Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Update Drawings

This process involves update of an existing drawing under Export LC.

For Drawings under Export LC, initiated on account of MT 734, 752 and 799, update of drawing under Export LC is initiated to process the substituted documents received from beneficiary and response received from issuing bank with discrepancy highlighted under the LC.

This section contains the following topics:

Common Initiation Stage	Registration
Scrutiny	Data Enrichment
Data Enrichment	Multi Level Approval
Reject Approval	

Common Initiation Stage

The user can initiate the new export LC update drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Drawing Reference Number	Select the drawing reference number.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

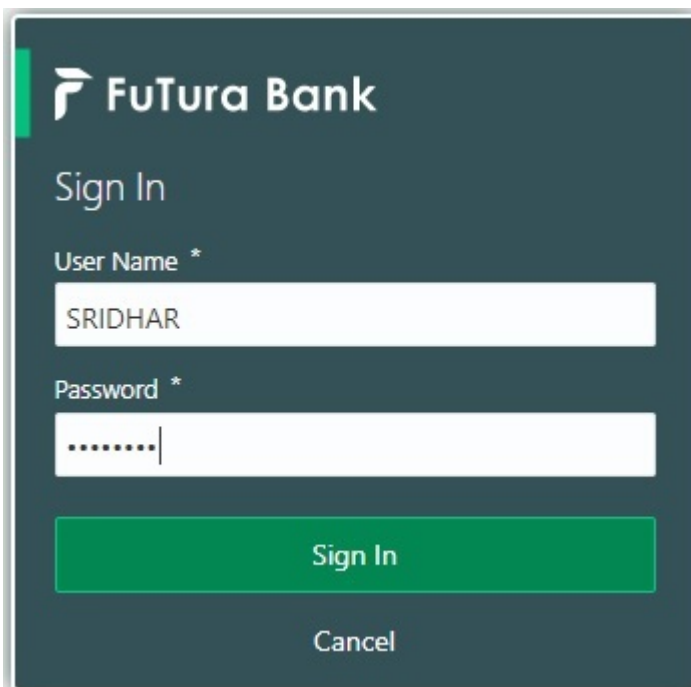

Registration

During registration stage, user can capture the basic details and upload the related documents received from issuing bank. System also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

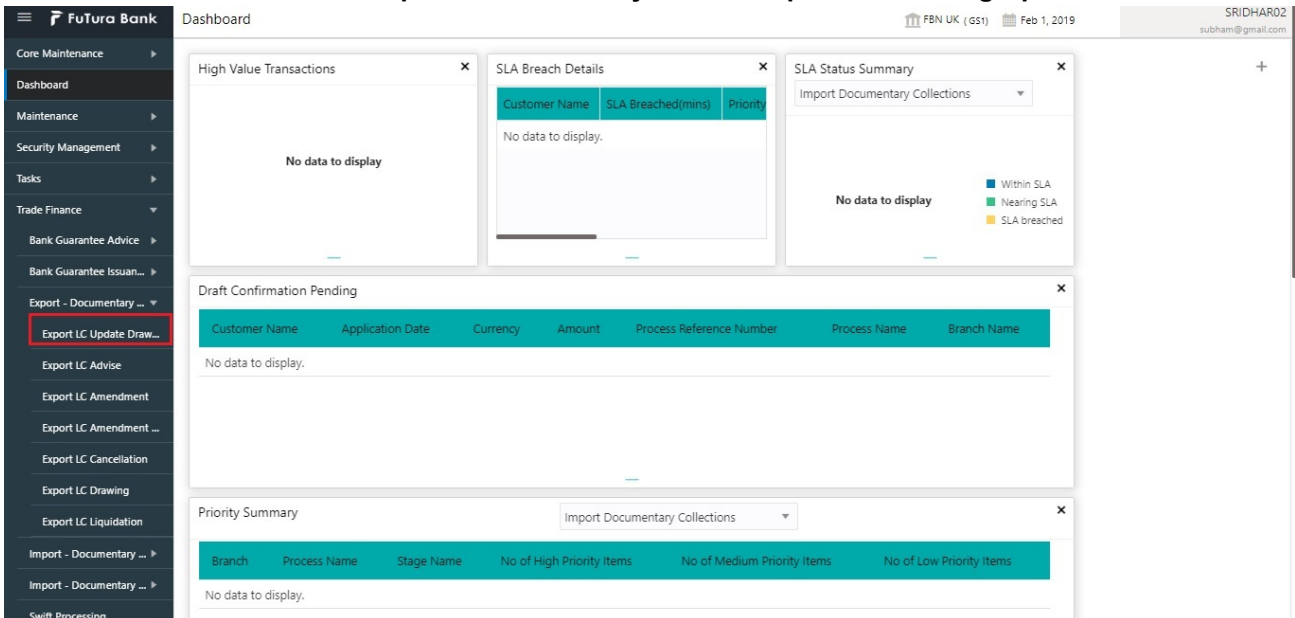

The screenshot shows a dark-themed login window for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing masked characters. Below these fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Export - Documentary Credit> Export LC Drawing Update.

The registration stage has two sections Application Details and LC Details. Let's look at the details of registration screens below:

Application Details

In case of MT798 message(738) application details is defaulted to SWIFT.

