1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 **Screenshot Disclaimer**

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 **Acronyms and Abbreviations**

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Portal Page

A bank's landing page should be designed in a manner that connects with its customers and also leads to quick conversions of prospects into customers of the bank. The bank's portal page designed in a manner that enable existing customers can easily login to the system and register themselves for channel access. Which helps customers to enable self-service channels for their banking needs as it makes transactions and inquiries accessible anywhere anytime. In order to access online banking, users need to have login credentials. This feature enables users to register themselves for channel access.

2.1 Overview Page

Overview page provides users to perform tasks such as to view and apply for the bank's product offerings, track existing product applications, search for the bank's ATMs and branches etc.

The date format will be configured at bank level as long or short e.g. DD/Month/YYYY or DD/MM/YY. The date in all alerts/reports sent to the users displays the date as per the format defined in locale.

The **Oracle Banking Digital Experience** portal overview page displays various options that enable users to undertake required tasks and gain information about the bank and its products. The different sections and features provided on the portal page are documented as follows:

Portal Page

Icons

The following icons are present on the portal page:

- : The logo of the bank.
- : Click this icon to log in to the application.

Our Products

This section displays tabs for **Retail, Corporate, and Business**. Clicking on a tab redirects the user to the respective product offerings section of the bank tailored for retail customers, corporate clients, and small to medium-sized business users.

Customer Services

- **Our Products:** Click to view the product offerings of the bank.
- **Claim Money:** Click to claim money if you are a recipient of a peer to peer transfer.
- **Track Your Application:** Click to track the progress of an account opening application.
- **Register:** Click to register for online banking access.
- **Calculators:** Click to access the calculators provided by the bank.
- **Help:** Click this option to launch online help.
-
- **Contact Us:** The physical address, email ID and phone numbers of the bank are displayed here.

Login

The user can log in to the **Oracle Banking Digital Experience** application by entering their login username and password in the provided fields.

Our Product Offerings

This section showcases the bank's offerings for **retail customers, corporate clients, and small to medium-sized businesses**. Users can choose a product category to explore its products and apply for their preferred options. Additional features include the ability to apply for bundled products and access the **Application Tracker**. To navigate further, click the **More >** icon within a specific product category to view detailed information on that category's dedicated page.

Features

This section outlines the features provided by the **Oracle Banking Digital Experience (OBDX)** application, offering users a seamless and convenient online and mobile banking experience. It caters to individual financial needs with offerings like personal loans, savings accounts, and credit cards. Key features of the OBDX platform include:

- **Instant Account Opening:** Open new accounts instantly, without the need for paperwork or delays.

- **Holistic Financial Support:** Gain a comprehensive overview of your finances by viewing all your accounts and transactions at one place, eliminating the need to log in to multiple accounts separately.
- **Stay on Top of Your Finances:** Track and manage your finances efficiently using intuitive tools designed for budgeting and financial planning.
- **Financial Insights:** Access personalized financial insights and recommendations to help you make informed decisions about your money.
- **Digital Payments:** Effortlessly make payments digitally across various channels, ensuring convenience and security.
- **Card Controls:** Manage and personalize credit and debit cards, including setting spending limits, turning cards on or off, controlling transaction notifications, and 2 factor authentication.

About Us

This section displays the information about the bank.

Seamless Onboarding

This feature allows customers to complete digital onboarding by simply clicking on **Register Now** for channel access. It is designed for customers who do not have access to online banking channels or those who prefer not to visit the bank physically. By using this feature, customers can easily onboard themselves through a fully online process, which eliminates the need for in-person visits and streamlines the registration process, providing a more convenient and efficient way to gain access to banking services.

Get Out Application

This feature allows customers to download the Futura bank application on their mobile.

Retail Banking Features

This section outlines the **Retail Banking** features provided by the **Oracle Banking Digital Experience (OBDX)** application. It is designed to meet individual financial needs and includes:

- **Tailored Support:** Personalized assistance to guide customers in achieving their financial goals.
- **Robust Security Measures:** Advanced security protocols to protect sensitive financial data and transactions.
- **Effortless Accessibility:** Customers can manage their finances conveniently from anywhere, at any time, using both online and mobile platforms.
- **Diverse Range of Banking Products:** A variety of products such as personal loans, savings accounts, and credit cards to cater to diverse financial needs and objectives.
- **Innovation & Customer Focus:** Combining cutting-edge technology and a focus on customer experience to redefine and elevate banking.

Global Footprints

This section provides an overview of the bank's **Locations, Branches, Regions, and Total Number of Customers**.

Customer Feedback

This section displays the Customer Feedback related to the product, including valuable insights and opinions. It encompasses **Customer Insights** with the product or service, **Opinions & Reactions, Preferences, Complaints** or service improvement.

This feedback helps companies understand customer satisfaction, identify areas for improvement, and enhance the overall customer experience.

Header Menu Options

- **Theme:** Select your preferred application theme colour. Options are Dark, Light, and System.
- **Preferred Language:** Click on the language to set your desired language to use the application.
- **Select Entity:** Users with multiple relationships (Retail and Business relationships) will be able to login using single login credentials. Click on the Entity, then select your desired entity. Based on the selected entity, the parties within it and listed for selection.

ATM & Branch Locator: Click this option to view the address and location of the ATMs and the branches of the Bank. For more information, refer ATM/ Branch Locator.

3. Log-In & Log-Out of Oracle Banking Digital Experience

A user can access online banking services by logging in to the system from the login page. By enabling user login through entry of user name and password, the bank can ensure that its customers' financial information is always accessed in a safe and secure manner.

Once a user is done accessing the online banking system, he/she can log out by selecting the Log Out option provided. Logging out enables users to exit from the system in a secure manner, thus ensuring that no one else can gain access to the user's online banking services (without supplying valid credentials).

Users with multiple relationships (Retail and Business relationships) will be able to login using single login credentials. Users will be landed on the default relationship maintained as day 0, however, will be able to switch between the different relationships by selecting the specific party mapped at each entity level.

Note:

- No consolidated view of multiple parties will be available for Retail and Business users.
 - For retail profile, 'Personal' will be shown in the party expansion. On selecting 'Personal', the Party Name will be shown next to the user initials.
 - For all business profiles, the Business Names will be shown in the party expansion as well as next to the user initials.
-

Pre-requisites

- The user must be registered for online banking access and must have valid login credentials.
- The user must have a valid account with bank that is enabled for online banking access.
- Other features related to accounts must be supported by the host system.

Features Supported In the Application

- Log-in to the application
- Log-out of the application

In case the user has forgotten their username or password, they can use the Forgot Username and Forgot Password links to retrieve these details. For more information, refer the Forgot Username and Forgot Password sections respectively.

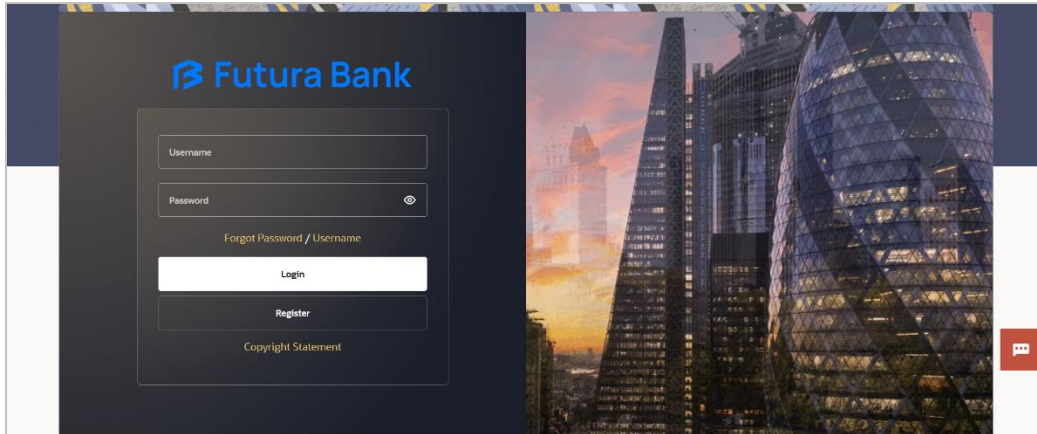

3.1 Log-in to the application

The user can log in to the **Oracle Banking Digital Experience** application by entering his/her login username and password in the provided fields.

To log in to the application:

1. Access the bank's portal page.

Login Page

Field Description

Field Name	Description
Username	Enter your login user name.
Password	Enter your login password.

2. In the **Username** field, enter your user name.
3. In the **Password** field, enter your login password.

Note:

- 1) Click inside the field the Virtual Keyboard link appears. Click on the link to use virtual keyboard to enter the Username/Password.
- 2) The characters typed in the Password field appear masked (•••••) for security reasons.
- 3) Click the  eye icon while typing passwords, it will enable you to check the typing of your password to show you what you have typed.
4. Click **Login**.
The **Dashboard** screen appears.

3.2 Log-out of the application

To log out of the application:

1. In the top right corner, click  icon.
The drop-down with the options to change entity, view Settings and logout appears.

Logout

2. Select the **Logout** option.
The user is logged out of the system and a message confirming successful logout appears.

3.3 Session Timeout

Session timeout represents the event occurring when a user does not perform any action on an application during a configured interval .

The below configurations are provided:

- To configure the inactive screen time. It is a backend configuration where the inactive time after which a warning message will be shown can be configured. This time needs to be lower than the configured active timeout. Note: Default inactive screen time is configured as 10 minutes
- To configure if timeout warning needs to be shown or not. Session timeout warning configuration flag is added on the System Configuration screen

The session timeout feature is available across Oracle Banking Digital Experience product i.e., for Retail User, Business user, Corporate User and Administrator screens.

A timeout warning message will be shown when the configured inactive time is reached. The user can view the time remaining for timeout in the warning message. The below actions will be visible to the user on the timeout warning message:

1. Stay Connected
2. Logout

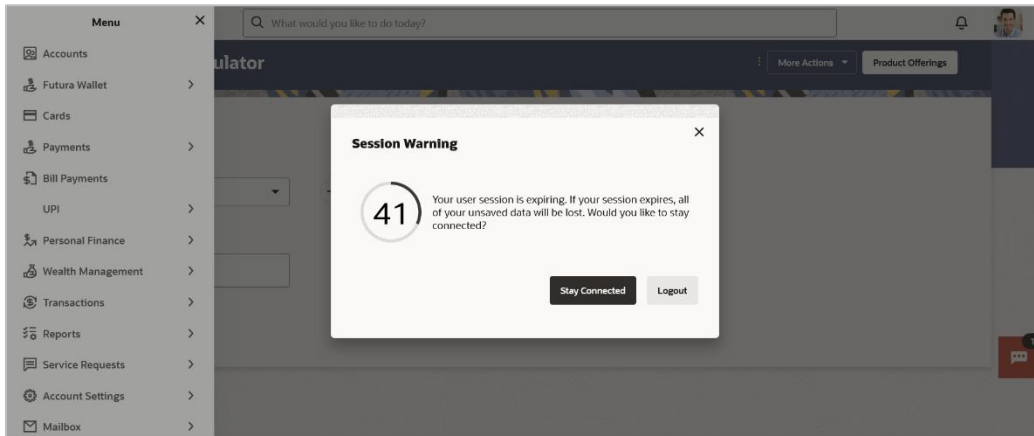

When the user clicks on 'Stay Connected', whichever transaction the user was on will be shown with any pre-filled information previously captured. When the user clicks on 'Logout', the user will be logged out of the application. At the end of timeout, the 'Login' option will be shown to the user as the session is expired.

Note:

- In case the user clicks on 'x' (right hand side top corner on popup), then the popup will close but the timer would continue in the backend. If any action is performed, then timer will reset

- On timeout, if the user clicks on 'x' (right hand side top corner on popup) or login button, the login page will appear.

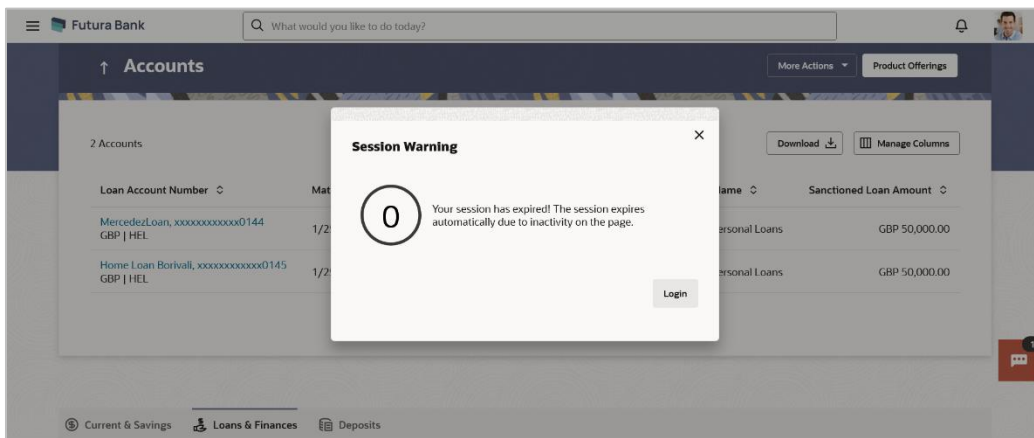

Session Warning – Pre Session Timeout Message

1. Click **Stay Connected** to continue.
OR
Click **Logout** to log out of the application.

When the session expires, the **Session Warning** popup appears.

Session Warning- Post Session Timeout Message

2. Click **Login** to re-login to the application.

4. Calculators

Financial calculators are tools used to arrive at a certain calculation helping to take a decision with some predefined criteria. Banks can provide details of their products and offers such as loan interest rates, fixed deposit interest rates, loan tenure etc. through calculators. Users can also use these calculators to compare different offers and products offered by the bank.

Oracle Banking Digital Experience provides calculators which banks can offer to their users on their digital channel. Calculators can be used by customers as well as prospects.

Features Supported In the Application

The different calculators are:

- Loan Eligibility Calculator
- Loan Installment Calculator
- Term Deposit Calculator
- Forex Calculator

4.1 Loan Installment Calculator

The loans instalment calculator is a simple installment calculator which identifies the monthly installment amount payable on a loan based on the loan amount, tenure in years and interest percentage.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Loans & Finances tab > More Actions > Dashboard > Toggle Menu > Menu > Accounts > Loans & Finances tab > More Actions > Loan Calculator > Loan Installment Calculator

OR

Dashboard > Overview widget > Loans & Finances card > Accounts > More Actions > Loan Calculator > Loan Installment Calculator

OR

Dashboard > Toggle Menu > Menu > Financial Management > Personal Finance Management > Loan Calculator > Loan Installment Calculator

OR

Bank's Portal Page > Customer Services > Calculators > Loan Calculator > Loan Installment

Loan Installment Calculator

The screenshot shows the 'Loan Calculator' interface on the Futura Bank website. The header includes the bank's logo, a search bar, and a user profile icon. The main content area is titled 'Loan Calculator' and features two tabs: 'Loan Installment Calculator' (active) and 'Loan Eligibility Calculator'. The 'Loan Installment Calculator' tab contains three input fields: 'Loan Amount' (set to GBP 41,420.00), 'Loan Tenure (In Years)' (set to 3), and 'Interest Rate' (set to 0.31%). Below these fields is a 'Calculate' button. To the right, the calculated results are displayed: 'Loan Installment' (GBP 1,356.12), 'Total Interest Payable' (GBP 7,400.18), and 'Total Payments (P+I)' (GBP 48,820.18). An 'Apply Now' button is located below the results. At the bottom, there is a 'Frequently Asked Questions' section with five expandable items.

Field Description

Field Name	Description
Loan Amount	The user is required to specify the amount that he/she wants to borrow from the bank.
Loan Tenure (Years)	The user should specify the desired tenure of the loan in terms of years.
Interest Rate	The user must specify the desired interest rate that is to be charged on the loan.
Loan Installment	The monthly installment payable on the loan calculated on the basis of the loan amount, tenure and interest rate specified by the user.
Total Interest Payable	Total Interest Payable amount.
Total Payment	Total Payment amount.
Apply Now	Link to apply for a new loan.
Frequently Asked Questions	A list of questions and answers that are most frequently asked about a topic.

1. In the **Loan Amount** field, type or drag the slider to enter the loan amount.
2. In the **Loan Tenure (Years)** field, type or drag the slider to enter the loan tenure in years.
3. In the **Interest Rate** field, type or drag the slider to enter the interest rate.
4. Click **Calculate**. The application calculates and displays the monthly installment along with the total interest payable, and the total payment need to be done for the loan required.

4.2 **Loan Eligibility Calculator**

Loan eligibility calculator plays an important role in helping a customer understand their current position with respect to their borrowing capacity. The calculator enables customers to gain an understanding of their loan eligibility, considering their average monthly income and expenditure. It computes the loan amount and repayment amount based on income, expense, interest rate and tenure of the loan. Loan eligibility is calculated by the application and is displayed to the customer.

The eligibility is calculated on the basis of:

- The customer's average monthly income
- The customer's average Monthly Expenditures
- Tenure of the loan being inquired applied
- Estimated rate of interest

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Loans & Finances tab > More Actions > Loan Calculator > Loan Eligibility Calculator

OR

Dashboard > Overview widget > Loans & Finances card > Accounts > More Actions > Loan Calculator > Loan Eligibility Calculator

OR

Dashboard > Toggle Menu > Menu > Financial Management > Personal Finance Management > Calculators > Loan Calculator > Loan Eligibility Calculator

OR

Bank's Portal Page > Customer Services > Calculators > Loan Calculator > Loan Eligibility Calculator

Loan Eligibility Calculator

Field Description

Field Name	Description
Gross Monthly Income	The user is required to specify his gross monthly income.
Monthly Expenses	The user is required to specify the total amount spent per month towards expenses.
Duration (In Years)	The user is required to specify the desired loan tenure in years.
Rate of Interest	The user should specify the desired interest rate of the loan.
Eligibility Amount	Based on all the values defined by the user in the previous fields, the system will calculate the amount of loan that the user is eligible to borrow.
Average Installment	The system will display the estimated monthly installment amount.
Apply Now	Link to apply for a new loan.
Frequently Asked Questions	A list of questions and answers that are most frequently asked about a topic.

1. In the **Gross Income (Monthly)** field, enter your monthly income.
2. In the **Total Expenses (Monthly)** field, enter your monthly expenses.

3. In the **Loan Tenure (In Years)** field, enter the desired loan tenure.
4. In the **Interest Rate (In %)** field, enter the rate of interest.
5. Click **Calculate**. The application (In %) calculates and displays the eligible loan amount and the average installment amount.

4.3 Term Deposit Calculator

The Term Deposit calculator gives an indication to the user about the maturity amount which will be available, if a particular amount is invested at the bank and left for a fixed period of time. It calculates the total amount of the term deposit at the end of maturity period. The user can choose amongst different products which suits his requirements best.

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Deposits tab > More Actions > Term Deposit Calculator

OR

Dashboard > Overview widget > Term Deposits card > More Actions > Term Deposit Calculator

Term Deposit Calculator

The screenshot shows the 'Term Deposit Calculator' interface on the Futura Bank website. The interface is divided into two main sections: a calculation form on the left and an informational section on the right.

Calculation Form:

- Calculate Your Term Deposit:**
 - TD Product:** FD-Floating Rate (dropdown menu)
 - Currency:** GBP (dropdown menu)
 - Term Deposit Amount:** A slider input field with a minimum value of 1000 and a maximum value of 9500000. The current value is set to 5,928,220.00. A label indicates 'Gross Monthly Income: GBP 5,928,220.00'.
 - Tenure:** Three input fields for Years (5), Months (4), and Days (12).
 - Calculate:** A button to perform the calculation.
- Results:**
 - Maturity Amount:** GBP 6,931,859.35
 - Total Interest:** GBP 1,003,639.35
 - Rate of Interest:** 17.00%
 - Apply Now:** A button to proceed with the application.
 - Visual Representation:** A pie chart showing the breakdown of the maturity amount: 86% Principal (dark blue) and 14% Total Interest (orange).

