link, the list of transactions pending approval within the module can be viewed.
-

This displays the financial transactions - further categorized into following modules:

Financial: This displays the financial transactions initiated by the maker and further categorized as below:

Transactions - Transaction Log

Modules	Initiated	PendingApproval	Locked	Modification	Approved	Rejected
Others	0	1	0	0	6	0

For more information, refer section **Transaction Log** under **Approval** chapter.

4) My Approved List

This section displays the details of transactions that are approved by the approver user. It is classified into two broad categories; Financial and Non-Financial. Click each tab to view the snapshot of transactions already approved.

The logged in user can view the transaction summary with respective statuses and details. The details can be viewed either in a graphical format or in a list format using a switch option.

On selecting either the Financial or the Non-Financial transaction options, the modules under the particular option are displayed. In the list view, on clicking the module name link, the transaction details within the module can be viewed..

: Click this icon to search the transactions that are approved on a particular date. A date range (**From Date** and **To Date**) can be provided to search the transaction.

Transactions - My Approved List

Modules	Total	Approved	Rejected
Biller Maintenance	1	1	0
Others	1	1	0

For more information, refer section **My Approved List** under **Approval** chapter.

Transaction Journey

Click the **reference number** link to view the Transaction Journey

This screen displays the transaction details and transaction journey of the specific transaction. It displays the current status of transaction whether (Initiated, Approved, Locked, Request Modification or Processed).

When the user selects a transaction in 'Initiated' status, an option to assign approval workflow is available. Click on **Assign**, and select the approval workflow from the resolved workflows for the Initiated transaction, where transaction approval workflow is not assigned.

Note: Once a transaction is initiated by the Corporate maker, system checks for the account access of all the approver/s (found as part of approval rule/workflow maintained). In case approver/s at one or more level does not have the required account access for the account/s involved in the transaction, system rejects the transaction and an alert will be triggered to initiator notifying the same.

The screenshot displays the 'International Payment' interface. At the top, there's a navigation bar with the Futura Bank logo, a search icon, and user information: 'Welcome, Victoria Grayson' and 'Last login 29 Apr 07:27 PM'. The main content area is titled 'International Payment' and contains two sections:

- International Fund Transfer Details:** This section lists various parameters for the transfer:

 - Payee Address: test1, test2, London, GB
 - Transfer From: xxxxxxxxxxxx0156
 - Transfer When: 30 Jan 2019
 - Amount: €1,000.00
 - Correspondence Charges: SHARED
 - Payment Details: 9776
 - Note: Account with Institution
- Transaction Journey:** A horizontal timeline showing three stages:
 - Initiation:** Represented by an upward arrow icon. Details: McLeods Chemicals2, 09 Dec 05:50 PM.
 - Approval:** Represented by a downward arrow icon.
 - Completion:** Represented by an upward arrow icon. Details: Processed, Reference No : 193431642040003, 09 Dec 05:50 PM.

At the bottom left of the details section, there is a 'Back' link. The footer contains copyright information: 'Copyright © 2006,2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Transaction Journey

Transaction Name

This section displays the name of the transaction that is to be approved.

Review

The section displays the details of the initiated transaction for review.

Transaction Journey

This section displays the status of transactions that are initiated by the maker.

When the user selects a transaction in 'Initiated' status, an option to assign approval workflow is available. Click on **Assign**, and select the approval workflow from the resolved workflows for the Initiated transaction, where transaction approval workflow is not assigned.

Transaction journey displays the status as:

- Initiation
- Approval
- Completion
- Locked
- Request Modification

-
2. Click **Back** to navigate to the **Dashboard**.
OR
Click **e-Receipt** to generate the e-receipt of the transaction.

7.3 Corporate user as an Approver role

The dashboard displays transactions available to corporate users responsible for approving transactions. Approver has the responsibility to ensure correctness of financial or non-financial transaction as per the bank and corporate mandate, to ensure speedy and accurate processing.

Dashboard Overview

Icons

 - Deposit Number: clicking the account number takes you to the Deposit Details screen.
 - Interest Rate: shows the applicable rate of interest on the various deposits

- Principal Balance: shows the amount invested in deposit
- Maturity Date: shows the date of maturity of deposit
- Maturity Balance: shows the amount which would be available at the date of maturity.
- Loans and Finances
 - Loan Account Details: Displays the Loans Account Number (masked format), account nickname (if any) and the product name. Click the account number to go to the Loan Details screen.
 - Party Name: Displays the party names linked to the ID and holding the loans
 - Amount Financed: The loan amount that was initially availed
 - Outstanding: Outstanding Amount against the loan
 - Maturity Date: The Maturity Date of the Loan account
 - Rate: Applicable rate of interest

Using the **Search** field, the user can search for a specific Current and Savings/ Term Deposit/ Loan account. Click **Download** to download the account summary of Current and Savings/ Term Deposit/ Loan accounts.

Reports

The latest reports mapped and generated under a party/ parties mapped to the logged in user are listed in this section. Click View All to view all the reports generated.

Transactions: This section has the following tabs

- Pending for Approval
- My Initiated List
- Transaction Log
- My Approved List

1) Pending for Approval

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial. User can click each tab to view the details of transactions that are pending for approval.

The transactions pending approval within a period can be searched across modules by providing a date range. The financial and non-financial sections display module wise count of transactions which are pending approval. The details can be viewed either in a graphical format or in a list format using a switch option.

Click on  icon to search the transactions based on Date range.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.

- In the  graph view, on clicking the bars in the graph, the user will be navigated to the transaction listing page.

- In the  list view, on clicking the module name link , the list of transactions pending approval within the module can be viewed.
-

This displays the financial transactions - further categorized into following modules:

- Accounts - The details of activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Number: Account number of the transaction
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Non Accounts - The details of the activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Amount : Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Payee Account Details: Payee's account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Bill Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
-

- Biller Name: Name of the biller
 - Biller Location: Location of the biller
 - Details: Details of bill payment
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Bulk File
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction types of the file upload
 - File Name: Name of the file uploaded.
 - File Amount: Amount to be debited from debit account.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - .Reference Number No: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
 - Non Account Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
-

- Host to Host Bulk Files
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction type of the bulk record
 - File Name: name of the file uploaded
 - File Amount : Amount of the transaction
 - File Reference Number: Reference Number of the transaction.
 - Approval Status: Approval status of the transaction
 - Processing Status: Processing status of the transaction
- Host to Host Bulk Records
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account

For more information, refer section **My Approved List** under **Approval** chapter.

7.3.1 Pending for Approval

The Pending for approvals list contains transactions that have been initiated by the maker and are pending for approval. When the approver user logs into the application, he can view the transactions that are pending for his decision to either approve or reject.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.
- In the  graph view, on clicking the bars in the graph, the user will be navigated to the transaction listing page.
- In the  list view, on clicking the module name link, the list of transactions pending approval within the module can be viewed.

The tab also displays the all the transactions pending approval within a module along with the prioritized and in-grace tags. A specific transaction (pending approval) reference number can also be searched within a module. Module specific filters is provided to search for transactions pending approval within a module.

The search will be on a specific module and not across modules. Dynamic switching of modules will be available from the filter overlay. Module wise filters will be provided similar to the Pending Approval Dashboard. Approver can select specific transaction or all transactions listed on that page or all transactions across pages of the selected module and approve or reject the selected records.

Transaction Journey

This section displays the status of transactions. The possible values for the status are:

- Initiation
- Approval
- Locked
- Completion
- Request Modification

-
3. Click **Approve** to approve the initiated transaction. The **Transaction Approval** screen prompting to enter the approval remarks appear.
OR
Click **Reject** to reject the transaction.
OR

-  **ATM & Branch Locator**: Click to view the address and location of the ATMs and the branches of the Bank. For more information refer [ATM & Branch Locator](#) section.
-  **File Upload**: Click this icon to upload files and view the files already uploaded.
-  **Account Settings**: Click this menu to set your preferences as well as daily limits and change password.
-  **Mail Box**: Click this menu to view the Mails, Alerts and Notifications.
-  **Leave Feedback**: Click this menu to leave your feedback about the user interaction of the application.
-  **Help**: Click this menu to launch the online help.
-  **About**: Click this menu to view the information about the application like version number, copyright etc.

Top Programs

A Donut Graph projects the top 5 programs of the corporate which are highest in terms of receivables and payables in the local currency. The values of Receivables or Payables are displayed along with the name of the Program.

Finance Maturing

Finances are loans taken against invoices for working capital requirements or any other necessary business expenses. This widget provides a graphical representation of all the outstanding finances and categorizes them in the buckets of overdue finances, Due in 30 days, 31-60 days, 61-90 days and above 90 days.

Quick Links:

The most commonly used transactions are provided as quick links for quick access to the transactions. Following transactions are provided as quick links:

- View Programs
- View Invoices
- View Associated Party
- Create Invoice

Invoice Timeline

This widget draws all the outstanding invoices of the corporates on the invoice timeline. The invoices are categorized into buckets of overdue invoices, invoices maturing in 30 days, between 31-60 days, between 61-90 days and above 90 days in terms of Receivables OR Payables. The Timeline is made comprehensive by colour coding the category of invoices on the basis of maturity.

Overdue Invoices:

Overdue invoices are one of the major concerns for a Corporate Supplier and a Buyer and needs to be addressed immediately. A dedicated widget projects 5 invoices that are running overdue for the longest period of time. It also acts as an alarm for the corporate. They are reminder that, the overdue invoices should be attended on priority. The link given on the widget enables the corporate to view the all its overdue invoices by navigating the user to the View Invoices Screen.

Overdue Finances

Finances are liabilities of the corporates which needs to be paid on due date. This widget warns the corporates of any finances running overdue. Timely payment of Finances is required to maintain the credit goodwill of the corporates. This widget assists in keeping the same intact. It displays the details like Finance No., Amount Overdue, and No. of Days Overdue. It also provides link to [View All Finances](#).

Corporate Limits

The user can view the party cumulative transaction limits for each transaction, daily and monthly limits utilized and available limits for use from the viewer dashboard.

The user can select the transaction from the drop-down to view the corporate limit of that transaction.

7.5 Non Customer as a Maker

When non-customers who are transaction executors log into the app, an option of Quick Links has been provided on the Dashboard for easy access to some of the more commonly used features in the system.

Dashboard Overview

Icons

Following icons are present on the corporate – Non Customer Maker dashboard:

-  : Clicking this icon takes you to the dashboard.
-  : Click this icon and navigate to Mailbox or Alerts or Notifications screen.
-  : Enter the transaction name and click search icon to search the transactions.
-  : Displays the welcome note, user's name along with the last log in date and time. Click this icon to view the logged in user's profile or log out from the application.
-  : Click the toggle menu to access the transactions.
-  : Click this icon to close the toggle menu. This icon appears if the toggle menu is open.

Header Menu Options

- **Preferred Language:** Click on the  , and click **Language** to set your desired language to use the application.

Toggle Menu Transactions

Pending for Approvals

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial. User can click each tab to view the details of transactions that are pending for approvals. Click the **reference number** link to view, approve or reject the transaction. User can also select multiple records from the summary and approve or reject the transactions.

Financial : This displays the financial based transactions - further categorized as following:

- Accounts - The details of activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Details: Account number of the transaction
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Non Accounts - The details of the activity log are:

- Date: Date of the transaction
- Description: Description of the transaction
- Amount : Amount of the transaction
- Initiated By: The user who has initiated the transaction.
- Reference Number: Reference Number of the transaction.
- Status: Status of the transaction
- Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Payee Account Details: Payee's account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Bill Payments
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Biller Name: Name of the biller
 - Biller Location: Location of the biller
 - Details: Details of bill payment
 - From Account: Source Account number of the transaction
 - Amount : Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Bulk File
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Transaction Type: Transaction types of the file upload
 - File Name: Name of the file uploaded.
 - File Amount: Amount to be debited from debit account.
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction

- Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Debit Account No: Account number of the account to be debited.
 - Amount: Amount to be debited from debit account
 - Payee Account Details: Payee's account number
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction
- Non Account Bulk Record
 - Date: Date of the transaction
 - Transaction Type: Transaction type of the bulk record
 - Amount: Amount of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference Number: Reference Number of the transaction.
 - Status: Status of the transaction

Non- Financial: This displays the non- financial transactions initiated by the maker and further categorized as below:

- Accounts
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Details: Account number of the transaction
 - Initiated By: The user who has initiated the transaction.
 - Reference No: Reference Number of the transaction.
 - Status: Status of the transaction
 - Biller Maintenance
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Payee Type: The type of payee

 - Reference Number: Reference Number of the transaction
 - Status: Status of the transaction

Pending for Action

This section displays the summary of all the financial and non-financial transactions that are pending for approval by the approver user in a graphical form.

The transactions are grouped by module name and provide a quick view of transactions that are needed to be approved.

Invoice Timeline

This widget draws all the outstanding invoices of the corporates on the invoice timeline. The invoices are categorized into buckets of overdue invoices, invoices maturing in 30 days, between 31-60 days, between 61-90 days and above 90 days in terms of Receivables OR Payables. The Timeline is made comprehensive by colour coding the category of invoices on the basis of maturity.

My Limits

This section allows the user to view the transaction specific limits assigned to him for initiating and approving the transactions. It also provides information about the limits assigned by the bank and the limit utilized by the user.

Corporate Limits

The user can view the party cumulative transaction limits for each transaction, daily and monthly limits utilized and available limits for use from the viewer dashboard.

The user can select the transaction from the drop-down to view the corporate limit of that transaction.

Overdue Invoices

Overdue invoices are one of the major concerns for a Corporate Supplier and a Buyer and needs to be addressed immediately. A dedicated widget projects 5 invoices that are running overdue for the longest period of time. It also acts as an alarm for the corporate. They are reminder that, the overdue invoices should be attended on priority. The link given on the widget enables the corporate to view the all its overdue invoices by navigating the user to the View Invoices Screen.

Overdue Finances

Finances are liabilities of the corporates which needs to be paid on due date. This widget warns the corporates of any finances running overdue. Timely payment of Finances is required to maintain the credit goodwill of the corporates. This widget assists in keeping the same intact. It displays the details like Finance No., Amount Overdue, and No. of Days Overdue. It also provides link to [View All Finances](#).

Top Programs

This widget provides a graphical representation of all the outstanding finances and categorizes them in the buckets of overdue finances, Due in 30 days, 31-60 days, 61-90 days and above 90 days.

Quick Links:

The most commonly used transactions are provided as quick links for quick access to the transactions. Following transactions are provided as quick links:

- View Programs
- View Invoices
- View Associated Party
- Create Invoice

My Approved List

This section displays the details of transactions that are approved by the approver user. Similarly to Pending Approval list, here also it is classified into two broad categories a) Financial and b) Non-Financial. The Tab under Financial and Non Financial and the columns of each Tab are same as mentioned in 'Pending For Approval' section. Click each tab to view the snapshot of transactions already approved.

Click the **Reference Number** link to view the detailed transaction.

Click **Download** to download the summary of transactions approved by the approver user.

[Home](#)

8. Approvals

Each user is assigned a particular task to perform as per their position in the hierarchy of the bank/corporate. Transaction created by initiator in the system is routed to the appropriate authorized signatory or group of signatories for approval depending upon the configured rules. A transaction needs to be approved by all the required approvers. A releaser may also be required to release the transaction for further processing once all approvals are completed. The Release facility is specific to the Group Corporate and can be enabled or disabled at the Group Corporate Level. There can be a situation wherein a transaction is pending approval and the approver is on leave. In such cases, the user must be able to re-route the transaction to another approver and mark it as high priority.

The Approvals Management function enables the user to view a summary of all the transactions pending for approval and release across different modules. The user can select the pending transactions and approve, release or re-route them as applicable.

Features supported in application.

- View and Approve Transactions Pending Approval
- Re-route and Prioritize Transactions
- View and Release Transactions Pending Release
- View Initiated Transactions
- View Approved Transactions
- View Transaction Log

8.1 Pending for Approval

The transactions that have been initiated by the maker and are pending for approval/checking are listed here. The approver logs into the application, and views all the transactions that are pending for the user's approval.

When an approver/ checker logs in, the transactions pending for approval and checking will be shown as a consolidated count on the dashboard. All the users with check and approve privilege will be able to view the transactions. Dashboard displays the following:

- Count of all the transactions pending approval /checking
- Count of the financial and non-financial transactions pending approval/checking out of the total count
- Count the urgent transactions (prioritized and in grace period) pending approval

The financial and non-financial sections display module wise count of transactions pending approval. A specific transaction can be searched across modules by providing the exact reference number. The details of the transaction pending approval within the module can be viewed through the count link. Information of all the transactions pending approval within a module can be seen along with the prioritized and in-grace tags. Further drill down to view details of a specific transaction before approve/reject is available through the reference number link.

