1. Preface

1.1 Purpose

Welcome to the User Guide for Oracle Banking Digital Experience. This guide explains the operations that the user will follow while using the application.

1.2 Audience

This manual is intended for Customers and Partners who setup and use Oracle Banking Digital Experience.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit, <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Convention	Meaning
------------	---------

boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>Italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.7 Screenshot Disclaimer

The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

1.8 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

2. Payments Overview

The digital banking streamlines fund transfers, allowing users to easily move money between accounts or pay to a person or business. Through the payment's module, users can transfer funds between their own accounts, to other accounts within the same bank, to accounts at other local banks, or even to banks in other countries.

The following sections in this document detail all the features offered to users through the payment's module of the digital banking application.

Note: Payment Screens are not supported in the landscape mode of mobile applications and mobile browser.

Features Supported in the Application

Payment features supported in application includes:

- Favourite Transactions
- Payee Setup
- One Time and Recurring Payments
- Multiple Payments
- Demand Draft Issuance
- Inquiries
- Make Payments and Payee screens as per region requirements.

2.1 Regionalization for Domestic Payments and Cross Border

Local payment systems are tailored to specific regions. For example, NEFT is designed exclusively for domestic transactions within India, making it irrelevant in Europe, while SEPA operates within Europe and is not applicable for payments in Asia.

Oracle Banking Digital Experience offers out-of-the-box support for select local payment systems, as specified in the Transaction Host Integration Matrix. For on-premises implementations, it also allows implementation partners to configure and toggle specific fields to align with regional payment requirements via the back end. However, implementation partners may need to integrate region-specific networks with underlying product processors or, in some cases, further customize the payments to meet the unique needs of the domestic payments in the region.

2.2 My Payments (Dashboard)

The My **Payments** dashboard offers a user-friendly interface and valuable features for organizing and monitoring payment activities effectively. There different widgets are provided to view real-time status of payments and transactions.

The following are the widgets available on the Payments Overview dashboard:

- Quick Payment

- Summary of Payments
- Favourites
- Recent Payments
- Drafts Toast Message
- Quick Actions

The **Quick Payments** widget prioritizes the most frequently used payees, making it effortless to make payments to them promptly. It also allows user to add payees.

The **Summary of Payments** widget provides the user quick view of the number of transactions and total amount done for Incoming and Outgoing payments. User can also see the transactions lying in different stages for Outgoing Payments.

The transactions successfully completed recently are visible under the **Recent Payments** widget. It allows user to track their outgoing and incoming payments conveniently. The **Favourites** widget helps user to quickly access transactions which are marked as a Favourite Payments or Demand Drafts and use them as templates to initiate new transactions. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

The user can quickly see the saved drafts under **Saved Drafts Toast** message helping the user to start from where the transaction is left.

Quick Actions widget is available only in mobile to help the user to navigate to the most important transactions quickly.

Note: The left swipe and Long Press gesture is implemented on mobile and tablets devices.

Swipe gesture - This feature is available on Favourites widget, Recent Payments widget , Incoming and Outgoing Payments Inquiry, Recurring Payments .

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Quick Actions and on payee cards under Manage payees.

How to reach here:

Dashboard > Toggle Menu > Menu > Transfers & Bill Payments > Payments

OR

Search Bar > Payments

My Payments

1. Click **Make Payment** to initiate online payments, system redirects to the **Make Payment** screen.

OR

Click on the **More Actions** to avail following payment related transactions:

- Payees
 - Manage Payees
 - Add Account Payee
 - Add Demand Draft Payee
- Inquiries
 - Outgoing Payments
 - Incoming Payments
 - Recurring Payments
- Favourites and Drafts
 - Favourites
 - Saved Drafts
- Positive Pay

- Add Positive Pay
- View Positive Pay
- Multiple Transfers
- Issue Demand Draft
- Other Transfers
- Debtors
 - Manage Debtors
 - Add New Debtor
 - Request Money

2.2.1 Quick Payments

The **Quick Payments** widget displays the payees at the top of the dashboard, which help users to save time and avoid the hassle of searching for them each time they need to make a payment. They are listed in the descending order of the number of payments made for that payee. It shows 8 most used payees. Click on the payee, the system redirects to the **Make Payments** screen to make payment to the selected payee.

Below are the details being displays for each payee:

- Photo/Name Initials
- Nickname
- Bank Name

Note: For the Bank Name, displays **Within Bank** in case of **Within Bank Transfer**, and displays name of the bank if transfer is **Domestic** or **Cross Border**.

Click on the **Add Payee** to add a payee with transfer type as bank account, the Add Bank Account Payee screen appears. The bank account type can be Within Bank or Domestic or Cross Border.

Click on the **Show All** link to view all the existing payees, the **Payees** screen appears.

Note: The "**Show All**" link will be displayed only when there are more than 8 Payees.

2.2.2 Summary of Payments

This widget is like an innovative way to visually represent incoming and outgoing payments, providing users with a comprehensive overview of their payment's activity briefly. It depicts both incoming and outgoing payments, with number of payments represented in the form of bar graph. This gives users a clear understanding of the volume and status of payments flowing into and out of their account. The Incoming and Outgoing payments transactions can be filtered on account.

Note:

- 1) By default summary of the payment is displayed for an account selected as Primary/Favourite Account.
 - 2) On Clicking incoming/outgoing transaction it will redirect to Incoming/outgoing payments inquiry screen respectively.
 - 3) The **Multi-Currency** link is displayed in case multiple currencies are present. Individual currency breakup to be shown on click of **Multi Currency** link.
 - 4) On the individual currency breakup, when hovering the mouse over the bar, the status and value of the transaction are displayed. Clicking on the bar will redirect the screen to the **Payments Inquiry** with filtered records.
-

The status available for user are:

- In Progress: all the transaction which are under process in host payment processor
- Processed: all the transaction which are completed in host payment processor
- Future Dated: all the transaction which are marked as future dated in host payment processor
- Cancelled: all the transaction which are cancelled in host payment processor
- Reversal Initiated: all transaction which are reversal initiated in host payment processor

By default, the data is displayed as per the current month with dates from 1st of current month to till date. Click on edit icon to modify the date range.

2.2.3 **Favourites**

This widget helps user to quickly access transactions and use them as templates to initiate new transactions which are marked as a favourite Payments and Demand Drafts. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details. Click on the **View All Favourites** link to view all the favourite Payments and Demand Drafts.

