3. Trade Finance

Trade finance is process of financing commerce, i.e. both domestic and international trade based transactions. It comprises a seller, a buyer along with other service providing institutions to facilitate transactions such as banks, insurers, credit rating agencies etc. This may be considered as a tool to safeguard against the distinct risks present in doing international trade viz. fluctuations in currency conversions, political conditions, creditworthiness of the buyer etc. Some of the majorly used tools are Letter of Credits, Import and Export Bills, Outward Guarantees.

In the Trade Finance module, you can initiate, amend and view Letter of Credits (LC). You can also view details of Import and Export Bills, and Export Bills under LC, and Outward Guarantees raised. User can initiate Collection and outward Guarantees. User can initiate standalone shipping Guarantee and also Shipping Guarantee under LC.

Note: This module is not supported on mobile devices.

Workflow

3.1 **Letter of Credit**

Letter of credit is a financial tool which acts as an obligation of the issuing bank to pay the agreed amount to the seller on behalf of the buyer, if buyer provides compliant documents about those goods as specifically mentioned in the sales contract or purchase agreement to the advising bank. They are governed by rules set by International Chamber of Commerce known as Uniform Customs and Practice for Documentary Credits (UCP 600).

These are of different types; most commonly used ones are irrevocable LC, transferable LC. Mostly they are used in situations where both parties i.e. seller and buyer are new to each other and are operating in different countries and seller thinks to safeguard his interests against multiple risks involved in the trade.

Bill is a trade transaction, in which the Exporter forwards the required commercial documents to the Importer's bank, against which the payment is to be done. Banks facilitates documents movement, makes the required checks and then process payments to the Exporter against the Bill.

There occurs some situations where the sales contract goes for some modification, and in order to replicate the same over Bills and Letter of Credits, acceptance from other party is also required. Using this option, user can accept or reject, the discrepancies raised in Import Bills or amendments under Export Letter of Credit. It is then forwarded for further approval from bank. A search facility is also provided to easily locate the discrepancy or amendment raised.

3.2 **Collection**

Import Collection offers a view about the Collection from the point of view of an Importer and Export Collection offers the same from the point of view of an Exporter.

3.3 **Guarantees**

It is a contract released by bank for its customer, who has signed an agreement to purchase goods from a supplier and agrees to fulfil any financial obligations to the supplier in case of default. In other words, if the debtor fails to settle a debt, the bank will cover it. Using this option, user can apply for an Outward Bank Guarantee. For the BG application, user must enter the details in the four tabs available in this option viz. Parties, Commitment Details, Bank Instructions and Guarantee. Any amendment raised by the counterparty can also be accepted or declined by customer.

3.4 **Other Party Maintenance**

To ease the user from filling up the details of beneficiary, a facility to maintain beneficiary is added. User can create add, edit or delete beneficiary details and also have different access type, if he wants to share the same beneficiary with other users. Also, it can be defined as in which transactions, user will be able to use the beneficiaries viz. LC, BG or Collection. This enables user to directly choose a beneficiary from the maintained list and save time of filling up the detail every time he is initiating a new transaction.

3.5 Shipping Guarantee

Shipping Guarantee refers to a written guarantee, issued by the bank which will bear joint liability, and is presented by the Importer to the goods carrier or its agent for picking up the goods in the case of arrival of cargo prior to the receipt of shipping documents. Shipping Guarantee is commonly used under L/C with full set of documents of title to goods. This helps Importer to pick up the goods in time to avoid port demurrage.

3.6 Application Tracker

User gets a simple tracking tool for all his applications which are either saved and can be fetched further for retrieval or which are submitted for further processing. He can also look for the pending clarifications received from bank, and reply to them. *For the detailed section, refer User Manual Oracle Banking Digital Experience Corporate Trade Finance*

3.7 Documents and Clause Maintenance

A corporate user can save the clauses under documents, so that it can use the same as and when required while initiating an LC. User also have an option to mark it to be available to other users of corporate. *For the detailed section, refer User Manual Oracle Banking Digital Experience Corporate Trade Finance*