Module specific filters are provided to search for transactions pending approval within a module. The filters as well as the transaction information shown depend upon the selected module. The approver can select specific transaction or all transactions listed on that page or all transactions across pages of the selected module and approve or reject the selected records, with comments if any.

The approver can Lock a transaction pending approval, with comments if any. Approver can also Lock a transaction, if something needs to be verified operationally before approving it. Once a transaction is locked, no action (like approve, reject, send to modify) will be allowed on that transaction and the transaction status will be changed to 'Locked'. Maker will be able to see transaction with "Locked" status in his transaction log. Approver who is a part of the approval workflow of the locked transaction and is authorized to approve the transaction, will be able to unlock that transaction through the transaction approval page. Once the transaction is unlocked, it will be available for approval to the users as per the resolved approval workflow.

The approver/checker can approve or reject the transaction/s. For only specific transactions, Send to Modify functionality is enabled. Also approver can send the transaction back to modification, which are pending his approval, with comments if any.

On approval/rejection of a single transaction, the 2 factor authentication setup for individual transactions will be applicable. In "Authentication" menu, the administrator is expected to configure 2 Factor Authentication mechanism against individual transactions.

On enabling the 2-factor authentication for multiple transactions in Authentication menu, the same will be applicable even for approving and rejecting the transaction/s as a checker.

The detailed transaction journey of a transaction pending check can be seen.

Note: For a checker, the limits are not validated.

Pre-Requisites

- Accessible Roles for Corporate
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction
- Party Preference is maintained for corporate user

How to reach here:

Corporate Approver Dashboard > Toggle menu > Menu > Transactions > Pending for Approvals

9. Select one or multiple transactions together to approve / reject / lock by selecting checkbox against the respective record.
10. Click **Approve** to approve the initiated transaction.
OR
Click **Reject** to reject the transaction.
OR
Click **Lock** to lock the transaction.
OR
Click **Back** to navigate back to previous screen.
11. The summary of the transactions selected from the listing appears along with the **Comment** popup.
12. Enter the comment and click on the **Approve**.
OR
Click **Cancel** to cancel the transaction
OR
Click **Back** to navigate back to previous screen.

Comment popup (Approve/Reject/Lock)

13. Enter the comment, and click **OK** to proceed with transaction.
OR
Click **Cancel** to cancel the transaction.
14. The **Transaction Approval / Rejection/Lock** screen prompting to enter the approval / rejection/lock remarks appear.

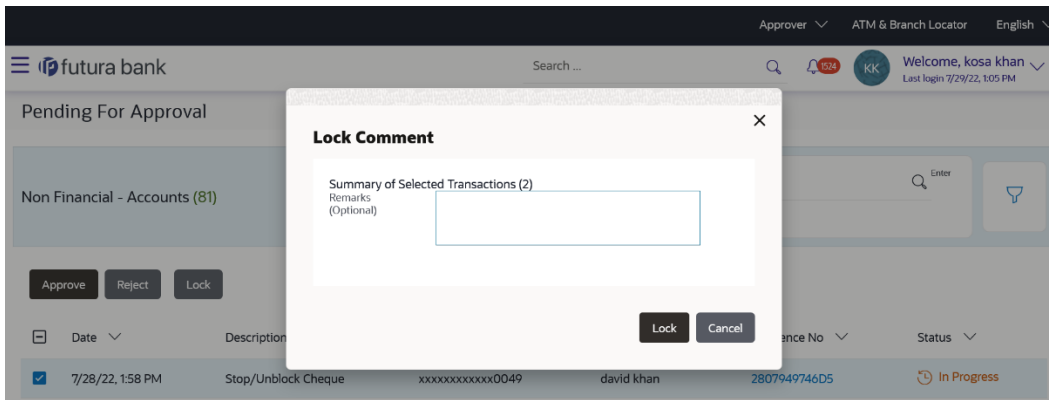

Approve Transaction

Reject Transaction

Lock / Unlock the transaction

Send to Modify

15. Enter the remarks and click **Approve**.
- OR
- Enter the remarks and click **Reject**.
- OR
- Enter the remarks and click **Lock**.
- OR
- Enter the remarks and click **Send to Modify**.
- OR
- Click **Cancel** to cancel the transaction.
- The screen with success message appears.

Note: If the configuration to set to allow enabling multi transaction approval with 2-factor authentication, based on the 2FA set, system prompt user for verification.

8.2 Re-route and Prioritize

There can be a scenario wherein a transaction is pending approval and the approver is on leave. In such cases, the user must be able to re-route the transaction to another approver. A user can re-route a transaction if he/she has perform access for re-route transaction and view/approve privilege for the specific transaction being re-routed/prioritized. The approver logs into the application and views all the transactions that are pending for the user's approval and release. Different tabs display the transactions which are pending for approval and release.

The Reroute & Prioritise dashboard displays, the financial and non-financial sections having module wise count of transactions pending approval/release, alongwith the urgent transactions (prioritized and in grace period) pending approval/release. The user can view summarized details of the transactions pending approval within the module and can filter the transaction based upon different search parameters. The user can re-route or mark a transaction as high priority upon viewing the transaction details within the module.

User can reroute multiple transactions together. Transactions with the exact matching approval rules (provided all rules of one transaction is/are matching with another transaction) will be grouped together along with the evaluated rules e.g. multiple transaction buckets/groups with multiple or single resolved rule/s. A request ID will be generated for the grouped transactions. Maker can select one approval rule against the group and will be able to route the transaction.

A Day 0 configuration is available to configure the number of days after which the unused request IDs will be deleted. The default value of this configuration is 1 day which means that after 1 day, a scheduler will run and delete all the request IDs which were not re-routed.

Note:

- Un-grouping and re-routing the transaction to different rules will not be permitted. In order to achieve this, transactions need to be re-routed individually.
 - Transaction will be routed in an asynchronous manner.
-

In order to re-route a transaction(s), the user must click on **Assign**. On clicking the same, the user can select a new rule (approval or release) out of all the resolved rules. The **Re-route Workflow** tab of **Workflow Details** overlay displays all the resolved rules applicable at the time of re-routing along with the current rule. The newly selected workflow will start from level 1 for approval and the limits of the approvers who already approved the transaction will be reversed upon re-routing.

For a transaction(s) pending release, the user can re-route or mark a transaction(s) as high priority upon viewing the transaction details within the module. In order to re-route a transaction(s), the user must click on **Assign**. On clicking the same, the user can select a new release rule out of all the resolved rules. On submitting the rule, the new route information will be assigned to the releaser. On submission, only the release workflow will be re-routed. The approval workflow will not be re-routed

On re-routing, a notification will be sent to the all the users who have already approved it, user/user group with whom approval was pending as per the existing workflow, maker of transaction, and users of the new workflow. Upon re-routing, the re-routing/prioritization maintenance action can also be seen in the Transaction Journey of the re-routed transaction.

Note: The **Re-route Workflow** tab displays the resolved rule details such as Sequential and Non-Sequential/Parallel, Details of user and user groups (Users within groups), and Amount Slab of the resolved rule.

An option is provided to set a high priority for the transaction and to undo it. On prioritization, a notification will be sent to the approver with whom the transaction is currently pending and maker of transaction.

Pre-Requisites

- Accessible Roles for Corporate
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction

- Amount Range
- Currency: USD
- Amount From
- Amount To

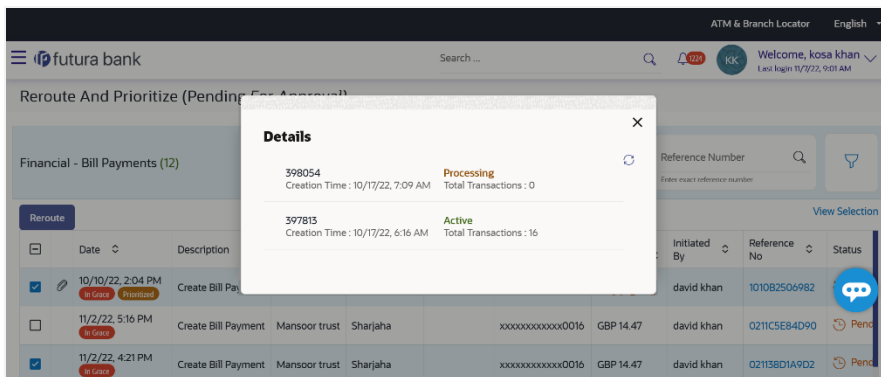

Buttons: Apply, Reset

Field Description

Field Name	Description
Filter Criteria	
Search the transaction based on the criteria.	
Note: The filter criteria in overlay screen will be changed based upon the module selected.	
Module	The selected module is defaulted which can be changed to view the transactions pending approval within a specific module.
Reference Number	Reference number of specific transaction which is to be searched.
Description/ Transaction Name	The transactions can be filtered based upon transaction name or description.
Initiation From Date – To Date	The period can be specified for which the user wants to view the transactions pending approval. Search will be based on the transaction initiation date range.
Initiated By (First Name)	The first name of user who has initiated the transaction.
Initiated By (Last Name)	The last name of user who has initiated the transaction.
Urgency	The transactions can be viewed based on its urgency type. It can be: <ul style="list-style-type: none"> • Prioritized • In-Grace Period.

2. Click on option under **High Priority** column to Prioritize/Undo Prioritize against the specific transaction record.
OR
Click on **Assign** option against the specific transaction record under **Re-route Workflow** column to re-route the transaction record. The **Workflow Details** overlay screen appears.
OR
Select multiple transactions together to route/reroute and click **Reroute**.
The **Details** popup appears.

Details popup

1. Click  icon to refresh the process.

Click on the record, the transactions with the exact matching approval rules (provided all rules of one transaction is/are matching with another transaction) will be grouped together along with the evaluated

Re-route and Prioritize (Pending for Approval) Transactions with matching groups

The screenshot displays the 'Reroute And Prioritize (Pending For Approval)' section of the futura bank system. It features a table of transactions with columns for date/time, transaction type, account numbers, amount, and status. The status for all listed transactions is 'Pending Approval'. A blue 'Assign' button is positioned above the table. The interface includes a search bar, user profile information (Welcome, david khan), and pagination controls (Page 1 of 2, 1-10 of 15 items).

Note:

Status of the transaction which is re-routed changes to **Re-routed**.

Click  icon against the specific transaction to re-route workflow.

3. Select the group to which workflow to be re-routed.
4. Click on the **Assign** option to re-route the selected group. The **Reroute** overlay screen appears.

In the **Re-route Workflow** tab:

- a. View and select new approval rule to re-route from all the resolved rules applicable at the time of re-routing for the group.
- b. Click **Re-route** to assign the workflow to the selected group.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Prioritize/ Undo Prioritized** to update the priority status of the transaction.

Workflow Details - Re-route Workflow tab

Note:
User is allowed to select one out of the resolved workflows for re-routing.

Field Description

Field Name	Description
Re-route Workflow tab	
Rules for re-route	Displays the rules for re-routing for the group.
Prioritize	Click on the Priority link to set the priority for the transaction.
	Note: Click Undo Prioritized link to remove the priority level of the transaction.

8.2.2 Pending for Release

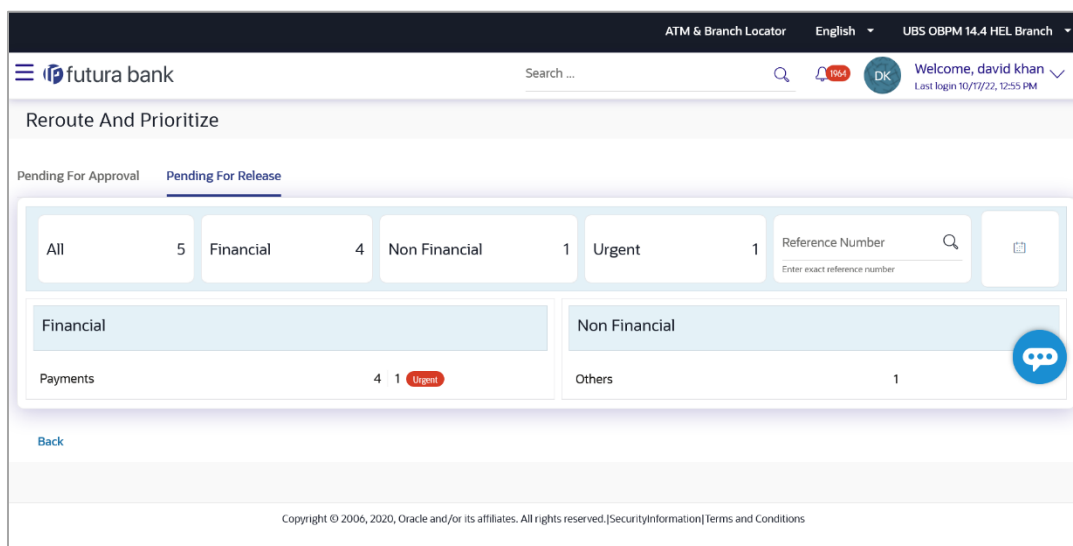

Dashboard displayed below the **Pending for Release** tab, the financial and non-financial sections having module wise count of transactions pending release, and the urgent transactions (prioritized and in grace period) pending release. The user can be a maker, approver or releaser i.e. whoever has re-route access will be able to re-route transactions pending approval or release. It displays the count of all the transactions pending release as well as the financial and non-financial transactions pending release. The total count of urgent transactions (prioritized and in grace period) pending release.

The user can view summarized details of the transactions pending release within the module and can filter the transaction based upon different search parameters. The user can re-route or mark a transaction as high priority upon viewing the transaction details within the module. In order to re-route a transaction, the user must click on **Assign**. On clicking the same, the user can select a new release rule out of all the resolved rules.

Note:

- 1) At a time, only one transaction can be selected for re-routing.
- 2) When a releaser logs in, the high priority transaction will be listed on top of all the transactions which are pending release.

Re-route and Prioritize – Pending for Release

Click  icon against the specific transaction to re-route workflow.

Re-route and Prioritize (Pending for Release) Transactions with matching groups

4. Select the group to which workflow to be re-routed.

- Click on the **Assign** option to re-route the selected group. The **Reroute** overlay screen appears.

In the **Re-route Workflow** tab:

- View and select new approval rule to re-route from all the resolved rules applicable at the time of re-routing for the group.
- Click **Re-route** to assign the workflow to the selected group.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Prioritize/ Undo Prioritized** to update the priority status of the transaction.

Workflow Details - Re-route Workflow tab

Note: User is allowed to select one out of the resolved rules for re-routing.

Field Description

Field Name	Description
Re-route Workflow tab	
Rules for re-route	Displays the rules for re-routing for the group.
Prioritize	Click on the Priority link to set the priority for the transaction.
	Note: Click Undo Prioritize link to remove the priority level of the transaction.

8.3 Pending for Release

The transactions that have been configured for and are pending for release are listed here. The releaser logs into the application, and views all the transactions that are pending for a release.

Dashboard displays the financial and non-financial sections with module wise count of transactions pending release, and the urgent transactions (prioritized and in grace period) pending release.

The details of the transaction pending release within the module can be viewed through the count link. Information of all the transactions pending release within a module can be seen along with the prioritized and in-grace tags. Further drill down to view details of a specific transaction before approve/reject is available through the reference number link.

Module specific filters are provided to search for transactions pending release within a module. The filters as well as the transaction information shown depend upon the selected module. The releaser can select specific transaction or all transactions listed on that page or all transactions across pages of the selected module and release or reject the selected records, with comments if any.

On approval/release of a single transaction, the 2 factor authentication setup for individual transactions will be applicable. In “Authentication” menu, the administrator is expected to configure 2 Factor Authentication mechanism against individual transactions.

On enabling the 2-factor authentication for multiple transactions in Authentication menu, the same will be applicable even for approving and release the transaction/s as a checker. Each transaction in the multi-select release would be released as per the release workflow setup for each individual transaction.

Pre-Requisites

- Accessible Roles for Corporate
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction
- Party Preference is maintained for corporate user

8.5.1 Withdraw Transactions Pending Approval

The transactions, which are pending approval, have an option to withdraw the transaction. Using this option user can withdraw the transaction from the transaction details. Once the maker withdraws the transaction, the transaction is removed from the Approver's pending for approval transaction list.

