# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.

## Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

## Export LC Cancellation

Export LC Cancellation process enables the user to cancel the LC which had been already advised.

The cancellation require consent from the beneficiary of the LC. In such scenarios, after the processing of cancellation, the cancelled LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for export LC cancellation process.

This section contains the following topics:

<a href="#">Common Initiation Stage</a>	<a href="#">Registration</a>
<a href="#">Document Linkage</a>	<a href="#">Exceptions</a>
<a href="#">Multi Level Approval</a>	<a href="#">Reject Approval</a>

## Common Initiation Stage

The user can initiate the new export LC cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM 'Initiate Task' registration form. The sidebar menu on the left has 'Initiate Task' highlighted. The main form area is titled 'Registration' and contains the following fields:

- Process Name:** Export LC Cancellation
- Advising Bank Reference:** 300ELCH160010505
- Branch:** 300-International Payments-Fast...

Buttons for 'Proceed' and 'Clear' are located at the bottom right of the form.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Advising Bank Reference	Select the advising bank reference.
Branch	Select the branch.

## Action Buttons

Use action buttons based on the description in the following table:

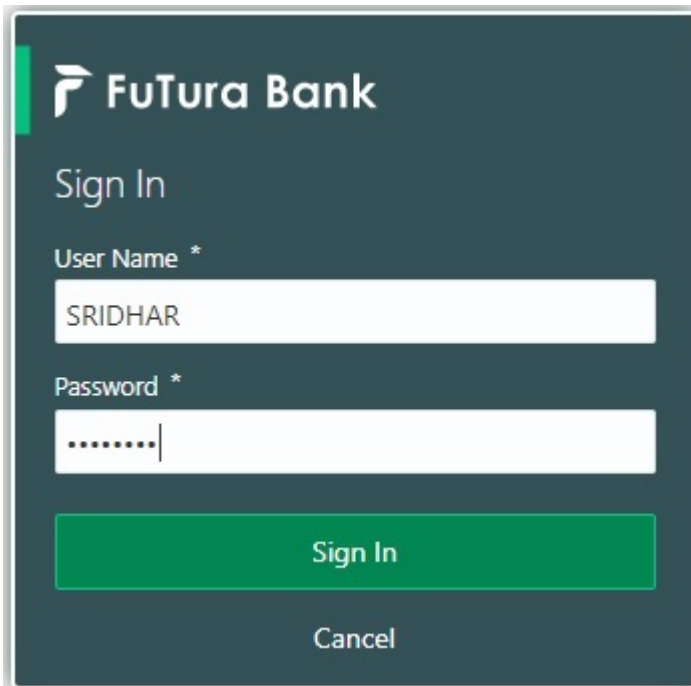

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

## Registration

If the Letter Of Credit cancellation request is submitted through branch, the Export LC Cancellation process starts from the Registration Stage.

