# 1. Preface

## 1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

## 1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

## 1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### **Access to Oracle Support**

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## 1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## 1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## 1.7 **Screenshot Disclaimer**

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

## 1.8 **Acronyms and Abbreviations**

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

<b>Abbreviation</b>	<b>Description</b>
<b>OBDX</b>	Oracle Banking Digital Experience

## 3. Wealth Management

Wealth Management or Investment Management is an important offering in a bank's product bundle. Wealth management services offered by banks usually involve risk profiling a client and recommending investments that suit the risk profile. Investments could be in multiple instruments like Mutual Funds, Equity shares, Bonds, and so on. Performance of these investments are regularly tracked.

OBDX Wealth Management functionality supports the opening of an investment account, risk profiling, mutual fund order placement and tracking of their performance.

---

**Note:**

1) OBDX fully depends on integration with the mutual fund processor to provide data for all the functionality such as, fund information, order capture, order processing, funds and portfolio performance, and so on.

2) In application Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.

---

### Features Supported In the Application

The Wealth Management module of the application supports the following features:

- Open Investment Account
- Risk Profiling
- Purchase Mutual Funds
- Redeem Mutual Funds
- Switch Mutual Funds
- Order Status
- Investment Details
- Transaction Report
- Capital Gain Report
- Dividend Report

### 3.1 Overview Widget

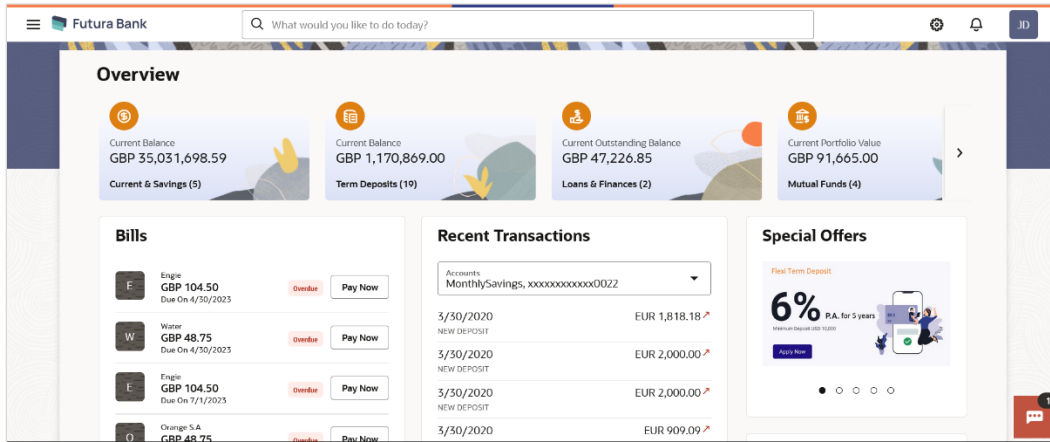

The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Mutual Funds. It is a container and user can scroll from left to right, right to left. On clicking on any account type record, the widget displays details specific to that account type. One such example is that of Mutual Funds. The widget displays the total count of investment accounts that the customer holds with the bank along with the total invested amount, the current total portfolio value as well as the amount of profit/loss.

On selection of account type Mutual Funds, details of the investment accounts that the customer holds with the bank with the bank are displayed on next page. Click on widget allow user to navigate to the overview/ dashboard page displays an overview of the customer's investments with the bank as well as quick links to various wealth management transactions offered to the customer.

Note: The Overview widget is available on both desktop and mobile (responsive) view.

### How to reach here:

*Dashboard > Overview Widget > Mutual Funds*

## 4. Investments Overview

Wealth Management overview provides you a snapshot of your mutual fund portfolio at a given point of time.

The overview/ dashboard page displays an overview of the customer's investments with the bank as well as quick links to various wealth management transactions offered to the customer.

Note:

> If there has been a profit since the previous day, the amount will be displayed in green with a triangle pointed upwards in green.