The transaction aspect will drive the **Withdraw** option. The bank can configure the transaction aspect for **Withdraw** option. Out of box, **Withdraw** option will be available for a corporate user as well as administrator.

Note: For the withdrawn transactions, the status will be changed to **Withdrawn**, which will be displayed on Train Journey, Detailed Journey, and Transaction Log.

My Initiated List – Transaction Details (Withdraw transaction)

The screenshot displays the 'Cheque Book Request' details in the Futura Bank system. The account information includes Account Number (XXXXXXXXXXXX0027), Type of Cheque Book (CHEQUEGBP), Number of Cheque Books (3), and Number of Leaves per Book (10). The delivery location is Unit 1, Block A, California, GREAT BRITAIN. The transaction journey shows three stages: Initiation (Successful, marked with a blue checkmark), Approval (In-Progress, marked with a yellow circle), and Completion (marked with a grey circle). The initiation was performed by David on 12/15/22 at 5:28 AM. At the bottom of the journey section, there are three buttons: 'Copy', 'Withdraw', and 'Back'.

To withdraw a transaction:

1. Click on the **Withdraw**. A confirmation popup appears.
 - i. On the confirmation popup, enter the comments for cancellation/withdrawal of transaction.

8.5.2 Copy/Re-initiate Existing Transactions

The maker can view the details of transaction by clicking on transaction available in “Transaction Log”. The **Copy** feature is provided to copy the transaction details to a new transaction with all required details in editable form.

The transaction aspect will drive the **Copy** option. The bank can configure the transaction aspect for **Copy** option. Out of box, **Copy** option will be supported for corporate users only.

Note: The copied transaction will behave as a new transaction being initiated. The approval rules will be evaluated and the transaction will be sent for approval as per the evaluated rules.

Transaction Details with Copy option

The screenshot displays the 'Cheque Book Request' page in the Futura Bank system. At the top, there is a navigation bar with the Futura Bank logo, a search bar, and a user profile for 'dcmaker1 user'. The main content area is divided into two sections: 'Cheque Book Request' and 'Transaction Journey'.

Cheque Book Request Details:

- Account Number: xxxxxxxxxxxx0027
- corpacc99 | GBP | HEL
- Type of Cheque Book: CHEQUEGBP
- Number of Cheque Books: 3
- Number of Leaves per Book: 10
- Delivery Location: Unit 1, Block A, California, GREAT BRITAIN

Transaction Journey:

The journey is shown as a horizontal timeline with three stages:

- Initiation:** Successful (blue checkmark icon). Performed by David on 12/15/22, 5:28 AM.
- Approval:** In-Progress (yellow circle with 'G' icon).
- Completion:** (grey circle with '3' icon).

At the bottom of the journey section, there are three buttons: 'Copy', 'Withdraw', and 'Back'.

ii.

8.6 Transaction Log

Displays the list of all the type of transactions initiated like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two categories broadly; Financial and Non-Financial. The logged in user can view the transaction summary with respective statuses and details. The Corporate Maker/Approver can view the status of transactions if a transaction failed to submit to the Host after approving multiple transactions from the Digital Banking Platform.

The details can be viewed either in a graphical format or in a list format using a switch option.

On selecting either the Financial or the Non-Financial transaction options, the modules under the particular option are displayed. Click the **Module** link to view the list of transactions in it.

9. Forgot Password

The login password is the password using which the user can log into the internet banking platform. The user cannot access his bank accounts without this password. The Forgot Password feature enables users to reset their login password. While resetting password system displays the password policy block as a popup message.

The user is required to enter his User ID and Date of Birth. Post successful validation of the user's details, user is asked to enter the second factor authentication details (as per the authentication mode maintained by the Bank).

Once the user is authenticated, user will receive a link to generate the new password, on his registered email ID.

Pre-requisites

- The user must have valid login credentials to access the digital banking platform.
- The system administrator must have setup 2 factor authentication for Forgot Password.

Features Supported In the Application

- User Verification
- New Password Creation

How to reach here:

Portal > Forgot Password

To reset the password:

1. In the **Login** page, click **Forgot Password**. The **Forgot Password** screen appears.

11. FATCA & CRS Form

The Foreign Account Tax Compliance Act (FATCA) is a United States federal law that was introduced to enable the Internal Revenue Service (IRS) to obtain detailed account information of US tax payers that invest and earn income through non U.S. institutions.

The Common Reporting Standard (CRS), is a global reporting standard developed by the Organization for Economic Cooperation and Development (OECD). This information standard was brought into effect for the purpose of combatting tax evasion at a global level.

The goal of both FATCA and CRS is to enable tax authorities to obtain information pertaining to the financial assets held by their citizens in foreign or overseas financial institutions, thereby greatly strengthening global tax compliance.

The FATCA and CRS Self – Certification Forms for Individuals and Entities has been created so as to capture required information for the purposes of complying with both FATCA and CRS.

A FATCA & CRS check is maintained under system configurations by the system administrator to identify if FATCA & CRS is to be enabled or not. If enabled, every time a business user logs into the banking application, the system will identify whether the user is required to fill out the form or not and further identify the type of form to be provided to the user based on the type of user. Individuals and sole proprietors will be displayed the FATCA & CRS Self – Certification form for Individuals and Corporates and other business entities will be displayed the FATCA & CRS Self – Certification form for Entities. Moreover, the FATCA & CRS Self – Certification form for Entities will be made available only to users that are accessing the online banking services of the entities in the capacity of trustees, sole owners or authorized signatories.

This section documents the information captured in the FATCA & CRS Self – Certification forms for both Individuals and Entities.

Workflow

The following workflow identifies the steps involved in the process of capturing customer information required from the view point of complying with FATCA & CRS, considering that the FATCA & CRS check in system configuration is set to Enabled.

How to reach here:

Corporate Dashboard > FATCA and CRS Self - Certification Form link > FATCA and CRS self - certification Form

11.1 FATCA and CRS Self - Certification Form for Entities

The FATCA & CRS Self – Certification form for Entities is made available to users that are accessing the online banking services of the entities or companies in the capacity of trustees, sole owners or authorized signatories.

The sections that consist of this form are documented as follows:

To fill the FATCA & CRS Self - Certification Form for Entities:

1. Select the FATCA & CRS link displayed as part of a message on the dashboard.
2. The FATCA & CRS Self - Certification Form for Entities appears.

11.1.1 Identification of the Entity

In this section, basic details of the entity are captured such as the name and address details of the entity.

Identification of Entity

The screenshot shows the 'FATCA & CRS Self-Certification Form For Entities' in the futura bank interface. The form is titled 'Identification of the Entity' and contains the following sections:

- Identification of the Entity:**
 - Legal Name of Entity or Organization: JUST EAT
 - Current Legal Address:
 - Country: United States
 - State: Idaho
 - City: CA
 - Address: 1022, Redwood Shores, Island Parkway
 - Zip Code: 94065
 - Mailing Address:
 - Same as above
 - Country of Incorporation or Organization: United Kingdom
- Tax Residency**
- Entity Certification**
- Declaration**

A 'Note' box on the right side of the form provides the following information:

Note
What is FATCA & CRS?
&
Why are you being asked to fill this form?

FATCA (Foreign Account Tax Compliance Act) and CRS (Common Reporting Standard) aim at combatting tax evasion on a global level.

As per the Inter-governmental agreement (IGA) with the US and OECD, all financial institutions including Zigbank are required to obtain self-certification and to carry out due diligence of all accounts held with the bank.

Please complete all sections of this form. In certain circumstances, the bank may be required to share this information with relevant tax authorities.

Please consult your professional tax advisor if you have any questions regarding this form.

At the bottom of the form, there are 'Submit' and 'Cancel' buttons. Below the form, there is a section titled 'FATCA & CRS Instructions' which includes a 'Substantial Presence Test' section. The test states that a user will be considered a United States resident for tax purposes if they meet the following criteria:

- 31 days during the current year, and
- 183 days during the 3-year period that includes the current year and the 2 years immediately before that, counting:
 - All the days you were present in the current year, and
 - 1/3 of the days you were present in the first year before the current year, and
 - 1/6 of the days you were present in the second year before the current year.

A 'View More' link is provided below the test details. The footer of the page contains the copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Legal Name of the Entity or Organization	The name of the entity or company as maintained with the bank is displayed.
Current Legal Address	
Country	Select the country in which the entity is operating.
City	Enter the name of the city in which the entity has its main headquarters.
Address 1-2	Enter the address details of the main headquarters of the entity.
Zip Code	Enter the zip code of the entity's address.
Mailing Address	
Same as above	Select this checkbox if the entity's mailing address is the same as the current legal address.
Country	Select the country of the entity's mailing address. This field appears if the Same as above check box is not selected.
City	Enter the name of the city of the mailing address of the entity. This field appears if the Same as above check box is not selected.
Address 1-2	Enter the mailing address details. This field appears if the Same as above check box is not selected.
Zip Code	Enter the zip code of the mailing address of the entity. This field appears if the Same as above check box is not selected.
Country of Incorporation or Organization	Select the country of origin of the entity or organization.

- From the **Country** list, select the country in which the entity is operating.

4. In the **City, Address** and **ZIP Code** field, enter the **City**, address details of the entity.
5. Select the **Same as Above** check box, if the entity's mailing address is the same as the current legal address, else specify details of the entity's mailing address.
6. From the **Country of Incorporation** or **Organization** list, select the country of origin of the entity or organization.
7. Click **Continue**. The **Tax Residency** section appears.

11.1.2 Tax Residency

This section captures information pertaining to the tax residency of the entity. You are required to specify whether the entity can be considered as a tax resident of any country other than the country in which its accounts are held and subsequently specify details pertaining to the countries in which the entity is a tax resident. Information specific to the entity’s operations in the United States is also captured in this section.

FATCA & CRS Instructions

Along with many governments, the government of Country Name has entered into an Inter-governmental Agreement (IGA) with other governments that require financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all account holders. In relevant cases, information will have to be reported to tax authorities or appointed agencies. In order to comply with the standards set by FATCA and CRS we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days. Please note that you may receive more than one request for information if you have multiple relationships with Zigbank or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

Substantial Presence Test

You will be considered a United States resident for tax purposes if you meet the substantial presence test for the calendar year. To meet this test, you must be physically present in the United States (U.S.) on at least:

- 31 days during the current year, and
- 183 days during the 3-year period that includes the current year and the 2 years immediately before that, counting:
 - All the days you were present in the current year, and
 - 1/3 of the days you were present in the first year before the current year, and
 - 1/6 of the days you were present in the second year before the current year.

20. Verify the details, and click **Confirm**.

OR

Click  against any section that you wish to edit, if required.

OR

Click **Cancel** to close the form.

OR

Click **Back** to navigate to the previous page.

21. The success appears along with the status of submission of the form.

11.1.6 Confirm

The confirmation page will be displayed once you have submitted the form. This page will display a message identifying whether the form was successfully submitted or not.

22. Click **Go to Dashboard** to navigate to the dashboard.

FAQ

1. What is FATCA, why I have to fill the FATCA & CRS form?

FATCA stands for 'Foreign Account Tax Compliance Act' and is a legislation designed to prevent tax evasion. Introduced by the United States Department of Treasury and the US Internal Revenue Service (IRS), the purpose of FATCA is to encourage better tax compliance by preventing US Persons from using foreign banks and other financial organizations in order to avoid US taxation on their income and assets.

2. What is a tax identification number (TIN)?

This is your unique number issued in your jurisdiction to you as a tax payer. However we are aware that some jurisdictions do not issue a specific tax numbers. UK residents can use their National Insurance number.

12. Live Chat

Multi-Modal Assisted Banking allows you to initiate a video or voice call and can share his / her screen with the Bank, user in case they face an issue while completing a transaction or have any queries pertaining to their account. The multi-modal assisted banking feature is configurable. Below are the features being provided as part of the current release:

- Integration with Oracle Live Experience for assisting customer.
- An assisted banking icon across the application for end user, by clicking on which he/she can start the call.
- Business user can enable and disable this option from his user preferences.

Note: Live Chat is supported only when the user is logging from desktops.

How to reach here:

Bottom right corner of the application

To start a meeting:

1. Click  icon.
2. The session recording message is displayed, Click **Yes** to continue with the modal assisted banking session.
OR
Click **Cancel** to close the session.

Live Chat

The screenshot displays the Futura Bank application interface. At the top, there is a search bar with the text "What would you like to do today?". Below the search bar, the "Overview" section for "Aramex Logistics Corporation | ***980" is visible. The "Transactions" section shows a table with columns for "Pending For Approval", "My Initiated List", "Transaction Log", and "My Approved List". The table has rows for "All", "Financial", and "Non Financial" with counts. Below the table, there are sections for "Payments" and "Bulk Record". On the right side, the "Position By Currency" section shows "Aramex Logistics Corporation | ***980" and "No data to display." Below this, there is a "Bulk File Up" section with an "Identifier" field containing "DEMANDDRA" and "Share" and "Cancel" buttons. At the bottom right, there is a "Live Chat" modal window with a "Video review" header and a "We are connecting you with our team available immediately" message. The bottom navigation bar includes "Current & Savings", "Term Deposits", and "Loans and Finances".

3. Application prompt user to give access to the devices like camera, microphone.
Click **Allow** to give access.
OR
Click **Block** to disallows the access to devices.
4. Share your screen message is displayed. Select the application and click **Share**.
OR
Click **Cancel** to abort the live chat session.
5. The screen is shared with the customer support representative.
6. Business user can voice or video chat with the Bank executive basis on the configuration done by bank.
7. Screen shows the confirmation message once the session gets ended.

[Home](#)

13. Settings

This option lets the user disable login through any of his registered devices. If the user disables login from any device, the system disables all login modes (Touch ID/ PIN/ Pattern) for that device. This feature is beneficial to users, as a user can easily disable his alternate login modes if he loses his phone/ device (on which his mobile application is installed). The user can, thereby, prevent anyone from logging into his online banking account from any of the lost/stolen devices.

This option also lets the user disable receiving alerts via push notification, disable his alternate login from all his wearable devices and disable feedback popup that appears after every transaction for security reasons.

Through this screen, user can set their preferred delivery mode for receiving One Time Password (OTP). By default 'Both' (SMS and email) mode is selected, the user can disable any of the option. It also allows the user to set his preferred language after logging in, so that whenever the user logs in, the preferred language will be automatically selected.

How to reach here:

Dashboard > My Profile icon > Settings

OR

*Access through the kebab menu of any other **Preferences** screens*

To update the settings:

1. The **Profile** screen appears under **Settings**.

13.1 Profile

Using this option, the customer can view and edit his profile details. Profile details include the user's personal and contact details.

Pre-requisites

The user must be a customer of the bank and have valid login credentials.

Features Supported In the Application

- View the profile details of user
- Edit the profile details of user

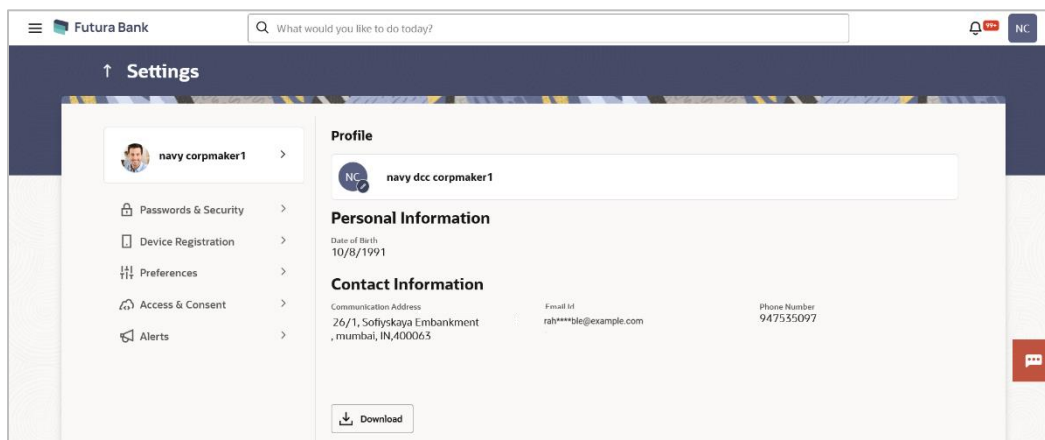

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Profile

OR

Dashboard > My Profile icon > Settings > Profile

Profile

Field Description

Field Name	Description
User Name	Name of the logged in user gets displayed.
Personal Information

Email ID	Email ID of the user, as maintained with the bank, in masked format.
Fax Number	Fax number of the user, as maintained with the bank, in masked format.
Contact Number (Mobile)	Phone number of the user, as maintained with the bank, in masked format.

