1 Preface

1.1 Introduction

Welcome to the **Savings Account Origination** user guide for Oracle Banking Origination. This document provides an overview of the Savings Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Savings Account Origination.

1.2 Audience

This user manual is intended for the Relationship Managers (RMs) and Sales Officers in-charge of sourcing the Savings Account Products from prospect and customer of the bank. The user manual is also intended for the other bank personas such as Bank Operations Manager, Account Opening Officers or Branch Managers who may handle the specific stages of the lifecycle of the Savings Account Origination process based on the bank's internal operation and policies.

1.3 Document Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

1.4 Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Table 1: Acronyms table

Abbreviation	Description
DS	Data Segment
SMB	Small and Medium Business
System	Oracle Banking Origination Module

1.5 List of Topics

This user manual is organized as follows:

Table 2: List of Topics

Topics	Description
Overview	This topic provides a snapshot of the features of the entire module.
Savings Account Origination	This topic provides detailed information on the defined stages through which the Savings Account Application has to flow before it is ready to be sent to the Host for Account Creation.
Instant Savings Account Origination Process	This topic provides the detailed information on the Instant Saving product account opening process. It also describes the stage wise process of the product.
Error Codes and Messages	This topic provides the error codes and messages that you encounter while working with Oracle Banking Origination.
Regional Specific Enhancement	This topic provides the field level enhancement, specific to regions in which Oracle Banking Origination is implemented.
Functional Activity Codes - Glossary	Functional Activity Codes - Glossary has the alphabetical list of Savings Account stages with functional activity codes and page references for quick navigation.

1.6 Related Documents

The related documents are as follows:

1. Operations User Guide
2. Configurations User Guide
3. Current Account Origination User Guide
4. Term Deposit Origination User Guide
5. Retail Loans Origination User Guide
6. Credit Card Origination User Guide
7. Alerts and Dashboard User Guide
8. Oracle Banking Common Core User Guide

1.7 Symbols

This user manual may refer to all or some of the following icons:

Table 3: Symbols

Icons	Function
	Edit
	Add
	Delete

	Search

1.8 Basic Actions

Table 4: Basic Actions

Action	Function
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.

Action	Function
Back	Used to navigate to the previous data segment within a stage.
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Used to close the application without saving. This task appears in Free Task, once the transaction is cancelled.

1.9 Screenshot Disclaimer

Information used in the interface or documents are dummy, it does not exist in real world, and it is only for reference purpose.

2 Overview

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of account opening processes of below product for both Individual as well Small and Medium Business type of customer:

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Savings Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The initiation request for a Savings Account can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of Savings Account request can be made for both new and existing customer types. Also, the system supports processing of the savings account request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

Please refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the **Operations** user guide.

This user guide explains the reference workflow for the Savings Account Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

Below flowchart provides a graphical representation of the saving account opening process:

Figure 1: Reference Workflow Diagram

3 Savings Account Origination

As detailed in the **Operations** user guide, all the Product Originations are initiated in the Application Initiation stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate single or multiple Product initiation. Once the Savings Account Product origination process is initiated either as a single product origination or as part of the multiple product selection, Process Orchestrator generates the Savings Account Process Reference Number on submit of the Application Initiation stage. Process Orchestrator also updates the record in the Free Task process for the Application Entry stage also referred as Task from orchestrator perspective.

The Savings Account Origination Process flow comprises of the below stages and the detailed information of the same is available in the below sections:

- [Application Entry Stage](#)
- [Debit Assessment](#)
- [Overdraft Limit Stage](#)
- [Application Enrichment Stage](#)
- [Account Funding Stage](#)
- [Underwriting](#)
- [Application Assessment Stage](#)
- [Manual Credit Assessment Stage](#)
- [Manual Credit Decision Stage](#)
- [Account Parameter Setup Stage](#)
- [Supervisor Application Approval Stage](#)
- [Offer Issue Stage](#)
- [Offer Accept / Reject Stage](#)
- [Post Offer Amendment Stage](#)
- [Application Approval Stage](#)
- [Manual Retry Stage](#)

To acquire and edit respective stage:

1. From Home screen, click Tasks. Under Tasks, click Free Tasks.

→ The **Free Tasks** screen is displayed.

2. Click **Acquire & Edit** from the **Actions** column against the stage which user wants to update.

3.1 Application Entry Stage

Process Orchestrator updates the record in the Free Task process for the Application Entry stage also referred as Task from orchestrator perspective. User can Acquire and Edit or Acquire the task from the Action column and the header respectively as per requirement.

The Application Entry Stage will be automatically submitted, in case the Bank level configuration for allowing full Application submission is set as 'Yes' and the User has updated all the Data Segment of Application Entry stage as part of the Application Initiation stage itself by clicking on the 'Application' button available in the Product Details Data Segment.

After successful submission of Application Entry stage, a request for the initial funding transaction is sent to Teller Module, if Fund By is selected and Initial Funding details are updated. The status of the Teller Transaction is then validated in the Initial Funding Details data segment of Account Funding stage.

Please refer the below section for more details on these data segments.

3.1.1 Customer Information

The Customer Information data segment displays the details captured for the customer in the Application Initiate stage and allows updating further fields for supplementing the customer related information.

3.1.1.1 For Individual Customer Type

To capture customer information details:

1. In the Saving Application Entry stage, update the customer details in the Customer Information data segment based on the respective customer.

NOTE: The fields in the screen appear based on the region-specific configuration. Refer Regional Specific section below to understand the regionalization impact on this screen.

→ The **Customer Information - Individual** screen is displayed.

2. Enter the details in each section.

OR

Click the **Upload Document to prepopulate Customer** link to extract the customer information from the identity document provided by the customer. In this process the system uses the OCR or NPL features to fetch the information and prepopulates in the respective fields. You can edit required fields. For more information, refer below **To upload document process for fetching customer information**.

3. Specify the details in the relevant data fields. The field mentioned as **Required** are mandatory. For more information on fields, refer to the field description table below.

Table 5: Customer Information - Individual - Field Description

Field	Description
Customer Type	Displays the customer type based on the product selected.
Number of Applicants	Displays the number of applicants added for the account. It gets auto calculated based on the number of applicants that are added by Add applicant .
Applicant Name <role>	Displays the name of the applicant. The applicant role is displayed adjacent to this field.
Date of Birth	Displays the date of birth of the applicant.
E-mail	Displays the e-mail ID of the applicant.
Mobile Number	Displays the mobile number of the applicant.
Phone Number	Displays the phone number of the applicant.
Edit	Click Edit to modify the existing customer details and address details. Click Save to save the modified details and click Cancel to cancel the modifications.
Add Customer	Click Add Customer to add another customer other than primary applicant.
Existing Customer	Select to indicate if customer is existing customer.
Role	Displays the applicant role. The first customer which is added while initiating an application is considered as primary applicant. By default the Primary Applicant option appears in this field. This field is enabled if you add customer other than the primary customer.

	You can select role from the available options: • Joint • Guarantor The options that are selected in the Allowed Applicants Roles field of the Business Product Preferences data segment in the Business Product screen appear for selection.
CIF Number	Search and select the CIF number. This field appears for only existing customers. Once the CIF number is selected, the system identifies whether the entered CIF number matches the Office of Foreign Assets Control (OFAC) list. If the response is positive then an error appears stating the selected CIF is of an Invalid Customer Status. The account opening process is not initiated with that customer.
Title	Select the title of the applicant from the drop-down list.
First Name	Specify the first name of the applicant.
Middle Name	Specify the middle name of the applicant.
Last Name	Specify the last name of the applicant.
Name in Local Language	Specify the name in local language of the applicant.
Gender	Specify the Gender of the applicant from the drop-down list.
Date of Birth	Select the date of birth of the applicant.
Resident Status	Select the residential status of the applicant from the drop-down list. Available options are: • Resident • Non-Resident

County of Residence	Search and select the country code of which the applicant is a resident.
Birth Country	Search and select the country code where the applicant has born.
Nationality	Search and select the country code where the applicant has nationality.
Citizenship By	Search and select the country code for which applicant has citizenship.
Marital Status	Select the marital status of the customer from the drop-down list. Available options are: • Married • Unmarried • Legally Separated • Widow
Customer Segment	Select the segment of the customer. Available options are: • Emerging Affluent • High Net worth Individuals • Mass Affluent • Ultra HNI
Customer Category	Select the category of the customer.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.
Details Of Special Need	Select the special need details. Available options are: • Blindness • Cerebral Palsy • Low vision • Locomotor disability • Leprosy-cured • Mental retardation

	• Mental illness • Hearing Impairment
Remarks For Special Need	Specify the remarks for the special need selected.
Relationship Manager ID	Search and select the Relationship Manager ID for the applicant.
Staff	Select the toggle to indicate if the customer is employee of the bank.
Profession	Select the profession of the customer.
Politically Exposed Person	Select to indicate if the customer are politically exposed person.
Insider	Select to indicate if he customer is insider.
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click  to add address details. Click  to perform below actions on the added address details, • To view the address details, click View. • To edit the address details, click Edit. • To delete the address details, click Delete.
Address Type	Select the address type for the applicant from the drop-down list. • Permanent Address • Residential Address • Communication Address • Office Address

Location	Select and search the location.
Preferred Address	Select to indicate if you want the selected address type as preferred address type.
Address From	Select the date from when you are connected with the given address.
Address To	Select the date till when you were connected with the given address.
Mark communication address as same	Select to indicate whether the given address is same as communication address. This field appears if you select the Permanent Address option from the Address Type list.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section you can provide addition information.
Sub Department	Specify the sub department.

Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
Media	In this section you can provide digital contact details.
Mobile	Click  to add mobile details.
ISD code	Specify the international subscriber dialing code of the mobile number.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email	Click  to add email details.
Email Id	Specify the email ID.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.

Phone	Click  to add phone details.
ISD code	Specify the international subscriber dialing code of the phone number.
Area Code	Specify the area code of the phone number.
Phone Number	Specify the phone number.
Preferred	Select to indicate if the given phone number is the preferred number.
Action	You can edit or delete the added phone details.
Swift	Click  to add swift details.
Business Identifier Code	Specify the business identifier code.
Address Line 1	Specify the address from line 1 to line 4.
Preferred	Select to indicate if the given swift details are the preferred details.
Action	You can edit or delete the added swift details.
FAX	Click  to add fax details.
ISD Code	Specify the international subscriber dialing code of the phone number.
Area Code	Specify the area code of the FAX.
Fax Number	Specify the fax number details.
Preferred	Select to indicate if the given fax number is the preferred number.