Informational Section:

- Unlock the freedom to invest on your terms!**
 - Invest today and watch your savings flourish like never before. Our Term Deposit product offers attractive interest rates which will help earn higher interest on your savings, along with flexibility and security. Our investment products assist to meet every individual's financial needs and attain a secure future.
 - You can open a fixed deposit with us through internet and mobile banking channels. Alternatively, for in-person assistance, please contact your relationship manager or visit the nearest bank branch. Watch your money grow with Futura Bank Deposit.
- At a Glance:**
 - Flexible choice of deposit tenor
 - Multiple redemption options for growing income
 - Cover shortfalls in savings account by sweeping in funds from linked deposits
- [Check our interest rate here](#)

Footer: The bottom of the page features a navigation bar with links to 'Current & Savings', 'Loans & Finances', and 'Deposits'.

Field Description

Field Name	Description
TD Product	The name of the product under which the term deposit is to be opened.
Currency	Currency in which the deposit is to be held.
Term Deposit Amount (Gross Monthly Income)	The customer is required to specify the amount for which the deposit is to be opened.
Tenure	Option to specify tenure in terms of Years / Months / Days.
Maturity Amount	The value of your deposit at maturity.
Total Interest	Displays the calculated amount as interest on the principal amount of deposit.
Interest Rate (In %)	Rate Interest applicable to the TD account to be opened.
Pie Chart	Displays the Principle Amount and Total Interest Amount in percentage (%).

To calculate deposit value at maturity:

1. From the TD **Product** drop-down list, select the term deposit product under which the TD is to be opened.
2. From the **Currency** drop-down list, select the desired currency in which the deposit is to be held.
3. In the **Term Deposit Amount (Gross Monthly Income)** field, type or drag the slider to enter the deposit amount.
4. In the **Tenure** fields, enter the relevant information in the **(Years/ Months / Days)** fields.
5. Click **Calculate**. The application calculates and displays the deposit value at maturity.

Note: Click on the **Apply Now** to open a new term deposit.

4.4 Forex Calculator

The foreign exchange calculator calculates the rate at which one currency can be exchanged for another. The Calculator displays the converted amount and the currency exchange rate applied. Exchange rates of only predefined currencies can be viewed by the customer.

Exchange rates for the currency will be fetched online from the host system and calculations will be done based on the exchange rate retrieved.

Features Supported In the Application:

This section enables user to see the value expected for a conversion of currency into other.

- Exchange rate of currencies
- Calculation of amount of currency converted to the other

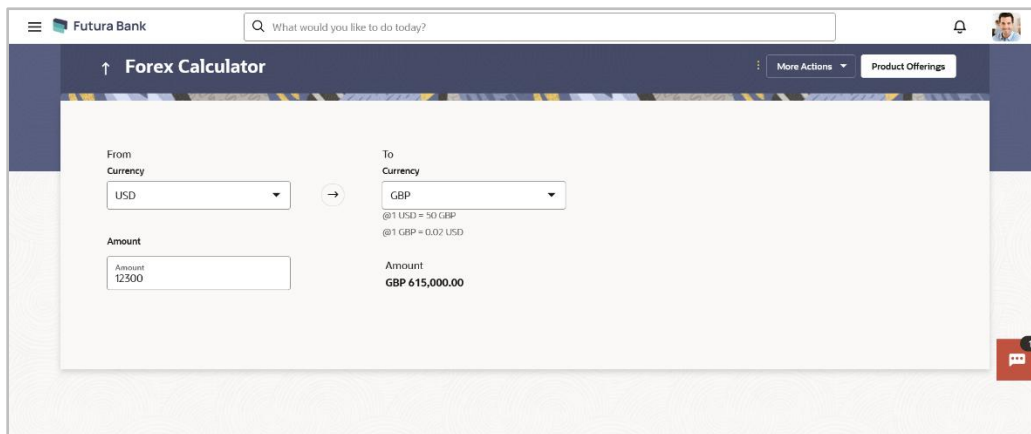

Pre-Requisites

- Support for the currencies provided by host

How to reach here:

Bank's Portal Page > Customer Services > Calculators > Forex Calculator

Forex Calculator

Field Description

Field Name	Description
From	
Currency	Currency to be sold for which the exchange rate is to be inquired.
Amount	Amount for which conversion is required.

Field Name	Description
------------	-------------

To

Currency Buy currency for which the exchange rate is to be inquired.

Amount Amount which you will get post conversion.

To calculate currency exchange amount:

1. From the **From – Currency** list, select the appropriate currency.
2. In the **Amount** field, enter the amount to be converted.
3. From the **To - Currency** list, select the currency and enter the amount in the next field.
4. Application calculate and displays the currency exchange value.
The exchange rate for both the buy and sell options for currency pair entered, appears.

5. First Time Login

When a new user logs into the application for the first time with the user name and password provided by bank, there are certain tasks that he/she needs to fulfill before being able to access the online services of the bank. These steps are configured by Bank and can include accepting Terms and Conditions, Setting up Security Question, My profile and limit information.

Note: The steps and sequence for 'First Time Login' may vary for different users as defined or configured by System Administrator.
Each step will either have **Next** or **Skip** button basis on the configuration done by Bank Administrator.

Prerequisites:

- The bank administrator has enabled the First time login steps for Business users.

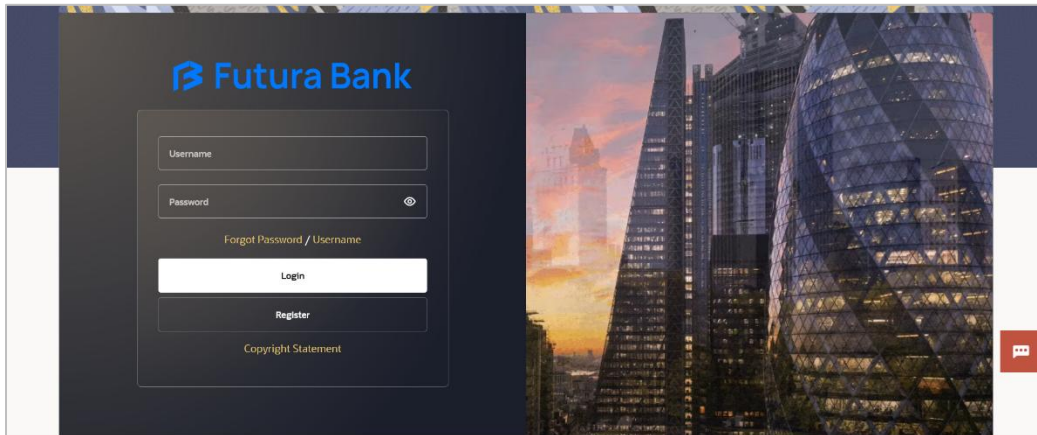

How to reach here:

Portal Page > Login

To log in to the application:

1. Open an internet browser to access the application.
2. Type the Oracle Banking Digital Experience URL in the Address bar, and press Enter.
The **Portal** page appears.
3. Click **Login**.
The **Login** screen appears.

Login

Field Description

Field Name	Description
Username	Enter your login user name. <hr/> Note: Usernames are case insensitive i.e. User can login in OBDX with any case. <hr/>
Password	Enter your login password.

4. In the **Username** field, enter your user name.
5. In the **Password** field, enter your password.

Note:

- 1) Click inside the field, the Virtual Keyboard link appears. Click on the link to use virtual keyboard to enter the Username/Password.
 - 2) The characters typed in the **Password** field appear masked (•••••) for security reasons.
-

6. Click **Login**.
The next **configured** screen appears.
-

Note: Force Change password is not a part of First Time Login flow wizard, this screen will appear for every new user.
The Force Change Password screen will only appear for users for whom the password is set by administrator and not for the users who have self-registered themselves.

First Time Login - Terms and Condition

Welcome, Jones Smith
Last login: 21 Nov 02:39 AM

Thank You for choosing Futura Bank as your Banking needs partner.
We welcome you to the Futura Bank family.
Happy Banking!!!

Terms and Conditions

These Terms mentioned herein form the contract between the User using the Internet Banking services and the Bank. By applying for Internet Banking Services and accessing the service the User acknowledges and accepts these Terms of Service (Terms and Conditions). Any conditions relating to the accounts of customer other than these Terms will continue to apply except that in the event of any conflict between these Terms and the account conditions, these Terms will continue to prevail. The agreement shall remain valid until it is replaced by another agreement or terminated by either party or account is closed, whichever is earlier.

1. APPLICATION FOR INTERNET BANKING SERVICES

The Bank may offer Internet Banking Service to selected customers at its discretion. The customer would need to be Internet User or have access to the Internet. The acceptance of the application and the acknowledgement thereof does not automatically imply the acceptance of application for Internet Banking Services. The Bank may advise from time to time the Internet software such as browser, which are required for using Internet Banking Services. There will be no obligation on the part of the Bank to support all the versions of this Internet software.

2. INTERNET BANKING SERVICES

The Bank shall endeavor to provide to the User through Internet Banking services such as inquiry about the balance in his/her account(s), details about transactions, statement of account, request for issue of cheque-books, request for transfer of funds between accounts of the same User and other accounts and many other facilities as the Bank may decide to provide from time to time. These facilities shall be offered in a phased manner at the discretion of the Bank. The Bank at its sole discretion may also make additions/deletions to the Internet Banking Services being offered without giving any prior notices or reasons. The availability/non availability of a particular service shall be advised through the web page of the Bank or written communication or any other mode as the Bank thinks fit. The Bank shall take reasonable care to, ensure the security of and prevent unauthorized access to the Internet Banking Services using technology reasonably available to the Bank. The User shall not use or permit to use Internet Banking Service or any related service for any illegal or improper purposes.

The USER would be allotted a User-id and a password (to be used at the time of login) by the BANK in the first instance. The USER will be required to mandatorily change the User-id and password assigned by the BANK on accessing Internet Banking Services for the first time.

As a safety measure the USER shall change the password as frequently as possible, at least once in 90 days. In addition to User-id and Password the BANK may, at its discretion, advise the USER to adopt any other means of authentication including but not limited to One Time SMS Password and/or Digital certification issued by Bank, licensed or approved Certifying Authorities or vendors.

The USER shall not attempt or permit others to attempt accessing the account information stored in the computers and computer networks of the BANK through any means other than the Internet Banking Services.

3. USER-ID AND PASSWORD

The USER shall:

1. Keep the User-id and password totally confidential and not reveal them to any third party.
2. Create a password of at least 8 characters long and shall consist of a mix of alphabets, numbers and special characters which must not relate to any readily accessible personal data such as the USER's name, address, date of birth, telephone number, vehicle number, driver license etc. or easily guessable combination of letters and / or numbers.
3. Commit the User id and password to memory and not record them in a written or electronic form, and
4. Not let any unauthorized person have access to his computer or leave the computer unattended while using Internet Banking Services.
5. Not disclose/reveal his/her personal or confidential information to anyone over email/SMS/phone call even if it's purportedly from our bank. Our bank or any of its representatives will never send you email/SMS or call you over phone to seek your personal information like Username, passwords, One Time SMS passwords etc. For tips on safe usage of password(s), "Password Management" displayed as a link on the login page of our bank may be referred.
6. Not access internet banking if his/her computer device is not free of malware (Viruses, Trojans, etc.).

In the event of forgetting of User-id and/or password or expiry/ disability of password(s) USER can request for change of the password by sending a written request to the BANK or call up the customer care. The selection of a new password and/ or the replacement of User-id shall not be construed as the commencement of a new contract. The User agrees and acknowledges that BANK shall in no way be held responsible or liable if the User incurs any loss as a result of compromise of User id and password by the User himself or user has failed to follow the Internet Banking Service Instructions as published by the BANK on the site from time to time. User agrees to fully indemnify and hold harmless BANK in respect of the same.

Locking of User ID

Internet Banking Password / User ID shall get locked after a number of incorrect attempts, up to such number (at present 3 failed attempts) as may be decided by the Bank from time to time. The same shall be available on the next day. In case of emergency, the User ID / password can be unlocked through the branch.

Deactivation of User ID

The Bank has the discretion to deactivate a User Internet Banking ID, if the same has not been used for a period defined by the Bank. Also the Bank has the right to deactivate the Internet Banking login of User due to unsatisfactory behavior in the account.

-  **Help** : Click this menu to launch the online help.
-  **About** : Click this menu to view the information about the application like version number, copyright etc.
-  **Logout** : Click this menu to log out of the application.

Overview

This section displays an overview of the customer's holdings with the bank as well as links to various transactions offered to the customer. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans Credit Cards, and Investments. The user can select an account type in order to view details of each account belonging to that specific account type. It is a container and user can scroll from left to right, right to left.

The account types that can be listed in this widget are as follows:

- Current & Savings
- Term Deposits
- Recurring Deposits
- Loans and Finances
- Credit Cards

The **Overview** widget displays cross sell cards i.e. cards which enable the user to navigate to the other modules of the bank. The **Overview** widget displays the customer's holdings in each account type such as Current and Savings Accounts, Term Deposits, Loans, Credit Cards as well as links to various transactions offered to the customer. The widget displays details specific to that account type, such as summary of that specific module which consists of information like the total count of accounts/loans/cards, etc. held by the customer with the bank along with information such as the current balance across all accounts of that module, total dues (in case of credit cards), the total amount of loan outstanding, etc.

On clicking on any account type card, the summary page gets displayed which consists of information such as the total count of accounts/loans/cards, etc. held by the customer with the bank, along with information such as the current balance across all accounts of that module, total dues (in case of credit cards), the total amount of loan outstanding, etc. Each record or card (in case of credit cards) also contains a kebab menu which provides the user with the quick access to screens related to the specific module.

Note: The **Overview** widget is applicable for both desktop and mobile (responsive) view.

Quick Insights

This widget will display notifications to the user based on events such as when the user's term deposit is nearing maturity or has matured, an upcoming credit card bill due date, etc. A separate card will be displayed for each event and the user will be able to take actions as provided on each card. Multiple cards can be displayed at a time in the widget and the user will be able to scroll through the cards. Following are the insights added for Business user:

- Personal Loan to Credit Card user: If a credit card customer is making partial credit card payment or if the credit card payment is overdue, an Insight will be shown to the customer to avail a Personal Loan from the bank to pay the credit card outstanding amount.
- Investment advice on deposit maturity: If a user's Deposit account has just matured, an Insight will be shown to invest the proceeds in another Deposit account to get better returns as compared to just keeping the funds in the savings account.
- Investment advice on Excess funds: If a user's Savings Account has some excess funds (amount threshold defined by the bank admin), an Insight will be shown to invest the excess amount in a Deposit account to get better returns as compared to just keeping the funds in the savings account.
- Renewal advice for deposit nearing maturity: If a user's Deposit account is nearing maturity and auto-renew is set to 'Off' for the deposit, then an Insight will be shown to user to enable auto-renew for the deposit
- Warning on insufficient funds: If the user's account does not have sufficient funds for upcoming payments scheduled for the current month, then a warning is shown to the customer. There are options to see the details of the upcoming payments as well as to add funds to the account.
- Relevant activities for the customer: There is a widget that lists the frequently used activities by the user. It allows the user to quickly navigate to the desired section of the application.

Recent Transactions

This widget displays the recent activity in the user's Savings, Term Deposit and Loans accounts. It displays the date of transaction, a description of the transaction and the debit / credit amount. The user can select an account number of a particular account type, to view the recent account activity of that account.

Click the **View All** link to view the statements of the selected account type.

Bills

The Bills widget enables the Business user to access the Electronic Bill Payments and Presentment related transactions. Different bills are placed on the widgets, which enables the users to pay utility bills towards various types of billers such as 'payment', 'payment and presentment or recharge'. All the bills, that are due to be paid are listed in this widget, users can pay their bills easily and quickly. The bill payments widget enables the user to gain easy access to the following transactions and features:

- **Pay Now:** This feature enables users to pay utility bills towards various types of billers like 'payment', 'payment and presentment, recharge.
- **View All :** This feature enables users to view all the billers.

Payments

The Payments widget enables the Business user to access certain transactions available under the payments module. Different transactions are displayed on the widget in the form of icons, which gives the user easy access to these transactions.

Icons for the following transactions are displayed in this widget:

- **Transfer Money:** This transaction enables the user to initiate a transfer to a registered payee.
- **Pay Bills:** This transaction enables the user to make utility bill payments.
- **Favorites:** This option enables the user to access his favorite transactions. This feature enables the user to quickly initiate payments towards a payee or a biller without having to enter details of the transfer or payment as the details are pre-populated based on prior setup. Favorite transactions can be of two types: Bill Payments and Money Transfer.
- **Manage Payees & Billers:** By selecting this option, the user can navigate to the screen on which he can manage payees and registered billers.
- **Request Money:** This feature enables the user to initiate a request to pull money from a debtor.
- **View Repeat Transfers:** This transaction enables the user to view and setup repeat transfers. All customer payments, that are periodic in nature, can be set-up and managed here.

Term Deposits

This widget displays the list of four term deposits that are closest to reaching maturity.

The following details along with the progress bar are displayed per record on the widget:

- Term Deposit Number- click on the link to view deposit details
- Current Balance Amount (with currency)
- Maturity Amount (with currency)
- Maturity Date

Click on the '**View All**' link to view the Term Deposits summary.

Service Requests

The service requests widget displays the number of open service requests initiated by the customer as well as the service requests that are recently closed. The customer can raise a new request and track the status of open service requests.

Advisors

This widget displays the names and contact details of the user's relationship managers.

Note:

- 1) Click  arrow to go back to the **previous** page.
 - 2) User can access the transactions under 'More Actions' based on the status of Credit Card/ Debit Card/ Loan Account/ Term Deposit account/ CASA account.
 - 3) All transactions are supported on 'Desktop', 'Mobile' and 'Tablet' form factor.
-

Transactions: This section has the following tabs

- Approvals
- My Initiated List
- Transaction Log

1) Approvals

It has two sub tabs: Pending for approval and Approved/ Rejected

Pending for Approval

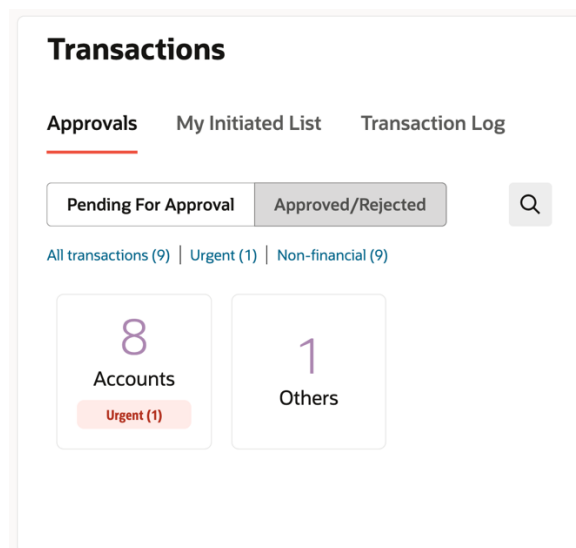

This section displays the details of transactions that are initiated by the maker and are pending for approval. It is briefly classified into two broad categories a) Financial and b) Non-Financial. User can click each link to view the details of transactions that are pending for approval.

The transactions pending approval within a period can be searched across modules by providing a date range. The financial and non-financial sections display module wise count of transactions which are pending approval. The details can be viewed either in a graphical format or in a list format using a switch option.

Click on  icon to search the transactions based on Date range.

Note:

- If for any module, the pending approval count is '0', then it will not be shown in the list.
-

This displays the financial transactions - further categorized into following modules:

Financial: This displays the financial transactions initiated by the maker and further categorized as below:

- Accounts - The details of activity log are:
 - Date: Date of the transaction
 - Description: Description of the transaction
 - Account Number: Account number of the transaction

 - Transaction Type: Type of the transaction initiated
 - Description: Description of the transaction
 - Reference Number: Reference Number of the transaction
 - Status: Status of the transaction

For more information, refer section **Transaction Log** under **Approval** chapter.