The information available for Payments:

- Payment Type (Within Bank, Domestic, Cross Border)
- Favourites Name
- Payee
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list
- Quick Pay icon: make payment with all the data as pre-populated as marked in Favourite

The information available for Demand Drafts:

- Draft Type (Domestic/Cross Border)
- Favourite Name
- Draft Favouring
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked

- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list
- Quick Pay icon: issue demand draft with all the data as pre-populated as marked in Favourite

Note:

- 1) Payments tab is shown only if user has access to either Within Bank /Domestic / Cross Border Payments.
 - 2) Demand Drafts tab is shown only if user has access to either Domestic/Cross Border Demand Draft.
 - 3) The Gesture feature on scroll for Remove from Favourite and Pay is available. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.
-

2.2.4 **Recent Payments**

This widget displays both incoming and outgoing payments, showing the last 10 recent payments. Clicking on the "**View All Payments**" link redirects to the **Payments Inquiry** screen. Within the Payments Inquiry, there are two different tabs available for Incoming Payments and Outgoing Payments. It shows maximum 10 outgoing/incoming recent payments. Click on the **View All Payments** link to view all the outgoing/incoming recent payments. User can select the debit account and based on which the payments will be shown.

The information available for Outgoing Payments:

- Account Number
- Payee name Initials/Image
- Initiation Date
- Payee
- Network Code (For Domestic/Cross Border transfers), Within Bank (For Within Bank transfers)
- Bank Code (applicable for only Domestic Bank transfers)
- Host Reference Number
- Amount with currency
- Status badge
-  Cancel Payment icon: click to cancel payment processing, redirects to **Cancel Payment** screen. Cancel payment appears only for transaction for which cancellation is possible. Refer section [Payment Cancellation](#).
- Repeat: on click redirects to **Make Payment- New Payee** screen with data pre-populated copying this transaction.

The information available for Incoming Payments:

- Direction icon
- Payment Date
- Remitter Name
- Sender's Account Details (Bank Code, Number)
- Host Reference Number
- Credited Amount with currency

Note:

- The Gesture feature on scroll is implemented, allowing users to press and hold on a screen to trigger additional options or actions such as Repeat Payment and Cancel. This functionality is supported on mobile devices and tablets.
 - Number of payments shown in mobile/table is maximum 5 for outgoing/incoming recent payments.
-

2.2.5 **Drafts Toast Message**

This feature enables users to view draft messages saved in the system as a toast message, allowing them to resume or view drafts directly from there. On click of the **Resume** option, user is redirected to the Payments screen with data populated from the draft. The view option displays the existing draft inquiry screen.

Note:

1. This will only be displayed if the user has saved any drafts.
 2. Resume option will be available if there is only 1 saved draft, for more than 1 saved drafts view option will be available.
-

2.2.6 **Quick Actions** (Available only in mobile and tablet)

This widget provides quick actions to the user using which the user can navigate to that transaction quickly. Long press gesture feature is available on the quick actions in addition to single click actions. Below are the actions available.

- Payees
- Make Payment
- Payment Status
- Favourites
- Saved Drafts

3. Payees

The online banking application enables customers to save and maintain payees (beneficiaries) towards whom payments are to be made frequently.

This feature enables users to register payee, view and delete the existing payees. The user can view payee's details by selecting the provided option and is also able to edit or delete a payee's record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen. Payees can be created and maintained for the following types of transfers:

- Bank Account
 - Within Bank Account
 - Domestic Bank Account
 - Cross Border Bank Account
- Demand Drafts
 - Domestic Bank Account
 - Cross Border Bank Account

Pre-Requisites

- Transaction access is provided to the Small and Medium Business user.

Features Supported in the Application

- Create Payee
- View Payee
- Edit Payee
- Delete Payee
- Initiate payment towards a Payee

Note: The Long Press Gesture feature is implemented on Quick Actions for Payees. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Account Payees, Demand Draft Payees. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Payees > Manage Payees

OR

Search Bar > Payees – Manage Payees

3.1 Payee Summary

The summary page provides the user with a holistic view of all Payees (Within Bank, Domestic, Cross Border) saved with the bank. Additional features available are to make payments, edit the payee details, and delete the payee. The payees can be viewed either in a table format or in a list format using a switch option.

The user can also navigate to other payee-related screens from the **More Actions** menu provided on the screen. Additionally, they can add a new payee. The filters are available to view the payees based on description. The  table and  card view options are provided on screen to view the payees. In the  table view, the payees are listed in tabular form. Whereas in  card view payees are listed in card format.

Each card displays details like Payment Type, Payee Photo/Avatar, Payee Name, Payee Nickname, Payee Address, Payee Account Number, options to make a payment, update payee's details, and delete the Payee. Click on the specific card to view further details of each card. A separate tab is provided on the screen to view the 'Accounts' payees and 'Demand Drafts' payees.

To manage payees:

1. Click on the Account/Demand Draft tab, respective **Payees** summary page appears. All the payees accessible to the logged in user are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation.

Field Description

Field Name	Description
Payee Type	Select Within Bank .
Account Details	
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Personal Details	

Field Name	Description
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: 1) The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. 2) Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

3.2.2 Add Payee - Domestic Bank Account

A domestic account transfer is one which involves the transfer of funds to an account that is held with another bank within the same country or politically united region.

Add Payee – Domestic Bank Account

The screenshot shows the 'Add Account Payee' form in the Futura Bank interface. The form is titled 'Add Account Payee' and has a 'Cancel' button and a 'Submit' button. It is divided into three tabs: 'Within Bank', 'Domestic' (selected), and 'Cross Border'. The form is organized into three main sections: 'Account Details', 'Bank Details', and 'Personal Details'. The 'Account Details' section includes fields for 'Network Type' (SEPA Instant), 'Account Type' (Savings), 'Account Number' (masked with asterisks), 'Confirm Account Number' (1234567), and 'Account Name' (Sam Desouza). The 'Bank Details' section includes 'Bank Details' (DEUTDEFFXXX), 'DEUTSCHE BANK', 'GERMANY', and a 'Reset BIC Code' link. The 'Personal Details' section includes a profile picture, 'Nick Name' (Samd), 'Email ID' (samd@example.com), 'Country' (United States), 'Address Line 1' (12, Park Avenue), 'Address Line 2' (South Block), and 'City' (San Jose).

Note: The below field description is not country specific and is given for general information. Fields will be populated based on the country/region fields configuration for Domestic Bank Account.

Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	

Field Name	Description
Account Type	Select the type of account associated with the payee.
Account Number	Specify the account number of the payee.
OR	OR
IBAN	Specify the IBAN of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
OR	OR
Confirm IBAN	The user is required to re-enter the IBAN in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Verify Account	Select this to verify the account mentioned.
Bank Details	
Based on the configuration in regionalisation, one of the below options can be configured for the Bank Details. Out of these four options only one option will be available on the screen.	
• Bank Code Lookup • Bank Code (Read only) • Bank Code (No Verify) • Bank Name & Branch	
Bank Code Lookup	On click the Lookup Bank Code overlay screen appears with the search criteria. This is to enable user to search for a Bank Code in case he does not remember it. For more information on Lookups , refer Lookups section.
Bank Code (read-only)	The user can see the Bank Code of the payee's account in read only mode. The bank code will be fetched based on the Account Number/IBAN and will be displayed here in read only mode.
Bank Code (No verification)	Specify the Bank Code of the payee's account. This will not be verified and passed onto the host product processor.
Bank Code (With verification)	Specify the Bank Code of the payee's account with the option to verify. The verify option will fetch the bank details based on the bank code specified.