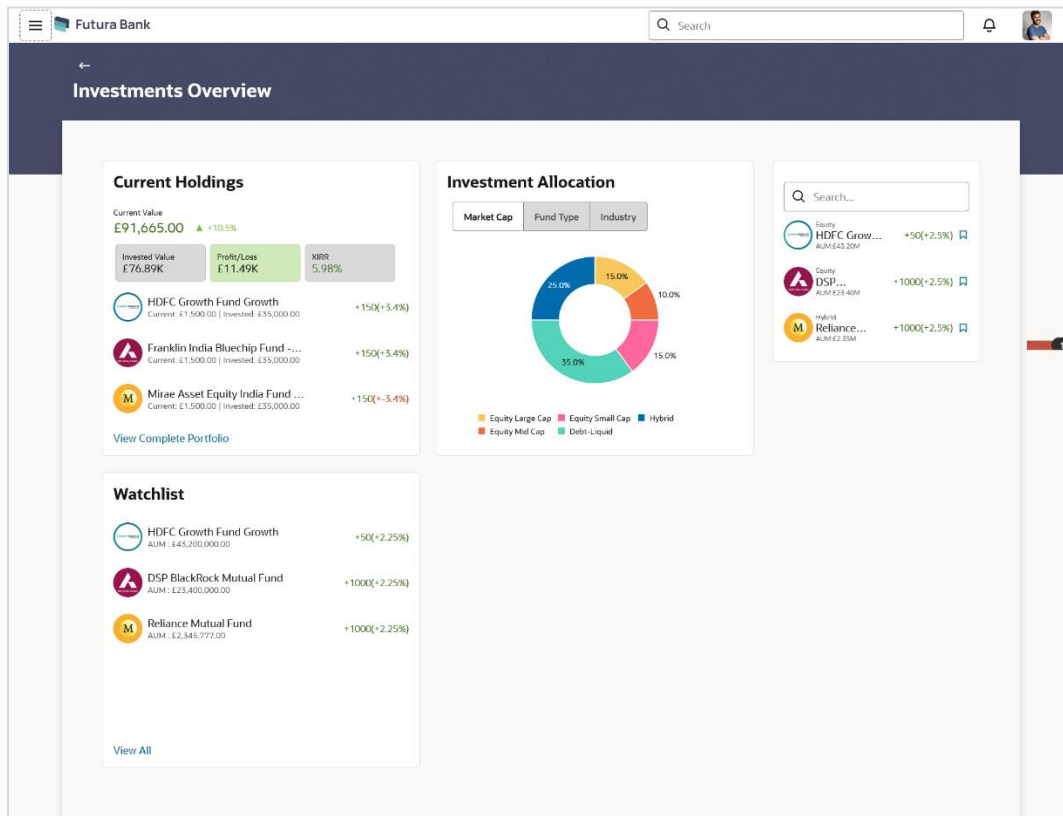

> If there has been a loss since the previous day, the amount will be displayed in red with a triangle pointed downwards in red.

**How to reach here:**

*Dashboard > Toggle Menu > Menu > Wealth Management > Overview*  
*OR*

*Search bar > Wealth Management - Wealth Management Overview*

### Investment Overview

**The Wealth management Overview screen features the following:**

#### **Current Holdings widget**

This widget allows the user to view the invested value, current value, and individual profit/loss for each product. It shows details of user's current holdings in Mutual Funds.

This widget allows the user to view the following:

- Total money invested in Mutual Funds
- Current market value of the investments done
- Change in the market value of investments over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- Profit/ Loss amount for the above investments
- Change in the profits figure over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- XIRR- Rate of return in percentage for the above investments
- Change in rate of returns figure over previous value, if the change is positive it will be in **Green** color and **Red** color if change is negative
- The realized gain/ loss figure for the above investments

Click on the **View Complete Portfolio** link to view the investment details. This redirects to the **Investment Details** screen.

#### **Investment Allocation widget**

The investor/ user can view the detailed summary of all his investment accounts.

Doughnut chart displays the distribution of investment basis various fund categories along with the legends. Similarly, hovering the mouse over a category on the doughnut chart, the user can view details for each category. The investment allocation is visible based on three different categories:

- Market Cap – Can view user's investment allocation graph as per the market capitalization. The bifurcation is among Large Cap, Mid Cap and Small Cap. The investment details are split and shown based on whether it falls within large, mid or small market capitalization.
- Fund Type – Can view user's investment allocation graph as per the type of fund. The bifurcation is among Equity Funds, Debt Funds, Hybrid Funds etc. The investment details are split and shown based on whether it falls within specific type of fund.
- Industry – Can view user's investment allocation graph as per the industry. The bifurcation is among Finance, IT, Energy etc. The investment details are split and shown based on whether it falls within specific industry.

#### **Search Funds widget**

This widget allows investor/ user to search for funds based on the asset name. It lists all the top performing funds on top followed by the other funds. Each fund shows details like Tags, Asset Name, AUM Value, NAV (%), Watchlist Option. The user can select a particular fund and add it to his/her watchlist by selecting the watchlist option. On watchlisting a specific fund, the fund is added in the **Watchlist Funds** widget.

### **Watchlist widget**

This widget allows user to view the funds watchlisted by him/her from the search funds widget. On watch listing a specific fund, the fund is added in the **Watchlist Funds** widget. Click on the **View All** link which will navigate to another screen where all the funds listed.