Transaction Journey

Click the **reference number** link on the description of activity log to view the Transaction Journey

This screen displays the transaction details and transaction journey of a transaction, and the current status of transaction whether it is Initiated, Approved, Locked, Modification Requested or Processed.

When the user selects a transaction in 'Initiated' status, an option to assign approval workflow is available. Click on **Assign**, and select the approval workflow from the resolved workflows for the Initiated transaction, where transaction approval workflow is not assigned.

7. Approvals

Each user is assigned a particular task to perform as per their position in the hierarchy of the bank/ business. Transaction created by initiator in the system is routed to the appropriate authorized signatory or group of signatories for approval depending upon the configured rules. A transaction needs to be approved by all the required approvers. A releaser may also be required to release the transaction for further processing once all approvals are completed. The Release facility can be enabled or disabled. There can be a situation wherein a transaction is pending approval and the approver is on leave. In such cases, the user must be able to re-route the transaction to another approver and mark it as high priority.

The Approvals Management function enables the user to view a summary of all the transactions pending for approval and release across different modules. The user can select the pending transactions and approve, release or re-route them as applicable.

Features supported in application.

- View and Approve Transactions Pending Approval
- Re-route and Prioritize Transactions
- View and Release Transactions Pending Release
- View Initiated Transactions
- View Approved Transactions
- View Transaction Log

7.1 Pending for Approval

The transactions that have been initiated by the maker and are pending for approval/checking are listed here. The approver logs into the application, and views all the transactions that are pending for the user's approval.

When an approver/ checker logs in, the transactions pending for approval and checking will be shown as a consolidated count on the dashboard. All the users with check and approve privilege will be able to view the transactions. Dashboard displays the following:

- Count of all the transactions pending approval /checking
- Count of the financial and non-financial transactions pending approval/checking out of the total count
- Count the urgent transactions (prioritized and in grace period) pending approval

The financial and non-financial sections display module wise count of transactions pending approval. A specific transaction can be searched across modules by providing the exact reference number. The details of the transaction pending approval within the module can be viewed through the count link. Information of all the transactions pending approval within a module can be seen along with the prioritized and in-grace tags. Further drill down to view details of a specific transaction before approve/reject is available through the reference number link.

Module specific filters are provided to search for transactions pending approval within a module. The filters as well as the transaction information shown depend upon the selected module. The approver can select specific transaction or all transactions listed on that page or all transactions across pages of the selected module and approve or reject the selected records, with comments if any.

The approver can Lock a transaction pending approval, with comments if any. Approver can also Lock a transaction, if something needs to be verified operationally before approving it. Once a transaction is locked, no action (like approve, reject, send to modify) will be allowed on that transaction and the transaction status will be changed to 'Locked'. Maker will be able to see transaction with "Locked" status in his transaction log. Approver who is a part of the approval workflow of the locked transaction and is authorized to approve the transaction, will be able to unlock that transaction through the transaction approval page. Once the transaction is unlocked, it will be available for approval to the users as per the resolved approval workflow.

The approver/checker can approve or reject the transaction/s. For only specific transactions, Send to Modify functionality is enabled. Also approver can send the transaction back to modification, which are pending his approval, with comments if any.

On approval/rejection of a single transaction, the 2 factor authentication setup for individual transactions will be applicable. In "Authentication" menu, the administrator is expected to configure 2 Factor Authentication mechanism against individual transactions.

On enabling the 2-factor authentication for multiple transactions in Authentication menu, the same will be applicable even for approving and rejecting the transaction/s as a checker.

The detailed transaction journey of a transaction pending check can be seen.

Note: For a checker, the limits are not validated.

Pre-Requisites

- Accessible Roles for Business
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction
- Party Preference is maintained for business user

OR

Click **Cancel** to cancel the transaction.

The screen with success message appears.

Note: If the configuration to set to allow enabling multi transaction approval with 2-factor authentication, based on the 2FA set, system prompt user for verification.

7.2 **Re-route and Prioritize**

There can be a scenario wherein a transaction is pending approval and the approver is on leave. In such cases, the user must be able to re-route the transaction to another approver. A user can re-route a transaction if he/she has perform access for re-route transaction and view/approve privilege for the specific transaction being re-routed/prioritized. The approver logs into the application and views all the transactions that are pending for the user's approval and release. Different tabs display the transactions which are pending for approval and release.

The Reroute & Prioritise dashboard displays, the financial and non-financial sections having module wise count of transactions pending approval/release, along with the urgent transactions (prioritized and in grace period) pending approval/release. The user can view summarized details of the transactions pending approval within the module and can filter the transaction based upon different search parameters. The user can re-route or mark a transaction as high priority upon viewing the transaction details within the module.

User can reroute multiple transactions together. Transactions with the exact matching approval rules (provided all rules of one transaction is/are matching with another transaction) will be grouped together along with the evaluated rules e.g. multiple transaction buckets/groups with multiple or single resolved rule/s. A request ID will be generated for the grouped transactions. Maker can select one approval rule against the group and will be able to route the transaction.

A Day 0 configuration is available to configure the number of days after which the unused request IDs will be deleted. The default value of this configuration is 1 day which means that after 1 day, a scheduler will run and delete all the request IDs which were not re-routed.

Note:

- Un-grouping and re-routing the transaction to different rules will not be permitted. In order to achieve this, transactions need to be re-routed individually.
 - Transaction will be routed in an asynchronous manner.
-

In order to re-route a transaction(s), the user must click on **Assign**. On clicking the same, the user can select a new rule (approval or release) out of all the resolved rules. The **Re-route Workflow** tab of **Workflow Details** overlay displays all the resolved rules applicable at the time of re-routing along with the current rule. The newly selected workflow will start from level 1 for approval and the limits of the approvers who already approved the transaction will be reversed upon re-routing.

For a transaction(s) pending release, the user can re-route or mark a transaction(s) as high priority upon viewing the transaction details within the module. In order to re-route a transaction(s), the user must click on **Assign**. On clicking the same, the user can select a new release rule out of all the resolved rules. On submitting the rule, the new route information will be assigned to the releaser. On submission, only the release workflow will be re-routed. The approval workflow will not be re-routed

On re-routing, a notification will be sent to all the users who have already approved it, user/user group with whom approval was pending as per the existing workflow, maker of transaction, and users of the new workflow. Upon re-routing, the re-routing/prioritization maintenance action can also be seen in the Transaction Journey of the re-routed transaction.

Note: The **Re-route Workflow** tab displays the resolved rule details such as Sequential and Non-Sequential/Parallel, Details of user and user groups (Users within groups), and Amount Slab of the resolved rule.

An option is provided to set a high priority for the transaction and to undo it. On prioritization, a notification will be sent to the approver with whom the transaction is currently pending and maker of transaction.

Pre-Requisites

- Accessible Roles for Business
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction

Re-route Workflow tab	
Rules for re-route	Displays the rules for re-routing for the group.
Prioritize	Click on the Priority link to set the priority for the transaction. <div>Note: Click Undo Prioritized link to remove the priority level of the transaction.</div>

7.2.2 Pending for Release

Dashboard displayed below the **Pending for Release** tab, the financial and non-financial sections having module wise count of transactions pending release, and the urgent transactions (prioritized and in grace period) pending release. The user can be a maker, approver or releaser i.e. whoever has re-route access will be able to re-route transactions pending approval or release. It displays the count of all the transactions pending release as well as the financial and non-financial transactions pending release. The total count of urgent transactions (prioritized and in grace period) pending release.

The user can view summarized details of the transactions pending release within the module and can filter the transaction based upon different search parameters. The user can re-route or mark a transaction as high priority upon viewing the transaction details within the module. In order to re-route a transaction, the user must click on **Assign**. On clicking the same, the user can select a new release rule out of all the resolved rules.

Note:

- 1) At a time, only one transaction can be selected for re-routing.
- 2) When a releaser logs in, the high priority transaction will be listed on top of all the transactions which are pending release.

Re-route and Prioritize – Pending for Release

The screenshot shows the 'Reroute And Prioritize' interface for 'Pending For Release'. At the top, there's a navigation bar with 'futura bank' logo, a search bar, and user information 'Welcome, david khan'. Below the navigation bar, the 'Pending For Release' tab is selected. The main area displays a summary of transactions with filters for 'All' (5), 'Financial' (4), 'Non Financial' (1), and 'Urgent' (1). There is also a 'Reference Number' search field. Below this, a table shows the breakdown of transactions: 'Financial' (Payments: 4, Urgent: 1) and 'Non Financial' (Others: 1). A 'Back' button is at the bottom left. The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [Security Information] Terms and Conditions'.

4. Select the group to which workflow to be re-routed.
5. Click on the **Assign** option to re-route the selected group. The **Reroute** overlay screen appears.

In the **Re-route Workflow** tab:

- a. View and select new approval rule to re-route from all the resolved rules applicable at the time of re-routing for the group.
- b. Click **Re-route** to assign the workflow to the selected group.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous screen.
OR
Click **Prioritize/ Undo Prioritized** to update the priority status of the transaction.

Workflow Details - Re-route Workflow tab

Note: User is allowed to select one out of the resolved rules for re-routing.

Field Description

Field Name	Description
Re-route Workflow tab	
Rules for re-route	Displays the rules for re-routing for the group.
Prioritize	Click on the Priority link to set the priority for the transaction.
	Note: Click Undo Prioritize link to remove the priority level of the transaction.

7.3 **Pending for Release**

The transactions that have been configured for and are pending for release are listed here. The releaser logs into the application, and views all the transactions that are pending for a release.

Dashboard displays the financial and non-financial sections with module wise count of transactions pending release, and the urgent transactions (prioritized and in grace period) pending release.

The details of the transaction pending release within the module can be viewed through the count link. Information of all the transactions pending release within a module can be seen along with the prioritized and in-grace tags. Further drill down to view details of a specific transaction before approve/reject is available through the reference number link.

Module specific filters are provided to search for transactions pending release within a module. The filters as well as the transaction information shown depend upon the selected module. The releaser can select specific transaction or all transactions listed on that page or all transactions across pages of the selected module and release or reject the selected records, with comments if any.

On approval/release of a single transaction, the 2 factor authentication setup for individual transactions will be applicable. In “Authentication” menu, the administrator is expected to configure 2 Factor Authentication mechanism against individual transactions.

On enabling the 2-factor authentication for multiple transactions in Authentication menu, the same will be applicable even for approving and release the transaction/s as a checker. Each transaction in the multi-select release would be released as per the release workflow setup for each individual transaction.

Pre-Requisites

- Accessible Roles for Business
- Workflow and Approval Flow preference
- Party and User level account access
- Approval workflow and Rules setup for banking transaction
- Party Preference is maintained for business user

7.5.1 Withdraw Transactions Pending Approval

The transactions, which are pending approval, have an option to withdraw the transaction. Using this option user can withdraw the transaction from the transaction details. Once the maker withdraws the transaction, the transaction is removed from the Approver's pending for approval transaction list.

The transaction aspect will drive the **Withdraw** option. The bank can configure the transaction aspect for **Withdraw** option. Out of box, **Withdraw** option will be available for a business user as well as administrator.

Note: For the withdrawn transactions, the status will be changed to **Withdrawn**, which will be displayed on Train Journey, Detailed Journey, and Transaction Log.

7.5.2 Copy/Re-initiate Existing Transactions

The maker can view the details of transaction by clicking on transaction available in “Transaction Log”. The **Copy** feature is provided to copy the transaction details to a new transaction with all required details in editable form.

The transaction aspect will drive the **Copy** option. The bank can configure the transaction aspect for **Copy** option. Out of box, **Copy** option will be supported for business users only.

Note: The copied transaction will behave as a new transaction being initiated. The approval rules will be evaluated and the transaction will be sent for approval as per the evaluated rules.

7.6 Transaction Log

Displays the list of all the type of transactions initiated like account financial, account non-financial, bulk file, bulk record, payee, biller and payments transactions.

It is divided into two categories broadly; Financial and Non-Financial. The logged in user can view the transaction summary with respective statuses and details. The Business Maker/Approver can view the status of transactions if a transaction failed to submit to the Host after approving multiple transactions from the Digital Banking Platform.

The details can be viewed either in a graphical format or in a list format using a switch option.

On selecting either the Financial or the Non-Financial transaction options, the modules under the particular option are displayed. Click the **Module** link to view the list of transactions in it.

How to reach here:

Business User Dashboard > Toggle menu > Menu > Transactions > Transaction Log

Transaction Log

Field Description

Field Name	Description
Count of transactions	<p>All- Displays the total count of all the transactions by user</p> <p>Financial- Displays the count of financial transactions out of the total count</p> <p>Non-Financial- Displays the count of non-financial transactions out of the total count</p> <p>Urgent- Displays the total count of urgent transactions (prioritized and in grace period)</p>
Financial Table	<p>Displays the module wise count of financial transactions.</p> <p>It also displays the following details:</p> <ul style="list-style-type: none"> Count of transactions within each module Count of urgent transactions (prioritized and in grace period) <p>Click on the count link to view the list of all transactions within the module.</p>

Field Name	Description
Non-Financial Table	<p>Displays the module wise count of non-financial transactions.</p> <p>It also displays the following details:</p> <ul style="list-style-type: none"> • Count of transactions within each module • Count of urgent transactions (prioritized and in grace period) <p>Click on the count link to view the list of all transactions within the module.</p>

FAQ

1. **How can I access different dashboards if multiple roles are assigned to me?**

A drop down is available on the top navigation bar to switch between the different dashboards if multiple roles are assigned to you.

2. **Will I be able to see the current status of a transaction initiated by me?**

Yes, transaction journey section shows the latest status of the transaction along with the date, time and name of the user last acted on the same.

3. What are quick links; can I change the transactions appearing under quick link section?

Quick links gives you easy access to some of the more commonly used transactions/maintenances in the system. You cannot change the transactions appearing under quick link section.

4. Can I remove/grant access of a transaction to System/Bank administrator?

Yes, transaction access can be given or removed for a particular application role from role transaction mapping function.

5. List the transactions in the below statuses can be withdrawn and cannot be withdrawn?

Below are the transactions with the below statuses can be withdrawn and cannot be withdrawn:

Status which can be withdrawn	Status which cannot be withdrawn
<ul style="list-style-type: none">Initiated (Transaction initiated but not routed for approval)Pending Approval (not approved at even 1 level)Sent for Modification	<ul style="list-style-type: none">Partially Approved (approved at one or more levels)CheckedPartially Checked (checked at one or more levels)ReleasedPending ReleaseAuto ApprovedRelease RejectedRejected

8. Forgot Password

The login password is the password using which the user can log into the internet banking platform. The user cannot access his bank accounts without this password. The Forgot Password feature enables users to reset their login password. While resetting password system displays the password policy block as a popup message.

The user is required to enter his User ID and Date of Birth. Post successful validation of the user's details, user is asked to enter the second factor authentication details (as per the authentication mode maintained by the Bank).

Once the user is authenticated, user will receive a link to generate the new password, on his registered email ID.

Pre-requisites

- The user must have valid login credentials to access the digital banking platform.
- The system administrator must have setup 2 factor authentication for Forgot Password.

Features Supported In the Application

- User Verification
- New Password Creation

How to reach here:

Portal > Forgot Password

To reset the password:

1. In the **Login** page, click **Forgot Password**. The **Forgot Password** screen appears.

Forgot Password - User Verification

The screenshot displays the 'Forgot Password' user verification interface for Futura Bank. The page features a dark blue header with the bank's logo and navigation links. A search bar is positioned on the right. The main content area is a light gray box with a dark blue title bar. Inside, there is a form with two input fields: 'Username' and 'Date of Birth', both labeled as 'Required'. Below the fields are 'Cancel' and 'Submit' buttons. A red chat icon is visible in the bottom right corner.

Field Description

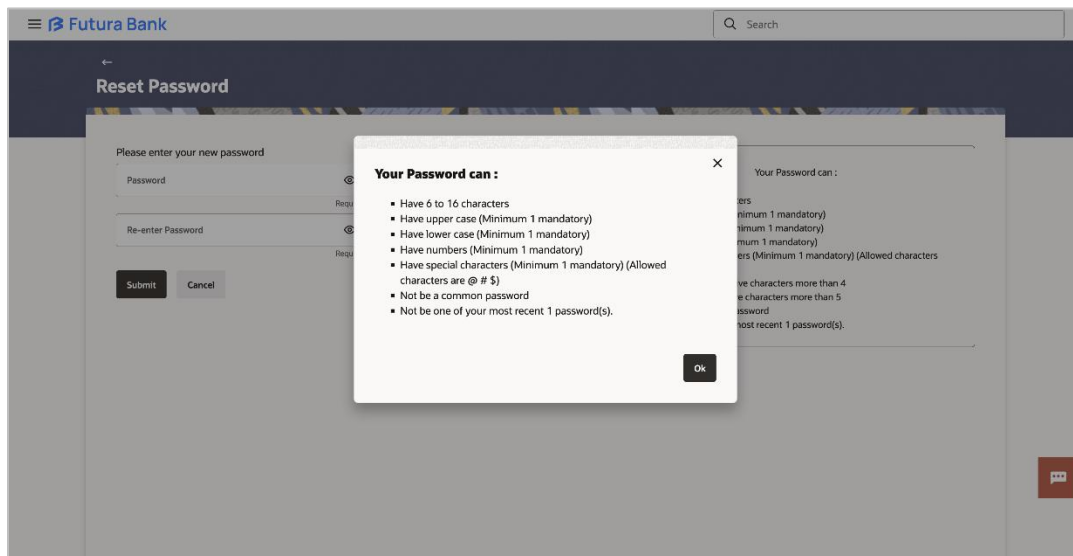

Field Name	Description
Username	Enter your login username.
Date of birth	Enter your date of birth.

2. In the **Username** field, enter your login username.
3. In **Date of birth** field, enter your date of birth.
4. Click **Submit**.
OR
Click to **Cancel** the transaction.

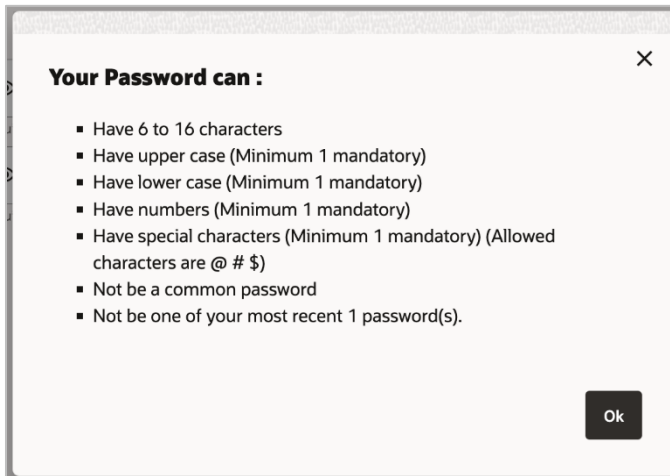

Note: Click Up arrow to navigate back to Dashboard.

5. The **Verification** screen appears. The user has to enter the 2factor authentication, before he can proceed. 2 factor authentication (OTP/Security question/Soft Token) will be displayed as per the setup done by the system administrator. A **Confirmation** screen appears, along with a message stating that the link to reset password has been sent to user's registered email.
6. Click the link received in your email to reset the password. The **Reset Password** screen appears with the **Password Policy** popup screen. Click **OK** to continue.

Reset Password – New Password Creation

Password Policy popup

Field Description

Field Name	Description
Please enter your new password	
Password	Enter a new password for channel access.
Re-enter Password	Re-enter the new password to confirm the same.

7. In the **Password** field, enter a new password.

8. In the **Re-enter Password** field, re-enter the new password.

Note: Click inside the field to use  virtual keyboard to enter the Re-enter Password/Password

9. Click **Submit**.

OR

Click **Cancel** to cancel the transaction.

10. A message confirming the successful reset of the password appears. Click **Login** to log in to the application.

9. Forgot Username

Using this feature user can retrieve his channel banking Username, in case he has forgotten the same.