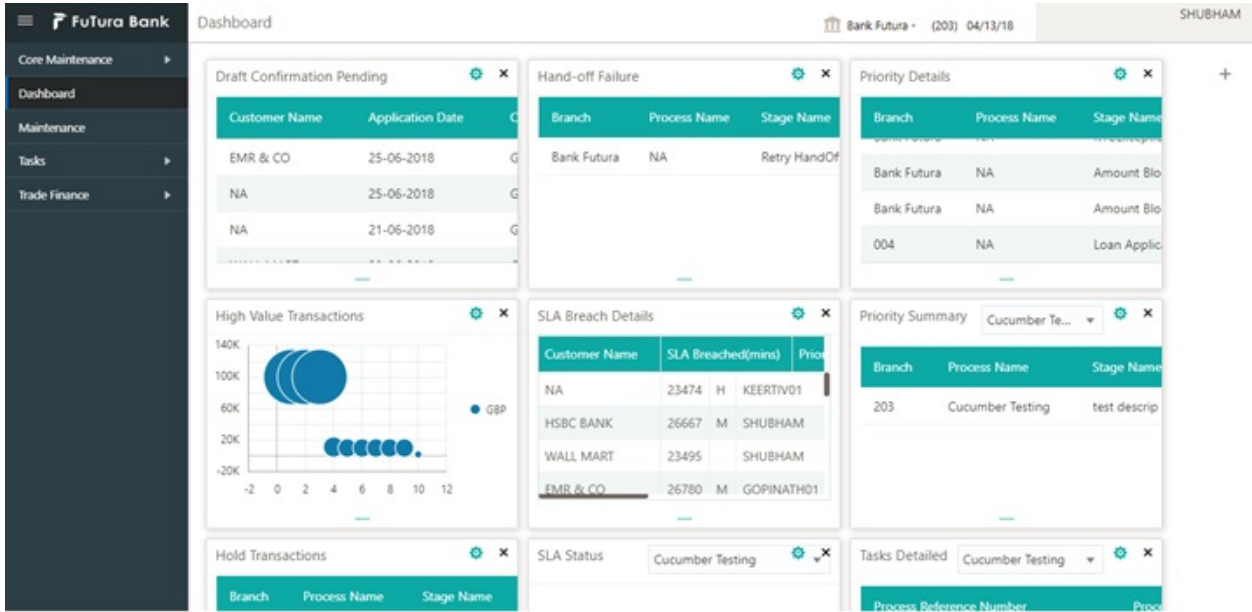

During registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC cancellation expert to handle the request in the next stage.

3. Using the entitled login credentials for registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for Futura Bank. At the top left is the Futura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name \*' containing the text 'SRIDHAR' and 'Password \*' containing masked characters. Below the input fields are two buttons: a prominent green 'Sign In' button and a smaller, lighter 'Cancel' button.

4. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

5. Click Trade Finance> Export - Documentary Credit> Export LC Cancellation.

The registration stage has two sections Application Details and LC Details. Let's look at the details of registration screens below:

# Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Advising Bank Reference Number	Provide the advising bank reference number. Alternatively, user can search the advising bank reference number using LOV.  In the LOV, user can input Customer ID, Applicant, Currency, Amount and User Reference to fetch the Export LC details. Based on the search result, select the applicable Export LC to be canceled.	
Beneficiary ID	Read only field.  Beneficiary ID will be auto-populated based on the selected LC from the LOV.	001344
Beneficiary	Read only field.  Beneficiary Name will be auto-populated based on the selected LC from the LOV.	EMR & CO
Branch	Read only field.  Branch details will be auto-populated based on the selected LC from the LOV.	203-Bank Futura -Branch FZ1
Process Reference Number	Unique sequence number for the transaction.  This is auto generated by the system based on process name and branch code.	
Priority	System will default the Priority as Low/Medium/High based on maintenance.	High

Field	Description	Sample Values
Submission Mode	Select the submission mode of Export LC Cancellation request. By default the submission mode will have the value as 'Desk'. User can change the defaulted priority.  <b>Desk-</b> Request received through Desk <b>Courier-</b> Request received through Courier	Desk
Cancellation Date	By default, the application will display branch's current date.	04/13/2018
Issuing Bank	Read only field.  Issuing Bank details will be auto-populated based on the selected LC from the LOV.	
Non Bank Issuer	Read only field.  Non Bank Issuer details will be auto-populated based on the selected LC from the LOV.	
User Reference Number	Read only field.  User Reference Number will be auto populated by the system based on the selected Export LC.	
Beneficiary Consent Required	By default, the toggle must be 'On' for Export LC Cancellation process.	

## LC Details

LC Details

<b>LC Type</b> Sight	<b>Product Code</b> ELCT	<b>Product Description</b> Export LC for Transfer	<b>Advising Bank</b> 032309 RAKBANK
<b>40A - Form Of Documentary Credit</b> IRREVOCABLE TRANSFERRABLE	<b>Contract Reference Number</b> 032ELCT232153002	<b>31C - Date Of Issue</b> Aug 3, 2023	<b>40E - Applicable Rules</b> UCP LATEST VERSION

Hold Cancel Save & Close Submit

This screen displays the data from the LC advised.

Field	Description	Sample Values
LC Type	Read only field.  LC type will be populated based on selected LC.	
Product Code	Read only field.  This field displays the product code of the selected LC.	
Product Description	Read only field.  This field displays the description of the product as per the product code.	

