Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of Trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Cancellation

Guarantee Cancellation enables the user to register request for Guarantee/SBLC Cancellation received from the Applicant.

If the request is received by mail/Courier, the user should be able to update the request.

This section contains the following topics

[Registration](#)

[Data Enrichment](#)

[Multi Level Authorization](#)

Registration

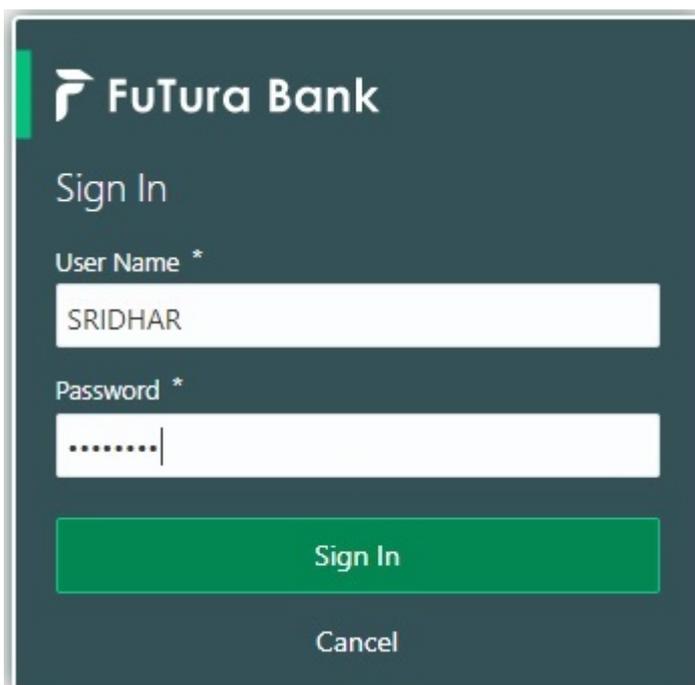

The first stage of Guarantee Cancellation process starts from the Registration Stage. During Registration stage, user captures the basic details as well as undertaking details of the cancellation application. On submit of the request, the customer will be notified with an acknowledgment letter.

The user has the option to submit, hold, save and hold and cancel the application.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance > Bank Guarantee Issuance > Guarantee Cancellation**.

The Registration stage has two sections Application Details and SBLC/ Guarantee Details. Let's look at the details of Registration screens below:

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Application Details		

Field	Description	Sample Values
SBLC Guarantee Number	The user can input the Undertaking Number of the Guarantee to be canceled. Alternatively, user can search the undertaking number using LOV.	
Received From Applicant Bank	Read only field. System will default the name of the customer as available in Guarantee.	Toggle off
Received From - Customer ID	Read only field. Customer ID will be auto-populated from Guarantee /SBLC Issuance.	001345
Received From - Customer Name	Read only field. Applicant Name will be auto-populated from Guarantee /SBLC Issuance.	
Branch	Read only field. Branch Name will be auto-populated from Guarantee details.  Note Once the request is submitted, Branch field is non-editable.	
Priority	System will default the Priority as Low/Medium/. High based on maintenance. If no priority is maintained, system defaults the priority as Medium.	High
Submission Mode	Submission mode of Guarantee. Cancellation request. By default the submission mode will have the value as 'Desk'. Desk - Request received through Desk Email - Request received through Email Courier - Request received through Courier	Desk
Process Reference Number	Unique sequence reference number for the transaction. This is auto generated by the system.	203GTEISS000 001134
Cancellation Date	By default, the application will display branch's current date. User can change the date to back date or future date.	

Field	Description	Sample Values
Amendment Number	Read only field. Amendment number will be auto-populated based on the system maintenance. Amendment number increases by 1 for each amendment.	
Customer Reference Number	User can enter the 'Reference number' provided by the applicant/applicant bank. Enables the user to provide a unique Customer Reference Number for the cancellation.	
Related Reference	Related reference number will be auto-populated based on the system maintenance	
Beneficiary Consent Required	Toggle on: Beneficiary consent required for cancellation. Toggle off: Switch off the toggle if beneficiary consent is not required for cancellation.	
SBLC/ Guarantee Details		
Form of Undertaking	Read only field. Form of Undertaking defaults from Guarantee.	
Product Code	Read only field. This field displays the product code defaulted from Guarantee.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
Undertaking Amount	System defaults the outstanding value available in Guarantee.	
Amount In Local Currency	System fetches the local currency equivalent value for the transaction amount from back office (with decimal places).	
Purpose of Message	Read only field. Purpose of message defaults from Guarantee.	
File Identification	Read Only Field. System will default the value available in Guarantee.	
Narrative	Read Only Field. System defaults the value available in Guarantee.	
Expiry Type	Select the expiry type. By default the system displays the expiry date as maintained in Issuance.	