Signatures	In this section you can add new signature and view the already added signature of the customer. Click  to add upload signature. Click Add button to add the additional signatures. Click Cancel button to discard the added details. On Submit, signature will be handed off to Oracle Banking Party.
Upload Signature	Drag and drop the signature file or click on Select or drop files here to browse and upload the signature from the local system. PNG & JPEG file formats are supported.
Uploaded Signature	Displays the uploaded signature.
Remarks	Specify the remarks related to the signature.
Signature ID	Displays the Signature ID for the added signature.
Signature	Displays the added signature.
Remarks	Displays the remarks for the added signature.
Action	Click  to edit the added signatures Click  to delete the added signatures.
ID Details	You can add, view and edit the ID details in this section. Click  to add ID details.
ID Type	Specify the ID type. The available options are: • ITIN

	• Driving License • ATIN • EIN • SIN • Passport • SSN
ID Status	Specify the status of the selected ID type. The available options are: • Verification Pending • Applied For • Available • Notice Received
Unique ID	Specify the unique identification code of the selected type. You can enter the unique ID only if the ID Status is Available.
Place Of Issue	Specify the place where the ID is issued to the user.
Issue Date	Specify the date from which the ID is valid.
Expiration Date	Specify the date till which the ID is valid.
Preferred	Select to indicate whether added ID details are preferred among all others. In case of multiple ID details, it is mandatory to mark any one of the ID details as Preferred.
Remark	Specify the remark.
Action	Click  to save the entered ID details. Click  to edit the added ID details

	Click  to delete the added ID details.
Supporting Document	This section displays the status of the supporting documents that customer provides to get onboard. You can view, • Total Documents – Counts of total documents • Document Submitted – Count of the document that are submitted • Document Pending – Count of the document that are pending In case of exiting party, already captured documents fetched in this section. User can add, edit or delete the documents. Click  to add the document. The Document popup appears. Below fields appears in the popup.
Document Name	Specify the name of the document.
Document Number	Specify the unique number of the selected document.
Document Issue Date	Specify the date from which the document is valid.
Document Expiry Date	Specify the date on which the document is expired.
Upload Documents	Drag and drop the document file or click the Select or drop files here link to browse and upload the document.
Uploaded Documents	The name along with extension of the uploaded document is displayed. You can view or delete document. Click Save to upload the document.
Tax Declaration	You can update the tax declaration details in this section.
Form Type	Specify the form type for tax declaration.
Valid From	Specify the date from which the form is valid.
Valid Till	Specify the date on which the document is expired.

Remarks	Specify the remarks.
Service Member Details	You can capture the service member details in this section, if the customer is service member.
Unit Name	Specify the unit name of the customer.
Service Branch	Specify the service branch of the customer. The available options are: • Army • Marine Corps • Navy • Air Force
Remarks	Specify the remarks.
Order Number	Specify the order number of the service in which the customer is enrolled.
Notification Date	Specify the date on which the customer notified bank about the enrollment in service. This date cannot be future dated.
Employee ID	Specify the employee identification code.
Cover Under Armed Forces Benefits	Specify whether the customer is covered under the armed forces benefits.
Active Duty Start Date	Specify the date on which service is active.
Active Duty End Date	Specify the date on which the service is ending.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data:

To upload document for fetching customer information:

1. Click **Upload Document** to fetch the customer information from the uploaded documents.

→ The Customer Information- Upload Document screen is displayed.

Figure 4: Customer Information – Upload Document

For more information on fields of the screen, refer to the field description table below.

Table 6: Customer Information - Upload Document – Field Description

Field	Description
Document Name	Select the document name from the drop-down list. The available options are: • Driving License • Passport
Country of Issue	This field is defaulted, for the document name is selected. NOTE: This fields is editable.
Upload Document	Drag and drop the document or click on Select or drop files here to browse and upload the document from the local system.

NOTE: PNG & JPEG file formats are supported.

After the document is uploaded,.

→ The **Verify Information** screen is displayed.

Figure 5: Verify Information

The screenshot shows the 'Verify Information' screen. At the top, there is a tab labeled 'Verify Information'. Below the tab, there is a large image of a document, likely a driving license, with the word 'सर्वकार' (Sarkar) visible. Below the image, there is a form with the following fields:

- First Name: John
- Last Name: Amith
- Gender: Male (dropdown menu)
- Unique id No: (empty field)
- Address Type: Permanent Address (dropdown menu)
- Street: (empty field)
- State: (empty field)
- Middle Name: (empty field)
- Date Of Birth: September 19, 1984 (calendar icon)
- Unique id Type: Driving License (dropdown menu)
- Unique id Expiry Date: (empty field)
- Building: (empty field)
- City: (empty field)
- Country: US (search icon)

At the bottom right, there are two buttons: 'Update & Save' and 'Cancel'.

- On the **Verify Information** screen, the fields are pre-populated with extracted data. For more information on fields, refer to the field description table below.

Table 7: Verify Information – Field Description

Field	Description
First Name	This field is pre-populated with the extracted data. Modify the first name of the applicant, if required.
Middle Name	This field is pre-populated with the extracted data. Modify the middle name of the applicant, if required.
Last Name	This field is pre-populated with the extracted data. Modify the last name of the applicant, if required.

Field	Description
Date of Birth	This field is pre-populated with the extracted data. Modify the date of birth of the applicant, if required.
Gender	This field is pre-populated with the extracted data. Modify the gender of the applicant, if required.
Unique Id Type	Displays the unique ID type of the applicant based on the document uploaded.

3. Click **Update and Save** to pre-populated the data fields in the **Customer Information** screen.

→ The **Confirmation** screen displays.

Figure 6: Confirmation

- Click **OK** to override the data fields with the extracted data.
- Click **Cancel** to cancel the override action and return to **Verify Information** screen.

3.1.1.2 For Small and Medium Business (SMB) Customer Type

To capture customer information details:

1. In the Saving Application Entry stage, update the customer details in the Customer Information data segment based on the respective customer type.

→ The **Customer Information - Small and Medium Business (SMB)** screen is displayed

Figure 7: Customer Information – Small and Medium Business (SMB)

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 8: Customer Information – Small and Medium Business (SMB) – Field Description

Field	Description
Customer Type	Displays the customer type based on the product selected.
Doing Business As	Displays the business name of the SMB customer.
Registration Number	Displays the registration number of the business.
Date of Registration	Displays the registration date of the business.
Edit	Click Edit to modify the existing customer details and address details. Click Save to save the modified details and click Cancel to cancel the modifications. Edit will be visible only for existing customers.
Existing Customer	Select to indicate if customer is existing customer.
CIF Number	Search and select the CIF number.

Field	Description
Doing Business As	Specify the name of the business.
Registration Number	Specify the registration number of the business.
Date of Registration	Select the registration date of the business.
Country of Registration	Search and select the country code where the business is registered.
SMB Classification	Select the SMB Classification from the dropdown list. Available options are: • Micro • Small • Medium
Customer Category	Search and select the customer category.
SMB Registration Number	Specify the SMB registration number.
Tax Identification Number	Specify the tax identification number of the SMB customer.
Goods and Service Tax ID	Specify the goods and service tax ID.
Business License	Specify the business license.
Preferred Language	Select the preferred language.
Preferred Currency	Select the preferred currency.
Relationship Manager ID	Specify the relationship manager ID.
Upload Logo	Click Upload Logo button to upload the logo for the business.

Field	Description
Address	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click  to add address details. Click  to perform below actions on the added address details, • Click View to view the address details,. • Click Edit to edit the address details, • Click Delete to delete the address details
Address Type	Select the address type for the applicant from the drop-down list. • Permanent Address • Residential Address • Communication Address • Office Address
Location	Select and search the location.
Preferred Address	Select to indicate if you want the selected address type as preferred address type.
Address From	Select the date from when you are connected with the given address.
Address To	Select the date till when you were connected with the given address.
Mark communication address as same	Select to indicate whether the given address is same as communication address.

Field	Description
	This field appears if you select the Permanent Address option from the Address Type list.
Address	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Address To	Select the date till when you were connected with the given address.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Addition Info	In this section you can provide addition information.
Sub Department	Specify the sub department.
Department	Specify the department.
Building Number	Specify the building number.
Post Box	Specify the post box code.
District Name	Specify the district name.
Floor	Specify the floor number.

Field	Description
Room	Specify the room number.
Locality	Specify the locality.
Landmark	Specify the landmark.
Contact Name / Narrative	Specify the name of the contact person.
Media	In this section you can provide digital contact details.
Mobile	Click  to add mobile details.
ISD code	Specify the international subscriber dialing code of the mobile number.
Mobile Number	Specify the mobile number.
Preferred	Select to indicate if the given mobile number is the preferred number.
Action	You can edit or delete the added mobile details.
Email	Click  to add email details.
Email Id	Specify the email ID.
Preferred	Select to indicate if the given email ID is the preferred ID.
Action	You can edit or delete the added email details.
Phone	Click  to add phone details.
ISD code	Specify the international subscriber dialing code of the phone number.
Area Code	Specify the area code of the phone number.

Field	Description
Preferred	Select to indicate if the given phone number is the preferred number.
Action	You can edit or delete the added phone details.
Swift	Click  to add swift details.
Business Identifier Code	Specify the business identifier code.
Address Line 1	Specify the address from line 1 to line 4.
Preferred	Select to indicate if the given swift details are the preferred details.
Action	You can edit or delete the added swift details.
FAX	Click  to add fax details.
ISD Code	Specify the international subscriber dialing code of the phone number.
Fax Number	Specify the fax number details.
Preferred	Select to indicate if the given fax number is the preferred number.

3. Click below button to preform respective actions on the specified details:

- Click **Request Clarification** to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data. If the Customer Dedupe check is enabled, the application will perform the Dedupe check for the new customer details on clicking Next button. For more information, refer the Customer Dedupe Check section.
- Click **Save & Close** to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
- Click **Cancel** to cancel the current transaction. This task appears in Free Task, once the transaction is cancelled

Customer Dedupe Check:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customer's records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration)

1. Click **Next** to perform the dedupe check and display the result.

→ The **De-Dupe Result** screen is displayed

Figure 8: De-Dupe Results

The screenshot shows a window titled "De-Dupe Results" with a close button (X) in the top right corner. Below the title bar, it says "Following matching records are found, Please verify". There are two sections, each with a header and a table of matching records.

Vikash Kumar

CIF Number	PTY Number	First Name	Last Name	Customer Type	DOB	Contact Number	ID/Registration Number	Status
100011		Vikash	Anand	I	03-01-1990	0988098009		COMPLETED

Below the table are two buttons: "OK" and "Ignore".

Sanjeet Singh

CIF Number	PTY Number	First Name	Last Name	Customer Type	DOB	Contact Number	ID/Registration Number	Status
100012		Sanjeet	Kumar	I	10-01-1990	0988056009		IN-PROGRESS

Below the table are two buttons: "OK" and "Ignore".

At the bottom right of the window are two buttons: "Cancel" and "Submit".

For more information on fields, refer to the field description table below.

Table 9: De-Dupe Results – Field Description

Field	Description
CIF Number	Displays the CIF Number.
PTY Number	Displays the PTY Number.
First Name	Displays the First Name.
Last Name	Displays the Last Name.
Customer Type	Displays the Customer Type.
DOB	Displays the Date of Birth.
Contact Number	Displays the Contact Number.
ID/Registration Number	Displays the Registration number.
Status	Displays the Status of the De-Dupe check.