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
LC Advised by us	<p>Toggle On: Set the toggle to On, if LC is advised by negotiating bank.</p> <p>Toggle Off: Set the toggle to Off, if LC is not advised by the negotiating bank.</p>	
Drawing Reference Number	<p>Provide the drawing number. Alternatively user can search the drawing number using LOV.</p> <p>In the LOV, user can input Customer ID, Currency, Amount, User Reference Number and Value Date to fetch the LC details. Based on the search result, select the applicable drawing under LC.</p> <p> Note</p> <p>In case of silent confirmation, user gets an alert message “The LC has been Silently Confirmed.”</p>	
Export LC Reference Number	<p>Read only field.</p> <p>Exporter LC Reference Number will be auto-populated based on the selected LC from the LOV.</p>	

Field	Description	Sample Values
Beneficiary	<p>LC Advised by us: Read only field. Beneficiary id and name will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Select the beneficiary customer from the LOV.</p> <p>If beneficiary is a customer of the bank, system will check for valid KYC status. If KYC status is not valid, system will display alert message.</p>	
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC from the LOV.</p>	203-Bank Futura -Branch FZ1
Priority	<p>System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.</p>	High
Submission Mode	<p>System populates the submission mode of Export LC Update Drawings request. By default the submission mode will have the value as 'Desk'.</p> <p>Desk- Request received through Desk</p> <p>Courier- Request received through Courier</p>	Desk
Drawing Date	<p>Read only field.</p> <p>Drawing date will be auto-populated based on the selected drawing.</p>	04/13/2018
Drawing Received Date	<p>Read only field.</p> <p>Application to default the system date.</p>	
Process Reference Number	<p>Read only field.</p> <p>Unique sequence number for the transaction.</p> <p>This is auto generated by the system based on process name and branch code.</p>	

LC Details

Drawing Details will be populated from the drawings. Registration user can update the fields if required.

Provide the drawing Details based on the description in the following table:

Field	Description	Sample Values
Documents Received	Enables to user to select the number of sets of documents received from the drop down: <ul style="list-style-type: none"> • First • Second • Both 	
Tenor Type	Read only field. Tenor will be auto-populated based on the selected drawing.	
Product Code	Read only field. Product code will be auto-populated based on the selected drawing.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
Drawing Reference Number	Read only field. Drawing reference will be auto-populated based on the selected drawing.	
User Reference Number	System defaults the user reference number based on the product code. The user can change the user reference number.	
Applicant	Read only field. Applicant will be auto-populated based on the selected drawing.	

Field	Description	Sample Values
Issuing Bank	<p>LC advised by us: Read only field.</p> <p>Issuing bank will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised us: Select the issuing bank. Party type with banks will only be displayed in LOV.</p> <p>The system will display the</p> <ul style="list-style-type: none"> a) SWIFT code (if available) b) Name and address of the bank <p>On selection of the record if SWIFT code is available then SWIFT code will be populated, if SWIFT code is not available then the bank's name and address will be populated.</p>	
Issuing Bank Reference	<p>LC Advised by us: Read only field.</p> <p>Issuing bank reference will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Provide the issuing bank reference number.</p>	
Date of Expiry	<p>Read only field.</p> <p>Expiry date will be auto-populated based on the selected drawing.</p>	
Presenting Bank	<p>Read only field.</p> <p>If LC Advised by us toggle is enabled, this field is read-only. Presenting bank will be auto-populated based on the selected LC from the look-up.</p> <p>If LC Advised by us toggle is disabled, specify the presenting bank or click Search to search and select the presenting bank.</p> <div style="text-align: center;">  <p>Note</p> <p>If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".</p> </div>	
Presenting Bank Reference Number	<p>Read only field.</p> <p>Presenting Bank Reference number will be auto-populated based on the selected LC from the LOV.</p>	
Confirming Bank	<p>Click Search icon to search and select the confirming bank from the lookup.</p>	

Field	Description	Sample Values
Available with Bank	<p>Click Search icon to search and select the value for available with bank from the lookup.</p>  <p>Note</p> <p>The Available Bank details should be handed off against 'Collecting Bank' Party in OBTF.</p> <p>1) If the Bank selected in Confirming Bank and Available with Bank are same, system should hand off only the Confirming Bank details in Back office.</p> <p>2) If Confirming Bank/Available with Bank are the same as Issuing Bank/ Presenting Bank, system should display an error.</p>	
Drawing Amount	<p>LC Drawing Amount will be auto-populated based on the selected LC from the LOV.</p> <p>User can edit the details, if required.</p>	
Amount In Local Currency	<p>System fetches the local currency equivalent value for the LC amount from back office (with decimal places).</p>	
Outstanding Drawing Value	<p>Read only field.</p> <p>Outstanding drawing value will be auto-populated. This field displays the value as per the latest LC.</p>	
Outstanding LC Value	<p>Read only field.</p> <p>Outstanding LC value will be auto-populated. This field displays the value as per the latest LC.</p>	
Additional Amount	<p>This field enables user to provide any additional amount to be processed under this LC drawing.</p>	
Operation Type	<p>Operation type will be auto-populated based on the selected LC from the LOV.</p> <p>User can edit the details, if required.</p>	
Stage	<p>Select the stage from the LOV:</p> <ul style="list-style-type: none"> ● Initial ● Final 	
Nego/Financing Amount	<p>Negotiation/Financing Amount will be auto-populated based on the selected LC from the LOV.</p>	
Unlinked FX Rate	<p>Unlinked FX Rate will be auto-populated based on the selected LC from the LOV.</p>	