Pre-requisites

- The user must have valid login credentials to access the digital banking platform.
- The system administrator must have setup 2 factor authentication for Forgot Username.

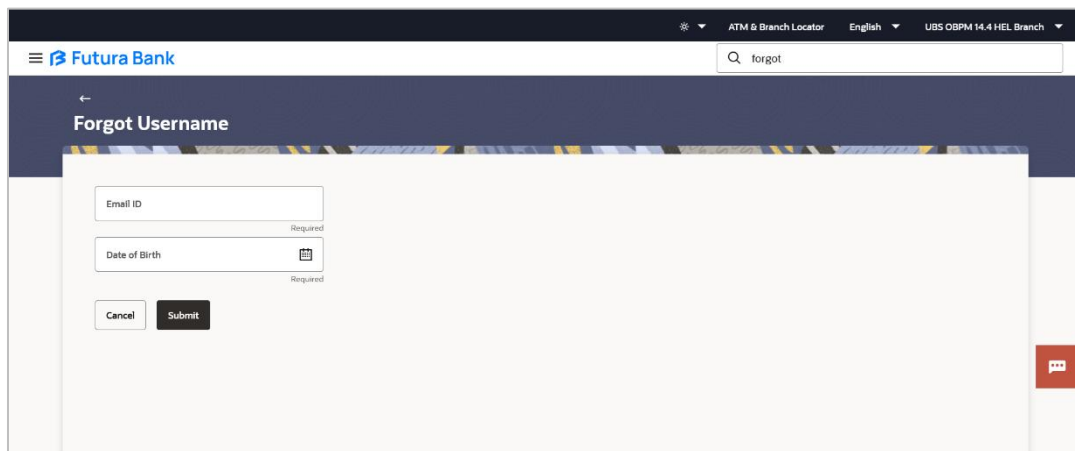

How to reach here:

Portal > Forgot Username

To reset the username:

1. In the **Login** page, click **Forgot Username**. The **Forgot Username** screen appears.

Forgot Username

Field Description

Field Name	Description
Email	Enter your email ID that is registered with the bank.
Date of birth	Enter your date of birth.

2. In the **Email** field, enter your email ID that is registered with the bank.

3. In **Date of birth** field, enter your date of birth.

Note: Click Up arrow to navigate back to Dashboard.

4. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
5. The verification screen appears if the transaction is configured for 2 Factor Authentication.
6. Enter the details required for second factor authentication.
The **Forgot Username** confirmation screen appears.
7. A message stating that the username has been sent to your registered email address appears. Click the **Click here** link to log in to the application.

Note: If a user has more than one user ID with the same email ID and DOB, then he/she will not be able to retrieve his/her User ID using the above function. In that case, the user will have to contact the bank for retrieving his/her user ID.

10. Live Chat

Multi-Modal Assisted Banking allows you to initiate a video or voice call and can share his / her screen with the Bank user in case they face an issue while completing a transaction or have any queries pertaining to their account. The multi-modal assisted banking feature is configurable. Below are the features being provided as part of the current release:

- Integration with Oracle Live Experience for assisting customer.
- An assisted banking icon across the application for end user, by clicking on which he/she can start the call.
- Business user can enable and disable this option from his user preferences.

Note: Live Chat is supported only when the user is logging from desktops.

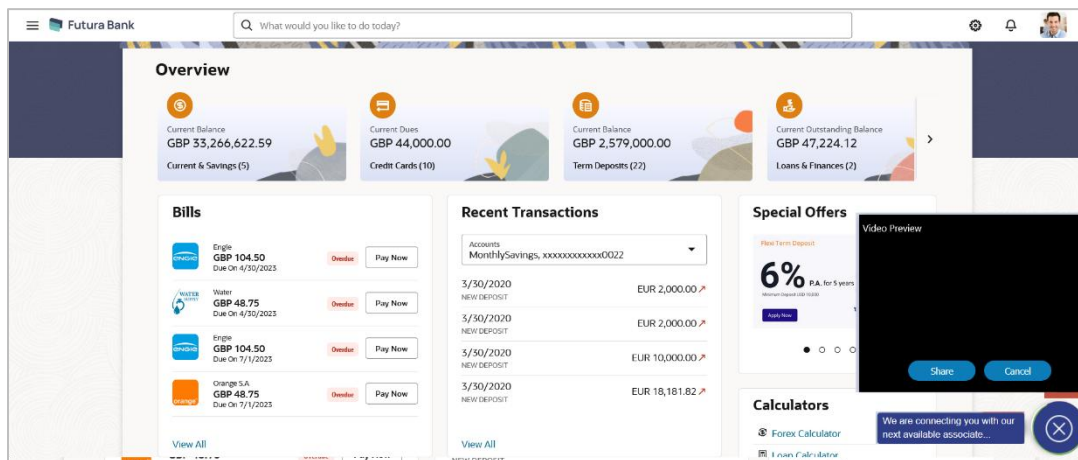

How to reach here:

Bottom right corner of the application

To start a meeting:

1. Click  icon.
2. The session recording message is displayed, Click **Yes** to continue with the modal assisted banking session.
OR
Click **Cancel** to close the session.

Live Chat

3. Application prompt user to give access to the devices like camera, microphone. Click **Allow** to give access.
OR
Click **Block** to disallows the access to devices.

4. Share your screen message is displayed. Select the application and click **Share**.
OR
Click **Cancel** to abort the live chat session.
5. The screen is shared with the customer support representative.
6. Business user can voice or video chat with the Bank executive basis on the configuration done by bank.
7. Screen shows the confirmation message once the session gets ended.

11. FATCA & CRS Form

The Foreign Account Tax Compliance Act (FATCA) is a United States federal law that was introduced to enable the Internal Revenue Service (IRS) to obtain detailed account information of US tax payers that invest and earn income through non U.S. institutions.

The Common Reporting Standard (CRS), is a global reporting standard developed by the Organization for Economic Cooperation and Development (OECD). This information standard was brought into effect for the purpose of combatting tax evasion at a global level.

The goal of both FATCA and CRS is to enable tax authorities to obtain information pertaining to the financial assets held by their citizens in foreign or overseas financial institutions, thereby greatly strengthening global tax compliance.

The FATCA and CRS Self – Certification Forms for Individuals and Entities has been created so as to capture required information for the purposes of complying with both FATCA and CRS.

A FATCA & CRS check is maintained under system configurations by the system administrator to identify if FATCA & CRS is to be enabled or not. If enabled, every time a business user logs into the banking application, the system will identify whether the user is required to fill out the form or not and further identify the type of form to be provided to the user based on the type of user. Individuals and sole proprietors will be displayed the FATCA & CRS Self – Certification form for Individuals and Corporates and other business entities will be displayed the FATCA & CRS Self – Certification form for Entities. Moreover, the FATCA & CRS Self – Certification form for Entities will be made available only to users that are accessing the online banking services of the entities in the capacity of trustees, sole owners or authorized signatories.

This section documents the information captured in the FATCA & CRS Self – Certification forms for both Individuals and Entities.

Workflow

The following workflow identifies the steps involved in the process of capturing customer information required from the view point of complying with FATCA & CRS, considering that the FATCA & CRS check in system configuration is set to Enabled.

How to reach here:

Business Dashboard > FATCA and CRS Self - Certification Form link > FATCA and CRS self - certification Form

11.1 FATCA & CRS Self - Certification Form for Individuals

The FATCA and CRS – Self Certification form for Individuals is displayed to those users that are required to fill out the FATCA and CRS form and are either individuals or sole proprietors. The sections that consist of this form are documented as follows:

To fill the FATCA & CRS Self - Certification Form for individuals:

1. Select the **FATCA & CRS** link displayed as part of a message on the dashboard. The FATCA & CRS Self - Certification Form for Individuals appears.

11.1.1 Customer Identification

What is FATCA & CRS?
&
Why are you being asked to fill
this form?

FATCA (Foreign Account Tax Compliance Act) and CRS (Common Reporting Standard) aim at combatting tax evasion on a global level.

As per the Inter-governmental agreement (IGA) with the US and OECD, all financial institutions including Zigbank are required to obtain self-certification and to carry out due diligence of all accounts held with the bank.

Please complete all sections of this form. In certain circumstances, the bank may be required to share this information with relevant tax authorities.

Please consult your professional tax advisor if you have any questions regarding this form.

Additional KYC Information

Tax Residency Information

Declaration

Submit

FATCA & CRS Instructions

Along with many governments, the government of Country Name has entered into an Inter-governmental Agreement (IGA) with other governments that require financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all account holders. In relevant cases, information will have to be reported to tax authorities or appointed agencies. In order to comply with the standards set by FATCA and CRS we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days. Please note that you may receive more than one request for information if you have multiple relationships with Zigbank or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

Substantial Presence Test

You will be considered a United States resident for tax purposes if you meet the substantial presence test for the calendar year. To meet this test, you must be physically present in the United States (U.S.) on at least:

- 31 days during the current year, and
- 183 days during the 3-year period that includes the current year and the 2 years immediately before that, counting:
 - All the days you were present in the current year, and
 - 1/3 of the days you were present in the first year before the current year, and
 - 1/6 of the days you were present in the second year before the current year.

FATCA & CRS Instructions

Along with many governments, the government of Country Name has entered into an Inter-governmental Agreement (IGA) with other governments that require financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all account holders. In relevant cases, information will have to be reported to tax authorities or appointed agencies. In order to comply with the standards set by FATCA and CRS we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days. Please note that you may receive more than one request for information if you have multiple relationships with Zigbank or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

Substantial Presence Test

You will be considered a United States resident for tax purposes if you meet the substantial presence test for the calendar year. To meet this test, you must be physically present in the United States (U.S.) on at least:

- 31 days during the current year, and
- 183 days during the 3-year period that includes the current year and the 2 years immediately before that, counting:

Please complete all sections of this form. In certain circumstances, the bank may be required to share this information with relevant tax authorities.

Please consult your professional tax advisor if you have any questions regarding this form.

FATCA & CRS Instructions

Along with many governments, the government of Country Name has entered into an Inter-governmental Agreement (IGA) with other governments that require financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all account holders. In relevant cases, information will have to be reported to tax authorities or appointed agencies. In order to comply with the standards set by FATCA and CRS we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days. Please note that you may receive more than one request for information if you have multiple relationships with Zigbank or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

Substantial Presence Test

You will be considered a United States resident for tax purposes if you meet the substantial presence test for the calendar year. To meet this test, you must be physically present in the United States (U.S.) on at least:

31 days during the current year, and

183 days during the 3-year period that includes the current year and the 2 years immediately before that, counting:

All the days you were present in the current year, and

1/3 of the days you were present in the first year before the current year, and

1/6 of the days you were present in the second year before the current year.

What is FATCA & CRS?
&
Why are you being asked to fill
this form?

FATCA (Foreign Account Tax Compliance Act) and CRS (Common Reporting Standard) aim at combatting tax evasion on a global level.

As per the Inter-governmental agreement (IGA) with the US and OECD, all financial institutions including Zigbank are required to obtain self-certification and to carry out due diligence of all accounts held with the bank.

Please complete all sections of this form. In certain circumstances, the bank may be required to share this information with relevant tax authorities.

Please consult your professional tax advisor if you have any questions regarding this form.

Declaration

I acknowledge and agree that information contained in this form and information regarding income above may be reported to the tax authorities of the country in which such income arises and that those tax authorities may provide the information to the country or countries in which I am a resident for tax purposes.

Zigbank is not able to offer any tax advice on FATCA or CRS or its impact on me. I shall seek advice from a professional tax advisor for any tax related questions. I undertake to notify Zigbank of any change in circumstances that causes any information on this form to become incorrect and to provide Zigbank with updated information within 30 days of said change.

I authorize Zigbank to close or suspend my account(s) without any obligation of advising me of the same if any information provided by me in this form or hereafter is found to be false, untrue or misleading. I have understood the FATCA and CRS instructions and the requirement of information collected through this form and hereby confirm that the information provided by me in this form is true, correct and complete to the best of my knowledge.

☒ Zig International Services declare acceptance of all statements above

Full Name of Representative
John Smith

Designation
Director

18. Verify the details, and click **Confirm**.

OR

Click  against any section that you wish to edit, if required.

OR

Click **Cancel** to close the form.

OR

Click **Back** to navigate to the previous page.

19. The success appears along with the status of submission of the form.

11.2.6 Confirm

The confirmation page will be displayed once you have submitted the form. This page will display a message identifying whether the form was successfully submitted or not.

20. Click **Go to Dashboard** to navigate to the dashboard.

FAQ

1. What is FATCA, why I have to fill the FATCA & CRS form?

FATCA stands for 'Foreign Account Tax Compliance Act' and is a legislation designed to prevent tax evasion. Introduced by the United States Department of Treasury and the US Internal Revenue Service (IRS), the purpose of FATCA is to encourage better tax compliance by preventing US Persons from using foreign banks and other financial organizations in order to avoid US taxation on their income and assets.

1. What is a tax identification number (TIN)?

This is your unique number issued in your jurisdiction to you as a tax payer. However we are aware that some jurisdictions do not issue a specific tax numbers. UK residents can use their National Insurance number.

2. Does the Co-Applicant also need to login for the system to populate the information if he/she is an existing channel user?

No. The co-applicant's customer ID needs to be entered by the primary applicant if he/she is an existing user. A verification code will be sent to the co-applicants email ID and/or mobile number. Once the verification process is successful, the co-applicant's details will be populated.

3. Why am I asked to capture previous residential address details?

The bank has a resident stability policy in place wherein if the applicant is staying at the current address for less than a defined term then he/she needs to define the previous residential address.

4. My co-applicant and I live in the same house, do I need to enter address details again while defining co-applicant information?

No. There is an option in the co-applicant contact information section to default the primary applicant's address in that of the co-applicant's residential address fields.

5. Why am I being asked to capture previous employment details?

The bank has a employment stability policy in place wherein if the applicant has not completed a defined term in the current organization then he/she needs to define previous employment details.

6. I have saved the application. Can my co-applicant resume the application from the application tracker?

Yes. The co-applicant needs to be a registered channel user to login to the application tracker and resume the application.

7. Can the co-applicant perform all the pending tasks (if applicable) in the application tracker?

Yes, the co-applicant has all the rights as that of the primary applicant.

12. Product Showcase and Application Tracker

This option serves as a means by which the Business user can view the bank's online product offerings and also apply for any products of choice. Alternately, if the user has already applied for a product or if the user has a product application in draft, on selecting the Product Offerings option from the hamburger menu, the Application Tracker listing page will be displayed. The user will be able to track the status of any submitted applications and also retrieve applications that are in draft from the Application Tracker listing page. If the user wishes to apply for any other product, he/she can select the Start a New Application option provided on the Application Tracker Listing screen.

Note: To view detailed information about the Application Tracker as well as product offerings, please refer the **Oracle Banking Digital Experience Business Originations Application Tracker** user manual.

Features Supported In Application

- Application of bank's online product offerings
- Tracking of submitted application status
- Accessing saved/in draft applications

How to reach here:

Toggle Menu > Menu > Product Offerings > Business
OR
Bank Portal Page > Product Offerings
Product Offerings

Application Tracker Listing Page

13. Interest Certificates

An interest certificate is a summary of the interest credited or debited on an account. Banks issue interest certificates against accounts held by users, so that they can ascertain how much interest they have gained on their balances in their CASA or deposit accounts, or how much interest they have paid on their loans.

Interest certificates are widely used to complete tax returns.

Using this option, the user can view and download interest certificates for current and savings accounts, deposits (Term Deposits and Recurring Deposits) and loans.

Note: Interest certificates prior to 3 years are not available.

How to reach here:

Toggle Menu > Menu > Accounts > More Actions > Certificates > Interest Certificates
OR

Access through the kebab menu of Certificates (Balance Certificates & TDS Certificates)

Interest Certificates

The screenshot displays the 'Interest Certificates' page in the Futura Bank web application. The top navigation bar includes links for 'My Dashboard', 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. The user is logged in as 'Jesal Bohr' with a last login time of '06 Sep 09:45 PM'. The main content area features a form with the following fields:

- Account Category:** A dropdown menu currently showing 'Current and Saving Accounts'.
- Select Interest Certificate for:** Two radio buttons, 'Specific Account' (selected) and 'All Accounts'.
- Account Number:** A dropdown menu showing 'xxxxxxxxxx0015'.
- Select Period:** Two radio buttons, 'Financial Year' (selected) and 'Duration'.
- Period:** A dropdown menu showing '2017-2018'.

At the bottom of the form are 'Apply' and 'Reset' buttons. To the right of the form is a 'Note' box with the following text:

Note

This is a facility of obtaining a certificate of Interest for your account.

It displays the summary of interest credited or debited in your account.

You can use this statement while filing your tax returns.

The footer of the page contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Field Description

Field Name	Description
Account Category	<p>Specify the account category for which the interest certificate has to be generated.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Current & Savings • Deposits • Loans & Finances
Select Interest Certificate for	<p>The option to specify whether the interest certificate is to be generated for a specific account or for all accounts of the specific account type.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Specific Account • All Accounts

For example if Today is 6th November and user wants to view the balance certificate, he will be able to see the balances of all his accounts and deposits till 5th November if it was a working day else the previous working day.

15. TDS Certificates

TDS or Tax Deducted at Source, is a means of indirect tax collection by Indian authorities according to the Income Tax Act, 1961. As per the Act, any company or person making a payment is required to deduct tax at source if the payment exceeds certain limits. TDS has to be deducted at the rates prescribed by the tax department. The concept of TDS was introduced with an aim to collect tax from the very source of income. TDS is applicable on the various incomes received such as salaries, interest received etc. which is deducted when income is generated rather than at a later date.

TDS is deducted when the interest payable or reinvested on Recurring Deposits or Fixed Deposits is above the government specified limit in a financial year. A Business user can view the TDS deducted from his account for the financial year. This option provides a consolidated view of TDS for all user's accounts and deposits. For taxation purposes, the Business user can download the TDS report for all his accounts.

How to reach here:

Toggle Menu > Menu > Accounts > Current & Savings tab > More Actions > Certificates > TDS Certificates

OR

Access through the kebab menu of Certificates (Balance Certificates & Interest Certificates)

TDS Certificates

The screenshot displays the 'TDS Certificates' section of the Futura Bank user interface. At the top, there's a navigation bar with 'My Dashboard', 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. Below this, the 'TDS Certificates' header is visible. A 'Select Financial Year' dropdown menu is set to '2017-2018', with 'Apply' and 'Reset' buttons below it. To the right, a 'Note' box provides details: 'TDS is deducted when interest payable or reinvested on RD and FD is above Rs. 10000 in a financial year.' and 'For TDS waiver, please submit form 15 G H when you open a Fixed Deposit/Recurring Deposit and subsequently at the beginning of each financial year, you have maintained deposit.' The footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security Information | Terms and Conditions'.

This feature enables users to initiate service requests as well as to view all the service requests initiated by them along with the updated status of each service request.

16.1 Raise a New Request

The user can view all the service requests defined by the System/ Bank administrator on this screen. These service requests are grouped under Product and Request Category so that the user can easily locate and raise a service request according to their requirement. A free search is also provided on the screen that enables the user to search for a specific service request on the basis of the service request name.

Using this screen the users can raise a new service request by inputting the data in the fields (fields chosen by the System/ Bank administrator while creating Service Request Definition).

Pre-Requisites

- Transaction access is provided to the Business User.