Field Name	Description
Bank Name	Bank Name of the payee.
Branch	Branch of the bank.
Bank Code Lookup - Search Result	
The following fields are displayed in the search results.	
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Details	The details of the bank that include the BIC/IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: 1) The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. 2) Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Please note that this field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Field Name	Description
Country	Specify the country where the payee's bank is situated.
Address Line 1-3	Enter the address of the payee's bank.
City	Enter the city of the payee's bank.

3.2.3 Add Payee – Cross Border Bank Account

The Cross Border fund transfer involves the transfer of funds to an account that is maintained outside the country and beyond geographical boundaries. Hence, while adding a payee who holds the cross-border account, the user is required to specify extensive details of the payee's account including the network code to be used to transfer money to the account as well as the details of the bank in which the account is held.

This option will only appear if no photo has been uploaded against the payee. Note: 1) The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. 2) Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email address of the payee. Please note that this field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Field Name	Description
Country	Enter the country of the payee's bank.
Address Line 1-3	Enter the address of the payee's bank.
City	Enter the city of the payee's bank.

To create a payee for the within bank account transfer:

1. Fill the details in the respective field.
2. In the **Nickname** field, enter the nickname to be assigned to the payee.

Note: If, while creating a payee, the user enters an account number or payee nickname that has already been assigned to a registered payee, an error message will appear informing the user that a payee with the specific details already exists and the user will not be able to create the payee.

3. On submit **Add Payee - Review** screen appears. Verify the details and click **Confirm**.
4. On confirm, the success message appears along with the transaction reference number and payee details.
5. Below are the available actions on the confirmation page –
 - **View Payees** - To view the list of payees. It will navigate to manage payee's screen
 - **Payments** - To go to the My Payment Overview page.
 - **Go to Dashboard** - To go to the main dashboard screen.
 - **Make Payment** - To initiate fund transfer to the added payee.
 - **Add New Payee** - To add a new payee.

3.3 **Add Demand Draft Payee**

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified centre and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using Cross Border Demand Draft while a pay order or local currency demand draft can be requested using the Domestic Demand Draft transaction. A Demand Draft, as compared to a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the cheque not clearing. Users can save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- Cross Border Demand Draft

The feature allows you to create a Domestic Draft payee to initiate a request to issue a draft which is payable at a location within the country. The user provides the payee details, the details of draft to be issued in favour of and the payable location.

Note: The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Issue Demand Draft, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Payees > Add Demand Draft Payee

OR

Search Bar > Payee - Add Demand Draft Payee

To add a new demand draft payee:

1. The **Add Demand Draft Payee** screen appears.

3.4.3 Delete payee

To delete the payee:

1. Navigate to the **Payees** screen.
2. Click on the  icon of specific beneficiary card which you wish to delete. The **Delete Payee** pop up window appears with a warning message prompting the user to confirm the deletion.

Delete Payee

- a. Click **Delete** to proceed with the deletion request.
OR
Click **Cancel** to cancel the deletion process.

FAQ

1. When can I make the payment to newly added payee?

After successfully adding a payee, you may proceed to transfer funds only after the cooling period (the time set by the bank during which fund transfer is not allowed to a newly added payee) or you may set a future date for the transaction to take place.

2. If I delete or edit a payee, what will happen to the in-flight transactions?

Payee modification or deletion will not have any impact on the transactions which are initiated towards the payee and that are pending further processing.

4. Make Payment

The Make Payment feature enables the user to initiate online payments between his own accounts or perform one of the following types by using an existing payee or new payee (ad hoc payee) where the customers are required to specify the payee details manually along with the transfer details while initiating a payment.

- Within Bank Transfer
- Domestic Transfer
- Cross Border Transfer

User can also initiate transfers towards a group of people as part of a single transaction. This feature allows them to send money to registered payees or new payees of different transfer types i.e., Within Bank, domestic and Cross Border transfers, with different transfer dates, all at once from a single screen.

Note: The fields appearing in the domestic and cross border payments for both payee and payment is regionalisation supported.

User selects the specific account or the payee towards which the transfer is to be made. The user is not required to explicitly select the transfer type (Within Bank, Domestic or Cross Border) since this is defined at the time of payee creation.

Recurring Payments, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals. Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating recurring payments by introducing the selection at the time making the regular payments. Through this feature, users can set an instruction for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from the **Recurring Payments summary or details** screen.

Cross Border Low value payments are now enabled as part of Make Payments. User can opt for the low value payment while making the cross-border payment based on the amount and selected bank.

Pre-requisites:

- Small and Medium Business users are granted access to transactions and accounts.
- Payees are registered for the purpose of transferring funds.
- Transaction limits are assigned to user to perform the transaction.
- Payee limits, cooling period along with transaction limits are maintained.

How to reach here:

Toggle menu > Transfers & Bill Payments > Payments > Make Payment

OR

Search bar > Payments – Make Payment

To make a payment:

1. Navigate to the **Make Payment** screen.

Make Payment

Field Description

Field Name	Description
Transfer To	
Saved Payee	Option to select the existing payee to whom you wish to initiate payment. All the payees maintained will be listed for selection.
My Accounts	Display the list of Own Accounts.
New Payee	Option to add new payee to whom you wish to initiate payment.
Transfer From – Will be blank initially	

4.1 Make Payment -Transfer to single user

4.1.1 Make Payment - Saved Payee

This feature allows Small and Medium Business user to make payment to Saved Payee. All payees (Within Bank, Domestic and Cross Border payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the existing payee will get defaulted on the **Transfer From** field and user can change the source account if required.

Payment related details will be populated based on type of payee selected and based on regionalization. Refer section [Regionalization for Domestic Payments](#) to see region specific payment fields.

To initiate payment to single user:

1. In the **Transfer To** section, select the **Saved Payee** option, and the **Transfer To** overlay screen will display with the **Saved Payee** tab.

Note:

- 1) Users have the option to add a new payee through the **New Payee** tab.
- 2) Additionally, they can locate specific payees by entering a few characters in the search field. This search functionality is available in categories such as Payee Type, Nickname, Account Name, and Account Number.

OR

Click on the  icon to add the new payee. The system redirects to **Add Bank Account Payee** screen.

Make Payment- Transfer To overlay screen

Field Description

Field Name	Description
Search for payee	Allow user to search payee with the Payee Type, Nickname, Account Name, Account Number.
All the saved payees listed on the Saved Payees overlay screen. Below details are displayed for each payee -

Field Name	Description
Upload Documents	For Cross Border payments the screen lets the user attach documents. OBDX supports configuring a list of mandatory/non-mandatory documents from backend for On-premises. Once configured and enabled, the list will show up on the screen. Note: When the payment is submitted, the documents will be stored to a configured Document Store (DMS or DB or any other repository depending on the implementation). The document reference numbers will be passed to the back-end payment processor along with the payment request.