Field	Description	Sample Values
Rebate Amount	Read only field. Indicates the rebate to the bill outstanding amount.	
Customer Dispatch	The value will be populated from back office based on the maintenance. Toggle On: If the toggle is set to Yes , the customer has the option to dispatch the documents directly to the importer's bank. Toggle Off: If the toggle is set to No , the bank has to dispatch the documents to the importer's bank. Bank user is not allowed to edit the field, if the value defaulted from the back office is "No",	

Miscellaneous

The screenshot displays the Oracle Banking Trade Finance application interface for 'Export LC Update Drawings'. The interface is divided into two main sections: 'Application Details' and 'LC Details'. The 'Application Details' section includes fields for 'Drawing Reference Number' (PK2EUUD211250001), 'Export LC Reference Number' (PK2ELAC211250003), 'Beneficiary' (GOODCARE PLC), 'Branch' (PK2-Oracle Banking Trade Finan...), 'Priority' (Medium), 'Submission Mode' (Desk), 'Drawing Date' (May 24, 2021), 'Document Received date' (May 24, 2021), and 'Process Reference Number' (PK2ELCU000026814). The 'LC Details' section includes fields for 'Documents Received', 'Drawing Reference Number' (PK2EUUD211250001), 'Issuing Bank Reference' (43354656), 'Confirming Bank', 'Outstanding Drawing Value' (GBP £10,000.00), 'Stage' (FINAL), 'Customer Dispatch' (toggle), 'Tenor Type' (Usance), 'User Reference Number', 'Date of Expiry' (Aug 3, 2021), 'Available with Bank', 'Outstanding LC Value' (GBP £100,000.00), 'Nego/Finance Amount' (GBP £3,000.00), 'Product Code' (EUUD), 'Applicant' (001043 MARKS AND SPI), 'Presenting Bank', 'Drawing Amount' (GBP £10,000.00), 'Additional Amount', 'Unlinked FX Rate', 'Product Description' (OUTGOING DOCUMENTARY USANCE E), 'Issuing Bank' (003763 CITIBANK IRELA), 'Presenting Bank Reference Number', 'Amount In Local Currency' (GBP £10,000.00), 'Operation Type' (DIS), and 'Rebate Amount' (GBP). The interface also features navigation buttons like 'Signatures', 'Documents', 'Remarks', 'Customer Instruction', and 'Common Group Messages' at the top, and 'View LC', 'Events', 'Hold', 'Cancel', 'Save & Close', and 'Submit' at the bottom.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Drawing.	
Action Buttons		
Submit	<p>On submit, task will get moved to next logical stage of Export LC Update Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancels the Export LC Update Drawing Registration stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