---

## 5. Start Investing

This module allows the user to start investments using their CASA balances.

This module includes following transactions:

- Open Investments Account
- Risk Profiling

### 5.1 Open Investments Account

Investment Accounts are the placeholders for mutual fund investments of a bank customer. They are internal to the bank and unlike current & savings accounts have no real significance outside the bank. Opening of the investment account is a mandatory for user to start transacting in mutual funds in OBDX. Currently OBDX supports opening of investment accounts in "Single" holding mode only.

The investment account involves transaction of financial assets, mutual funds etc.

Following are the steps involved as part of opening of investment account:

- Personal details of the user
- Contact details of the user
- Specifying the nominations for mutual fund investments made through the investment account.
- Specifying the Foreign Account Tax Compliance Act (FATCA) related details
- Additional Details

---

**Note:** The maximum number of investment accounts a user can open is configurable. If user tries to open investment account beyond the maximum allowed limit he will get a message "You already have the maximum number of investment account allowed. Please visit our branch or talk to your relationship manager for further queries." on the Open Investment Account screen.

---

#### **Pre-Requisites**

- Transaction access is provided to the Retail User.

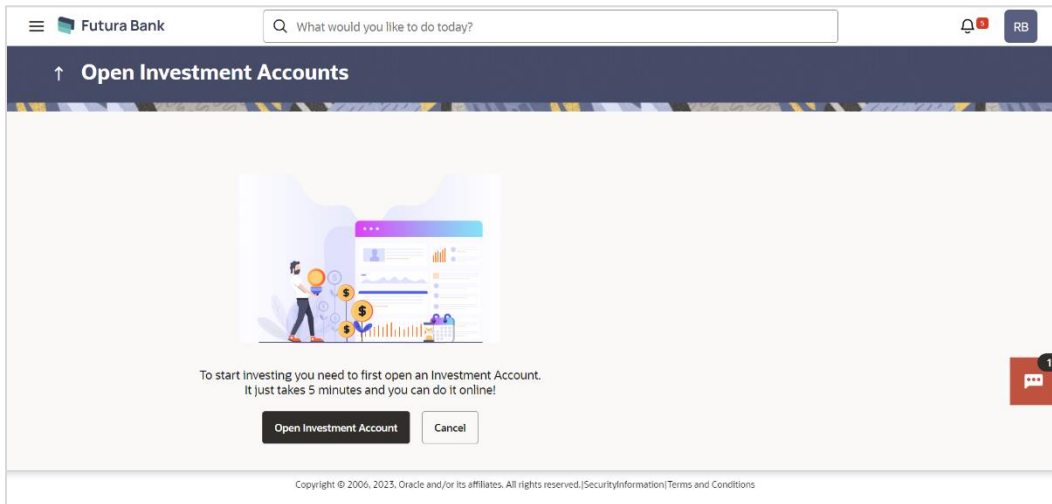

#### **How to reach here:**

*Dashboard > Toggle Menu > Menu > Wealth Management > Start Investing > Open Investments Account*

*OR*

*Dashboard > Portfolio Summary widget kebab menu > Open Another Investments Account*

## Open Investments Account

### To open an investment account:

1. In the **Open Investments Account** screen, click **Open Investment Account**. The **Open Investments Account - Personal Details** screen appears.  
OR

47. The success message of account opening appears.
48. Click the **Open Another Account** link if you want to open another new investment account.  
OR  
Click **Purchase Mutual Fund** link to purchase a fund.

OR

Click **Wealth Dashboard** to go to the Wealth Management Dashboard screen.

## 5.2 **Risk Profiling**

Banks/ investment advisers have a practice of doing a “Risk Profile” of the prospective investor. A risk profile is an evaluation of an investor's attitude and ability to take risks. Risk profiling involves the assessment of investor psychological level with the volatility of capital markets. A risk profile is important to determine which asset should be allocated to an investor's portfolio.

A risk profiling involves the series of questionnaire and based on the answers assign a risk profile to the investor. The tolerance to risk is reflected in the “Asset Allocation” that the bank recommends to the investor. Aggressive investors who have high tolerance to equity usually have a high percentage of Equity in their allocation, conservative investors tend to have more of debt. The MF portfolio that the investor invests has to match his/ her asset allocation, which is based on risk profile.

---

**Note:** The risk profile questionnaire, recommended asset allocation will be fetched from mutual fund processor. OBDX will display the questionnaire, capture the answers and pass them on to the mutual fund processor. Further, the computation of risk profile based on user provided answers will happen at mutual fund processors and will be communicated to OBDX which will display it to the user.

---

### **Pre-Requisites**

- Transaction access is provided to the Retail User.

