1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 **Screenshot Disclaimer**

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 **Acronyms and Abbreviations**

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

** Recurring payment is only qualified for SWIFT based bank payees.

3. Payments Overview

The digital banking streamlines fund transfers, allowing users to easily move money between accounts or pay to a person or business. Through the payment's module, users can transfer funds between their own accounts, to other accounts within the same bank, to accounts at other local banks, or even to banks in other countries.

The following sections in this document detail all the features offered to users through the payment's module of the digital banking application.

Note: Payment Screens are not supported in the landscape mode of mobile applications and mobile browser.

Features Supported in the Application

Payment features supported in application includes:

- Favourite Transactions
- Payee Setup
- One Time and Recurring Payments
- Multiple Payments
- Demand Draft Issuance
- Inquiries
- Make Payments and Payee screens as per region requirements

3.1 Regionalization for Domestic Payments

Local payment systems are tailored to specific regions. For example, NEFT is designed exclusively for domestic transactions within India, making it irrelevant in Europe, while SEPA operates within Europe and is not applicable for payments in Asia.

Oracle Banking Digital Experience offers out-of-the-box support for select local payment systems, as specified in the Transaction Host Integration Matrix. For on-premises implementations, it also allows implementation partners to configure and toggle specific fields to align with regional payment requirements via the back end. However, implementation partners may need to integrate region-specific networks with underlying product processors or, in some cases, further customize the payments to meet the unique needs of the domestic payments in the region.

3.2 My Payments (Dashboard)

The **My Payments** dashboard offers a user-friendly interface and valuable features for organizing and monitoring payment activities effectively. There different widgets are provided to view real-time status of payments and transactions.

The following are the widgets available on the Payments Overview dashboard:

- Quick Payment
- Summary of Payments

- My Initiated Payments
- Favourites
- Recent Payments
- Saved Drafts Toast message
- Quick Actions (Available only in mobile)

The **Quick Payments** widget prioritizes the most frequently used payees, making it effortless for users to make payments to most used payees promptly with minimum clicks.

The **Summary of Payments** widget provides the user quick view of the number of transactions and total amount received or send. User can also see the transactions lying in different stages for Outgoing Payments.

My Initiated Payments widget provides the user the view of recently initiated transactions.

The Favourites feature benefits users who frequently send funds to the same recipients with consistent details, by serving as easy-to-use templates for new transactions. Users can save the transactions as 'Favourites' for quick repeat payments with minimal clicks and data entry. The **Favourites** widget provides easy access to and reuse of these saved transactions for payments or demand drafts.

The transactions successfully completed recently are visible under the **Recent Payments** widget. It allows user to track their outgoing and incoming payments conveniently.

The user can quickly see the saved drafts under **Saved Drafts Toast** message helping the user to start from where the transaction is left.

Quick Actions widget is available only in mobile to help the user to navigate to the most important transactions quickly.

Note: The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Swipe gesture - This feature is available on Favourites widget, Recent Payments widget , Incoming and Outgoing Payments Inquiry, Recurring Payments .

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Quick Actions and on payee cards under Manage payees.

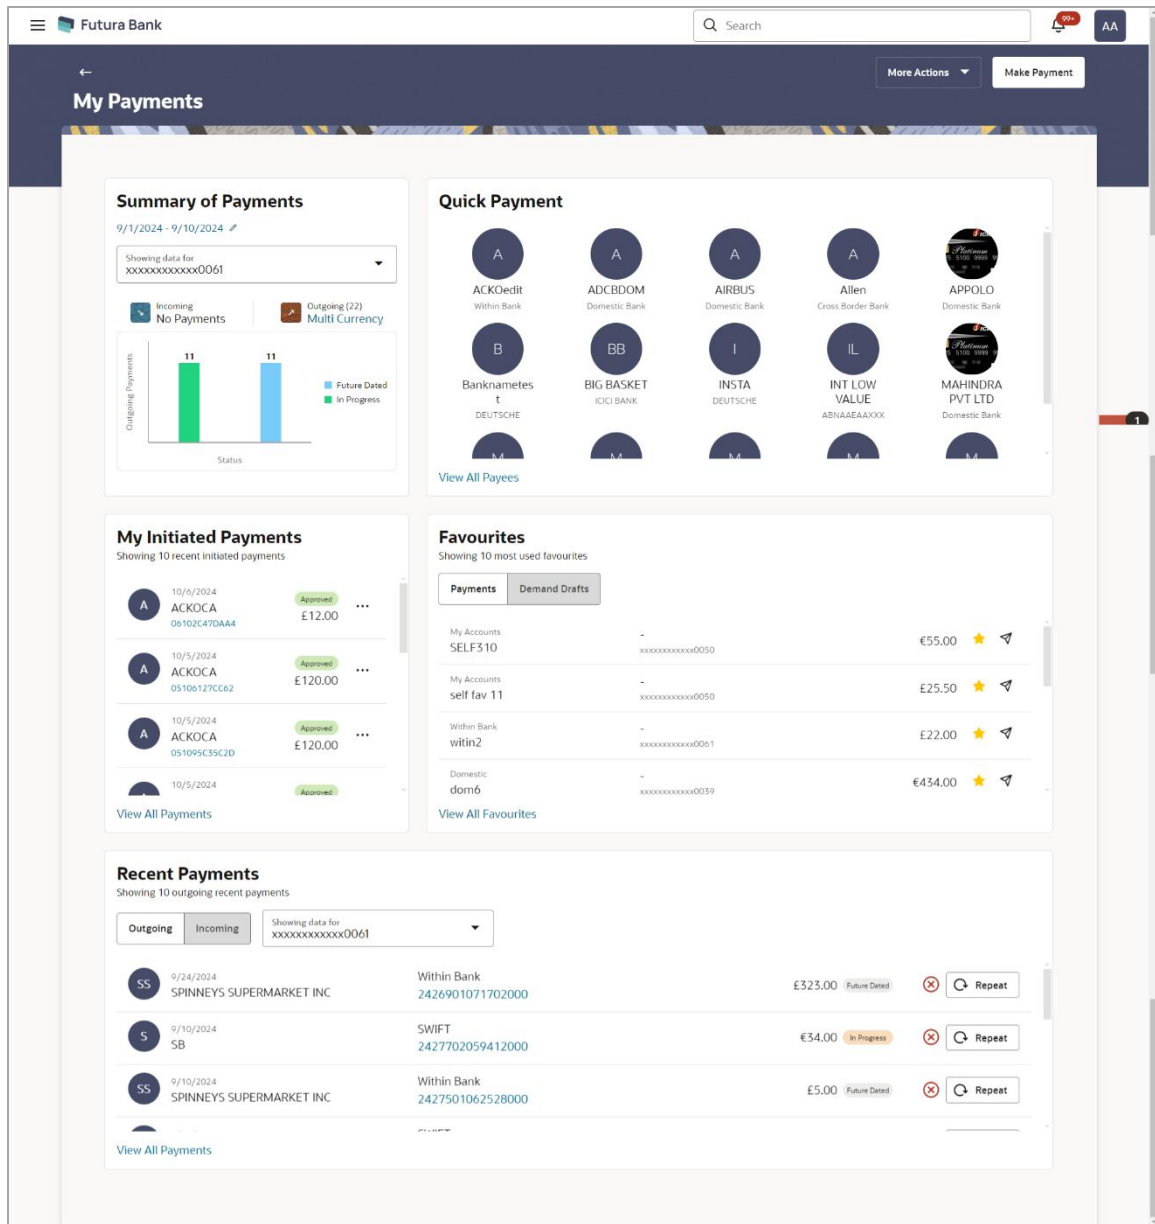

How to reach here:

Dashboard > Toggle Menu > Payments

OR

Search Bar > Payments - Payments

My Payments

1. Click **Make Payment** to initiate online payments, system redirects to the **Make Payment screen**.
OR
Click on the **More Actions** to avail following payment related transactions. These transactions are available to a user as per the transaction access provided by the bank to the user:

- Payees
 - Manage Payees
 - Add Account Payee
 - Add Demand Draft Payee

- Payee User Mapping
- Inquiries
 - Outgoing Payments
 - Incoming Payments
 - Recurring Payments
 - UETR Status Inquiry
- Favourites and Drafts
 - Favourites
 - Saved Drafts
- Multiple Transfers
- Issue Demand Draft
- Positive Pay
 - Add Positive Pay
 - View Positive Pay
- MT101 Instructions Transfers
 - Create MT101 Instructions
 - View MT101 Instructions
 - Add External Account
 - View External Account
 - Create Inbound Agreements
 - View Inbound Agreements
 - Create Outbound Agreements
 - View Outbound Agreements

3.2.1 **Summary of Payments**

This widget visually represent incoming and outgoing payments, providing users with a comprehensive overview of their payment's activity briefly. It depicts both incoming and outgoing payments, with number of payments represented in the form of bar graph. This gives users a clear understanding of the volume and status of payments flowing into and out of their account. The Incoming and Outgoing payments transactions can be filtered on account.

Note:

- 1) By default summary of the payment is displayed for an account selected as Primary/Favourite Account.
 - 2) On Clicking incoming/outgoing transaction it will redirect to Incoming/outgoing payments inquiry screen respectively.
 - 3) The **Multi-Currency** link is displayed in case transactions in multiple currencies are present. Individual currency breakup to be shown on click of **Multi Currency** link.
 - 4) On the individual currency breakup, when hovering the mouse over the bar, the status and value of the transaction are displayed. Clicking on the bar will redirect the screen to the **Outgoing Payments Inquiry** with filtered records.
-

The status available for user are:

- In Progress: all the transaction which are under process in host payment processor
- Processed: all the transaction which are completed in host payment processor
- Future Dated: all the transaction which are marked as future dated in host payment processor
- Cancelled: all the transaction which are cancelled in host payment processor
- Reversal Initiated: all transaction which are reversal initiated in host payment processor

By default, the data is displayed as per the current month with dates from 1st of current month to till date. Click on edit icon to modify the date range.

3.2.2 **Quick Payments**

The **Quick Payments** widget displays the payees at the top of the dashboard, which help users to save time and avoid the hassle of searching for them each time they need to make a payment. They are listed in the descending order of the number of payments made for that payee. It shows 8 most used payees. Click on the payee, the system redirects to the **Make Payments** screen to make payment to the selected payee.

Below are the details being displays for each payee:

- Photo/Name Initials
- Nickname
- Bank Name

Note: For the Bank Name, displays **Within Bank** in case of **Within Bank Transfer**, and displays name of the bank if transfer is **Domestic** or **Cross Border**.

Click on the **Show All** link to view all the existing payees, the **Payees** screen appears.

Note: The "**Show All**" link will be displayed only when there are more than 8 Payees.

3.2.3 **My Initiated Payments**

This widget displays the list of **10** recent initiated payments by the user.

Below are the details displayed on each individual payment record:

- Payee name Initials/Image
- Initiation Date
- Payee Name
- Payee Bank Name
- Reference Number
- Approved Status
- Amount with currency
- Quick Actions- Make Payment, Add as Favourite

Note:

- The Gesture feature on scroll for marking the transaction as Favourite or Unfavourite and Pay Again is implemented. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.
 - Number of payments shown in mobile/table is 5.
-

3.2.4 **Favourites**

This widget helps user to quickly access Favourite transactions and use them as templates to initiate new transactions. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details. Click on the **View All Favourites** link to view all the favourite Payments and Demand Drafts. 5 most used favourites are shown in the widget for both desktop and mobile.

The information available for Payments:

- Payment Type (Within Bank, Domestic, Cross Border)
- Favourites Name
- Payee
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked.
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list.
- Quick Pay icon: make payment with all the data as pre-populated as marked in Favourite.