Features Supported In Application

The module supports the following features:

- Raise New Request – Summary
- Schedule an Appointment for Branch Visit
- Raise New Request

How to reach here:

Dashboard > Toggle menu > Menu > Service & Support > Service Requests > Raise a New Request
OR

*Access through the kebab menu of **Track Requests** transaction*

16.1.1 Raise a New Request - Summary

To raise a service request:

1. The page from which the user can select the service request form on the basis of product and category appears

Raise a New Request – Service Request Form Selection

The screenshot shows the 'Raise a New Request' interface. At the top, there's a header with 'futura bank' and a search bar. Below this, the main heading is 'Raise a New Request'. Underneath, there's a 'Service Request Form' section with a search bar. To the right of this is a 'Note' box with a lightbulb icon. The note says: 'Want to raise a new Service Request? Simply type what you are looking for in the search bar and click on the search results to raise a new request. In case you want to select the request from the available list of Requests, select a Product and Category under it to view the same.' Below the search bar, there's a section titled 'Service Request from organized by Product and Category'. It features a list of products on the left: 'Loan', 'CASA', 'Credit Card', 'Debit Card', 'Product', '6dd6f', and '980a4'. The 'Loan' product is selected, and a dropdown menu shows 'Loan Topup' with a list of categories: '1228286', '23b1980', '38296d4', '38d07d6', '605e418', and 'c7c544d'. At the bottom of the page, there's a copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. [SecurityInformation]Terms and Conditions'.

Field Description

Field Name	Description
Search Criteria	
Service Request Form	Enter a service request name to search for the required service request.
List of Products	<p>All the products against which a service request can be raised are listed down on the left hand side of the screen.</p> <p>Click on a specific product/module to view the service requests related to that module.</p>
List of Categories	<p>The list of categories under the selected product are displayed on selection of a product/module.</p> <p>Click on a specific category to view the service requests related to that category.</p>

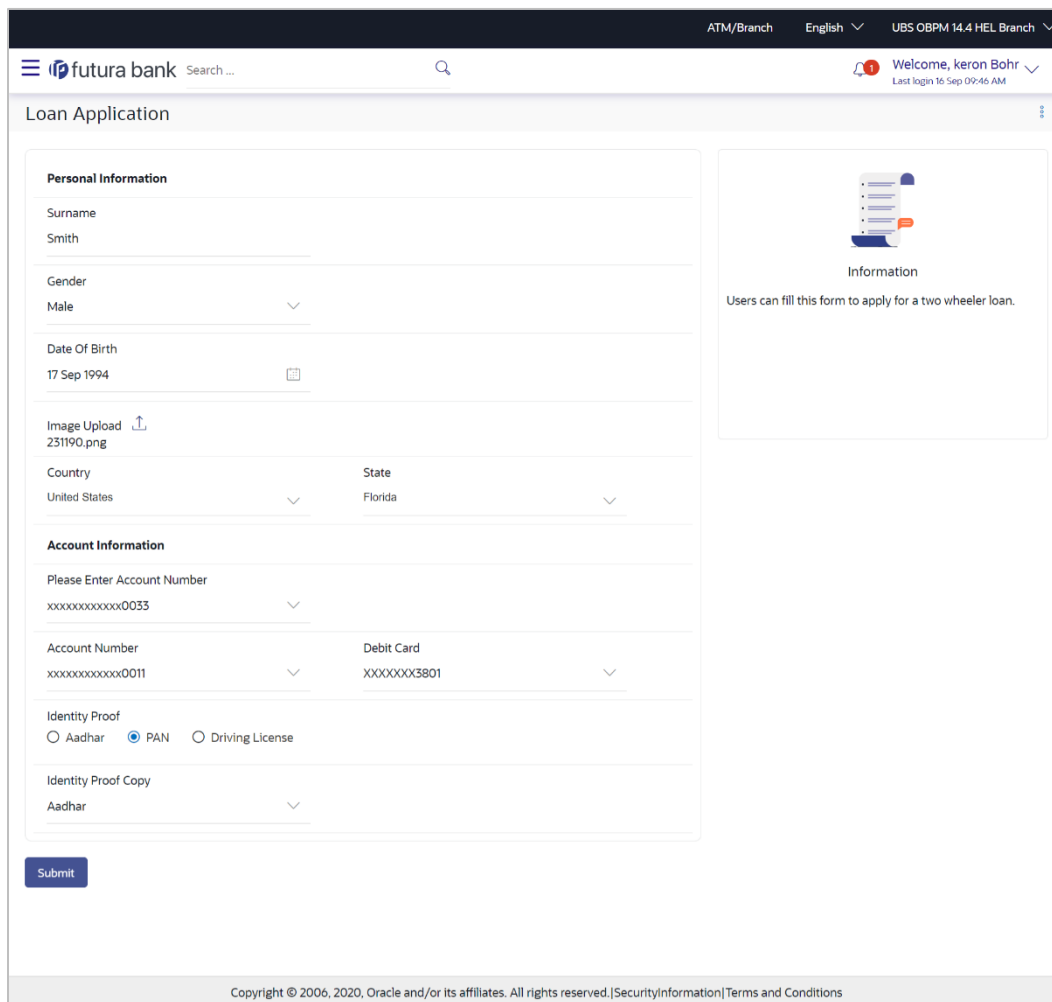

- Click the specific Product from the module list on the left side of the screen to view the service request categories related to that module.
- Click the **Category Name** to view the service requests listed under that category.

4. Click the **Service Request** link to view the service request form. The form for the specific service request appears.
OR
In the **Service Request Form** field, enter the desired service request name, and click the  icon. The specific service request form appears.

16.1.2 Service Request Form

This page is displayed once the user selects a service request form from the **Raise a New Request** page. This screen enables the user to initiate a service request by entering the data in the fields that are defined by the bank administrator in the Service Request Form Builder screen.

Service Request

The screenshot displays the 'Service Request' form within the Futura Bank application. The interface includes a top navigation bar with 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch' dropdowns. The main header shows the 'futura bank' logo, a search bar, and a user welcome message for 'keron Bohr' with the last login time '16 Sep 09:46 AM'. The page title is 'Loan Application'. The form is divided into two main sections: 'Personal Information' and 'Account Information'. The 'Personal Information' section contains fields for Surname (Smith), Gender (Male), Date Of Birth (17 Sep 1994), Image Upload (231190.png), Country (United States), and State (Florida). The 'Account Information' section includes fields for Account Number (xxxxxxxxxx0033), Debit Card (XXXXXXXX3801), Identity Proof (PAN selected), and Identity Proof Copy (Aadhar). A 'Submit' button is located at the bottom left of the form. An 'Information' box on the right side of the form states: 'Users can fill this form to apply for a two wheeler loan.' The footer contains the copyright notice: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. | Security | Information | Terms and Conditions'.

To create a service request:

1. Enter the required details.
2. Click **Submit**.
3. The **Review** screen appears. Verify the details and click **Confirm**. The success message appears.
OR
Click **Back** to make changes if any.
The user is directed to the Service Request screen with values in editable form.
OR
Click **Cancel** to cancel the transaction.

16.2 Track Requests

This feature enables users to track the statuses of all the service requests that they have raised. The search criteria provided enables the user to filter service requests based on various criteria such as request type, status, reference number, date range etc.

Below are the Service Requests that are available out of the box in the system:

- Credit Card Supplementary
- Credit Card PIN Request
- Replace Credit Card
- Update Card Limits
- Update Credit Card Auto Payment
- Register Credit Card Auto Payment
- Deregister Credit Card Auto Payment
- Activate Credit Card
- Hotlist Debit Card
- Cancel Debit Card
- Debit Card PIN Request
- Apply Debit Card
- Replace Debit Card
- Block Debit Card (temporary block)
- Unblock Debit Card (remove temporary block)
- Upgrade Debit Card

The bank can define new service requests in addition to the above mentioned Service Requests.

Pre-Requisites

- Transaction access is provided to the Business User.

Features Supported In Application

The module supports following features:

- Search Service Request
- View Service Request details

How to reach here:

Dashboard > Service Request Widget > Track Requests

OR

Dashboard > Toggle menu > Menu > Service & Support > Service Requests > Track Requests

OR

*Access through the kebab menu of **Raise a New Request** transaction*

16.2.1 Track Requests - Search

Track Request - Search

The screenshot shows the 'Track Requests' search page in the Futura Bank application. The page has a dark header with 'futura bank' and a search bar. The main content area is titled 'Track Requests' and contains several filter sections: 'Product Name' (set to 'Credit Card'), 'Category Name' (set to 'Please Select'), 'From Date' and 'To Date' (both with calendar icons), and 'Status' (set to 'Accepted'). There are 'Apply' and 'Reset' buttons at the bottom of the filters. On the right side, there is a 'Note' box with a document icon and text explaining that the page lists all service requests raised by the user and providing instructions on how to search and view details. The footer contains copyright information for Oracle.

Field Description

Field Name	Description
Search Criteria	
Product Name	The name of the product for which the service request is to be searched.
Category Name	The service request category name related to the product selected.
Date Range (From Date – To Date)	The user can search for service requests initiated between two dates by specifying a date range.
Status	The user can search for service requests based on status.
Search Results	
Date	The date on which the service request was raised.
Request Name	The name of the service request.

Field Name	Description
Reference Number	The reference number generated at the time the service request was raised.
Status	The current status of the service request.

To search for a service request:

1. Enter search criteria in the service request search fields.
2. Click **Apply**. The search results based on the search criteria appears on the **Track Requests** screen.
OR
Click **Reset** to clear the search parameters.
3. Click the **Request Name** link of the specific service request record to view the details of that service request.
OR
Click on the  icon to change filter criteria. The search results based on the new defined search criteria appears on the **Track Requests** screen.

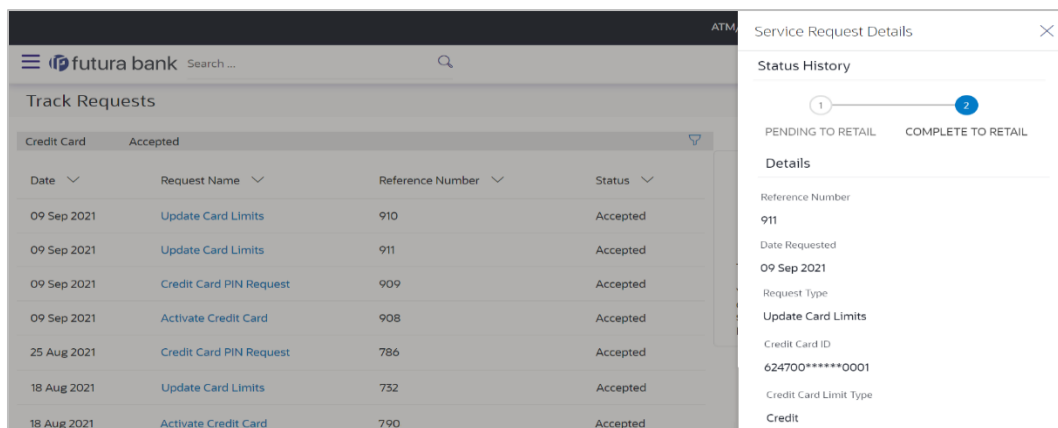

16.2.2 Service Request Details

Once the user clicks on a service request record from the search results page, an overlay page opens displaying all the details of the service request, along with the status.

To view the details of a service request:

1. In the **Track Request** search results screen, click the **Request Name** link of the specific service request record to view the details of that service request. An overlay displaying the details along with the status of the specific service request appears.

Service Request Details

The screenshot shows the 'Track Requests' interface for Futura Bank. A table lists several requests, including 'Update Card Limits' and 'Credit Card PIN Request'. An overlay titled 'Service Request Details' is open on the right, showing the status history and details for a specific request (Reference Number 911).

Date	Request Name	Reference Number	Status
09 Sep 2021	Update Card Limits	910	Accepted
09 Sep 2021	Update Card Limits	911	Accepted

Note: This identification type is applicable for India region. Bank can configure the identification types to be displayed and to be available for modification as per their region.
Driving Licence	Driving licence number of the user, as maintained with the bank gets displayed in masked format.
PAN Card	PAN number of the user, as maintained with the bank gets displayed in masked format. It is issued by the income tax department of India. Note: This identification type is applicable for India region. Bank can configure the identification types to be displayed and to be available for modification as per their region.

Field Name	Description
Passport	Passport number of the user, as maintained with the bank gets displayed in masked format.
Contact Information	
Communication Address	Address of the user, as maintained with the bank, will be displayed.
Email ID	Email ID of the user, as maintained with the bank, in masked format.
Fax Number	Fax number of the user, as maintained with the bank, in masked format.
Contact Number (Mobile)	The contact number of the user alongwith an international subscriber dialing (ISD) code in the masked format.

1. Click on  icon on profile picture;
 - c. Click on the **Upload Image** link to update the profile picture.
 - d. Click on the **Delete** link to delete the profile picture
2. Click **Edit** to update the personal or contact details
3. Click **Download** to download the profile

Note: Click  arrow to go back to the **previous** page.

17.1.1 Profile - Edit

The user can edit any his personal information as well as contact information, except his date of birth.

To edit any information in Profile:

1. Click on the  icon on the **Profile** screen, and select the desired option that you want to edit. An overlay on which you can edit the desired information, appears.

Profile - Edit

The screenshot shows the Futura Bank Settings page for a user named John David. The page is divided into two main sections: Personal Information and Contact Information. The Personal Information section includes fields for Date of Birth (1/1/1990), Aadhaar Card Number (OBD****2M), and PAN Card Number (OBD****2M). The Contact Information section includes fields for Communication Address (OFSSOFSSS, CHEN, TEST, CIF, GB,3232321), Email ID (meg****a@oracle.com), and Contact Number (Mobile) (9930****38). An 'Edit Profile' modal is open on the right, showing the Passport field (OBDXM2222M) and buttons for Cancel and Save.

Field Description

Field Name	Description
Field Names in editable format	All the fields applicable for the specific option selected to be edited, are displayed in editable format.

2. Update the field with the required information.
3. Click **Save** to save the changes.
4. The success message appears.

FAQ

1. Can the user edit his profile information?

Yes, user can edit his profile information except date of birth.

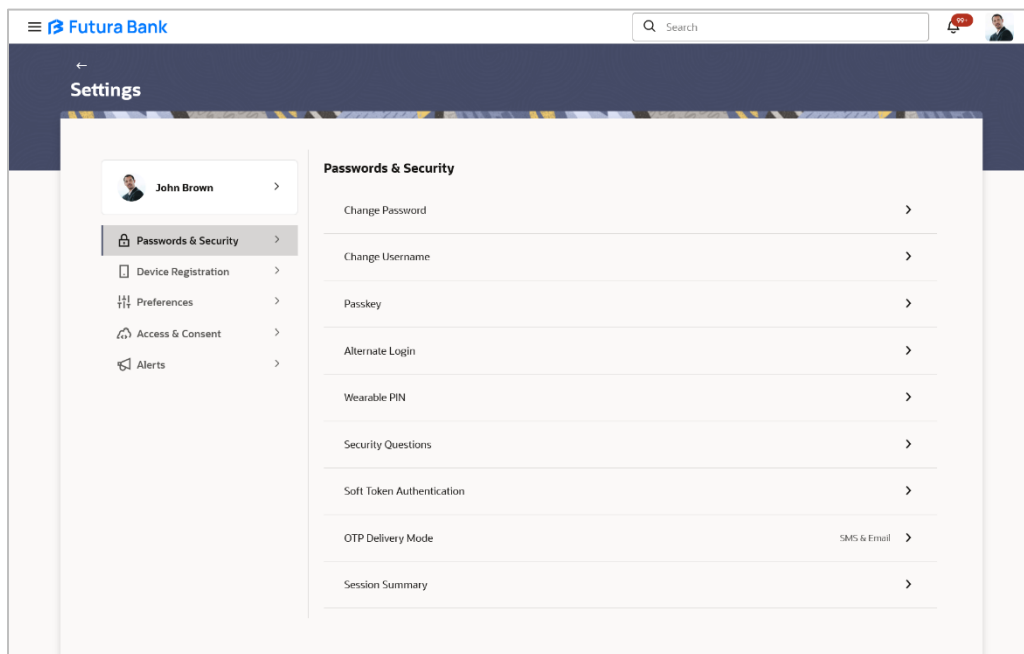

17.2 Password & Security

Using this option user can update the Change Password, Passkey, Alternate Login, Wearable PIN, Security Questions, Soft Token Authentication, Facial ID, and OTP Delivery Mode details.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security

Settings-Password & Security

17.2.1 Change Password

This feature enables existing users of the bank to change their login password.

Pre-requisites

- User must have existing login credentials.

Features Supported In Application

- Changing the login password.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Change Password

Change Password

The screenshot shows the 'Change Password' interface in the Futura Bank app. On the left is a settings sidebar with a user profile for 'John Brown' and a list of settings including 'Passwords & Security'. The main content area has a 'Change Password' header and three input fields: 'Current Password', 'New Password', and 'Confirm New Password'. Each field has an eye icon for toggling visibility and a 'Required' label. Below the fields are 'Save' and 'Cancel' buttons. To the right of the fields is a 'Password Policy' section titled 'Your Password can :'. It lists the following requirements: 6 to 16 characters; at least one uppercase letter (minimum 1 mandatory); at least one lowercase letter (minimum 1 mandatory); at least one number (minimum 1 mandatory); at least one special character (minimum 1 mandatory, with allowed characters @, #, \$); no more than 4 successive characters; no more than 5 repetitive characters; not a common password; and not a password from the previous 1 password(s) in history.

Field Description

Field Name	Description
Current Password	Enter your current login password.
New Password	Enter a new password to replace your current login password.
Confirm New Password	Re-enter the new password to confirm the same.

To reset the password:

1. In the **Current Password** field, enter your current login password.
2. In the **New Password** field, enter a new password.

(Read the conditions defined under the **Password Conditions** section on the application screen to view the password policy.)

3. In the **Confirm New Password** field, re-enter the new password.

4. Click **Save**.
OR
Click **Cancel** to cancel the transaction.
5. A message confirming successful change of login password appears.
6. As the login user changed his password using 'Change Password' option, system will logout the user and user will be shown a confirmation message of password change along with an option to login again. Click **Login** on confirmation screen to log in to the application.

Note:

- 1) Password Conditions gets highlighted in green if the user's password is meeting the Password Policy criteria and similarly in Red if the password is not as per the Password Policy maintained.
 - 2) Click inside the **Password** field, the Virtual Keyboard link appears. Click on the link to use virtual keyboard.
-

17.2.2 Change Username

This feature enables existing users of the bank to change their login username.

Note: Enable or disable the ability for users (Retail, Corporate, Business, Admins) to change their login ID/username through **Role Maintenance** screen (**Change Username-Perform** option under **Transactions- Profile** category) to control the availability of this feature based on business requirements or security policies.

Pre-requisites

- User must have existing login credentials.

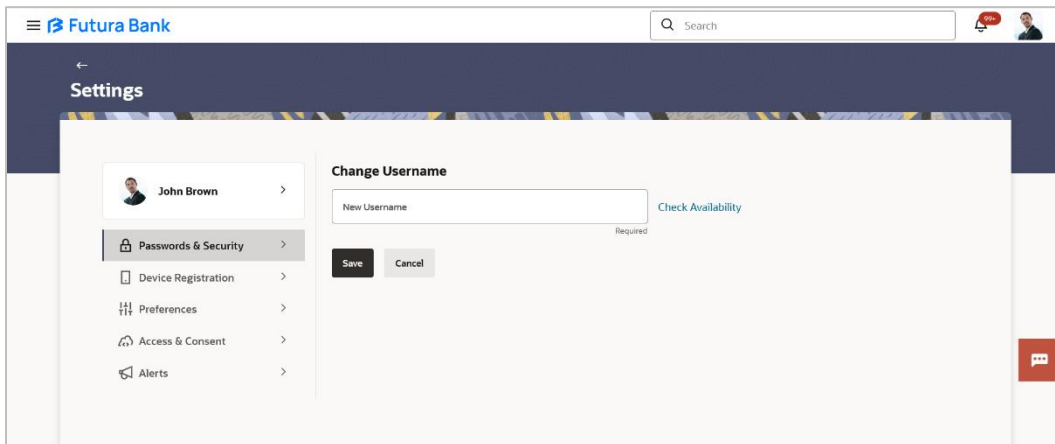

Features Supported In Application

- Changing the login username.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Change Username

Change Username

Field Description

Field Name	Description
New Username	Enter a new username to replace your current login username.