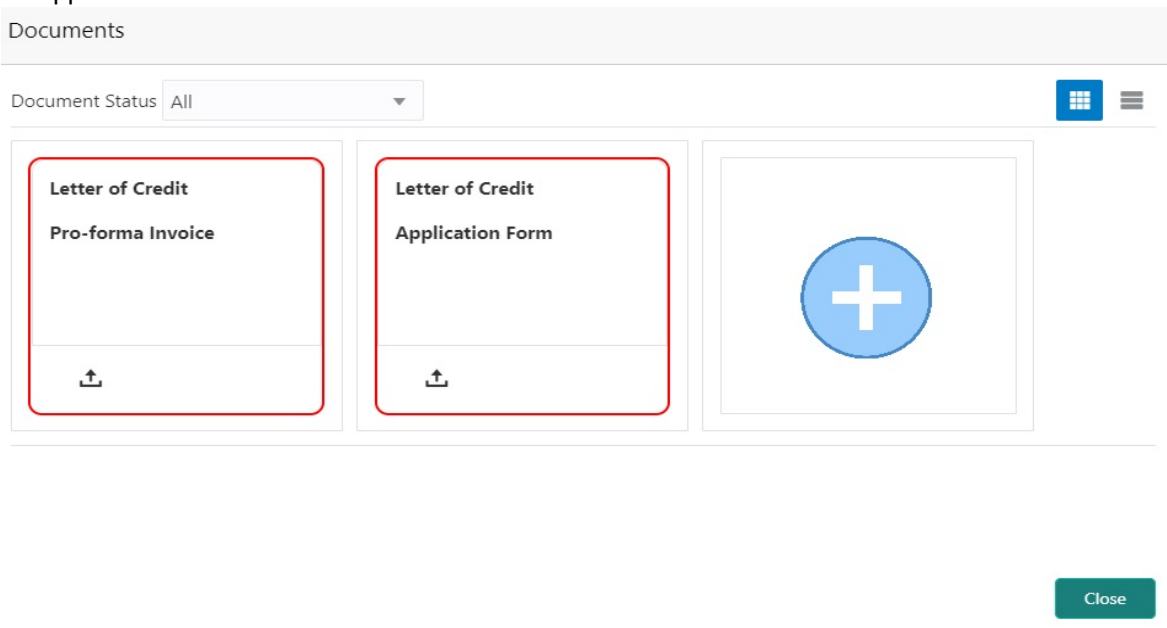

Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

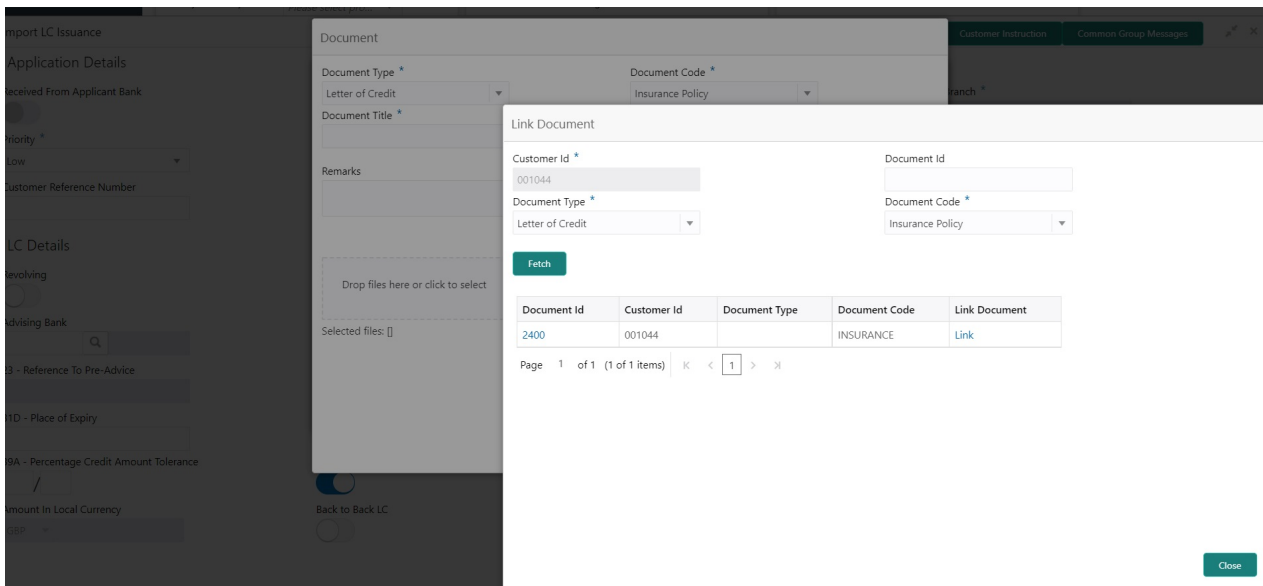

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
Search Result		
Document ID	This field displays the document Code from metadata.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from metadata.	
Document Code	This field displays the document code from metadata.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

6. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

7. Click Edit icon to edit the documents. The Edit Documents

The screenshot shows the 'Edit Document' form. It contains the following fields:

Document Id	2400	Document Title	wqwq
Application Reference Number	PK2ILCI000019041	Entity Reference Number	PK2ILCI000019041
Document Type Id	TFPM_DOCTYPE001	Document Description	
Remarks		Document Expiry Date	Jun 29, 2022

Below the fields is a dashed box containing the text 'Drop files here or click to select' and a 'Current selected files: []' label. At the bottom right, there are 'Update' and 'Cancel' buttons.

Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
 - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
 2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".
 3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
 4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

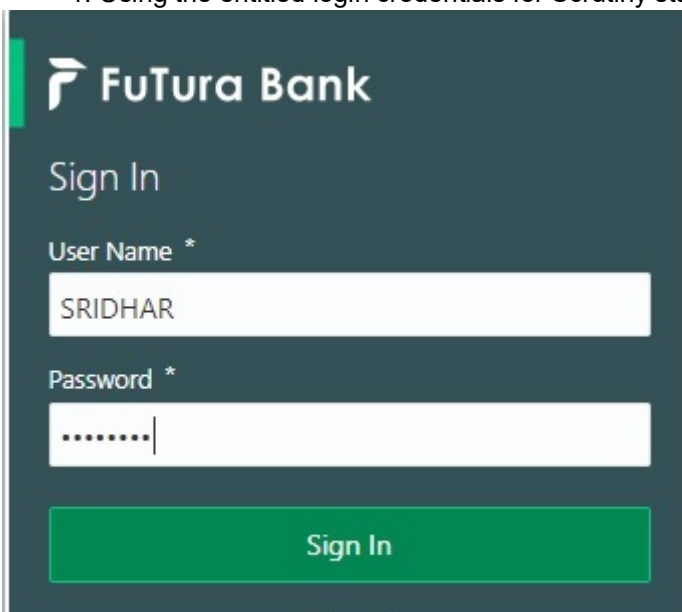

Scrutiny

On successful completion of registration of an Export LC Drawing request, the request moves to Scrutiny stage. At this stage the gathered information during registration are scrutinized.

The requests will have the details entered during the registration stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

The screenshot displays the login interface for FuTura Bank. It features a dark grey background with a green vertical bar on the left side. The FuTura Bank logo is positioned at the top left. Below the logo, the text "Sign In" is centered. Underneath, there are two input fields: "User Name *" containing the text "SRIDHAR" and "Password *" containing masked characters ".....". A green "Sign In" button is located at the bottom of the form.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard displays several widgets:

- Draft Confirmation Pending:** Table with columns: Customer Name, Application Date, Status. Rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** Table with columns: Branch, Process Name, Stage Name. Row: Bank Futura, NA, Retry HandOf.
- Priority Details:** Table with columns: Branch, Process Name, Stage Name. Rows include Bank Futura, NA, Amount Blo; Bank Futura, NA, Amount Blo; 004, NA, Loan Applic.
- High Value Transactions:** A bubble chart showing transaction values for GBP.
- SLA Breach Details:** Table with columns: Customer Name, SLA Breached(mins), Priority. Rows include NA (23474, H, KEERTIV01), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** Table with columns: Branch, Process Name, Stage Name. Row: 203, Cucumber Testing, test descrip.
- Hold Transactions:** Table with columns: Branch, Process Name, Stage Name.
- SLA Status:** Cucumber Testing.
- Tasks Detailed:** Cucumber Testing.