The information available for Demand Drafts:

- Draft Type (Domestic/Cross Border)
 - Favourite Name
 - Draft Favouring
 - Debit Account Nick Name, Number (In the format as configured for the entity)
 - Amount for which favourite is marked.
 - Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list.
 - Quick Pay icon: issue demand draft with all the data as pre-populated as marked in Favourite.
-

Note:

- 1) Payments tab is shown only if user has access to either Within Bank /Domestic / Cross Border Payments.
 - 2) Demand Drafts tab is shown only if user has access to either Domestic/Cross Border Demand Draft.
 - 3) The Gesture feature on scroll for Remove from Favourite and Pay is available. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.
-

3.2.5 Recent Payments

This widget displays both incoming and outgoing payments, showing the last 10 recent payments. Clicking on the "**View All Payments**" link redirects to the Incoming/Outgoing Payments screen. Within the Recent Payments, there are two different tabs available for Incoming Payments and Outgoing Payments. It shows maximum 10 outgoing/incoming recent payments. Click on the **View All Payments** link to view all the outgoing/incoming recent payments. User can select the debit account and based on which the payments will be shown.

The information available for Outgoing Payments:

- Account Number
- Payee name Initials/Image
- Initiation Date
- Payee
- Network Code (For Domestic/Cross Border transfers), Within Bank (For Within Bank transfers)
- Bank Code (Not applicable for Within Bank transfers)
- Host Reference Number
- Amount with currency
- Status badge
-  Cancel Payment icon: click to cancel payment processing, redirects to **Cancel Payment** screen. Cancel payment appears only for transaction for which cancellation is possible. Refer section [Payment Cancellation](#).
- Repeat: on click redirects to **Make Payment- New Payee** screen with data pre-populated copying this transaction.

The information available for Incoming Payments:

- Incoming Direction icon
- Payment Date
- Remitter Name
- Sender's Account Details (Bank Code, Number)
- Host Reference Number
- Credited Amount with currency

Note:

- The Gesture feature on scroll is implemented, allowing users to press and hold on a screen to trigger additional options or actions such as Repeat Payment and Cancel. This functionality is supported on mobile devices and tablets.
 - Number of payments shown in mobile/table is maximum 5 for outgoing/incoming recent payments.
-

3.2.6 Drafts Toast Message

This feature enables users to view draft messages saved in the system as a toast message, allowing them to resume or view drafts directly from there. On click of the **Resume** option, user is redirected to the Payments screen with data populated from the draft. The **view** option redirects user to the drafts list screen.

Note:

1. This will only be displayed if the user has saved any drafts.
 2. Resume option will be available if there is only 1 saved draft, for more than 1 saved drafts view option will be available.
-

3.2.7 Quick Actions (Available only in mobile and tablet)

This widget provides quick actions to the user using which the user can navigate to that transaction quickly. Long press gesture feature is available on the quick actions in addition to single click actions. Below are the actions available.

- Payees
- Make Payment
- Payment Status
- Favourites
- Saved Drafts

4. Payees

The online banking application enables customers to save and maintain payees (beneficiaries) towards whom payments are to be made frequently.

This feature enables users to add payee, view and delete the existing payees. The user can view payee's details by selecting the provided option and is also able to edit or delete a payee's record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen. Payees can be created and maintained for the following types of transfers:

- Bank Account
 - Within Bank Account
 - Domestic Bank Account
 - Cross Border Bank Account
- Demand Drafts
 - Domestic Bank Account
 - Cross Border Bank Account

Payee Access Type:

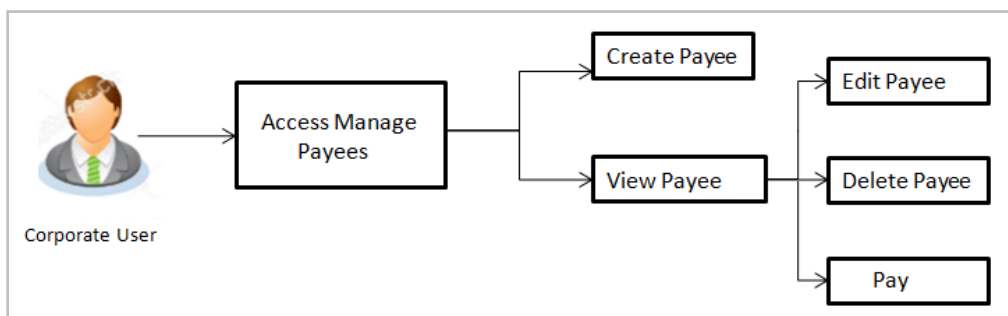

User can specify payee access type while maintaining a payee. Payee access type decides if only creator of a payee or all users of a party can access a payee. Payee access type is categorized as 'Private' and 'Public'.

- Public: A Payee marked as 'Public' is visible to all the users mapped to the Party ID's for which access is provided by the creator of the payee. These users can use the payee while initiating payments, modify or delete the payee.
- Private: A Payee marked as 'Private' is available to only the creator of the payee. Only the creator of the payee can use such payees while initiating payment and modify or delete the private payees.

Pre-Requisites

- Transaction access is provided to corporate user.
- Approval rule set up for corporate user to perform the actions.

Workflow

Features Supported in the application.

Functions available on Payees are as follows:

- Create Payee
- View Payee
- Edit Payee
- Delete Payee

Note: The Long Press Gesture feature is implemented on Quick Actions for Payees. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Make Payment, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Payments > More Actions > Manage Payees

OR

Search Bar > Payees – Manage Payees

4.1 Payee Summary

The summary page provides the user with a holistic view of all Payees (Within Bank, Domestic, Cross Border) saved with the bank. Additional features available are to make payments, edit the payee details, and delete the payee. The payees can be viewed either in a table format or in a list format using a switch option.

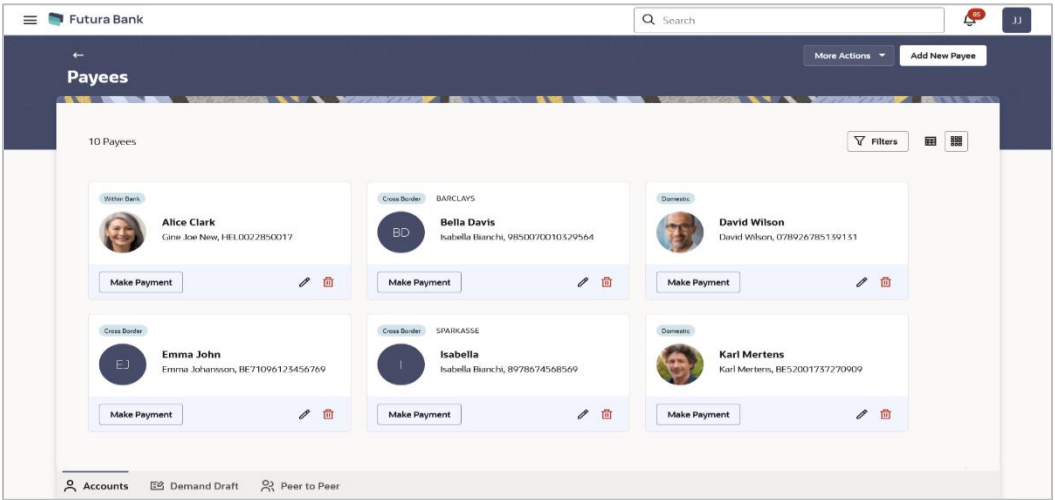

The user can also navigate to other payee-related screens from the **More Actions** menu provided on the screen. Additionally, they can add a new payee. The filters are available to view the payees based on description. The  table and  card view options are provided on screen to view the payees. In the  table view, the payees are listed in tabular form. Whereas in  card view payees are listed in card format.

Each card displays details like Payment Type, Payee Photo/Avatar, Payee Name, Payee Nickname, Payee Address, Payee Account Number, options to make a payment, update payee's details, and delete the Payee. Click on the specific card to view further details of each card. A separate tab is provided on the screen to view the 'Accounts' payees and 'Demand Drafts' payees.

To manage payees:

1. Click on the Account/Demand Draft tab, respective **Payees** summary page appears. All the payees accessible to the logged in user are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation.

4.2.1 Add Payee– Within Bank Account

The within Bank account type of payee is a payee who holds an account within the same bank as the remitter.

Note: In case of Within Bank Payees, only the Account Number of the payee is validated in the host system and not the Account Name.

Add Payee – Within Bank Account

The screenshot shows the 'Add Account Payee' interface in the Futura Bank system. The 'Within Bank' tab is active. The form includes sections for Account Details, Personal Details, and Additional Details. The Account Details section contains fields for Account Number, Confirm Account Number, and Account Name. The Personal Details section includes a profile picture and a Nickname field. The Additional Details section features radio buttons for Access type (Private and Public), a Primary Party field, and an Accessible to Parties field. The form concludes with Submit and Cancel buttons.

Field Description

Field Name	Description
Payee Type	Select Within Bank .
Account Details	
Account Number	Specify the account number of the payee.

Field Name	Description
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Personal Details

4.2.2 Add Payee – Domestic Bank Account

A domestic account transfer is one which involves the transfer of funds to an account that is held with another bank within the same country or politically united region.

Add Payee – Domestic Bank Account

The screenshot shows the 'Add Account Payee' form in the Futura Bank interface. The form is titled 'Add Account Payee' and has three tabs: 'Within Bank', 'Domestic', and 'Cross Border'. The 'Domestic' tab is selected. The form is divided into four sections: 'Account Details', 'Bank Details', 'Personal Details', and 'Additional Details'. The 'Account Details' section includes fields for 'Network Type' (SEPA Credit), 'Account Type' (Savings), 'Account Number' (masked with asterisks), 'Confirm Account Number' (123456), and 'Account Name' (Sam Desouza). The 'Bank Details' section includes 'Bank Details' (DEUTATWWXXX), 'DEUTSCHE BANK AKTIENGESELLSCHAFT FILIALE WIEN (VIENNA BRANCH)', 'VIENNA', and a 'Reset BIC Code' link. The 'Personal Details' section includes a profile picture, 'Nick Name' (SamD), 'Email ID' (samd@example.com), 'Code' (1), and 'Mobile Number' (4456456). The 'Additional Details' section includes 'Access type' (Private and Public), 'Primary Party' (***980 - Aramex Logistics Corporation), and 'Accessible to Parties' (***985 - SPINNEYS SUPERMARKET INC X). At the bottom, there are 'Submit' and 'Cancel' buttons.

Note: The below field description is not country specific and is given for all the fields available in the Domestic payment. Fields will be populated based on the country/region fields configuration for Domestic Bank Account.

Region Specific fields for out of the box supported regions are available in section **Regionalization for Domestic Payments**

Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	
Account Type	Select the type of account associated with the payee.
Account Number	Specify the account number of the payee.
OR	OR
IBAN	Specify the IBAN of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
OR	OR
Confirm IBAN	The user is required to re-enter the IBAN in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Verify Account	Select this to verify the account mentioned.
Lei Code	Lei code of the payee.
Bank Details	
Based on the configuration in regionalisation, one of the below options can be configured for the Bank Details. Out of these four options only one option will be available on the screen.	
<ul style="list-style-type: none">• Bank Code Lookup• Bank Code (Read only)• Bank Code (No Verify)• Bank Name & Branch	
Bank Code Lookup	On click the Lookup Bank Code overlay screen appears with the search criteria. This is to enable user to search for a Bank Code in case he does not remember it. For more information on Lookups , refer Lookups section.
Bank Code (read-only)	The user can see the Bank Code of the payee's account in read only mode. The bank code will be fetched based on the Account Number/IBAN and will be displayed here in read only mode.

Field Name	Description
Bank Code (No verification)	Specify the Bank Code of the payee's account. This will not be verified and passed onto the host product processor.
Bank Code (With verification)	Specify the Bank Code of the payee's account with the option to verify. The verify option will fetch the bank details based on the bank code specified.
Bank Name	Bank Name of the payee.
Branch	Branch of the bank.
Bank Code Lookup - Search Result	
The following fields are displayed in the search results.	
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Details	The details of the bank that include the BIC/IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	
Upload Photo	<p>Select this option to upload a profile photo against the payee.</p> <p>Following actions are available on the + icon:</p> <ul style="list-style-type: none"> • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. <p>This option will only appear if no photo has been uploaded against the payee.</p> <hr/> <p>Note:</p> <p>1) The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG.</p> <p>2) Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.</p> <hr/>

Field Name	Description
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Please note that this field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.
Additional Details	
Access Type	Specify the access type to be assigned to the payee. The options are: <ul style="list-style-type: none"> • Public • Private
Primary Party	The primary party associated to the user. The primary party users will always have access to the payee if it's Public .
Accessible to Parties	Accessible parties associated to the user. During payee creation a corporate user can define the parties within his GCIF to whom this payee will be accessible if the payee is public. The primary party users will always have access to the payee if it's Public .