To change the username:

1. In the **New Username** field, enter a new username.
2. Click the **Check Availability** link to confirm if the username is available for use.
If a **revoked user** needs to be granted access again and a user with the **same username** already exists, the system should prompt the **admin** to change the username before proceeding with the granting process. Click **Save**.
A message confirming successful change of login username appears.
As the login user changed his username using 'Change Username option, system will logout the user and user will be shown a confirmation message of username change along with an option to login again. Click **Login** on confirmation screen to log in to the application.
OR
Click **Cancel** to cancel the transaction.

Note:

- 1) On updating username, user need to re-register for passkey and soft token authentication.
- 2) The username change can be recorded in the **Audit Logs** screen.

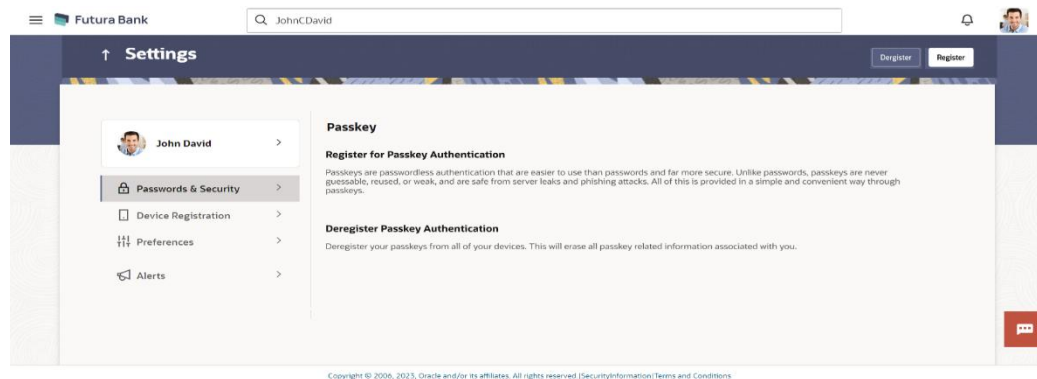

17.2.3 Passkey

Passkeys work only on their registered websites and apps. Using this option you can register/de-register the passkey. For more details, refer **User Manual Oracle Banking Digital Experience Passwordless Login through Passkeys**.

How to reach here:

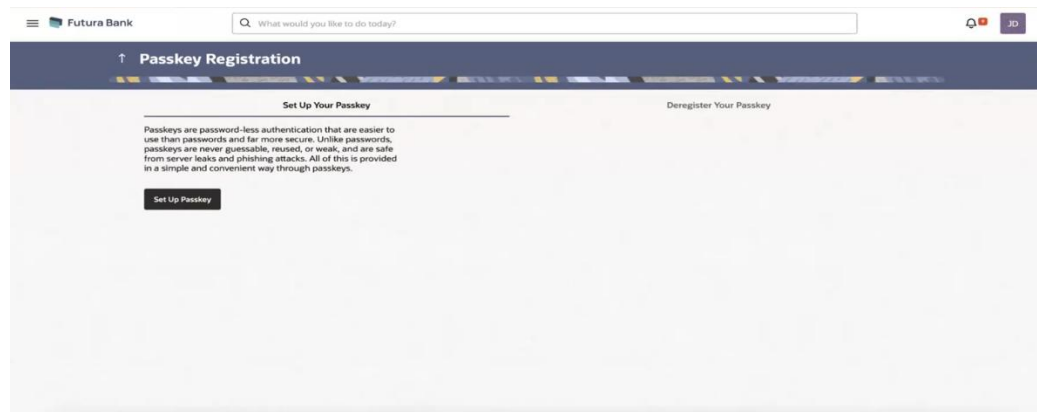

Dashboard > My Profile icon > Settings > Password & Security > Passkey

Passkey

1. Click **Setup Passwordless Authentication**. The **Passkey Registration** page appears.

Passkey Registration screen

2. Click on the **Setup Passkey**.
3. System prompts the user to save passkey in the device itself or in other mobile or table device with camera or in any security key.
4. Select a desired device.

Click **Continue with Password**.

OR

You can select **Security Key** or select **Save a passkey on a device with a camera**.

1) **QR Code** is displayed on the device, and it needs to be scanned with a device with camera that supports passkey authentication.

2) Open the Camera app on your device. Point the camera at the QR code on the screen of the device you want to connect to.

5. Click **Save Passkey**.
6. Click **Continue** on the device.
7. The operating system may ask for authentication mechanism such as Face ID/Fingerprint/device password for registering passkey. The same mechanism will be used during login through stored passkey.

Note : For this feature to work, Bluetooth on both the devices needs to be turned ON.

8. On successful registration, passkey will be saved.

17.2.4 Alternate Login

Using this option you can set PIN / Pattern / Face ID as an alternate login method for authentication and can be used instead of entering their user ID and password. For more details, refer **User Manual Oracle Banking Digital Experience PIN Pattern Touch and Face Authentication**.

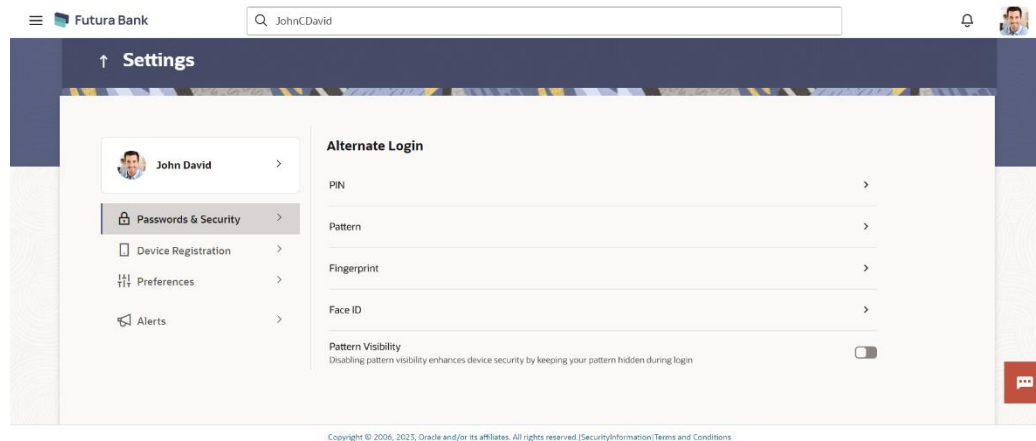

Following are the alternate method for authentication:

- PIN- define a 4 or 6 digit numeric PIN for login
- Pattern- define a pattern for authentication
- Face ID- define Face ID for login
- Touch ID- define a fingerprint (touch ID) for login

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Alternate Login

Alternate Login

1. Click on the > icon of the method to be set as alternate login method.
 - a. If **PIN** option selected;
 - i. In the **Set PIN** field, enter the PIN of 4 or 6 digit that needs to be set for login.
 - ii. In the **Confirm PIN** field, re-enter the pin for confirmation.
 - iii. The success message of PIN set appears.
 - b. If **Pattern** option selected;
 - i. Select the **Pattern** option as the login method. The **Set Pattern** screen appears.
 - ii. Set the **desired** pattern. Draw a pattern connecting a minimum of 4 dots.
 - iii. Click **Confirm**. The **Confirm Pattern** screen appears.
OR
Click **Undo** to reset the pattern and redraw it.
OR
Click **Cancel** to cancel the transaction.
 - iv. The success message of pattern set appears.
 - c. **Pattern Visibility**
 - i. Toggle **Pattern Visibility** button to make the pattern visible.
Next time you draw the pattern at the time of login, you will able to see it on the screen.
-
- Note:** By default, the **Pattern Visibility** option is disabled. If you keep the pattern visibility as disabled, you will not be able to see the pattern that you are drawing at the time of login and this will prevent any unauthorized access to the application.
- d. If **Face ID** option selected;
 - i. A message is displayed prompting you to use the Face ID.
 - ii. Click **OK**. The **Set Face ID** confirmation screen is displayed.

- iii. Once the face ID recognition is successfully set as an alternate login, you will get an option to login with Face ID on the login page.
- e. If **Touch ID** option selected;
 - i. A message is displayed prompting you to use the Touch ID.
 - ii. Once the fingerprint is authenticated, a message confirming the fingerprint recognition is displayed.
 - iii. Click **OK**. The **Set Touch ID** confirmation screen is displayed.
 - iv. Once the touch ID as an alternate login is successfully set, you will have an option to **Login with Fingerprint** on the login page.

Wearable PIN

User needs to register the wearable along with PIN definition so that he/she can perform inquiries and transactions using the wearable. You will need to install the application on the wearable and start the registration process by pairing the wearable with the mobile application i.e. pair your Apple/Android watch with iPhone / Android phone.

Wearable Registration (Mobile)

8. Click **Proceed**. The **Verify User** screen is displayed.
9. Enter the **Password**. The message is displayed prompting that the Device ID will be stored.
10. Click **Allow** to proceed with storage of device ID.
OR
Click **Deny** to disallow storage of device ID.
11. You will be prompted to define the **PIN** for the wearable.
12. Re-enter the **PIN** in the **Confirm** screen.
13. Once the **PIN** is confirmed, a pop-up message is displayed with confirmation of PIN setup.
14. Click **OK**, The **PIN** successfully submitted message is displayed.
15. Once the wearable is registered and the PIN is set, you can login to the application (with access to limited features) through the wearable by entering the PIN.

17.2.5 Security Questions

Using this option, the user can setup security question maintenance. Security question maintenance entails selecting questions from a pre-defined list and defining answers for each selected question. This list of security questions and answers becomes the user's security question set and the user will be asked to answer these questions while initiating certain transactions (as defined by the bank administrator) as a second level of authentication.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Security Questions
OR

*Access through the kebab menu of **Preference** transactions*

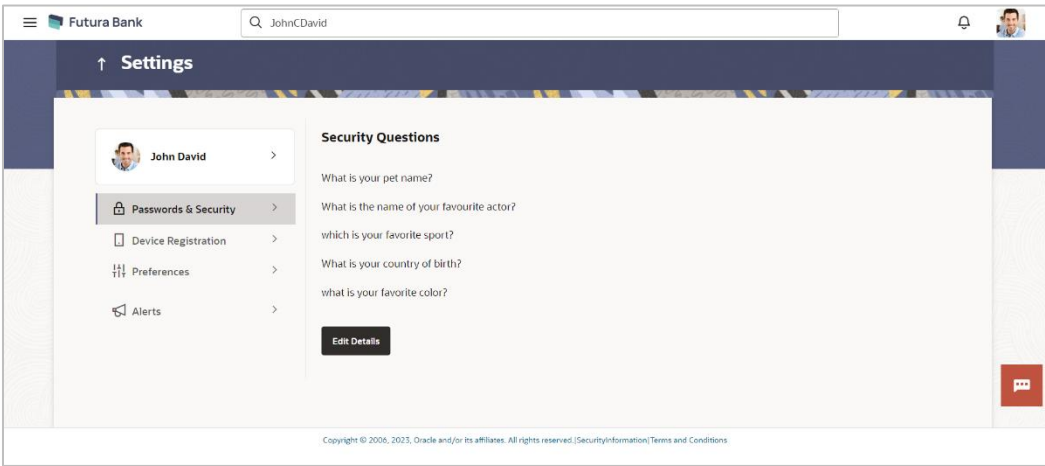

Security question setup is part of the first time login steps. The user can opt to skip setting security questions during first time login and can instead complete security question setup from the Security and Login screen.

To set up security questions:

Note: If security questions have not been set-up by the user, the following message will be displayed - "Security Questions have not been set up yet". The user will be provided with the option to set up security questions.

1. Click **Set up now** to set-up security questions. The **Set Security Question** screen appears.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous page.

Security Question Maintenance

Field Description

Field Name	Description
User Security Questions	
Security Question	Select a question to be assigned as a security question. The security questions will be numbered, e.g. Security Question1, Security Question 2 and so on. The number of security questions and answers available will be dependent on the number configured by the bank administrator.
Answer	Specify an answer for the selected security question. The fields in which you can specify answers to selected security questions will be displayed below each security question and will be numbered, e.g. Answer 1, Answer 2 and so on.

- From the **Security Question** list, select the appropriate security question to be added in the security question set.
- In the **Answer** field, enter an answer for the corresponding security question.
- Click **Submit** to save the security questions.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to the previous screen.
- The **Security Question Maintenance – Review** screen appears. Verify the details, and click **Confirm**.

OR
 Click **Cancel** to cancel the transaction.
 OR
 Click **Back** to edit the security question setup.
 The **User Security Question – Edit** screen with values in editable form appears.

6. The success message of submitting the request appears.
 Click **OK** to complete the transaction and navigate back to '**Dashboard**'.

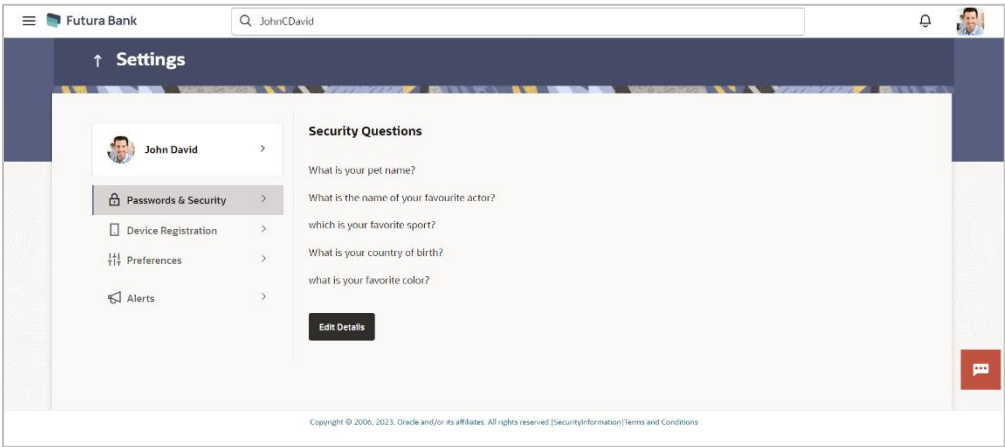

Security Questions – View and Edit

If the user has already set-up of Security Questions, the application displays the list of security questions. It also enables the user to modify the set of security questions.

To edit the set of security questions:

1. Navigate to **Set Security Questions** screen, the **Set Security Question - View** screen appears.

Set Security Questions - View

17.2.6 Soft Token Application

This option enables Multi-factor authentication for a specific user and for a specific device. This same device must be used to generate the time-based one-time passcode every time the user signs in.

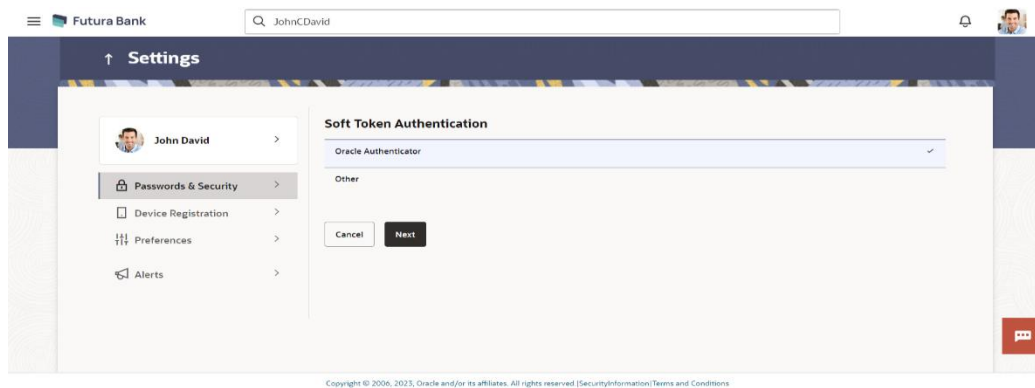

A Soft token authentication is a two - factor authentication based on Passcode or PIN. Using this option, the user can generate security token i.e. a single-use 6 digit login PIN or passcode.

If you set up 2-Step Verification, you can use the Oracle Mobile Authenticator(OMA), Google Authenticator, Microsoft Authenticator with TOTP only app to receive QR codes.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Soft Token Application

You can define delivery preference for dispatch of OTP i.e. whether you want it delivered on SMS or Email or Both. If there is a preference defined, system will dispatch the OTP on preferred delivery mode.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > OTP Delivery Mode

OTP Delivery mode

Field Description

Field Name	Description
Preferred Delivery Mode (Only for OTP)	
Dispatch Method	<p>Select the preferred delivery mode to receive the one-time password (OTP).</p> <p>The options are:</p> <ul style="list-style-type: none">• SMS• Email <p>Note: The preference is applicable only for OTP defined as authentication mode for transactions by the bank.</p>

3. Toggle specific delivery mode to set as an OTP delivery mode for authentication.
4. Click **Save** to save the changes.
OR
Click **Cancel** to cancel the transaction.
5. The success message appears.

17.2.9 Session Summary

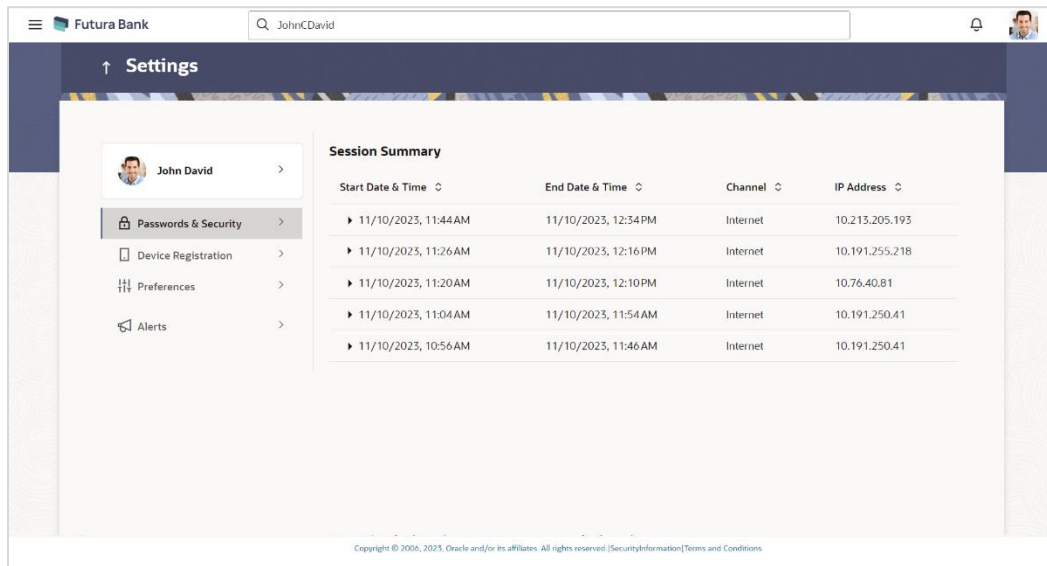

This option is used by the user to check the log of transactions and login details for the previous five logins. The user can view the entire session summary of the previous five logins, login and

logoff date and time for each session, channel in which transactions are carried out in each session along with the IP address of the channel.

How to reach here:

Dashboard > My Profile icon > Settings > Password & Security > Session Summary

Session Summary

Start Date & Time	End Date & Time	Channel	IP Address
11/10/2023, 11:44AM	11/10/2023, 12:34PM	Internet	10.213.205.193
11/10/2023, 11:26AM	11/10/2023, 12:16PM	Internet	10.191.255.218
11/10/2023, 11:20AM	11/10/2023, 12:10PM	Internet	10.76.40.81
11/10/2023, 11:04AM	11/10/2023, 11:54AM	Internet	10.191.250.41
11/10/2023, 10:56AM	11/10/2023, 11:46AM	Internet	10.191.250.41

Field Description

Field Name	Description
Start Date & Time	The date and time at which the particular session was started.
End Date & Time	The date and time at which the particular session was ended.
Channel	The channel of access for the session (Desktop Browser / Mobile / Application etc.)
IP Address	The IP address of the channel.