23. Click on  icon on profile picture;
 - c. Click on the **Upload Image** link to update the profile picture.
 - d. Click on the **Delete** link to delete the profile picture
24. Click **Edit** to update the personal or contact details.
25. Click **Download** to download the profile.

Note: Click  arrow to go back to the **previous** page.

13.2 Password & Security

Using this option user can update the Change Password, Passkey, Alternate Login, Wearable PIN, Security Questions, Soft Token Authentication, Facial ID, and OTP Delivery Mode details.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security

Settings-Password & Security

13.2.1 Change Password

This feature enables existing users of the bank to change their login password.

Pre-requisites

- User must have existing login credentials.

Features Supported In Application

- Changing the login password.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Change Password

Change Password

The screenshot displays the 'Change Password' interface in the Futura Bank settings. On the left, a navigation menu includes 'Passwords & Security', 'Device Registration', 'Preferences', 'Access & Consent', and 'Alerts'. The main content area features three password input fields: 'Current Password' (masked with '*****'), 'New Password', and 'Confirm New Password'. Each field has a visibility icon and a 'Required' label. Below the fields are 'Cancel' and 'Save' buttons. To the right, the 'Password Policy' section lists requirements: 6-15 characters, uppercase and lowercase (1 mandatory each), numbers (1 mandatory), special characters (1 mandatory, allowed: @, #, \$), no successive characters > 4, no repetitive characters > 5, and not a common password. A copyright notice is at the bottom: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

Field Description

Field Name	Description
Current Password	Enter your current login password.
New Password	Enter a new password to replace your current login password.
Confirm New Password	Re-enter the new password to confirm the same.

To reset the password:

26. In the **Current Password** field, enter your current login password.

27. In the **New Password** field, enter a new password.

(Read the conditions defined under the **Password Conditions** section on the application screen to view the password policy.)

28. In the **Confirm New Password** field, re-enter the new password.

29. Click **Save**.

OR

Click **Cancel** to cancel the transaction.

30. A message confirming successful change of login password appears.

31. As the login user changed his password using 'Change Password' option, system will logout the user and user will be shown a confirmation message of password change along with an option to login again. Click **Login** on confirmation screen to log in to the application.

Note:

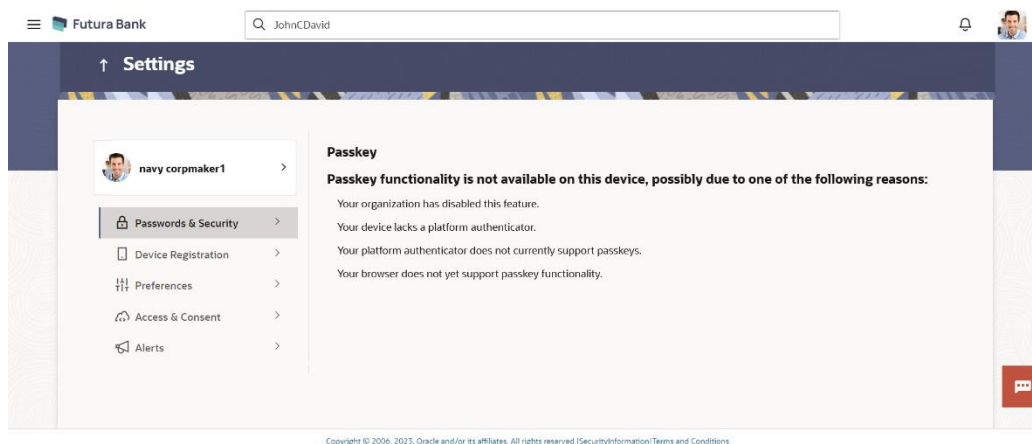

- 1) Password Conditions gets highlighted in green if the user's password is meeting the Password Policy criteria and similarly in Red if the password is not as per the Password Policy maintained.
- 2) Click inside the **Password** field, the Virtual Keyboard link appears. Click on the link to use virtual keyboard.

13.2.2 Passkey

Passkeys work only on their registered websites and apps. Using this option you can register/de-register the passkey. For more details, refer **User Manual Oracle Banking Digital Experience Passwordless Login through Passkeys**.

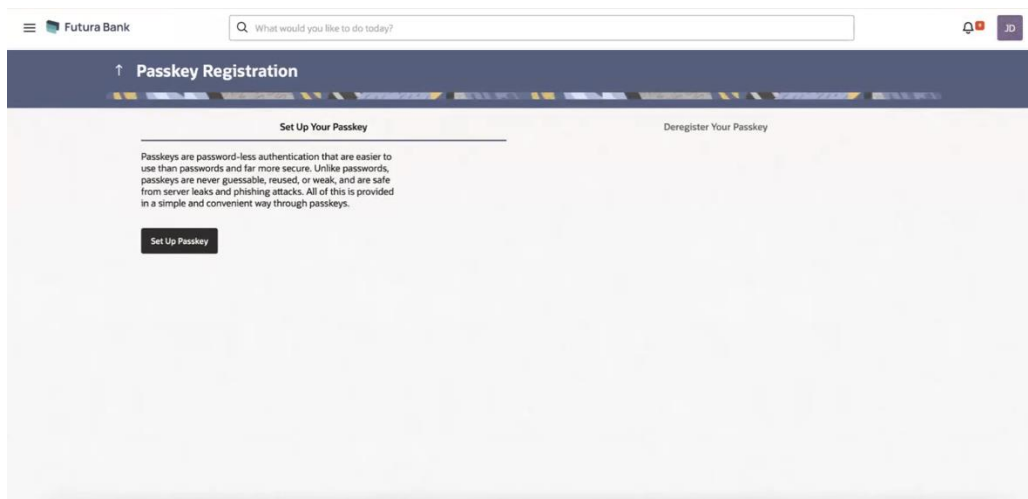

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Passkey

Passkey

2. Click **Setup Passwordless Authentication**. The **Passkey Registration** page appears.

Passkey Registration screen

3. Click on the **Setup Passkey**.
4. System prompts the user to save passkey in the device itself or in other mobile or table device with camera or in any security key.
5. Select a desired device.
Click **Continue with Password**.
OR
You can select **Security Key** or select **Save a passkey on a device with a camera**.
 - 1) **QR Code** is displayed on the device, and it needs to be scanned with a device with camera that supports passkey authentication.
 - 2) Open the Camera app on your device. Point the camera at the QR code on the screen of the device you want to connect to.
6. Click **Save Passkey**.
7. Click **Continue** on the device.
8. The operating system may ask for authentication mechanism such as Face ID/Fingerprint/device password for registering passkey. The same mechanism will be used during login through stored passkey.

Note : For this feature to work, Bluetooth on both the devices needs to be turned ON.

9. On successful registration, passkey will be saved.

13.2.3 Alternate Login

Using this option you can set PIN / Pattern / Face ID as an alternate login method for authentication and can be used instead of entering their user ID and password. For more details, refer **User Manual Oracle Banking Digital Experience PIN Pattern Touch and Face Authentication**.

Following are the alternate method for authentication:

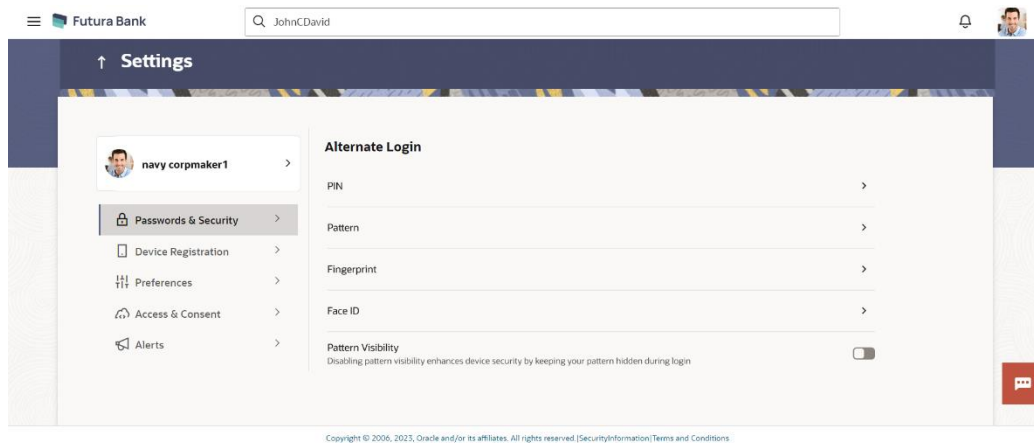

- PIN- define a 4 or 6 digit numeric PIN for login
- Pattern- define a pattern for authentication

- Face ID- define Face ID for login
- Touch ID- define a fingerprint (touch ID) for login

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Alternate Login

Alternate Login

10. Click on the > icon of the method to be set as alternate login method.

- e. If **PIN** option selected;
 - ii. In the **Set PIN** field, enter the PIN of 4 or 6 digit that needs to be set for login.
 - iii. In the **Confirm PIN** field, re-enter the pin for confirmation.
 - iv. The success message of PIN set appears.
- f. If **Pattern** option selected;
 - v. Select the **Pattern** option as the login method. The **Set Pattern** screen appears.
 - vi. Set the **desired** pattern. Draw a pattern connecting a minimum of 4 dots.
 - vii. Click **Confirm**. The **Confirm Pattern** screen appears.
OR
Click **Undo** to reset the pattern and redraw it.
OR
Click **Cancel** to cancel the transaction.
 - viii. The success message of pattern set appears.
- g. **Pattern Visibility**
 - ix. Toggle **Pattern Visibility** button to make the pattern visible.
Next time you draw the pattern at the time of login, you will able to see it on the screen.

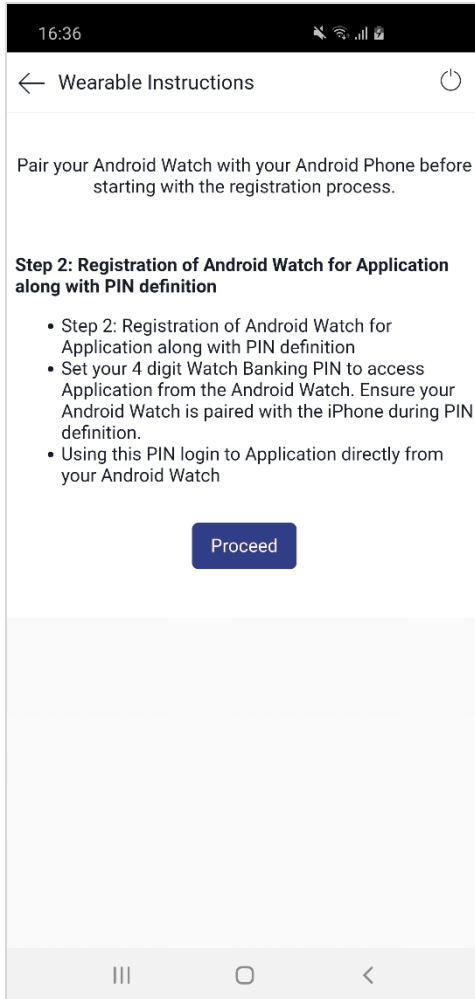

Note: By default, the **Pattern Visibility** option is disabled. If you keep the pattern visibility as disabled, you will not be able to see the pattern that you are drawing at the time of login and this will prevent any unauthorized access to the application.

- h. If **Face ID** option selected;
 - x. A message is displayed prompting you to use the Face ID.
 - xi. Click **OK**. The **Set Face ID** confirmation screen is displayed.
 - xii. Once the face ID recognition is successfully set as an alternate login, you will get an option to login with Face ID on the login page.
- i. If **Touch ID** option selected;
 - xiii. A message is displayed prompting you to use the Touch ID.
 - xiv. Once the fingerprint is authenticated, a message confirming the fingerprint recognition is displayed.
 - xv. Click **OK**. The **Set Touch ID** confirmation screen is displayed.
 - xvi. Once the touch ID as an alternate login is successfully set, you will have an option to **Login with Fingerprint** on the login page.

Wearable PIN

User needs to register the wearable along with PIN definition so that he/she can perform inquiries and transactions using the wearable. You will need to install the application on the wearable and start the registration process by pairing the wearable with the mobile application i.e. pair your Apple/Android watch with iPhone / Android phone.

Wearable Registration (Mobile)

8. Click **Proceed**. The **Verify User** screen is displayed.
9. Enter the **Password**. The message is displayed prompting that the Device ID will be stored.
10. Click **Allow** to proceed with storage of device ID.
OR
Click **Deny** to disallow storage of device ID.
11. You will be prompted to define the **PIN** for the wearable.
12. Re-enter the **PIN** in the **Confirm** screen.
13. Once the **PIN** is confirmed, a pop-up message is displayed with confirmation of PIN setup.
14. Click **OK**, The **PIN** successfully submitted message is displayed.
15. Once the wearable is registered and the PIN is set, you can login to the application (with access to limited features) through the wearable by entering the PIN.

13.2.4 Security Questions

Using this option, the user can setup security question maintenance. Security question maintenance entails selecting questions from a pre-defined list and defining answers for each

selected question. This list of security questions and answers becomes the user's security question set and the user will be asked to answer these questions while initiating certain transactions (as defined by the bank administrator) as a second level of authentication.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Security Questions

OR

*Access through the kebab menu of **Preference** transactions*

Security question setup is part of the first time login steps. The user can opt to skip setting security questions during first time login and can instead complete security question setup from the Security and Login screen.

To set up security questions:

Note: If security questions have not been set-up by the user, the following message will be displayed - "Security Questions have not been set up yet". The user will be provided with the option to set up security questions.

32. Click **Set up now** to set-up security questions. The **Set Security Question** screen appears.

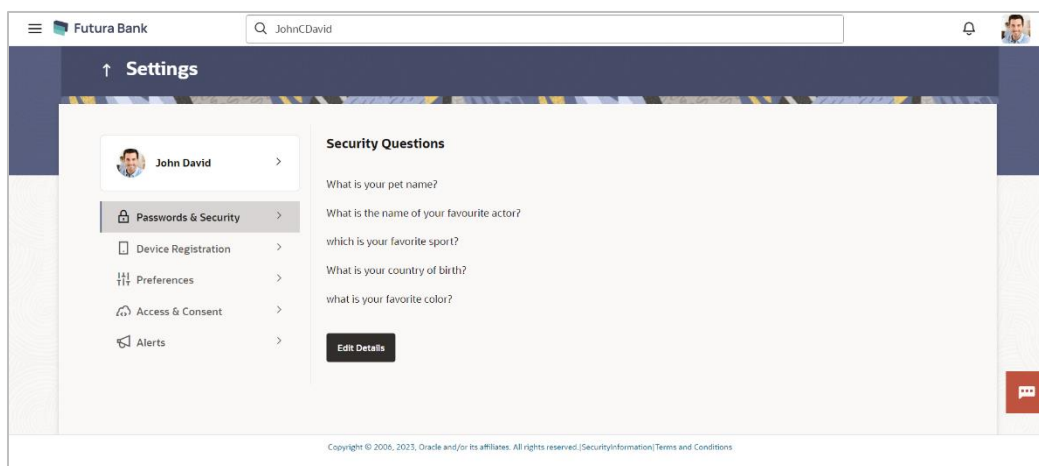

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to the previous page.

Security Question Maintenance

Field Description

Field Name	Description
------------	-------------

User Security Questions	
--------------------------------	--

Field Name	Description
Security Question	Select a question to be assigned as a security question. The security questions will be numbered, e.g. Security Question1, Security Question 2 and so on. The number of security questions and answers available will be dependent on the number configured by the bank administrator.
Answer	Specify an answer for the selected security question. The fields in which you can specify answers to selected security questions will be displayed below each security question and will be numbered, e.g. Answer 1, Answer 2 and so on.

33. From the **Security Question** list, select the appropriate security question to be added in the security question set.
34. In the **Answer** field, enter an answer for the corresponding security question.
35. Click **Submit** to save the security questions.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
36. The **Security Question Maintenance – Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to edit the security question setup.
The **User Security Question – Edit** screen with values in editable form appears.
37. The success message of submitting the request appears.
Click **OK** to complete the transaction and navigate back to '**Dashboard**'.