The dedupe check result will be displayed within a grid and the user will have to select the relevant row with the following options:

- **OK** - If the user selects a row in the grid and clicks **OK**, the selected customer record data will be considered and it replaces the New Customer Details captured in the **Customer Information** data segment.
- **Ignore** - If the user does not want to select any row in the grid and clicks **Ignore**, the New Customer Details captured will be persisted and taken into the **Customer Information** data segment.
- **Submit** – If the user wants to submit the selected actions on the dedupe results, clicks **Submit**. This will take the user to the next data segment by performing the selected actions.
- **Cancel** - If the user wants to cancel any action which needs to be taken on the Dedupe results, click **Cancel**. This will take the user back to the **Customer Information** data segment without any change in the data of the earlier captured New Customer details.

3.1.2 Account Details

The Account Details data segment displays the account details.

To add account details:

1. Click **Next** from the previous data segment to proceed with next data segment, after successfully capturing the data.

→ The **Account Details** screen appears.

Figure 9: Account Details

The screenshot shows the 'Account Details' screen for a 'Savings Account' with the business product name 'Regular Savings Account'. The interface includes a sidebar with navigation links and a main content area with various form fields. Key fields include 'Account Branch' (006), 'Account Currency' (GBP), 'Application Date' (05/10/2018), and 'Overdraft Requested' (checked). Item Name	Specify the item name of the supplier.
Quantity	Specify the quantity of the item.
Supply Frequency	Specify the supply frequency.
Start Date – End Date	Select the start and end date for the supplier.
Add Supply Details	Click this button to add new supply details.
	Click this icon to delete the row.

4. To onboard the New Customers, disable the Existing Customer toggle. By Default, the Existing Customer is enabled.

→ The **Customer Onboarding** screen is displayed.

Figure 16: Customer Onboarding

5. Select the appropriate option from the **Customer Category** list.

- If you select **Individual** option to onboard individual type of customer, refer field description table and procedure from **3.1.1.1 For Individual Customer Type** of **Customer Information** data segment.
 - If you select **Small and Medium Business** option to onboard small and medium business type of customer, refer field description table and procedure from **3.1.1.2 For Small and Medium Business Customer Type** of **Customer Information** data segment
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

On submission of Application Entry stage, Stakeholder Onboarding request gets initiated for the new customers.

The request for New Stakeholder Onboarding is addressed by the underlying API call, which also generates the New Party reference number, thereby circumventing the usual process of generating a Unique Process reference number / Task.

3.1.6 Mandate Details

The Mandate Details data segment allows to capture the mode of operation for the account.

To capture the mandate details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Mandate Details** screen is displayed.

Figure 21: Error Message

- Click **Yes** to proceed with the next data segment. Click **No** to edit financial details and proceed.

3.1.8 Collateral Details

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit. Collateral details will be sent to the host to be made available under

local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

The user can acquire the application from Free Tasks list.

To add collaterals details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add Collateral** to capture the collateral details.

→ The **Collateral Details** screen is displayed.

Figure 22: Collateral Details

3. If the **Collateral Type** is selected as **Term Deposit**, the below **warning message** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit.

→ The **Warning** screen is displayed

Figure 23: Warning

4. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 20: Collateral Details - Field Description

Field	Description
Primary Collateral	Specify the primary collateral.
Collateral Type	Select the collateral type. Available options are: • Property • Guarantee • Vehicle • Precious Metal • Deposits • Bonds • Stocks • Insurance • Accounts Receivable • Inventory (Stock of Material)
Category	Select the collateral category. Available options are: If Collateral type is selected as Property • Residential Property • Vacant Land • Under Construction If Collateral type is selected as Guarantee • Personal Guarantee • Guarantee and Indemnity • Government Guarantee

Field	Description

4. Click **Save** to save the guardian details.

3.1.10 Terms and Conditions

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

To capture terms and conditions:

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Term and Conditions** screen appears.

Figure 26: Term and Conditions

2. Click  to view the term and conditions.
3. In the **Customer Consent across Products** section, select to capture the customer consents.
4. In the **Term and Conditions for Saving Application** section, select to accept the product level term and conditions.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data:

3.1.11 Summary

The Summary displays the tiles for all the data segments in the Application Entry stage. The tiles display the important details captured in the specified data segment.

To view the summary of all data segment

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 27: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 23: Summary - Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays the customer information details
Customer Consents and Preference	Displays the customer consents and preferences.
Relationship	Displays the relationships.

Data Segment	Description
Stake Holder Details	Displays the Stake Holder details This data segment appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral details.
Nominee Details	Displays the nominee details.
Term and Conditions	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Saving Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

NOTE:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

NOTE:

- If an application is returned back to Application Entry stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting Application Entry stage. User has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

3.2 Debit Assessment

In the process of account opening of saving product this stage appears if the Know Your Customer (KYC) is not completed for the applicants involved in the applications.

This stage appears in following conditions:

- The applicant is new.
- Existing customer but the KYC stage is not completed.
- Existing customer but the KYC stage is Referred.

To open Debit Assessment task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Debit Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.2.1 Bureau Information

In this data segment user can view the bureau information of application and status of all the applicants that are involved in the application.

1. On acquiring the **Debit Assessment** task, the **Bureau Information** data segment appears and call to bureau service is initiated for display the bureau information related to application and applicants.

→ The **Bureau Information** screen appears.

Figure 28: Bureau Information

The screenshot shows the 'Bureau Information' screen for application 006APP000028623. The interface includes a top navigation bar with tabs for Application Info, Customer 360, Remarks, Documents, and Advises. The left sidebar has 'Bureau Information' and 'Summary' tabs. The main content area shows the 'Application Decision' as 'Referred'. Below this, there are two applicant cards. The first card is for Sara F Ellis, with a 'Decision' of 'Approved' and a 'Reason' field. The second card is for Tim G Burke, with a 'Decision' of 'Referred' and a 'Reason' field. Each card also displays the applicant's date of birth and contact information.

Refer below table for detailed information on each sections.

Table 24: Bureau Information

Field	Description
Application Decision	Displays the application decision status. This status appears based on the debit assessment of the applicants as below: • Referred – If KYC status of any applicant is Referred. • Approved: - If KYC status of all the applicants are Approved. • Declined: - If KYC status of any applicant is Declined

Field	Description
	• Not Initiated: If KYC status of any applicants is KYC Non Compliant. This status appears for new applicants.
Applicants tile	In this section below fields appear with the captured information in the Application Entry stage: • <Name of applicant> • Date of Birth <yyyy/mm/dd> • Mobile Number, Email ID and Phone Number as Contact details • Decision as Approved, Referred or Declined • Reason for the decision

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data:

3.2.2 Summary

The Summary displays the tiles for all the data segments in the Debit Assessment stage. The tiles display the important details captured in the specified data segment.

To view the summary and submit the task:

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 29: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 25: Summary - Field Description

Data Segment	Description
Bureau Information	Displays the bureau information details.

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.3 Overdraft Limit Details

Users having functional access to the Overdraft Limit Details stage will be able to view the record in the Free Task process.

NOTE: This stage is not applicable for **SMB Customers**.

To add overdraft limits:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Overdraft Limit Details** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.3.1 Account Limit Details

The Account Limit Details allows to update the overdraft limit requested by the customer.

To add account limit details:

1. On acquiring the **Overdraft Limit Details** task, the **Account Limit Details** data segment appears.

Figure 30: Account Limit Details

2. Click **Add Overdraft** to capture the overdraft limits.
3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 26: Account Limit Details – Field Description

Field	Description
Limit Type	Select the limit type from the drop-down list. NOTE: System defaults the same limit type for the subsequent overdraft details added.
Branch	Specify the branch code where the account limit is configured.
Linkage Reference	Select the linkage reference number from the dropdown list.
OD Limit Amount	Select the currency and specify the overdraft limit amount for the account.

Field	Description
Date Range	Select the date range within when the account limit is valid.
Available Linkage Amount	Specify the available linkage amount of the collateral.
Linked Amount	Select the currency and specify the linked amount.
Linkage Currency	Displays the linkage currency.
Rate Type	Displays the rate type as per the limit type is selected The available options are: • Fixed • Floating
Rate Code	Displays the rate code. This field appears only for Floating rate type.
Base Rate	Displays the base rate. This field appears only for Floating rate type.
Rate of Interest	Displays the rate of interest. This field appears only for Fixed rate type.
Variance	Specify the variance. This field appears only for Fixed rate type.
Margin	Specify the margin. This field appears only for Floating rate type.
Final Rate	Displays the effective rate calculated and based on the below parameters: • Rate Value and the Margin for floating rate type.

Field	Description
	• Rate of Interest and the Variance for fixed rate type.

4. Click **Add Overdraft** to capture the multiple overdraft limits.

OR

Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.3.2 Collateral Details

Collateral details is a data segment to capture the collateral which is offered by the customer as security for Overdraft limit

To add collateral details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.

→ The **Collateral Details** screen is displayed.

Figure 31: Collateral Details

The screenshot shows the 'Collateral Details' screen for account 006APP000041359. The form is divided into several sections:

- Collateral Details Summary:** Collateral Description: test collateral; Collateral Type: Property; Category: Residential Property; Collateral Value: GBP 20,000.00; Owners: MS Porter Herzog.
- Primary Collateral:** A section with a 'Primary Collateral' checkbox and a 'Collateral Type' dropdown set to 'Property'.
- Purchase Property:** A section with a 'Purchase Property' checkbox.
- Collateral Value:** Fields for 'Collateral Value' (GBP 20,000.00) and 'Collateral Amount To Be Considered' (GBP 10,000.00).
- Property Location:** Fields for 'Address Line 1' (Lonnie Glen), 'Address Line 2' (Koss Plains), 'Address Line 3' (test), 'Country' (GB), and 'Zip Code / Post Code' (252525).
- Collateral Ownership Details:** A section with a 'Collateral Ownership Type' dropdown set to 'Single'.
- Ownership Table:** A table with columns 'Select', 'Customer Name', 'Ownership Percentage', and 'Remarks'. It shows one entry for 'MS Porter Herzog' with 100% ownership and the remark 'remarks'.