Field	Description	Sample Values
Advising Bank	This field displays the advising bank details of the selected LC.	
40A - Form of Documentary Credit	Read only field. This field displays the form of documentary credit details of the selected LC.	
Contract Reference Number	Read only field. This field displays the form of contract reference number of the selected LC.	
Date of Issue	Read only field. This field displays the LC issuance date.	
Applicable Rules	This field displays the rules of the selected Export LC.	
Date Of Expiry	This field displays the expiry date of the selected LC.	
Place of Expiry	This field displays the place of expiry of the selected LC.	
Applicant Bank	Read only field. This field displays the applicant bank details of the selected LC.	
Applicant	Read only field. This field displays the details of the applicant of the selected LC.	
Currency Code, Amount	Read only field. This field displays the details of the currency/ amount of the selected LC.	
Amount In Local Currency	System fetches the local currency equivalent value for the LC amount from back office (with decimal places).	
Percentage Credit Amount Tolerance	Read only field. This field displays the details of the percentage credit amount tolerance of the selected LC.	
Additional Amount Covered	Read only field. This field displays the details of the additional amount covered of the selected LC.	
LC Outstanding Amount	Read only field. This field displays the details of the LC outstanding amount of the selected LC.	

# Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the cancellation request. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
<b>Action Buttons</b>		
Submit	On submit, task will get moved to next logical stage of Export LC Cancellation.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	

Field	Description	Sample Values
Save & Close	Save the information provided and displays the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Export LC Cancellation Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

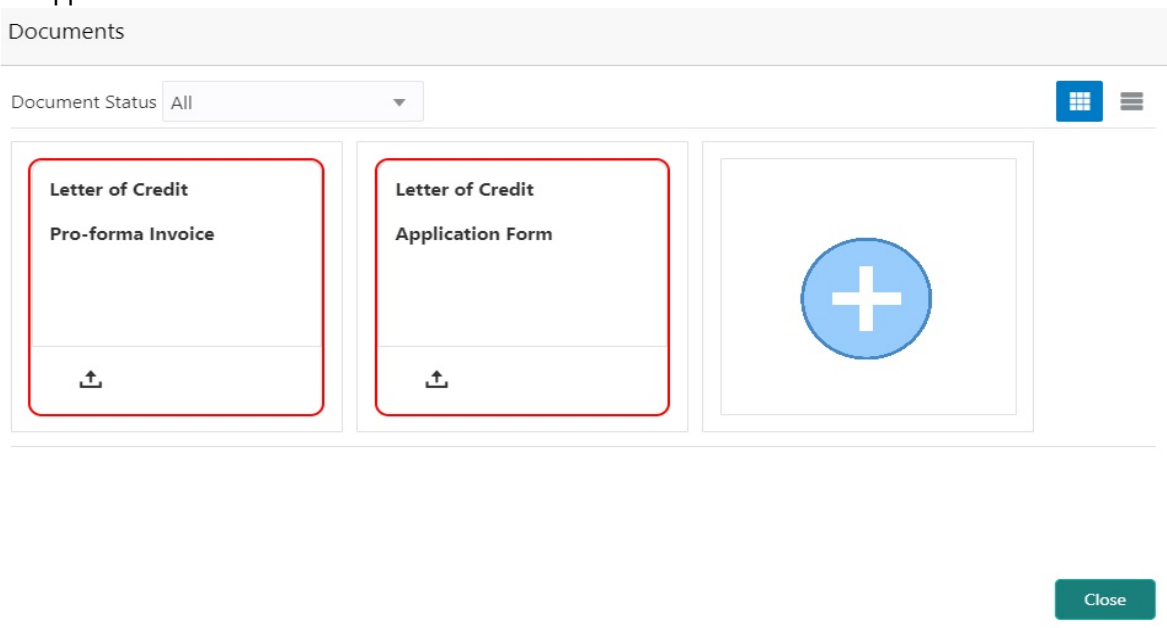

## Document Linkage

The user can link an existing uploaded document in any of the process stages.

