Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:
- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:
- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

ORACLE®

Import LC Closure - Islamic

As part of Conventional Import LC Close, System enables the user to close the LC which had been already issued.

The various stages involved for Import LC Close are:

- Receive and verify documents and input basic details (Non Online Channel)- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify
- details of Close of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Import LC Close process flow is similar to that of conventional Import LC Close process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval
Reject Approval	

Common Initiation Stage

The user can initiate the new Islamic Import LC Closure from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click **Trade Finance > Initiate Task.**

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Documentary Credit Number	Select the Documentary Credit Number.

Field	Description
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register a request for an Islamic Import LC Closure received at the front desk (as an application received physically/received by mail/fax).

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC close expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

ORACLE®

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.
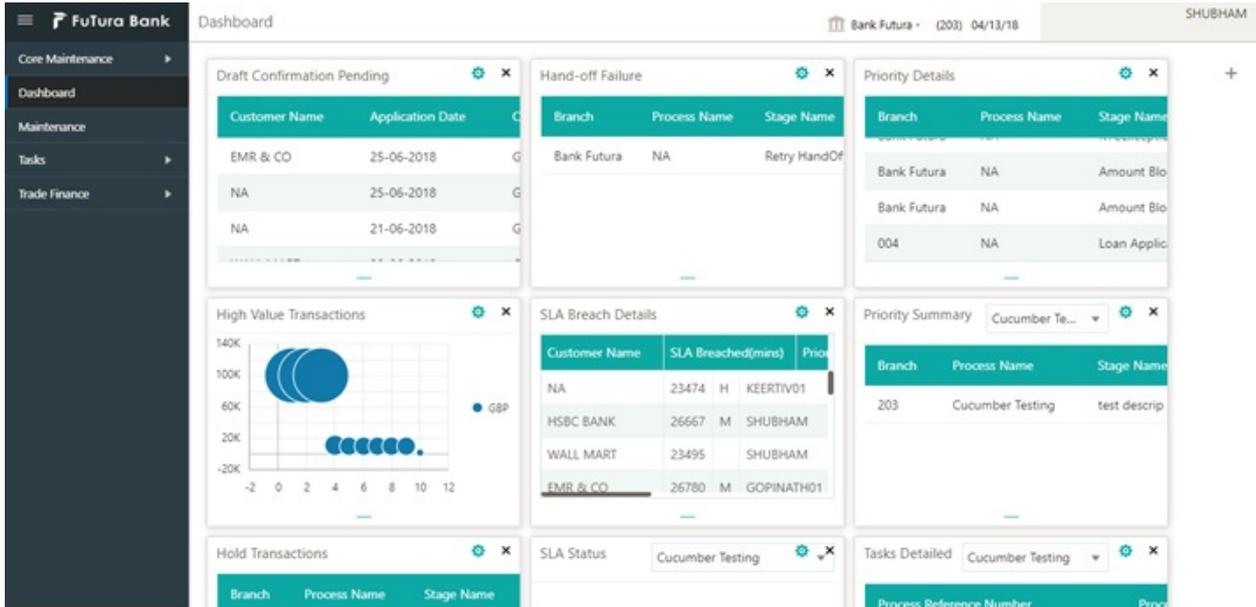