At the bottom, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

Table 27 : Collateral Details

Field	Description
Primary Collateral	Specify the primary collateral.
Collateral Type	Select the collateral type. Available options are: • Property • Guarantee • Vehicle • Precious Metal • Deposits • Bonds • Stocks

Field	Description
	• Insurance • Accounts Receivable • Inventory (Stock of Material)
Category	Select the collateral category. Available options are: If Collateral type is selected as Property • Residential Property • Vacant Land • Under Construction If Collateral type is selected as Guarantee • Personal Guarantee • Guarantee and Indemnity • Government Guarantee • Family Guarantee If Collateral type is selected as Vehicle • Passenger Vehicle • Commercial Vehicle If Collateral type is selected as Precious Metal • Precious Metal If Collateral type is selected as Deposits • Term Deposit • Recurring Deposit If Collateral type is selected as Bonds • Secured Bonds • Unsecured Bonds • Investment Bonds If Collateral type is selected as Stocks • Domestic Stock If Collateral type is selected as Insurance • Life Insurance

Field	Description
	If Collateral type is selected as Accounts Receivable • Bill Receivable • Trade Receivable If Collateral type is selected as Inventory (Stock of Material) • Stock of Raw Materials • Finished Goods • Packaging Materials
Collateral Branch	Displays the branch of the collateral.
Term Deposit Number	Select the Term Deposit Number from the list. NOTE: The Term Deposit which has crossed the maturity date and the “Allow Collateral Linkage” disabled, will not appear in the list.
Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	Specify the type of guarantee. This field appears only if the collateral type is Guarantee.
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.

Field	Description
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)

Field	Description
Collateral Description	Specify the collateral description.
Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Displays the actions that you can perform on the added collateral.  - Click delete to delete the added collateral.  - Click down arrow to view the collateral details.
Total Collateral Value	Displays the total value of collateral. NOTE: This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. NOTE: This field will be auto updated based on the number of collaterals.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.3.3 Temporary Overdraft Limit

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

→ The **Unsecured Temporary Overdraft Limit Details** screen is displayed.

NOTE: User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 32: Unsecured Temporary Overdraft Limit Details

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 28: Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.

Field	Description
Limit Start Date	Select the limit start date.
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: • Days • Months • Year
Next Limit Amount	In case of TOD renewal is allowed, specify the renewal amount.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data

3.3.4 Advance against Uncollected Funds

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

→ The **Advance against Uncollected Funds** screen is displayed.

Figure 33: Advance against Uncollected Funds

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 29: Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.
Request Clarification	Click Request Clarification to raise a new clarification request. The system allows placing a request for clarification that is needed from

Field	Description
	the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.

4. Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.3.5 Summary

The Summary displays the tiles for all the data segments in the Overdraft Limit stage. The tiles display the important details captured in the specified data segment.

To view the summary of the stage:

1. Click **Next** in the previous data segment screen to proceed with next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 34: Summary

The screenshot displays the 'Summary' screen for 'Overdraft Limit Details - 006APP000041359'. The interface includes a sidebar with navigation links: Account Limit Details, Collateral Details, Advance Against Uncoll..., Temporary OD Limit De..., and Summary (which is highlighted). The main content area shows four summary tiles, each with a green checkmark indicating successful capture:

- Account Limit Details:** Limit Type: Collateral, Linkage Reference: OFLOCOL000005799, Linked Amount: GBP5000, OD Limit Amount: GBP60000.
- Collateral Details:** Collateral Type: Property, Collateral Category: Residential Property, Collateral Value: GBP 20000, Hair Cut %: 5.
- Advance Against Uncollecte...:** Limit ID: Abc56, Currency: GBP, Limit Amount: 5000, Limit Start Date: 2018-05-30.
- Temporary OD Limit Details:** Temporary OD Limit ID: H0054, Currency: GBP, Limit Amount: 5000, Limit Start Date: 2018-05-30.

At the bottom of the screen, there are buttons for 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Submit'. The top right corner shows 'Screen(5/5)'.

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 30: Summary Overdraft Limit- Field Description

Data Segment	Description
Account Limit Details	Displays the account limit details.
Collateral Details	Displays the collateral details.
Temporary Overdraft Limit	Displays the temporary overdraft limit.

Data Segment	Description
Advance against Uncollected Funds	Displays the advance against uncollected funds.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

- Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- Click **Save & Proceed**. The **Outcome** screen is displayed.

- In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Overdraft Limit Details** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

- Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.

- Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Application Enrichment stage. This application

will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Account Parameter Setup** stage.

If the selected **Collateral Type** is other than Term Deposit in **Collateral Details** data segment, and the **Fund the account** toggle is OFF in the **Product Details** data segment, the submit of the Application Enrichment stage will move the application into the **Underwriting** stage.

If the **Fund the Account** toggle is ON in the **Product Details** data segment, the submit of the Application Enrichment stage, will move the application to **Account Funding** stage.

3.4 Application Enrichment Stage

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Enrichment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.4.1 Interest Details

The Interest Details data segment displays the interest applicable for the account.

To add interest details:

1. On acquiring the Application Enrichment task, the Interest Details data segment appears.

Figure 35: Interest Details

The screenshot shows a web application window titled "Application Enrichment - 006APP000054924". On the left is a sidebar menu with options: Interest Details (selected), Charge Details, Account Service Preference, Advance Against Uncollateralized, Temporary OD Limit Details, and Summary. The main area is titled "Interest Details" and contains an "Interest Rate" section with four input fields: "Interest Rate (in %)" with value 3.5, "Margin (in %)" with value 5, "Effective Rate (in %)" with value 8.5, and "APY (in %)". Below these fields is a "Calculate APY" button. At the bottom right of the form are buttons for "Cancel", "Request Clarification", "Save & Close", and "Next".

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 31: Interest Details - Field Description

Field	Description
Interest Product Name	Displays the interest product name attached to the host product linked with the business product.
Payout Frequency	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
Interest Rate	Displays the interest rate applicable for the account.
Margin (%)	Select the margin in percentage.
Final Rate	Displays the final rate calculated based on the Interest Rate and the Margin specified.

Field	Description
APY (in %)	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY, Annual Percentage Yield = $(1 + \text{Interest Rate} \div \text{The number of Compounding in a year}) ^ (\text{Number of compounding in a year}) - 1$ This is applicable for the Credit Interest
APR	Display the annual percentage rate value. This is applicable for debit interest.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data

3.4.2 Charge Details

The Charge Details data segment displays the details of the charges applicable for the account.

To view charge details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Charge Details** screen is displayed.

Figure 36: Charge Details

2. Specify the details in the relevant data fields, for more information on fields, refer to the field description table below.

Table 32: Charge Details - Field Description

Field	Description
Charge Type	Displays the charge type of the charge name.
Amount	Displays the charge amount.
Waive	Select the toggle to enable the waiving charges.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

4. Click **Slab Details** to view the slab details. For more information on fields, refer to the field description table below.

Table 33: Slab Details - Field Description

Field	Description
Slab Amount	Displays the slab amount.
Charge Amount	Displays the charge amount.
Charge Rate	Displays the charge rate.

3.4.3 Account Service Preferences

The Account Service Preferences data segment allows to capture account service preferences.

To set account service preference:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Account Service Preferences** screen is displayed.

Figure 37: Account Service Preferences

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 34: Account Service Preferences - Field Description

Field	Description
Account Related Preferences	Select preferences for account statement.
Account Statement	Select to indicate if account statement is the preference. Available options are: • E-mail • Post In case of joint applicant involved in an application, if the any of an applicant has opted for e-sign options then the system by default select the EMAIL option. Select the frequency from the drop-down list. Available options are: • Monthly • Quarterly • Bi-Annual • Annual
Cheque Book	Select to indicate if cheque book is required.
Passbook	Select to indicate if passbook is required.
<Customer / Business Name along with image>	Displays the name of the customer or business in the header along with the image
Date Of Birth	Displays the date of birth of the customer in the header. This field appears only if the Customer Type is selected as Individual.
Date of Incorporation	Displays the date of incorporation of the business. This field appears only if the Customer Type is selected as Small and Medium Business (SMB).

Field	Description
E-mail	Displays the e-mail id of the customer in the header.
Mobile	Displays the mobile number of the customer in the header.
Banking Channel Preferences	Select the specified preferences for Banking Channel. The channel options appears based on the Business Product configuration.
Phone Banking	Select to indicate if phone banking subscription is required.
Direct Banking	Select to indicate if direct banking subscription is required.
Kiosk Banking	Select to indicate if Kiosk banking subscription is required.
Debit Card	Select to indicate if debit card is required.
Communication Channel Preferences	Select the specified preferences for Communication Channel.
E-mail	Select to indicate if e-mail is the communication channel subscription.
Post	Select to indicate if post is the communication channel subscription.
SMS	Select to indicate if SMS is the communication channel subscription.
Select Preference	Select the communication channel from the drop-down to specify your preferred option among the selected options.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

The Banking Channel Preferences and Communication Channel Preferences are to be updated for all the Applicants of the account.

3.4.4 Advance against Uncollected Funds

The Advance against Uncollected Funds data segment displays the configuration required for advance against uncollected fund to be provided to the account.

To add uncollected funds details:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add AUF Details** to capture the Advance Against Uncollected Funds.

→ The **Advance against Uncollected Funds** screen is displayed.

Figure 38: Advance against Uncollected Funds

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 35: Advance against Uncollected Funds – Field Description

Field	Description
Limit ID	Specify the advance against uncollected funds limit ID.
Limit Amount	Select the currency and specify the AUF limit amount.
Limit Date Range	Select the limit date range.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.4.5 Temporary Overdraft Limit

The Temporary Overdraft Limit data segment displays the configuration required for temporary overdraft limit to be provided to the account.

To add temporary overdraft limit:

1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.
2. Click **Add TOD Details** to capture the Temporary Overdraft Limit Details.

→ The **Unsecured Temporary Overdraft Limit Details** screen is displayed.

NOTE: User can move to the next data segment without capturing the Temporary Overdraft Limit Details.

Figure 39: Unsecured Temporary Overdraft Limit Details

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 36: Temporary Overdraft Limit – Field Description

Field	Description
Temporary OD Limit ID	Specify the temporary overdraft limit ID.
Temporary Overdraft Limit Amount	Select the currency and specify the temporary overdraft limit amount.
Limit Start Date	Select the limit start date.

Field	Description
Limit End Date	Select the limit expiry date.
Renew TOD	Select to indicate if temporary overdraft limit is to be renewed.
Renew Period	In case of TOD renewal is allowed, select the period from the drop-down list. Available options are: • Days • Months • Year
Next Renewal Amount	In case of TOD renewal is allowed, specify the renewal amount.

- Click Next to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.4.6 Summary

The Summary displays the tiles for all the data segments in the Application Enrichment stage.

The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Advance Against Uncollected Funds Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 40: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 37: Summary - Field Description

Data Segment	Description
Interest Details	Displays the interest details
Charge Details	Displays the charge details.

Data Segment	Description
Account Service Preferences	Displays the account service preferences details.
Temporary Overdraft Limit	Displays the temporary overdraft limit.
Advance against Uncollected Funds	Displays the advance against uncollected funds.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

- Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Enrichment Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Account Funding Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Overdraft Limit Details** to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in **Free Task** to acquire and edit.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Offer Issue on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

3.5 Account Funding Stage

Users having functional access to the Account Funding stage will be able to view the record in the Free Task process.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.5.1 Initial Funding Details

The Initial Funding Details data segment displays the Initial Funding details captured in the Application Entry stage. The Transaction Reference Number and the Transaction Status is either auto-populated or has to be manually captured based on the configuration. Automatic option is supported only for the Initial Funding with 'Cash' mode. Manual process is supported for Account Transfer, Other Bank Cheque and Cash mode of initial funding.