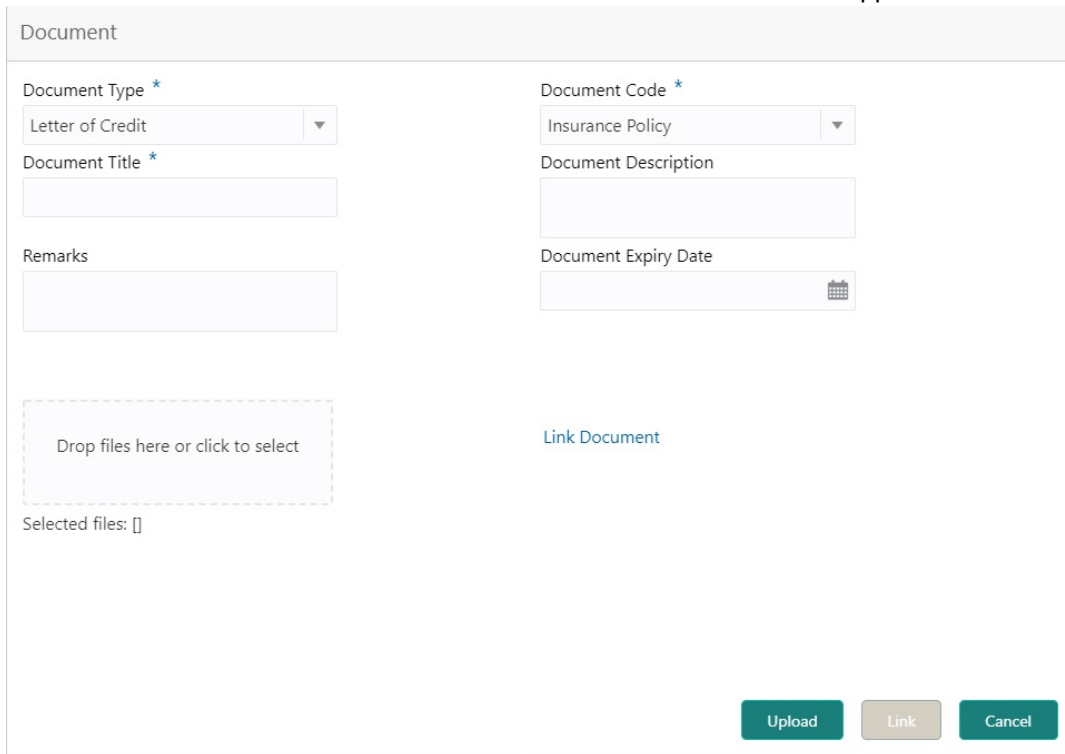

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
<b>Search Result</b>		
Document ID	This field displays the document Code from meta data.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from meta data.	
Document Code	This field displays the document code from meta data.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

6. Click **Link** to link the particular document required for the current transaction.

## Data Enrichment

As part of Data Enrichment, user can enter/update basic details of the incoming request.

**Note**

If the incoming message is MT 707, requests that are received via online channels like trade portal, external system and SWIFT should be available directly for further processing in OBTFPM from Scrutiny stage.