3. Fill the details in the respective fields.
4. Click **Proceed to Pay** to initiate the payment request.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Save as Draft** to store the unfinished transaction for later completion.
5. The **Make Payment - Review** screen appears. Verify the details and click **Confirm**.
OR
Click **Cancel** to cancel the transaction.
OR
Click **Back** to navigate back to previous page.
6. The success message appears of request of payment transfer along with the reference number, host reference number.
7. Click **Transaction Details** to view the details of the transaction.
OR
Click **Go to Dashboard** to go to the **Dashboard** screen.
OR
Click **e-Receipt** to generate the electronic receipt of the transaction. For additional details, refer the **e-receipt** section in the **Small and Medium Business Customer Services** User Manual.
OR
Click **Payments** to access the **Payment Overview** page.
OR
Click **Make Another Payment** to make new payment.
OR
Click **Save as Favourite** to save payment as favourite transaction.
OR
Click **Check Status** to see the status of the payment transaction. System will redirect to the **Payment Details** screen.
OR
Click **Add as Payee** to save the payee to whom the payment is made.
OR
Click  icon to share to share payment details. It opens default mail client with relative message in the body.

Note:

- 1) The **Add as Payee** option is displayed during the ad hoc payment procedure. By clicking on **Add as Payee**, user will be taken to the **Add Bank Account Payee** screen to include a new payee.
 - 2) The functionality to share payment details is not available for My Account payment transfers.
-

4.1.2 Make Payment - My Accounts

This feature allows users to make payments towards user's own accounts, enabling them to transfer funds within their bank-held accounts.

To make payment to a payee's own account:

1. Navigate to the **Make Payment** screen.
2. Under the **Transfer To** section, click on the **My Accounts**, the **Transfer To** overlay screen will appear with the **My Accounts** tab.

Make Payment- Transfer To overlay screen

Field Description

Field Name	Description
My Accounts	
Displays the list of my accounts in the card's layout with following details on each card.	
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The values could be - • Islamic • Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.
Current Balance	The net balance in the selected source account is displayed against the Transfer From field once an account is selected.

3. On selection the screen populates the **Transfer From** and **Payment Details**.

Note: Fields under Transfer From, Payment Details, Fees and Charges and Additional Details are same as mentioned above for **Make Payment - Saved Payee**.

Make Payment – My Accounts

The screenshot displays the 'Make Payment' interface within the Futura Bank application. The interface is designed for selecting a payee and initiating a transfer. It features a modal window with the following sections:

- Transfer To:** Displays details for a selected payee, 'Justin Jefferson', including their account type ('Conventional Account'), account number ('xxxxxxxxxxxx0035'), branch ('HLL Savings Account'), and available balance ('€1,000,000.00').
- Transfer From:** Displays details for the source account, 'Sal Account, xxxxxxxxxxxx0035', including the account type ('Conventional Account'), account holder ('Justin Jefferson | EUR | HLL'), and current balance ('€1,000,000.00').
- Payment Details:** Includes fields for 'Currency' (set to EUR), 'Transfer Amount' (marked as required), 'View Limits', 'Scheduled On' (set to 'Pay Now'), and 'Transfer On' (set to '8/29/2024').
- Fees & Charges:** Includes a 'Calculate Charges' section with a dropdown menu for 'Deduct Charges From' (set to 'Sal Account, xxxxxxxxxxxx0035') and a 'Current Balance' of '€1,000,000.00'.
- Additional Details:** Includes a 'Note' field for additional information.

Navigation buttons at the top right include 'Save As Draft', 'Cancel', and 'Proceed to Pay'.

4.1.3 Make Payment – New Payee

Using this feature user can initiate payment requests towards payees that are not registered in the system. Since the payment request is for an unregistered payee, the user is required to specify details of the payee along with transaction details.

Once the payment request is initiated, the user can register the payee as a payee by selecting the Add as Payee option provided on the confirm screen.

Users can initiate Within Bank, Domestic and Cross Border payment requests.

To initiate payment request for new payee:

1. Navigate to the **Make Payment** screen.
2. Under the **Transfer To** section, click on the **New Payee**, screen will appear with **New Payee** tab to add new payee.
 - a. If you select the **Within Bank** option in the **Payee Type** field:
The **Account Details** appears for the within bank payment.
 - b. If you select the **Domestic** option in the **Payee Type** field:
The **Account Details** appears for the domestic payment.
 - c. If you select the **Cross Border** option in the **Payee Type** field:
The **Account Details** appears for the cross-border payment.

Make Payment- Transfer To (New Payee – Within Bank) overlay screen

The screenshot displays the Futura Bank mobile application interface. The main screen is titled 'Make Payment' and features a 'Transfer To' section with three icons: 'Saved Payee', 'My Accounts', and 'New Payee'. The 'New Payee' icon is selected. Below this is a 'Transfer From' section with a 'Select Your Account' button. A modal titled 'Transfer To' is overlaid on the right side of the screen. This modal has three tabs: 'Saved Payee', 'My Accounts', and 'New Payee'. The 'New Payee' tab is active. Under the 'New Payee' tab, there are three radio button options for 'Payee Type': 'Within Bank', 'Domestic', and 'Cross Border'. The 'Within Bank' option is selected. Below these options are three text input fields under the heading 'Account Details': 'Account Number' (marked as Required), 'Confirm Account Number' (marked as Required), and 'Account Name' (marked as Required). Below these are two more text input fields under the heading 'Personal Details': 'Email ID'. At the bottom right of the modal are two buttons: 'Cancel' and 'Proceed'.

Below payee fields appears for the Within Bank payment type.

Field Description

Field Name	Description
Payee Type	Select Within Bank .
Account Details	
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Personal Details	
Email ID	Email addresses of the payee.
	Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Make Payment- Transfer To (New Payee - Domestic) overlay screen

4.2 Make Payment - Multiple Payments

The Multiple Payments feature allows users to initiate payments towards a group of people as part of a single transaction. This feature, users can initiate payments towards own accounts, saved payees or new payees of different transfer types i.e., Within Bank, domestic and Cross Border transfers, with different transfer dates, all at once from a single screen.

To initiate multiple payments:

User can add payment for either Saved Payee, My Accounts, or New Payee type of payee.

1. Follow the steps from **1-3 of Make Payment-Saved Payee** chapter. Follow the one of the actions for desired type of payee:
 - a. If you select **Saved Payee**;
On click open drawer with **Saved Payees** listed along with search option. User can select the desired payee.
OR
If you select **My Accounts**;
On click open drawer with **Own Accounts** mapped to the user listed. Search the desired Own Accounts with **Search** option.
OR
If you select **New Payee**;
On click open drawer with **Add Account Payee** fields. Fill the details of the payee in the drawer. **Add Account Payee**

Note: Fields under Transfer From, Payment Details, Fees and Charges and Additional Details are same as mentioned above for **Make Payment - Saved Payee**.