For more details on the Modes and the Manual/Automatic Process configuration, please refer to the Configurations Guide.

To add initial funding details:

1. On acquiring the **Account Funding** task, the **Initial Funding Details** data segment appears.

Figure 41: Initial Funding Details

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 38: Initial Funding Details - Field Description

Field	Description
Fund the Account	Displays the Fund the Account selected in the Account Details Data Segment in Application Entry stage.
Fund By	Displays the Fund by option selected in the Account Details Data Segment in Application Entry stage.

Field	Description
Amount	Displays the amount of the initial funding updated in the Account Details data segment in Application Entry stage.
Value Date	Displays the value date of the initial funding updated in the Account Details data segment in Application Entry stage.
Account Number	Displays the account number for the initial funding transaction which was selected in the Account Details data segment of the Application Entry stage This field appears only if the Fund By is selected as Account Transfer .
Account Name	Displays the account name for the selected account number. This field appears only if the Fund By is selected as Account Transfer
Cheque Number	Display the cheque number.
Cheque Date	Displays the cheque date.
Bank Name	Displays the bank name. This field is applicable only if the Fund By is selected as "Other Bank Cheque".
Branch Name	Displays the Branch name. This field is applicable only if the Fund By is selected as "Other Bank Cheque".
Cheque Routing Number	Displays the cheque routing number. This field is applicable only if the Fund By is selected as "Other Bank Cheque".

Field	Description
GL Account Number	Displays the GL account number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
GL Account Description	Displays the GL account description for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction Reference Number	Displays the transaction reference number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
Teller Transaction Status	Displays the status of the teller transaction. NOTE: The status of the teller transaction should be 'Success' for the submission of the Account Funding stage.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.5.2 Summary

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Initial Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 42: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 39: Summary - Field Description

Data Segment	Description
Account Details	Displays the account details.
Initial Funding Details	Displays the initial funding details

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here.

Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Account Funding Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Underwriting**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Overdraft Limit Details** to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in **Free Task** to acquire and edit.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

3.6 Underwriting

The underwriting process of the lender bank is set to determine if the overdraft application is an acceptable risk. It is a process to assess the borrower's ability to repay the overdraft based on an analysis of their credit, financial capacity, and collateral provided by the borrower.

The Underwriting stage is the next representative stage in the Saving Account Open process. After the Application Enrichment / Account Funding stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.6.1 Credit Rating Details

Credit Rating Details is the first data segment of **Underwriting** stage. The user can acquire the application from Free Tasks list. This data segment will provide the information on the External Rating Agencies Rating / Scores for the Applicant. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided.

Oracle Banking Origination is integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

1. Click **Acquire & Edit** in the **Free Tasks** screen for the application for which Underwriting stage has to be acted upon.

→ The **Credit Rating Details** screen is displayed.

Figure 43: Credit Rating Details

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 40: Credit Rating Details – Field Description

Field	Description
Customer Name	Displays the customer name.
Agency Name	Displays the configured agency.

Field	Description
Rating	Displays the ratings. System populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

3. Click **View More** to view the additional Credit Bureau details.

→ The **Additional Credit Bureau Details** screen is displayed.

Figure 44: Additional Credit Bureau Details

Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
FIRST FEDERAL SAVINGS	0019888010777	Loan	100000	86820	2020-01-07	2162	NIL	NIL
HSBC/CARSN	001901000999	Overdraft	22000	0	2019-06-07	0	NIL	NIL

OK

For more information on fields, refer to the field description table below.

Table 41: Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.

Field	Description
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

- Click **View Bureau Report** to view and download the bureau report from the external agency.

3.6.2 Valuation Details

Valuation Details is the next data segment of **Underwriting** stage. This segment enables the user to capture the information on the asset valuation done by the bank approved valuator.

- Click **Next** in **Credit Rating Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Valuation Details** screen is displayed.

Figure 45: Valuation Details

The screenshot displays the 'Valuation Details' screen within the Oracle Banking Origination system. The interface includes a top navigation bar with the application title 'Underwriting - 006APP000043410' and various utility icons. A left-hand sidebar contains a menu with 'Valuation Details' selected. The main content area is a form titled 'Valuation Details' with the following fields and values:

- Collateral Description:** test collateral
- Collateral Type:** Property
- Category:** Residential Property
- Collateral Value:** GBP 20,000.00
- Owners:** DR Samir Feeney
- Collateral ID:** OFLOC000006369
- Collateral Description:** test collateral
- Liability ID:** 000023875
- Liability Description:** Liability for Samir Feeney
- Hair Cut %:** 5
- Collateral Amount:** GBP 19,000.00
- Valuation Type:** External (dropdown)
- Valuation Amount:** GBP 60,000.00
- Agency Code:** FORT12
- Agency Name:** Tata Agency
- Valuation Date:** March 30, 2018

At the bottom of the form area is a '+ Add Valuation' button. The bottom of the screen features a navigation bar with buttons: 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

Table 42: Valuation Details – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are • External • Internal
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.

Field	Description
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Application Date.
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3.6.3 Legal Opinion

Legal Opinion is the next data segment of **Underwriting** stage. This segment allows the user to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

1. Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Legal Opinion** screen is displayed.

Figure 46: Legal Opinion

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

Table 43: Legal Opinion – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.

Field	Description
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owner's name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Opinion Type	Select the opinion type. Available options are: • External • Internal
Agency Code	Specify the agency code.
Agency Name	Specify the agency name.
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date.
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3.6.4 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 47: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on tiles, refer to the field description table below.

Table 44: Summary Underwriting – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.

4. Click **Save & Proceed**. The **Outcome** screen is displayed.

The **Select an Outcome** has following options for this stage:

- Select **Proceed** outcome from the drop-down list. It will logically complete the Underwriting stage for the Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Application Assessment. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code
 - Select the **Return to Initial Funding Stage** to make Account Funding Stage available in free task for edit.
 - Select the **Return to Overdraft Limit Details** to make Overdraft Limit Details stage available in free task.
 - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.
 - Select the **Reject by bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
5. Click **Submit** to submit the **Underwriting** stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 6. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

3.7 Application Assessment Stage

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

The Assessment stage enables the bank to assess the Overdraft Limit request of the customer and based on the Assessment Score the User can decide on granting the Overdraft Limit for the Saving Account being originated. System derives the recommendation based on the total weightage score. The total weightage score is calculated based on the parameters configured in the Scorecard Model.

Similarly, the Qualitative Score is calculated based on the answers provided to the questionnaire

To assess the saving application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

3.7.1 Qualitative Scorecard

The **Qualitative Scorecard** screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

The relevant qualitative score card ID derived for to the Saving Account Business Product and thereby the Saving Account inherits the score card attributes for evaluation.

1. Click **Acquire & Edit** in the **Free Tasks** screen of the previous stage for the application for which Application Assessment stage has to be acted upon.

→ The **Qualitative Scorecard** screen is displayed.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.7.2 Assessment Details

The **Assessment Details** Data Segment displays the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Saving Account with Overdraft. **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- **Validation Model**
 - **Borrowing Capacity**
 - **Qualitative Score**
 - **Quantitative Score**
 - **Decision & Grade**
 - **Pricing**
1. Click **Next** in the previous data segment to proceed with next data segment, after successfully capturing the data.

→ The **Assessment Details – Validation Model** screen is displayed.

Figure 49: Assessment Details – Validation Model

The screenshot displays the 'Assessment Details' screen for a specific application (006APP000057626). The interface includes a sidebar with 'Qualitative Scorecard' and 'Assessment Details' tabs. The main content area shows the following details:

- Requested Amount:** GBP 50,000.00
- Tenure:** 0 Years 0 Months 1 Days
- Base Rate:** 8.25
- Margin:** 0
- Total Weighted Score:** 88
- Approved Amount:** ----
- Proposed Margin:** 0.50
- Effective Rate:** 8.75
- System Recommendation:** ManualQueueA
- Grade:** B
- APR:** ----

Below these, a summary row shows:

- Validation Model:** PASS
- Borrowing Capacity:** 69000.00
- Qualitative Score:** 64
- Quantitative Score:** 88
- Decision & Grade:** ManualQueueA Grade : B
- Pricing:** 0.5 %

A detailed view of the Validation Model shows:

- Validation Model Code:** L.MCA100
- Description:** Logical Model for Current Account
- Status:** PASS

A table at the bottom lists rules:

Rule ID	Sequence	Status	Severity

8. Click **Pricing** tab under **Assessment Details** screen to view the pricing for the application.

→ The **Assessment Details – Pricing** screen is displayed.

Figure 56: Assessment Details – Pricing

The screenshot displays the 'Assessment Details - Pricing' screen for application 006APP000047414. The interface includes a top navigation bar with tabs for Application Info, Customer Info, Remarks, Documents, Actions, and Help. The main content area is divided into several sections: 'Assessment Details' with fields for Requested Amount (100,000.00), Tenure (2 Years 0 Months 0 Days), Rate of Interest (4.50), and Variance (0); 'Total Weighted Score' (85), 'Approved Amount', 'Proposed Variance' (0.22), and 'Effective Rate' (4.72); 'System Recommendation' (Manual/Queue), 'Grade' (B), and 'APR' (---); and a 'Validation Model' section showing a 'Borrowing Capacity' of 45029910.00, 'Qualitative Score' of 84, 'Quantitative Score' of 85.75, 'Decision Grade' of Manual/Queue, 'Grade' of B, and 'Pricing' of 0.22 %. The bottom of the screen features buttons for Audit, Cancel, Request Certification, Back, Save & Close, and Next.

For more information on fields, refer to the field description table below.

Table 46: Assessment Details – Field Description

Field	Description
Requested Amount	Specify the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base type. This field appears if the rate type is Floating .
Rate of Interest	Displays the rate of interest. This field appears if the rate type is Fixed .
Margin	Displays the margin. This field appears if the rate type is Floating .
Variance	Displays the variance. This field appears if the rate type is Fixed .

Field	Description
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount.
Proposed Margin	Displays the proposed margin. NOTE: This field appears only for Floating rate type.
Proposed Variance	Displays the proposed variance. This field appears if the rate type is Fixed .
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations. Available options are: • Approved • Manual • Rejected
Grade	Displays the grade of the applicant.
APR	Displays the annual percentage rate value.
Validation Model	
Validation Model Code	Displays the validation model code configured for the product.
Description	Displays the description of the configured validation model.
Status	Displays the overall status of the validation model.
Rule ID	Displays the Rule ID configured in the validation model.
Sequence	Displays the sequence of the configured rules.
Status	Displays the status of the configured rule.