4.2.3 **Add Payee - Cross Border Account**

The Cross Border fund transfer involves the transfer of funds to an account that is maintained outside the country and beyond geographical boundaries. Hence, while adding a payee who holds the cross-border account, the user is required to specify extensive details of the payee's account including the network code to be used to transfer money to the account as well as the details of the bank in which the account is held.

There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.
Country	Enter the country of the payee's bank.
Address Line 1-3	Enter the address of the payee's bank.
City	Enter the city of the payee's bank.
Zip Code	Enter the zip code of the payee's bank address
Additional Details	
Access Type	Specify the access type to be assigned to the payee. The options are: <ul style="list-style-type: none"> • Public • Private
Primary Party	The primary party associated to the user. The primary party users will always have access to the payee if it's Public .
Accessible to Parties	Accessible parties associated to the user. During payee creation a corporate user can define the parties within his GCIF to whom this payee will be accessible if the payee is public. The primary party users will always have access to the payee if it's Public .

To create a payee for the account transfer:

1. Fill the details in the respective field.
2. In the **Nickname** field, enter the nickname to be assigned to the payee.

Note: If, while creating a payee, the user enters an account number or payee nickname that has already been assigned to a registered payee, an error message will appear informing the user that a payee with the specific details already exists and the user will not be able to create the payee.

3. On submit **Add Payee - Review** screen appears. Verify the details and click **Confirm**.

4. On confirm, the success message appears along with the transaction reference number and payee details.
5. Below are the available actions on the confirmation page –
 - **View Payees** - To view the list of payees. It will navigate to manage payee's screen
 - **Go to Payments Overview** - To go to the My Payment Overview page.
 - **Go to Dashboard** - To go to the main dashboard screen.
 - **Make Payment** - To initiate fund transfer to the added payee.
 - **Add New Payee** - To add a new payee.

4.3 **Add Demand Draft Payee**

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified centre and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using Cross Border Demand Draft while a pay order or local currency demand draft can be requested using the Domestic Demand Draft transaction. A Demand Draft, as compared to a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the cheque not clearing. Users can save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- Cross Border Demand Draft

The feature allows you to create a Domestic Draft payee to initiate a request to issue a draft which is payable at a location within the country. The user provides the payee details, the details of draft to be issued in favour of and the payable location.

Note: The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Issue Demand Draft, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Payments > More Actions > Payees > Add Demand Draft Payee

OR

Toggle menu > Payments > More Actions > Add Demand Draft Payee

OR

Search Bar > Payee - Add Demand Draft Payee

To create a payee for the demand draft:

1. Navigate to the screen.

4.4.3 Delete Payee

To delete the payee:

1. Navigate to the **Payees** screen.
2. Click on the  icon of specific payee card which you wish to delete.
3. The **Delete Payee** pop up window appears with a warning message prompting the user to confirm the deletion.

Delete Payee

- a. Click **Delete** to proceed with the deletion request.
OR
Click **Cancel** to cancel the deletion process.

4.5 Payee User Mapping

The Payee User Mapping module allows the corporate administrator to restrict access of payees to a limited set of users. Thereby enabling controlled access of payees to target users.

A private payee created by the corporate administrator can be mapped to multiple users. This limits the access of these users to only the mapped payees and these users won't be allowed to perform transactions like Transfer Money, Set Repeat Transfer and Multiple Transfer for other payees, including public payees.

This feature is available only for the corporate administrator.

Note: This feature needs to be used in conjunction with role transaction mapping. To achieve the objective of allowing certain users of the corporate to be able to make payments to only certain payees, the admin will have to operationally remove access to Ad hoc Payments and Payee Management to such users.

Prerequisites:

- Transaction and account access are provided to corporate user
- Approval rule set up for corporate user to perform the actions

How to reach here:

Toggle menu > Payments > More Actions > Payee User Mapping

OR

Search Bar > Payees – Payee User Mapping

4.5.1 Payee User Mapping – Summary

This option allows user to list all private payees created by the corporate administrator. A quick search is available on the screen by specifying the payee name. User can also view the details of the payee and to map users to the beneficiary.

Features Supported In the application

Functions available on Payee User Mapping are as follows:

- Map user to a payee
- Edit Mapping

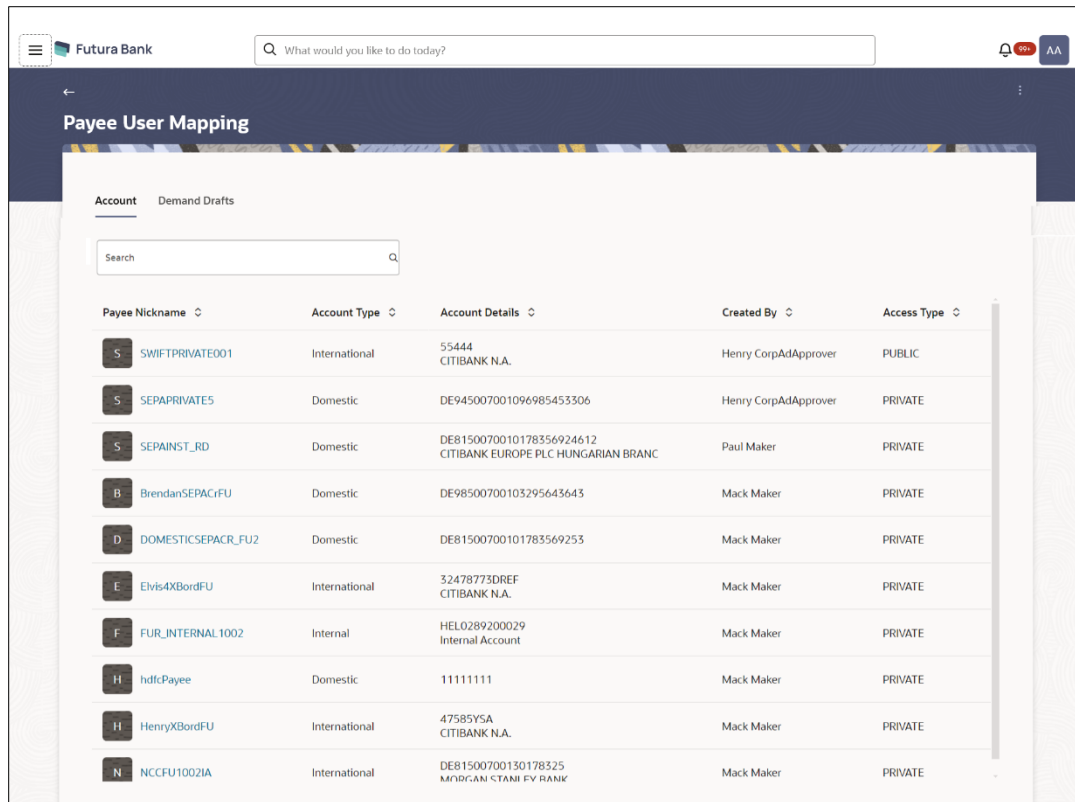

The screen is divided into two sections –

- **Accounts** – Bank Account Payees are listed in this section.
- **Demand Draft** - Payees created for Demand Draft are listed in this section.

To view the payee:

1. In **Search By Payee Name** field, enter the payee name to list all private payees.
2. Click on the  icon, all private payees created by the corporate administrator will be displayed.

Payee User Mapping Details -Edit

The screenshot shows the 'Payee User Mapping Details -Edit' interface in the Futura Bank app. The interface includes a search bar at the top, a title bar, and a form with the following details:

- Payee Photo:** Placeholder 'S'
- Payee Type:** GENERICDOMESTIC
- Account Name:** DE94500700109698545330
- Account Number:** DE94500700109698545330
- Network Type:** SEPACREDIT
- Bank Details:** DEUTDEFFXXX
- Nickname:** SEPAPRIVATE5
- User List:** Multi-select dropdown showing 'CL1 User31 (CL1User31)' selected.
- Buttons:** Confirm, Cancel, Back

FAQ

1. Can I delete payees that I no longer need to make payments to?

Yes. You can choose to delete the payees that you no longer need.

2. When can I make the payment to newly added payee?

After successfully adding a payee, you may proceed to transfer funds immediately or set a future date for the transaction to take place.

3. Who can access the payees created with access type as 'Private'?

Private payees can only be accessed by creator of the payee. Only creator of the payee can use such payees while initiating payment.

4. Who can access the payees created with access type as 'Public'?

Payee marked as 'Public' are visible to all the users mapped to the Party ID of the user which has been given access. All users of the party will be able to view and use these payees while initiating payments.

5. If I delete or edit a payee, what will happen to the in-flight transactions?

Payee modification or deletion will not have any impact on the transactions which are initiated with a same payee and are pending for further processing. In-flight transactions will continue to progress with the data with which the transaction was initiated.

5. Make Payment

The Make Payment feature enables the user to initiate online payments between own accounts or perform one of the following payments by using an existing payee or new payee (ad hoc payee) where the customers are required to specify the payee details manually along with the transfer details while initiating a payment.

- Within Bank Transfer
- Domestic Transfer
- Cross Border Transfer

User selects the specific account or the payee towards which the transfer is to be made. The user is not required to explicitly select the transfer type (Within Bank, Domestic or Cross Border) since this is defined at the time of payee creation.

Recurring Payments, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals. Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating recurring payments by introducing the selection at the time making the regular payments. Through this feature, users can set an instruction for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from the **Recurring Payments summary or details** screen.

Cross Border Low value payments are now enabled as part of Make Payments. User can opt for the low value payment while making the cross-border payment based on the amount and selected bank.

Prerequisites:

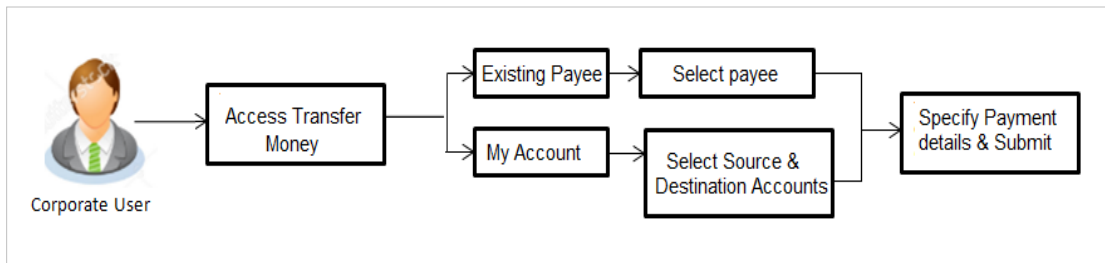

- Transaction and account access is provided to corporate user
- Approval rule set up for corporate user to perform the actions
- Payees are maintained
- Transaction limits are assigned to user to perform the transaction

Features supported in the application

The 'Make Payments' feature enables users to make payments towards:

- Saved Payee – Within Bank, Domestic and Cross Border transfers are supported and are triggered based on the payee and specific payee account selection.
- My Accounts – Users can transfer funds within their own accounts held in the bank.
- New Payee – Users are able to transfer funds to towards payees that are not registered with the bank

Workflow

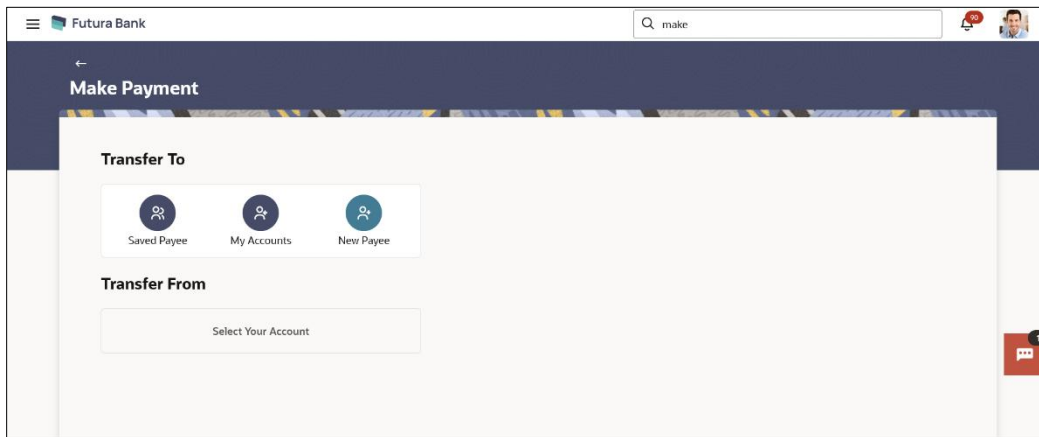

How to reach here:

Toggle menu > Payments > Make Payment
OR
Search bar > Payments – Make Payment

To make a payment:

1. Navigate to the **Make Payment** screen.

Make Payment

Field Description

Field Name	Description
Transfer To	
Saved Payee	Option to select the existing payee to whom you wish to initiate payment. All the payees maintained will be listed for selection.
My Accounts	Display the list of Own Accounts.

