Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of Trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank’s existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Advise Cancellation - Islamic

As part of Conventional Guarantee Advise Cancel, System enables the user to cancel the Guarantee which had been already Advised.

The various stages involved for Guarantee Advise Cancel are:

- Receive and verify documents and Input basic details- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify
- details of Cancel of Guarantee - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Advise Cancel process flow is similar to that of conventional Guarantee Advise Cancel process flow.

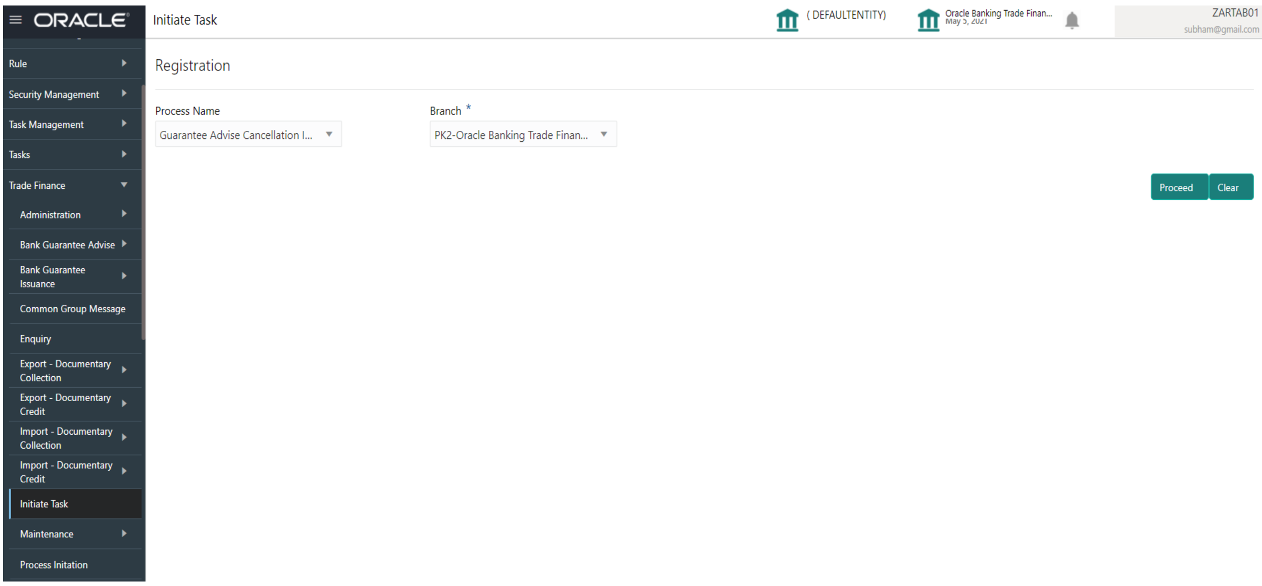
This section contains the following topics:

Common Initiation Stage	Common Initiation Stage
Data Enrichment	Multi Level Authorization

Common Initiation Stage

The user can initiate the Islamic Guarantee Advise Cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task.**



Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.

Field	Description
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

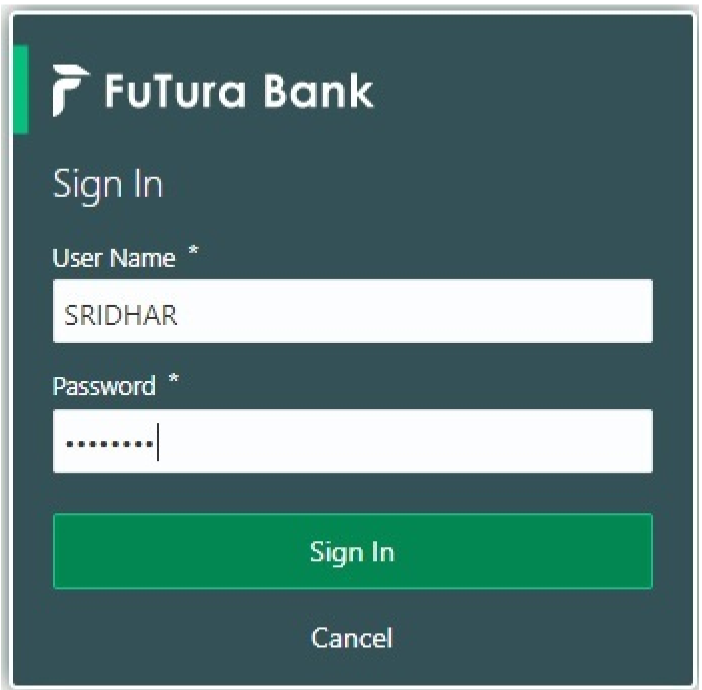
Registration

The first stage of Guarantee Advise Cancellation process starts from the Registration Stage. User can register a request for an Islamic Guarantee Advise Cancel received at the front desk (as an application received physically/received by mail/fax). During registration (Ref Fig-2), I will capture the basic details of the Cancel application, check the signature of the applicant and upload related documents. On submit of the Cancel request, the customer should be notified with acknowledgment and the request should be available for the Guarantee expert to handle in the next stage.The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT**.** The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