Field	Description
Borrowing Capacity	
Eligibility Code	Displays the unique eligibility code configured for the product.
Eligibility Description	Displays the description of the configured eligibility.
Requested Amount	Displays the requested card limit. If the calculated Borrowing Capacity is more than the Requested Amount, then Approved Amount is stamped to Requested Amount.
Borrowing Capacity	Displays the calculated borrowing capacity of the applicant.
Fact	Displays the fact configured in the eligibility code.
Rule ID	Displays the rule configured in the eligibility code.
Qualitative Score	
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Application Score	Displays the overall application score for the applicant(s). The application score also appears in the respective applicant's tab in case of the multiple applicants.
Qualitative Score - Scoring Details	
Question Code	Displays the question code configured for Qualitative Scoring Model
Question	Displays the question configured in question code.
Value	Displays the answers provided by the applicant.
Score	Displays the calculated score based on the answers.

Field	Description
Quantitative Score	
Scoring Model Code	Displays the scoring model code configured for the product.
Description	Displays the description of the scoring model.
Weightage Score	Displays the overall weightage score for the applicant(s). The weightage score also appears in the respective applicant's tab in case of the multiple applicants.
Quantitative Score - Scoring Details	
Feature	Displays the feature configured in the Quantitative Scoring Model.
Value	Displays the value of the application for the configured feature.
Range Type	Displays the range type configured in the Quantitative Scoring Model.
Range	Displays the range for the value of the application.
Weightage %	Displays the weightage percentage configured for the feature.
Score	Displays the score configured for the range.
Weightage Score	Displays the calculated weightage for each feature.
Decision & Grade	
Model Code	Displays the model code configured for the product.
Model Description	Displays the description of the model code.
Decision	Displays the recommended decision for the application.
Grade	Displays the recommended grade for the application

Field	Description
Decision & Grade – Decision	
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Decision	Displays the decision configured for the quantitative score.
Decision & Grade – Grade	
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Pricing	
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

3.7.3 Summary

The Summary displays the tiles for all the data segments in the Application Assessment stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Assessment Details** screen to proceed with next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 57: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 47: Summary Assessment – Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.
Cancel	Click Cancel to close the application without saving.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed

Checklist configured in the business process for the business product is displayed here.

Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
4. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - It will logically complete the **Application Assessment** stage for the saving application if the system recommendation is **Approved**. The Workflow Orchestrator will automatically move this application to the **Account Parameter Setup** stage.
 - If the system recommendation is **Manual** then, the Manual Credit Assessment stage is generated for this saving application.
 - If the system recommendation is **Rejected** then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
5. Click **Submit**. The **Confirmation** screen is displayed.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed. Click on '**Close**' to close the pop-up screen. Alternatively click on '**Go to Free Task**' to launch the **Free Task** menu. If you have access to the next stage, you would be able to view the Application number and take action on it.

6. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application

3.8 Manual Credit Assessment Stage

The Manual Credit Assessment stage of the saving account (with overdraft) opening process workflow will enable the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from Underwriting Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Assessment** stage is displayed.

The Manual Assessment stage has the following data segments in which the user can only view the data:

- **Credit Rating Details** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

3.8.1 Manual Assessment

Manual Assessment is the data segment which enables the bank user to modify the account details and recommend for the approval / reject the saving account application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

To preform manual assessment:

1. Click **Acquire & Edit** in the **Free Tasks** screen of the previous stage – Application Assessment stage.

→ The **Manual Assessment** screen is displayed.

Figure 58: Manual Assessment

Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount. NOTE: This field will be blank for Manual Assessment.
Proposed Margin	Displays the proposed variance. NOTE: This field appears only for Floating rate type.
Proposed Variance	Displays the proposed variance. This field appears if the rate type is Fixed .
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Specify the recommended loan amount.
Final Tenure	Specify the final loan tenure.
Recommendation	Select the recommendations. Available options are: • Recommended for Approval • Reject
Comments	Specify the comment for the recommendation.

Field	Description
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.8.2 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary Manual Credit Assessment** screen is displayed.

Figure 59: Summary Manual Credit Assessment

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 49: Summary Manual Credit Assessment – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Manual Assessment	Displays the Manual assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list.
It will logically complete the **Manual Credit Assessment** stage for the Saving Account (with overdraft) Application. The workflow will automatically move this application to the next processing stage, **Manual Credit Decision** stage.
The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
7. Enter the remarks in **Remarks**.
8. Click **Submit** to submit the manual credit assessment. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
9. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Manual Credit Decision stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application

3.9 Manual Credit Decision Stage

Manual Credit Decision stage of the saving account (with overdraft) opening process workflow will enable the bank to make the decision on whether the recommended overdraft limit can be approved to the applicant.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Decision** stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

3.9.1 Manual Decision

Manual Decision is the first data segment of Manual Credit Decision stage. The user can acquire the application from Free Tasks list.

1. Click **Acquire & Edit** in the **Free Tasks** screen of the previous stage – Manual Credit Assessment stage.

→ The **Manual Decision** screen is displayed.

Figure 60: Manual Decision

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below. Refer to **Assessment Details** screen for the detailed explanation of Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade and Pricing tabs.

Table 50: Manual Decision – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the base rate. NOTE: This field appears only for Floating rate type.

Field	Description
Margin	Displays the margin. NOTE: This field appears only for Floating rate type.
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount. This field appears blank by default. If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Proposed Margin	Displays the proposed margin. NOTE: This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments.
System Recommendation	Displays the system recommendations.
Recommendation	Select the recommendation. Available options are • Approve • Decline If the approver selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Action	Displays the user action based on user recommendation.

Field	Description
Comments	Specify the comment on the user action.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.9.2 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

4. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select the **Proceed** to proceed with the application. It will logically complete the Manual Credit Decision stage for the Saving Account (with overdraft) Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Parameter Setup stage.
The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Return to Manual Credit Assessment Stage** to make underwriting stage available in free task
6. Click **Submit**. The **Confirmation** screen is displayed.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Account Parameter Setup stage. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

3.10 Account Parameter Setup Stage

The Account Parameter Setup stage is the next representative stage in the Saving Account Open process. After the Application Assessment / Manual Credit Decision stage is completed successfully, the user who has the access rights for the given stage, can acquire the application and progress with the data capture. The user can acquire the application from Free Tasks list.

The Account Parameter Setup stage has the following reference data segments:

- **Interest Details** – This data segment is editable. For detailed information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details** - This data segment is editable. For detailed information, refer the Charge Details data segment in the Application Enrichment stage.
- **Advance against Uncollected Funds** - This data segment is editable. For detailed information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit stage.
- **Temporary Overdraft Limit**- This data segment is editable. For detailed information, refer Temporary Overdraft Limit data segment in the Overdraft Limit stage.
- **Account Service Preferences** - This data segment is editable. For detailed information, refer Account Service Preference data segment in the Overdraft Limit stage.
- **Account Limit Details** - This data segment is ready only. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.

All the data segments are carried forward from Application Enrichment stage. If the details are captured in Application Enrichment stage, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

3.10.1 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Summary Account Parameter Setup** screen is displayed.

4. Click **Save & Proceed**. The **Outcome** screen is displayed.

5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list. It will logically complete the **Supervisor Application Approval** stage for the Saving Application. The Workflow Orchestrator will automatically move this application to the next processing stage.

If the Supervisor has approved the price change, submit of this stage, will move the application to **Offer Issue** stage.

If the Supervisor has rejected the price change, the application will be routed back to **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle** and **Business Product Code**.

7. Click **Submit**. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the **Offer Issue Stage** for Individual Customers. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

3.12 Offer Issue Stage

After due diligence and Account Parameter setup, the Application will move to the Offer issue stage where the user will generate the offer letter. As a reference, the relevant completed data segments will be made available to the user before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the user to browse.

In the Offer Issue stage, provide the required details under each data segment. The Offer issue stage has the following reference data segments:

- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

3.12.1 Assessment Summary

Assessment Summary is view only data segment of Offer Issue stage.

1. Click **Acquire & Edit** in the **Free Tasks** screen for the application for which Account Approval stage has to be acted upon.

→ The **Assessment Summary** screen is displayed.

Table 55: Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the base rate.
Margin	Displays the variance rate. NOTE: This field appears only for Floating rate type.

Field	Description
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved overdraft amount.
Proposed Margin	Displays the proposed variance. NOTE: This field appears only for Floating rate type.
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.12.2 Offer Issue

Offer Issue is the next data segment of Offer Issue stage. **Offer Issue** screen enables the user to capture the Offer Issue date.

1. Click **Next** in the **Assessment Summary** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Offer Issue** screen is displayed.

Figure 66: Offer Issue

The screenshot shows the 'Offer Issue' screen for application 006APP000055058. The interface includes a sidebar with navigation links: Credit Rating Details, Valuation Details, Legal Opinion, Assessment Summary, Offer Issue (selected), and Summary. The main content area displays the following fields:

- Applicant Name:** MR AutoFNN AutoMNN AutoLNN
- Account Type:** Current Account
- Account Branch:** 000
- Business Product Code:** CURPCA
- Business Product Name:** Premier Checking Account
- Approved Amount:** GBP 50,000.00
- Limit Type:** Unsecured
- Start Date:** March 30, 2018
- End Date:** April 26, 2050
- Limit Currency:** GBP
- Rate Type:** Fixed
- Rate Of Interest:** 15
- Variance:** 0.5
- Effective Rate:** 15.50
- Offer Issue Date:** March 30, 2018

At the bottom right, there is a 'Generate Offer' button with a checkmark icon. The bottom of the screen features a navigation bar with buttons: Audit, Cancel, Request Clarification, Back, Save & Close, and Next.

All the fields in this screen are prepopulated and not editable. For more information on fields, refer to the field description table below.

Data Segment	Description
Offer Issue	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Override** screen is displayed.
 3. Accept the overrides and click **Proceed Next**. The **Checklist** screen is displayed.
 4. Click **Proceed Next**. The Outcome screen is displayed.
 5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
 6. Click **Submit** to submit the Offer Issue stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.
- OR
- Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the Application **Offer Accept / Reject** stage.

3.13 Offer Accept / Reject Stage

After the Offer Issue stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Enrichment stage. If the business wants the Underwriting stage or the Application Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the Offer Accept / Reject stage, provide the required details under each data segment. The Offer Accept / Reject stage has the following data segments which user can only view:

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

3.13.1 Offer Accept / Reject

Offer Accept/Reject data segment is the first data segment of Offer Accept/Reject stage. The user can acquire the application from **Free Tasks** list.

1. Click **Acquire & Edit** in the Free Tasks screen of the previous stage – Offer Issue stage.

→ The **Offer Accept / Reject** screen is displayed.

Figure 68: Offer Accept / Reject

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 58: Offer Accept/Reject – Field Description

Field	Description
Customer Response	Select the customer response from the drop-down list. Available options are: • Accept • Reject • Amend
Date Of Offer Accept/Reject	Select the date of offer accept or offer reject.

