# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

## Overview

OBTFPM is a Trade Finance Middle Office Platform, which enables Bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during Transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Guarantee Issuance Internal Amendment - Islamic

Conventional Guarantee Issuance Internal Amendment process enables the user to make the following amendments to the Guarantee which has been already issued.

- Change in Limits
- Change in Collateral

The various stages involved in Islamic Internal Amendment of Guarantee Issued are:

- Receive and verify documents and input the basic details- Registration stage
- Input/Modify details - Data Enrichment stage
- Check for limit availability
- Check balance availability for amount block
- Earmark limits/Create amount block for cash margin/charges
- Capture remarks for other users to check and act
- Generate acknowledgements.
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Issuance Internal Amendment process flow is similar to that of conventional Guarantee Issuance Internal Amendment process flow.

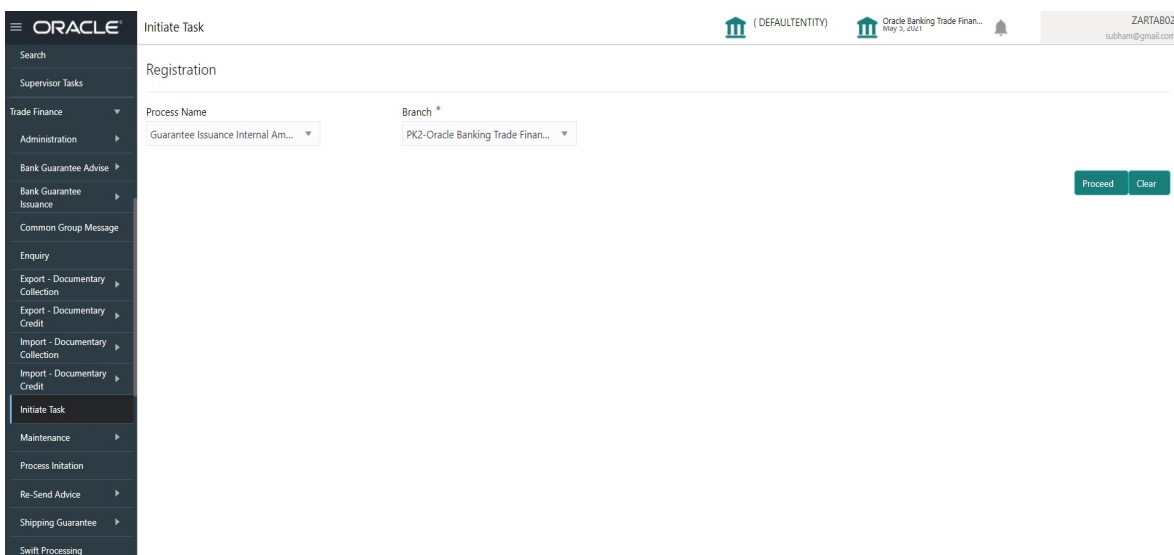

This chapter contains the following topics:

<a href="#">Common Initiation Stage</a>	<a href="#">Registration</a>
<a href="#">Bi-Directional Flow for Offline Transactions Initiated from OBTFPM</a>	<a href="#">Multi Level Approval</a>

## Common Initiation Stage

The user can initiate the new Islamic guarantee issuance internal amendment request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

