## Customer Standard Instructions

Customer needs to provide instructions in advance to the bank, which should be maintained as Standard Instructions in the system and should be referred at the time of transactions.

At the time of initiating the transactions to the bank instructions can also be provided and the system should have place holders for these instructions.

This section contains the following topics:

[Creating Customer Standard Instructions](#)

[Viewing Customer Standard Instruction](#)

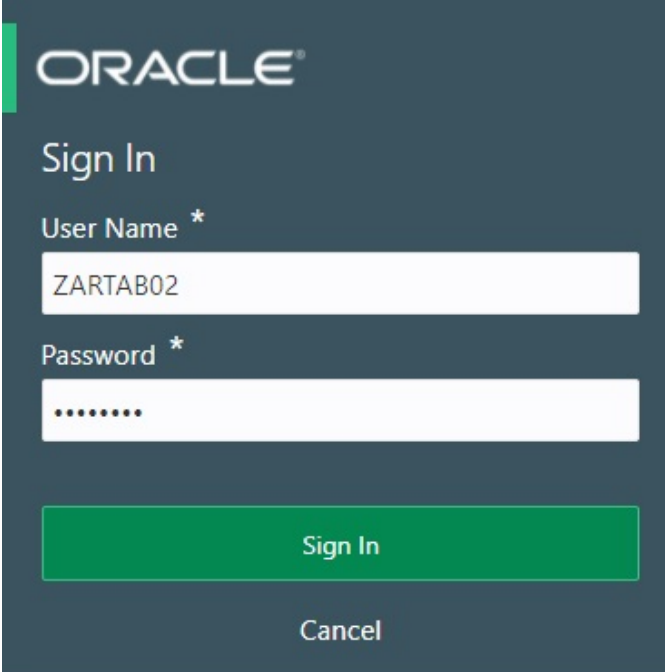

[Search Customer Standard Instruction](#)

[Authorization](#)

### Creating Customer Standard Instructions

OBTFPM user should be able to maintain the Standard Instructions received from the customer. This process allows the user to create Customer Standard Instructions, let's look at the steps of creating the standard instructions process:

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

ORACLE®

Sign In

User Name \*

ZARTAB02

Password \*

.....

Sign In

Cancel

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. On the **Dashboard**, from **Maintenance**, under **Trade Finance**, click **Customer Standard Instruction**, and then **Create Customer Standard Instruction** or specify the **Create Customer Standard Instruction** in the Search icon bar.

The **Create Customer Standard Instruction** screen appears.

Provide the field description based on the following table.

Field	Description
Customer Number	Click to search and select the customers from the list of open customers from LOV.