3. Click Trade Finance > Tasks > Free Tasks.

The Free Tasks page shows a table with the following data:

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Acquire & Edit	M	GS1ELCU000006437	GS1	000262	£22,000.00	Export LC Update Drawings	Scrutiny	GS1EAPS190321001
Acquire & Edit	H	GS1ELCA000006426	GS1	000263	£99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NSY
Acquire & Edit	H	GS1ELCA000006424	GS1	000263	£99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NSX
Acquire & Edit	H	GS1ELCA000006421	GS1	000263	£99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NSV
Acquire & Edit	M	GS1ELCA000006400	GS1	000263	£250,000.00	Export LC Advising	Registration	NA
Acquire & Edit	M	GS1ILCI000006398	GS1	000262	£10,000.00	Import LC Issuance	Data Enrichment	GS1ILSN190328NTB

Page 1 of 1 (1-10 of 10 items) | Previous | 1 - 10 of 2872 records | Next

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

The screenshot shows the same Free Tasks table as above, but with the 'Acquire & Edit' button for the first task (Application Number: GS1ELCU000006437) highlighted with a red box.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The screenshot shows the 'My Tasks' section of the FuTura Bank interface. The table contains the following data:

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Edit	M	GS1ELCU000006437	GS1	000262	£22,000.00	Export LC Update Drawings	Scrutiny	GS1EAPS190321001

The Scrutiny stage has the following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Additional Fields
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value may not be editable.

When customer initiates an Export LC discrepant presentation response through SWIFT (Corporate to SWIFT) channel, the MT798 message containing the request is parsed and based on the STP parameters maintained, can create an Update of Export LC Drawing Task in OBTFPM.

In OBTFPM, the task is verified, enriched and on approval the task is handed off to back office system to update a export LC drawing process and generate the required messages.

Main Details

Main details section has two sub section as follows:

- Application Details
- Drawing Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [Application Details](#) for more information of the fields.

The screenshot shows the Oracle Banking Trade Finance application details page. The page is divided into several sections: Main Details, Application Details, and LC Details. The Priority field is highlighted as being amendable. The page also includes a navigation menu on the left and a bottom bar with buttons for Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Following field can be amended based on the description provided in the following table:

Field	Description	Sample Values
Priority	User can change the priority defaulted' Values are High, Medium and Low.	High

LC Details

The fields listed under this section are same as the fields listed under the [LC Details](#) section in [Registration](#). Refer to [LC Details](#) for more information of the fields. During registration, if user has not captured input, then user can capture the details in this section.

The screenshot shows the Oracle Banking Trade Finance LC Details section. The page is divided into several sections: Documents Received, Drawing Reference Number, Issuing Bank Reference, Confirming Bank, Outstanding Drawing Value, Stage, Customer Dispatch, Tenor Type, User Reference Number, Date of Expiry, Available with Bank, Outstanding LC Value, Nego/Finance Amount, Product Code, Applicant, Presenting Bank, Drawing Amount, Additional Amount, Unlinked FX Rate, Product Description, Issuing Bank, Presenting Bank Reference Number, Amount In Local Currency, Operation Type, and Rebate Amount. The page also includes a navigation menu on the left and a bottom bar with buttons for Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Documents Received	Enables to user to select the number of sets of documents received from the drop down: <ul style="list-style-type: none"> • First • Second • Both 	
User Reference Number	Provide the user reference number.	
Presenting Bank	Specify the presenting bank or click Search to search and select the presenting bank.  <p>Note If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message “RMA arrangement not available”.</p>

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

Shipment Details

User must check whether the received documents of goods and shipment matches the requirement in LC.

Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
Goods Code	This field displays goods code as per latest LC.	
As per LC	This field displays the description of goods as per LC. User can edit the value, if required.	

Field	Description	Sample Values
As per Documents	This field displays the description of the goods as per the documents. User can edit the value, if required.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepant Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
INCO Terms	Search and select the INCO Terms from the lookup.	
Inco Description	Inco description will be displayed based on the INCO Terms.	
Country of Origin	Update the country of origin as per the documents.	
Insurance Company Code	Click Search to search and select the Insurance Company Code from the lookup.	
Insurance Company	Read only field. The system displays the insurance company details as per the selected Insurance Company Code.	
Policy Number	Specify the policy number of the insurance.	
Carrier Name	Update the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	

Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Update the date of shipment as per the documents received. This field is mapped against the Latest Date of Shipment in LC to check for discrepancy.	
Shipping Agent	Update the shipping agent details.	
Date of Presentation	Auto-populated based on the system date. If Place of expiry is Issuing bank, This field is mapped against the Expiry Date in LC to check for discrepancy.	
Details	Details represent the fields in latest LC.	

Field	Description	Sample Values
As per LC	This field displays description of the fields as per the latest LC.	
As Per Document	Update the description of the field as per document.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC Terms and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

Carrier Details

During shipment, If the shipment involves multiple carrier and or shipment passes through multiple ports, the details will be captured under this segment.