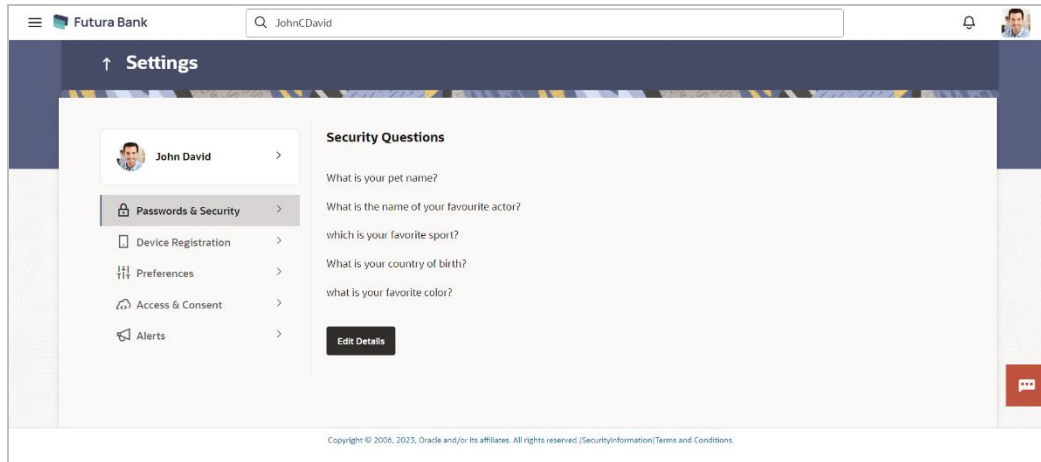

Security Questions – View and Edit

If the user has already set-up of Security Questions, the application displays the list of security questions. It also enables the user to modify the set of security questions.

To edit the set of security questions:

38. Navigate to **Set Security Questions** screen, the **Set Security Question - View** screen appears.

Set Security Questions - View

Field Description

Field Name	Description
Security Questions	The list of security questions, which is the existing set of the user

39. Click **Edit** to make changes, if required. The **Security Question Maintenance – Edit** screen with values in editable form appears.

OR

Click **Cancel** to cancel the transaction.

OR

Click **Back** to navigate back to the previous screen.

Security Question Maintenance - Edit

The screenshot shows the 'Set Security Question' page in the Futura Bank app. The page title is 'Set Security Question'. Below the title, there is a section titled 'User Security Questions'. This section contains a list of security questions, each with a dropdown menu for selecting a question and a text input field for the answer. The questions are: 'What is your pet name?', 'What is the name of your favourite actor?', 'which is your favorite sport?', 'What is your country of birth?', and 'What is your favorite color?'. Each answer field is marked as 'Required'. To the right of the questions, there is a 'Note' box with the following text: 'Security questions works as an added layer of security that helps in protecting your account against fraudulent activities. You must: Choose answers that are difficult for others to guess. Choose questions which you have not answered on public or on social media sites'. At the bottom of the page, there are three buttons: 'Submit', 'Cancel', and 'Back'.

Field Description

Field Name	Description
Questions	The list of security question, which is the existing set of the user.
Answer	Specify an answer for the selected security question.

40. From the **Security Questions** list, select a different question from the currently set question, if required.
41. In the **Answers** field, enter the answers corresponding to the security questions.
42. Click **Submit** to save the changes made.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
43. The **Security Question Maintenance – Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to make changes, if required.
The **Security Question Maintenance – Edit** screen with values in editable form appears.

44. The success message of security question setup appears along with the transaction reference number.
Click **OK** to complete the transaction and to navigate back to the **Dashboard**.

13.2.5 Soft Token Authentication

This option enables Multi-factor authentication for a specific user and for a specific device. This same device must be used to generate the time-based one-time passcode every time the user signs in.

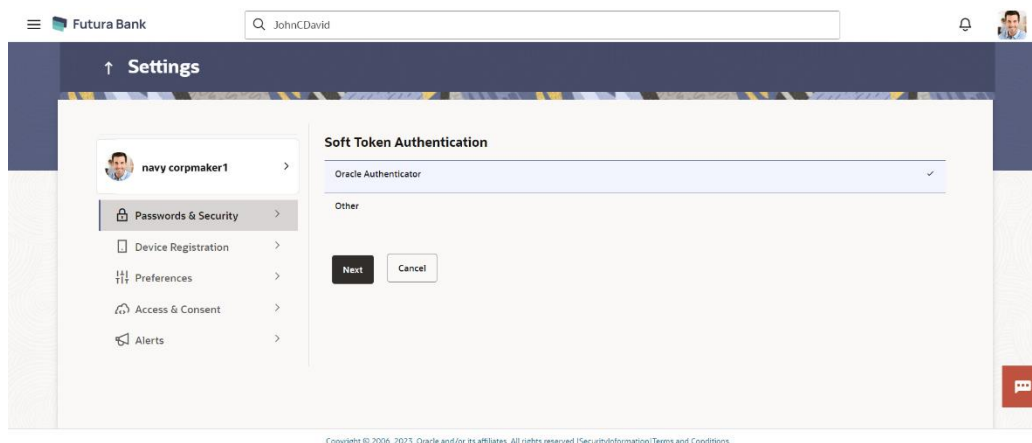

A Soft token authentication is a two - factor authentication based on Passcode or PIN. Using this option, the user can generate security token i.e. a single-use 6 digit login PIN or passcode.

If you set up 2-Step Verification, you can use the Oracle Mobile Authenticator(OMA), Google Authenticator, Microsoft Authenticator with TOTP only app to receive QR codes.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Soft Token Application

Soft Token Application

Field Description

Field Name	Description
Choose Authentication Type	Specify the authentication type for to generate the time-based one-time passcode every time the user signs in. The options are: <ul style="list-style-type: none"> • Oracle Mobile Authenticator • Other Mobile Authenticator
Can't scan? Copy the key	Click on the link to generate the key to authenticate.

Field Name	Description
QR Code	Generated QR code to authenticate.

11. In the **Choose Authentication Type** field, select the desired authentication type.

45. Click **Next** to generate QR Code. QR code is generated by application.

Scanning QR Code

46. Get the authenticator app from the **App Store**.

47. Install the authenticator app on iphone or android device.

48. Open authenticator app.

49. Click on the + icon of the authenticator.

Authenticator

12. Choose option to scan the QR code or enter authentication key.

- Scan the QR code by authenticator app.

Note: If you can't scan the QR Code, click on the **Can't scan? Copy the key** link to generate the key to authenticate.

- The success screen appears as user is all set to use authenticator to authorise.

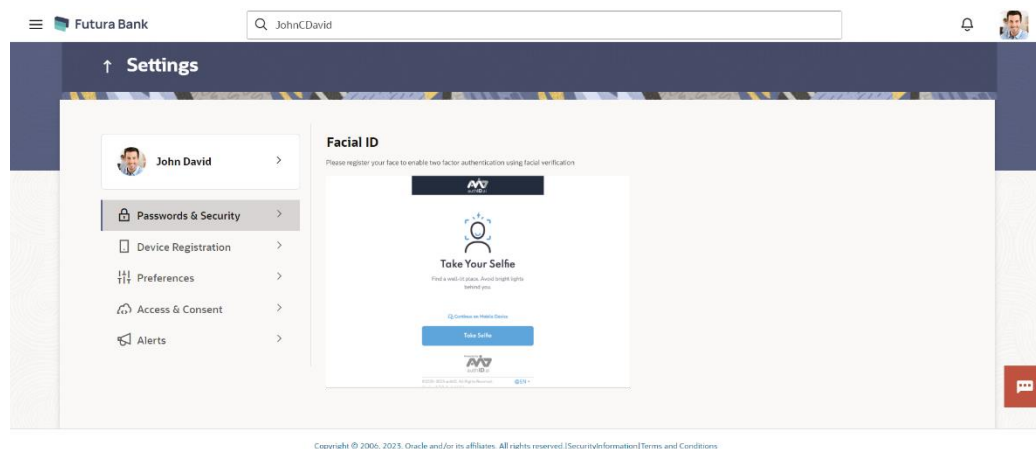

13.2.6 Facial ID

This option allows the user to login to the Futura Bank application using Face ID instead of user ID and password. The user also has the option of changing their alternate login from Face ID to any other method.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Facial ID

Facial ID

- Click on the link **Continue on Mobile Device** to take selfie from your mobile camera.
OR
Click **Take Selfie** to set the face ID from the desktop.
- The success message of face ID for authentication appears.

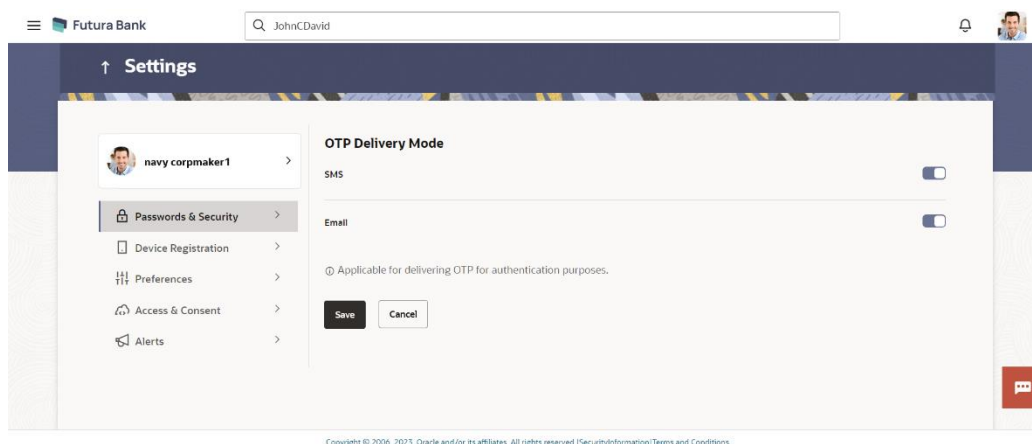

13.2.7 OTP Delivery Mode

You can define delivery preference for dispatch of OTP i.e. whether you want it delivered on SMS or Email or Both. If there is a preference defined, system will dispatch the OTP on preferred delivery mode.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > OTP Delivery Mode

OTP Delivery mode

Field Description

Field Name	Description
Preferred Delivery Mode (Only for OTP)	
Dispatch Method	<p>Select the preferred delivery mode to receive the one-time password (OTP).</p> <p>The options are:</p> <ul style="list-style-type: none"> • SMS • Email
	<p>Note: The preference is applicable only for OTP defined as authentication mode for transactions by the bank.</p>

- Toggle specific delivery mode to set as an OTP delivery mode for authentication.
- Click **Save** to save the changes.
OR
Click **Cancel** to cancel the transaction.
- The success message appears.

13.2.8 Session Summary

This option is used by the user to check the log of transactions and login details for the previous five logins. The user can view the entire session summary of the previous five logins, login and logoff date and time for each session, channel in which transactions are carried out in each session along with the IP address of the channel.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Session Summary

Session Summary

The screenshot shows the Futura Bank Settings page. The user is logged in as 'navy corpmaker1'. The 'Session Summary' table is displayed with the following data:

Start Date & Time	End Date & Time	Channel	IP Address
▶ 11/10/2023, 11:44AM	11/10/2023, 12:34 PM	Internet	10.213.205.193
▶ 11/10/2023, 11:26AM	11/10/2023, 12:16 PM	Internet	10.191.255.218
▶ 11/10/2023, 11:20AM	11/10/2023, 12:10 PM	Internet	10.76.40.81
▶ 11/10/2023, 11:04AM	11/10/2023, 11:54 AM	Internet	10.191.250.41
▶ 11/10/2023, 10:56AM	11/10/2023, 11:46 AM	Internet	10.191.250.41

Field Description

Field Name	Description
Start Date & Time	The date and time at which the particular session was started.
End Date & Time	The date and time at which the particular session was ended.
Channel	The channel of access for the session (Desktop Browser / Mobile / Application etc.)
IP Address	The IP address of the channel.

50. Click ▶ against a specific record to view the details of that session. The session details appears.

Session Summary - Details

The screenshot shows the 'Session Summary' section in the Futura Bank settings. It features a table with columns for Start Date & Time, End Date & Time, Channel, and IP Address. Below this, there is a section for transactions with columns for Transaction Name, Status, and Transaction Date & Time.

Start Date & Time	End Date & Time	Channel	IP Address
▶ 11/10/2023, 11:44AM	11/10/2023, 12:34 PM	Internet	10.213.205.193
▼ 11/10/2023, 11:26AM	11/10/2023, 12:16 PM	Internet	10.191.255.218

Transaction Name	Status	Transaction Date & Time
Login	Success	11/10/2023, 11:26AM
Investment Summary	Success	11/10/2023, 11:26AM
List Investment Account	Success	11/10/2023, 11:26AM

▶ 11/10/2023, 11:20AM	11/10/2023, 12:10 PM	Internet	10.76.40.81
▶ 11/10/2023, 11:04AM	11/10/2023, 11:54AM	Internet	10.191.250.41
▶ 11/10/2023, 10:56AM	11/10/2023, 11:46 AM	Internet	10.191.250.41

Field Description

Field Name	Description
Start Date & Time	The date and time at which the particular session was started.
End Date & Time	The date and time at which the particular session was ended.
Channel	The channel of access for the session (Desktop Browser / Mobile / Application etc.)
IP Address	The IP address of the channel.

Session Summary – Details

All the transactions initiated during the selected session are listed down one below the other. The fields documented below form part of a transaction record.

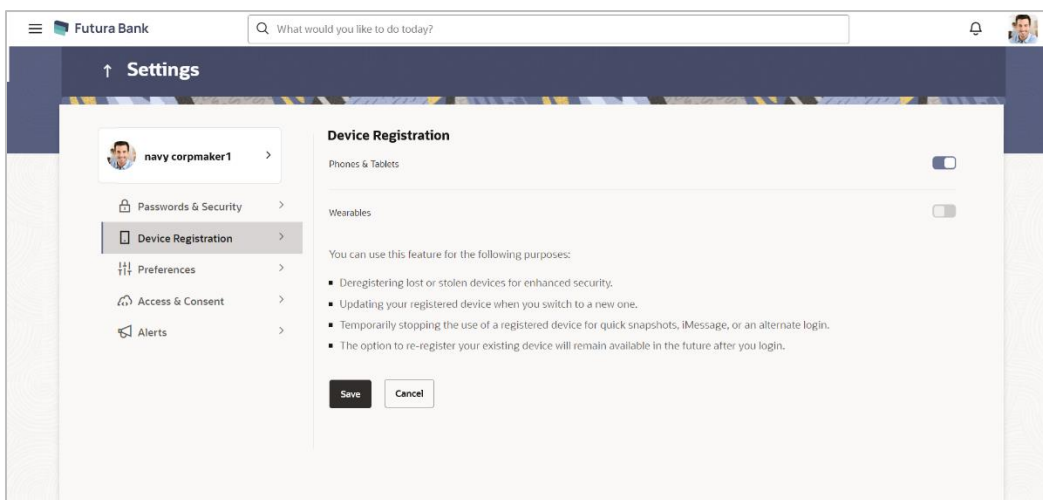

Transaction Name	The name of the transaction that was performed during the session.
Status	The status of the transaction.
Transaction Date & Time	The date and time at which the transaction was performed.

51. .

13.3 Device Registration

This option lets the user to deregister lost or stolen devices for enhanced security, update registered device when user switch to a new one, temporarily stopping the use of a registered device for quick snapshots, iMessage, or an alternate login, and allow to re-register existing device in the future after login.

Device Registration

Field Description

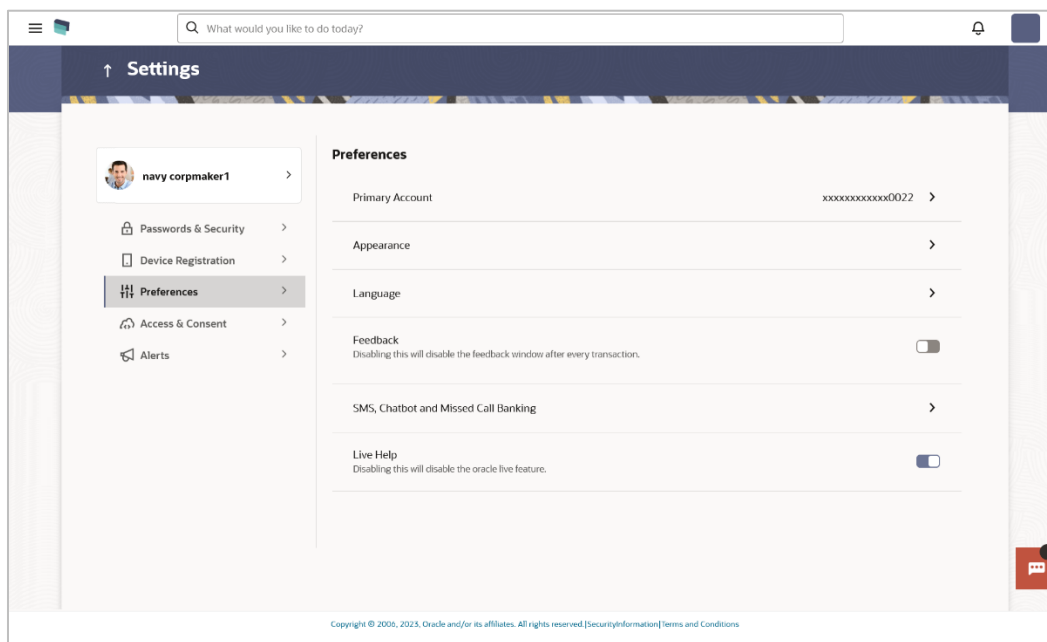

Field Name	Description
Phones & Tablets	This feature permits the user to deregister all their iOS and Android mobile devices, eliminating the device mapping from their mobile. As a result, alternative login methods like PIN, pattern, or facial recognition won't function on those devices.
Wearables	This feature enables the user to de-register their wearable devices, effectively removing the device mapping by turning off the wearable option. As a result, PIN login will not work on the wearables.