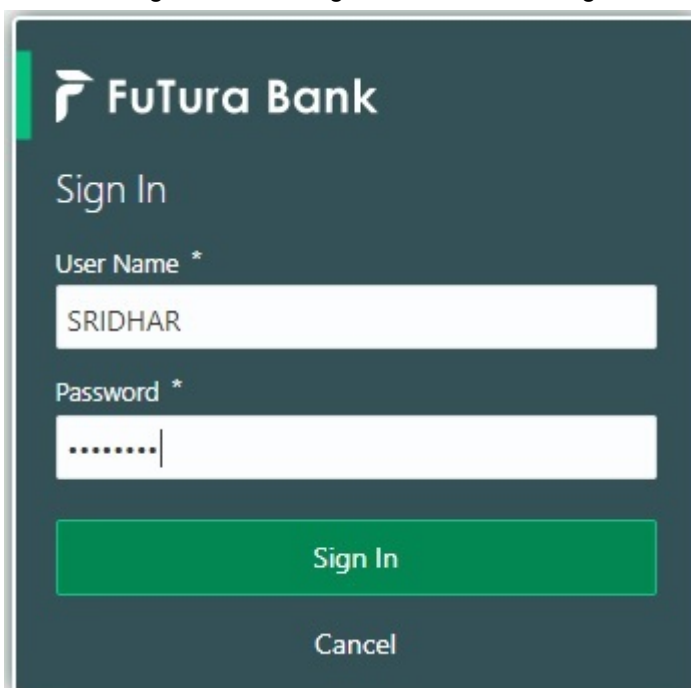

## Registration

As a Registration user can register an Islamic internal amendment to a Guaranteed/SBLC issued request, received at the front desk (as an application received physically/received by mail/fax). On submit of the amendment request, the customer should be notified with acknowledgment and the request should be available for an Guarantee Amendment expert to handle in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E ( of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

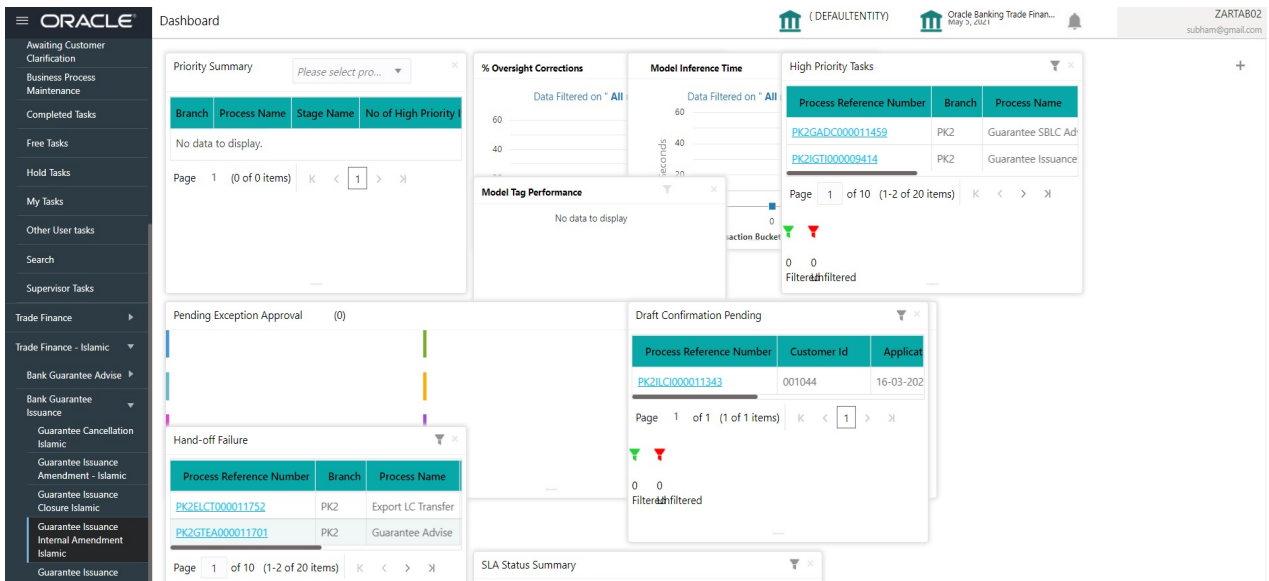

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name \*' containing the text 'SRIDHAR' and 'Password \*' containing masked characters. Below these fields are two buttons: a green 'Sign In' button and a white 'Cancel' button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance - Islamic > Bank Guarantee Issuance > Guarantee Issuance Internal Amendment - Islamic.

The Registration stage has two sections Application Details and Undertaking Details. Let's look at the Registration stage:

# Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Undertaking Number	Enter the undertaking number or alternatively select it from LOV'.  As part of LOV criteria; user can input the Customer Id, Beneficiary name, Currency and amount.	
Received From - Customer ID	Read Only Field  System defaults the customer ID available in Guarantee.	001345
Received From - Customer Name	Read Only Field  System defaults the customer ID available in Guarantee.	EMR & CO
Branch	Read only field.  Branch Name will be auto-populated from Guarantee details.	203-Bank Futura -Branch FZ1
Priority	This field will be defaulted based on the priority maintained for the customer. Priority maintained will be populated as either 'Low or Medium or High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted.  Users are allowed to change the priority.	High

Field	Description	Sample Values
Submission Mode	System defaults the submission mode as 'Desk' for the transactions created via registration Users are allowed to change the values. The values are: <b>Desk</b> - Request received through Desk <b>Courier</b> - Request received through Courier <b>Email</b> - Request received through Email <b>FAX</b> - Request received through FAX	Desk
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	203GTEADV00 15920
Amendment Date	System defaults the branch's current system date.	04/13/2018
Customer Reference Number	User can enter the 'Reference number' provided by the applicant/applicant bank.	