Field	Description	Sample Values
Date of Expiry	Provide the expiry date of the Guarantee.	
Expiry Condition/ Event	Read only field.	
Applicable Rules	Read only field. This field displays the rules of the Guarantee.	
Narrative	System defaults the value available in Guarantee.	
Applicant Bank	Read only field. This system defaults the applicant bank name available in Guarantee.	
Applicant	Read only field. This system defaults the value available in Guarantee.	
Beneficiary	Read only field. This field displays the beneficiary details of the selected Guarantee and user can amend if required.	
Advising Bank	Read only field. This field displays the details of the advising bank.	
Advising Bank Reference	Read only field. This field displays advising bank reference if available.	
Advice Through Bank	Read only field. System defaults the value available in Guarantee.	
Advising Through Bank Reference	Read only field. This field displays advising bank reference if available.	
Counter SBLC/Guarantee Issuing Bank	Read only field. System defaults the value available in Guarantee.	
Counter Guarantee Issuing Bank Reference	Read only field. System defaults the value available in Guarantee.	
Local SBLC/Guarantee Issuing Bank	Read only field. System defaults the value available in Guarantee.	
Local Guarantee Issuing Bank Reference	Read only field. System defaults the value available in Guarantee.	
Additional Amounts	Additional Amount Covered as per the latest LC details is displayed.	

Field	Description	Sample Values
Accountee	Read only field. System defaults the accountee name available in Guarantee.	

Documents and Checklist: Documents:

Non- Online: The user has to upload all the mandatory documents required by the system to proceed for the guarantee cancellation application. If mandatory documents are not uploaded, system should display an error on submit.

The possible documents submitted under an Guarantee/SBLC Cancellation request are:

Guarantee/SBLC Cancellation Request

Checklist: Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.

Verify Signature: System will display the details of Authorized signatories. The pop up box will display the signature id, signature title and image of the signature for verification.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is available, system should display all the signatures.
Documents	The user can upload the documents.
Remarks	The user can provide any additional information regarding the Guarantee cancellation. This information can be viewed by the users in other stages of the process.
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.

Field	Description
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>
Cancel	<p>Cancels the Guarantee cancellation Registration stage inputs and system should clear the details captured in the screen. The task will get deleted.</p>
Save and Close	<p>Save the information provided and displays the task in you queue for working later.</p> <p>This option will not submit the request</p>
Submit	<p>Task will get moved to next logical stage of Guarantee Cancellation.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>