52. Under the **Phones/ Tablets** section, click the toggle button to deregister IOS/Android devices.
Your alternate login gets disabled from all the android devices on which you have installed the banking application.
53. Under **Wearables**, click the toggle button to deregister your IOS/Android wearable devices.
Your alternate login gets disabled from all the android wearable devices on which you have installed the banking application.

54. Click **Save** to save the changes. The success message appears.
OR
Click **Cancel** to cancel the transaction.

13.4 Preferences

Preferences

13.4.1 Primary Account Number

This option enables the user to define his primary account number.

Note: The account number selected in this screen will appear as a default account in all the account number selection fields (applicable for all existing and new transactions).

Pre-requisites

- The user must have a valid login credential to access the digital banking platform.

Features Supported In the Application

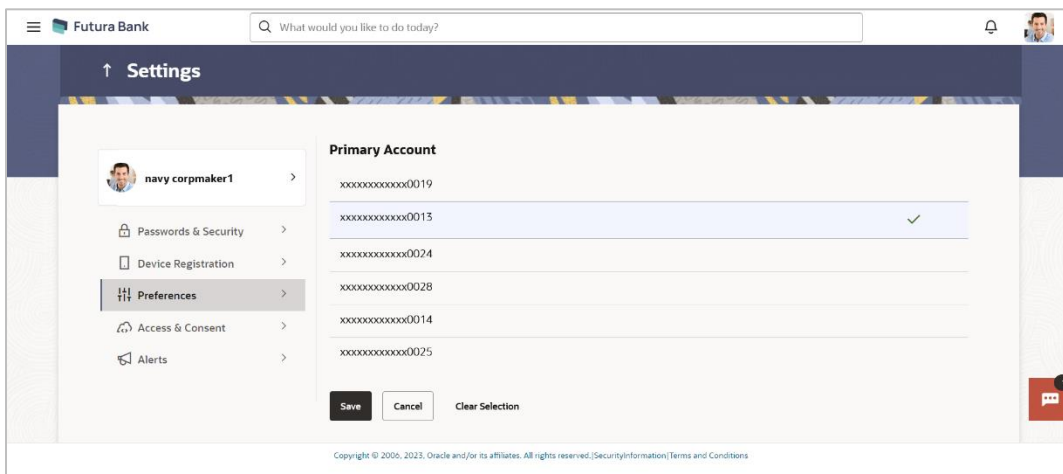

- Definition of Primary Account Number

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Primary Account Number
OR
Dashboard > My Profile icon > Settings > Preferences > Primary Account Number

To select the primary account number:

55. All the user's account numbers with account type, party name and nickname (if added) appears on the **Primary Account Number** screen.

Primary Account Number**Field Description**

Field Name	Description
Select	The option to select any account number to be marked as primary account number.
Account Type and Number	The account numbers (in masked format) and the type of accounts are displayed as records.
Party Name	The party name of the account is displayed against the account record.
Nickname	The nickname given to the account by the account holder, is displayed against the account record.

56. Click on the account number that you wish to be marked as the primary account number.

57. Click **Save**.

A message confirming definition of primary account number appears.

OR

Click **Clear Selection** to deselect the selection.

OR

Click **Cancel** to cancel the transaction.

13.4.2 Appearance

Using this option, business user can personalize the view of their application with the desired themes. The list of theme templates are available to the business users for selection, the user can select the desired theme and activate it by clicking the Apply button.

At any point in time, the user can deactivate a theme and activate another one or revert to the default theme.

Pre-requisites

- The user must be a customer of the bank and have valid login credentials
- Bank Administrator has created the themes that are available for business user for personalization

Features supported in application

- Apply Theme
- Swich to default Theme

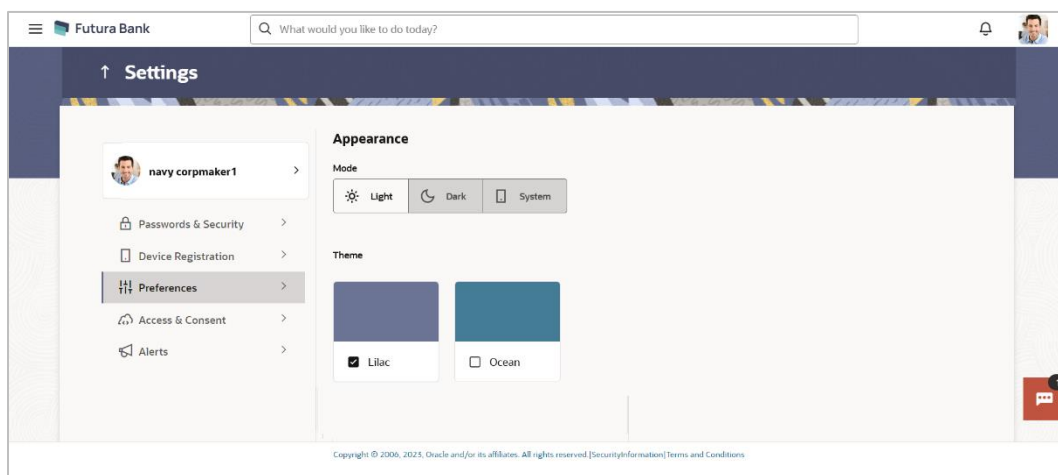

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Appearance

OR

Dashboard > My Profile icon > Settings > Preferences > Appearance

Themes

To apply the theme:

58. All the themes defined by the bank users get listed here. User can view the colors of the themes in the theme templates being displayed.
59. Select the required theme from the list of available themes. The chosen theme is automatically applied within the application.

60.

13.4.3 Language

Using this option user can set desired language to use in the application.

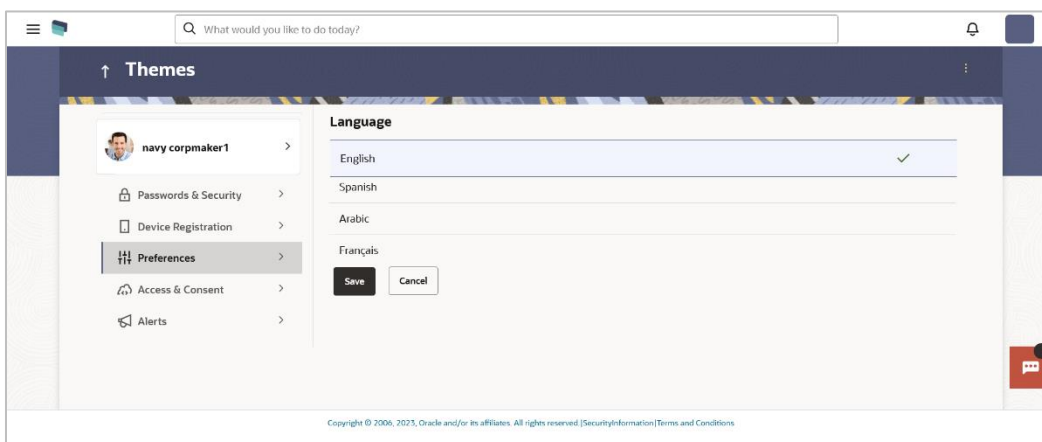

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Language

OR

Dashboard > My Profile icon > Settings > Preferences > Language

Language

Field Description

Field Name	Description
Preferred Language	The option to set the user/s preferred language to use the application.

Dispatch Method	<p>Select the preferred delivery mode to receive all the alerts and notifications.</p> <p>The options are:</p> <ul style="list-style-type: none"> • SMS • Email • Push Notification • On screen • WhatsApp

82. You can define delivery preference for receive all the alerts and notifications. If there is a preference defined, system will dispatch the it on preferred delivery mode.

FAQ

1. **If I have more than one iOS devices and I need to deregister one of my devices from the Futura Bank application, can I do so using the 'Registered Device' option?**

If you disable 'iOS Devices' in the 'Register Device' option, it will disable your alternate login from all the devices. You need to re-install the application if you want to use it again on that device.

2. **Why would I need to unregister a device?**

The unregistering of devices is done in case you have lost your device and you want to disable your alternate login from that device to prevent any misuse of your Bank account.

15. Dashboard Personalization

Dashboard personalization feature provides an ability to the business users to reconfigure and customize their dashboards around the tasks and information they use most frequently. This feature will enable business users to create their own dashboard that is easier to navigate, making every visit more efficient.

Corporate users can reconfigure/ customize their dashboards by dragging and dropping the desired widget at desired location while configuring new dashboard to add more widgets. The users can also move the widgets already present in the dashboard to the desired location using this function. The user can also change the size of the widget (expand and compress) and can remove the widget if desired. The widgets on the dashboard auto adjust itself according to the place available on the dashboard.

OBDX dashboards are responsive and can adapt to any size of device that Bank wants to enable for the customers. User can preview his dashboard for different form factors i.e. desktop, mobile and tablet. An option to revert to the default dashboard (configured by bank) is also provided.

Note:

- 1) Dashboard personalization feature is currently not supported by mobile and tablet devices.
 - 2) Widgets available for selection for users are on the basis of the widget access given to the associated application role of the user for Internet touch point.
-

Prerequisites

- Transaction access is provided to the corporate user
- Widgets are available for designing the dashboard

Features supported in application

- Personalize/ Customize the Dashboard
- Revert to default dashboard

The corporate user can unsubscribe the alerts as per his requirement. Please note that the customer will continue to receive the mandatory alerts irrespective of his choice on the subscribed alerts.

17. Security Question Authentication

The security question is configured as two factor authentication mechanism and as per the level of authentication configured, it is executed. User has to answer the security questions to execute the transaction successfully.

For security question authentication:

1. In the transaction review screen, verify the details, and click **Next**.
OR
Click **Cancel** to cancel the transaction.
2. The Two Factor Authentication (2FA) screen appears.

Security Question Authentication

The screenshot shows the Futura Bank mobile app interface. At the top, there's a navigation bar with the Futura Bank logo, a search icon, and a user profile section for 'Welcome, Nehal Joshi' with a last login time of '08 May 05:36 PM'. Below this is a yellow banner with a 'REVIEW' icon and the text 'You initiated a request for Self Transfer. Please review details before you confirm!'. The main content area displays transfer details: 'Transfer To' (masked), 'Transfer From' (masked), 'Amount' (£1,000.00), 'Transfer When' (30 Jan 2019), and a 'Note' field. Below the details is a 'Security Question Maintenance' section with two questions: 'How many siblings do you have?' and 'Which sport you like most?'. At the bottom, there are 'Submit' and 'Cancel' buttons. A copyright notice is visible at the very bottom of the screen.

Field Description

Field Name	Description
Questions	The list of security questions set for the Two Factor authentication.
Answer	The answers corresponding to the security question.

3. For the Security Question based Two Factor Authentication, in the **Answers** field, enter the answers corresponding to the security question

4. Click **Next** to go to the next level of authentication (if applicable).
OR
Click **Cancel** to cancel the transaction.
5. Complete the Two Factor Authentication, and click **Confirm**.
The success message appears along with the transaction reference number.
Click **OK** to complete the transaction and navigate back to 'Dashboard'.

17.1 One Time Password Authentication

One Time Password is a second factor authentication method. It is a unique code that can be used only once. A verification code is sent to the registered mobile number or email ID of the account holder. User has to enter the received code to complete the process. User can click on Resend Code, to receive the code again (if not received or expired).

For OTP verification:

1. In the **Verification Code** field, enter the code as received.
OR
Click **Resend Code**, if you wish to receive the verification code again or your verification code got expired.

Verification

The screenshot displays the Futura Bank One Time Verification interface. At the top, there's a navigation bar with the Futura Bank logo and user information: 'Welcome, Nehal Joshi' and 'Last login 08 May 05:36 PM'. The main content area is titled 'Verification' and contains the following elements:

- One Time Verification**: A heading followed by the instruction: 'A verification code has been sent to your registered mobile number. Please enter that code below to complete the process.'
- Verification Code**: A text input field with a masked code '.....' and a 'Resend Code' link.
- Attempts Left**: A label with the value '4'.
- Reference Number**: A label with the value '95539'.
- Buttons**: 'Submit' and 'Cancel' buttons at the bottom.

At the bottom of the page, there is a footer: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

Field Description

Field Name	Description
Verification Code	The code sent to the customer's registered email id or on their mobile number.

2. Click **Submit**.
On successful authentication, the user is allowed to proceed with the transaction.

FAQ

1. Why is there a need for a One-Time Password (OTP)?

An OTP helps to protect against online fraud. It is a secure way to authenticate whether a customer who is making an online transaction is the rightful owner of the credit / debit card being used.

2. When do I key in the OTP and how do I receive the OTP?

When you make an online transaction using your credit/debit card, OTP is set up will be required. OTP will be sent to your mobile phone via SMS or email.

18. E-Receipts

E-receipts are electronic receipts that are generated for a transaction from the confirmation page. E-receipts are proof of payment, showing that a payment or a transaction has been done in the bank account. Alternately e-receipts can be generated from the transaction journey page, on the dashboard – for all completed transactions.

An e-receipt displays the transaction name, transaction details along with date and time stamp. It's a configurable feature; the user can view the E-receipt button on the transaction only if it is configured (this is done by the bank, when the user requests for the feature)

Pre-requisites

- User has a Current and/or Savings account with the bank with online banking enabled
- The E-receipts maintenance is configured, for the user by the admin.

Features Supported In Application

- Provide e-receipts for a transaction

18.1 Example for e-receipt generation

To transfer the money to existing payee:

1. In the **Transfer Type** field, select the **Existing Payee** option.

2. From the **Payee** list, select the payee towards whom funds are to be transferred. The details of the selected payee appear.
3. From the **Transfer From** account list; select the account from which the transfer needs to be made.
4. From the **Currency** list, select the appropriate currency for the amount to be transferred. (Applicable for international payees only. For domestic and internal payees, currency gets defaulted.)
5. In the **Amount** field, enter the transfer amount.
6. If user clicks **Book New Deal** to book the new forex deal. The **Initiate Forex Deal Booking** screen appears.
7. If user selects the checkbox **Use Pre-Existing Deals** to select an existing forex deal.
8. In the **Deal Number** field, enter the forex deal number.
Click **Verify**. The deal details of selected deal appear.
OR
Select deal from the Lookup by clicking the **Lookup Deal Number** link.
In the **Search by Deal Number** field, enter the forex deal number to be searched.
Click  to search. The list existing forex deal appears.
Click on **Deal Number** field, to select the appropriate deal from the list.
Click **Proceed** to continue the transaction with selected deal.
The deal details of selected deal from Lookup appear.
Click **Reset** to clear the entered details.

9. In the **Transfer When** field, select the option to indicate when the transfer is to take place.
 - a. If you select the option **Now**, the transfer will be made on the same day.
OR
If you select the option **Later**, select the date on which you want the transfer to be initiated from the **Transfer Date** field.
10. If the transfer type is **Domestic**, in the **Pay Via** field, select the appropriate network for payment.