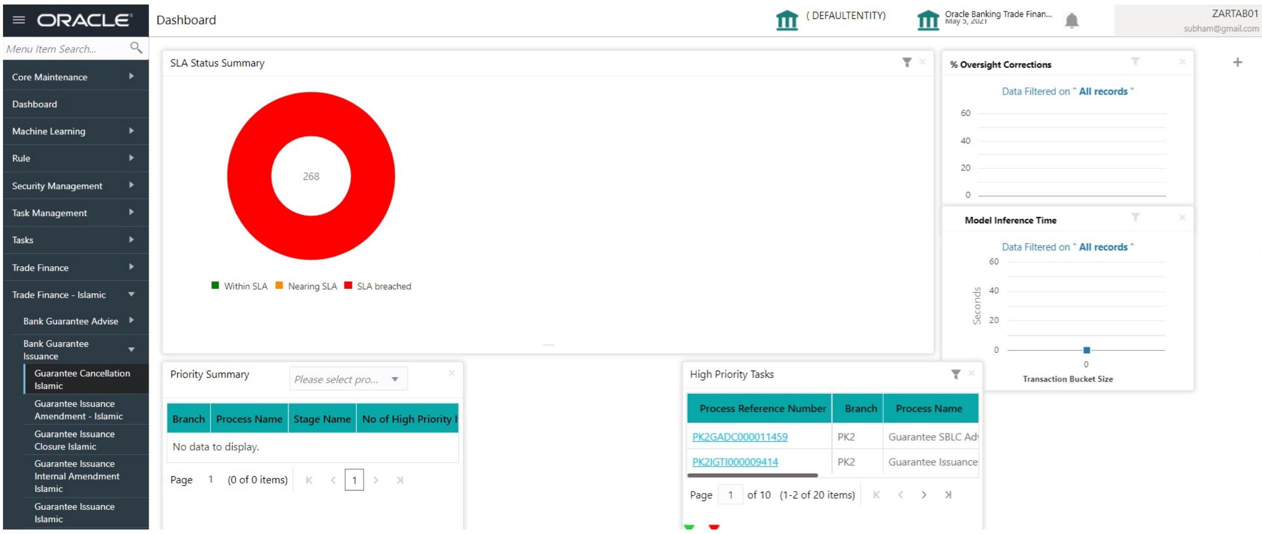
The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process**.**

The user has the option to submit, hold, save and hold and cancel the application

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.



2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.
3. Click **Trade Finance - Islamic > Bank Guarantee Advise > Guarantee Advise Cancellation - Islamic**.



The Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

Application Details

Field	Description	Sample Values
Documents	Upload the required documents. System displays the mandatory and optional documents that are maintained in Document Maintenance. If mandatory documents are not uploaded, system should display an error on submit.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the Guarantee Advice. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following • **Standard Instructions** – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • **Transaction Level Instructions** – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
View Guarantee/SBLC	Clicking on View Guarantee/SBLC button enables user to view the details of the Guarantee/ SBLC.	
Guarantee/SBLC Events	Clicking on Events button enables the user to view the snapshot of various events under the Guarantee/SBLC details.	
Action Buttons		
Submit	On Submit, system trigger advice to the customer and will give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee Advice Cancellation. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	The task gets canceled and system should clear the Guarantee Advice Cancellation Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	
Verify Signature	System will display the details of Authorized signatories. The pop up box will display the signature id, signature title and image of the signature for verification.	

Data Enrichment

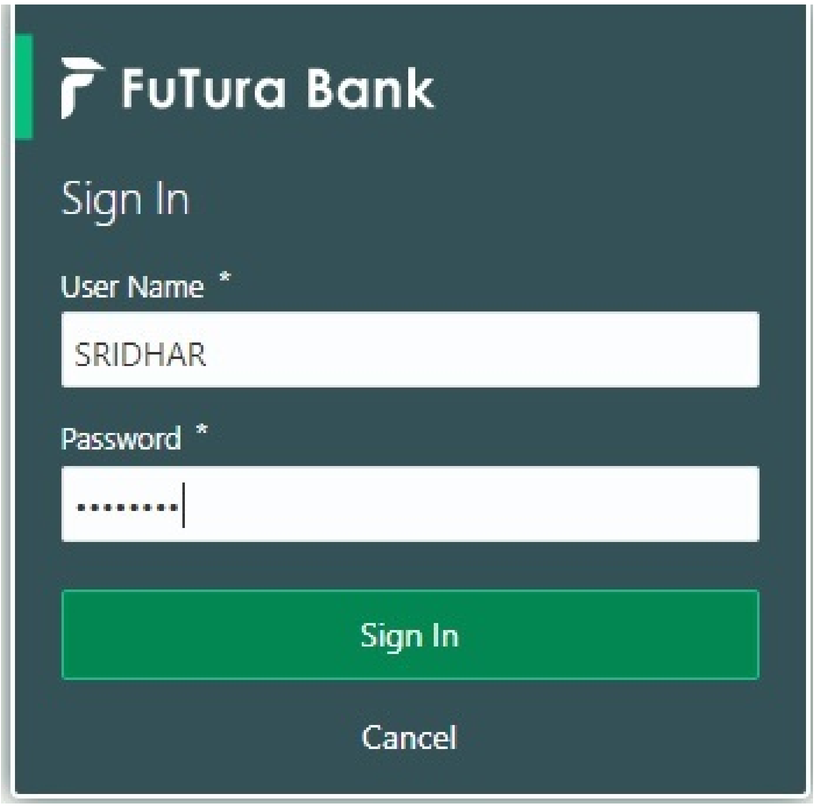
As part of Data Enrichment, user can register and update the basic details of Guarantee Cancellation request. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