### **Features Supported In Application**

The module supports the following features:

- Risk Profile Assessment
- Edit Risk Profile

OR  
Click **Back** to navigate back to the previous screen.
5. The success message of submitting the request appears.  
Click **Ok** to complete the transaction.

---

## 6. Place Orders

This module allows the investor/ retail user to place orders related to their investments. Investor can purchase mutual funds, redeem mutual funds, switch between two different schemes and can view the statuses of their orders.

This module includes following transactions:

- Purchase Mutual funds
- Redeem Mutual funds
- Switch Mutual funds
- Order Status

### 6.1 Purchase Mutual Funds

Mutual Funds (MFs) are investment instruments fund collects money from investors and invests the money on their behalf. It is one of the top investment choices for retail investors that allows the investors to view and manage the professionally managed portfolios of instruments like equity shares, bonds, insurance etc. Some mutual funds are also traded in stock exchanges - these are called Exchange Traded Funds (ETFs). Mutual Funds are managed by a fund manager. The investor share of investment is called as "Units" that represents the ownership of the investor in the scheme.

The investor make the purchase of Mutual fund units, or shares, based on the fund's current market value of the fund's investment portfolio which is termed as net asset value (NAV) per share/ NAVPS. A fund's NAV is derived by dividing the total value of the securities in the portfolio by the total amount of shares outstanding.

The investor (retail user) can purchase single or multiple mutual funds in one go and can place orders to be executed same day or at any future date. Further customer can place one time lump sum order or a recurring order called Systematic Investment. The investor can buy mutual funds from their existing schemes as well as invest on new schemes. The OBDX allows the user (investor) to view the list of recommended funds and top purchase funds so that he can take a decision of buying the funds.

#### **Pre-Requisites**

- Transaction access is provided to the Retail User.

#### **Features Supported In Application**

The module supports the following features:

- Purchase Funds - New
- Purchase Funds - Existing

## How to reach here:

Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Purchase Mutual Funds

OR

Dashboard > Overview Widget > Mutual Funds > Investment Account Kebab menu > Purchase Mutual Funds

OR

Access through kebab menu of the **Place Orders** transactions

### 6.1.1 Purchase Funds - New

This option allows the retail investor/ user to place purchase orders either one time or Systematic Investment Plan (SIP) or Standing Instruction (SI) type for buying one or more mutual fund schemes. In SIP the dates of investment and frequencies are pre-decided by the fund house therefore an SIP is a one-time instruction to the fund house to place recurring orders. SI on the other hand is a feature provided by the bank to mimic the SIP but with dates & frequency chosen by the investor. Here the order is not a one-time instruction/order but multiple orders placed one time by investor.

#### To purchase the new mutual funds:

1. In the **Search for new mutual fund to purchase or pick one of your existing funds** field, select the **New** option.

#### Purchase Mutual Funds – New Funds

**Purchase Mutual Funds**

### Field Description

Field Name	Description
------------	-------------

#### Fund Details

**Search for new mutual fund to purchase or pick one of your existing funds**

Options for the user to select a new mutual fund to purchase or to purchase additional units of a scheme he already has invested in.

The options are:

- New
- Existing

Field Name	Description
<b>Investment Account</b>	The investment account to which the current purchase order belongs.
<b>Risk Profile</b>	The risk profile of the selected investment account. For more information on Risk Profile, refer <b>Risk Profiling</b> section.
<b>Scheme Name</b>	Name of the fund/ scheme which user intends to purchase for current purchase order.
<b>Purchase Type</b>	Type of purchase order user wishes to place. The options are: <ul style="list-style-type: none"> <li>• Onetime - This type of purchase order allows the retail investor placing order for one time lump sum purchase.</li> <li>• SIP - A SIP (Systematic Investment Plan) is an investment vehicle that allows the users to invest small amounts periodically or at regular frequency instead of lump sums. Dates and frequency of investment are specified by the fund house.</li> <li>• SI - Standing Instruction allows the users to set instructions for purchasing the mutual funds at regular intervals. Dates and frequency of investment are of customer's choice.</li> </ul>

#### Recommended Funds/ Top Purchased Funds

<b>Scheme Name</b>	Name of the funds/ scheme as recommended by the application/ or that are mostly purchased by the investors.
<b>Latest Price</b>	The current price of the recommended funds/ top purchased funds.
<b>Returns in% (1 Month/ 3 Months/ 1 Year/ 3 Year/ 5 Year)</b>	The past rate of return that the fund has earned (recommended / top purchased) over a period.

2. From the **Investment Account** list, select the investment account to which the current purchase order belongs.
3. From the **Scheme Name** list, select the fund/ scheme which user wants to purchase.
4. Repeat the steps 6 to 11 of **Purchase Funds - New** section.

