Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Import LC Cancellation transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Import LC Cancellation - Islamic

As part of Conventional Import LC Cancellation, System enables the user to cancel the LC which had been already issued.

The various stages involved for Import LC Cancellation are:

- Receive and verify documents and Input basic details (Non Online Channel) - Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify details of Cancel of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Import LC Cancel process flow is similar to that of conventional Import LC Cancel process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval
Import LC Cancellation Acknowledgement Format	Import LC Cancellation Rejection Format

Common Initiation Stage

The user can initiate the new Islamic Import LC Cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register a request for an Islamic Import LC Cancellation received at the front desk (as an application received physically/received by mail/fax).

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC cancel expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

Cancel

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance - Islamic > Import - Documentary Credit > Import LC Cancellation - Islamic.**

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Documentary Credit Number	<p>Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV.</p> <p>In LOV search/advanced LOV search, user can input Customer ID, Applicant, Currency, Amount and User Reference Number.</p> <p>System will display all the LC's outstanding against the given Applicant-Beneficiary combination. User can select the particular LC that can be canceled.</p> <p> Note: System should not display the Documentary Credit for whom Drawings has been listed either on OBTFPM or in Back Office system.</p>	
Received From Applicant Bank	<p>Read only field.</p> <p>System will display the value available in LC.</p>	001344
Received From - Customer ID	<p>Read only field.</p> <p>Customer ID will be auto-populated based on the value available in LC.</p>	001344
Received From - Customer Name	<p>Read only field.</p> <p>System will default the name of the customer as available in LC.</p>	EMR & CO

Field	Description	Sample Values
Branch	Read only field. System should display the LC issuance branch from LC details.	203-Bank Futura -Branch FZ1
Amendment No	Read only field. Amendment number sequence for this Letter of credit will be auto-populated. The amendment sequence number is simulated from the back-end system. The System to default based on the logic < Last Amendment Number +1>.	
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	Priority attached to the transaction. System will default the Priority as Low/Medium/High based on maintenance. User is allowed to change the value.	High
Submission Mode	Select the submission mode of Import LC Cancellation request. By default the submission mode will have the value as 'Desk'. Desk- Request received through Desk Fax- Request received through Fax Email- Request received through Email Courier- Request received through Courier	Desk
Cancellation Date	Read only field. By default, the application will display branch's current date.	04/13/2018
Customer Reference Number	Read only field. User can enter the 'Reference number', if any.	
User Reference Number	Read only field. User Reference Number will be auto populated by the system based on selected LC.	
Beneficiary Consent	Toggle On: Set the Toggle On, if cancellation requires beneficiary's consent. Toggle Off: Set the Toggle Off, if cancellation does not requires beneficiary's consent. In this case, an override message will be populated. "Beneficiary Consent flag Turned OFF". Beneficiary Consent flag should be turned ON, if the cancellation is for full or part of the LC remaining value where further drawings are expected under the LC.	

LC Details

Details in this screen displays the data from the LC issued. All fields displayed in LC details section are **read only** fields.

The screenshot shows the 'LC Details' screen with the following data:

- Revolving:** Revolving (radio button selected)
- LC Type:** Slight
- Product Code:** IRLI