Field	Description	Sample Values
Carrier Name	Update the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	
Port	Update the port details as per the document received, if the ship has transit on its way to the destination.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

Discrepancy Details

This section displays the list of discrepancies captured. User can add/update/review the discrepancies identified in the section.

Field	Description	Sample Values
Accept All	To accept all the discrepancy. System will auto update the Discrepancy status as 'Accepted' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any	
Reject All	To reject all the discrepancy. System will auto update the Discrepancy status as 'Rejected' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Discrepancy Resolved	Set the toggle to 'Yes', if discrepancy is resolved.	
Resolved Date	Set the date when discrepancy is resolved.	
Resolved Remarks	Provide remarks for discrepancy resolution.	
Resolved Under MT750	Enable the option, if discrepancy is resolved under MT750.	
Action	Click the Edit icon to edit the discrepancy details. Click the Delete icon to delete the discrepancy details.	
Pay Msg Date	Select the pay message date.	
Non Pay Msg Date	Select the non pay message date.	

Field	Description	Sample Values
Acceptance Message Date	Select the acceptance message date.	
Non Acceptance Message Date	Select the non acceptance message date.	
Discrepancies Approval Date	Select the date on which discrepancies has been approved.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	

Field	Description	Sample Values
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	Displays the incoming message, if any. In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task. In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

Maturity Details

This field displays the maturity details and this tile will be disabled, if the tenor for the drawing is 'Sight'.

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Read only field. This field displays the tenor type as per LC.	
Tenor Basis	Provide the tenor basis or select it from lookup. The tenor base code description is displayed based on the selected tenor basis.	

Field	Description	Sample Values
Start Date	Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	
Maturity date	System displays the due date for the drawing based on tenor and tenor basis. If tenor is sight, system will calculate the maturity date as 5 working days from document Received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date. If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.	
Interest from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Interest To Date	Select the interest to date.	
Acceptance Commission From Date	Provide the acceptance commission from date.	
Acceptance Commission To Date	Provide the acceptance commission to date.	

Other Bank Charges

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -2 to 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	

Other Details

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	Provide the debit value date.	
Credit Value Date	Provide the credit value date.	
Value Date	Provide the value date.	
Allow Pre-Payment	<p>Toggle On: Set the toggle 'On' to enable pre-payment.</p> <p>Toggle Off: Set the toggle 'Off' to disable pre-payment.</p>	
Refund Interest	<p>Toggle On: Set the toggle 'On' to refund the interest.</p> <p>Toggle Off: Set the toggle 'Off' to deny the interest refund.</p>	
Transfer Collateral from LC	<p>Toggle On: Set the toggle 'On' to enable the transfer collateral from LC.</p> <p>Toggle Off: Set the toggle 'Off' to disable the transfer collateral from LC.</p>	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	

Field	Description	Sample Values
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

Additional Fields

Banks can configure these additional fields during implementation.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	<p>Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.</p>	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_ MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>

Event Description	Read only field. This field displays the description of the event.	

Commission Details

This section displays the commission details:

Component	This field displays the commission component.	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	

Field	Description	Sample Values
Modified Rate	From the default value, if the rate is changed the value gets updated in this field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	<p>An amount that is maintained under the product code defaults in this field.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	If check box is selected, charges/commissions has to be deferred and collected at any future step.	
Waive	<p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	Details of the Settlement Account.	
Charge Details		
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Tag amount that is maintained under the product code.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field.	

Field	Description	Sample Values
Modified Amount	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

This section displays the tax details:

Field	Description	Sample Values
Component	This field displays the tax Component.	
Type	This field displays the type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

Summary

User can review the summary of details captured under Export LC Update Drawing Scrutiny Stage.

The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

The screenshot displays the Oracle application interface for 'Export LC Drawing Update - Scrutiny'. The main content area is titled 'Summary' and is divided into several data segments:

- Main Details:** Product Code : EAPM, Currency : GBP, Amount : 70000
- Document Details:** Document 1 : AIRDOC, Document 2 : INSDOC, Document 3 : INVDOC, Document 4 : MARDOC, Document 5 : OTHERDOC
- Additional Conditions:** FFT Code 1, FFT Code 2
- Shipment Details:** Goods Code, Goods Description
- Discrepancy Details:** Discrepancy Code 1, Discrepancy Code 2
- Maturity Details:** Tenor Type : Mixed, Tenor Basis : First Pres, Maturity Date : 2019-05-27
- Limits and Collaterals:** Limit Currency, Limit Contribution, Limit Status : Not Verified, Collateral Currency : GBP, Collateral Contr. : 78400, Collateral Status : Not Verified
- Commission, Charges and Taxes:** Charge : GBP950, Commission, Tax, Block Status : Not Initia
- Assignment of Proceeds:** Assignment of proceeds : No, Assignee Name, Assigned Amount

The interface includes a navigation menu on the left with options like Main Details, Document Details, Additional Conditions, Shipment Details, Discrepancy Details, Maturity Details, and Summary. The bottom bar contains action buttons: Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

Tiles Displayed in Summary

- Main Details - User can view the application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Document Details - User can view document details.
- Shipment Details - User can view shipment details.
- Additional Conditions - User can view additional conditions of the drawing.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_ MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Submit	<p>Task will get moved to next logical stage of Export LC Update Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

Data Enrichment

Do the following steps to acquire a task at Data Enrichment stage:

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard displays several key performance indicators and data tables. The 'Draft Confirmation Pending' table lists customer applications. The 'Hand-off Failure' table shows process stages. The 'Priority Details' table lists branches and process names. The 'High Value Transactions' widget features a bubble chart for GBP. The 'SLA Breach Details' table shows customer names and breach durations. The 'Priority Summary' table provides a high-level overview of tasks. The 'Hold Transactions' table lists held transactions. The 'SLA Status' widget shows the current status as 'Cucumber Testing'. The 'Tasks Detailed' widget shows a list of tasks.