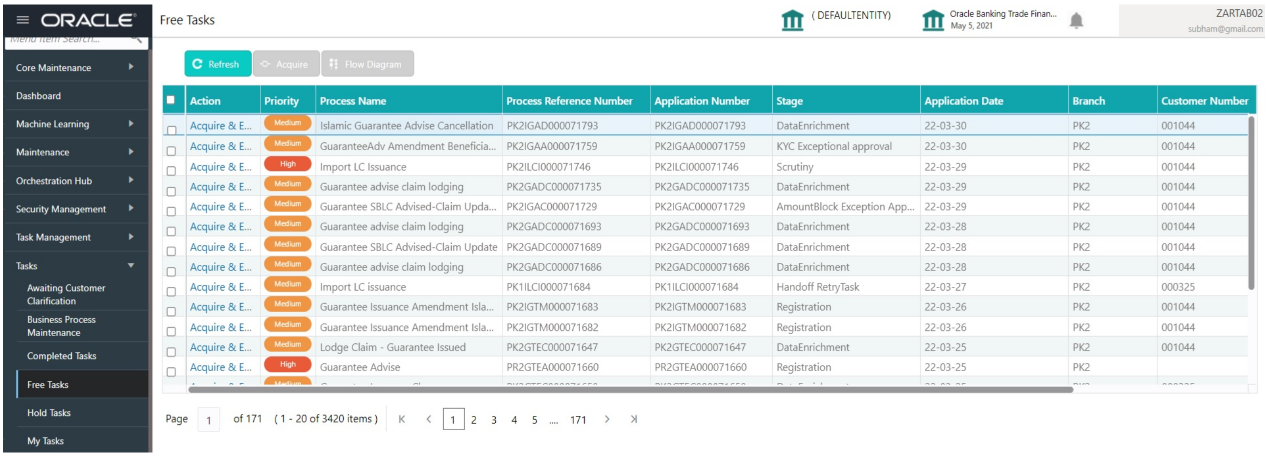
Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

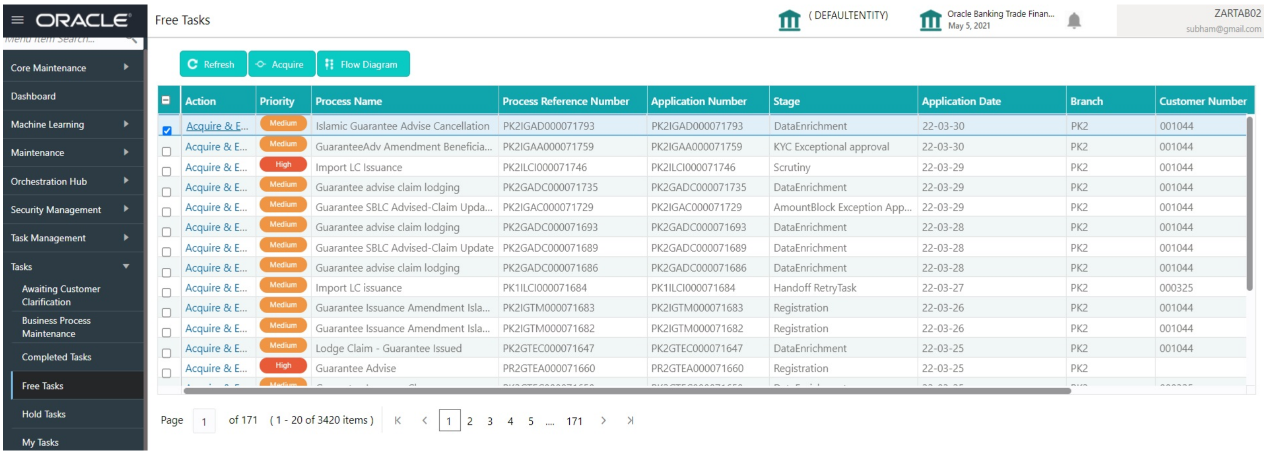


2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Tasks> Free Tasks.**



4. Select the appropriate cancellation task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task.



5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.