## 6.2 Redeem Mutual Funds

Mutual Funds (MFs) can be redeemed or sold any time by the investors. Open ended funds usually can be sold at any point of time compared to closed ended funds that have a fixed investment period

Customers can specify any of the following for redeeming the funds:

- Whether the redemption is for a specific number of units & if so the number of units to be redeemed or
- Whether the redemption is for all units currently held ( the user can view the balance units held) or
- Whether the redemption is for a specific amount & if so the amount to be redeemed or
- Whether the order is for a systematic withdrawal plan

### **Pre-Requisites**

- Transaction access is provided to the Retail User.

### **Features Supported In Application**

The module supports the following features:

- Search Funds to be Redeemed
- Search Funds to Redeem - SWP

### **How to reach here:**

*Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Redeem Mutual Funds*

*OR*

*Dashboard > Overview Widget > Mutual Funds > Investment Account Kebab menu > Redeem Mutual Funds*

*OR*

*Access through kebab menu of the **Place Orders** transactions*

Click **Go to Dashboard** to navigate to the dashboard.

## 6.3 Switch Mutual Funds

Switching of funds means moving the money from an investment scheme to another investment scheme. Investor can switch between two different schemes i.e. money is taken out of fund A (a sell order) and invested in fund B (a purchase order). This way a switch, order results in two transactions a purchase & a sale. Fund A & Fund B in the above example could be from the same fund house or from different fund houses.

Switch Mutual Funds screen allows the user to switch out the funds either at one time, systematic order plan or Purchase + systematic order plan methods.

### **Pre-Requisites**

- Transaction access is provided to the Retail User.

### **Features Supported In Application**

The module supports the following features:

- Switch Funds - One Time
- Switch Funds - STP
- Switch Funds - PSTP

### **How to reach here:**

*Dashboard > Toggle Menu > Wealth Management > Switch Mutual Funds*

*OR*

*Dashboard > Overview Widget > Mutual Funds > Investment Account Kebab menu > Switch Mutual Funds*

*OR*

*Access through kebab menu of the **Place Orders** transactions*

### 6.3.1 Switch Funds - One Time

This option allows the retail investor/ user to place the one time lump sum switch order. The user can specify whether the order is for Now i.e. same business day or for later that is a future date. The user can also select the option to switch by Units/ All Units or Amount and can specify the units or amount to be switch in.

**To switch the mutual funds:**

#### Switch Funds - One Time

The screenshot displays the 'Switch Mutual Funds' interface on the Futura Bank website. The interface is divided into two main sections: 'Fund Details' and 'Order Details'. The 'Fund Details' section includes a dropdown for 'Investment Account' (selected: Bruce Wayne.xxxxxxxxxxxxx0023.SINGLE), a 'Risk Profile' of 'Moderate', a 'Switch Type' section with 'One time' selected, and a 'Switch out Scheme (Source Fund)' section with 'Fund House' as 'HDFC Mutual Fund CC1' and 'Scheme Name' as 'HDFC Growth Fund Growth'. Below this, 'Fund Details' shows 'Scheme Suitability' as 'No' and 'Folio' as '126245658'. At the bottom, there are 'Next' and 'Cancel' buttons. The footer contains copyright information: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved [SecurityInformation]Terms and Conditions'.

14. Select the **I agree to the Terms and Conditions** check box to continue to purchase the funds.  
Click the **Terms and Conditions** link to view the terms and conditions.  
OR  
Click the **Switch Another Fund** link if you want to switch another fund.  
The **Switch Fund** screen appears.
15. Click **Submit**.  
OR  
Click **Cancel** to cancel the transaction.  
OR  
Click **Back** to navigate back to the previous screen.  
OR  
Click **Back to Wealth Overview**, to navigate to the Wealth Management dashboard.
16. The **Review** screen appears. Verify the details and click **Confirm**.  
OR  
Click **Cancel** to cancel the transaction.  
OR  
Click **Back** to navigate back to the previous screen.  
OR  
Click **Back to Wealth Overview**, to navigate to the Wealth Management dashboard.
17. The **Verification** screen appears if the transaction is configured for Two Factor Authentication. The user has to pass the 2 factor authentication, before he can proceed. 2 factor authentication (OTP/ Security question/ Soft Token) will be as per the setup done by system administrator.
18. The success message along with the reference number of the order appears.  
Click the **Purchase Fund** to purchase the fund.  
OR  
Click the **Switch Another Fund** to switch another fund.  
OR  
Click the **Redeem Fund** to redeem another fund.  
OR  
Click the **Wealth Dashboard** to navigate to the **Wealth Management Dashboard** screen.

### 6.3.2 Switch Funds - STP ( Systematic Transfer Plan)

This option allows the retail investor/ user to place a systematic transfer plan (STP) for the switch order. In Systematic Transfer Plan, investor places a onetime instruction to switch funds - a specified some of money is switched from source scheme to destination scheme at a set interval. Typically in financial plans money in debt funds is switched into an equity fund regularly to mimic an SIP.

In STP the user needs to specify the source and destination schemes belonging to the same fund house, source and destination folios (can ask for a new folio for destination scheme), start date of switches, no. of installments & frequency, end date of switches to be derived by the system and displayed and Amount/ units to be switched per installment.

To switch the mutual funds:

## Switch Funds - Systematic Transfer Plan (STP)

The screenshot displays the 'Switch Mutual Funds' interface on the Futura Bank website. The interface is divided into two main sections: 'Fund Details' and 'Order Details'. The 'Fund Details' section is currently active, showing the 'Investment Account' as 'Bruce Wayne-xxxxxxxxxxxx0023-SINGLE' with a 'Risk Profile' of 'Moderate'. The 'Switch Type' is set to 'Systematic Transfer Plan'. The 'Switch out Scheme (Source Fund)' section shows the 'Fund House' as 'HDFC Mutual Fund CC1' and the 'Scheme Name' as 'HDFC Growth Fund Growth'. A 'Fund Details' section at the bottom shows 'Scheme Suitability' as 'No' and 'Folio' as '126245658'. 'Next' and 'Cancel' buttons are located at the bottom of the form.

## Field Description

10. In the **Switch By** field, select the appropriate switch option.
  - a. If you select **Units** option, enter the number of units to be switched in the **Units** field.
  - b. If you select **Amount** option, enter the amount to be switched in the **Amount** field.
11. In the **Start Date** field, select the appropriate start date for STP.
12. From the **Installments** list, select the STP installments.
13. Repeat steps 9 to 13 of **Switch Out Funds - One Time** section.

### 6.3.3 Switch Funds – PSTP (Purchase – Systematic Transfer Plan)

This option allows the retail investor/ user to place a purchase - systematic transfer plan for the switch order. In Purchase- Systematic Transfer Plan or PSTP, investor purchases a debt (usually) fund and also gives instructions switch the debt fund purchased into an equity fund. PSTPs are variations offered by banks/ investment advisers and hence fund houses treat them as two different orders – Purchase order and a switch order

In PSTP the user can place a purchase order for a fund and simultaneously place a switch order with the fund being purchased as the source fund and a different fund being the destination fund.

**To switch the mutual funds:**

#### Switch Funds - PSTP

The screenshot displays the 'Switch Mutual Funds' interface on the Futura Bank website. The page is titled 'Switch Mutual Funds' and includes a search bar at the top. The main form is divided into two tabs: 'Fund Details' (active) and 'Order Details'. The 'Fund Details' tab contains the following sections:

- Investment Account:** A dropdown menu showing 'John Doe xxxxxxxxxxxx9768- SINGLE' with a risk profile of 'Moderate'.
- Switch Type:** Radio buttons for 'One time', 'Systematic Transfer Plan', and 'Purchase and Systematic Transfer Plan' (selected).
- Initial Purchase Scheme:** Radio buttons for 'New' (selected) and 'Existing'.
- Fund House:** A dropdown menu showing 'HDFC Mutual Fund CC1'.
- Fund Category:** A dropdown menu showing 'Equity'.
- Scheme Name:** A dropdown menu showing 'HDFC Growth Fund Growth'.
- Current Unit Price:** Displayed as 'GBP 50'.
- Scheme Suitability:** Displayed as 'No'.
- Folio:** A dropdown menu showing '267366619'.
- Dividend:** Radio buttons for 'Payout' and 'Reinvest' (selected).
- Pay From:** A dropdown menu showing 'xxxxxxxxxxxx0047'.
- Amount:** A text input field showing 'GBP 1,200.00'.
- Min. Amount:** Displayed as 'GBP 500'.
- Cut Off Period:** Displayed as 'Time : 12 20 PM Date : 17 Oct 2023'.

At the bottom of the form, there are two buttons: 'Purchase' and 'Cancel'. The footer of the page contains the copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. [Security Information] Terms and Conditions'.

## Field Description

Field Name	Description
<b>Fund Details</b>	
<b>Investment Account</b>	The account number to which the current switch order belongs.

13. In the **Start Date** field, select the appropriate start date for SWP.
14. From the **Installments** list, select the STP installments.
15. Repeat steps 9 to 13 of **Switch Out Funds - One Time** section

## 6.4 Order Status

Order status screen allows a retail user to search and view mutual funds orders in various statuses. The user can view the pending execution order across investment accounts and also can edit and delete the mutual fund orders that are not yet executed.

### Pre-Requisites

- Transaction access is provided to the Retail User.

### Features Supported In Application

The module supports the following features:

- Search Mutual Funds orders
- Delete Mutual Funds orders

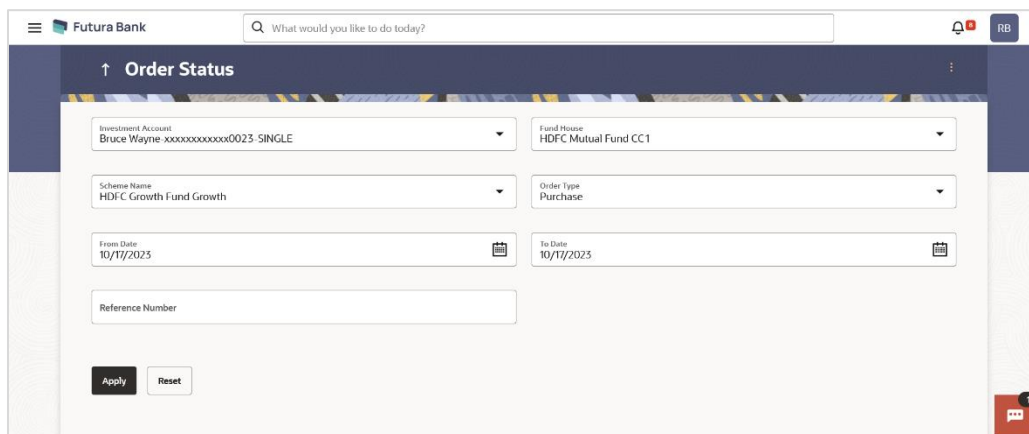

### How to reach here:

*Dashboard > Toggle Menu > Menu > Wealth Management > Place Orders > Order Status*  
*OR*  
*Dashboard > Overview Widget > Mutual Funds > Investment Account Kebab menu > Order Status*  
*OR*  
*Access through kebab menu of the **Place Orders** transactions*

### 6.4.1 Orders Status - Search

Using this option, a retail user can search and view details of the mutual fund orders. Default search is available with Investment account and From Date and To Date, whereas user can be searched by provided other details also.

### Orders Status – Search Criteria

The screenshot displays the 'Order Status' search interface within the Futura Bank application. The header includes the Futura Bank logo, a search bar with the placeholder text 'What would you like to do today?', and a user profile icon labeled 'RB'. The main section is titled 'Order Status' with an upward arrow icon. It contains several search criteria fields: 'Investment Account' (set to 'Bruce Wayne xxxxxxxxxxxxxxx0023 SINGLE'), 'Fund House' (set to 'HDFC Mutual Fund CC1'), 'Scheme Name' (set to 'HDFC Growth Fund Growth'), and 'Order Type' (set to 'Purchase'). Below these are 'From Date' and 'To Date' fields, both set to '10/11/2023', each with a calendar icon. A 'Reference Number' field is also present. At the bottom, there are 'Apply' and 'Reset' buttons. A red notification icon with a '1' is visible in the bottom right corner.

## Field Description

Field Name	Description
<b>Search</b>	
<b>Investment Account</b>	The investment account for which order status search is to be done.
<b>Fund House</b>	Allows the user to search based on fund house.
<b>Scheme Name</b>	Allows the user to search based on orders placed in a specific scheme.
<b>Order Type</b>	Allows the user to search based on specific order type.
<b>Reference Number</b>	Allows the user to search based on reference number of the order.
<b>From Date - To Date</b>	Allows the user to search based on specific start date and end date. Orders placed between the start and end date matching the other filter criteria will be fetched.

### To search the mutual funds order:

1. From the **Investment Account** list, select the account number for order status search.
2. From the **Fund House** list, select the fund house for order status search.
3. From the **Scheme Name** list, select the scheme name for order status search.
4. From the **From Date** and **To Date** list, select the appropriate dates for order status search.
5. In the **Reference Number** field, enter a transaction reference number if you wish to view a specific transaction record.
6. Click **Apply** to view orders status based on the defined criteria.  
The search results appear on the **Order Status** screen based on the search parameters.  
OR

## 8. Reports

Using this option, retail users can generate various investment related reports. Application provides an option to provide the search parameters and download the reports.

Reports module includes following reports:

- Capital Gains Report
- Dividend History report
- Transaction Report

### 8.1 **Capital Gains Report**

The profits or losses that an investor gets when he/she sells Mutual Fund units are called “Capital Gains/ Losses”. There are two types of capital gains – short term & long term. For example, In India gains /losses any equity investment sold within 12 months of purchase are treated as short-term gains/ losses. If the gap between purchase and sale is more than 12 months it's called Long term capital gains/ losses. Short term gains tax rates tend to be higher compared to long-term capital gains taxes.

The retail user/ investor holding the mutual funds can download the Capital Gain report for the mutual funds that the user had transacted in for the current and past financial years.

The user can search the transactions and download the report.

#### **Pre-Requisites**

- Transaction access is provided to the Retail User.

#### **Features Supported In Application**

The module supports the following features:

- Search Transactions and Download the report

#### **How to reach here:**

*Dashboard > Toggle Menu > Menu > Wealth Management > Reports > Capital Gains Report*

## Capital Gains Report

The screenshot shows the 'Capital Gains Report' search interface in the Futura Bank system. The form includes the following fields:

- Investment Account:** Bruce Wayne-xxxxxxxxxxxx0023-SINGLE
- Financial Year:** 2021-2022
- Fund House:** HDFC Mutual Fund CC 1
- Scheme Name:** HDFC Growth Fund Growth
- Capital Gain/Loss Type:** (Empty dropdown)

Buttons: Search, Cancel, Clear

## 8.2 Dividend Report

Dividend History report provides the details of the dividend transactions - both paid out and re-invested for the mutual funds done by the user who holds the mutual funds.

The user can search the transactions and download the report.

### Pre-Requisites

- Transaction access is provided to the Retail User.

### Features Supported In Application

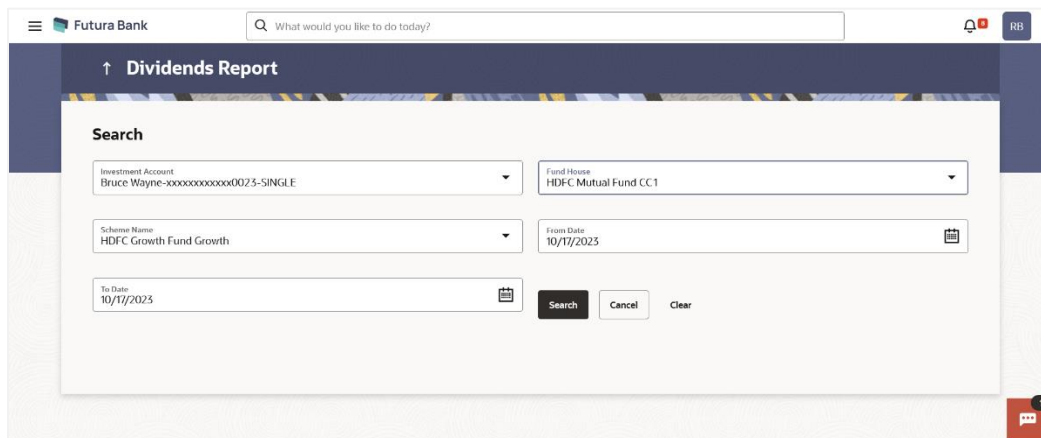

The module supports the following features:

- Search and download Dividend History Report

### How to reach here:

*Dashboard > Toggle Menu > Menu > Wealth Management > Reports > Dividend Report*

### Dividend Report

The screenshot shows the 'Dividends Report' search interface within the Futura Bank application. At the top, there's a search bar with the placeholder text 'What would you like to do today?'. Below this, the 'Dividends Report' title is displayed. The search form contains several fields: 'Investment Account' (with a dropdown menu showing 'Bruce Wayne-xxxxxxxxxxxx0023-SINGLE'), 'Fund House' (with a dropdown menu showing 'HDFC Mutual Fund CC.1'), 'Scheme Name' (with a dropdown menu showing 'HDFC Growth Fund Growth'), 'From Date' (with a date picker showing '10/17/2023'), and 'To Date' (with a date picker showing '10/17/2023'). At the bottom of the form, there are three buttons: 'Search', 'Cancel', and 'Clear'. The interface is clean and modern, with a dark blue header and a light gray background for the search form.

### Field Description

Field Name	Description
<b>Search</b>	
<b>Investment Account</b>	The investment account for which dividend search is to be done.
<b>Fund House</b>	Allows the user to search based on fund house.
<b>Scheme Name</b>	Allows the user to search based on orders placed in a specific scheme.

Field Name	Description
<b>From Date - To Date</b>	Allows the user to search based on specific start date and end date of the dividend transaction. Dividend transactions between the start & end date matching the other filter criteria will be fetched.

#### To search and download the dividend report detail:

1. From the **Investment Account** list, select the account number for dividend search.
2. From the **Fund House** list, select the fund house for dividend search.
