1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 Screenshot Disclaimer

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Oracle Banking Electronic Data Exchange for Corporates Integration Matrix

	File Level Approval	Record Level Approval
File Upload for Payments - Oracle Banking Electronic Data Exchange for Corporates 14.7.2.0.0	✓	✓
File Upload for Virtual Account Creation - Oracle Banking Electronic Data Exchange for Corporates 14.7.2.0.0	✓	✓
File Upload for Virtual Account Closure - Oracle Banking Electronic Data Exchange for Corporates 14.7.2.0.0	✓	✓
File Upload for Add Special Rates for Virtual Account - Oracle Banking Electronic Data Exchange for Corporates 14.7.2.0.0	✓	x

3. Uploaded Files Inquiry

Corporates often look forward for an option to make multiple transactions and multiple maintenances quickly and conveniently through a single file upload typically for processing the salary of the corporate staff, for making the vendor payments or even for managing their Virtual Accounts through uploading a file.

Salary payments, fund transfers, vendor payments are a few examples of financial transactions that can be supported through bulk file upload. Similarly upload of virtual account creation records is an example of a non-financial file upload.

Note: The –Uploaded files inquiry facilitates viewing of the Bulk files uploaded via Oracle Banking Electronic Data Exchange for Corporates.

3.1 Uploaded File inquiry

Using this option, the user can view the files uploaded by the corporate using Oracle Banking Electronics Data Exchange (OBEDX) application (only those files that the user has access to) and their status, On OBDX platform.

- The search can be filtered on various parameters like status and file reference ID.
- The user can track the status of the file.
- The user can track file history and check Individual record details.

How to reach here:

Corporate Dashboard > Toggle Menu > File Upload > Uploaded Files Inquiry

OR

Corporate Dashboard > Quick Links > Uploaded Files Inquiry

3.1.1 Uploaded Files Inquiry – Search Filters

On accessing ‘Uploaded File Inquiry’ option from the menu, user will be navigated to search screen which display various filter criteria to search and view the uploaded file with their respective status.

Using this corporate user can search and view the Host-to-Host files that are uploaded under a corporate with the file identifier, date range, transaction type, transaction reference ID and view the record details under the same.

User can choose to view the details of the file by clicking on the File Reference ID or can even choose to search the files uploaded on previous days clicking search filters.

User is expected to provide at least two search parameters to get the better result.

To search and view the Uploaded files

1. Enter any two-search criteria in the search section.

Field Description

Field Name	Description
Search	
File Identifier	File identifier created earlier in order to identify the Host-to-Host File.
Transaction Type	Search with the transaction type associated with the file.
File Name	Search with the file name of the uploaded file.
File Reference ID	Search with the file reference number, which was generated while uploading the file.

Field Name	Description
File Status	Search with the status of the file uploads. • Uploaded • Approved • Rejected • Processing In Progress • Error • Processed • Processed with Exceptions • Verified • Expired
From Date	From Date, to search for an uploaded file, in the specified date range.
To Date	To Date, to search for an uploaded file, in the specified date range.
Search Results	
Upload Details	Displays the file upload date and time.
Type	Displays the transaction type of file uploaded
File Identifier	Displays the file identifier selected while uploading the Host-o-Host file.
File Name	Displays the name of the Host-o-Host file.
File Reference ID	Displays the file reference number generated after the file was uploaded.

Field Name	Description
File Status	Displays the status of the uploaded file. The file status could be: • Uploaded: File Uploaded and file reference number is generated. • Verified: File has been pre-processed and authorization checks done (limit + account access check). File is now Pending Approval. • Error: File has been pre-processed and contains error. The end of the life cycle of the file (File Level). • Processing in Progress: File is not yet liquidated. • Rejected: File has been rejected (File level). The end of the life cycle of the file. • Approved: File has been fully approved. • Processed: File is completely liquidated. • Processed with exception: File is partially liquidated – i.e., while some records are processed, others are not. • Expired: File has expired.

3. Click the **File Reference ID** link to view the details. The **Uploaded Files Inquiry - File Details** screen appears.

3.1.2 Uploaded Files Inquiry – File Details

On clicking on the File Reference ID on the summary page, following screen is displayed to the user. Screen displays the basic file details like name, status, reference id etc. along with the file journey.

File details section also shows the records of the file in a summarized view along with respective status of each record.

User can also choose to view the record details by clicking on the link available on each record. User gets directed to the screen, which shows the individual record details along with the file details using which the record was uploaded. Each record details is specific to the transaction type which user is inquiring.

To view the Host-to-Host file details:

1. Navigate to the **Uploaded Files Inquiry** screen.
2. Enter any two-search criteria in the search section and click **Search**.
The search results appear on the Host-to-Host Files Inquiry screen based on the search parameters.
3. Click the **File Reference ID** link to view the details. The **Uploaded Files Inquiry - File Details** screen appears.

Field Description

Field Name	Description
<u>File Inquiry Detail Screen</u>	
File Name	File name of the uploaded file.
File Reference ID	Displays the file reference number, which was generated while uploading the file.
File Status	Displays the status of the file uploads.
Transaction Type	Displays the transaction Name associated with the file
Number Of Records	Displays the total number of records uploaded as a part of the file.
Transaction Reference ID	Displays the Message ID present in the file.
Error File/Response File Download	Displays Error File or Response File based on the stage of the File
<u>Search Filters for Payments</u>	
Status	Search Record with the status of it: • Verified • Processing In Progress • Error • Completed • Approved • Rejected • Processed with Exceptions
Debit Account Number	Account number of the Debit account.
Credit Account Number	Account number of the Credit account.
From Value Date	From Date, to search for a record, in the specified date range.
To Value Date	To Date, to search for a record, in the specified date range.