3. Click Trade Finance > Tasks > Free Tasks.

The 'Free Tasks' page displays a table of tasks. The table has the following columns: Action, Priority, Application Number, Branch, Customer Number, Amount, Process Name, Stage, and Back Office Ref No. The first row is highlighted, and the 'Acquire & Edit' button is visible in the 'Action' column.

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Acquire & Edit	M	GS1ELCU000006437	GS1	000262	£22,000.00	Export LC Update Drawings	Data Enrichment	GS1EAPS190321001
Acquire & Edit	H	GS1ELCA000006448	GS1	000263	₹99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NT9
Acquire & Edit	M	GS1ELCA000006447	GS1	000263	₹99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NT8
Acquire & Edit	H	GS1ELCA000006446	GS1	000263	₹99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NT7
Acquire & Edit	M	GS1ELCA000006443	GS1	000263	₹25,900.00	Export LC Advising	Scrutiny	NA
Acquire & Edit	H	GS1ELCA000006440	GS1	000263	₹99,999.19	Export LC Advising	Scrutiny	GS1ELAC190328NT5

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The 'Free Tasks' page is shown with the 'Acquire & Edit' button in the first row of the task table highlighted with a red box. The table structure is identical to the previous screenshot.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Edit	M	GS1ELCU000006437	GS1	000262	£22,000.00	Export LC Update Drawings	Data Enrichment	GS1EAPS190321001

The Data Enrichment stage hop has following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the fields in Data Enrichment stage. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

Main Details

Refer to [Main Details](#).

Document Details

Refer to [Document Details](#).

Additional Conditions

Refer to [Additional Details](#).

Shipment Details

Refer to [Shipment Details](#).

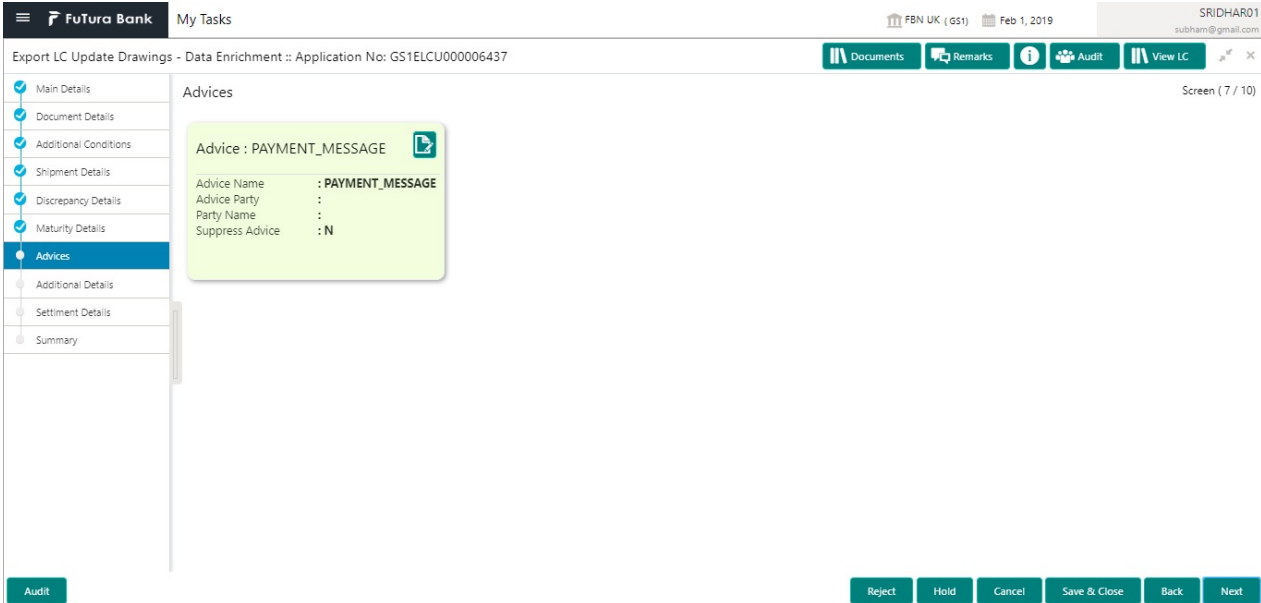

Discrepancy Details

Refer to [Discrepancy Details](#).

Maturity Details

Refer to [Maturity Details](#).