Field	Description
Offer Amend	Offer Amend option will be at the instance of the customer request. This will be taken as a Post Offer amendment and based on the change requested, the application will be routed as part of the OUTCOME to the respective earlier stages to incorporate the changes.
Reason	The offer amend will be supported for the following data elements: • Overdraft Principal • Overdraft Interest/ Margin • Tenure of the Overdraft

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.13.2 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 69: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 59: Summary Offer Accept/Reject – Field Description

Data Segment	Description
Assessment Summary	Displays the assessment summary.
Offer Issue	Displays the offer issue details.
Offer Accept / Reject	Displays the offer accept / reject details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and Click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Save & Proceed Next**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.

- Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Issue stage for the Overdraft Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Offer Accept/Reject. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If the Customer Response is selected as Accept in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
 - If the Customer Response is selected as Reject in Offer Accept/Reject screen, then submit of this stage, will terminate the application.
 - If the Customer Response is selected as Amend in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Accept/Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.
- OR
- Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Overdraft] to the next processing stage on Host. This application will be available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

3.14 Post Offer Amendment Stage

Post Offer Amendment stage enables the user to request for amendment of Overdraft components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend** in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Post Offer Amendment stage is displayed.

The Post Offer Amendment stage has the following data segments:

- **Account Limit Details** - This data segment is editable. For detailed information, refer Account Limit Details data segment in the Overdraft Limit stage.
- **Offer Issue** – This data segment is read only. For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Offer Accept/ Reject** – This data segment is read only. For detailed information, refer the Offer Accept/ Reject data segment in the Offer Accept/ Reject stage.

Refer below chapters for detailed information on data segment that are editable.

3.14.1 Post Offer Amendment

Post Offer Amendment data segment is the first data segment of Post Offer Amendment stage. The user can acquire the application from Free Tasks list.

1. Click **Acquire & Edit** in the Free Tasks screen of the previous stage – Offer Accept/Reject stage.

→ The **Post Offer Amendment** screen is displayed.

Figure 70: Post Offer Amendment

The screenshot displays the 'Post Offer Amendment' screen for application 006APP000042918. The interface includes a sidebar with navigation options: Account Details, Offer Issue, Offer Accept/Reject, Post Offer Amendment (selected), and Summary. The main area contains a grid of fields for account details:

- Applicant Name:** MRS AutoPNN AutoMNN AutoLNN
- Account Type:** Current Account
- Account Branch:** 000
- Business Product Code:** CURPCA
- Business Product Name:** Premier Checking Account
- Approved Amount:** GBP 10,000.00
- Limit Type:** Unsecured
- Start Date:** March 30, 2018
- End Date:** April 26, 2030
- Rate Type:** Fixed
- Rate Of Interest:** 15
- Variance:** 0.5
- Effective Rate:** 15.50
- Offer Issue Date:** March 30, 2018
- Offer Expiry Date:** April 3, 2018

At the bottom, there are buttons for 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 60: Post Offer Amendment - Field Description

Field	Description
Applicant Name	Displays the applicant's name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Business Product Code	Displays the business product code selected for this saving account.
Business Product Name	Displays the business product name selected for this saving account.
Offer Issue Date	Displays the date of offer issued.

Field	Description
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Overdraft.
Offer Amend Date	Displays the date of offer amend.
Limit Currency	Displays the limit currency.
Approved Amount	Specify the revised Overdraft amount for approval.
Limit Type	Displays the limit type.
Start Date	Select the start date.
End Date	Select the end date.
Rate Type	Displays the rate type.
Base Rate	Displays the base rate.
Margin	Specify the amended Margin. NOTE: This field appears only for Floating rate type.
Effective Rate	Displays the amended effective rate. Effective Rate = Rate of Interest + Variance.

3.14.2 Summary

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Post Offer Amendment** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 71: Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 61: Summary Post Offer Amendment – Field Description

Field	Description
Offer Issue	Displays the offer issue details
Post Offer Amendment	Displays the post offer amendment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Override** screen is displayed.
3. Accept Overrides and click **Proceed Next**. The **Checklist** screen is displayed.
4. Click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the Select to Outcome field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Post Offer Amend** stage for the Overdraft Application. The Workflow Orchestrator will automatically

move this application to the next processing stage. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- If there is any change in **Approved Amount** and/or in **Limit Date Range**, then submit of this stage, will move the application to the **Application Assessment** stage.
 - If the changes are only in the **Rate of Interest** (Pricing), then submit of this stage, will move the application to the **Supervisor Application Approval** stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

3.15 Account Approval Stage

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Nominee Details** – For detailed information, refer the Nominee Details data segment in the Application Entry stage.
- **Stake Holder Details** – For detailed information, refer the Stake Holder Details data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- **Interest Details:** For details information, refer the Interest Details data segment in the Application Enrichment stage.
- **Charge Details:** For details information, refer the Charge Details data segment in the Application Enrichment stage.
- **Account Limit Details:** For details information, refer the Account Limit Details data segment in the Overdraft Limit Details stage.
- **Temporary OD Limit Details:** For details information, refer the Temporary OD Limit Details data segment in the Overdraft Limit Details stage.

- **Advance against Uncollected Funds:** For details information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit Details stage.
- **Initial Funding Details:** For details information, refer the Initial Funding Details data segment in the Account Funding stage.

Margin	Displays the margin percentage.
Effective Rate	Displays the effective rate for the approved overdraft amount.
User Recommendation	Select the user recommendation. Available options are: • Approved • Rejected
User Action	Displays the user action based on the selection.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

3.15.3 Summary

The Summary displays the tiles for all the data segments of the Savings Account Origination Process. The Tiles displays the important details captured in the specified data segment. It further allows to click on the specific tile to view the data segment and the details captured. You can additionally click on the data segment from the train on the left hand side to view the details of the data segment.

1. Click **Next** in **Application Approval Details** screen to proceed with the next data segment, after successfully capturing the data.

→ The **Summary** screen is displayed.

Figure 74: Summary Details

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 64: Summary - Field Description

Data Segment	Description
Account Details	Displays the account details.
Customer Information	Displays customer information details.

Data Segment	Description
Stake Holder Details	Displays the stake holder details. This field appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Mandate Details	Displays the mandate details.
Nominee Details	Displays the nominee details.
Financial Details	Displays the financial details.
Interest Details	Displays the interest details.
Charge Details	Displays the charge details.
Account Limit Details	Displays the account limit details.
Temporary Overdraft Limit Details	Displays the temporary overdraft limit Details
Advance Against Uncollected Funds Details	Displays the advance against uncollected funds Details
Initial Funding Details	Displays the initial funding details
Validation Details	Displays the validation details.
Legal Opinion	Displays the legal opinion.
Assessment Summary	Displays the assessment summary.
Collateral Perfection Details	Displays the collateral perfection details.
Approval Details	Displays the approval details.

Supervisor can verify the KYC Verification status of the Customer from the **Customer 360** in the Header. Only if the KYC Status is 'Success' will the application be allowed to proceed further. Click '**Submit**' to submit the Application Approval stage and proceed to submit the Account Opening request to Host.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed

Checklist configured in the business process for the business product is displayed here.
Checklist are the check points that the user has to accept having confirmed.

4. Select the checkbox to accept the checklist.
5. Click **Save & Proceed**. The **Outcome** screen is displayed.
6. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
 - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

7. Click **Submit**. The **Confirmation** screen is displayed.

On submission of this stage, the Workflow Orchestrator will automatically move this application to the next processing stage, **Account Create on Host** which has been automated. The account will be successfully created in Product Processor, if all the required validation is successful.

In case due to any error the account creation is rejected on Product Processor side, the application moves to the [3.6 Manual Retry Stage](#).

3.16 Manual Retry Stage

As mentioned earlier, this stage appears in the Free Task only if the Savings Account creation has been rejected by Product Processor and the user has the required access rights for the same.

3.16.1 Manual Retry Data Segment

1. Click **Acquire & Edit** in the **Free Tasks** screen for the application for which Manual Retry stage has to be acted upon.

3.17 Action Tabs

This section is applicable for all the stages of retail loan account opening. This section includes the following subsections:

- [3.17.1.1 Icon](#)
- [3.17.1.2 Customer 360](#)
- [3.17.1.3 Application Info](#)
- [3.17.1.4 Remarks](#)
- [3.17.1.5 Documents](#)
- [3.17.1.6 Advices](#)
- [3.17.1.7 More](#)

3.17.1.1 Icon

1. Click it to view the **Application Number** and the **Business Product** detail.

→ The **Icon** screen is displayed.

Figure 75: Icon Screen

3.17.1.2 Customer 360

1. Click **Customer 360** to select the Customer ID of existing customer, and then view the Mini Customer 360.

→ The **Customer 360** screen is displayed.

Figure 76: Customer 360

The screen shows the list of Customer IDs in case of Joint Accounts. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Customer Information data segment.

3.17.1.3 Application Info

1. Click **Application Info** to view the Application Information.

→ The **Application Info** screen is displayed.

Figure 77: Application Information

2. Click  icon to launch the **Data Points** pop-up screen.

→ The **Data Points** pop-up is displayed.

Figure 78: Data Points

Neural Network			
Name	Actual Value	Weight	Rank
TOT_NUM_STAGES	6	1	1

The **Application Information** screen displays separate cards for various products initiated as part of the application. For more information on fields, refer to the field description table below.

Table 65: Application Information – Field Description

Field	Description
Application Date	Displays the application date.
Phone	Displays the phone number.

Field	Description
E-mail	Displays the E-mail ID.
Source By	Displays the name of the user who has sourced the application.
Channel	Displays the channel name.
Priority	Displays the priority of the application. • High • Medium • Low
Application Number	Displays the application number
Total time spent	Displays the time spent for the product process since initiation of the application.
User ID Assigned	Displays the User ID of the user currently working on the product process. NOTE: This is blank, in case the product process task is not acquired by any user.
Time spent	Displays the days spent in the current phase/stage.
Expected Account Opening Date	Displays the expected date when the account will be created.
	Displays the information on the features considered to predict the expected account opening date.
More Info	Click More Info hyperlink to view more details about the customer clarification raised. For more information, refer to Clarification Details .

Field	Description
Current Stage	Displays the stage in which the product process is currently in. NOTE: If the phase is configured for the product, the current stage will be displayed as current phase.
Stage Start Date	Displays the stage in which the product process is currently in. NOTE: If the phase is configured for the product, the stage start date will be displayed as phase start date.
Account Opening Date	Displays the account opening date.

NOTE: Application Info tab will not be visible for Application Initiation stage.

3.17.1.4 Remarks

1. Click **Remarks** to update any remarks that you want to post for the Application that you are working on.

→ The **Remarks** screen is displayed.

Figure 79: Remarks

The screenshot displays the 'Remarks' screen within a web application. At the top, there is a navigation bar with three tabs: 'Customer 360', 'Application Info', and 'Remarks'. The 'Remarks' tab is currently selected. Below the navigation bar, there is a text input area with a placeholder text 'Enter text here...'. Above the input area, there is a toolbar with several icons: a left arrow, a right arrow, a bold 'B' icon, an italic 'I' icon, an underline 'U' icon, a strikethrough 'T' icon, and a blue 'A' icon. At the bottom right of the input area, there is a green 'Post' button.