Document Linkage

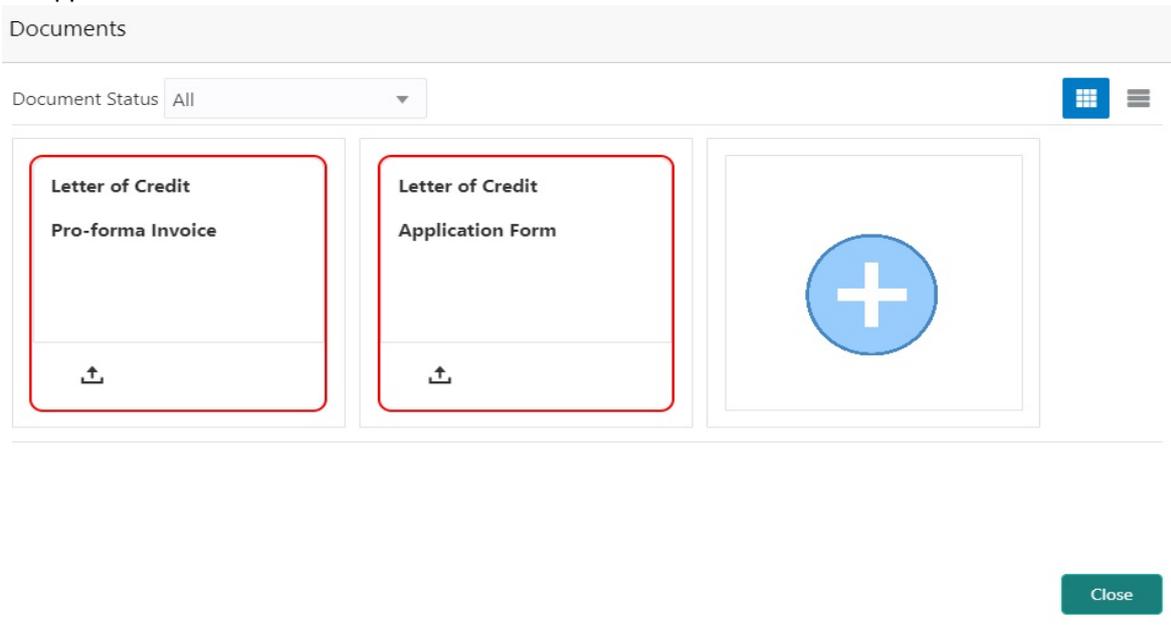

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.

2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

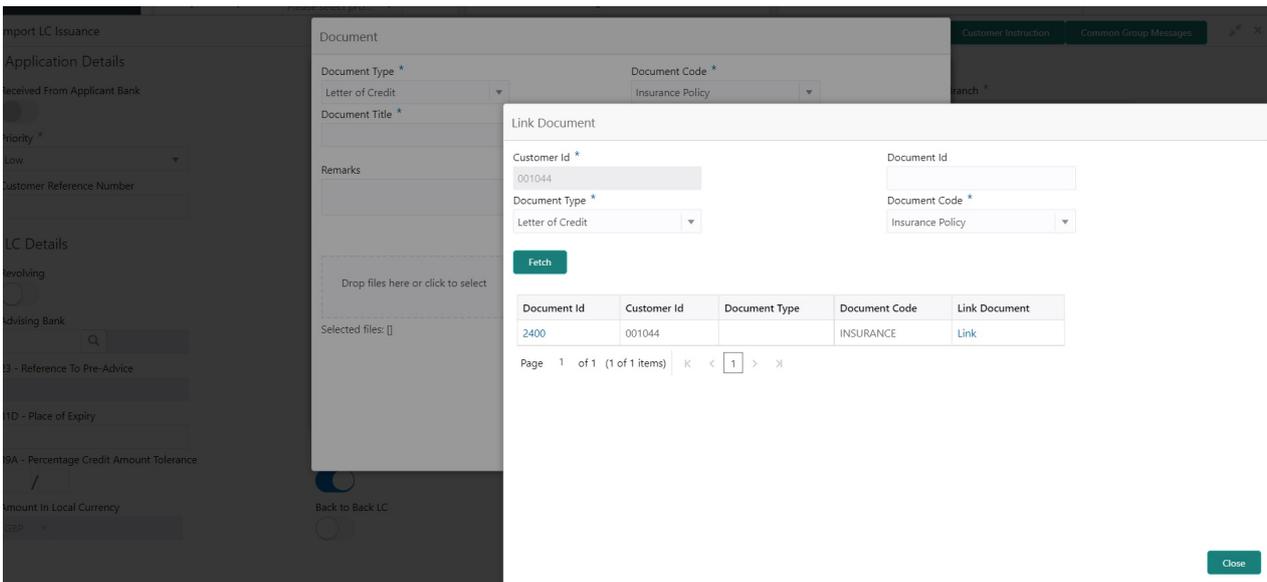

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	

Field	Description	Sample Values
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

