1 Preface

About this Guide

A brief introduction to the Collateral Liquidation User Guide.

This guide helps you get familiar with the Collateral Liquidation process in OBCFPM to liquidate the collaterals linked to non-performing accounts.

Audience

Audience of Collateral Liquidation User Guide.

This guide is intended for the Credit Officers responsible for liquidating the Collaterals linked to facilities and settling non-performing accounts on behalf of customer.

2 Introduction

About Collateral Liquidation

A brief introduction to the Collateral Liquidation process in OBCFPM.

As part of Credit Portfolio management, whenever the customer's liability account/contract is not performing well or overdue, the underlying collateral linked to the transaction accounts must be liquidated and the accounts must be settled. The various activities performed in the Collateral Liquidation process are:

- Capturing liquidation details
- Sending liquidation notice to the customer
- Valuating collateral
- Fixing collateral base price
- Bid publication and identifying buyer
- Settlement of non-performing account based on proceeds from buyer
- Field investigation
- Transfer of asset to the Buyer

The Collateral Liquidation process has the following stages handled by users authorized to perform the task under those stages.

- 1. Collateral Liquidation Initiation
- 2. Notice to Customer And RM
- 3. External Valuation
- 4. Base Price Fixation
- 5. Base Price Review
- 6. Base Price Approval
- 7. Bid Publication
- 8. Bid Capture
- 9. Buyer Recommendation
- 10. Buyer Approval
- 11. Buyer Confirmation
- 12. Document Retrieval
- 13. Asset Transfer to Buyer
- 14. Assignment of Settlement Account
- 15. Fund Allocation and Liquidation

16. Await for Collateral Release

The flowchart illustrating the stages in Collateral Liquidation process is provided below for reference.

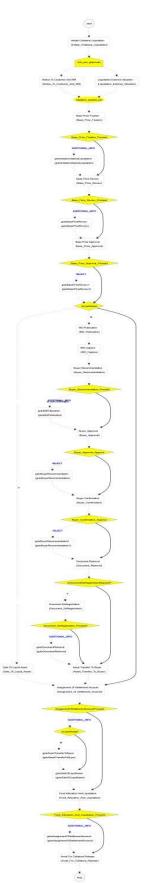

Figure 2-1 Collateral Liquidation - Process Flow Diagram

3 Collateral Liquidation Initiation

Collateral Liquidation Initiation

Detailed Information about the Collateral Liquidation Initiation stage in Collateral Liquidation process.

Collateral Liquidation process can be triggered from both the mid-office and back-office systems based on the performance of the account to which the collateral is linked. In case of back-office system, the system lists the task in the free task queue once the collateral liquidation task is initiated. The user must acquire and edit the task from the Free Tasks menu.

To initiate Liquidation Process in OBCFPM:

1. Navigate to **Collaterals > Liquidation** from the left menu.

The Liquidation Initiation screen is displayed.

Note:

You can capture only the liquidation specific details in the above screen.

2. Capture the collateral details for liquidation.

For field level information, refer the following tables.

 Table 3-1
 Commodity - Commodity Details - Field Description

Field	Description
Item Refernce Number	Collateral reference number provided at the time of collateral creation is displayed.
Commodity Type	Commodity Type selected at the time of collateral creation in the Collateral Evaluation / Perfection process is displayed.
Item code	Item code of the commodity is displayed.
Quantity	Specify the Quantity of commodity for liquidation.
Quantity In	Select the unit in which the commodity is measured from the drop down list.
Currency	The Currency in which the commodity price is captured.
Unit price	The Unit Price of the commodity specified at the time of collateral creation is displayed.
Total Amount	Total Amount is calculated by multiplying the Unit Price with the Quantity .
Amount in Collateral Currency	If the commodity currency is different from the collateral currency, the total amount is converted to collateral currency and displayed.
Lien Detail	Capture the Lien Detail.

Table 3-2 Commodity - Storage Details - Field Description

Field	Description
Storage Location	Storage Location captured at the time of collateral creation is displayed. You can modify this, if required.
Storage Charges	Storage Charges specified at the time of collateral creation is displayed. You can modify this, if required.
Insurance Coverage	Insurance Coverage value specified at the time of collateral creation is displayed. You can modify this, if required.

3. Capture Remarks for the collateral liquidation and click Next.

The Initiation - Configure - Covenants screen is displayed.

Note:

In this User Guide, only collateral liquidation details are provided. For information on adding Covenants and Documents, refer Collateral Evaluation or Collateral Perfection User guide.

- 4. Click Next and navigate to Documents menu.
- 5. Upload or manage documents, if required.

6. Click Submit

The **Configuration** screen is closed.

7. After capturing collateral details for liquidation, click **Next** in the **Initiation - Commodity** screen.

The Initiation - Seniority screen is displayed.

Seniority

Detailed information about the Seniority data segment in Collateral Liquidation Initiation stage.

The Seniority data segment displays the collateral's seniority of charge details. If the bank's charge on collateral is second or third charge, all the pervious charge details is also displayed.

Upon clicking **Next** in the **Initiation - Commodity** screen, the Seniority data segment is displayed.

The application is moved to the next stage.

Notice to Customer and RM

Detailed Information about the Notice to Customer and RM stage in Collateral Liquidation process.

When the Bank decides on liquidating collateral and post the Liquidation request is registered, a Notice stating that the Collateral will be liquidated and the proceeds will be used to settle the accounts must be sent to the Customer and his RM. In the Notice to Customer and RM stage, the Liquidation notice is generated and sent to the customer's preferred communication medium.

Collateral details

Detailed information about the Collateral Details data segment in the Notice to Customer and RM stage.

This data segment displays the collateral details captured as part of Collateral Evaluation / Perfection process. You cannot modify these details.

 To acquire the Notice to Customer and RM task, navigate to Tasks > Free Tasks from the left menu.

The Free Tasks screen is displayed.

8 Base Price Approval

Base Price Approval

Detailed information about the Base Price Approval stage in Collateral Liquidation process.

In this stage, the Credit Approver or the user authorized to edit the Base Price Approval task must view the base price details and base price review comments added in previous stages and make decision to approve or reject the liquidation application. The data segments available in the Base Price Approval stage are same as that of Base

Price Fixation stage. For field level information, refer the **Base Price Fixation** topic.

To approve or reject the base price fixed for the collateral:

1. Navigate to Tasks > Free Tasks from the left menu.

The Free Tasks screen is displayed.