Advices

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	

Field	Description	Sample Values
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>

Limits & Collateral

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

Provide payment details based on the description in the following table:

Field	Description	Sample Values
Auto Liquidate	<p>Auto Liquidation Required details gets defaulted from the LC, if the LC Advised by us toggle is on.</p> <p>If the LC Advised by us toggle is off:</p> <p>Yes: Select Yes, if auto liquidation is required. It is applicable only if the drawing is without discrepancy.</p> <p>No: Select No if auto liquidation is not required.</p>	
Pre-shipment Credit Availed	<p>Pre-shipment Credit Availed details gets defaulted from the LC, if the LC Advised by us toggle is on.</p> <p>If the LC Advised by us toggle is off:</p> <p>Yes: Select Yes, if pre-shipment credit is availed.</p> <p>No: Select No if pre-shipment credit is not availed.</p>	
Pre-shipment Credit Account Number	This field displays the pre-shipment credit account number.	
Preshipment Credit Outstanding Amount	<p>This field displays the preshipment credit outstanding amount.</p> <p>The user can enter the preshipment credit outstanding amount.</p>	
Repay Preshipment Credit	<p>Repay Pre-shipment Credit details gets defaulted from the LC, if the LC Advised by us toggle is on.</p> <p>If the LC Advised by us toggle is off:</p> <p>Yes: Select Yes, if pre-shipment credit to be repaid.</p> <p>No: Select No if there is no pre-shipment credit to be repaid.</p>	

Field	Description	Sample Values
Preshipment Credit Repayment Amount	This field displays the pre-shipment credit repayment amount.	
Reimbursement Claimed	Reimbursing Claimed details gets defaulted from the LC, if the LC Advised by us toggle is on. If the LC Advised by us toggle is off: Yes: Select Yes, if reimbursement to be claimed. No: Select No if there are no reimbursement to be claimed.	
Reimbursing Bank	Reimbursing bank details gets defaulted from the LC, if the LC Advised by us toggle is on. Select the Reimbursing Bank from the LOV, if the Reimbursement Claimed toggle is set to 'Yes'.  Note If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available, Only MT999 messages can be sent to the bank".	
Reimbursement Days	Provide the number of days before the maturity date on which the reimbursement claim needs to be triggered.	
Reimbursement Date	Reimbursement date will be displayed based on the reimbursement days and maturity date. Enables user to capture the reimbursement date. If reimbursement date is later than the branch date, system will display an error.	
Liquidate using Collateral	Toggle On: Enable the toggle, if liquidation is done using Collateral.	
Settlement Details - Liquidation		
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components. The user can modify the account.	
Account Description	Application displays the description of the selected account.	

Field	Description	Sample Values
Branch	Application displays the branch of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate. Provide the FX linkage detail based on the description in the following table:

FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Current Utilized Amount	Total Utilized Amount	FX Expiry Date
PK2FXF1200760501	EUR	GBP	US\$10,000.00	1.33	US\$10,000.00			28-Jun-2020

Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

Summary

User can review the summary of details updated in Data Enrichment stage Export LC Update Drawing request.

The screenshot displays the Oracle Financials Summary page for an Export LC Drawing Update. The page includes a navigation menu on the left and a main summary grid with various tabs. The summary grid is organized into several sections:

- Main Details:** Product Code : EAPM, Currency : GBP, Amount : 70000.
- Document Details:** Document 1 : AIRDOC, Document 2 : INSDOC, Document 3 : INVDOC, Document 4 : MARDOC, Document 5 : OTHERDOC.
- Additional Conditions:** FFT Code 1, FFT Code 2.
- Shipment Details:** Goods Code, Goods Description.
- Discrepancy Details:** Discrepancy Code 1, Discrepancy Code 2.
- Maturity Details:** Tenor Type : Mixed, Tenor Basis : First Pres, Maturity Date : 2019-05-27.
- Advices:** Advice 1, Advice 2.
- Commission, Charges and Taxes:** Charge : GBP950, Commission, Tax, Block Status : Not Initia.
- Limits and Collaterals:** Limit Currency, Limit Contribution, Limit Status : Not Verified, Collateral Currency : GBP, Collateral Contr. : 78400, Collateral Status : Not Verified.
- Payment Details:** Immediate Accept, Reim Claimed.
- Previews Messages:** Language : ENG, Preview Message : -.
- FX Linkage:** Reference Number, Contract Amount, Contract Currency.
- Settlement Details:** Component : LOAN_LIQD., Account Number : PK20010410, Currency : GBP.
- Parties Details:** Confirming Bank : WELLS FARG, Drawer : GOODCARE PLC, Drawee : MARKS AND.
- Compliance details:** KYC : Not Initia, Sanctions : Not Initia, AML : Not Initia.
- Accounting Details:** Event, Account Number, Branch.
- Assignment of Proceeds:** Assignment of proceeds : No, Assignee Name, Assigned Amount.
- Linked Loan Details:** Loan Account, Loan Currency, Loan Amount.

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Document Details - User can view the details of the document.
- Additional Conditions - User can view the details of additional conditions.
- Shipment Details - User can view the shipment details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Additional Fields - User can view the details of additional fields.
- Advices - User can view the details of the advices.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Payment Details - User can view the payment details.
- Preview - User can view the preview of the message.
- Settlement Details - User can view the settlement details.
- FX Linkage - User can view the details of FX Linkage.
- Compliance - User can view the compliance details.
- Parties Details - User can view party details like applicant, advising bank etc.
- Accounting Details - User can view the accounting entries generated in back office.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “Value Date is different from Transaction Date for one or more Accounting entries.

- Assignment of Proceeds - User can view the assignment of proceeds details.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.

Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Submit	<p>Task will get moved to next logical stage of Export LC Update Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the DE Stage.

The amount Block earmark and Limit Earmarks if applicable are also initiated after the DE stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Cancel	<p>Cancel the Export LC Update Drawing Amount Block Exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the customer. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can select a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).