Field Name	Description
New Payee	Option to add new payee to whom you wish to initiate payment.
Transfer From	– Will be blank initially

5.1 Make Payment - Saved Payee

This feature allows corporate user to make payment to a Saved Payee. All payees (Within Bank, Domestic and Cross Border payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, an account for debiting funds towards the existing payee will get defaulted on the **Transfer From** field and user can change the source account if required.

Payment related details will be populated based on type of payee selected and based on regionalization. Refer section [Regionalization for Domestic Payments](#) to see region specific payment fields.

1. Under the **Transfer To** section, click on the **Saved Payee**, the **Transfer To** overlay screen will appear with the **Saved Payee** tab.

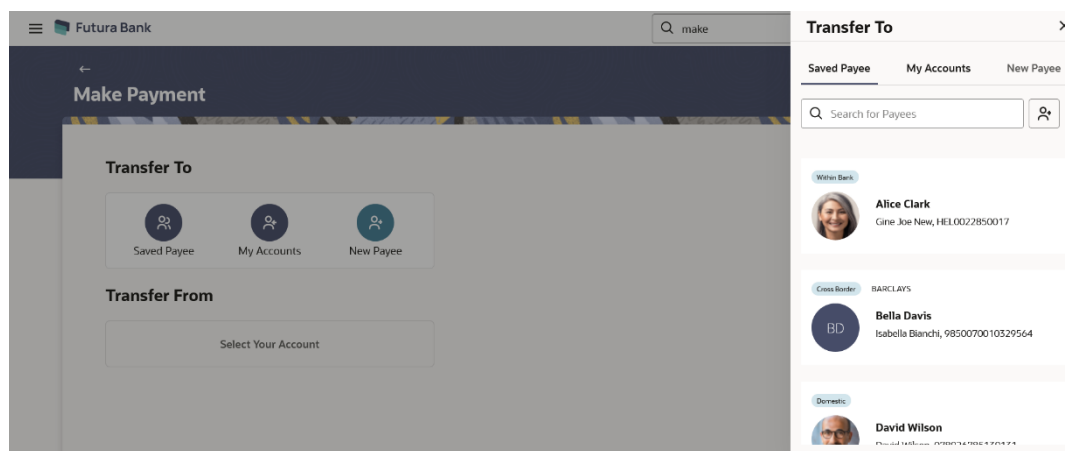

Note:

- 1) Users can also add new payee from the **New Payee** tab.
- 2) Users can search the specific payees by typing a few characters (type to search). This can be done in fields such as Payee Type, Nickname, Account Name, Account Number.

OR

Click on the  icon to add the new payee. The system redirects to **Add Bank Account Payee** screen.

Make Payment- Transfer To overlay screen

5.3 **Make Payment – New Payee**

Using this feature user can initiate payment requests towards payees that are not registered in the system. Since the payment request is for an unregistered payee, the user is required to specify details of the payee along with transaction details.

Once the payment request is initiated, the user can register the payee as a payee by selecting the Add as Payee option provided on the confirm screen. The add payee request will go through the additional approval request if approval is configured for add payees.

Users can initiate Within Bank, Domestic and Cross Border payment requests.

To initiate payment request for new payee:

1. Navigate to the **Make Payment** screen.
2. Under the **Transfer To** section, click on the **New Payee**, screen will appear with **New Payee** tab to add new payee.
 - a. If you select the **Within Bank** option in the **Payee Type** field:
The **Account Details** appears for the within bank payment.
 - b. If you select the **Domestic** option in the **Payee Type** field:
The **Account Details** appears for the domestic payment.
 - c. If you select the **Cross Border** option in the **Payee Type** field:
The Account Details appears for the cross-border payment.

Make Payment- Transfer To (New Payee – Within Bank) overlay screen

The screenshot shows the Futura Bank mobile app interface. At the top, there's a header with the Futura Bank logo and a search bar. Below this, a 'Make Payment' overlay is displayed. The overlay has a dark blue header with a back arrow and the text 'Make Payment'. The main content area is divided into two sections: 'Transfer To' and 'Transfer From'. The 'Transfer To' section has three icons: 'Saved Payee', 'My Accounts', and 'New Payee'. The 'Transfer From' section has a button labeled 'Select Your Account'. On the right side of the overlay, there's a 'Transfer To' panel with tabs for 'Saved Payee', 'My Accounts', and 'New Payee'. The 'New Payee' tab is selected. Below the tabs are three buttons: 'Within Bank', 'Domestic', and 'Cross Border'. The 'Within Bank' button is selected. Below these buttons are two sections: 'Account Details' and 'Personal Details'. The 'Account Details' section has three input fields: 'Account Number', 'Confirm Account Number', and 'Account Name'. The 'Personal Details' section has one input field: 'Email ID'. At the bottom right of the panel are 'Cancel' and 'Proceed' buttons.

Below payee fields appears for the Within Bank payment type.

Field Description

Field Name	Description
Payee Type	Select Within Bank .
Account Details	
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Personal Details	
Email ID	Email addresses of the payee.
<p>Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.</p>	

Make Payment- Transfer To (New Payee - Domestic) overlay screen

The screenshot shows the 'Make Payment' overlay screen on the Futura Bank interface. The main area is titled 'Make Payment' and contains two sections: 'Transfer To' and 'Transfer From'. The 'Transfer To' section has three options: 'Saved Payee', 'My Accounts', and 'New Payee'. The 'Transfer From' section has a button labeled 'Select Your Account'. On the right side, there is a 'Transfer To' panel with tabs for 'Saved Payee', 'My Accounts', and 'New Payee'. The 'New Payee' tab is selected, showing 'Domestic' and 'Cross Border' options. Below these are 'Account Details' fields: 'Account Type' (a dropdown menu with 'Savings' selected), 'Account Number' (a text field with a 'Required' label), 'Confirm Account Number' (a text field), and 'Account Name' (a text field with a 'Required' label). At the bottom right of the panel are 'Cancel' and 'Proceed' buttons.

3. When number of accounts are more than 100.

In this case advanced search option is provided, to search the by using below filters-

- Party Name
- Account Number
- Account Name
- Account Type

5.5 Suggestive Credit Value Date

The Payment framework provides the facility to display the suggestive credit value date on the review screen of a payment. This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The service takes into account parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

5.6 Save as Draft

The Save as Draft feature enables the user to save the transaction which are saved as a draft and incomplete can be worked upon later. User can access the transaction from Saved **Drafts** screen and complete it.

1. Navigate to **Make Payment** screen.
2. At any stage of transaction, click **Save As Draft** to save the payment record.
3. Assign name to the Draft.

Save As Draft

The screenshot shows the 'Make Payment' interface of Futura Bank. The main screen is divided into sections: 'Transfer To' (showing David Wilson, DEUTSCHE), 'Transfer From' (showing Sal Account, xxxxxxxxxxxx0035), 'Payment Details' (showing Currency EUR, Transfer Amount, Network Type SEPACREDIT, Scheduled On Pay Later, Transfer On 9/20/2024), and 'Fees & Charges' (showing Calculate Charges, Deduct Charges From Sal Account, xxxxxxxxxxxx0035). A 'Save As Draft' modal is open on the right, with a 'Draft Name' input field and 'Cancel' and 'Save' buttons.

- a. Click **Save** to save the transaction as a draft.
OR
Click **Cancel** to cancel the transaction.

5.7 Save as Favourite

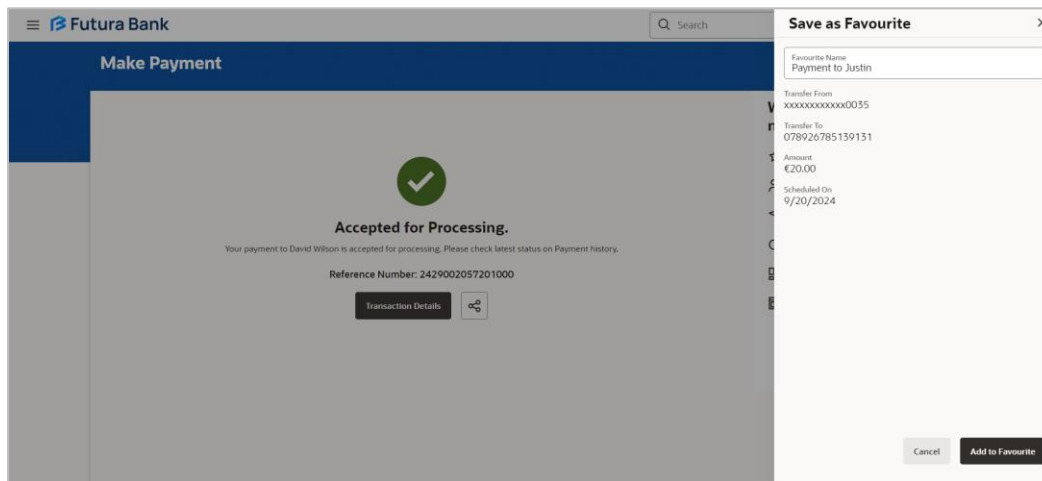

The Save as Favourite feature enables the user to mark the payment as favourite. User can access the transaction from Favourite screen and initiate the transaction. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

1. Navigate to **Make Payment** screen.
2. Initiate the transaction. The system displays confirmation screen.

Note: For more information refer **Make Payment** transaction.

3. Click **Save As Favourite** link on the confirmation screen to save transaction as a favourite.
4. Assign name to the transaction which to be marked as favourite.

Save As Favourite

- a. Click **Save** to save the transaction as a favourite.
OR
Click **Cancel** to cancel the transaction.

FAQ

1. **Can I use the ad hoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**

No, fund transfers can be made only to current or savings account through the ad hoc transfer transaction.

2. **Can I set a future date for a fund transfer?**

You can set a future date for a payment using the Pay Later option.

3. **What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

4. **What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

5. **Can I make a payment towards an account which is currently not registered as my payee?**

Yes, you can make payments to the accounts which are not registered as payees through the ad hoc transfer transaction.

6. Are separate transaction limits applicable for when I initiate a transfer using Ad hoc Transfer and using Transfer Money by selecting a payee?

Transaction limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Ad hoc Transfer or by using Transfer Money (provided the payment network is the same).

7. Can I cancel a Recurring Transfer instruction?

Yes, you can cancel Recurring Transfer transactions provided that the instruction has some instructions that have not yet been executed. You cannot reverse transfers that have already been initiated.

Once an instruction has been cancelled, it will no longer be visible on the View Repeat Transfer screen.

8. What happens if I have set up a transfer for a future date, but on that date, I don't have enough funds in my account to cover the transfer?

In this case, the transfer will not be made. Transfers are executed only if there are funds available in your account.

9. Can I cancel a specific instalment of a recurring payment?

No, you cannot cancel the specific instalment of recurrent payment, but you can cancel entire instruction given for recurring payment.

NCC Code	NCC code of the bank branch.

7. Regionalization for Domestic Payments

Regionalization for domestic payments involves systems to align with the specific requirements and standards of each region. This includes defining fields such as networks supported, account types, currencies, charges, etc. that can vary from one region to another. By customizing these fields according to regional specifications, implementation partners can enhance the reliability of domestic payment transactions, ensuring they meet local regulatory requirements and customer expectations.