2. Click **Next** to save the details and allows the user to add another payment. The **Make Payment** screen appears along with the added payment record based on payee type.
OR
Click **Discard** to cancel the added record.

Make Payment – Initiate Screen

The screenshot displays the 'Make Payment' interface of Futura Bank. The header includes the bank logo, a search bar, and user profile icons. The main content area is titled 'Make Payment' and features three primary sections: 'Transfer To', 'Transfer From', and 'Payment Details'. The 'Transfer To' section shows a selected payee, Alice Clark, with a 'Change' button. The 'Transfer From' section displays the source account, Sal Account, with its details. The 'Payment Details' section includes a 'Transfer Amount' field, a 'View Limits' link, and date pickers for 'Scheduled On' and 'Transfer On'. The 'Additional Details' section contains a 'Customer Reference Number' field and a 'Note' field. Navigation buttons at the top include 'Save As Draft', 'Cancel', and 'Proceed to Pay'. A 'Next' button is located at the bottom right, along with a red chat icon.

Make Payment – Preview Screen

Islamic Account	SPINNEYS SUPERMARKET INC			

3. When number of accounts are more than 100.

In this case advanced search option is provided, to search the by using below filters-

- Account Number
- Account Name
- Account Type

4.4 Suggestive Credit Value Date

The Payment framework provides the facility to display the suggestive credit value date on the review screen of a payment. This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The service considers parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

4.5 Save as Draft

The Save as Draft feature enables the user to save the transaction which are saved as a draft and incomplete can be worked upon later. User can access the transaction from **Saved Drafts** screen and complete it.

1. Navigate to **Make Payment** screen.
2. At any stage of transaction, click **Save As Draft** to save the payment record.
3. Assign name to the Draft.

Save As Draft

The screenshot shows the 'Make Payment' interface of Futura Bank. On the left, under 'Transfer To', there is a card for 'David Wilson' (David Wilson, 078926785139131). Below it, 'Transfer From' shows 'Sal Account, xxxxxxxxxxxxxx0035' (Justin Jefferson | EUR | HEL, Current Balance: €1,000,000.00). The 'Payment Details' section on the right includes 'Currency: EUR', 'Transfer Amount' (with a 'Required' label), 'View Limits', 'Network Type: SEPACREDIT', 'Scheduled On: Pay Later', and 'Transfer On: 9/20/2024'. At the bottom, 'Fees & Charges' shows 'Calculate Charges' and 'Deduct Charges From: Sal Account, xxxxxxxxxxxxxx0035'. A 'Save As Draft' button is visible in the top right of the 'Make Payment' screen. A modal titled 'Save As Draft' is open on the right, featuring a 'Draft Name' input field and 'Cancel' and 'Save' buttons at the bottom.

Note: For **Multiple Transfers**, the Save Draft feature will generate an individual draft for each payment included. Each draft will have the same name, followed by a sequence number

4.6 Save as Favourite

The Save as Favourite feature enables the user to mark the payment as favourite. User can access the transaction from Favourite screen and initiate the transaction. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

1. Navigate to **Make Payment** screen.
2. Initiate the transaction. The system displays confirmation screen.

Note: For more information refer **Make Payment** transaction.

3. Click **Save As Favourite** link on the confirmation screen to save transaction as a favourite.
4. Assign name to the transaction which to be marked as favourite.

Save As Favourite

FAQ

1. **Can I use the ad hoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**

No, fund transfers can be made only to current or savings account through the ad hoc transfer transaction.

2. **Can I set a future date for a fund transfer?**

You can set a future date for a payment using the Pay Later option.

3. **What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

4. **What happens if the transaction amount is less than set Transaction Limit?**

If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

5. **Can I make a payment towards an account which is currently not registered as my payee?**

Yes, you can make payments to the accounts which are not registered as payees through the ad hoc transfer transaction.

6. Are separate transaction limits applicable for when I initiate a transfer using Ad hoc Transfer and using Transfer Money by selecting a payee?

Transaction limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Ad hoc Transfer or by using Transfer Money (provided the payment network is the same).

7. Can I cancel a Recurring Transfer instruction?

Yes, you can cancel Recurring Transfer transactions provided that the instruction has some instructions that have not yet been executed. You cannot reverse transfers that have already been initiated.

Once an instruction has been cancelled, it will no longer be visible on the View Repeat Transfer screen.

8. What happens if I have set up a transfer for a future date, but on that date, I don't have enough funds in my account to cover the transfer?

In this case, the transfer will not be made. Transfers are executed only if there are funds available in your account.

9. Can I cancel a specific instalment of a recurring payment?

No, you cannot cancel the specific instalment of recurrent payment, but you can cancel entire instruction given for recurring payment.

10. Is there any limit on the number of payments that can be initiated at a time through multiple payments?

Yes, the limit will be enforced as defined by the bank.. If you attempt to add another transfer record after reaching this limit, you will see an error message.

11. Do fund transfers between business accounts need authorization?

.Transferring funds between business accounts needs approval if the transaction is set up for Two Factor Authentication.

6. Regionalization for Domestic Payments

Regionalization for domestic payments involves systems to align with the specific requirements and standards of each region. This includes defining fields such as networks supported, account types, currencies, charges, etc. that can vary from one region to another. By customizing these fields according to regional specifications, implementation partners can enhance the reliability of domestic payment transactions, ensuring they meet local regulatory requirements and customer expectations.

Implementation partners have the flexibility to customize domestic payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box –

- India
- SEPA region
- US

Networks for the above supported regions –

Region	Networks
India	• RTGS • NEFT • IMPS
SEPA region	• SEPA Credit Transfer • SEPA Instant Credit
US	• ACH Transfer • Faster ACH Transfer • Domestic Wire Transfer

6.1 India Region

7. Regionalization for Cross Border Payments

Regionalization for cross border payments allows configuration for cross border payments as per specific requirements and standards of each region. By customizing these fields according to regional specifications, implementation partners can enhance the reliability of cross border payment transactions, ensuring they meet local regulatory requirements and customer expectations.

Implementation partners have the flexibility to customize cross border payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box –

- India
- SEPA region
- US

Networks for the above supported regions –

Region	Networks
India	• SWIFT • NCC • Bank Details
SEPA region	• SWIFT • NCC • Bank Details
US	• SWIFT • NCC • Bank Details

8. Inquiries

8.1 Outgoing Payments

The Outgoing Payments screen allows users to review and keep track of all their payments. This feature presents details of payments initiated from the user's current and savings accounts, regardless of the channel used for initiation. These transactions encompass Within Bank, domestic, and cross border transfers, as well as transfers to own accounts.

The summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat payment, cancel, or download e-receipts for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Outgoing Payments Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list outgoing payments. The **Filter** feature is provided to search the payments based on the search criteria.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on '**Manage Columns**' option available on the screen, user can.