1. Click  against a specific record to view the details of that session. The session details appears.

Session Summary - Details

The screenshot shows the Futura Bank user interface. At the top, there's a header with the bank logo, a search bar containing 'JohnCDavid', and a user profile icon. Below the header, a 'Settings' section is visible on the left sidebar, with options like 'Passwords & Security', 'Device Registration', 'Preferences', and 'Alerts'. The main content area is titled 'Session Summary' and displays a table of session details. Below this, there's a section for 'Transaction Name' with a list of transactions.

Start Date & Time	End Date & Time	Channel	IP Address
11/10/2023, 11:44AM	11/10/2023, 12:34PM	Internet	10.213.205.193
11/10/2023, 11:26AM	11/10/2023, 12:16PM	Internet	10.191.255.218

Transaction Name	Status	Transaction Date & Time
Login	Success	11/10/2023, 11:26AM
Investment Summary	Success	11/10/2023, 11:26AM
List Investment Account	Success	11/10/2023, 11:26AM

Start Date & Time	End Date & Time	Channel	IP Address
11/10/2023, 11:20AM	11/10/2023, 12:10PM	Internet	10.76.40.81
11/10/2023, 11:04AM	11/10/2023, 11:54AM	Internet	10.191.250.41
11/10/2023, 10:56AM	11/10/2023, 11:46AM	Internet	10.191.250.41

Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. [Security Information] [Terms and Conditions]

Field Description

Field Name	Description
Start Date & Time	The date and time at which the particular session was started.
End Date & Time	The date and time at which the particular session was ended.
Channel	The channel of access for the session (Desktop Browser / Mobile / Application etc.)
IP Address	The IP address of the channel.

Session Summary – Details

All the transactions initiated during the selected session are listed down one below the other. The fields documented below form part of a transaction record.

Transaction Name	The name of the transaction that was performed during the session.
Status	The status of the transaction.
Transaction Date & Time	The date and time at which the transaction was performed.

17.3 Device Registration

This option lets the user to deregister lost or stolen devices for enhanced security, update registered device when user switch to a new one, temporarily stopping the use of a registered device for quick snapshots, iMessage, or an alternate login, and allow to re-register existing device in the future after login.

Device Registration

Field Description

Field Name	Description
Phones & Tablets	This feature permits the user to deregister all their iOS and Android mobile devices, eliminating the device mapping from their mobile. As a result, alternative login methods like PIN, pattern, or facial recognition won't function on those devices.
Wearables	This feature enables the user to de-register their wearable devices, effectively removing the device mapping by turning off the wearable option. As a result, PIN login will not work on the wearables.

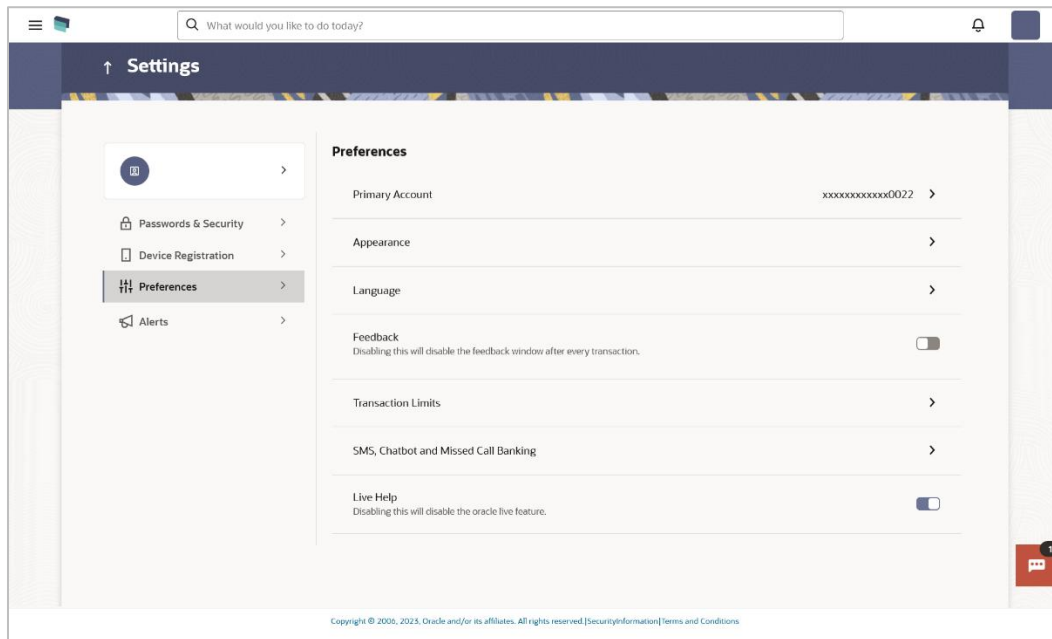

1. Under the **Phones/ Tablets** section, click the toggle button to deregister IOS/Android devices.
Your alternate login gets disabled from all the android devices on which you have installed the banking application.
2. Under **Wearables**, click the toggle button to deregister your IOS/Android wearable devices.

Your alternate login gets disabled from all the android wearable devices on which you have installed the banking application.

3. Click **Save** to save the changes. The success message appears.
OR
Click **Cancel** to cancel the transaction.

17.4 Preferences

Preferences

17.4.1 Primary Account Number

This option enables the user to define his primary account number.

Note: The account number selected in this screen will appear as a default account in all the account number selection fields (applicable for all existing and new transactions).

Pre-requisites

- The user must have a valid login credential to access the digital banking platform.

Features Supported In the Application

- Definition of Primary Account Number

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Primary Account Number

OR

Dashboard > My Profile icon > Settings > Preferences > Primary Account Number .

To select the primary account number:

1. All the user's account numbers with account type, party name and nickname (if added) appear on the **Primary Account Number** screen.

Primary Account Number

The screenshot displays the 'Primary Account' settings page in the Futura Bank app. On the left, a sidebar shows the user's profile 'John David' and navigation options: 'Passwords & Security', 'Device Registration', 'Preferences' (which is highlighted), and 'Alerts'. The main content area is titled 'Primary Account' and lists several accounts with their masked numbers and types. The accounts are: 'xxxxxxxxxxxx0026', 'My Salary Account, xxxxxxxxxxxx0033', 'xxxxxxxxxxxx0044', 'Savings Account, xxxxxxxxxxxx0011', 'MonthlySavings, xxxxxxxxxxxx0022' (which is selected with a blue highlight and a checkmark), and 'xxxxxxxxxxxx0474'. At the top right of the main area, there are buttons for 'Clear Selection', 'Cancel', and 'Save'. A red notification bubble with the number '1' is visible in the bottom right corner. The footer contains the copyright notice: 'Copyright © 2006, 2023, Oracle and/or its affiliates. All rights reserved. Security Information Terms and Conditions'.

Field Description

Field Name	Description
Select	The option to select any account number to be marked as primary account number.
Account Type and Number	The account numbers (in masked format) and the type of accounts are displayed as records.
Party Name	The party name of the account is displayed against the account record.
Nickname	The nickname given to the account by the account holder, is displayed against the account record.

2. Click on the account number that you wish to be marked as the primary account number.

3. Click **Save**.

A message confirming definition of primary account number appears.

OR

Click **Clear Selection** to deselect the selection.

OR

Click **Cancel** to cancel the transaction

17.4.2 Appearance

Using this option, business user can personalize the view of their application with the desired themes. The list of theme templates are available to the business users for selection, the user can select the desired theme and activate it by clicking the Apply button.

At any point in time, the user can deactivate a theme and activate another one or revert to the default theme.

Pre-requisites

- The user must be a customer of the bank and have valid login credentials
- Bank Administrator has created the themes that are available for business user for personalization

Features supported in application

- Apply Theme
- Switch to default Theme

How to reach here:

Dashboard > Toggle Menu > Account Settings > My Preference > Appearance

OR

Dashboard > My Profile icon > Settings > Preferences > Appearance

Themes

To apply the theme:

1. All the themes defined by the bank users get listed here. User can view the colors of the themes in the theme templates being displayed.
2. Select the required theme from the list of available themes. The chosen theme is automatically applied within the application.

17.4.3 Language

Using this option user can set desired language to use in the application.

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > Preferences > Language

OR

Dashboard > My Profile icon > Settings > Preferences > Language

Language

Field Description

Field Name	Description
Preferred Language	The option to set the user/s preferred language to use the application.

To set the preferred language:

3. Click on the **Language** to set as preferred language for application.

4. Click **Save**. A success message appears.
OR
Click **Cancel** to cancel the transaction.

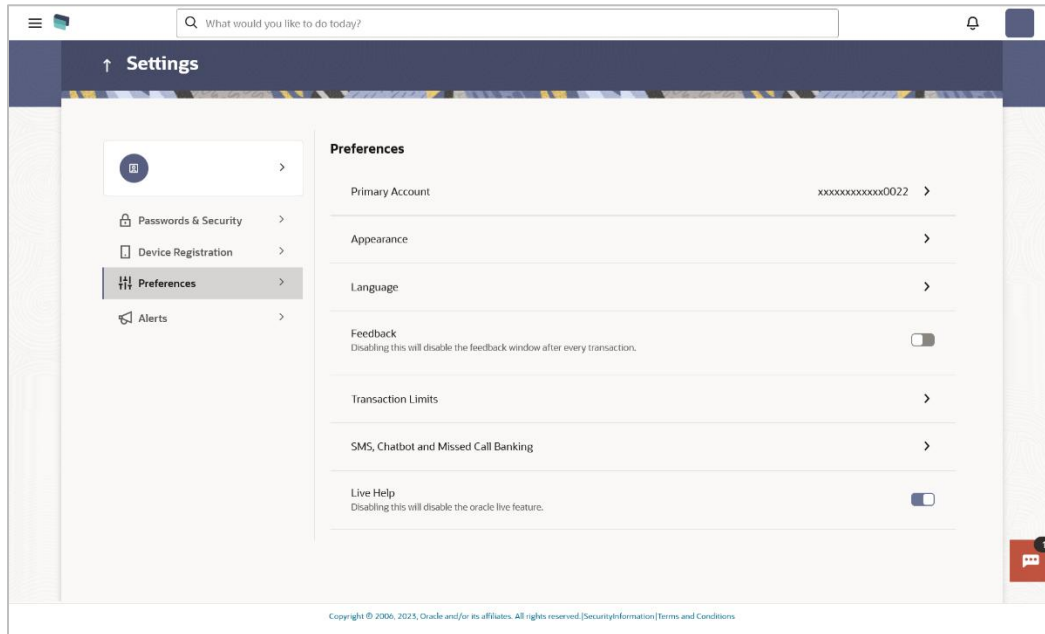

17.4.4 Feedback

Using this option, users can disable the feedback window, which is an option to provide feedback on generic aspects about the application.

How to reach here

Dashboard > My Profile icon > Settings > Preferences > Feedback

Feedback

1. Under the **Feedback** section, click the **Feedback** toggle button to disable the feedback option provided for transactions.

17.4.5 Transaction Limits

The bank can put restrictions on the transactions initiated by customers from the online banking channels. The bank applies different types of limits on different transactions. These limits may vary depending on the user / customer type.

The different types of limits are as follows:

- Permitted number of transactions in a day
- Cumulative amount of transactions in a day
- Minimum amount for a transaction
- Maximum amount for a transaction

The limits function enables a Business user to view the daily limits (applicable at specific transaction level and at transaction group level) assigned by the bank for a specific channel or for a group of channels. The user can edit and reduce the cumulative transaction amount limit offered by the bank for individual transactions. The user can also reduce the maximum transaction count limit offered by the bank for individual transactions.

Further modification of limits will be enabled up to the limits offered by the bank for each transaction. Updated limits will be applicable from the next calendar day.

Pre-requisites

The user must have an active Current and Savings Account relationship with Bank.

Features supported in the Application

- View Transaction Limits: Daily and monthly
- Reduce cumulative daily/monthly amount limit for each transaction
- Reduce cumulative daily/monthly count limit for each transaction

How to reach here:

Dashboard > Toggle Menu > Menu > Account Settings > My Limits

17.4.5.1 Transaction Limits – View

The logged in Business user can view the transaction limits offered by the bank for each transaction using this option.

Limits

Field Description

Subscribed alerts :

1. Toggled the against the alert to subscribe the respective alert.
2. Click **Save** to subscribed. The success message of alerts subscribed appears.
OR
Click **Cancel** to cancel the transactions.

FAQ

1. **If I have more than one iOS devices and I need to deregister one of my devices from the Futura Bank application, can I do so using the 'Registered Device' option?**

If you disable 'iOS Devices' in the 'Register Device' option, it will disable your alternate login from all the devices. You need to re-install the application if you want to use it again on that device.

2. **Why would I need to unregister a device?**

The unregistering of devices is done in case you have lost your device and you want to disable your alternate login from that device to prevent any misuse of your Bank account.

18. Security Question Authentication

Security Questions are the second factor authentication mechanism provided by the bank to its customers. The user needs to maintain a security question set by selecting questions and defining answers to these questions. At the time of transfer authentication, any or all of these questions are displayed to the user and the user must enter correct answers (as defined while setting up security questions) in order to enable the system to authenticate the user.

For security question authentication:

1. In the transaction review screen, verify the details, and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
2. The 2 Factor Authentication (2FA) screen appears (if 2FA has been configured).

Security Question Authentication

The screenshot shows the Futura Bank web interface. At the top, there's a header with the bank logo, a search icon, a 24/7 support icon, and a user greeting 'Welcome, Nehal Joshi' with a last login timestamp. Below the header, a yellow banner indicates a 'REVIEW' stage for a self-transfer request. The main content area displays transfer details: 'Transfer To' (masked), 'Transfer From' (masked), 'Amount' (£1,000.00), 'Transfer When' (30 Jan 2019), and a 'Note' field. Below this, the 'Security Question Maintenance' section is visible, showing two questions: 'How many siblings do you have?' and 'Which sport you like most?'. Each question has a corresponding input field. At the bottom of the form are 'Submit' and 'Cancel' buttons. A footer contains copyright information for Oracle.

Field Description

Field Name	Description
Questions	The list of security questions set for the 2Factor authentication is displayed.

Field Name	Description
Answer	Enter answers to each security question as defined at the time of security question maintenance.
<ol style="list-style-type: none"> For the Security Question - 2 Factor Authentication, in the Answers field, enter the answers corresponding to the security question. Click Next to go to the next level of authentication. OR Click Cancel to cancel the transaction. Complete the 2 Factor Authentication, and click Confirm. OR Click Cancel to cancel the transaction. The success message of appears along with the transaction reference number. 	

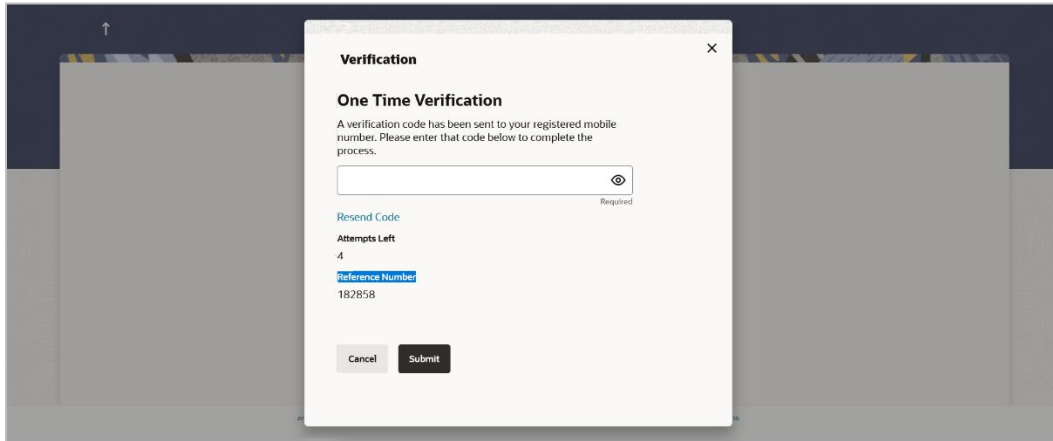

18.1 One Time Password

One Time Password is a second factor authentication method. It is a unique code that can be used only once. A verification code is sent to the registered mobile number or email ID of the account holder. The user has to enter the received code to complete the process. The user can click on Resend Code, to receive the code again (if the code was not received or if the code has expired).

For OTP verification:

- In the **Verification Code** field, enter the code as received.
OR
Click **Resend Code**, if you wish to receive the verification code again or your verification code got expired.

Verification

Field Description

Field Name	Description
Verification Code	Enter the code sent in an email to your registered email ID or as an SMS to your mobile number.

2. Click **Submit**.
OR
Click **Cancel** to cancel the transaction.
On successful authentication, the user is enabled to proceed with the transaction.

FAQ

3. Why is there a need for a One-Time Password (OTP)?

An OTP helps to protect against online fraud. It is a secure way to authenticate whether a customer who is making an online transaction is the rightful owner of the credit / debit card being used.

4. When do I key in the OTP and how do I receive the OTP?

When you make an online transaction using your credit/debit card, OTP is set up will be required. OTP will be sent to your mobile phone via SMS or email.

19. Mailbox

Mailbox helps in two way communication between the bank administrator and the business user. Mailbox displays the list of messages to the user with date and time and message subject. Users can send mail messages to bank administrators with specific pre-defined subjects for their queries/complaints/feedback.

Prerequisites:

- The user must have a relationship with Bank.
- User must have login credentials.

Feature supported in the Application:

- **Inbox** – This folder displays all the messages sent by bank administrators to the user. The user can reply to any of these mail messages or can delete any message.
- **Compose** – This enables the user to select a predefined subject and to initiate a mail with a query/ complaint/ feedback.
- **Sent Mail** – This folder lists down the mails sent by the user. An option is provided to delete any or all sent mails.
- **Deleted Mail** – This folder displays the mails deleted from the user's **Inbox** and **Sent Mail** folders. The user can opt to permanently delete any or all of these mail messages.
- **Alerts** – This folder lists down the alerts sent by the bank to the user. The user can opt to delete any or all of these alerts.
- **Notifications** - This section enables the user to view all the notifications sent by the bank.

19.1 **Mails**

The following features are available under Mails:

- **Inbox:** This folder displays all the mail messages received by the user.
- **Compose Mail:** This option enables the user to create and send a new mail message.
- **Sent Mails:** This folder displays the list of mail messages sent by the user to the bank.
- **Deleted Mails:** This folder contains the list of mail messages deleted by the user from the inbox and the sent mail folders.

How to reach here:

Dashboard > Toggle Menu > Menu > *Service & Support* > Mailbox > Mails
OR

Dashboard > Click  > Mails > View All

19.1.1 Inbox

Using this feature, the user can view the messages received in his Inbox. The user can view an individual message by clicking on the subject of the specific mail.

How to reach here:

Dashboard > Toggle Menu > Menu > Mailbox > Mails > Inbox

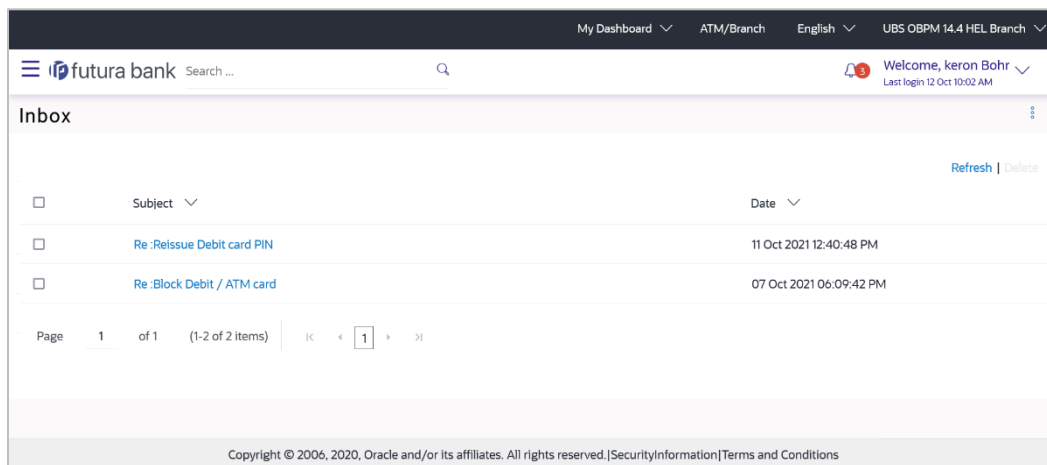

OR

Access through the kebab menu of any other screens available under Mailbox

To view received mails:

1. The list of received messages appears on the **Inbox** screen. Click on the subject link of an individual message to view the details of that message.