Implementation partners have the flexibility to customize domestic payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box:

- India
- SEPA region
- US

Out of the box Networks for the above supported regions:

Region	Networks
India	<ul style="list-style-type: none">• RTGS• NEFT• IMPS
SEPA region	<ul style="list-style-type: none">• SEPA Credit Transfer• SEPA Instant Credit
US	<ul style="list-style-type: none">• ACH Transfer• Faster ACH Transfer• Domestic Wire Transfer

7.1 India Region

Here are the field specifications which will be displayed on payee and payment screen for domestic payments specific to the India region.

Field Description - Payee

Field Name	Description

8. Inquiries

8.1 Outgoing Payments

The Outgoing Payments transaction enables corporate users to review and keep track of all their payments. This feature displays details of all payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions include Within Bank, Domestic and Cross Border transfers along with transfers made to own accounts.

The Outgoing Payments summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat payment, cancel or download e-receipts for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Outgoing Payments Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list outgoing payments. The **Filter** feature is provided to search the payments based on the search criteria.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on '**Manage Columns**' option available on the screen, user can

- Rearrange columns.
- Remove/add specific columns.

Note:

1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

3) The Long Press Gesture feature is implemented on quick actions of Status Inquiry, users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Single Payments, Recurring Payments, Incoming Payments. This functionality is only supported on mobile devices and tablets.

4) Swipe gesture is implemented on the Outgoing Payments summary page showing actions - Repeat, Cancel or More actions as applicable. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Payments > More Actions > Inquiries > Outgoing Payments

OR

Search Bar > Payment Inquiries – Outgoing Payments

OR

Toggle menu > Payments > My Payments > Recent Payments widget > Outgoing tab > View All Payments

8.1.1 Outgoing Payments – Summary

To view / search for payment records:

1. Navigate to the **Outgoing Payments** screen. The system displays a summary of all the outgoing payments for the primary account.

Note: By default, the **Outgoing Payments** screen displays the list of payments for the primary account.

2. Select the account from the drop-down list to view its outgoing payments. The system displays a summary of all the outgoing payments for the selected account.

This feature allows user to cancel the payments.

Note: The cancellation is currently supported only for Within Bank Transfers that are not yet processed and for SWIFT Transfers that are processed as well as in progress.

To cancel the payment record details:

1. Navigate to the **Outgoing Payments** screen.
2. Select the account from the drop-down list to view its outgoing payments. The system displays a summary of all the outgoing payments for the selected account.
3. Click on the more options icon against the record which to be cancelled and click **Cancel Payment**.

The user will be redirected to the **Cancel Payment** screen where the cancellation of the respective payment is facilitated.

OR

Click on the **Host Reference Number** for the specific payment record to view the details of that payment. The **Payment Details** screen appears with the details.

- a. Click on the **Cancel Payment** option under the **More Actions** menu. The **Cancel Payment** screen appears.

Payment Cancellation – Within Bank Transfer

The screenshot shows the 'Cancel Payment' interface for a Within Bank Transfer. The header includes the Futura Bank logo, a search bar, and user profile icons. The main form has a 'Cancellation Reason' dropdown set to 'Duplication' and a 'Cancellation Remark' text box containing 'cancel transaction'. To the right, 'Transaction Details' show the Payee Name as 'SPINNEYS SUPERMARKET INC', Reference Number as '2424202055938000', Payment Type as 'Internal Transfer', and Status as 'Future Date!' with a note '(Transaction to be executed on 8/29/2024)'. Below this, 'Beneficiary Details' show the Account Number as 'XXXXXXXXXXXX0026'. At the bottom left are 'Submit' and 'Cancel' buttons. A red notification bubble with the number '1' is in the bottom right corner.

Payment Cancellation – Cross Border Transfer

The screenshot shows the 'Cancel Payment' interface for a Cross Border Transfer. The header is identical to the previous screen. The 'Cancellation Reason' dropdown is set to 'Incorrect Currency', and the 'Cancellation Remark' text box contains 'Cancel transaction'. The 'Transaction Details' section shows the Payee Name as 'acname', Reference Number as '2425501062753000', Payment Type as 'International Transfer', and Status as 'In Progress' with a note '(Transaction to be executed on 5/29/2024)'. The 'Beneficiary Details' section shows the Account Number as 'XXXXXXXXXXXX1111' and Bank Details as 'baddr1 bankcity AF'. 'Submit' and 'Cancel' buttons are at the bottom left. A red notification bubble with the number '1' is in the bottom right corner.

Field Description

Field Name	Description
Cancellation Details	
Cancellation Remarks	Relevant remarks need to be entered to process cancellation of the payment. Mandatory field.
Cancellation Reason Code	A drop down of reason codes available only for SWIFT Payments
Transaction Details	
Payee Name	The name of the payee.
Reference Number	The reference number assigned to the transaction by the host system.
Payment Type	The type of payment transfer i.e. Within Bank, Domestic or Cross Border transfer.
Status	<p>The current status of the payment transfer record.</p> <p>It could be:</p> <ul style="list-style-type: none">• In Progress• Processed• Future Dated• Cancelled
Beneficiary Details	
Account Number	The payee's account number to which the funds to be transferred. The account number appears in masked format.
Bank Details	This field is displayed only if Payment Type is Cross Border Transfer .

-
4. Click **Submit** to cancel the payment.
OR
Click **Cancel** to cancel the transaction.
 5. The success message of payment cancellation appears along with the transfer request number.
 6. Click **Home** to navigate to the dashboard.

8.1.4 Payment Cloning

The **Repeat** feature available on the **Outgoing Payments** summary screen allows user to clone a payment. This is to make it convenient for the end user to initiate the same payment again, on a different date. The cloning does not intend to stop the user from changing any of the data. Therefore it is just another Ad hoc Payment transaction, and the user will be able to change any fields he wants to.

For a Self-Transfer that was initiated from OBDX and visible in Outgoing Payments, clicking on the Clone button will open up the **Make Payment – New Payee** Within Bank Payment page. This is because, from the bank's perspective both Self Transfer and Within Bank Transfer are payments between accounts within the bank.

The payments screen in **Outgoing Payments** are a combination of all payments posted to the back end payments processor. The payments could have originated from other channels too, or directly from the payments processor itself. And therefore to repeat/copy the same payment at a later time, OBDX makes use of the Ad hoc Payments transaction since the payee information may not be present within OBDX as a payee.

Pre-Requisites

- Entitlements to Ad hoc Payments

To clone the payments:

1. Navigate to the **Outgoing Payments** screen.
2. Click on the  (pay again) icon against the payment record which to be cloned. The user will be redirected to the **Transfers -Ad hoc Payee** screen transaction with most of the data of the existing payment copied to the input fields. For more information refer **Transfers - Ad hoc Payee** section.

8.2 Incoming Payments

Inward remittance is amount of money received in user's account/s from the various Domestic and Cross Border channels. Using this inquiry transaction, user can inquire the inward remittances received in your account.

1. Enter the search criteria.
2. From the **Account Number** list, select the appropriate account number. The list of inward remittance populates on the screen.
3. Click on the **Reference Number** of the specific remittance record to view its details. The **Remittance Details** screen appears with the details.

Incoming Payments - Details

The screenshot shows the 'Remittance Details' screen for transaction number 2417202146189000. The screen is divided into three main sections: Transaction Details, Sender Details, and Recipient Details. The Transaction Details section includes fields for Transaction Date (5/29/2024), Reference Number (2417202146189000), Remittance Amount (€199.45), Credited On (5/29/2024), and Credit Amount (€199.45). The Sender Details section includes fields for Remitter Name, Account Number (xxxxxxxxxxxx7856), Bank Code (DEUTDEFFXXX), and Remitter IBAN (---). The Recipient Details section includes fields for Credit Account (xxxxxxxxxxxx0039) and Credit Account Branch (Nordea Bank AB, Finnish Branch). A 'Back' button is located at the bottom left of the screen.

Field Name	Description
Transaction Details	
Transaction Date	The date on which the transaction is received by the bank from the channel.
Reference Number	The transaction reference number.
Remittance Amount	The amount as remitted by the remitter.
Credited On	The date on which the funds are credited on receiver's account.
Credit Amount	The amount credited to the account.
Purpose of Remittance	The purpose of remittance.
Sender Details	

Field Name	Description
Remitter Name	The name of the remitter.
Account Number	The account number of the remitter.
Bank Code	The bank details of the remitter.
Remitter IBAN	The intermediary bank through which funds are transferred.
Recipient Details	
Credit Account	The receiver's account number and nickname to which amount has been credited.
Credit Account Branch	The name of the bank and branch of the receiver.

4. Click **Back** to go back to the previous screen.

8.3 Recurring Payments

The application has simplified the user's task of initiating repetitive payments by introducing the **Recurring Payments** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from this screen using **Stop Recurring Payment feature**.

The **Recurring Payments** transaction enables users to review and keep track of all their payments set as recurring. This feature displays details of all recurring payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions can include Within Bank, domestic and cross border transfers along with transfers made to own accounts.

The **Recurring Payments** summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat, cancel or download e-receipts and view status for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list recurring payments. The **Filter** feature is provided to search the payments based on the search criteria.

The user can view additional details of a recurring payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns** option available on the screen, user can

- Rearrange columns

- Remove/add specific columns

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.
- 3) Swipe gesture is implemented on the Recurring Payments summary page showing actions - Copy, Stop as applicable. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Payments > More Actions > Inquiries > Recurring Payments

OR

Search Bar > Payment Inquiries – Recurring Payments

8.3.1 Recurring Payments – Summary

To view / search for recurring payment records:

1. Navigate to the **Recurring Payments** screen. The system displays a summary of all the recurring payments for the primary account.

Note: By default, the **Recurring Payments** screen displays the list of recurring payments set for the primary account.

2. Select the account from the drop-down list to view its recurring payments. The system displays a summary of all the recurring payments in the selected account.

Recurring Payments– Summary

8.4 UETR Status Inquiry

For SWIFT Payments, OBDX supports a detailed status screen. One needs to know the UETR number in order to view the status of the payment.

The UETR reference number of an outbound payment can be seen in the details screen of Payment Status Inquiry. One can click on the reference number there itself to open up the UETR Status Inquiry screen.

For inbound payments though, one needs to visit this screen and enter the UETR reference number manually. The kebab menu is provided to access other payment inquiry related transactions.

How to reach here:

Toggle menu > Payments > More Actions > Inquiries > UETR Status Inquiry
OR

Search Bar > Payment Inquiries – UETR Status Inquiry

To view / search for UETR status records:

1. Enter the search criteria.
 - i. In the **UETR Number** field, enter a UETR transaction reference.
 - ii. From the **Account Number** list, select a CASA (Current Account and Savings Account) account.
 - iii. From the **Transaction Type** list, select the appropriate transaction type by which records to be searched.

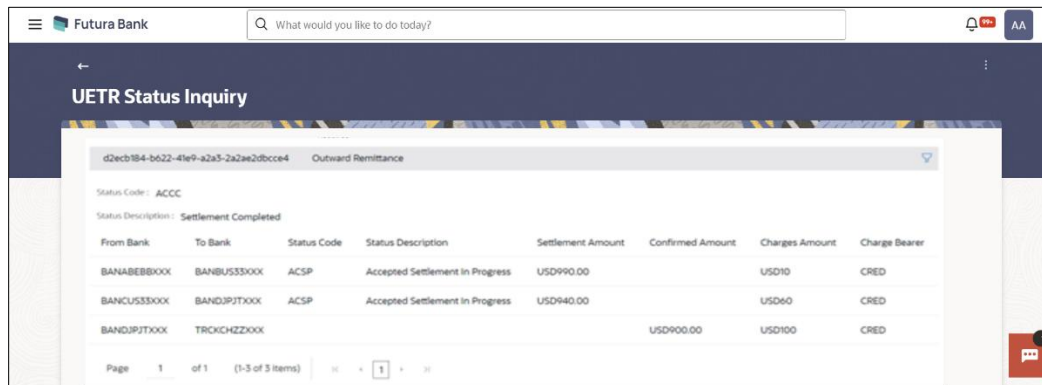

UETR Status Inquiry – Search Criteria

The screenshot displays the 'UETR Status Inquiry' interface within the Futura Bank mobile application. At the top, there is a navigation bar with the bank's logo and a search bar. Below this, the title 'UETR Status Inquiry' is prominently displayed. The main area contains a search form with three input fields: 'UETR Number' (pre-filled with 'd2ecb184-b622-41e9-a2a3-2a2ae2dbcce4'), 'Account Number' (a dropdown menu showing 'xxxxxxxxxxxx0054'), and 'Transaction Type' (a dropdown menu showing 'Outward Remittance'). Below these fields are two buttons: 'Search' and 'Reset'. A red notification icon with a '1' is visible in the bottom right corner of the screen.