3. Click **Trade Finance - Islamic > Import Documentary Credits> Import LC Closure - Islamic.**
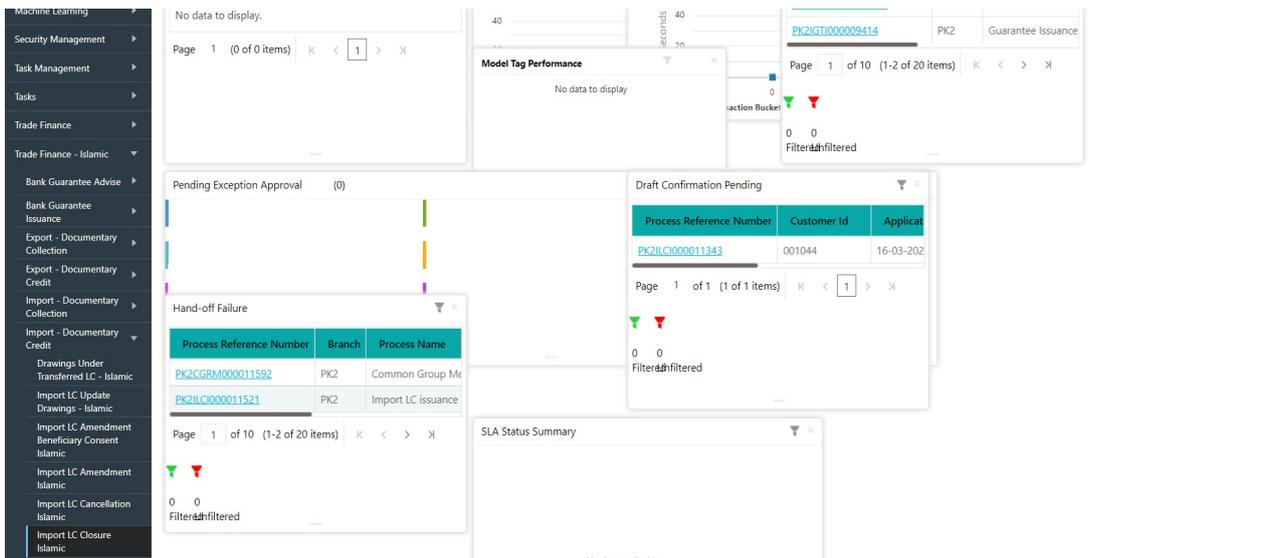

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

ORACLE®

Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Documentary Credit Number	Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV. In LOV search/advanced LOV search, user can input Customer ID, Beneficiary, Currency, Amount and User Reference to fetch the LC details. Based on the search result, select the applicable LC to be closed.	
Customer ID	Read only field. Customer ID will be auto-populated based on the selected LC.	001344
Customer Name	Read only field. Customer Name will be auto-populated based on the selected LC.	EMR & CO
Branch	Read only field. Branch details will be auto-populated based on the selected LC.	203-Bank Futura -Branch FZ1
Process Reference Number	Unique OBTFPM task reference number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	System will default the Priority as Low/Medium/ High based on maintenance.	High

ORACLE®

Field	Description	Sample Values
Submission Mode	Select the submission mode of Import LC Closure request. By default the submission mode will have the value as 'Desk'. **Desk-** Request received through Desk **Fax-** Request received through Fax **Email-** Request received through Email **Courier-** Request received through Courier	Desk
Closure Date	By default, the application will display branch's current date. **Note** Future date selection is not allowed.	04/13/2018
Customer Reference Number	User can enter the 'Reference number' provided by the applicant/ applicant bank. Enables the user to provide a unique Customer Reference Number for the closure.	
User Reference Number	Read only field. User Reference Number will be auto populated by the system based on selected LC.	

LC Details

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
LC Type	Read only field. LC type will be populated based selected LC using documentary credit number.	
Product Code	Read only field. This field displays the product code of the selected LC.	

ORACLE®

Field	Description	Sample Values
Product Description	Read only field. This field displays the description of the product as per the product code.	
Advising Bank	Read only field. This field displays the advising bank details (if provided) of the selected LC.	
40A - Form of Documentary Credit	Read only field. This field displays the form of documentary credit details of the selected LC.	
Date of Issue	Read only field. This field displays the LC issuance date.	
Applicable Rules	Read only field. This field displays the rules of the selected LC.	
Date Of Expiry	Read only field. This field displays the expiry date of the selected LC.	09/30/18
Place of Expiry	Read only field. This field displays the place of expiry of the selected LC.	
Applicant Bank	Read only field. This field displays the applicant bank details of the selected LC.	
Applicant	Read only field. This field displays the details of the applicant of the selected LC.	
Beneficiary	Read only field. This field displays the beneficiary details of the selected LC.	
Currency Code, Amount	Read only field. This field displays the value of LC along with the currency details of the selected LC.	
Amount In Local Currency	Read only field. This field displays the amount of LC along in local currency.	
Percentage Credit Amount Tolerance	Read only field. This field displays the percentage credit amount tolerance details of the selected LC.	
Additional Amount Covered	Read only field. This field displays the details of additional amount covered of the selected LC.	