- Rearrange columns.
- Remove specific columns.

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- 2) The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Note: The Long Press Gesture feature is implemented. In quick actions on Status Inquiry, users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Single Payments, Recurring Payments, Incoming Payments. This functionality is only supported on mobile devices and tablets.

Pre-requisites:

Transaction access is provided to the Small and Medium Business user.

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Inquiries > Outgoing Payments

OR

Search Bar > Payment Inquiries – Outgoing Payments

OR

Toggle menu > Menu > Transfers & Bill Payments > Payments > My Payments > Recent Payments widget > Outgoing tab > View All Payments

8.1.1 Outgoing Payments - Summary

To view / search for payment records:

1. Navigate to the **Outgoing Payments** screen. The system displays a summary of all the outgoing payments for the primary account.

Note: By default, the **Outgoing Payments** screen displays the list of payments for the primary account.

2. Select the account from the drop-down list to view its outgoing payments. The system displays a summary of all the outgoing payments for the selected account.

Outgoing Payments - Summary

Payment Cancellation – Cross Border Transfer

The screenshot shows the 'Cancel Payment' interface for a cross-border transfer. At the top, there's a navigation bar with the Futura Bank logo, a search bar, and user profile icons. The main heading is 'Cancel Payment' with a back arrow and 'Cancel'/'Submit' buttons. The form is divided into three sections: 'Cancellation Details' with a dropdown for 'Cancellation Reason' (set to 'Incorrect Currency') and a text field for 'Cancellation Remark' (containing 'correct the currency'); 'Transaction Details' showing 'Payee Name' (Aleksandar Petrovic), 'Reference Number' (2417602049586000), and 'Payment Type' (International Transfer); and 'Beneficiary Details' showing 'Account Number' (masked as xxxxxxxxxxxx5654) and 'Bank Details' (HÄHNENSTRASSE 57, Cologne). The status is 'In Progress' with a note '(Transaction to be executed on 5/15/2024)'. A red 'PAY' button is at the bottom right.

Field Description

Field Name	Description
Cancellation Details	
Cancellation Remarks	Enter the relevant remarks to process cancellation of the payment.
Cancellation Reason	Specify the reason codes.
Transaction Details	
Payee Name	The name of the payee.
Reference Number	The reference number assigned to the transaction by the host system.
Payment Type	The type of payment transfer i.e., Within Bank, Domestic or Cross Border transfer.
Status	The status of the payment transfer record. It could be: • In Progress • Processed • Future Dated • Cancelled
Payee Details	
Account Number	The payee's account number to which the funds to be transferred. The account number appears in masked format.

Field Name	Description
Bank Details	This field is displayed only if Payment Type is Cross Border Transfer .

4. Click **Submit** to cancel the payment.
OR
Click **Cancel** to cancel the transaction.
5. The success message of payment cancellation appears along with the transfer request number.
6. Click **Home** to navigate to the dashboard.

8.1.4 Payment Cloning

The **Repeat** feature available on the **Outgoing Payments** summary screen allows user to clone a payment. This is to make it convenient for the end user to initiate the same payment again, on a different date. The cloning does not intend to stop the user from changing any of the data. Therefore, it is just another Ad hoc Payment transaction, and the user will be able to change any fields he wants to.

For a Self-Transfer that was initiated from OBDX and visible in Payment Status Inquiry, clicking on the Clone button will open the **Make Payment** – Within Bank page. This is because, from the bank's perspective both Self Transfer and Within Bank Transfer are payments between accounts within the bank.

The payments seen in **Outgoing Payments** are a combination of all payments posted to the back-end payments processor. The payments could have originated from other channels too, or directly from the payment's processor itself. And therefore, to repeat/copy the same payment later, OBDX makes use of the Make Payments for New Payee transaction since the payee information may not be present within OBDX as a payee.

Pre-Requisites

- Entitlements to Make Payments – New Payee

To clone the payments:

1. Navigate to the **Outgoing Payments** screen.
2. Click on the  (Repeat) icon against the payment record which to be cloned.
The user will be redirected to the **Make Payment** screen transaction with most of the data of the existing payment copied to the input fields. For more information refer **Make Payment** – New Payee section.

8.2 Incoming Payments

Inward remittance is amount of money received in user's account/s from the various Domestic and cross border channels. Using this inquiry transaction, user can inquire the inward remittances received in your account.

Prerequisites:

- Transaction and account access is provided to Small and Medium Business user.
- Inward remittances are available under the accounts.

Features supported in application.

Following transactions are allowed under Incoming Payments Inquiry

- View Incoming Payments

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Inquiries > Incoming Payments

OR

Search Bar > Payment Inquiries – Incoming Payments

OR

Toggle menu > Menu > Transfers & Bill Payments > Payments > My Payments > Recent Payments widget > Incoming tab > View All Payments

8.2.1 Incoming Payments - Summary

By default, summarized view of all inward remittances received in your primary account mapped to you are listed. An option is provided to search specific remittance transaction based on various search criteria.

Incoming Payments - Summary

Sent By	Sender Account	Received On	Host Reference	Payment Type	Amount	Network
Miguel Fernandez	xxxxxxxxxxxx1222	5/13/2024	2417401141937000	Domestic	€3,200.55	SEPA CREDIT, DEUTDEFFXXX
Miguel Fernandez	xxxxxxxxxxxx0135	5/13/2024	2417401361041000	Cross Border	€1,950.80	Cross Border

Field Name	Description
Account Number	The account number whose inward remittance inquiry to be done.
Sent By	The account name of the remitter.
Sender Account	The account number of the remitter.
Received On	The date on which the transaction is received by the bank from the channel.
Host Reference	The transaction reference number. Indicates the link to view the details of transaction.
Payment Type	The type of payment transfer i.e., Within Bank, Domestic or Cross Border transfer.
Remittance Amount	The amount in the currency as received by the bank.
Network	Local payment network along with the bank code. Note: The bank code is displayed only for the Domestic type of payments.

Credit Account Branch	The name of the bank and branch of the receiver.

4. Click **Back** to go back to the previous screen.

8.3 **Recurring Payments**

The application has simplified the user's task of initiating repetitive payments by introducing the **Recurring Payments** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from this screen using **Stop Recurring Payment** feature.

The **Recurring Payments** transaction enables users to review and keep track of all their payments set as recurring. This feature displays details of all recurring payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions can include Within Bank, Domestic and cross border transfers along with transfers made to own accounts.

The **Recurring Payments** summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat, cancel, or download e-receipts and view status for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list recurring payments. The **Filter** feature is provided to search the payments based on the search criteria.

The user can view additional details of a recurring payment by selecting the provided reference number link and navigating to the **Recurring Payment Details** screen. Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns**' option available on the screen, user can.

- Rearrange columns.
- Remove/add specific columns.