2. Click **Search** to view transactions based on the defined criteria.
Based on the search criteria the payments records get displayed on the **UETR Status Inquiry** screen.

OR
Click **Cancel** to cancel the transaction.
OR
Click **Reset** to clear the details entered.

UETR Status Inquiry – Search Result

The screenshot shows the Futura Bank UETR Status Inquiry interface. At the top, there's a search bar with the placeholder text "What would you like to do today?". Below the search bar, the title "UETR Status Inquiry" is displayed. The main content area shows a search result for a specific transaction with ID "d2ecb194-b622-41e9-a2a5-2a2ae2dbcc4" and type "Outward Remittance". The status is "ACCC" and the description is "Settlement Completed". Below this, a table lists the transaction details:

From Bank	To Bank	Status Code	Status Description	Settlement Amount	Confirmed Amount	Charges Amount	Charge Bearer
BANABEBBXXX	BANBUS33XXX	ACSP	Accepted Settlement In Progress	USD990.00		USD10	CRED
BANCUS33XXX	BAND3PJTXXX	ACSP	Accepted Settlement In Progress	USD940.00		USD60	CRED
BAND3PJTXXX	TRCKCHZZXXX				USD900.00	USD100	CRED

At the bottom of the table, there's a pagination control showing "Page 1 of 1 (1-3 of 3 items)".

FAQ

1. What is an Incoming Payments?

Incoming Payments is amount of money credited in user's account/s from the various Domestic and **Cross Border** channels.

2. Can I view the incoming payments of all accounts under my party?

You can view the incoming payments received in the accounts mapped to you as primary and linked accounts.

9. Favourites

This feature allows users to mark payments as favourites. By doing so, users can quickly access these payments and use them as templates to initiate new payments. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

Users can mark a transaction as a favourite by selecting the option provided on the confirmation page of a payment.

The following types of payment transactions can be marked as Favourite transactions.

- Payments made to an account (Make Payment)

After a transaction is marked as a favourite, it appears in the user's favourite transaction list. To access it, the user simply needs to select the desired transaction from the displayed list. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

Note: The **Long Press Gesture** feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like to Open Favourites screen. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns**' option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note:

1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

Prerequisites:

- Transaction and account access is provided to the corporate user

Features supported in the application

- View Favourite Transaction Details
- Initiate a Payment
- Remove Transaction from Favourite List

How to reach here:

Toggle menu > Payments > Favourites

OR

Search bar > Payments – Favourites

OR

Dashboard > Toggle menu > Payments > Overview > More Actions > Favourites and Drafts > Favourites

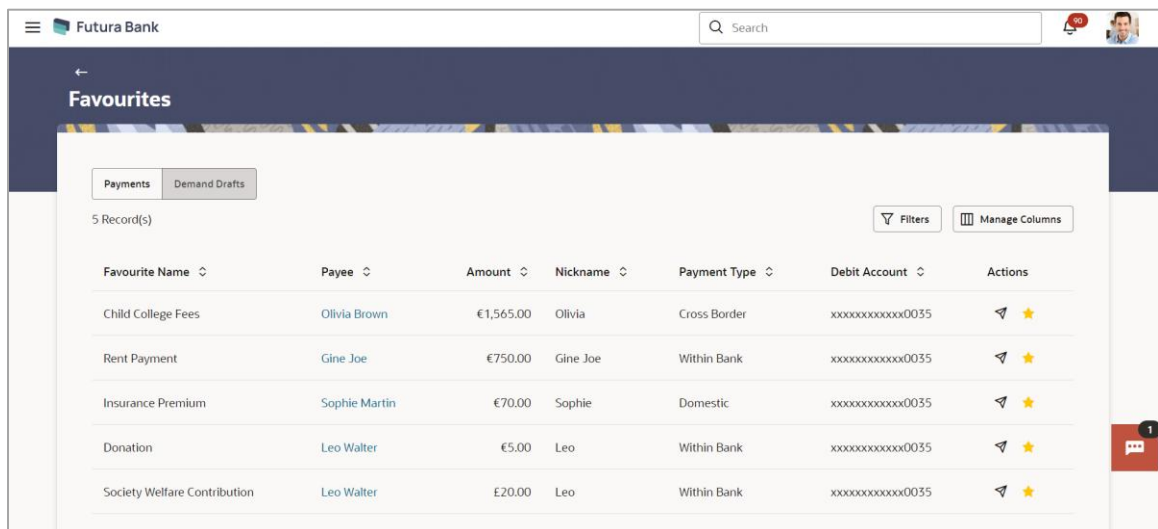

9.1 Favourites – Summary

The screen displays summarized views of all payment transactions marked as favourites. Users can search for a favourite transaction based on the favourite name or favourites types or debit account. They can view and initiate transactions using these favourite transactions as templates, and they can also delete any transaction from the favourite list.

To view and initiate a favourite transaction:

1. Navigate to the **Favourites** screen. All the favourite transactions appear as a list on the **Favourites Summary** screen.

Favourites – Summary (Payments)

The screenshot shows the 'Favourites' screen in the Futura Bank app. At the top, there's a header with the Futura Bank logo, a search bar, and a user profile icon. Below the header, the title 'Favourites' is displayed. Underneath, there are two tabs: 'Payments' (selected) and 'Demand Drafts'. A message '5 Record(s)' is shown. To the right of the records, there are buttons for 'Filters' and 'Manage Columns'. The main content is a table with 7 columns: Favourite Name, Payee, Amount, Nickname, Payment Type, Debit Account, and Actions. The table contains 5 rows of data. Each row has a 'Favourite Name', a 'Payee' (with a link icon), an 'Amount', a 'Nickname', a 'Payment Type', a 'Debit Account' (masked with 'x's), and an 'Actions' column with a paper plane icon and a star icon.

Favourite Name	Payee	Amount	Nickname	Payment Type	Debit Account	Actions
Child College Fees	Olivia Brown	€1,565.00	Olivia	Cross Border	xxxxxxxxxxxx0035	
Rent Payment	Gine Joe	€750.00	Gine Joe	Within Bank	xxxxxxxxxxxx0035	
Insurance Premium	Sophie Martin	€70.00	Sophie	Domestic	xxxxxxxxxxxx0035

FAQ

1. Post transaction, if I add it to 'Favourites' where will this be reflected and what benefit will I gain from this?

The transaction will be saved in the 'Favourites' list. This transaction can then be used the next time you want to initiate a similar payment.

2. What type of actions user can perform from favourite transaction?

User can perform following actions from favourite transaction:

- View favorite transaction details
- Initiate a payment
- Remove the transaction from favorite list

3. What type of transactions user can perform from favourite transaction?

User can mark the following transactions as favourite:

- Payments done through Transfer Money (Ad hoc Payments are excluded)
- Draft Issuance

And then view / initiate payments and remove transactions from favourites.

4. Can I edit the details if I am reinitiating a transaction from my favourite transaction list?

Yes, you can edit the details and reinitiate a transaction by selecting favourite transaction.

10. Saved Drafts

This feature enables users to view all the transaction which are saved as a draft and incomplete. It also allows user to complete the transaction by redirecting it to the respective transaction screen.

Note: The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like open Saved Drafts. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns**' option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note:

Saved Drafts– Manage Column setup

The screenshot shows the 'Saved Drafts' page in the Futura Bank app. A 'Manage Columns' overlay is open on the right side. The overlay has a title 'Manage Columns' and a subtitle 'Here columns can be reordered or modified'. It lists six columns: 'Draft Name', 'Payment Type', 'Payee', 'Debit Account', 'Amount', and 'Actions'. Each column has a 'Fixed' button and a reordering handle (three horizontal lines). At the bottom of the overlay are 'Reset' and 'Apply' buttons. The background shows the same table of 11 saved drafts as in the previous screenshot.

Draft Name	Payment Type	Payee	Debit Account	Amount	Actions
SELF DRAFT	Within Bank	ACKOCA	xxxxxxxxxxxx0061		
APINTERNALdraft	Within Bank	InternalACC	xxxxxxxxxxxx0039		
AdhocINTERNAL	Within Bank	InternalACC	xxxxxxxxxxxx0057		
intl	Cross Border	Levis Corp	xxxxxxxxxxxx0061		
PAY45	Within Bank	ACKOCA	xxxxxxxxxxxx0061		

Field Description

Field Name	Description
Search Criteria	
Total Count of saved Drafts	Displays the total count of saved drafts.

Field Name	Description
Draft Name	Name of the Draft. Click on the draft name to view its details.
Payee	Displays the payee's name to whom payment is to be transferred.
Amount	The amount which is to be transferred.
Debit Account	The CASA (Current Account and Savings Account) account from which the amount is to be debited for payment.
Payment Type	The desired transaction type of which drafts is to be searched. The options are: <ul style="list-style-type: none">• My Accounts• Domestic• Within Bank• Cross Border
Actions	Delete option to delete draft.

11. Issue Demand Drafts

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards saved or new payees.

To initiate a demand draft issue request to the saved payee, the user must first ensure that the payee i.e., the recipient of the demand draft is registered as a demand draft payee through the **Add Demand Draft Payees** feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft. The overlay screen on the **Saved Payee** field allows the user to select the payee from the list of saved payees.

Prerequisites:

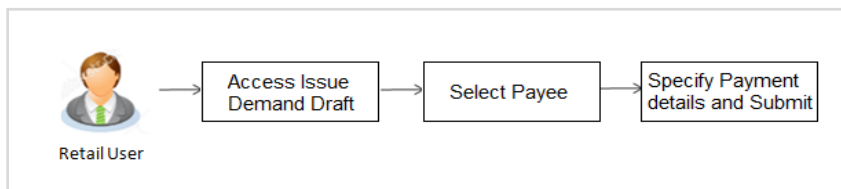

- Transaction access is provided to the corporate user.
- Transaction working window is maintained.
- Required payees are maintained.
- Transaction limits are assigned to user to perform the transaction.

Features supported in application.

The user can request for two types of demand drafts:

- Domestic Demand Draft – Where the draft is payable within the country.
- Cross Border Demand Draft – Where the draft is payable outside the country.

Workflow

How to reach here:

Toggle menu > Payments > More Actions > Issue Demand Draft

OR

Search bar > Payments - Issue Demand Drafts

11.1 Demand Draft Issuance to Saved Payee

A user can initiate a request for a Demand Draft using this transaction. All Demand Draft payees (Domestic and Cross Border Demand Draft payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the issue of the demand draft will get defaulted on the **Transfer From** field and user can change the source account if required. is selected. The user is then required to fill in details such as the amount for which the draft is to be drawn and the date on which the draft is payable, to initiate the demand draft request.

To issue demand draft to registered payee:

1. Navigate to the **Issue Demand Draft** screen.

Issue Demand Draft

The screenshot shows the 'Issue Demand Draft' interface of Futura Bank. At the top, there's a dark blue header with the bank's logo and a search bar. Below this, the title 'Issue Demand Draft' is centered. The main area is a light gray box with a white background. It has two main sections: 'Issue To' and 'Transfer From'. Under 'Issue To', there are two circular buttons: 'Saved Payee' and 'New Payee'. Under 'Transfer From', there is a button labeled 'Select Your Account'. A red notification badge with the number '1' is in the bottom right corner.

Field Description

Field Name	Description
Issue To	
Saved Payee	Option to select the existing payee to whom you wish to issue the demand draft. All the demand draft payees maintained will be listed for selection.
New Payee	Option to add new payee to whom you wish to issue the demand draft.
Transfer From	
Displays the debit account details such as Account Type, Account Nick Name/Account Name, Branch code, Account currency and Available Balance. All the user's own accounts will be listed for selection.	
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The values could be - Islamic Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.