If the transfer type is Domestic India region, only those networks that are enabled, based on transfer details defined, will be selectable. Select a network of choice.
11. If the transfer type is **International**, select the appropriate option from the **Correspondence Charges** list.
 - a. In the **Transfer via Intermediary Bank** field, select the appropriate option.(Applicable for international payees only.)
 - b. If you have selected Yes option in the **Transfer via Intermediary Bank** field, select the appropriate network for payment in the Pay Via field.
 - i. If you select **Swift** option:
 1. In the **SWIFT Code** field, enter the SWIFT code or search and select it from the lookup.
 2. Click **Verify** to fetch bank details based on Bank Code (BIC).
 - ii. If you select **National Clearing code** option:
 1. In the **National Clearing code** field, enter the National Clearing code or search and select it from the lookup.
 2. Click **Verify** to fetch bank details based on Bank Code (BIC).
 - iii. If you select **Bank details** option:
 1. In the **Bank Name** field, enter the bank name.
 2. In the **Bank Address** field, enter the complete address of the bank.
 3. From the **Country** list, select the country of the bank.
 4. From the **City** list, select the city to which the bank belongs.
 - iv. From the **Payment Details** list, select the appropriate purpose of transfer.
(Applicable for international payees only.)
12. In the **Note** field, specify a note or remarks.
13. Click **Pay** to initiate the payment.
OR
Click **Cancel** to cancel the operation and to navigate back to the dashboard.
14. The **Make Payment - Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to navigate to the **dashboard**.
OR
Click **Back** to navigate back to the previous screen.

Note: If a standing instruction or a pay later transfer is due to the payee within the next X days (as configured), a warning message will appear on the review page intimating the user about the same. This is applicable only if the transfer being initiated is an internal or domestic transfer.

15. The success message appears along with the transaction reference number, status and transaction details.
 Click **Go to Dashboard** to go to the **Dashboard** screen.
 OR
 Click **Add Favorite** to mark the transaction as favorite. The favorite transaction is added. For more information, refer section **Corporate Payments Use Manual - Favorites** transaction.
 OR
 Click the **e-Receipt** link to download the electronic receipt.

19. Service Requests

This feature enables corporate users to initiate service requests as well as to view all the service requests initiated by them along with the updated status of each service request.

19.1 Raise a New Request

On the Raise Service Request screen, the user can view all the service requests defined by the System/ Bank administrator. These service requests are grouped under Product and Request Category so that the user can easily locate and raise a service request according to requirement. A search option is also provided on the screen that enables the user to search for a specific service request on the basis of the service request name.

Using this screen, the users can raise a new service request by providing the data as per the fields chosen by the System/ Bank administrator while creating Service Request Definition.

Pre-Requisites

- Transaction access is provided to the Corporate User.

Features Supported In Application

The module supports the following features:

- Raise New Request – Summary
- Raise New Request

How to reach here:

Dashboard > Toggle menu > Menu > Service Requests > Raise a New Request

OR

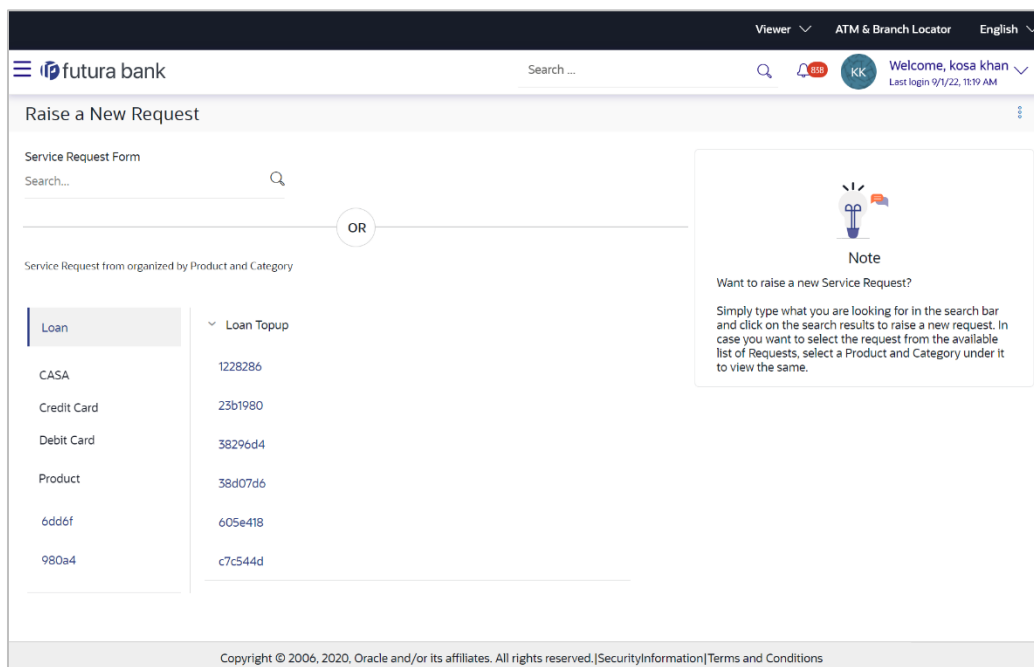

*Access through the kebab menu of **Track Requests** transaction*

19.1.1 Raise a New Request - Summary

To raise a service request:

1. The page from which the user can select the service request form on the basis of product and category appears

Raise a New Request – Service Request Form Selection

Field Description

Field Name	Description
Search Criteria	
Service Request Form	Enter a service request name to search for the required service request.
List of Products	All the products against which a service request can be raised are listed down on the left hand side of the screen. Click on a specific product/module to view the service requests related to that module.
List of Categories	The list of categories under the selected product are displayed on selection of a product/module. Click on a specific category to view the service requests related to that category.

2. Click the specific Product from the module list on the left side of the screen to view the service request categories related to that module.
3. Click the **Category Name** to view the service requests listed under that category.

4. Click the **Service Request** link to view the service request form. The form for the specific service request appears.
OR
In the **Service Request Form** field, enter the desired service request name, and click the  icon. The specific service request form appears.

19.1.2 Service Request Form

This page is displayed once the user selects a service request form from the **Raise a New Request** page. This screen enables the user to initiate a service request by entering the data in the fields that are defined by the bank administrator in the Service Request Form Builder screen.

Service Request

The screenshot displays the 'Loan Application' form on the Futura Bank website. The form is structured as follows:

- Personal Information:**
 - Surname: Smith
 - Gender: Male
 - Date Of Birth: 17 Sep 1994
 - Image Upload: 231190.png
 - Country: United States
 - State: Florida
- Account Information:**
 - Please Enter Account Number: xxxxxxxx0033
 - Account Number: xxxxxxxx0011
 - Debit Card: XXXXXX3801
 - Identity Proof: Aadhar, PAN, Driving License
 - Identity Proof Copy: Aadhar

A 'Submit' button is located at the bottom left of the form. On the right side, an 'Information' box contains a document icon and the text: 'Users can fill this form to apply for a two wheeler loan.'

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions

To create a service request:

5. Enter the required details.

6. Click **Submit**.
7. The **Review** screen appears. Verify the details and click **Confirm**. The success message appears.
OR
Click **Back** to make changes if any.
The user is directed to the Service Request screen with values in editable form.
OR
Click **Cancel** to cancel the transaction.

19.2 Track Requests

This feature enables corporate users to track the statuses of all the service requests that they have raised. The search criteria provided enables the user to filter service requests based on various criteria such as product name, category name, status,date range etc.

Below are the Service Requests that are available out of the box in the system:

- Credit Card Supplementary
- Credit Card PIN Request
- Replace Credit Card
- Update Card Limits
- Update Credit Card Auto Payment
- Register Credit Card Auto Payment
- Deregister Credit Card Auto Payment
- Activate Credit Card
- Hotlist Debit Card
- Cancel Debit Card
- Debit Card PIN Request
- Apply Debit Card
- Replace Debit Card
- Block Debit Card (temporary block)
- Unblock Debit Card (remove temporary block)
- Upgrade Debit Card

The bank can define new service requests in addition to the above mentioned Service Requests.

Pre-Requisites

- Transaction access is provided to the Corporate User.

Features Supported In Application

The module supports following features:

- Search Service Request
- View Service Request details

How to reach here:

Dashboard > Service Request Widget > Track Requests

OR

Dashboard > Toggle menu > Menu > Service Requests > Track Requests

OR

*Access through the kebab menu of **Raise a New Request** transaction*

19.2.1 Track Requests - Search

Track Request - Search

The screenshot displays the 'Track Requests' search interface on the Futura Bank website. The page includes a search bar at the top, a navigation menu, and a user profile section. The main content area features a search form with the following filters:

- Product Name: Credit Card
- Category Name: Please Select
- From Date: [Date Picker]
- To Date: [Date Picker]
- Status: Accepted

Buttons for 'Apply' and 'Reset' are located at the bottom of the search form. A 'Note' box on the right side of the page contains the following text:

Note
This page lists all the Service Requests raised by you.
You can simply search a particular request and view the details of it by clicking on the same. In case you are not satisfied with the resolution provided for your request, please contact Branch or Customer Care.

Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions

Track Requests – Search Results

The screenshot shows the 'Track Requests' interface for Futura Bank. At the top, there are navigation options for 'Viewer', 'ATM & Branch Locator', and 'English'. The user is logged in as 'Welcome, kosa khan' with the last login time '9/1/22, 11:19 AM'. The main content area is titled 'Track Requests' and is filtered by 'Credit Card'. A table lists 12 requests with the following data:

Date	Request Name	Reference Number	Status
22 Sep 2021	Happy Hours	1006	Pending
16 Sep 2021	Credit Card PIN Request	958	Accepted
09 Sep 2021	Update Card Limits	910	Accepted
09 Sep 2021	Update Card Limits	911	Accepted
09 Sep 2021	Credit Card PIN Request	909	Accepted
09 Sep 2021	Activate Credit Card	908	Accepted
07 Sep 2021	Update Card Limits	891	Completed
30 Aug 2021	Register Credit Card Auto Payment	836	Rejected
27 Aug 2021	Unblock Card	789	Completed
25 Aug 2021	Credit Card PIN Request	786	Accepted

Below the table, there is a pagination control showing 'Page 1 of 5 (1-10 of 49 items)' and a 'Note' box that reads: 'This page lists all the Service Requests raised by you. You can simply search a particular request and view the details of it by clicking on the same. In case you are not satisfied with the resolution provided for your request, please contact Branch or Customer Care.'

Field Description

Field Name	Description
Search Criteria	
Product Name	The name of the product for which the service request is to be searched.
Category Name	The service request category name related to the product selected.
Date Range (From Date – To Date)	The user can search for service requests initiated between two dates by specifying a date range.
Status	The user can search for service requests based on status.
Search Results	
Date	The date on which the service request was raised.
Request Name	The name of the service request.

Field Name	Description
Reference Number	The reference number generated at the time the service request was raised.
Status	The current status of the service request.

To search for a service request:

1. Enter search criteria in the service request search fields.
2. Click **Apply**. The search results based on the search criteria appears on the **Track Requests** screen.
OR
Click **Reset** to clear the search parameters.
3. Click the **Request Name** link of the specific service request record to view the details of that service request.
OR
Click on the  icon to change filter criteria. The search results based on the new defined search criteria appears on the **Track Requests** screen.

19.2.2 Service Request Details

Once the user clicks on a service request record from the search results page, an overlay opens displaying all the details of the service request, along with the status history.

To view the details of a service request:

1. In the **Track Request** search results screen, click the **Request Name** link of the specific service request record to view the details of that service request. An overlay displaying the details along with the status of the specific service request appears.

Service Request Details

The screenshot displays the 'Service Request Details' overlay for Reference Number 2840. The details shown are:

- Reference Number: 2840
- Request For: OTHERS
- Date Requested: 6/7/22
- Status: Accepted
- Loan Type: test RD

The background shows a table of request status with the following data:

Date	Request Name	Reference Number	Status
6/7/22	Test Corp SR	2840	Accepted
6/6/22	Test Corp SR	2838	Closed
6/6/22	Corp Laon	2790	Rejected
6/6/22	Corp Laon	2789	Rejected

Field Description

Field Name	Description
Service Request Details	
Reference Number	The reference number generated at the time the service request was raised.
Request For	The service request raise for whom it is raised.
Date Requested	The date on which the service request was raised.
Request Name	The name of the service request.
Request Details	The details of the requested service. All the fields captured at the time of raising the service request will be populated.

2. Click  icon to close the overlay and to navigate back to the **Service Request Summary** screen.

[Home](#)

20. Mailbox

Mailbox helps in two way communication between the bank administrator and the business user. Mailbox displays the list of messages to the user with date and time and message subject. Users can send mail messages to bank administrators with specific pre-defined subjects for their queries/complaints/feedback.

Prerequisites:

- The user must have a relationship with Bank.
- User must have login credentials.

Feature supported in the Application:

- **Inbox** – This folder displays all the messages sent by bank administrators to the user. The user can reply to any of these mail messages or can delete any message.
- **Compose** – This enables the user to select a predefined subject and to initiate a mail with a query/ complaint/ feedback.
- **Sent Mail** – This folder lists down the mails sent by the user. An option is provided to delete any or all sent mails.
- **Deleted Mail** – This folder displays the mails deleted from the user's **Inbox** and **Sent Mail** folders. The user can opt to permanently delete any or all of these mail messages.
- **Alerts** – This folder lists down the alerts sent by the bank to the user. The user can opt to delete any or all of these alerts.
- **Notifications** - This section enables the user to view all the notifications sent by the bank.

20.1 Mails

The following features are available under Mails:

- **Inbox:** This folder displays all the mail messages received by the user.
- **Compose Mail:** This option enables the user to create and send a new mail message.
- **Sent Mails:** This folder displays the list of mail messages sent by the user to the bank.
- **Deleted Mails:** This folder contains the list of mail messages deleted by the user from the inbox and the sent mail folders.

How to reach here:

Dashboard > Toggle Menu > Menu > Mailbox > Mails
OR

Dashboard > Click  > Mails > View All

20.1.1 Inbox

Using this feature, the user can view the messages received in his Inbox. The user can view an individual message by clicking on the subject of the specific mail.

How to reach here:

Dashboard > Toggle Menu > Menu > Mailbox > Mails > Inbox

OR

Access through the kebab menu of any other screens available under Mailbox

To view received mails:

1. The list of received messages appears on the **Inbox** screen. Click on the subject link of an individual message to view the details of that message.

Inbox

Field Description

Field Name	Description
Subject	The subject of the mail is displayed against each mail record.
Date	The date and time on which the mail was received is displayed against each mail record.

To access the Inbox:

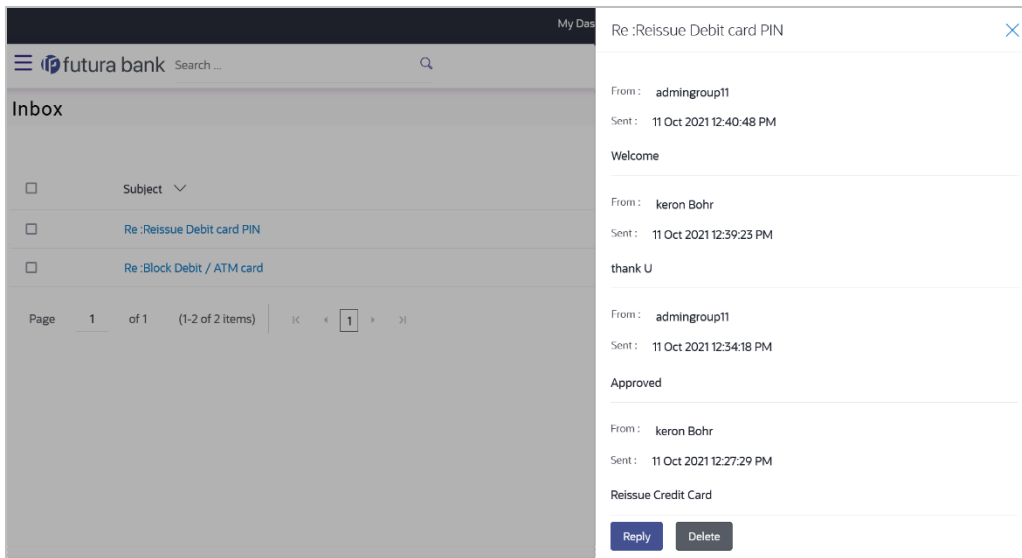

1. Click the subject of a mail you want to view. The mail details are displayed on the overlay window.
OR
Click **Refresh** to refresh the folder.
OR
To delete one or multiple messages, select the specific check boxes against the mail and

click **Delete**.

OR

Click on kebab menu to access mailbox related transactions.

Inbox - Message Details

Field Description

Field Name	Description
Message Details	
Message Heading	The subject of the received mail.
From	The name of the sender of the mail.
Sent	The date and time on which the mail was received.
Content	The content of the mail.