## Undertaking Details

Registration user can view the latest Guarantee/SBLC values defaulted in the respective fields in the Undertaking Details in this section. All the fields in this section is read only.

Provide the Undertaking Details based on the description in the following table:

Field	Description	Sample Values
Form of Undertaking	Read only field. System defaults the value from Guarantee Issuance details.	
Product Code	Read only field. System defaults the value from Guarantee Issuance details.	GUIA
Product Description	Description of the product. Read only field. System defaults the value from Guarantee Issuance details.	Guarantee Advising

Field	Description	Sample Values
Undertaking Amount	Read only field. System defaults the outstanding value available from Guarantee Issuance details.	
Amount In Local Currency	System fetches the local currency equivalent value for the transaction amount from back office (with decimal places).	
Type Of Undertaking	Read only field. System defaults the value available from Guarantee Issuance details.	
Purpose of message	Read only field. System defaults the value from Guarantee Issuance details.	
File Identification	The type of delivery channel and its associated file name or reference. Read only field. System defaults the value from Guarantee Issuance details.	
Narrative	Read only field. System defaults the value from Guarantee Issuance details.	
Expiry Type	This field indicates whether undertaking has specified expiry date or is open-ended. System defaults the expiry type from Guarantee/SBLC Issuance.	
Date Of Expiry	Expiry date of the Guarantee Advised. System defaults the expiry date from Guarantee/SBLC Issuance.	09/30/18
Expiry Condition/Event	Expiry Date of Guarantee. Read only field. System defaults the value from Guarantee Issuance details.	09/30/18
Applicable Rules	Rules for Guarantee. Read only field. System defaults the value from Guarantee Issuance details.	URDG - Uniform rules for demand guarantees
Narrative	Read only field. System defaults the value from Guarantee Issuance details.	
Applicant Name	Read only field. System defaults the value from Guarantee Issuance details.	001345 Nestle

Field	Description	Sample Values
Beneficiary Name	Read only field. System defaults the beneficiary from Guarantee Issuance details.	001345 Nestle
Advising Bank	Read only field. System defaults the advising bank if available.	001343 - Bank Of America
Advising Through Bank	Read only field. System defaults the advising through bank if available.	Advising Bank Reference
Counter SBLC/Guarantee Issuing Bank	Read only field. System defaults the counter guarantee issuing through bank if available.	
Local Guarantee Issuing Bank	Read only field. System defaults the local guarantee issuing bank if available.	
Additional Amounts	Read only field. Additional Amount covered as per the latest LC details is displayed in Guarantee Issuance details.	
Obligor/ Instructor Party	Click Search to search and select the name of the obligor from the lookup.	
Obligor Collateral Percentage	Specify the value for obligor collateral percentage.	
Auto Close	Toggle On: Enable the toggle, if Auto close is required for that transactions. Toggle Off: Disable the toggle, if Auto close is not required for that transactions.	
Closure Date	System default the "Closure Date" value, if any, from the contract.  If the system defaulted value for <b>Auto Close</b> is <b>Yes</b> , then <b>Closure Date</b> field will be a display only field and user is not allowed to edit the same.  If the system defaulted value for <b>Auto Close</b> is <b>No</b> , then user can edit the <b>Closure Date</b> field by enabling the "Auto Close" toggle as "Yes".  User can provide the value in this field, if <b>Auto Close</b> is enabled as a part of this internal amendment.

Cancel	Cancels the Guarantee Issuance Internal Amendment. Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant.	

## Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

### Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
  - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
  2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".
  3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.

4. In case submission mode is not “Online”, and if the “Trade Finance Portal” flag is set to ‘No’ in Customer Maintenance Table, the system should display the error message that ‘The customer is not subscribed to Trade Finance Portal’. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

## Data Enrichment

At this stage you can register a request for Islamic Internal Amendment of Guarantee/SBLC Issued.

As part of Data Enrichment, you can update the details already captured in Registration stage and enter new Islamic Guarantee Issuance Internal Amendment.

### Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task which completed the Registration and currently at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

FuTura Bank

Sign In

User Name \*

SRIDHAR

Password \*

.....