Note:

- 1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
 - 2) The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
 - 3) Swipe gesture is implemented on the Recurring Payments summary page showing actions - Copy, Stop as applicable. This functionality is only supported on mobile devices and tablets.
-

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Inquiries > Recurring Payments

OR

Search Bar > Payment Inquiries – Recurring Payments

8.3.1 Recurring Payments – Summary

To view / search for recurring payment records:

1. Navigate to the **Recurring Payments** screen. The system displays a summary of all the recurring payments for the primary account.

Note: By default, the **Recurring Payments** screen displays the list of recurring payments set for the primary account.

2. Select the account from the drop-down list to view its recurring payments. The system displays a summary of all the recurring payments in the selected account.

Recurring Payments– Summary

The screenshot shows the 'Recurring Payments' summary page in the Futura Bank interface. The page has a dark blue header with the bank logo and a search bar. Below the header, there's a title 'Recurring Payments XXXXXXXXXXXX0080' with a dropdown arrow. The main content area contains a table with columns: Transfer To, Host Reference, Frequency, Start Date, End, Amount, Next Payment, Payment Type, Status, and Actions. The table lists five recurring payments with details like transfer type (SEPA or SB), host reference numbers, frequencies (e.g., 'Once every 12 months'), start/end dates, amounts, and status (Active or Closed). Action icons for each row include a document icon and a red circle with a slash.

Transfer To	Host Reference	Frequency	Start Date	End	Amount	Next Payment	Payment Type	Status	Actions
SEPA	2312901947228002	Once every 12 months	5/1/2023	5/31/2025	€80.00		SEPA	Active	
SB	2127001235210004	Once every 3 months	11/30/2023	55 Instance(s)	€21.66		SEPA	Active	
SB	2128001262230004	Once every 12 months	11/29/2023	11/30/2027	€23.00		SEPA	Active	
SB	2127301618280002	Once every 6 months	11/29/2023	11/29/2023	€46.00	11/29/2021	SEPA	Closed	
SB	2129401254170004	Once every day	11/30/2023	8 Instance(s)	€588.00		SEPA	Active	

Field Description

Field Name	Description
Select Account	To view the transfers based on the account from which money will be debited.
Search Results	
The following fields are displayed for each transaction.

Execution Details	
Start Date	Displays the start date of the repeat transfer execution i.e., the date on which the repeat transfer first starts being executed.
End Date	Displays the last date on which repeat transfer instructions are executed.
Instances	Display the number of instances of the recurring payment.
Frequency	Displays the frequency in which the recurring payment is executed.
Number of Payments	Displays the number of payments made.
Payment Details	Displays the unstructured remittance information to the Payment Processor. This appears if the Payment Type is Domestic or Cross Border .
Remarks	Displays the narrative for the transaction.
Payment History	
Sr No	Displays the serial number for the transfer record.
Execution Date	The date on which the repeat transfer was executed.
Status	The status of the repeat transfer. The status can be: • Active • Failed

4. Additional following actions can be executed from the screen:

- Click on the  (Copy) icon, the **Repeat Transfers – Ad hoc Payee** screen will appear with most of the data of the existing payment details prefilled, allowing you to make a payment to an unsaved payee.
- Click on the  (Stop) icon to stop the repeat transfers maintained for the account.

The **Stop Recurring Payment** confirmation popup appears.

Stop Recurring Payment popup

- a. Click **Stop** to stop the repeat transfers maintained for the account.
OR
Click **Cancel** to cancel the transaction.
- b. The message confirming that the repeat transfer has been stopped/ cancelled appears.
- c. Click **Home** to navigate to the dashboard.

FAQ

1. What is an Inward Remittance?

Inward remittance is amount of money credited in user's account/s from the various Domestic and **Cross Border** channels.

2. Can I view the inward remittances of all accounts under my party?

You can view the inward remittances received in the accounts mapped to you as primary and linked accounts.

9. Favourites

This feature allows users to mark payments as favourites. By doing so, users can quickly access these payments and use them as templates to initiate new payments. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

Users can mark a transaction as a favourite by selecting the option provided on the confirmation page of a payment.

The following types of payment transactions can be marked as Favourite transactions.

- Payments made to an account (Make Payment)

After a transaction is marked as a favourite, it appears in the user's favourite transaction list. To access it, the user simply needs to select the desired transaction from the displayed list. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

Note: The **Long Press Gesture** feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like to Open Favourites screen. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns**' option available on the screen, user can.

- Rearrange columns.
- Remove specific columns.

Note:

1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Prerequisites:

- Transaction and account access is provided to the Small and Medium Business user.

Features supported in the application.

- View Favourite Transaction Details
- Initiate a Payment
- Remove Transaction from Favourite List

How to reach here:

Search bar > Favourites and Drafts – Favourites

OR

Dashboard > Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Favourites and Drafts > Favourites

9.1 Favourites – Summary

The screen displays summarized views of all payment transactions marked as favourites. Users can search for a favourite transaction based on the favourite name or favourite types or debit account. They can view and initiate transactions using these favourite transactions as templates, and they can also delete any transaction from the favourite list.

To view and initiate a favourite transaction:

1. Navigate to the **Favourites** screen. All the favourite transactions appear as a list on the **Favourites Summary** screen.

Favourites – Summary

Payments

The screenshot shows the 'Favourites' screen in the Futura Bank app. At the top, there's a header with the Futura Bank logo, a search bar, and a user profile icon. Below the header, the title 'Favourites' is displayed. Underneath, there are two tabs: 'Payments' (selected) and 'Demand Drafts'. A message '5 Record(s)' is shown. To the right of the records, there are buttons for 'Filters' and 'Manage Columns'. The main content is a table with 7 columns: Favourite Name, Payee, Amount, Nickname, Payment Type, Debit Account, and Actions. The table contains 5 rows of data, each representing a favourite transaction. The Actions column for each row contains a magnifying glass icon and a star icon.

Favourite Name	Payee	Amount	Nickname	Payment Type	Debit Account	Actions
Child College Fees	Olivia Brown	€1,565.00	Olivia	Cross Border	xxxxxxxxxxxx0035	
Rent Payment	Gine Joe	€750.00	Gine Joe	Within Bank	xxxxxxxxxxxx0035	
Insurance Premium	Sophie Martin	€70.00	Sophie	Domestic	xxxxxxxxxxxx0035	
Donation	Leo Walter	€5.00	Leo	Within Bank	xxxxxxxxxxxx0035	
Society Welfare Contribution	Leo Walter	€20.00	Leo	Within Bank	xxxxxxxxxxxx0035	

Demand Drafts

The screenshot shows the Futura Bank Favourites interface. The 'Demand Drafts' tab is selected, displaying 6 records. The table has columns for Favourite Name, Draft Favoring, Nickname, Amount, Debit Account, Type, and Actions. The records are as follows:

- Click on the ★ icon against specific transaction record to delete it the from the favourites list. The **Remove Favourite** popup appears.

Remove Favourites- Confirm

- a. Click **Remove** to proceed with the deletion request. The message confirming the removal of the transaction from the favourite list appears.
OR
Click **Cancel** to cancel the deletion process.