Inbox

Field Description

Field Name	Description
Subject	The subject of the mail is displayed against each mail record.
Date	The date and time on which the mail was received is displayed against each mail record.

To access the Inbox:

1. Click the subject of a mail you want to view. The mail details are displayed on the overlay window.
OR
Click **Refresh** to refresh the folder.
OR

To delete one or multiple messages, select the specific check boxes against the mail and click **Delete**.

OR

Click on kebab menu to access mailbox related transactions.

Inbox - Message Details

The screenshot displays the Futura Bank email interface. On the left, the 'Inbox' section shows a list of messages with checkboxes and subject lines: 'Subject', 'Re:Reissue Debit card PIN', and 'Re:Block Debit / ATM card'. Below the list, it indicates 'Page 1 of 1 (1-2 of 2 items)'. On the right, the 'Message Details' pane for the selected message 'Re:Reissue Debit card PIN' is shown. It includes the sender 'admingroup11' (sent 11 Oct 2021 12:40:48 PM) with the content 'Welcome', the sender 'keron Bohr' (sent 11 Oct 2021 12:39:23 PM) with the content 'thank U', and the sender 'admingroup11' (sent 11 Oct 2021 12:34:18 PM) with the content 'Approved'. Below this, it shows the sender 'keron Bohr' (sent 11 Oct 2021 12:27:29 PM) with the content 'Reissue Credit Card'. At the bottom of the details pane are 'Reply' and 'Delete' buttons.

Field Description

Field Name	Description
Message Details	
Message Heading	The subject of the received mail.
From	The name of the sender of the mail.
Sent	The date and time on which the mail was received.
Content	The content of the mail.

Field Name	Description
Mail Chain	<p>All the mails forming part of the mail chain being viewed are displayed one below the other with the mail received most recently displayed on top.</p> <p>Each mail in the chain contains the following:</p> <ul style="list-style-type: none"> The name or ID of the sender of the mail. Mails sent by you will have your name displayed against the From field and those sent by a bank administrator will have the ID of the bank administrator displayed. The date and time at which the mail was sent. The content of the mail as sent by you or the administrator. <p>Note: A mail chain is formed when a user sends a mail to the bank and a bank administrator responds to the mail.</p>

- An overlay containing the details of the mail appears. Click **Reply** if you wish to respond to the mail.
OR
Click **Delete** to delete the message.
OR
Click **X** to close the overlay window.

Inbox - Reply

Field Description

Field Name	Description
Message - Reply	
Message	Enter a response to be sent to the bank.
Attach File +	Browse and select the reference document file sent along with an email message. <hr/> <div>Note: Maximum allowed file size 5MB and allowed file types are JPEG, PNG, DOC, PDF, TXT, ZIP.</div> <hr/>

3. Click **Send** to send the response to the bank.
A message confirming that the mail has been sent successfully appears.
OR
Click **Attach File +** to add an attachment to the response mail.

19.1.2 Compose Mail

Using this option the user can initiate a mail communication with the bank. The mailbox is a communication channel between the bank and the user. In order to send a mail to the bank, the user needs to first select a category which identifies the purpose for which the message is being sent. The specification of a category enables the bank to appoint the user's concern / query to the desired team which ensures a timely and accurate response.

How to reach here:

Access through the kebab menu of transactions available under the Mailbox

To send a message:

1. Click **Compose Mail**. The overlay window on which you can compose and send a mail to the bank appears.

Compose Mail

Field Description

Field Name	Description
Category	Select a category/ subject related to which the message is to be sent.
Message	Enter the message that is to be sent to the bank.
Attach File +	Browse and select the reference document file sent along with an email message.
	<div>Note: Maximum allowed file size 5MB and allowed file types are JPEG, PNG, DOC, PDF, TXT, ZIP.</div>

2. From the **Category** list, select the desired option.
3. In the **Message** section, enter the message.
4. Click **Attach File +** if you want to attach any reference document.
5. Click **Send**.
The success message appears.
OR
Click  to close the overlay window.

19.1.3 Sent Mail

This folder displays all the messages sent by the user to the bank.

How to reach here:

Access through the kebab menu of transactions available under the Mailbox

To view the sent messages

1. Click **Sent Mail**. The list of sent mails appears on the screen. Click on the subject link of an individual message to view the details of that message.

Sent Mail

<input type="checkbox"/>	Subject	Date

FAQ

1. Can customers initiate fresh mails?

Yes, customers of the bank can initiate fresh mails by accessing compose mail option through secure mailbox. Customers can only send mails to bank administrators using this feature.

2. Can customer delete multiple mails?

Yes, users can select multiple mails and delete the same.

3. Can customers restore the deleted mails?

Yes, deleted mails can be restored from the deleted folder. User can go to the Deleted folder, select the mails and click on restore button to move those mails back to respective folder.

4. Can Customer send a reply to the alerts/ notifications sent by the Bank?

No, customer cannot reply to the alerts/ notifications.

5. What are notifications generally about?

Notifications inform customers of the bank about any new offers, promotional rates, and launch of new products or services.

20. Feedback Capture

Feedback option enables you to provide feedback on various aspects of the application as well as specific to transactions. You will be asked a feedback question on which you need to rate on a rating scale and answer subsequent questions if defined for a scale weight that you rate. The feedback captured is analyzed by the bank administrator to decide on the course corrections in case of issues.

Feedback can be provided by the user through the following options in the system:

- General Feedback
- Transaction Specific Feedback

20.1.1 General Feedback

General feedback is available as an option to provide feedback on generic aspects about the application.

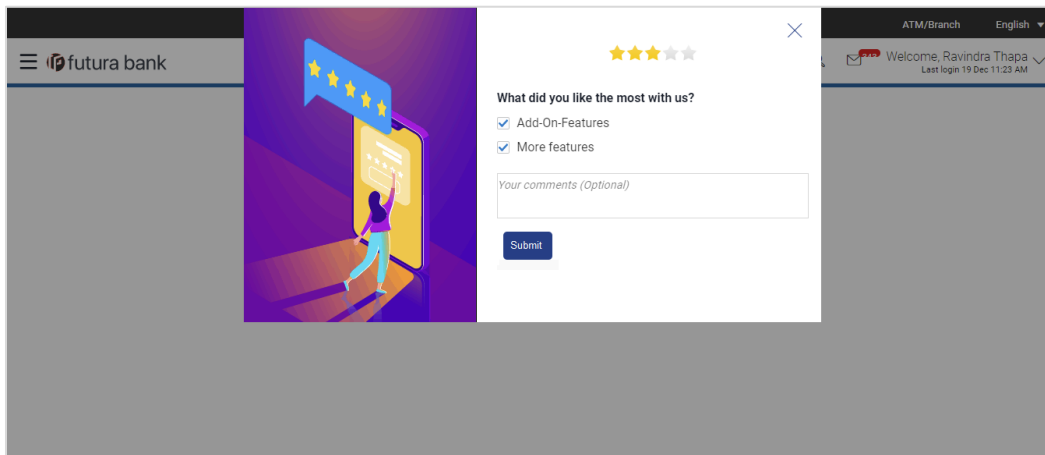

How to reach here

Dashboard > Toggle Menu > Service & Support > Feedback > Leave Feedback

To provide general feedback:

1. Click **Leave Feedback**. The **Feedback** pop-up screen appears.
2. A feedback question appears along with a rating scale.
3. Select an appropriate rating on the scale.
4. Depending on the rating, the system will provide you with a question along with a set of options.
5. Select an appropriate option corresponding to the question.
6. You can also add comments, if required.

General Feedback

7. Click **Submit**. A message confirming successful submission of feedback appears.

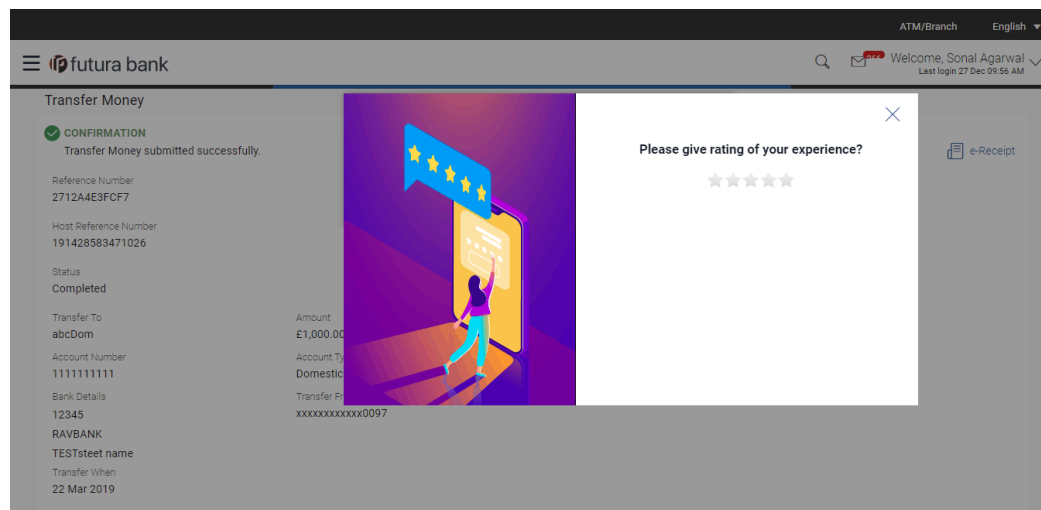

20.1.2 Transaction Specific Feedback

You can capture feedback specific to a transaction provided the transaction has been enabled for feedback capture by the bank. Feedback will be available as an option post transaction confirmation. Transaction specific feedback is recorded and stored for further analysis.

To provide transaction specific feedback:

1. Once the transaction is successfully submitted, feedback as an option is displayed on confirmation page.
2. Click **Feedback**. The **Feedback** pop-up screen appears.
OR
Click **Go to Dashboard** link to navigate to the Dashboard.
3. A feedback question appears along with a rating scale.
4. Select an appropriate rating on the scale.
5. Depending on the rating, the system will provide you with a question along with a set of options.
6. Select an appropriate option corresponding to the question.
7. You can also add comments, if required.
OR
Click **Skip** to skip the feedback process. The **Dashboard** screen is displayed.
OR
Click **Never ask me again** if you do not wish to be asked to provide for any transaction. The system will suspend the feedback process for all transactions and you can enable the same again (if required) through 'My Preferences' from the toggle menu.

Transaction Feedback

21. ATM & Branch Locator

Using this option a user can view the address and location of the ATMs and the branches of the Bank available to serve the user in a certain location. The user is provided with the options to search for the bank's ATMs and branches in his vicinity by entering a location. The search results display the list of ATMs / branches name and distance from the user's current location.

This feature enables the user to locate the bank's ATMs/ branches available within a specific radius of his current location. The user can select a Branch / ATM from the search list and on clicking the **View Details** icon; the user will be able to view the address and services provided by the specific ATM/ branch. The additional filter feature is provided to search the ATM/Branch based on their services. In addition the user can view the detailed directions to the ATM/ branch by clicking **Get Directions**, and will also be able to view its location on a map.

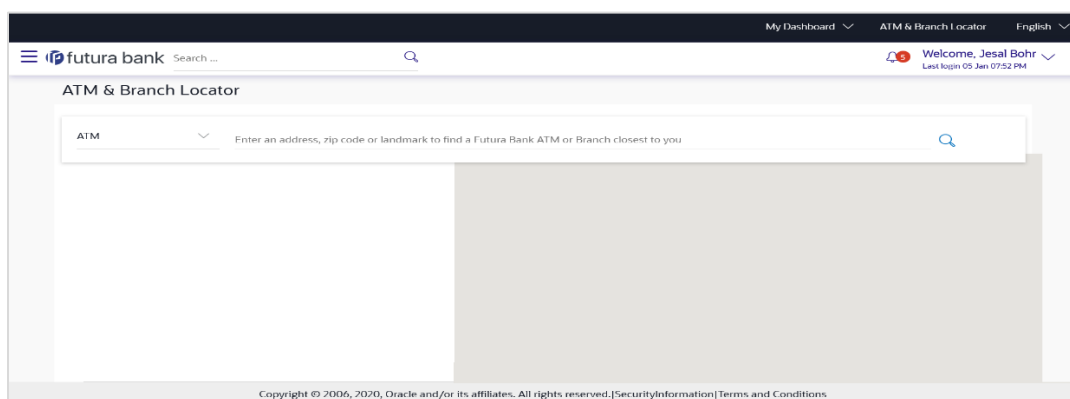

Features supported in the application

- Locate Branches
- Locate ATMs

How to reach here:

OBDX portal landing page > ATM & Branch Locator

The system filters ATMs/Branches on the basis of services selected.

ATM & Branch Locator – Get Directions

8. Hover over the ATM/branch marker on the map to view the address of the ATM/branch.

FAQ

1. Can I view ATM/ Branches of other cities/ states/ countries?

Yes, you can view the ATMs or Branches of the bank located in any city/state or country in the map and also get their details such as address and phone numbers, working hours, services offered, etc.

22. E-Receipts

E-receipts are electronic receipts that are generated for a transaction from the confirmation page. E-receipts are proof of payment, showing that a payment or a transaction has been done in the bank account. Alternately e-receipts can be generated from the transaction journey page, on the dashboard – for all completed transactions.

An e-receipt displays the transaction name, transaction details along with date and time stamp. It's a configurable feature; the user can view the E-receipt button on the transaction only if it is configured (this is done by the bank, when the user requests for the feature)

Pre-requisites

- User has a Current and/or Savings account with the bank with online banking enabled
- The E-receipts maintenance is configured, for the user by the admin.

Features Supported In Application

- Provide e-receipts for a transaction

22.1 Example for e-receipt generation

To make payment to saved payee:

1. Under the **Transfer To** section, click on the **Saved Payee**, the **Transfer To** overlay screen will appear with the **Saved Payee** tab.

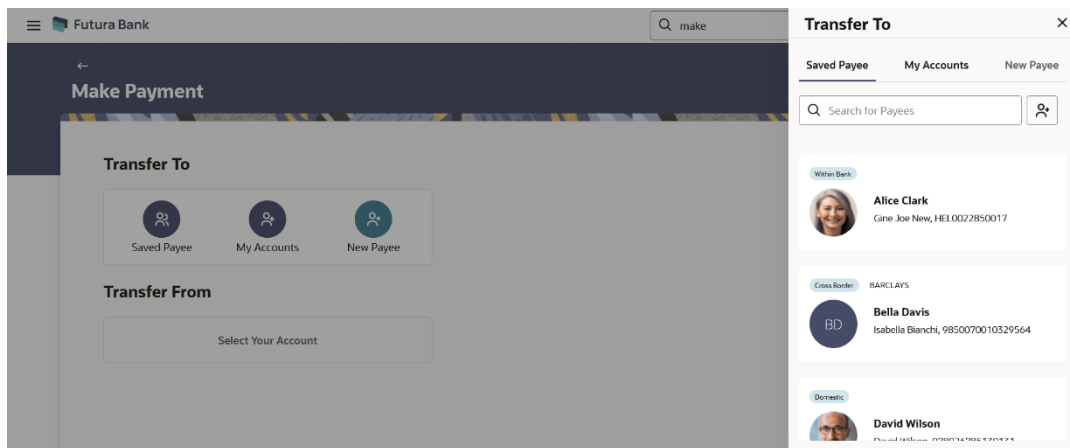

Note:

- 1) Users can also add new payee from the **New Payee** tab.
 - 2) Users can search the specific payees by typing a few characters (type to search). This can be done in fields such as Payee Type, Nickname, Account Name, Account Number.
-

OR

Click on the  icon to add the new payee. The system redirects to **Add Bank Account Payee** screen.

FAQ

1. Can the user download or print e-receipt?

Yes, the user can download or print e-receipt.

23. Nominations

Nominations enables Business users to appoint nominees to their accounts (each account can be appointed a single nominee only), who will be entitled to receive the amount in the bank account upon the death of the account holder.

The application provides the options to add a new nominee to the user's singly held Current and Savings, Term Deposit or Recurring Deposit account so that the nominee can claim funds in case of any death event.

The user can view or edit the existing nominee details of all his Current and Savings account, Term Deposit or Recurring Deposit accounts. The user also has an option to delete the nominee, from any of his accounts in case of any issues or disputes.

Pre-Requisites

- Transaction access is provided to the Business user

Features supported in the application

- Add Nominee
- View Nominee
- Edit Nominee
- Delete Nominee

Features applicable for single and joint account holder

Account Holder	View	Add	Edit	Delete
Single	✓	✓	✓	✓
Joint	✓	✗	✗	✗

Workflow

How to reach here:

Dashboard > Toggle Menu > Menu > Accounts > Nominations

To view nominations:

1. From the **Account Category** list, select the account category of which nominees you wish to view.
2. In the **View Nominees of** field, select an option that identifies whether you wish to view the nominees of a specific account or of all accounts under the selected account category.
 - a. If you have selected the Specific Account option, from the **Account Number** list, select the account of which you wish the view the nominee.
3. Click **Apply** to view the records based on the defined criteria.
OR
Click **Reset** to clear the details entered.

Nominations – Filter Criteria

The screenshot shows the 'Nominations' page on the Futura Bank portal. At the top, there's a navigation bar with 'My Dashboard', 'ATM/Branch', 'English', and 'UBS OBPM 14.4 HEL Branch'. Below this is a search bar and a welcome message for 'keron Bohr'. The main section is titled 'Nominations' and contains filter criteria. Under 'Account Category', 'Current & Savings' is selected. Under 'View Nominees of', 'Specific Account' is selected. An 'Account Number' dropdown shows 'xxxxxxxxxxxx0011 - HE...'. At the bottom are 'Apply' and 'Reset' buttons. A footer contains copyright information: 'Copyright © 2006, 2020, Oracle and/or its affiliates. All rights reserved. |SecurityInformation|Terms and Conditions'.

Nominations – Search Results

The screenshot shows the 'Nominations' page displaying search results. The table has columns: Account Number, Primary Holder Name, Holding Pattern, Nominee, and Action. There are four rows of data. A 'Note' box on the right provides instructions on how to register, inquire, cancel, or modify a nomination. The footer contains the same copyright information as the previous screenshot.

Account Number	Primary Holder Name	Holding Pattern	Nominee	Action
xxxxxxxxxxxx2871	OBPM Payments13	Single	Not Registered	Add
xxxxxxxxxxxx3057	OBPM Payments13	Single	Registered	View/Edit
xxxxxxxxxxxx3196	OBPM Payment 1401	Joint	Not Registered	Know More
Wallet	OBPM Payments13	Single	Registered	View/Edit

Page 1 of 1 (1-4 of 4 items) |< < 1 > >|

Note
You can select the account for which you need to register, inquire, cancel or modify nomination.
Please note the facility of register nomination online is available for singly operated account only.
You may contact your nearest branch if you want to register nominee in your joint account.

Field Description

Field Name	Description
Account Category	Select the account category of which nominees you wish to view. The options are: <ul style="list-style-type: none">• Current & Savings• Term Deposits• Recurring Deposits
View Nominees of	Select an option to identify whether you wish to view the nominees of a specific account or of all the accounts under the selected account category.
Account Number	Select the account of which nominee you wish to view. This field is enabled only if the Specific Account option is selected in the View Nominees of field.
Search Result	
Account Category	Displays the selected account category.
Account Number/ All Accounts	Displays the selected account number, if defined, of which nominee is to be viewed. If All Accounts has been selected under the View Nominees of field, then All Accounts will be displayed.
The following are displayed as records based on search criteria defined.	
Account Number	The account numbers under the selected account category are listed. If an account number has been selected as search criteria, that account number will be listed as a record.