Field Name	Description
Current Balance	The net balance in the selected source account is displayed against the Transfer From field once an account is selected.

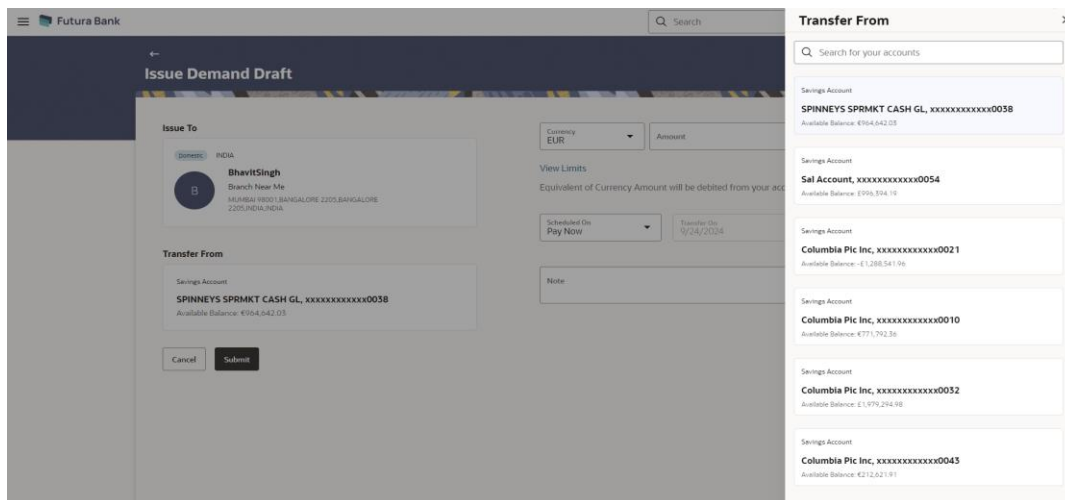

- Click on the **Transfer From** card. The **Transfer From** overlay screen will appear with all the user's own accounts.

- Select the source account from the list from which funds need to be drawn.
OR

Enter the search criteria and click on the  icon to find the accounts.

Note: Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

Issue Demand Draft- Transfer From overlay screen

Field Description

Field Name	Description
Search for your account	Allow user to search own accounts with the Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

All the user's own accounts will be listed on the **Transfer From** overlay screen.

Refer **Transfer From Drawer** section.

- Under the **Issue To** section, click on the **Saved Payee**, the **Issue To** overlay screen will appear with the **Saved Payee** tab appears.

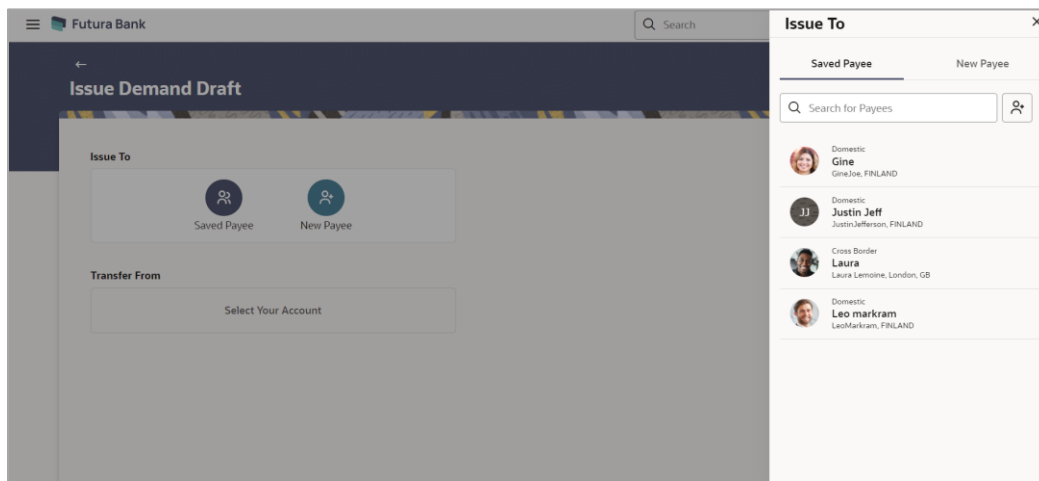

Note:

- 1) Users can also add new payee from the **New Payee** tab.
 - 2) Users can search the specific payees by typing a few characters (type to search). This can be done in fields such as Draft Type, Nickname, Favouring, City/Country.
-

OR

Click on the  icon to add the new payee. The system redirects to **Add Demand Draft Payee** screen.

Issue Demand Draft- Saved Payee

Field Description

Field Name	Description
Search for payee	Allow user to search payee with the Draft Type, Nickname, Favouring, City/Country.
All the saved payees listed on the Saved Payees overlay screen.	
The following details are displayed for each payee: Payee Photo/Initials, Draft Type, Nick Name, Favouring.	
Payee Photo/Initials	Displays the payee's photo, if uploaded, against each payee name. If the payee's photo is not uploaded, the initials of the payee will be displayed in place of the photo.
Draft Type	Displays the type of draft to be associated with the payee. It Could be: <ul style="list-style-type: none">• Domestic• Cross Border

Field Name	Description
Payee Nickname	Displays the payee by their nick names defined at the time of payee creation.

- On selection source account and payee, the screen populates the Transfer To and Payment details.

Issue Demand Draft

Field Description

Field Name	Description
Transfer From	Select the source account from which the funds are to be debited towards the issue of the demand draft.
Issue To	Select the payee to whom the demand draft is to be issued.
Currency	Select the currency in which the draft is to be issued. In case the draft being issued is a domestic demand draft, the currency will be the local currency of the country.
Amount	Specify the amount for which the draft is to be issued.
View Limits	Link to view the transaction limits. For more information on Limits, refer View Limits section.

Field Name	Description
Scheduled On	<p>The facility to specify the date on which the demand draft is to be issued.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Pay Now: Select this option if you wish to have the draft drawn on the same day. • Pay Later: Select this option if you wish to have the draft drawn at a future date. If you select this option, you will be required to specify the date on which the draft is to be drawn.
Transfer On	<p>Specify the date on which the draft is to be issued.</p> <p>This field appears if the option Pay Later is selected from the Scheduled On list.</p>
Transfer From	Select the source account from which the funds are to be debited towards the issue of the demand draft.
Note	Specify a note or remarks for the transaction, if required.

5. From the **Currency** list, select the preferred currency.
6. In the **Amount** field, enter the amount for which the draft needs to be issued.
7. In the **Scheduled On** field, select the option to indicate whether the draft is to be issued for the same day or a date in the future.
 - a. If you select the **Pay Now** option, the draft will be issued on the same day.

OR

If you select the option **Pay Later**, select the date for when the draft is to be drawn.
8. In the **Note** field, specify a note or remarks.
9. Click **Submit** to initiate the request for the issue of the demand draft.

OR

Click **Cancel** to cancel the transaction.
10. The **Demand Draft - Review** screen appears. Verify the details and click **Confirm**.

OR

Click **Cancel** to cancel the transaction.

OR
11. Click **Back** to navigate back to previous page.
12. The success message appears of request to create a new demand draft along with the reference number, host reference number, status, and draft details.
13. Click **Transaction Details** to view the details of the transaction.

OR

Click **Go to Dashboard** to go to the **Dashboard** screen.

OR

Click **Go to Payments Overview** to go to the **Payment Overview** page.

OR

Click **Issue Another Demand Draft** to issue a new demand draft.

11.2 Demand Draft Issuance to New Payee

Using this feature user can initiate requests for demand drafts to be payable towards payees that are not registered as payees in the system. Since the demand draft request is for an unregistered payee, the user is required to specify details of the payee along with demand draft details at the time of demand draft request.

Once the request for the demand draft is initiated, the user can register the payee as a payee by selecting the Add Draft Payee option provided on the confirm screen.

Users can initiate both domestic and cross-border requests for demand drafts. A Domestic Draft initiation request is a request to issue a draft that is payable at a location within the same country. Whereas a Cross Border demand draft request is a request to issue a draft that is payable at a location outside the country. To initiate an ad hoc Cross Border demand draft request, the user must specify the payee's details, including the amount and delivery specifications.

To initiate a demand draft request for new payee:

1. Navigate to the **Issue Demand Draft** screen.
2. Click on the **Transfer From** card. The **Transfer From** overlay screen will appear with all the user's own accounts.

- a. Select the source account from the list from which funds need to be drawn.
OR

Enter the search criteria and click on the  icon to find the accounts.

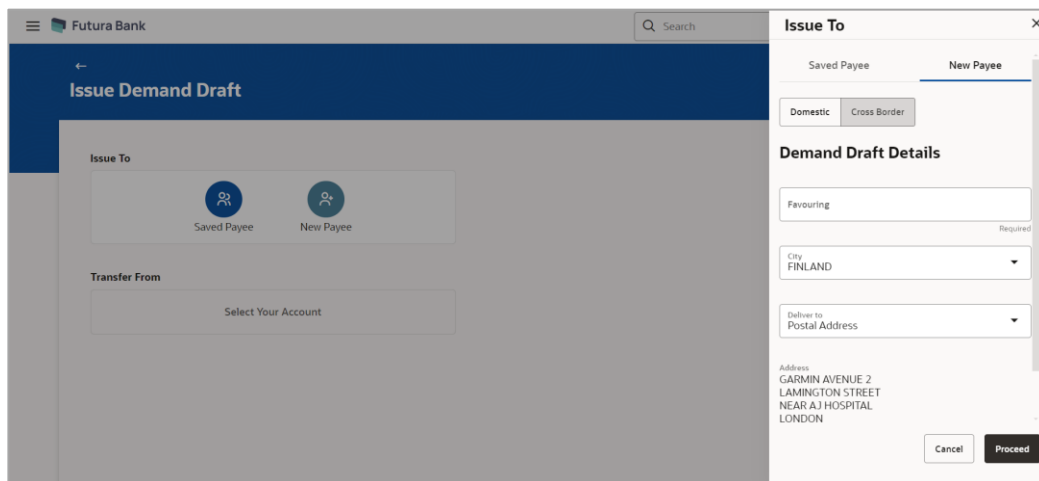

Note: Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

3. Under the **Issue To** section, click on the **New Payee**, the **Issue To** overlay screen will appear with **New Payee** tab appears to add new payee.

- a. If you select the **Domestic** option in the **Draft Type** field:

The **Demand Draft Details** appears for the domestic draft.

Issue Domestic Demand Draft – New Payee

The screenshot displays the Futura Bank mobile app interface. The main screen is titled 'Issue Demand Draft' and features two primary options: 'Saved Payee' and 'New Payee'. The 'New Payee' option is selected, which has triggered an overlay screen titled 'Issue To'. This overlay has two tabs: 'Saved Payee' and 'New Payee', with 'New Payee' being the active tab. Under the 'New Payee' tab, there are two radio buttons for 'Domestic' (selected) and 'Cross Border'. Below these, the 'Demand Draft Details' section is visible, containing fields for 'Favouring', 'City' (set to 'FINLAND'), and 'Deliver to' (set to 'Postal Address'). A full address is listed: 'GARMIN AVENUE 2, LAMINGTON STREET, NEAR AJ HOSPITAL, LONDON'. At the bottom of the overlay are 'Cancel' and 'Proceed' buttons. In the background, the 'Transfer From' section shows a 'Select Your Account' button.

- b. If you select the **Cross Border** option in the **Draft Type** field:

The **Demand Draft Details** appears for the cross-border draft.

Issue Cross Border Demand Draft – New Payee

The screenshot shows the Futura Bank 'Issue Demand Draft' interface. The main area has a dark blue header with a back arrow and the title 'Issue Demand Draft'. Below this, there are two sections: 'Issue To' and 'Transfer From'. The 'Issue To' section has two buttons: 'Saved Payee' and 'New Payee'. The 'Transfer From' section has a button labeled 'Select Your Account'. On the right side, a panel titled 'Issue To' is open. It has two tabs: 'Saved Payee' and 'New Payee', with 'New Payee' selected. Below the tabs are two buttons: 'Domestic' and 'Cross Border', with 'Cross Border' selected. Underneath is the 'Demand Draft Details' section, which includes four input fields: 'Favouring' (with a 'Required' label), 'Country' (a dropdown menu showing 'Andorra'), 'City' (with a 'Required' label), and 'Deliver to Postal Address' (a dropdown menu). At the bottom right of the panel are 'Cancel' and 'Proceed' buttons.