Field Name	Description
Mail Chain	<p>All the mails forming part of the mail chain being viewed are displayed one below the other with the mail received most recently displayed on top.</p> <p>Each mail in the chain contains the following:</p> <ul style="list-style-type: none"> The name or ID of the sender of the mail. Mails sent by you will have your name displayed against the From field and those sent by a bank administrator will have the ID of the bank administrator displayed. The date and time at which the mail was sent. The content of the mail as sent by you or the administrator. <p>Note: A mail chain is formed when a user sends a mail to the bank and a bank administrator responds to the mail.</p>

- An overlay containing the details of the mail appears. Click **Reply** if you wish to respond to the mail.
OR
Click **Delete** to delete the message.
OR
Click **X** icon to close the overlay window.

Inbox - Reply

The screenshot displays the Futura Bank mailbox interface. On the left, the 'Inbox' section shows a list of emails with checkboxes and a 'Subject' dropdown. The selected email is 'Re :Reissue Debit card PIN'. Below the list, it indicates 'Page 1 of 1 (1-2 of 2 Items)'. On the right, a reply overlay window is open for the selected email. The overlay title is 'Re :Reissue Debit card PIN'. The message content reads: 'Hi Sir/ madam, Issuing the new debit card PIN.' Below the content, there is a '953 Characters Left' indicator, a 'Send' button, and an 'Attach File +' button. A note states: 'Maximum allowed file size 5 MB. Allowed file types : JPEG, PNG, DOC, PDF, TXT, ZIP.' The email history shows three messages: 'Welcome' from 'admingroup11' (11 Oct 2021 12:40:48 PM), 'thank U' from 'keron Bohr' (11 Oct 2021 12:39:23 PM), and 'Approved' from 'admingroup11' (11 Oct 2021 12:34:18 PM). The current email is from 'keron Bohr' (11 Oct 2021 12:27:29 PM) with the subject 'Reissue Credit Card'.

Field Description

Field Name	Description
Message - Reply	
Message	Enter a response to be sent to the bank.
Attach File +	Browse and select the reference document file sent along with an email message.
	<hr/> Note: Maximum allowed file size 5MB and allowed file types are JPEG, PNG, DOC, PDF, TXT, ZIP. <hr/>

3. Click **Send** to send the response to the bank.
A message confirming that the mail has been sent successfully appears.
OR
Click **Attach File +** to add an attachment to the response mail.

20.1.2 Compose Mail

Using this option the user can initiate a mail communication with the bank. The mailbox is a communication channel between the bank and the user. In order to send a mail to the bank, the user needs to first select a category which identifies the purpose for which the message is being sent. The specification of a category enables the bank to appoint the user's concern / query to the desired team which ensures a timely and accurate response.

How to reach here:

Access through the kebab menu of transactions available under the Mailbox

To send a message:

1. Click **Compose Mail**. The overlay window on which you can compose and send a mail to the bank appears.

Compose Mail

Field Description

Field Name	Description
Category	Select a category/ subject related to which the message is to be sent.
Message	Enter the message that is to be sent to the bank.
Attach File +	Browse and select the reference document file sent along with an email message.

Note: Maximum allowed file size 5MB and allowed file types are JPEG, PNG, DOC, PDF, TXT, ZIP.

2. From the **Category** list, select the desired option.
3. In the **Message** section, enter the message.
4. Click **Attach File +** if you want to attach any reference document.
5. Click **Send**.
The success message appears.
OR
Click **X** to close the overlay window.

20.1.3 Sent Mail

This folder displays all the messages sent by the user to the bank.

How to reach here:

Access through the kebab menu of transactions available under the Mailbox

To view the sent messages:

1. Click **Sent Mail**. The list of sent mails appears on the screen. Click on the subject link of an individual message to view the details of that message.

Sent Mail

The screenshot displays the 'Sent Mail' section of the Futura Bank web interface. At the top, there is a navigation bar with 'My Dashboard', 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. Below this is the Futura Bank logo and a search bar. A user greeting 'Welcome, keron Bohr' is visible in the top right corner. The main content area is titled 'Sent Mail' and contains a table of email records. The table has two columns: 'Subject' and 'Date'. The first row is selected, indicated by a blue checkmark in the left margin. Below the table is a pagination control showing 'Page 1 of 1 (1-9 of 9 items)'. At the bottom of the page, there is a copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation] Terms and Conditions'.

21. Calculators

Financial calculators are tools used to arrive at a certain calculation helping to take a decision with some predefined criteria. Banks can provide details of their products and offers such as loan interest rates, fixed deposit interest rates, loan tenure etc. through calculators. Users can also use these calculators to compare different offers and products offered by the bank.

Oracle Banking Digital Experience provides calculators which banks can offer to their users on their digital channel. Calculators can be used by customers as well as prospects.

Features Supported In the Application

The different calculators are:

- Loan Eligibility Calculator
- Loan Installment Calculator
- Term Deposit Calculator
- Forex Calculator

21.1 Loans Installment Calculator

The loans instalment calculator is a simple installment calculator which identifies the monthly installment amount payable on a loan based on the loan amount, tenure in years and interest percentage.

How to reach here:

OBDX portal landing page > Calculators for all your Money Goals > Loan Calculator

OR

OBDX portal landing page > Toggle menu > Menu > Calculators > Loan Installment Calculator

OR

Dashboard > Toggle menu > Menu > Calculators > Loan Installment Calculator

OR

Dashboard > Loan Calculator

OR

Access through the kebab menu of Calculators

Loan Installment Calculator

The screenshot displays the 'Loan Installment Calculator' on the Futura Bank website. The interface includes a navigation bar with 'My Dashboard', 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. The main content area features three input fields: 'Amount' set to EUR88,820.00, 'Tenure (Years)' set to 5, and 'Interest' set to 9%. Below these, the 'Installment Amount' is calculated as EUR1,843.76. A callout box titled 'Loan Calculator' provides information about the loan process and the calculator's purpose.

Field Description

Field Name	Description
Loan Amount	The user is required to specify the amount that he/she wants to borrow from the bank.
Loan Tenure (Years)	The user should specify the desired tenure of the loan in terms of years.
Interest Rate	The user must specify the desired interest rate that is to be charged on the loan.
Installment Amount	The monthly installment payable on the loan calculated on the basis of the loan amount, tenure and interest rate specified by the user.

1. In the **Loan Amount** field, enter the loan amount.
2. In the **Loan Tenure (Years)** field, enter the loan tenure in years.
3. In the **Interest Rate** field, enter the interest rate.
4. The application calculates and displays the monthly installment for the loan required.

21.2 Loan Eligibility Calculator

Loan eligibility calculator plays an important role in helping a customer understand their current position with respect to their borrowing capacity. The calculator enables customers to gain an understanding of their loan eligibility, considering their average monthly income and expenditure. It computes the loan amount and repayment amount based on income, expense, interest rate and tenure of the loan. Loan eligibility is calculated by the application and is displayed to the customer.

The eligibility is calculated on the basis of:

- The customer’s average monthly income
- The customer’s average Monthly Expenditures
- Tenure of the loan being inquired applied
- Estimated rate of interest

How to reach here:

OBDX portal landing page> Calculators for all your Money Goals > Eligibility Calculator

OR

OBDX portal landing page> Toggle menu > Menu > Calculators > Loan Eligibility Calculator

OR

Dashboard > Toggle menu > Menu > Calculators > Loan Eligibility Calculator

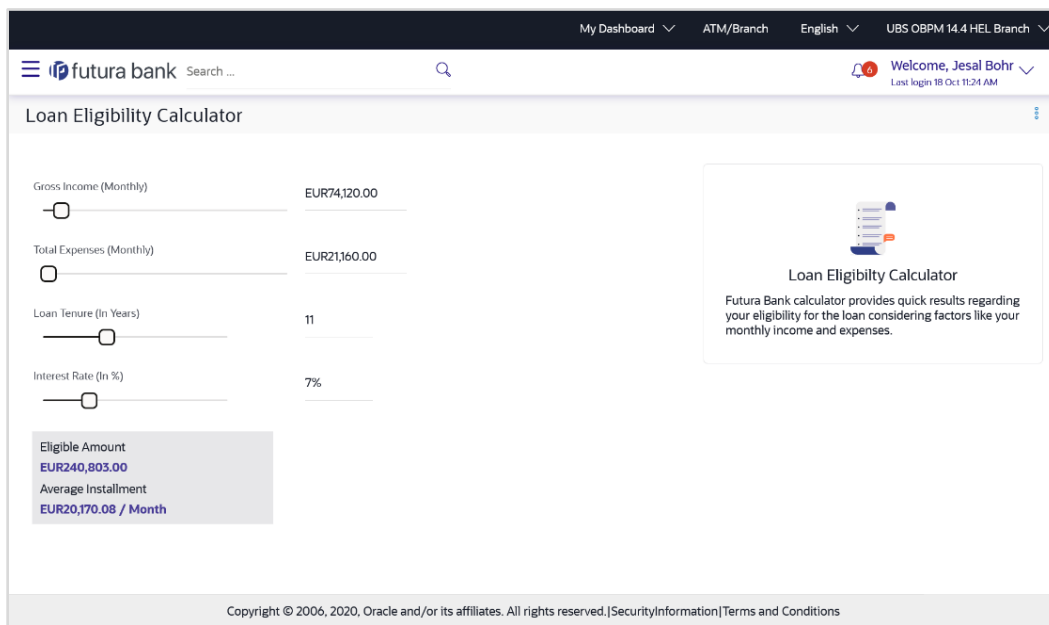

OR

Dashboard > Loan Eligibility Calculator

OR

Access through the kebab menu of Calculators

Loan Eligibility Calculator

Field Description

Field Name	Description
Gross Income (Monthly)	The user is required to specify his gross monthly income.

Field Name	Description
Total Expenses (Monthly)	The user is required to specify the total amount spent per month towards expenses.
Loan Tenure (In Years)	The user is required to specify the desired loan tenure in years.
Interest Rate (In %)	The user should specify the desired interest rate of the loan.
Eligible Amount	Based on all the values defined by the user in the previous fields, the system will calculate the amount of loan that the user is eligible to borrow.
Average Installment	The system will display the estimated monthly installment amount.

1. In the **Gross Income (Monthly)** field, enter your monthly income.
2. In the **Total Expenses (Monthly)** field, enter your monthly expenses.
3. In the **Loan Tenure (In Years)** field, enter the desired loan tenure.
4. In the **Interest Rate (In %)** field, enter the rate of interest.
5. The application (In %) calculates and displays the eligible loan amount and the average installment amount.

21.3 Term Deposit Calculator

The Term Deposit calculator gives an indication to the user about the maturity amount which will be available, if a particular amount is invested at the bank and left for a fixed period of time. It calculates the total amount of the term deposit at the end of maturity period. The user can choose amongst different products which suits his requirements best.

How to reach here:

OBDX portal landing page > Calculators for all your Money Goals > Term Deposit Calculator
OR

OBDX portal landing page > Toggle menu > Menu > Calculators > Term Deposit Calculator
OR

Dashboard > Toggle menu > Menu > Calculators > Term Deposit Calculator
OR

Access through the kebab menu of Calculators

Term Deposit Calculator

Field Description

Field Name	Description
Deposit Amount	Total deposit of principal amount for deposit with default currency.
Deposit Tenure (Years/ Months / Days	Option to specify tenure in terms of Years / Months / Days.
Interest Rate (In %)	Interest rate for which the total amount is to be calculated.
Maturity Amount	The value of your deposit at maturity.

To calculate deposit value at maturity:

1. In the **Deposit Amount** field, enter the deposit amount.
2. In the **Tenure (Years/ Months / Days)** fields, enter the relevant information.
3. In the **Interest Rate (In %)** field, enter the rate of interest.
4. The application calculates and displays the deposit value at maturity.

21.4 Forex Calculator

The foreign exchange calculator calculates the rate at which one currency can be exchanged for another. The Calculator displays the converted amount and the currency exchange rate applied. Exchange rates of only predefined currencies can be viewed by the customer.

Exchange rates for the currency will be fetched online from the host system and calculations will be done based on the exchange rate retrieved.

Features Supported In the Application:

This section enables user to see the value expected for a conversion of currency into other.

- Exchange rate of currencies
- Calculation of amount of currency converted to the other

Pre-Requisites

- Support for the currencies provided by host

How to reach here:

OBDX portal landing page > Calculators for all your Money Goals > Forex Calculator

OR

OBDX portal landing page > Toggle menu > Menu > Calculators > Forex Calculator

OR

Dashboard > Toggle menu > Menu > Calculators > Forex Calculator

OR

Access through the kebab menu of Calculators

Forex Calculator

Field Description

Field Name	Description
From	
Currency	Currency to be sold for which the exchange rate is to be inquired.
Amount	Amount for which conversion is required.
To	
Currency	Buy currency for which the exchange rate is to be inquired.
Amount	Amount which you will get post conversion.

To calculate currency exchange amount:

20. From the **From – Currency** list, select the appropriate currency.
21. In the **Amount** field, enter the amount to be converted.
22. From the **To - Currency** list, select the currency and enter the amount in the next field.
23. Application calculate and displays the currency exchange value.
The exchange rate for both the buy and sell options for currency pair entered, appears.

Yes, you can view the ATMs or Branches of the bank located in any city/state or country in the map and also get their details such as address and phone numbers, working hours, services offered, etc.

[Home](#)

23. Feedback Capture

Feedback option enables you to provide feedback on various aspects of the application as well as specific to transactions. You will be asked a feedback question on which you need to rate on a rating scale and answer subsequent questions if defined for a scale weight that you rate. The feedback captured is analyzed by the bank administrator to decide on the course corrections in case of issues.

Feedback can be provided by the user through the following options in the system:

- General Feedback
- Transaction Specific Feedback

23.1 General Feedback

General feedback is available as an option to provide feedback on generic aspects about the application.

How to reach here

Toggle Menu > Leave Feedback

To provide general feedback:

1. Click **Leave Feedback**. The **Feedback** pop-up screen appears.
2. A feedback question appears along with a rating scale.
3. Select an appropriate rating on the scale.
4. Depending on the rating, the system will provide you with a question along with a set of options.
5. Select an appropriate option corresponding to the question.
6. You can also add comments, if required.

General Feedback

7. Click **Submit**. A message confirming successful submission of feedback appears.

23.2 Transaction Specific Feedback

You can capture feedback specific to a transaction provided the transaction has been enabled for feedback capture by the bank. Feedback will be available as an option post transaction confirmation. Transaction specific feedback is recorded and stored for further analysis.

To provide transaction specific feedback:

1. Once the transaction is successfully submitted, feedback as an option is displayed on confirmation page.
2. Click **Feedback**. The **Feedback** pop-up screen appears.
OR
Click **Go to Dashboard** link to navigate to the Dashboard.
3. A feedback question appears along with a rating scale.
4. Select an appropriate rating on the scale.
5. Depending on the rating, the system will provide you with a question along with a set of options.
6. Select an appropriate option corresponding to the question.
7. You can also add comments, if required.

OR

Click **Skip** to skip the feedback process. The **Dashboard** screen is displayed.

OR

Click **Never ask me again** if you do not wish to be asked to provide for any transaction. The system will suspend the feedback process for all transactions and you can enable the same again (if required) through 'My Preferences' from the toggle menu.

Transaction Feedback

The screenshot shows the Futura Bank interface. On the left, a 'Transfer Money' confirmation is displayed with the following details:

- CONFIRMATION**: Transfer Money submitted successfully.
- Reference Number: 2712A4E3FCF7
- Host Reference Number: 191428583471026
- Status: Completed
- Transfer To: abcDom
- Amount: £1,000.00
- Account Number: 1111111111
- Account Type: Domestic
- Bank Details: 12345
- RAVBANK TESTsteet name
- Transfer When: 22 Mar 2019

Below the details, there are options to 'Go To Dashboard' and 'Add Favorite', and a 'Feedback' button. A central illustration shows a person interacting with a large smartphone displaying a 5-star rating. On the right, a white feedback modal is open with the text 'Please give rating of your experience?' and five empty star icons. An 'e-Receipt' icon is visible in the top right corner of the modal area.

This screenshot shows the same Futura Bank interface, but the feedback modal is now filled out. The modal contains the following elements:

- A 5-star rating (all stars are filled).
- The question: 'What did you like the most with us?'
- Two checked checkboxes: 'Add-On-Features' and 'More features'.
- A text input field labeled 'Your comments (Optional)'.
- A 'Submit' button.

The 'Feedback' button on the main page is now disabled. The rest of the page content, including the transaction confirmation details and navigation options, remains the same as in the previous screenshot.

1. Click **Submit**. A message confirming successful submission of feedback appears.