Sign In

Cancel

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

### 3. Click Tasks > Free Tasks.

The screenshot shows the Oracle Free Tasks interface. The left sidebar contains navigation options like Core Maintenance, Dashboard, Machine Learning, Maintenance, etc. The main area displays a table of tasks. The 'Action' column has a dropdown menu with options like 'Acquire & Edit', 'Acquire', and 'Flow Diagram'. The 'Priority' column shows levels like Medium and High. The table lists various tasks such as 'Guarantee Issuance Internal Amendment', 'Guarantee advise claim lodging', and 'Import LC Issuance'.

### 4. Select the appropriate Internal Amendment task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task.

This screenshot shows the same Oracle Free Tasks page, but with the 'Acquire & Edit' button in the top toolbar highlighted with a red box. The table below shows a different set of tasks, including 'Guarantee Issuance Internal Amendment', 'Import LC Amendment Benefac...', and 'Lodge Claim - Guarantee Issued'.

### 5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The screenshot shows the Oracle My Tasks interface. The left sidebar is the same as in previous screenshots. The main area displays a table of tasks. The 'Action' column now includes an 'Edit' option. The table lists tasks such as 'Guarantee Issuance Internal Amendment', 'Guarantee Advise Internal Amendment Isla...', and 'Guarantee Advise Amendment Islamic'.

The Islamic Guarantee Issuance Internal Amendment - Data Enrichment stage has three sections as follows:

- Main Details
- Additional Fields
- Advices
- Additional Details

- Settlement Details
- Summary

Let's look at the details for Islamic Guarantee Issuance Internal Amendment - Data Enrichment stage.

## Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	
Component	Select the commission component	
Rate	Defaults from product. User can change the rate, if required.	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	

Field	Description	Sample Values
Currency	Defaults the currency in which the commission needs to be collected	
Amount	An amount that is maintained under the product code defaults in this field. User can modify the value, if required.	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Waive	Select the check box to waive charges/ commission.  Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary.	
Settlement Account	Details of the Settlement Account.	

## Charge Details

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified Amount	User can enter a new amount in 'Modified amount' field. This will be the new charge for the modified component.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	

Field	Description	Sample Values
Settlement Account	Details of the settlement account.	

## Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system. Tax details are defaulted from the back-end system.

Following Tax Details will be displayed:

Field	Description	Sample Values
Component	Tax Component type.	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If tax are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Settlement Account	Details of the settlement account.	

## Preview

The bank user can view a preview of the outgoing SWIFT message and advise simulated from back office. The preview message simulated from the back office and the user can view the message.

The screenshot displays two side-by-side preview windows. The left window, titled 'Preview - SWIFT Message', has a 'Language' dropdown set to 'English' and a 'Message Type' dropdown set to '799'. Below these are two tabs: 'Preview Message' (selected) and 'Preview Advice'. The 'Preview Message' content shows a SWIFT message header with fields such as 'Original Received from Application - Outgoing Draft', 'Priority/Delivery : Normal', 'Swift Input : FIN 799 Free Format Message', 'Sender Swift address : AAEMNL21XXX', 'Receiver Swift address : WFBIUS65XXX', and 'Message-User-Reference : 3352055789597647'. The right window, titled 'Preview - Mail Advice', has a 'Language' dropdown set to 'English' and an 'Advice Type' dropdown set to 'DEBIT\_ADVICE'. Its 'Preview Message' content shows 'Debit Advice' for '11-JAN-20' and 'Our Reference : PK2GUR19081AMRI'. At the bottom right of the interface are two buttons: 'Save & Close' and 'Close'.

Field	Description	Sample Values
<b>Preview SWIFT Message</b>		
Language	Select the language for the SWIFT message.	
Message Type	Select the message type.	
Preview Advice	Display a preview of the draft message.	
<b>Preview Mail Device</b>		
Language	Select the language for the advice message.	
Advice Type	Select the advice type.	
Message Type	Display a preview of the advice.	
Draft Confirmation Required	This toggle enables the user to select if draft confirmation is required or not

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the previous stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance- Limits</li> <li>● R5 - Others</li> </ul>	
Cancel	<p>Cancel the Guarantee Issuance Internal Amendment approval.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

## Handoff

Once the task is Approved, the task is handed off to the back office for postings. In the back office, the relevant accounting entries are posted, advises are generated, charges and tax to be collected are posted.

In case there is a failure in Handoff, the task goes to retry handoff queue. The user can manually try to initiate handoff.