Field Description

Field Name	Description
Draft Type	Specify the type of draft to be associated with the payee. It Could be: <ul style="list-style-type: none">DomesticCross Border
Demand Draft Details	
Favouring	Specify the name of the payee as it is to be printed on the demand draft.
Country	Specify the country in which the draft is to be payable.
City	Specify the name of the city in which the draft is payable.

4. On entering the source account and demand draft details, the screen populates the Transfer To and Payment details.

FAQ

1. Can I initiate a future dated demand draft issuance request?

You can initiate a future dated demand draft issuance request using the Schedule Later option.

2. What happens if I have set up a future dated draft issuance request, but don't have enough funds in my account on the transaction date for the transfer?

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

3. What happens if the transaction amount is less than the set Transaction Limit?

You will not be able to proceed with the initiation of the demand draft issuance if the amount you have specified is less than that of the set minimum transaction limit.

12. MT101 Instruction

The MT101 module facilitates the transfer of funds, domestically and/or internationally by sending SWIFT MT101 instruction to the user's bank. This allows users to debit funds from a single account and credit to multiple domestic and/or international accounts in a single transaction. On the MT101 Instruction screen, all tag option fields will be replaced with channels banking user friendly options. An MT101 Instruction consists of two parts:

1. **General Information (Sequence A):** This is mandatory and contains debit party information like Sender's Reference, Instructing Party and Requested Execution Date.
2. **Transaction Details (Sequence B):** This component is repetitive and must be present at least once in the message.

Standard approval flow (Maker -> Checker) is supported by the system, however, 'Send To Modify' feature is not supported. Bulk Uploads for MT101 Instructions is also not supported. Please note, this transaction will only be supported on desktop/laptop devices.

Prerequisites:

- Transaction and account access are provided to the corporate user
- Approval rule set up for the corporate user to perform the actions
- Transaction working window is maintained
- Transaction limits are assigned to the user to perform the transaction
- External accounts to be added and mapped. Refer to section '16 - External Account'

How to reach here:

Toggle menu > Payments > More Actions > MT101 Instructions > Create MT101 Instructions
OR
Search Bar > MT101 Instructions – Create MT101 Instructions

MT101 Instruction – Other Details Overlay screen (When Account Service Institution details and Ordering customer Details are added to each transaction)

Field Description

Field Name	Description

 - a. If you select **Swift** option;
In the Swift Code field, enter the debtor bank details, if the account to be debited belongs to bank other than the receiver bank, and click Verify.
OR
If you select **NCC** option; In the NCC field, enter the national clearing code details of debtor bank, if the account to be debited belongs to bank other than the receiver bank.
6. Enter required details in the **Transaction Details (Sequence B)** section;
 - a. In the **F/X Deal Reference** field, enter the foreign exchange contract reference number.
 - b. In the **Transaction Amount** field, enter the amount and currency for the respective transaction.
 - c. In the **Ordered Amount** field, enter the converted ordering amount and currency.
 - d. In the **Exchange Rate** field, enter the exchange rate while converting the transaction amount to ordering amount.
 - e. Click on the  setting icon to enter further details of the entry of Transaction Details (Sequence B.). The **Transaction Entry -1:Other Details** overlay screen appears.
 - i. Enter all the required details.
 - ii. Click **Save** to save the details.
OR
Click **Reset Details** to clear all entered details.
OR
Click **Cancel** to navigate back to previous screen.

Note:

Click **+Add Row** to add new row in the Transaction Details (Sequence B.) section.

OR

Click  icon to delete the respective row.

7. Click on **Request** to initiate the MT101 instruction.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
8. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
9. The success message appears, along with the reference number.
Click **View Other Transaction** to view the entered other details for transaction.
OR
Click **Home** to go to the **Dashboard** screen.
OR
Click **Request New MT101 Instruction** to initiate new MT101 instruction.

12.1 **MT101 Instructions Inquiry**

The MT101 Instructions Inquiry screen enables users to view all the MT101 Instructions raised.

This screen lists down instructions based on search criteria defined in the provided search fields. Users can search for a record based on the BIC Code used to initiate the instruction, the reference number generated by the host or even by defining the execution date range. The number of transactions that are displayed on the Payment Status Inquiry summary screen by default, depends on the configuration set by the bank.

User can view additional details by clicking on the hyperlink provided on the host reference number. On clicking the eye icon, the system generated MT101 message will be displayed in a pop-up, which can be downloaded in PDF format.

How to reach here:

Toggle menu > Payments > More Actions > MT101 Instructions > View MT101 Instructions

OR

Search Bar > MT101 Instructions – View MT101 Instructions

12.1.1 **MT101 Instructions Inquiry – Summary**

To view / search for MT101 instruction records:

1. In the **MT101 Instructions Inquiry** screen, enter one or more search criteria as follows:

- i. In the **Receiver BIC Code** field, enter the receiver's BIC code to search based on the BIC code of the recipient bank.
- ii. In the **Host Reference Number** field, enter a transaction reference number of a instruction initiated to search for a MT101 record on the basis of transaction reference number.
- iii. In the **Customer Reference Number** field, enter a customer reference number assigned by the user of a instruction initiated to search for a MT101 record.
- iv. In the **Execution Date Range** fields, enter the range in the **Execution From Date** and **Execution To Date** to fetch MT101 instructions with execution date within the mentioned date range.
- v. Click **Search**.
The search results appear; user can filter records based on the search criteria.
OR
Click **Reset** to reset the search criteria.
OR
Click **Cancel** to go to the Dashboard.

MT101 Instructions Inquiry

The screenshot shows the 'MT101 Instructions Inquiry' form within the Futura Bank interface. The form is titled 'MT101 Instructions Inquiry' and includes a back arrow and a search icon. The form fields are as follows:

- Receiver BIC Code**: A text input field.
- Lookup SWIFT Code**: A link to a separate page.
- Host Reference Number**: A text input field.
- Customer Reference Number**: A text input field.
- Execution From Date**: A date picker with a calendar icon and a 'Required' label.
- Execution To Date**: A date picker with a calendar icon and a 'Required' label.

At the bottom of the form, there are two buttons: **Search** and **Reset**. The interface also features a top navigation bar with the Futura Bank logo and a search bar, and a bottom right corner with a chat icon.

- c. Click  **Download** to download message in the pdf format.

OR

Click on the **Host Reference Number** link to view the MT101 Instructions Inquiry details. The **MT Instruction Details** screen appears.

12.1.2 MT101 Instructions Inquiry – Details

The MT101 Instructions Inquiry Details screen displays additional details of a specific MT101 instruction, which includes the General Information (Sequence A) and the Transaction Entries (Sequence B). This screen can be accessed through the MT101 Instructions Inquiry Summary screen by clicking on the transaction reference number hyperlink of a specific instruction record.

To view details of a MT101 instruction:

1. Navigate to the **MT101 Instructions Inquiry** screen.
2. Enter one or more search criteria.
3. Click **Search**.
The system lists all the MT101 Instructions raised.
4. Click on the **Host Reference Number** link of the specific MT101 instruction record whose details you wish to view.
The **MT101 Instruction Details** screen appears with all the details of the MT101 Instruction.

MT101 Instruction Details

The screenshot shows the 'MT101 Instruction Details' screen in the Futura Bank application. The interface includes a header with the Futura Bank logo, a search bar, and a notification bell. The main content area is divided into two sections: 'General Information (Sequence A)' and 'Transaction Entries (Sequence B)'. The 'General Information' section displays fields for Receiver Bank (BOMLA EADXXX), Reference Number (2419001339805000), Requested Execution Date (5/15/2024), and Ordering BIC (CITIAEADXXX). The 'Transaction Entries' section has expand/collapse controls and lists details for 'Transaction 1', including Reference Number, Credit Account Number, Debit Account Number, Transaction Amount (€11.00), Correspondence Charges (Shared), and Beneficiary Address (21, Park Avenue, M G road South brook, Los Angeles, fds). It also shows the Pay Via Swift Code (DEUTDEFFXXX) and includes 'Cancel' and 'Back' buttons at the bottom.

Field Description

Field Name	Description
General Information (Sequence A)	
Receiver Bank Code	The BIC code of the receiver's bank. Click on the  icon to view additional bank details.
Reference Number	The reference to the entire message assigned by the user.

Field Name	Description
Requested Execution Date	The date on which the MT101 Instruction is scheduled to execute.
Ordering BIC	<p>The ordering BIC code of the receiver's bank.</p> <p>Click on the ⓘ icon to view additional bank details.</p>
Account Service Institution (Swift)	Option provided if the account to be debited belongs to bank other than the receiver bank.
Transaction Entries (Sequence B)	
This section displays the transaction entries as fetched from the host system. Following details are displayed for each transaction:	
Reference Number	The reference number assigned to the transaction by the host system.
Credit Account Number	The creditor's account number
Debit Account Number	The debtor's account number
Transfer Amount	<p>The currency and amount of the transaction.</p> <p>Click on the ⓘ icon to view the F/X details.</p>
Initiated On	The date on which the transaction has been initiated.
Correspondence Charges	Any charges that were involved in the transfer.
Click > icon adjacent to transaction to view the details of the specific transaction. The following field appears when expanding the transaction.	
Beneficiary Address	Displays the payee address.
Pay Via Swift	<p>Displays the BIC code of the creditor's bank.</p> <p>Click on the ⓘ icon to view bank details.</p>
Payment Details	The specific details about the transaction.
Instruction Code	The instructions used between the ordering customer and the account servicer.

Field Name	Description
Regulatory Reporting Code	User to select 'BENEFRES', to enter Residence of the payee customer. Whereas, 'ORDERRES' is to be selected to enter Residence of the ordering customer.
Regulatory Reporting Country	The address of payee or ordering customer based on the code selected.
Regulatory Reporting Information	Displays the Regulatory Reporting Information.

12.2 External Accounts

External accounts are accounts of our customers who are ordering the MT101 instruction. These accounts are held and serviced at the financial institution who receives the MT101 request from our bank or at the final account servicing institution. These accounts could also be owned by the ordering customer which the instructing customer has explicit authority to debit, for example, a subsidiary account.

12.2.1 Add External Account

This option allows users to add an external account. Users can add multiple accounts for ordering the MT101 instruction using this feature.

How to reach here:

Toggle menu > Payments > More Actions > External Account > Add External Account
OR

Search Bar > External Account – Add External Account

Add External Account

OR
Click **Reset** to clear the entered data.

12.3 MT101 Bilateral Agreement

The MT101 module facilitates the transfer of funds, domestically and/or internationally by sending SWIFT MT101 instruction to the user's bank. A bank can play one of 2 possible roles in an MT101 instruction:

- Executing Bank
- Forwarding Bank

Executing Bank Agreement

In this role, the MT101 instruction ends at the bank and it in turn leads the bank to initiate a payment (either a SWIFT or a local payment or an Within Bank transfer).

For this case, the bank needs to have an agreement in place with the sender bank.

12.3.1 Inbound Agreement

A corporate user can define the debit accounts for which the agreement is to be in place and also the sender banks from whom instructions can be accepted for execution purposes.

The agreement will have a time period defined during which it will be treated as a valid agreement.

The agreements initiated from OBDX will be stored in OBPM and therefore will be effective for incoming MT101 transactions that hit OBPM for the executing bank scenario.

How to reach here:

13. Positive Pay

An electronic authentication system called Positive Pay that will allow user to share the cheque details with the bank before the bank processes it. Positive Pay is a process to deter cheque fraud. A person issuing cheques enters details of the cheques into the system. The details get verified when the issued cheque circles back to the issuer's bank for clearing. Any discrepancy in the data cheque data entered on the system and the actual cheque received will result in payment being declined.

Pre-requisites:

Transaction access is provided to the **corporate** user.

13.1 Add Positive Pay

This option allow user to create Positive Pay request for the issued cheques. When the cheque is presented to the bank for payment via CTS Clearing, the bank will compare the instrument details received against the details user send.

How to reach here:
