1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 Screenshot Disclaimer

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Introduction

A credit card is a plastic card issued by a financial institution that involves the card holder and the financial institution entering into an agreement that the card holder will pay the institution back in the future so that they can purchase something at present. The financial institution lends the card holder the money that they use to make the purchase and expects that the user pays them back over a period of time (generally a month). The card holder is required to pay the entire amount back including a fee or interest charge if the amount is not paid back in full by the due date.

Credit cards are used to make purchases online or at a point of sale (POS). The card holder's borrowing limit is pre-set based on the individual's credit rating.

The application enables users to manage cards effectively and efficiently. Through the credit card module, a user is able to perform a variety of functions such as viewing credit card details and statements, applying for automatic and adhoc payment of credit card dues, initiating service requests such as request for a change in card billing cycle, request for PIN etc. Additionally the user can also apply for a new credit card from the credit card dashboard. A facility is also provided to view the details of an add-on card issued under primary card and to perform a variety of functions. (An add-on credit card is an additional credit card that is issued under a primary card. The card can be issued to family members, parents, spouse or children of the primary card holder depending on the terms and conditions of the primary card).

This user manual covers all the services provided in the system with regards to credit cards.

Features Supported in Application:

The retail credit card module supports the following features:

- Credit Card Widget
- View Credit Card Details
- Credit Card Bill Payment
- Manage Auto Pay Instruction
- View and Change Card Bill Cycle
- Update Cash and Credit Limits
- Request PIN
- Reset PIN
- Block/Unblock Credit Card
- Cancel Credit Card
- Request for Add-On Card
- View Inactive/Blocked/Cancelled Credit Cards
- Transactions
- View and Redeem Rewards Points
- Raise Dispute against transaction
- Upgrade Credit Card
- Activate Credit Card

Prerequisites

- Transaction access is provided to retail user.
- Credit cards are maintained in the credit card host system under a party Id mapped to the user.
- User has valid user credentials to login into OBDX.

Note: In application

1) Account searchable drop-down will allow user to search the account number basis on the Account Number, Account Name, Account Currency or Branch Code.

2) Bank can configure the fields to be shown as additional values in the accounts drop-down.

2.1 Overview Widget

The retail dashboard page displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards, and Investments. It is a container and user can scroll from left to right, right to left. On clicking on any account type record, the widget displays details specific to that account type. One such example is that of Credit Cards on summary page. The widget displays information such as the total count of credit cards that the customer holds, the total and minimum amounts due across all credit cards as well as the total available credit limit available across all credit cards.

On the summary page, basic details of individual credit cards are displayed in cards that are displayed in the same manner as that of a physical credit card. Each card displays basic information of the card which comprises of the card number, the card product name, the name of the card holder, total amount dues, available credit limit, current outstanding, card type, Autopay register option, status etc. Each card also has a **More Actions** menu which enables the customer to quickly access related screens.

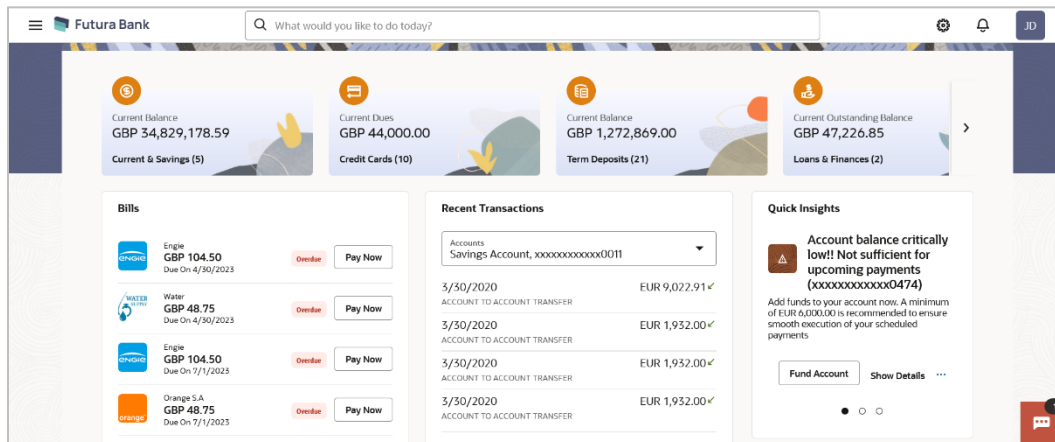

Note:

The **Overview** widget is available on both desktop and mobile (responsive) view.

If the user does not have any credit cards or the empty state screen, then the user is redirected to the origination flow, where they can apply for a new credit card.

How to reach here:

Dashboard > Overview Widget > Credit Cards card

3. Credit Cards List

The credit card list page offers users a comprehensive overview of all their credit cards held with the bank. Additional features include the ability to manage credit cards, block or unblock a card, apply for a new credit card, and view inactive cards.

All active credit cards associated with the user, including any add-on cards linked to the primary card, are displayed in a card format. Additionally, details such as the card number, cardholder name, card type, expiry date, and CVV are provided. Click on a specific card to view more detailed information about each card.

Note:

- 1) If the user does not have any credit cards or the empty state screen, then the user is redirected to the origination flow, where they can apply for a new credit card.
- 2) The Card images vary based on the type of card product and the card network provider.
- 3) The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Account Listing, which triggers Spends, Statement History, Block functionalities.

You can also perform the following actions on each of credit card:

- Credit Card Details
- Transactions
- Card Payment
- Request PIN
- Block / Unblock Card
- Add-On Card
- Auto Pay
- Reset PIN
- Cancel Card

How to reach here:

Dashboard > Overview widget > click on the Credit Cards card

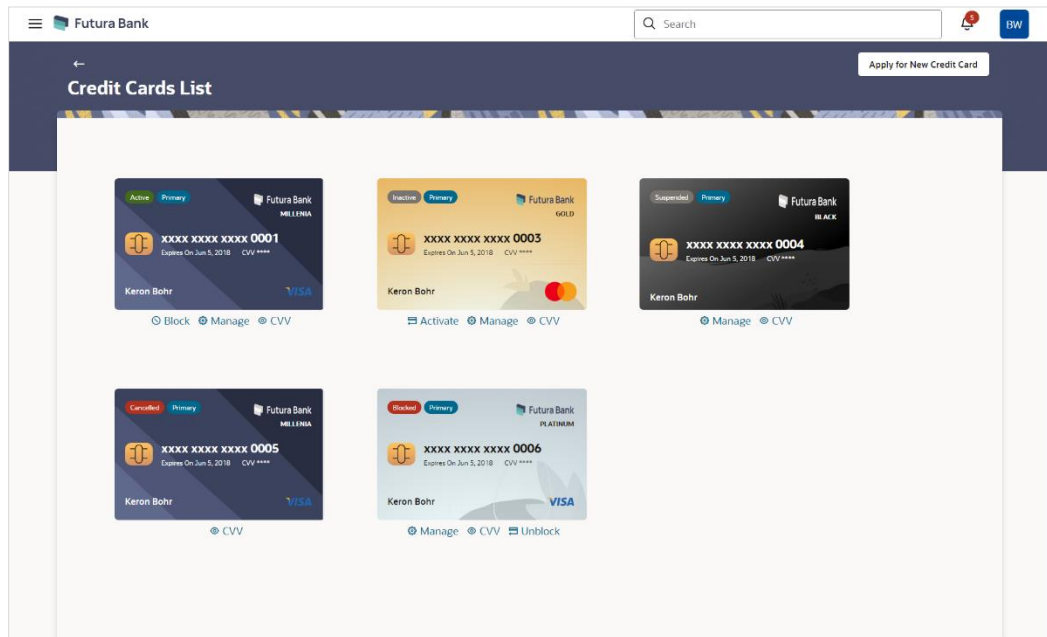

OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards

OR

Search bar > Credit Cards

Credit Cards List

Actions	<p>Displays the card related actions based on the card status.</p> <p>Following are the card related actions can be performed based on the card status:</p> <ul style="list-style-type: none"> • Manage • Block • Unblock • CVV • Activate • Add On (Count of Add On cards) <hr/> <p>Note: On clicking each option, the user is re-directed to the respective screen.</p> <hr/>
<ul style="list-style-type: none"> • Click on the Apply for New Credit Card button to apply for new credit card. The system redirects to the Product Offerings section of the bank portal page. OR Click on Debit Cards tab available on footer of the Credit Cards listing page to access the debit cards listing page. 	

3.1 Activate Card

User might need to activate a credit card in the following cases:

- A new card is issued to the user, which needs to be activated
- The card which was in Deactivate state is now ready for use.

While initiating a request to activate a card, the user is required to specify the reason for which the card is being activated.

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

How to reach here:

*Dashboard > Overview widget > click on the Credit Cards card > Credit Card List > click on the **Activate** link*

OR

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > click on the **Activate** link*

OR

*Search bar > Credit Cards > click on the **Activate** link*

To activate a deactivated card:

1. Navigate to the screen.
2. Click on the **Activate** button for the inactive card that needs to be activated. The **Activate Card** screen will appear.
3. .
4. From the **Credit Card Number** drop-down list, select credit **card** number whose billing date you wish to change.

Activate Card

The screenshot shows the 'Activate My Card' interface. At the top, there's a header with 'Futura Bank' and a search bar. Below the header, the title 'Activate My Card' is followed by a dropdown menu showing 'XXXXXXXXXXXX0006'. There are 'Cancel' and 'Submit' buttons. The main content area features a card image for 'John Snow' with 'Futura Bank PLATINUM' and 'VISA' branding. Below the card image, there's a warning icon and text: 'Activate your new credit card by specifying the reason for which the card is being activated.' This is followed by a 'Reason' dropdown menu set to 'New' and a 'Comment' text area with the placeholder 'activate the card'. At the bottom, there are tabs for 'Debit Cards' and 'Credit Cards'.

Field Description

Field Name	Description
Reason	<p>The user is required to specify the reason for which the card is being activated.</p> <p>The options are:</p> <ul style="list-style-type: none">• New• Deactivated
Comments	<p>The user can define any additional specifications as to the reason for which the card is being activated. This field is optional.</p>

5. From the **Reason** list, select appropriate reason for card activation.
6. In the **Comments** field, enter the comment for the card activation.
7. Click **Submit** to activate the card.
OR
Click **Cancel** to cancel the transaction.
8. The **Confirmation** popup appears, asking you to confirm the activation of the card.
 - a. Click **Confirm** to activate the card.
OR
Click **Cancel** to cancel the transaction.
9. The success message appears, along with the service request number.
10. Click **Transaction Details** to view the details of the transaction in read mode.
OR
Click **Card Details** to navigate to the **Credit Card Details** page of that card
OR
Click on the **Credit Cards** redirects to Credit Card List page.
OR
Click on the **Go to Dashboard** to navigate back to Dashboard page.

4. Credit Card Details

The user can navigate to the credit card details page by selecting any credit card displayed in the summary section of the credit cards widget.

The credit card details screen displays key information related to a credit card across multiple widgets, such as:

- **Relationship Credit Card:** Allows actions to be performed on the card.
- **Card Details:** Provides detailed information about the card itself.
- **Billed Transaction Tab:** Displays all billed transactions. Click on the **Show All Transactions** to view all the billed transactions.
- **Unbilled Transaction Tab:** Displays the transactions that have not yet been billed.
- **Payment History:** Displays the list of historical transactions performed on my credit card.
- **EMI widget:** Provides details on equated monthly installments.
- **Add On Cards:** Displays the list of add-on cards linked to the primary credit card.
- **Pre-qualified Offer:** Displays personalized offers for the user.
- **Spend Analysis:** Offers insights into the user's spending patterns.
- **Manage Card:** Allows to perform card related transaction
- **Statement History:** Displays the debit and credit entries along with each transaction amount and reference details
- **Rewards:** Displays the rewards accumulated on the credit card.
- **Upgrade Your Card Now:** existing credit card upgraded to avail better benefits and facilities

It shows the list of add-on cards associated with the main credit card. Each add-on card should feature the holder's initials as an avatar. When the avatar is clicked, the user will be taken to the details of the add-on card. Additionally, users have the option to add a new add-on member.

This option also displays the **Total Outstanding** amount and the **Available Limit** on the card, along with a link to download the statement. The user can select the desired relationship card from a drop-down list located in the header, and the application will then display the corresponding details for that card.

The **Spend** widget offers insights into the user's spending patterns. It displays a holistic view of the overall spends across 1,2, and 3months. It visualizes spending patterns through a donut chart, categorizing expenditures associated with the card. For more information refer **My Spend** section.

How to reach here:

Dashboard > Overview widget > Credit Cards card > Credit Card List > Click on the Credit Card
OR

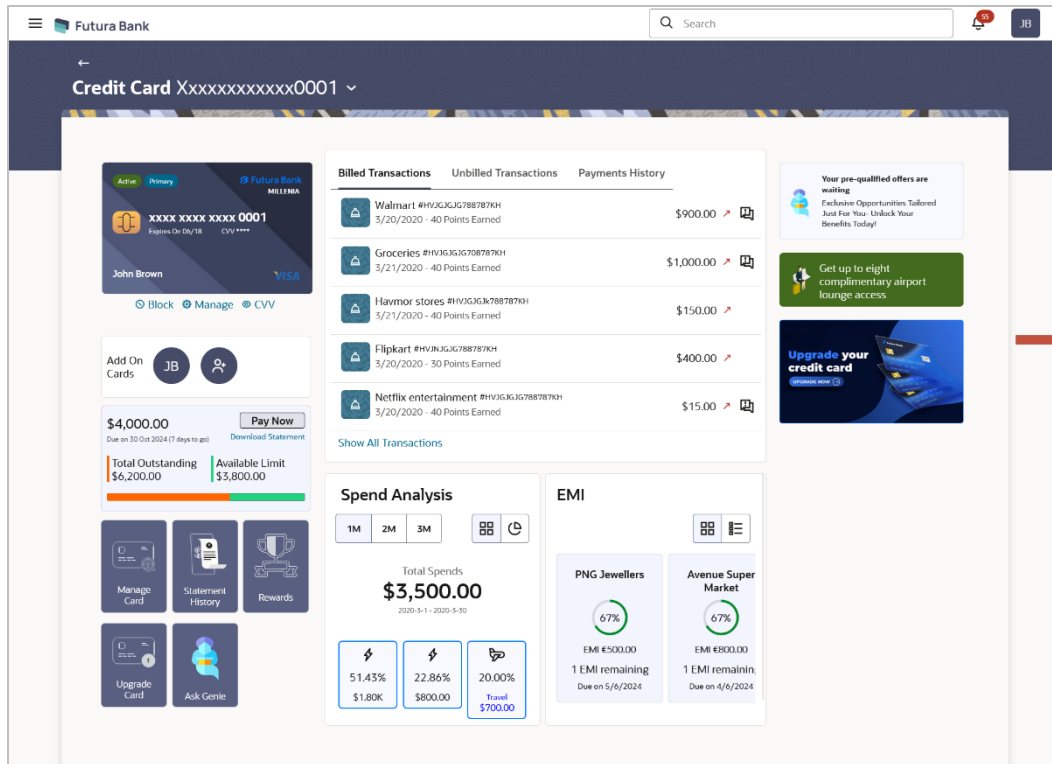

Search bar > Credit Cards –Cards Details
OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > Click on the Credit Card

To view the credit card details:

1. Navigate to the **Credit Cards List** screen.
2. Click on the active card to view the details of the respective card.
The details of the selected credit card appear on the **Credit Card Details** screen.

OR Click on Rewards card to view the rewards accumulated on the credit card. Refer My Rewards section. OR Click on Pre-qualified offer card to apply for the offer. OR Click on Upgrade your credit card widget to upgrade the credit card. 	

4.1 Redeem Reward Points

Using this option, the user can view and redeem reward points accumulated on the credit card. It provides transaction-wise reward points earned, along with detailed information such as:

- Transaction Date: The date the transaction occurred.
- Transaction Place: The merchant or location where the transaction took place.
- Reference Number: A unique identifier for the transaction.
- Points Earned: The reward points earned from the specific transaction.

Additionally, the following reward point details are displayed:

- Current Balance Points: The reward points available for the current month.
- Earned Points: The total reward points accumulated to date.
- Redeemed Points: The total reward points used to date.
- Monthly Expiring Points: The reward points set to expire in the current month.

How to reach here:

*Dashboard > Overview widget > Credit Cards card > Credit Card List > Click on the Credit Card > Credit Card Details > Click on the **Rewards** card*

OR

*Search bar > Credit Cards –Cards Details > Click on the **Rewards** card*

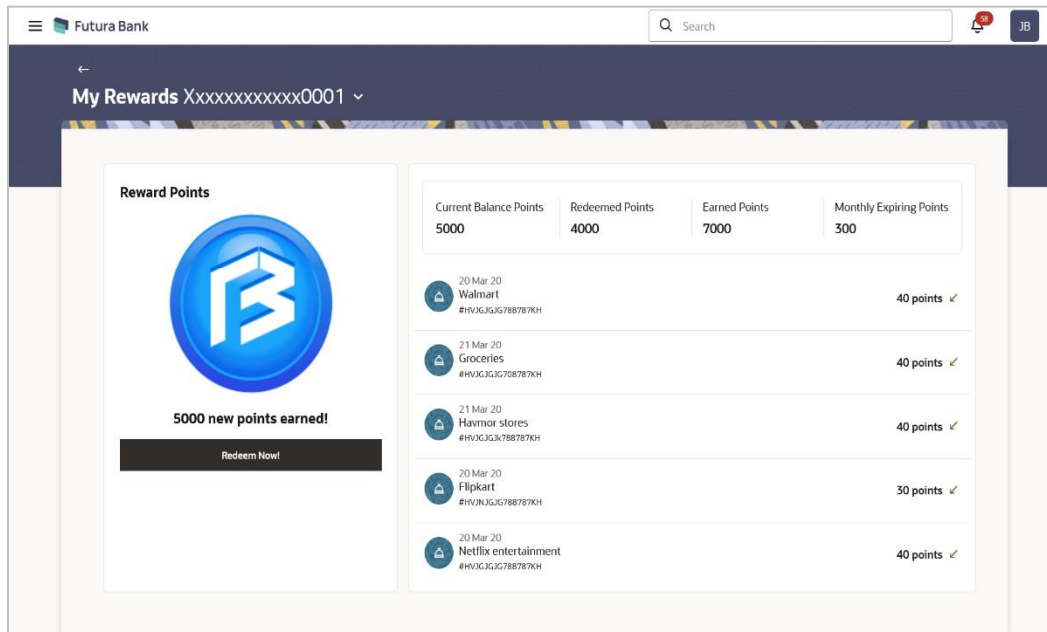

OR

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > Click on the Credit Card > Credit Card Details > Click on the **Rewards** card*

To redeem reward point of a credit card:

1. Navigate to the **Credit Cards** screen.
2. From the **Card Number** list, select the credit card whose reward to be redeemed.
3. Click on the **Reward** card. The **My Rewards** screen appears.

My Rewards

4. Click **Redeem Now** to redeem the reward points. This action will redirect the user to the Online Redemption portal. The user will be taken to a third-party screen where they can view and redeem their reward points.

4.2 Card Payment

This option allows the user to make payments towards their credit card bills. The user can choose the amount to pay, including options for the minimum due, total outstanding amount, or a custom specified amount. They can decide to pay the minimum due, the full outstanding balance, or enter a custom amount for their credit card payment.

All of the user's linked current and savings accounts will be available for selection as the source of the payment. After selecting a source account, the available balance of that account will be displayed, helping the user to better manage their funds before making the payment.

How to reach here:

*Dashboard > Overview widget > Credit Cards card > Credit Card List > Click on the Credit Card > Credit Card Details > Click on the **Pay Now** link*
OR

Search bar > Credit Cards –Card Payment

OR

Search bar > Credit Cards –Cards Details > Click on the **Pay Now** link

OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > Click on the Credit Card Credit Card Details > Click on the **Pay Now** link

To make credit card payment:

1. Navigate to the screen.
2. From the **Card Number** list, select the credit card for which payment is to be made.
3. Click on the Pay Now link to make payment due on credit card. The **Card Payment** appears.

Card Payment

Field Description

Field Name	Description
Card Number	Select the Credit Card for which payment is to be made.
Amount to Pay	<p>Select an option from what is provided as options to make credit card payments.</p> <p>The options are:</p> <ul style="list-style-type: none">• Total Outstanding: This option can be selected if the user wishes to pay the total amount outstanding on the card payment.• Minimum Payable Amount: The user can select this option to pay the minimum amount due towards the card payment.• Specify Amount : The user can select this option in order to specify a certain amount to be paid towards the card payment.

Field Name	Description
Due Date	The date before which either minimum due or full payment is to be done. This information is shown in case of a primary card.

- Click on the desired tab—**Total Outstanding, Minimum Payable Amount,** or **Specific Amount** to choose the amount you wish to pay towards your credit card bill.

Card Payment (Total Outstanding, Minimum Payable Amount)

The screenshot shows the Futura Bank mobile app interface for a card payment. At the top, there's a header with the bank logo, a search bar, and a user profile icon. Below the header, the title "Card Payment XXXXXXXXXXXX0004" is displayed. The main content area features three tabs: "Total Outstanding" (selected), "Minimum Payable Amount", and "Specific Amount". The "Total Outstanding" tab shows a value of £8,000.00. The "Minimum Payable Amount" tab shows a value of £600.00. The "Specific Amount" tab shows a prompt "Specify Amount (?)". Below the tabs, there's a "Pay By" section with two radio buttons. The first radio button is selected and corresponds to the "Futura Bank Savings Account XXXX-0020 | Brandon Wilson" with a balance of £24,035.80. The second radio button corresponds to the "Futura Bank Savings Account XXXX-0018 | Brandon Wilson" with a balance of £190,000.00. At the bottom, there's an "Other Payment Method" option.

Card Payment (Specific Amount)

The screenshot shows the Futura Bank mobile app interface for a card payment, specifically the "Specific Amount" tab. The header and title are the same as in the previous screenshot. The "Specific Amount" tab is now selected, and it shows a prompt "Specify Amount (?)". Above the tabs, there's a text input field labeled "Amount" with the value £2,000.00. The "Total Outstanding" tab shows a value of £8,000.00. The "Minimum Payable Amount" tab shows a value of £600.00. The "Specific Amount" tab shows a prompt "Specify Amount (?)". Below the tabs, there's a "Pay By" section with two radio buttons. The first radio button is selected and corresponds to the "Futura Bank Savings Account XXXX-0020 | Brandon Wilson" with a balance of £24,035.80. The second radio button corresponds to the "Futura Bank Savings Account XXXX-0018 | Brandon Wilson" with a balance of £190,000.00. At the bottom, there's an "Other Payment Method" option.

OR
Click **Card Details** to navigate to the **Credit Card Details** page of that card.
OR
Click on the **Transactions** to view the transactions initiated by the card.
OR
Click on the **Go to Dashboard** to navigate back to Dashboard page.

4.3 Convert to EMI

This option allows the user to break up a credit card bill into smaller, more manageable monthly payments.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.

How to reach here:

Dashboard > Overview widget > Credit Cards card > Credit Card List > Click on the Credit Card > Credit Card Details > EMI widget > Convert to EMI

OR

Search bar > Credit Cards –Cards Details > EMI widget > Convert to EMI

OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > Click on the Credit Card > Credit Card Details > EMI widget > Convert to EMI

To convert credit card bill into EMI:

1. Navigate to the screen.
2. From the **Card Number** list, select the desired debit card to be upgrade.
3. Click on the **Convert to EMI**. The **Convert to EMI** screen appears.

5. Manage My Card

The Manage My Card feature offers a user-friendly interface for organizing and monitoring credit card activities effectively. There different tabs are provided to perform the card related transactions.

The following are the actions can be performed through the transaction:

- Primary Settings
 - Billing Date
 - Auto Pay
- Security
 - Reset / Request PIN
 - Raise Dispute
 - Cancel Card
 - Block Card
- Set Limits
- Nickname

Note: The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Swipe gesture - This feature is available on Favourites widget, Recent Payments widget , Incoming and Outgoing Payments Inquiry, Recurring Payments .

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Quick Actions and on payee cards under Manage payees.

How to reach here:

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the Credit Card

OR

Search Bar >Credit Cards – Manage My Card

OR

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link*

5.1 Billing Date

Users might want to change the billing cycle of a credit card to better suit their needs. The application enables users to set a new billing cycle for any credit card of which they are primary card holders so as to enable the users to better manage their funds.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Primary Settings tab > Billing Date*

OR

Search Bar >Credit Cards – Change Billing Cycle

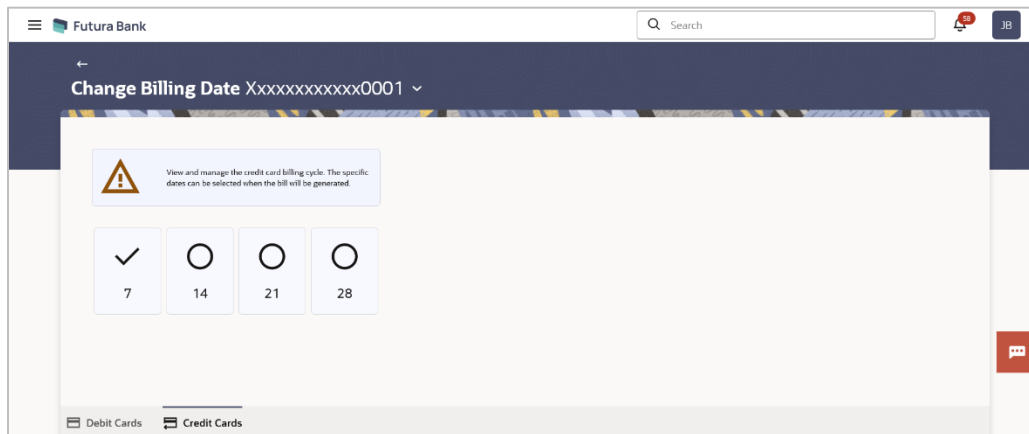

OR

Search Bar >Credit Cards – Manage My Card > Primary Settings tab > Billing Date

To view and manage the credit card billing cycle:

1. Navigate to the screen.
2. From the **Credit Card Number** drop-down list, select credit card number whose billing date you wish to change.
3. Click on the **Billing Date** card to set a convenient day for the billing cycle. The **Change Billing Date** screen appears.

Credit Card - Change Billing Date

Field Description

Field Name	Description
Credit Card Number	Select a credit card to change the billing cycle of the same.
Select Day of the Month	Displays the existing billing cycle for the selected card, including the date on which the billing statement is generated. Click on the new date which you wish to set for billing cycle.

4. Click on the desired new billing day you wish to assign for the billing cycle of the selected credit card. The success message of billing date updated appears.

Note: The new bill will be generated on the updated billing date.

5.2 Auto Pay

Missing a credit card payment or not having the time to make the payment is a common occurrence. Penalties and extra charges are bound to be applied if a user fails to make a credit card payment on time.

In order to help users avoid such situations, the application supports the auto pay functionality. This feature enables a user to set automatic payment instructions for a specific credit card.

While setting up the auto pay instruction, the user identifies whether the minimum amount due has to be paid or whether the total amount due has to be paid or specific amount has to be paid. The user is also required to identify the linked current or savings account from which the funds are to be debited in order to make the payment.

The Auto pay instruction is executed as per the credit card bill cycle for the selected card. The user can de-register from auto pay at any time.

Note: User can deregister from the Auto Pay feature by toggling the active Auto Pay, which is available only if Auto Pay has already been set up for the credit card. If the user opts to deregister the credit card for Auto Pay, a review screen will be displayed, followed by a confirmation screen once the user confirms deregistration.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Primary Settings tab > Auto Pay*

OR

Search bar > Credit Cards –Auto Pay

OR

Search Bar >Credit Cards – Manage My Card > Primary Settings tab > Auto Pay

To update the Auto Pay instruction for the Credit Card:

1. Navigate to the screen.
2. From the **Select Card** list, select the credit card for which auto pay instructions need to be set/modified.

Auto Pay

Field Description

Field Name	Description
Select Card	Select the credit card for which auto pay instructions are to be set or modified.
Auto Pay	Toggle to register/ de register the Auto Pay facility.

Field Name	Description
Amount to Pay	<p>The user can identify whether the total amount due or the minimum amount due is to be paid every billing cycle.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Total Due • Minimum Due • Specific Amount <p>Note: In case of Auto payment of credit card using Specific Amount option i.e. specific amount, the retail user will have the facility to set up some specific amount which he/she wants to pay in each cycle irrespective of the minimum due amount or overall due amount.</p>
Source Account	Select the current or savings account number from which the amount is to be debited for credit card bill payment.
Amount	The amount to be auto paid against the credit card bill per billing cycle. This field will be displayed only if the option Specify has been selected in the previous field.

3. Toggle **Auto Pay** to register/ de register the Auto Pay facility.
4. Specify whether the total amount due or the minimum amount due or a specific amount is to be paid per billing cycle.
5. From the **Source Account** list, select the current or savings account number that is to be debited for credit card bill payment per cycle.
6. If you select **Specific Amount** option in the **Amount to Pay** list;
 - b. In the **Amount** field, enter the amount to be auto paid against the credit card bill.
7. Click **Submit** to update the Auto Pay Instruction.
OR
Click **Cancel** to cancel the **Auto Pay Instruction**.
8. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Back** to go to the previous screen.
OR
Click **Cancel** to cancel the transaction.
9. The success message appears, along with the service request number.
10. Click **Card Details** to navigate to the **Credit Card Details** page of that card.
OR
Click **Transaction Details** to view the details of the transaction in read mode.
OR
Click on the **View Credit Cards** redirects to Card page.
OR
Click on the **View Transactions** to view the transactions initiated by the card.
OR
Click on the **Go to Dashboard** to navigate back to Dashboard page.

5.3 Reset PIN

A credit card PIN is necessary to authenticate any credit card transaction. Without it, the user cannot make any Point of Sale purchases. This feature allows users to generate a Credit Card PIN at their convenience, anytime they need it.

Note: This feature is available only for active credit cards.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Security tab > Reset/Request PIN > Reset PIN*

OR

Search Bar > Credit Cards – Manage My Card > Security tab > Reset/Request PIN > Reset PIN

To generate the credit card PIN:

1. Navigate to the screen.
2. From the **Credit Card Number** drop-down list, select credit card of which PIN is to be reset.
3. Under the **Validate Your Card** section;
 - a. In the **Date of birth** date calendar field, specify the card holder's date of birth.
 - b. From the **Expiry Month** list, specify the card expiry month.
 - c. From the **Expiry Year** list, specify the card expiry year.
 - d. In the **CVV Number** field, enter the numeric digit code printed on the back of the card.

Reset PIN- Card Details

The screenshot displays the 'Reset/Request PIN' interface for a credit card. The page title is 'Reset/Request PIN CC, XXXXXXXXXXXX0001'. Below the title, there are 'Cancel' and 'Validate' buttons. The main section is titled 'Validate Your Card' and contains the following fields:

- Date of birth: 1/1/1990
- Expiry Month: 6
- Expiry Year: 30
- CVV Number: ***

The bottom navigation bar shows 'Debit Cards' and 'Credit Cards'.

Field Description

Field Name	Description
Card Number	Select the card.
Date Of birth	Specify the date of birth of the card holder. It is used to verify the identity of the card holder.
Expiry Month	Specify the expiry month of the credit card.
Expiry Year	Specify the expiry year of the credit card.
CVV Number	Enter the CVV number of the card. The Card Verification Value number (CVV) is the 3 digit number printed on the reverse of most credit cards.

4. Click **Validate**. The entered card details are verified, and the **Reset PIN** section appears along with the successful message of validation.
OR
Click **Cancel** to cancel the transaction.

NEW PIN Details

The screenshot displays the Futura Bank web interface for resetting or requesting a PIN. The page title is 'Reset/Request PIN CC, XXXXXXXXXXXX0001'. There are three buttons at the top right: 'Cancel', 'Submit', and 'Validate'. The main content area is divided into two tabs: 'Reset PIN' (selected) and 'Request PIN'. Under the 'Reset PIN' tab, there is a 'Validate Your Card' section. This section contains four input fields: 'Date of birth' (with a calendar icon and the value '1/1/1990'), 'Expiry Month' (a dropdown menu showing '6'), 'Expiry Year' (a dropdown menu showing '30'), and 'CVV Number' (a text field with three asterisks). Below these fields, a green checkmark and the text 'Card Validated Successfully' are displayed. At the bottom of the form, there are two more input fields: 'Enter New PIN' and 'Re-enter New PIN', both containing four asterisks to indicate masked input.

Field Description

Field Name	Description
Enter New PIN	Enter a new PIN of your choice.
Re-enter New PIN	Re-enter the new PIN in this field to confirm the same.

5. In **Enter New PIN** and **Re-enter New PIN** fields, enter the new PIN as per your choice respectively.
6. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
7. The **Confirmation** popup appears.
Click **Yes** to proceed.
OR
Click **No** to cancel the transaction.
8. The success message appears, along with the transaction reference number.
9. Click **Transaction Details** to view the details of the transaction.
OR
Click **Card Details** to view the card details.
OR
Click on the **View Credit Cards** link to visit Cards summary page.
OR
Click on the **Go To Dashboard** link to navigate back to dashboard page.

5.4 Request PIN

The Request PIN feature allows users to request a new PIN for their credit card. The application supports new PIN requests for both primary and Add-On cards..

When applying for a new PIN request, the user can specify the delivery location. The user can choose to have the PIN delivered to their residence, postal address, or even select a branch for PIN delivery.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Security tab > Reset/Request PIN > Request PIN*

OR
Search Bar >Credit Cards – Manage My Card > Security tab > Reset/Request PIN > Request PIN

To request for a Credit Card PIN:

1. Navigate to the screen.
2. From the **Card Number** list, select the credit card for which a new PIN is required.

Request PIN

Field Description

Field Name	Description
Card Number	Select the credit card for which a new PIN is required.
Deliver to	<p>The customer is required to specify where the new card is to be delivered.</p> <p>The options are:</p> <ul style="list-style-type: none">• Postal Address• Residential Address• Branch Near Me

Field Name	Description
The following fields will be enabled if the Branch Near Me option in the Deliver to field is selected.	
City	The user can filter branches based on the city in which they are located.

5.7 Block/Unblock Card

Loss of credit card or any fraudulent transaction suspected on a credit card is a nightmare for a user. In such a critical situation, visiting a branch or calling up customer care to block the card is time consuming. The user should be able to block his credit card instantly in such situations. The Block Card feature of the application enables the user to raise a request to block a credit card immediately.

The user can raise a request to block a credit card temporarily or permanently at any time and can even specify the reason for which the request is being raised. The user can also request for a replacement card to be issued as part of the permanent block card request and can identify where the new card is to be delivered i.e. either to the user's residence or a branch.

The user can also raise request to unblock for the blocked the credit card.

This feature is available for both primary and Add-On cards.

5.7.1 Block Card

The Block Card feature enables users to report stolen or lost debit cards to the bank, so that the bank can block the processing of any transaction performed on the credit card immediately.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Security tab > Block Card*

OR

Search bar > Credit Cards –Block Credit Card

OR

Search Bar >Credit Cards – Manage My Card > Security tab > Block Card

To block the credit card and raise a request for a replacement card:

1. Navigate to the screen.
2. From the **Card Number** list, select the credit card which needs to be blocked.

Block Card

Field Description

Field Name	Description

2. Click on the **Unblock** to unblock the selected blocked credit card. The **Unblock Card?** confirmation popup appears.

Unblock Card

- a. Click **Unblock** to proceed.
OR
Click **Cancel** to cancel the transaction.
3. The success message appears, along with the transaction reference number.
 4. Click **Card Details** to view the card details.
OR
Click on the **View Credit Cards** link to visit Cards summary page.
OR
Click on the **Go To Dashboard** link to navigate back to dashboard page.

5.8 Set Limits

The user can view the existing cash and/or credit limits of a credit card. This option allows the user to specify the desired cash and credit limits for the selected credit card, within the permissible range set by the bank.

The user can also update the limits of an add-on card. In this case, in addition to the existing limit, the screen displays the maximum limit that can be set for the add-on card, which is determined by the limit assigned to the primary card. This ensures that the add-on card's limit does not exceed the primary card's available limit.

How to reach here:

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Set Limits

OR

Search Bar > Credit Cards – Manage My Card > Set Limits

To modify the limits of the credit card:

1. Navigate to the screen.
2. Click on the **Domestic or International** tab to update the respective limits as required.
The **Credit Card - Update Limits** screen appears.

Credit Card - Update Domestic Limits

The screenshot shows the 'Manage My Card' interface for Futura Bank. The 'Domestic' tab is selected. The screen displays four limit settings, each with a toggle switch, a slider, and input fields for 'Set Limit' and 'Maximum Limit'.

Category	Per Day Limit (Set)	Maximum Limit
Online Transactions	£500.00	£2,000.00
Tap To Pay	£100.00	£1,000.00
POS	£400.00	£3,000.00
ATM Withdrawals	£500.00	£1,200.00

Credit Card - Update International Limits

The screenshot shows the 'Manage My Card' interface for Futura Bank. The 'International' tab is selected. There are four sections for managing limits: Online Transactions, Tap To Pay, POS, and ATM Withdrawals. Each section has a toggle switch, a slider for 'Per Day Limit', a text input for 'Set Limit', and a 'Maximum Limit' value. The 'Update Limits' button is visible at the top right.

Field Description

Field Name	Description
Credit Card Number	Select a credit card to update the credit details of the same.
Per Day and Per Transaction Domestic Limits / International Usage Limits	
Facility: Online Transactions, POS, Tap To Pay, ATM Withdrawals	
Below fields appears if the facility is enabled	
Per Day Limit / Set Limit	Type the desired amount or drag the slider to set the per day limit for a credit card. This allows the user to control the maximum daily spending limit on the card.
Maximum Limit	Displays the maximum daily limit allowed for a credit card, indicating the highest amount the user can spend in a single day
Per Transaction Limit / Set Limit	Type the desired amount or drag the slider to set the per transaction limit for a credit card, enabling the user to control the maximum spending allowed for individual transactions.
Maximum Limit	Displays the maximum allowable limit for a single transaction, indicating the highest amount the user is permitted to spend in one transaction.

3. Under the **Domestic/ International** tab:

4. Toggled the **Facility: Online Transactions, POS, Tap To Pay, ATM Withdrawals** to enabled it.
5. For the **Facility: Online Transactions, POS, Tap To Pay, ATM Withdrawals**
 - a. In the **Set Limit** field, type the desired amount or drag the **Per Day Limit** slider to set the per day limit for a credit card.
 - b. In the **Set Limit** field, type the desired amount or drag the **Per Transaction Limit** slider to set the per transaction limit for a credit card.
6. Click **Update Limits** to save modified limits.
OR
Click **Cancel** to cancel the transaction.
7. The **Confirmation** popup appears.
Click **Confirm** to proceed.
OR
Click **Cancel** to cancel the transaction.
8. A success message appears identifying that the request has been initiated successfully. The transaction reference number is also displayed as part of the success message.
9. Click **Transaction Details** to view the details of the transaction.
OR
Click **Credit Cards** to visit Cards summary page.
OR
Click on the **Credit Card Details** link to view the card details.
OR
Click on the **Transactions** link to view the transactions initiated by the card.
OR
Click on the **Go To Dashboard** link to navigate back to dashboard page.

5.9 Card Nickname

Users can assign their own description or name to all of their credit cards. User's nickname is the unique ID. Nicknames will be displayed on various transactions instead of the standard account description. This option also allows user to modify or delete the nickname whenever required.

How to reach here:

*Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the **Manage** link of the Credit Card > Manage My Card > Nickname tab*

OR

Search Bar > Credit Cards – Manage My Card > Nickname tab

To add nickname to credit card:

1. Navigate to the screen.
2. From the **Credit Card Number** list, select the credit card for which you wish to assign or modify the nickname. The option to add or edit the nickname will appear.

Nickname

The screenshot shows the Futura Bank web interface. At the top, there's a navigation bar with the Futura Bank logo, a search bar, and user profile icons. Below this is a header for 'Manage My Card' with a dropdown menu showing 'XXXXXXXXXXXX0001'. The main content area has four tabs: 'Primary Settings', 'Security', 'Set Limits', and 'Nickname'. The 'Nickname' tab is active, showing a text input field with the value 'Sam' and an 'Add Nickname' button below it. At the bottom, there are icons for 'Debit Cards' and 'Credit Cards'.

Field Description

Field Name	Description
Nickname	Specify a nickname to be assigned to the credit card. If a nickname has already been assigned to the account, it will be displayed in editable mode.

3. In the **Nickname** field, enter the nickname you to be assigned to the credit card.
4. Click **Add Nickname** to save your changes.

Note:

The **Change Nickname** link appears if a credit card already has a nickname. If you wish to update it, you can do so.

The new nickname will then be displayed on various transactions instead of the standard account description.

5. The success message of account nickname updated appears.

6. Apply for Add-On Card

Add-On cards, or supplementary cards, are issued to additional cardholders, such as a spouse or child, at the request of the primary cardholder. The Add-On cardholder typically shares the same credit limit as the primary cardholder and is not legally responsible for credit card payments. All expenses made with an Add-On card are billed to the primary cardholder.

The application allows the primary cardholder to apply for Add-On cards online. To initiate the process, the user can select the provided option. The user has the flexibility to customize the Add-On card by specifying the name to be embossed on it, as well as defining the credit and cash limits associated with the card.

Note:

- 1) If the user has an active Add-On card, they will be able to view the card details, request a PIN specifically for that card, and block the card if needed.
 - 2) If the user has an inactive Add-On card, they will be able to view the card details and block the card.
 - 3) If the user has an Add-On card that is hotlisted, they will only be able to view the card details.
 - 4) If the user has an Add-On card that is canceled, they will only be able to view the card details.
-

How to reach here:

Dashboard > Overview widget > Credit Cards card > Click on the Credit Card > Credit Cards Details > More Actions > Add-On Card

OR

Search bar > Credit Cards – Add-On Card

OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Click on the Credit Card > Credit Cards Details > More Actions > Add-On Card

To apply for an Add-On card:

1. Navigate to the screen.
2. From the **Card Number** list, select the credit card for which an add-on card is to be requested.

Apply for Add-On Card

The screenshot shows the 'Add-On Card' application interface for Futura Bank. The header includes the bank logo, a search bar, and a user profile icon. The main title is 'Add-On Card Allwyne, XXXXXXXXXXXX0001'. Below this, there are two tabs: 'Cancel' and 'Submit'. The form is divided into two main sections: 'Add On Card Details' and 'Delivery Address'. The 'Add On Card Details' section includes a dropdown for 'Relationship With Card Holder' (set to 'Son'), a text field for 'Name on Card' (set to 'Sam Desouza'), and two text fields for 'Credit Limit' (set to '£4,000.00' and '£6,000.00'). The 'Delivery Address' section includes a dropdown for 'Delivery to' (set to 'Postal Address') and a text field for 'Address' (set to '29 Colmore Rowdy, NELSCO, IT PARK, Eng, GB, 945442').

Field Description

Field Name	Description
Card Number	Select the primary credit card for which an add-on credit card is to be requested.
Add-On Card Details	
Relationship With Card Holder	<p>Select the relationship that you have with the person for whom the add-on card is being requested.</p> <p>The options are:</p> <ul style="list-style-type: none">• Father• Mother• Son• Daughter• Spouse• Brother• Sister
Name on Card	Specify the name to be embossed on the Add-On card.
Credit limit	Specify the credit limit to be assigned to the Add-On card. The primary card's credit limit is displayed below this field so as to identify that the Add-On card's credit limit cannot exceed that of the primary card.
Cash limit	Specify the cash limit to be assigned to the Add-On card. The primary card's cash limit is displayed below this field so as to identify that the Add-On card's cash limit cannot exceed that of the primary card.
Delivery Address	
Delivery to	<p>Specify where the add-on card is to be delivered.</p> <p>The options are:</p> <ul style="list-style-type: none">• Postal Address• Residential Address• Office Address• Branch Near Me
Following fields will be enabled if the Branch Near Me option is selected in the Delivery Address field.	

Field Name	Description
City	The user can filter branches based on the city in which they are located.
Branch Near Me	Branch name where the Add-On card is to be delivered.
Address	The address of the branch selected is displayed on the screen.

3. From the **Relationship With Card Holder** list, select the add-on card holder's relationship with that of the primary card holder.
4. In the **Name on Card** field, enter the name of the Add-On card holder.
5. In the **Credit limit** field, enter the desired credit limit for the Add-On card.
6. In the **Cash limit** field, enter the desired cash limit for the Add-On card.

Note: It is mandatory to define either the credit or cash limit of the Add-On card.

7. In the **Delivery Address** field, select the delivery address of choice.
 - a. If you select the **Branch Near Me** option;
 - i. From the **City** list, select the desired city.
 - ii. From the **Branch Near Me** list, select the desired branch.
The complete address of the selected branch appears.
8. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
9. The **Review** screen appears. Verify the details, and click **Confirm**.
OR
Click **Back** to go back to the previous screen.
OR
Click **Cancel** to cancel the transaction.
10. The success message appears, along with the service request number.
11. Click **Transaction Details** to view the details of the transaction.
OR
Click **Card Details** to view the card details.
OR
Click on the **View Credit Cards** link to visit Cards summary page.
OR
Click on the **Go To Dashboard** link to navigate back to dashboard page.

7. EMI

The **EMI** feature allows users to view details of all purchases, payments made on their credit card accounts. Users can select any card to view transactions initiated using that card, displayed in chronological order with the latest transactions appearing first. Only primary cards are available for selection, but if any Add-On cards are linked to the primary card, transactions made using the Add-On card will also be listed. It displays the repayment schedule for all the linked EMIs. On the overlay, the user has an option to Download Repayment Schedule. Click on the **Download** to download the repayment schedule for EMI transaction.

In addition to selecting a specific card to view statement details, users can also filter transactions based on credit or debit types. By selecting the transaction type, users can further refine their search by choosing a billing month to view the statement for that specific period. This allows for more targeted viewing of transactions based on user preferences.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on '**Manage Columns**' option available on the screen, user can

- Rearrange columns
- Remove specific columns.

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
 - 2) The column preferences setup by the user will be saved for future reference i.e. in case the user revisits this screen, the preferred columns will only be displayed in the table.
-

Download Pre-generated Statement

Field Description

Field Name	Description
Card Number	Select the credit card for which statement has to be requested.
Year	The year for which the pre-generated statements are listed month wise and available for viewing and download.
Month	Displays the list of month wise pre-generated statements. Click on the  icon against a statement to download.
From Date	Start date of the date period for which the statement is generated.
To Date	End date of the date period for which the statement is generated.
	Click on the icon against a statement to download the specific record.

3. Click on the **Year** tab to view the month wise pre-generated statements.
 - a. Click on the  icon against any record (.pdf) to download the statement in password protected .pdf format.

9. My Spend

The **Spend** feature offers insights into the user's spending patterns. It displays a holistic view of the overall spends across 1,2, and 3months. It visualizes spending patterns through a donut chart, categorizing expenditures associated with the card.

It also highlights the category with the highest expenditure for that period. Users can choose between  (list) and  (graph) view options to examine their spending. In  (list) view, expenditures are displayed in a tabular format, while  (graph) view presents the data as a donut chart. When hovering over the chart, users can see detailed spend information for specific categories, including both the percentage and the amount.

Note: The Spend categories are fetched from the Credit Card host.

How to reach here:

Search bar > Credit Cards –Cards Details > Spend Analysis widget

OR

Search bar > Credit Cards – Spends

To view spends on the card:

1. Navigate to the screen.
2. From the **Credit Card Number** list, select the credit card whose spend you wish to see.

Spends (List View)

Spends (Donut Graph View)

Field Description

Field Name	Description
Card Number	Select the credit card to whose spend you wish to see.
Spends Tenure	Specify the duration to view the spend analysis based on it. The options are: <ul style="list-style-type: none"> • 1M • 2M • 3M
Spends (List view)	
	This section displays the spending analysis of the customer. The user can view the total expenditure incurred during the past 1/2/3 months.
Total Spends	Displays the total amount spent in percentage as well as in amount for the selected duration and account/card. It also shows the percentage change in spending compared to the previous month, with Blue indicating an increase and Red indicating a decrease.

Name of the Category	Displays the spend category. <div>Note: The spend category is fetched from the credit card host.</div>
Amount Utilized for category	Displays the spend utilised for a category in amount along with the currency.

10. Inactive Cards Details

All cards that have been cancelled, blocked or deactivated are displayed on the **Inactive Cards** page. Users should be able to track all cards that are inactive so as to identify if any action needs to be taken regarding the status of these cards. Through the Inactive Cards feature of the application, users can view details of all their credit cards that have been cancelled, blocked or deactivated.

The following actions can be taken on cards that are inactive:

- **Blocked Cards** – The user can pay the outstanding amount due.
- **Deactivated Cards** – The user can raise a request to activate the card and also pay any outstanding amount due on the card.
- **Cancelled Cards** – No action can be taken on these cards.
- **Raise Dispute**
- **Activate Card**

Once a card has been activated, it will no longer be displayed under inactive cards and will be available on the credit cards dashboard under the section listing down all the active credit cards.

The details of cancelled cards will not be displayed. Instead, the user can only view the summary of any cards that have been cancelled.

The credit card details screen displays key information related to a credit card across multiple widgets, such as:

- **Relationship Credit Card:** Allows actions to be performed on the card.
- **Card Details:** Provides detailed information about the card itself.
- **EMI Tab:** Provides details on equated monthly installments.
- **Pre-qualified Offer:** Displays personalized offers for the user.
- **Spend Analysis:** Offers insights into the user's spending patterns.
- **Manage Cards:** Allows to perform card related transaction
- **Statement History:** Displays the debit and credit entries along with each transaction amount and reference details
- **Rewards:** Displays the rewards accumulated on the credit card.
- **Upgrade Your Card Now:** existing credit card upgraded to avail better benefits and facilities

This option also displays the **Total Outstanding** amount and the **Available Limit** on the card, along with a link to download the statement. The user can select the desired relationship card from a drop-down list located in the header, and the application will then display the corresponding details for that card.

How to reach here:

Dashboard > Overview widget > Credit Cards card > Credit Card List > Click on the Inactive Credit Card

OR

Search bar > Credit Cards –Cards Details

OR

Dashboard > Toggle Menu > Menu > Cards > Credit Cards > Credit Card List > Click on the Inactive Credit Card

2) Hot listed Cards

Primary Card: Card Details, Transactions

Add On card: Card Details

3) Cancelled Cards

Primary Card: Card Details, Transactions

Add On card: Card Details

FAQ

1. What is the advantage of adding a nickname to an account?

You can personalize your account by giving it a nickname. This way you will be able to easily identify it when viewing cards summary.

2. How can I check my credit card account balance?

The credit card details page displays a summary of your current account status, including outstanding balance, available credit limit and information as to when your next payment is due.

3. The bill / Statement indicate 'Minimum Amount Due' and 'Total Amount Due'. What is the amount required to be paid by me?

The amount indicated as 'Total Amount Due' is required to be paid by the 'payment due' date. In case this is not done, interest will be charged on the outstanding balance and on any new transaction undertaken from the date of the transaction till such time that the past dues are paid in full.

In case the 'Minimum Amount Due' is paid, no late payment fee will be charged. However, interest will be charged on the balance outstanding amount due after the due date for payment. Interest will also be levied on all cash advances from the date of the transaction until the date of payment.

4. What is a Credit Limit?

The 'Credit limit' is the maximum amount that a user can spend/borrow on a single credit card. This limit is defined by the bank/financial institution based on the user's credit rating and history.

5. What is a Cash Limit?

The cash limit of a credit card is the maximum amount of money that can be withdrawn using the credit card.

6. Can I update the limits applicable on an Add-On credit card?

Yes, you can update both the cash and credit limits of an Add-On card. However, the limits of an Add-On card cannot exceed the respective limits of the primary card to which it is linked.

7. What is the impact on the billing cycle of an Add-On card when the billing cycle of the primary card, to which it is linked, is changed?

When the billing cycle of a primary card is changed, the same billing cycle will be applicable on all linked Add-On cards as well.

8. **Is the bank required to manually accept a request for change in billing cycle or does it get automatically approved?**

Depending on the bank's configuration, manual acceptance by the bank might be required or it could be a straight through process where in the billing cycle gets changed automatically when a request to change is initiated by the user.

9. **If I suspect someone has stolen my credit card or used it to make a fraudulent purchase, what should I do?**

You should block the card immediately from your online banking portal. If you do not have access to the online application you should call up at the bank's call centre and inform the bank to block the card immediately.

10. **What happens to Add-On cards linked to a primary card if the primary card is blocked?**

The status of the Add-On cards, linked to a primary card that is blocked, remains active. The card holders can continue to transact using the Add-On cards.

11. **Will the bank cancel a credit card if the card holder requests bank to do so?**

Yes. The bank cancels the credit card on request, provided that the outstanding amount, if any, is settled/ paid.

12. **Where can I view details of all cancelled, blocked and deactivated credit cards?**

You can view the details of all cards that have been cancelled, blocked or deactivate in the Inactive Cards page by selecting the View All option available in the Inactive Cards widget on the Credit Cards dashboard.

13. **What is Auto Pay' and what is the difference between auto pay and scheduled payments?**

Auto Pay or automatic payment is a request initiated by a user instructing the bank to make regular credit card bill payments via automatic direct debit from a specified savings or checking account. The difference between auto pay and scheduled payments is that once a user sets up an auto pay instruction with the bank, he need not manually make payments towards credit card bill payment. The bank will automatically debit the selected account for the credit card bill amount (depending on instruction which could be to pay the minimum due or the total amount due) subject to availability of funds in the account. If an auto pay instruction is not made, the user will be required to make scheduled manual payments towards credit card bill payment.

14. **I made a mistake while setting the auto pay instruction for my credit card. Can I update the same?**

You can update the auto pay instruction of a credit card if it has been accepted by the bank. If the request is still in process, you cannot update the instruction.

15. **How do I view the transactions undertaken by the Add-On card holder?**

The description of each transaction record displays details of the transaction as well as the card name and number using which the transaction was performed. Based on the name and number, you can identify which transaction was initiated by the primary card and which was initiated by the Add-On card.

16. How does the bank keep the card holder informed of the transactions initiated using the credit card issued?

Banks sends a monthly statement to all card holders giving details of the transactions made using the card and the amount required to be paid to settle any dues.

17. Will my e-Statement look the same as my paper statement?

Yes. Your e-Statement looks exactly like your paper statement.

18. Can approver approve or reject the credit card transactions initiated by maker?

Yes. Approver can approve or reject the transactions because he has the responsibility to ensure correctness of financial or non-financial transaction as per the bank and corporate mandate.

19. Can approver send credit card transactions back to maker?

Yes. 'Send to Modify' option is available to the Approver for sending the transactions back to maker for any modification. If the approver is sending any transaction back to maker for modification, the maker will be able to make the changes in the same transaction and re-submit the same.