FAQ

1. If I add a transaction to 'Favourites', where will this transaction be reflected and what benefit will I gain from this?

The transaction will be saved in the 'Favourites' list. You can then use this transaction by selecting it from this list the next time you want to initiate a similar payment. The details will be pre-populated on the screen thus saving you the time and effort of having to enter all the details again.

2. What type of transactions can be saved as favourite?

You can mark money transfer transactions as favourites.

3. Can I edit the details if I am re-initiating a transaction from my favourite transaction list?

Yes, you can edit the details and re-initiate a transaction by selecting a favourite transaction.

4. What happens when I add a transaction in my favourite list?

Once a transaction is marked as favourite it is displayed in the user's favourite list. The user can directly initiate a transfer using favourite transactions; all the transaction details are auto populated in the respective fields. The user can make required changes in the details and submit the transaction for processing.

10. Saved Drafts

This feature enables users to view all the transaction which are saved as a draft and incomplete. It also allows user to complete the transaction by redirecting it to the respective transaction screen.

Note: The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like open Saved Drafts. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on '**Manage Columns**' option available on the screen, user can.

- Rearrange columns.
- Remove specific columns.

Note:

1) The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2) The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Prerequisites:

- Transaction and account access is provided to the Small and Medium Business user.

Features supported in the application.

- View Saved Payment Drafts

11. Issue Demand Draft

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards saved or new payees.

To initiate a demand draft issue request to the saved payee, the user must first ensure that the payee i.e., the recipient of the demand draft is registered as a demand draft payee through the **Add Demand Draft Payees** feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft. The overlay screen on the **Saved Payee** field allows the user to select the payee from the list of saved payees.

Prerequisites:

- Transaction access is provided to the Small and Medium Business user.
- Transaction working window is maintained.
- Required payees are maintained.
- Transaction limits are assigned to user to perform the transaction.

Features supported in application.

The user can request for two types of demand drafts:

- Domestic Demand Draft – Where the draft is payable within the country.
- Cross Border Demand Draft – Where the draft is payable outside the country.

Workflow

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Issue Demand Draft

OR

Search bar > Payments - Issue Demand Draft

11.1 Demand Draft Issuance to Saved Payee

A user can initiate a request for a Demand Draft using this transaction. All Demand Draft payees (Domestic and Cross Border Demand Draft payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the issue of the demand draft will get defaulted on the **Transfer From** field and user can change the source account if required. is selected. The user is then required to fill in details such as the amount for which the draft is to be drawn and the date on which the draft is payable, to initiate the demand draft request.

To issue demand draft to registered payee:

1. Navigate to the **Issue Demand Draft** screen.

Issue Demand Draft

11.2 Demand Draft Issuance to New Payee

Using this feature user can initiate requests for demand drafts to be payable towards payees that are not registered as payees in the system. Since the demand draft request is for an unregistered payee, the user is required to specify details of the payee along with demand draft details at the time of demand draft request.

Once the request for the demand draft is initiated, the user can register the payee as a payee by selecting the Add Draft Payee option provided on the confirm screen.

Users can initiate both domestic and cross-border requests for demand drafts. A Domestic Draft initiation request is a request to issue a draft that is payable at a location within the same country. Whereas a Cross Border demand draft request is a request to issue a draft that is payable at a location outside the country. To initiate an ad hoc Cross Border demand draft request, the user must specify the payee's details, including the amount and delivery specifications.

To initiate a demand draft request for new payee:

1. Navigate to the **Issue Demand Draft** screen.
2. Click on the **Transfer From** card. The **Transfer From** overlay screen will appear with all the user's own accounts.
 - a. Select the source account from the list from which funds need to be drawn.
OR
Enter the search criteria and click on the  icon to find the accounts.

Note: Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

3. Under the **Issue To** section, click on the **New Payee**, the **Issue To** overlay screen will appear with **New Payee** tab appears to add new payee.
 - a. If you select the **Domestic** option in the **Draft Type** field:
The **Demand Draft Details** appears for the domestic draft.

Issue Domestic Demand Draft – New Payee

The screenshot shows the 'Issue Demand Draft' page on the Futura Bank website. The main heading is 'Issue Demand Draft'. Below it, there are two tabs: 'Saved Payee' and 'New Payee'. 13.4 Request Money

The Request Money feature targets users who have receivables due from various individuals which are also periodic in nature. As the name suggests the user needs to initiate a request to pull money from the debtor (the person from whom the money is due to be received) by providing details of the debtor through debtor maintenance.

Pre-Requisites

- Transaction and account access is provided to the Small and Medium Business user.
- Transaction working window is maintained.
- Debtors are maintained.

Features supported in the application.

Request money allows the user to

- Initiate SEPA Request Money

How to reach here:

Toggle menu > Menu > Transfers & Bill Payments > Payments > More Actions > Debtors > Request Money

OR

Search Bar > Debtors - Request Money

Request Money

FAQ

1. When will I receive the money, I requested?

After the recipient of the request responds with a payment, the money will be automatically deposited in the account that you have identified at the time of request initiation.

2. Can I cancel a request for money?

No, a request once initiated cannot be cancelled.

14. View Limits

An option has been provided to the Small and Medium Business user to view the final available limits considering transaction, cumulative, cooling period, and payee limit set if any while initiating a transaction.

1. Click the **View Limits** link to check the transfer limit.
From the **Channel** list, select the appropriate channel to view its limits. The utilized amount and the available limit appear.

View Limits

The screenshot shows the Futura Bank 'Make Payment' interface. The main area is divided into 'Transfer To' (Alice Clark, Gine Joe New, HEL0022850017) and 'Transfer From' (Sal Account, Justin Jefferson | EUR | HEL, Current Balance: €1,000,000.00). The 'Payment Details' section includes 'Currency: EUR', 'Transfer Amount', 'Scheduled On: Pay Now', and 'Transfer On: 8/29/2024'. The 'Fees & Charges' section shows 'Calculate Charges' and 'Deduct Charges From: Sal Account, xxxxxxxxxxxx0035'. The 'Additional Details' section includes 'Customer Reference Number'. On the right, a 'My Limits' sidebar is open, showing 'Channel: APINTERNET', 'Amount Limit: €555,555.00', and 'Transaction Count Limit: 999999'. A note below states: 'Above limits is your per transaction initiation limit for the selected channel. Transaction limits are determined by your per transaction initiation limits, total cumulative limits, payee cooling period limits, and any set payee limits. The transaction will get processed only if the sufficient limits are available. You may have different limits available for initiating this transaction from other channels. To know more access - View Limits'.

Field Description

Field Name	Description
Channel	Channel for which the user wants to view the limits. This will be defaulted to the user logged in channel.
Available Limits	
Amount	An amount range between the transactions can be initiated from the selected channel.
Count	The number of transactions can be initiated by the user from the selected channel.