3.8 Additional Conditions Maintenance

Additional Condition is required while creating Letter of Credits. A user can create (if maintenance is not already there), view and edit the additional conditions. User will have the facility to save his custom conditions and use as and when required. Each Condition is saved with the help of an identifier which is unique for the customer, and all identifiers needs to be mapped to codes of additional conditions as maintained by bank. *For the detailed section, refer User Manual Oracle Banking Digital Experience Corporate Trade Finance*

3.9 Assignee Maintenance

Assignee Maintenance allows the user to create (if maintenance is not already there), view and edit the assignee. *For the detailed section, refer User Manual Oracle Banking Digital Experience Corporate Trade Finance*

2. Initiate a Letter of Credit - Islamic

Using this option, a user can initiate an Islamic Import Letter of Credit (LC) transaction as per the Sharia laws in the application. A Letter of Credit is a bank document which undertakes that the seller will receive payment against the stipulated documents, provided the terms and conditions have been satisfied.

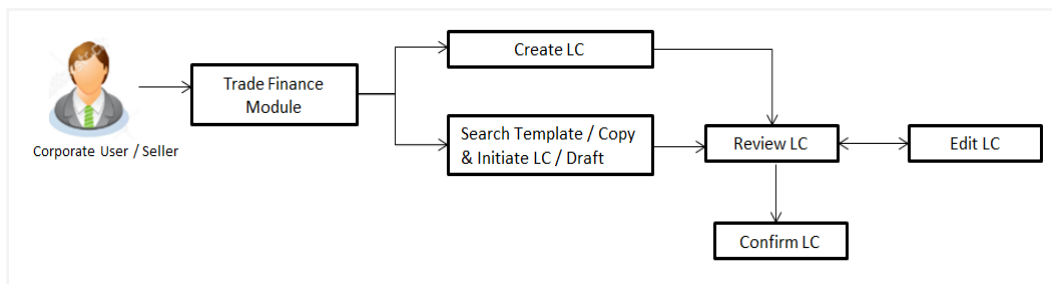

On login to the application, the user can see the list of products for transaction which are meant for Islamic LC Creation as maintained at back office. The user can see only the Sharia permissible goods as maintained in back office.

An Import Letter of Credit provides the credit worthiness of the Importer, with the involvement of financial institutions such as banks.

Pre-Requisites

User must be having a valid corporate login credentials to get into the system. This will be under a maker – approver system, or as per user's access. User must be having a sanctioned limit /credit available for his perusal.

Workflow

How to reach here:

Dashboard > Toggle menu > Trade Finance > Letter of Credit > Import Letter of Credit > Initiate Letter of Credit - Islamic

User has four options to initiate LC

- Using existing Templates
- Using existing Drafts
- Initiating LC (New Application)

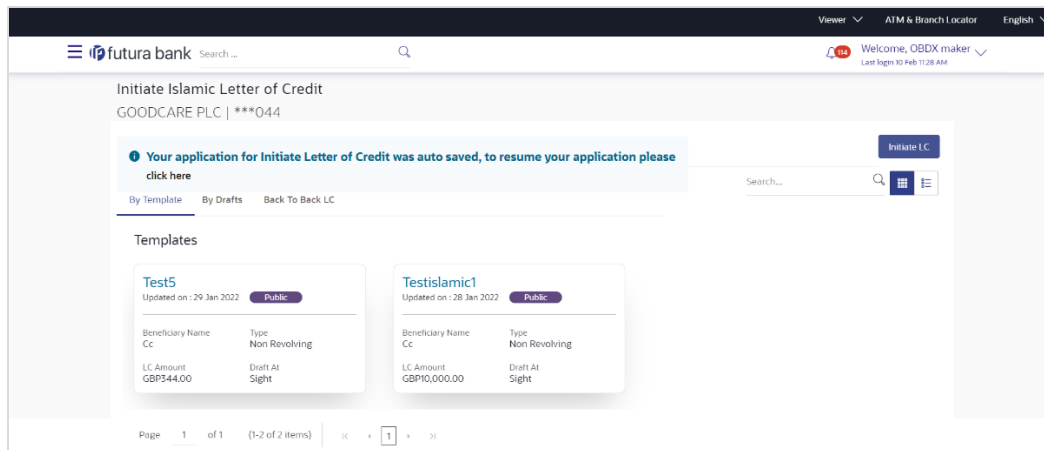

Using existing Templates - Initiate LC Template Summarized View

This is a default view; the user is landed on this screen on accessing 'Initiate Letter of Credit - Islamic' menu option. The summary of all the Initiated Islamic LC template of a corporate are listed with basic information of each LC. User can choose to check the complete details of a specific template by clicking on a card.