ORACLE®

Field	Description	Sample Values
Shipping Guarantee Reference	Read only field. This field displays the details of additional amount covered of the selected LC.	
Auto Close	Read only field. System default the value from the previous versions of the contracts.	
Closure Date	Read only field. System default the value from the previous versions of the contracts.	

Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	
Documents	Upload the documents received under the Documentary Collection.	
Remarks	Provide any additional information regarding the collection. This information can be viewed by other users handling the request.	

Field	Description	Sample Values
Customer Instructions	Click to view/ input the following ● **Standard Instructions** – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● **Transaction Level Instructions** – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.	
View LC	Enables user to view the details of the LC.	
View LC Events	Enables user to view the details of the LC events.	
Action Buttons		
Submit	On submit, task will move to next logical stage of Import LC Closure. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Closure. Details entered will not be saved and the task will be removed.	
Hold	The details provided will be saved and status will be on hold.User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	

Data Enrichment

As a part of Data Enrichment stage, user can enter/update basic details of the incoming request of the Import LC Closure.

ORACLE®

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

ORACLE®

3. Click **Tasks> Free Tasks.**

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Data Enrichment stage has five sections as follows:

- Main Details
- Advices
- Additional Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields.

ORACLE®

Main Details

Main details section has two sub section as follows:

- Application Details
- LC Details

Application Details

All fields displayed under Basic details section, would be read only except for the **Priority**. Refer to Application Details for more information of the fields.

Following field can be amended based on the description provided in the following table:

Field	Description	Sample Values
Priority	User can change the priority defaulted' Values are High, Medium and Low.	High

LC Details

The fields listed under this section are same as the fields listed under the LC Details section in Registration. Refer to LC Details for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

ORACLE®

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following ● **Standard Instructions** – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● **Transaction Level Instructions** – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	
View LC	Enables user to view the details of the LC.	

ORACLE®

Field	Description	Sample Values
View LC Events	Click this button to view all the Undertaking events under the LC Issued till date.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	The details provided will be saved and status will be on hold.User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Advices

DE user can verify the Advices generated during Islamic Import LC Cancellation request. **Advices** menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

ORACLE®

DE User can view the Advices generated for Import LC Closure process.

The user can also suppress the Advice, if required.

Field	Description	Sample Values
Suppress Advice	**Toggle on**: Switch on the toggle if advice is suppressed. **Toggle off**: Switch off the toggle if suppress advice is not required for the amendments	
Advice Name	User can select the instruction code as a part of free text.	
Medium	The medium of advices is defaulted from the system. User can update if required.	
Advice Party	Value be defaulted from Guarantee /SBLC Issuance. User can update if required.	
Party ID	Value be defaulted from Guarantee /SBLC Issuance. User can update if required.	

ORACLE®

Field	Description	Sample Values
Party Name	Read only field. Value be defaulted from Guarantee /SBLC Issuance.	
Free Format Text		
FTT Code	User can select the FFT code as a part of free text.	
FFT Description	FFT description is populated based on the FFT code selected.	
	Click plus icon to add new FFT code.	
	Click minus icon to remove any existing FFT code.	
Instruction Details		
Instruction Code	User can select the instruction code as a part of free text.	
Instruction Description	Instruction description is populated based on the FFT code selected.	
	Click plus icon to add new instruction code.	
	Click minus icon to remove any existing instruction code.	

ORACLE®

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
	The user can view and input/view application details simultaneously.	
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.	
	Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following	
	• **Standard Instructions** – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.	
	• **Transaction Level Instructions** – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
View LC	Enables user to view the details of the LC.	

Field	Description	Sample Values
View LC Events	Click this button to view all the Undertaking events under the LC Issued till date.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Hold	The details provided will be saved and status will be on hold.User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

ORACLE®

Additional Details

DE user can verify and enter the basic additional details available for the Islamic Import LC Closure request.

Limits & Collateral

Limit and Collateral details are Read Only and can not be edited and the value for Outstanding Collateral field should be fetched from back office.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number "to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Field	Description	Sample Values
Plus Icon	Click plus icon to add new Limit Details.	

Limit Details

Click + plus icon to add new limit details.

Below fields are displayed on the Limit Details pop-up screen, if the user clicks plus icon.

Customer ID	Applicant's/Applicant Bank customer ID will get defaulted.