Remarks posted are updated with your User ID, Date, and are available for view in the next stages for the Users working on that Application.

3.17.1.5 Documents

1. Click **Documents** to upload the documents linked for the stage.

→ The **Documents** screen is displayed.

Figure 80: Documents

2. Select the document status to filter the document based on the status.
3. Available options are All, Open and Deleted.
4. Click  on the Document tile to view, download and delete the document.
5. Click **View** to view the document.

→ The **View Document** is displayed.

Figure 81: View Document

6. Click **Download** to download the document.
7. Click **Delete** to delete the document.

NOTE: Deleted Documents is displayed as Icon, but the user cannot view the document.

8. Click  to upload the new document to the application.

→ The **Upload Document** screen is displayed.

Figure 82: Upload Document

The screenshot shows a web form titled 'Upload Document'. It contains several input fields: 'Document Type' and 'Document Code' are dropdown menus with 'Select' as the placeholder; 'Document Title' is a text box; 'Document Description' and 'Remarks' are larger text areas; 'Document Expiry Date' is a date picker. Below these is a file upload section with a dashed border containing the text 'Drop files here or Click to select'. To the right of this is a label 'Current Selected File :'. At the bottom right is a green 'Upload' button.

9. Specify the details in the relevant data fields. For more information on fields, refer to the Upload Document section above.

Table 66: Upload Document – Field Description

Field	Description
Document Type	Select the document type.
Document Code	Select the document code.
Document Title	Specify the document title.
Document Description	Specify the description for the document.
Remarks	Specify the remarks for the document.
Document Expiry Date	Select the document expiry date.
Drop files here or Click to select	Drag and drop the document or Select the document from the machine.
Upload	Click Upload to upload the document.

NOTE: Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

3.17.1.6 Advices

8. Click **Advices** to view the advice linked for the stage.

→ The **Advices** screen is displayed.

Figure 83: Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Savings Product, no advice is configured.

3.17.1.7 More

3.17.1.7.1 Clarifications Details

1. Click **Clarification Details** to raise a new customer clarification request or view the existing request.
9. Click **New Clarification** to request new clarification.

→ The **New Clarification** screen is displayed.

Figure 84: New Clarification

10. Enter the subject and the clarification detail in the New Clarification Pop-up screen. The system also allows you to upload the document for the Clarification being raised.

Figure 85: Upload Documents

11. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

Figure 86: Clarification Details

Clarification Details - 000APP000014292					
Clarification	Raised By	Clarification Date	Response Type	Clarification Status	Status Update Date
Pan Card	SH	March 26, 2020 12:00 AM		Clarification Requested	
New Clarification					

12. Select the specific Clarification to take action on it.

Figure 87: Clarification Details

Clarification Details - 000APP000014292

Clarification ID	Clarification Subject	Raised By	Clarification Date	Status	Status Update Date
SAVNEW00000025	Pan Card		March 26, 2020 12:00 AM	Clarification Requested	March 26, 2020 12:00 AM

March 26, 2020 12:00 AM

New Pan Card copy is needed

March 26, 2020 12:00 AM

[Manual Response](#)

Customer is going to visit the Branch to provide the new copy of the Pan Card.

[New Conversation](#) [Withdraw Clarification](#) [Accept Clarification](#)

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

4 Instant Savings Account Opening Process

Additional Instant Business Process is available wherein various stages in the Reference Flow for Savings Account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module. Please refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application has been initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which the mode configured has to be 'H' which represents that the selected Account will be debited by the Host as part of the Account Opening Process (Allowed for both Self-Service Channel and Branch Initiated Applications) or Initial Funding is taken via External Bank Account Transfer on self-service channel (This mode is not allowed for Branch Initiated Applications). For more details refer **Section 2.7 Initial Funding Configuration** in the **Configurations User Guide**.

In the Instant Savings Account Origination Reference Business Process the stages that have been configured are mentioned below.

- **Application Entry Stage:** On successful submission of the Savings Account Application from self-service channel, the system starts the Application Entry stage without any manual intervention and completes the Data Segment level validation. On successful completion of the validation, the system automatically submits the Application Entry Stage.

Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the Application Initiate Stage itself by clicking the 'Application' button in the Product Details Data Segment.

- **Account Funding Stage:** On successful submission of the Application Entry Stage, system checks if Initial Funding has been updated for the Account Opening or not.
 - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.
 - In case Initial Funding has been taken for the Account via the External Bank Account Transfer in the self-service channel, system starts the Application Funding Stage and validates the Initial Funding Details Data Segment and submits the Application Funding Stage automatically.
 - For Application where the Initial Funding is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
 - For the Branch Initiated Applications wherein the Initial Funding has been taken in Cash or Other Bank Cheque, this stage has to be manually actioned by the Branch User having access permission for this stage.
- **Application Approval Stage:** System skips this stage for self-service initiated application and submits the application directly to the Product Processor for Account Creation.

However, for Branch initiated Application considering the 4-eye principle, system expects the application to be approved by a Supervisor. Hence this stage, will have to be picked and actioned by the Supervisor User. Supervisor User can either approve or reject the Application. On submission of this stage by selecting 'approve' outcome, system submits the Application to the Product Processor for Account Creation.

- **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Savings Account creation has been rejected by Product Processor. User having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.

5 Regional Configuration

Oracle Banking Origination (OBO) has an ability to configure different geography requirements across varied implementation. Using the regional configurator feature, users are configured and enabled for a given Entity ID such as Default and Region Code.

The region specific configurations helps to ensure the workflows adhere to the geography practices, in terms of data capture and visualizations of the application screens. This model supports a framework which is used across OBMA domains to achieve specific end user experience.

Following region specific configuration are implemented:

- Ability to set non-mandatory field to mandatory
- Ability to set a field mandatory based on another field
- Hiding a field
- Capability to maintain LOV by geography
- Capability to maintain default value in LOV for a given geography

This chapter describes US region specific configuration which are implemented in OBO.

The fields in below table are defaulted to the respective value from backend. These fields hidden on UI.

Table 67: Defaulted Values and Hidden on UI

Field	Description
Preferred Currency	Defaulted to USD. Appears in the Customer Information data segment of the Application Entry stage.
Account Currency	Defaulted to USD. Appears in the Account Details data segment of the Application Entry stage.
Customer Type	Defaulted to Individual customer type. Appears in the Customer Information data segment of the Application Entry stage.

Field	Description
Phone Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.
Direct Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.
Kisok Banking	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.
Passbook	Defaulted to No. From the Account Service Preferences data segment of the Application Enrichment stage.

The fields in below table are not applicable for US region.

Table 68: Not Applicable

Field	Description
Name in Local Language	From in the Customer Information data segment of the Application Entry stage.
Citizenship By	From the Customer Information data segment of the Application Entry stage.
Marital Status	From the Customer Information data segment of the Application Entry stage.
Details Of Special Need	From the Customer Information data segment of the Application Entry stage.
Remark for Special Need	From the Customer Information data segment of the Application Entry stage.

Field	Description
Relationship Manager ID	From the Customer Information data segment of the Application Entry stage.
Additional Info	From all the Address section where applicable.
APY (in %)	From the Interest Details data segment of the Application Enrichment stage.

The fields in below table are used with US nomenclature in the respective screen.

Table 69: Nomenclature Fields

Field	Description
State/ Country Sub Division	The label is changed to State. Appears in the below stages: • In the Address Details sections of the Customer Information data segment in the Application Entry stage. • In the Address Details sections of the Nominee Details data segment in the Application Entry stage.
Cheque	The label appears as Check. Appears in the Account Details data segment of the Application Entry stage. Appears in the Account Service Preferences data segment of the Application Enrichment stage.

SIGNIFICANT CHANGES

You have advised us that there are no foreseeable significant changes to your circumstances that will affect your ability to meet your contracted repayments.

You have advised us that significant changes to your circumstances may occur that could adversely affect your ability to meet your contracted repayments and you have plans in place to ensure that you will be able to continue to make repayments if these circumstances occur.

Privacy Statement

We would like to inform you that:

Purpose of collection

Personal information is information about an identifiable individual and includes facts or an opinion about you which identifies you or by which your identity can be reasonably determined. The collection of your personal information is essential to enable us to conduct our business of offering and you with our range of financial products and services.

We collect personal information for the purposes of:

identifying and protecting you when you do business with us establishing your requirements and providing the appropriate product or service setting up, administering and managing our products and services assessing and investigating and if accepted, managing a claim made by you under one or more of our product and training and developing our staff and representatives. We may be required by law to collect your personal information. These include, but are not limited to, anti-money laundering and taxation laws.

Consequences if personal information is not provided

If we request personal information about you and you do not provide it, we may not be able to provide you with the financial product or service that you request, or provide you with the full range of services we offer.

Disclosure

We use and disclose your personal information for the purposes we collected it. we may also use and disclose your personal information for a secondary purpose that is related to the purpose for which we collected it. This would happen in cases where you would reasonably expect us to use or disclose your personal information for that secondary purpose. In the case of sensitive information, any secondary purpose, use or disclosure will be directly related to the purpose collection.

When necessary and in connection with purposes of collection, we may disclose your personal information to and/or collect your personal information from:

Other companies within the. Where required or authorized under our relationship with our joint venture companies. Information technology providers, including hardware and software vendors and consultants such as programmers research and development service providers your advisers, agents or representatives our advisers, agents or representatives if required or authorized to do so, regulatory bodies and government agencies financial advisers lenders' mortgage insurers and values credit reporting agencies legal and other professional advisers printers and mail house service

providers manufacturers for plastic card production (e.g. debit and credit cards) external dispute resolution schemes.

Disclosure overseas

There are also instances where we may have to send your personal information overseas or collect personal information from overseas. These instances include: sending your personal information to companies in the group. When you have asked us to do so when we are authorised or required by law to do so when we have outsourced a business activity or function to an overseas service provider with whom we have a contractual arrangement certain electronic transactions or when it is necessary in order to facilitate a transaction on your behalf. We will only send your personal information overseas or collect personal information about you from overseas for the purposes in this statement.

Access

You can request access to the personal information we hold about you by contacting us. In some circumstances, we are able to deny your request for access to personal information. If we deny your request for access, we will tell you why. If accessing your personal information will take an extended period of time, we will inform you of the likely delay. For more detailed requests for access to personal information, for example, access to information held in archives, a fee may be charged to cover the associated cost of retrieval and supplying this information.

Marketing

We would like to use and disclose your personal information to keep you up to date with the range of products and services available from. Generally, our companies in the group will use and disclose your personal information for marketing purposes. If you do not want us to use and disclose your personal information for the purpose of marketing products and services to you, you should contact us and tell us.

Contact