The user has the facility to save incomplete transactions automatically as a draft, which can be resumed at a later stage. If user forgot to save those applications explicitly in draft/template or couldn't save those due to session timeout. On next login, system will give option to user to continue using auto saved application.

In case when the user clicks on cross of the auto saved message in the ribbon, an alert that the saved application will get deleted is displayed.

However, if the user is working from an existing Draft, it will also get automatically saved with the click of each next button. It will be saved with the old name only, and the default naming convention used for auto save will not be exercised here.

2.5 Initiate Back to Back Islamic Letter of Credit

Using this option, the user can initiate a Back to Back Islamic Letter of Credit (LC) in the application. This LC reduces the fund constraints problems of the exporter by providing the opportunity to open the LC against Export LC and to pay after getting the export proceeds.

The application will do the Amount and Expiry Date Validation with the underlying Export LC while listing the export LCs where Back to Back Islamic LC can be initiated.

System validates that Back to Back Islamic LC should not have maturity date/ tenor date/ expiry date greater than that in parent LC and the application amount of Back to back should not be more than parent export LC.

Once submitted by user, the application would be available in OBTFPM for bank user to process. The created LC will be available along with other initiated Import LCs and also available in application tracker for tracking purpose.

To initiate the Back to Back Islamic LC:

1. In the Initiate Letter of Credit - Back to Back Search Results screen, click **the Reference Number** link. The **Initiate Islamic Letter of Credit Back to Back** screen.

7. Settlement of Bills - Islamic

Once the goods are shipped and the Importer receives the trade documents, the Exporter draws out the Bills to be paid by the Importer. With the introduction of the 'Settlement of Bill' transaction, the Importer can now liquidate the Bills he has received under his Import LC, i.e. he can instruct the bank to pay the Bills he has received, from one of his accounts. The user can also use one of his booked forward deals while settling the Bill.

The user can settle either multiple bills from his account, with or without a forex deal, or apply for a finance to settle the bills.

Using this option, user can settle single as well as multiple Islamic Export Bills from the channel, as per the Sharia laws.

Pre-Requisites

- User must have a valid corporate party Id and login credentials in place
- At least a single Import Bill should exist for the party ID and party must having view rights for it

31.5 Islamic Transfer Letter of Credit – Charges, Commissions and Taxes Tab

This tab defaults the charges details, if charges, commissions and taxes are available under the Islamic product.

Islamic Charges, Commissions and Taxes

The screenshot shows the Futura Bank interface for an Islamic Transfer Letter of Credit. The top navigation bar includes the Futura Bank logo, a search bar, and a user profile for 'obdx checker' with a last login time of 09 May 10:25 AM. The main content area is titled 'Islamic Transfer Letter of Credit' and displays key details: Parent LC Reference Number (PK2ELAC2125A5ES), Product (Export LC Usage Non Revolving), LC Amount (GBP64,000.00), Balance LC Amount (GBP70,400.00), and Parent LC Date of Expiry (03 Aug 2021). A progress bar indicates the current step is 'Charges' (step 6 of 7). Below the progress bar, there are three sections: 'Charges', 'Taxes', and 'Commissions'. Each section contains a table with columns for Account No, Description, and Amount. The 'Charges' section lists three items: COURIER CHARGES FOR LC ISSUE (GBP100.00), LC Charges receivables (GBP50.00), and SWIFT CHARGES FOR LC ISSUE (GBP50.00), with a total of GBP200.00. The 'Taxes' section lists three items: LCTAX (GBP88.00), LCTAX1 (GBP4.00), and LCTAX2 (GBP11.00), with a total of GBP103.00. The 'Commissions' section lists one item: LC issuance Commission (Commitment)- Non periodic (1.25%), with a tax amount of GBP220.00. At the bottom of the interface, there are 'Next', 'Cancel', and 'Back' buttons, and a copyright notice for Oracle.