Field Name	Description
From Amount	From Amount, to search the record within specified amount range.
To Amount	To Amount, to search the record within specified amount range.
Currency	Search Record by selecting currency from Available list.
Type	Transaction Name of the Record.
<u>Record Details for Payments</u>	
Record Number	Unique ID created for every record
Payment Reference	Reference number of every record in the file
Value Date	The date on which the file was uploaded
Debit Account No	Debit account number of the transaction.
Amount	Transaction amount along with currency.
Credit Account Details	Credit account details. Creditor Name & Account Number
Payment Method	Transaction type of the record.
Status	Status of the records of the uploaded file.
Action	Icon to download the e-receipt. Note: This column appears if the record status is 'Approved'.
<u>Record Details (Open Virtual Account)</u>	
Record Reference Number	Reference number of every record in the file
Virtual Entity ID	Virtual Entity ID for the virtual account needs to be opened
Real Account Number	Account number of the Real Customer
Virtual Account No. & Name	Virtual Account Number created and Account Name for which the virtual account needs to be opened

Field Name	Description
IBAN	Display IBAN created for the virtual account
Status	Status of the records of the uploaded file.
<u>Record Details (Close Virtual Account)</u>	
Record Reference Number	Reference number of every record in the file
Virtual Account Number	Virtual Account Name for which the virtual account needs to be opened
Transfer In Virtual Account Number	Display Virtual Account Number in which close account is transferred in
Transfer Out Virtual Account Number	Display Virtual Account Number from which close account is transferred out
Status	Status of the records of the uploaded file.
<u>Record Details (Add Special Rates)</u>	
Record Reference Number	Reference number of every record in the file
Virtual Account Number	Virtual Account Name for which the Special Rate needs to be added
Effective Date	This indicates the date from which the Product-UDE combination takes effect. Effective Date shown here is populated from the value in the incoming file.
Interest Product	To calculate interest for an account, you must apply an interest product on the account. Interest Product shown here is populated from the value in the incoming file.
Status	Status of the records of the uploaded file.

To view the Host-to-Host Record Detailed Screen:

1. Navigate to the **Uploaded Files Inquiry** screen.

2. Enter any two-search criteria in the search section and click **Search**.
The search results appear on the Host-to-Host Files Inquiry screen based on the search parameters.
3. Click the **File Reference ID** link to view the details. The **Uploaded Files Inquiry - File Details** screen appears.
4. Click the **Record Reference Number** link to view the details. The **Record Detailed Screen** appears.

<u>Record Detailed Screen - Payments</u>	
File Name	File name of the uploaded file
File Reference ID	Displays the file reference ID, which was generated while uploading the file.
Record Number	Displays Record Reference Number of the record
Status	Status of the records of the uploaded file.
Transaction Reference ID	Display Transaction Reference ID present in the incoming file.
External Reference ID	Display External Reference ID generated by downstream system.
Debit Party ID (Corporate ID)	Display the Debit party id or Corporate.
Debit Account No	Display Debit Account Number.
Debtor Name	Displays Debtor Name
Debtor Agent BIC	Display Agent BIC
Debit narrative (Comments (if any))	Display comment added if any.
Charges Account	Displays account for charges if any.
Payee Name	Display Name of the Beneficiary.
Value Date	Display the date on which the transaction record was processed.
Credit Account Number	Display Credit Account Number.

Payment Amount	Display payment amount for the transaction record.
Payment Currency	Display payment currency for the transaction record.
Deal Reference No.	Display deal reference number if any.
Email ID	Display email id provided in the file.
Payment Mode	Display payment mode.
Clearing Code	Display clearing code.

Virtual Account Name	Display Virtual Account Name under which Virtual Account is opened
Virtual Entity ID	Display Virtual Entity ID present in the CSV file
Branch Name	Display Branch under which Virtual Account is opened
Product	Display Product for which Virtual Account is opened
Currency	Display Virtual Account currency
Real Account Number	Display real account number

Note: Record Detailed Inquiry is not required in case of Virtual Account Closure & Add Special Rates hence the hyper link is not provided on Record Reference Number

5. Click **Back** to navigate to the previous screen.

FAQ

1. **If a payment file is in the approved status, does it mean that all the records are successfully liquidated?**

No, the file still has to successfully pass validations in the host system, before records are processed.

4. File Approval

This option allows the approver to approve / reject the uploaded file. File approval could be either

- File Type
- Record Type

In a File type Approval, the approver accepts or rejects the entire file, and all records are either processed or rejected. While in a Record type approval, the approver could approve some records, and reject others. Only the approved records are processed further.

How to reach here:

Approver Dashboard > Pending for Approvals

OR

Search Bar > Transactions - Pending for Approvals

4.1 File Approval

Once a file is uploaded and pre-processing checks are successfully completed, the file is pending approval, and is in the respective Approver's queue.

To approve / reject a file:

1. In the **Pending for Approval** section, select Financial in dropdown list for Payments & select Non Financial for Virtual Account Open, click the **Host-to-Host Bulk Files** tab. All the uploaded files that require approval appears.
2. Select the multiple files and click **Approve** to approve the transactions.
OR
Click the link under the **Reference No** column. The **File Details** screen appears.