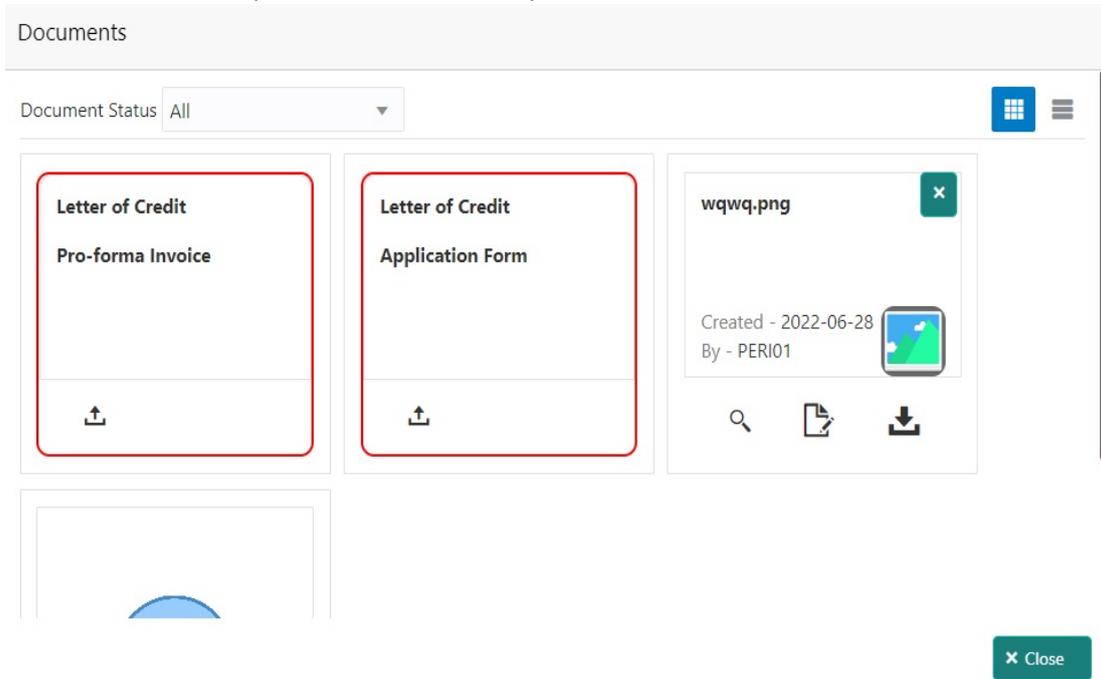

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
Search Result		
Document ID	This field displays the document Code from meta data.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from meta data.	
Document Code	This field displays the document code from meta data.	

Field	Description	Sample Values
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

6. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

7. Click Edit icon to edit the documents. The Edit Document screen appears.

The 'Edit Document' form contains the following fields:

- Document Id: 2400
- Document Title: wqwq
- Application Reference Number: PK2ILCI000019041
- Entity Reference Number: PK2ILCI000019041
- Document Type Id: TFPM_DOCTYPE001
- Document Description: (empty text area)
- Remarks: (empty text area)
- Document Expiry Date: Jun 29, 2022

At the bottom, there is a dashed box with the text 'Drop files here or click to select' and 'Current selected files: []'. 'Update' and 'Cancel' buttons are located at the bottom right.

Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
 - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
 2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".
 3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
 4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

Data Enrichment

As part of Data Enrichment, user can register and update the Guarantee Cancellation request received from the Issuing Bank. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

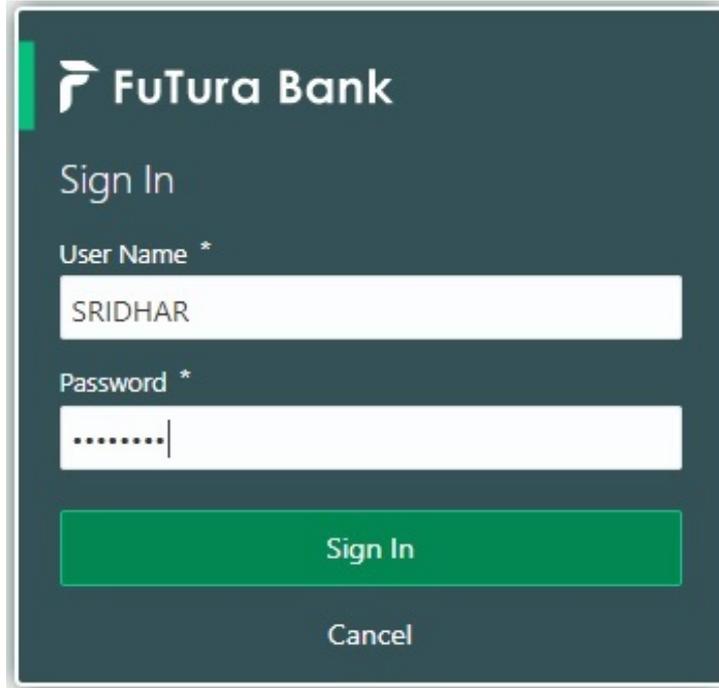

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.
3. Click **Trade Finance> Tasks> Free Tasks**.

The Guarantee Cancellation - Data Enrichment stage has three sections as follows:

- Main Details
- Acknowledgment Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Guarantee Cancellation - Data Enrichment stage.

User can enter/update the following fields. Some of the fields that are already having value from registration/online channels may not be editable.

Main Details

Main details section has three sub section as follows:

- Application Details
- SBLC/ Guarantee Details

Application Details

Refer to Registration for more information of the fields.

SBLC/ Guarantee Details

The fields listed under this section are same as the fields listed under the SBLC Guarantee Details section in Registration. During Registration, if user has not captured input, then user can capture the details in this section.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.

Field	Description
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>
Remarks	<p>Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.</p>
Overrides	<p>Click to view overrides, if any.</p>
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Common Group Messages	<p>Click Common Group Message button, to send MT799 and MT999 messages from within the task.</p>
Incoming Message	<p>Clicking this button allows the user to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_ MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>

Field	Description
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system and the task may get terminated or moved to Reject Approval Stage.
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others
Hold	The details provided will be registered and status will be on hold.
Cancel	Cancels the details captured in the screen. The task will get deleted.
Save and Close	<p>User will save the information provided and close the details captured.</p> <p>This option will not submit the request.</p>
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

Acknowledgement Details

At this stage user can update details for the acknowledgment and response details. This Acknowledgment related section is applicable only for Counter Issuing bank and Local issuing bank.

Field	Description	Sample Values
Acknowledgment Details		
(This is applicable in case of Counter Guarantee/Counter Counter Guarantee Issuing Bank)		
Issuing Bank Reference	Specify the values for issuing bank reference.	
Account Identification	Click Search to search and select the values for account identification from the lookup. Alternatively user can specify the account identification details.	
Date of Acknowledgement	System defaults the current system date as date of message acknowledgment.	
Amount of Charges	Specify the values for the amount of charges and select the currency.	
Account with Bank	Click Search to search and select the account with bank details from the lookup. Alternatively user can also specify the account with bank details.	
Charges	Specify the details of charges if applicable.	
Sender to Receiver Information	Click Search to search and select the sender to receiver details from the lookup. Alternatively user can specify the sender to receiver details if applicable.	

Action Buttons

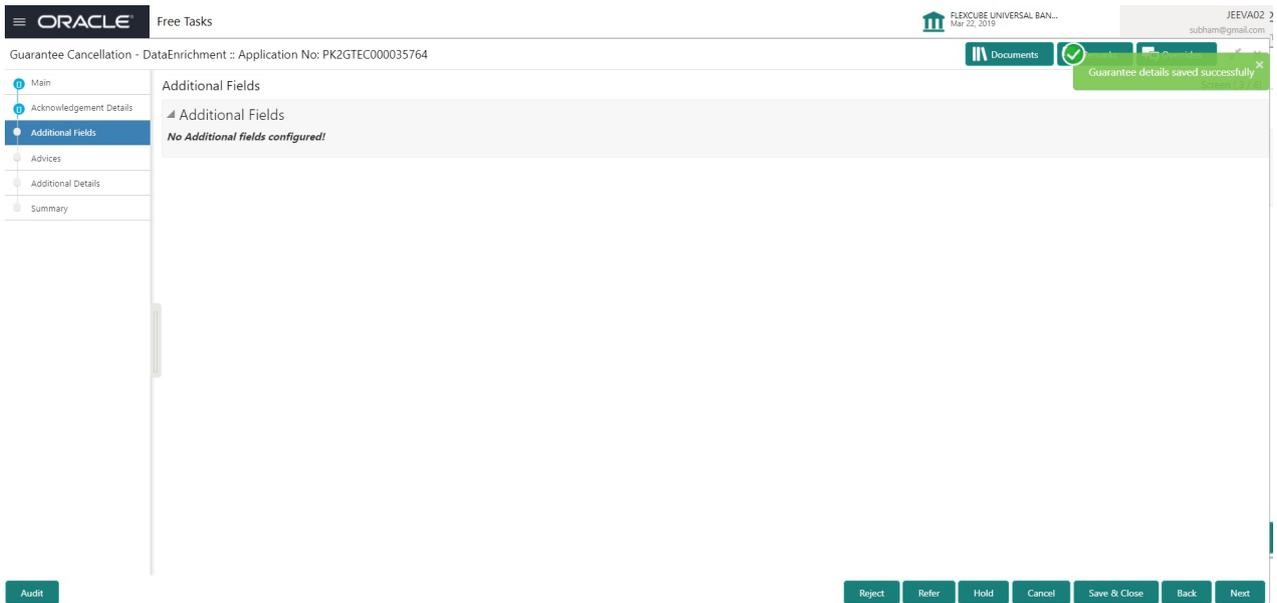

Use action buttons based on the description in the following table:

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.
Overrides	Click to view overrides, if any.
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767. In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task. In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.

Field	Description
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>The reject codes are:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others. The user would be able to select a Reject code and give a Reject Description. <p>Other users should be able to see the reject reason in remarks window throughout the process.</p>
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others
Hold	The details provided will be registered and status will be on hold.
Cancel	Cancels the details captured in the screen. The task will get deleted.
Save and Close	<p>User will save the information provided and close the details captured.</p> <p>This option will not submit the request.</p>
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Back	On click Back , user navigates to previous step.

Additional Fields

This step system defaults the Additional details based on the Additional fields maintained in the system.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.
Overrides	Click to view overrides, if any.

Field	Description
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>The reject codes are:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others. Additional Details

In the Additional details section, the user can verify/input/update the additional details data segment of the Guarantee/SBLC Cancellation request.

Guarantee cancellation may have impact on the Charges & Commission section.

The screenshot displays the Oracle Flexcube Universal Bank application interface. The main content area is titled 'Additional Details' and contains two data tiles:

- Limit & Collateral:**
 - Limit Currency :
 - Limit Contribution :
 - Limit Check Status :
 - Collateral Currency : **GBP**
 - Collateral Contribution : **7635.5**
 - Collateral Check Status : **Not Verified**
- Charge Details:**
 - Charge :
 - Commission :
 - Tax :
 - Block Status :

The interface also features a navigation menu on the left with options like Main, Acknowledgement Details, Additional Fields, Advices, Additional Details (selected), and Summary. At the bottom, there is a toolbar with buttons for Audit, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Limit and Collateral

The limits and collateral details are displayed as tile. The tiles displays a list of important fields with values.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Note
For Guarantee Advising MT 760, user can input the values, applicable if Advising bank confirms undertaking.

User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others

Field	Description
Hold	The details provided will be registered and status will be on hold.
Cancel	Cancels the details captured in the screen. The task will get deleted.
Save and Close	<p>User will save the information provided and close the details captured.</p> <p>This option will not submit the request.</p>
Back	On click Back , user navigates to previous step.
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

Settlement Details

The screenshot shows the Oracle Settlement Details interface. At the top, there's a navigation bar with 'ORACLE' logo and user information: '(DEFAULTENTITY)', 'Oracle Banking Trade Fman', 'May 24, 2021', and 'ZARIABU1 subham@gmail.com'. Below this is a sub-header 'Guarantee Cancellation' and 'DataEnrichment : Application No:- PK2GTEC000025591'. A menu bar contains 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Common Group Messages', 'Incoming Message', and 'Signatures'. The main content area is titled 'Settlement Details' and includes a checkbox for 'Current Event'. Below this is a table with columns: Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, Current Event, Original Exchange Rate, Exchange Rate, and Deal Reference Number. The table lists 12 rows of settlement components, mostly for 'GOODCARE PLC' with various account numbers and currencies (GBP). At the bottom, there's an 'Audit' button and a row of action buttons: 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Component	Currency	Debit/Credit	Account	Account Description	Account Currency	Netting Indicator	Current Event	Original Exchange Rate	Exchange Rate	Deal Reference Number
AGUIR_COM1_LIQD	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
AGUIR_COM1_LQPP	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
AGUIR_COMM_LIQD	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
AGUIR_COMM_LQPP	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
ARC1_LIQD	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
AVL_SET_LCAMT	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
AVL_SET_LCAMTEQ	GBP	Credit	PK20010440017	GOODCARE PLC	GBP	No	No			
CHGTRAMNV_LIQD	GBP	Debit	152110003	Domestic Export Sig	GBP	No	Yes			
CLAIM_CUST_AMT	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No			
CLAIM_CUST_AMT_FX	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No