**Note**

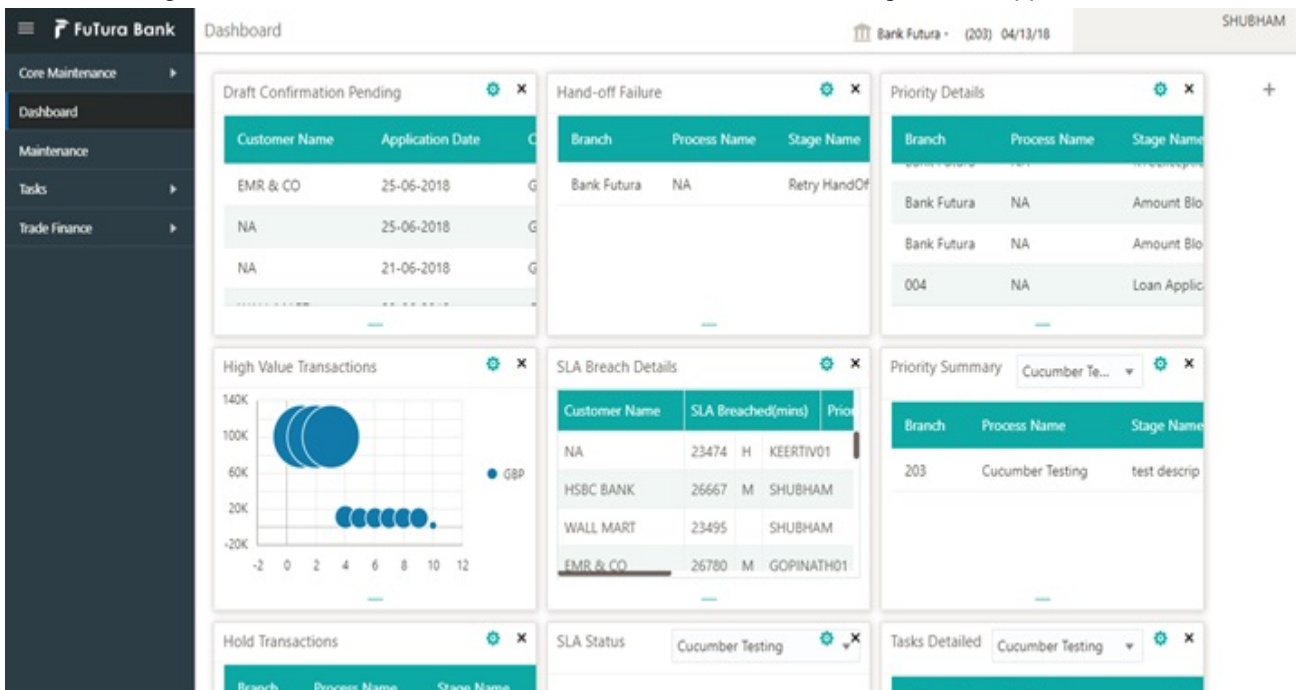

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task at Data enrichment stage:

Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

8. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

## 9. Click Trade Finance > Tasks > Free Tasks.

## 11. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for data enrichment stage.

Action	Priority	Application Number	Branch	Customer Number	Amount	Process Name	Stage	Back Office Ref No.
Edit	M	GS1ELCC000006493	GS1	000262	£15,000.00	Export LC Cancellation	Data Enrichment	NA

The Data Enrichment stage has six sections as follows:

- Main Details
- Payment Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

## Main Details

Main details section has three sub section as follows:

- Application Details
- LC Details

## Application Details

All fields displayed under Application details section, would be read only except for the **Priority** and **Beneficiary Consent Reqd.** Refer to [Application Details](#) for more information of the fields.

## LC Details

The fields listed under this section are same as the fields listed under the [LC Details](#) section in [Registration](#). Refer to [LC Details](#) for more information of the fields. During registration, if user has not captured input, then user can capture the details in this section.

Following are the fields which can be amended apart from the fields carried over from [LC Details of Registration](#). Provide the details for the amendable fields based on the description in the following table:

Field	Description	Sample Values
Applicable Rules	This field displays the rules of the selected Export LC and user can amend if required.	
Date of Expiry	This field displays the expiry date of the selected Export LC and user can amend if required.	
Place of Expiry	This field displays the place of expiry of the selected Export LC and user can amend if required.	
Currency/Amount	This field displays the value of LC along with the currency details of the selected Export LC.	
Percentage Credit Amount Tolerance	This field displays the percentage credit amount tolerance details of the selected Export LC.	
Additional Amounts Covered	This field displays the details of additional amount covered of the selected LC and user can amend if required.	

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Upload the required documents.</p> <p>Application displays mandatory documents to be uploaded for cancellation. Place holders are also available to upload additional documents submitted by the applicant.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Overrides	Click to view the overrides accepted by the user.	

Field	Description	Sample Values
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

## Payment Details

The screenshot displays the 'Payment Details' section of an Oracle Banking Trade Finance application. The interface includes a navigation menu on the left with options like 'Main Details', 'Payment Details', 'Additional Fields', 'Advices', 'Additional Details', 'Settlement Details', and 'Summary'. The main content area is divided into several sections: 'Payment Details', 'Information to Issuing Bank', and 'Information to Advise Through Bank'. Each section contains multiple fields with labels such as '49G-Special Payment conditions for beneficiary', '49H-Special Payment conditions for receiving bank', '48-Period for Presentation', '49-Confirmation Instructions', '71N - Amendment charges payable by', '71 D Charges', '79Z Narrative', 'Issuing Bank Account No', 'Charges to be Claimed', and '72-Sender to Receiver Information'. The 'Next' button is visible at the bottom right of the screen.

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Special Payment conditions for beneficiary	Read-only field. Displays the special payment condition to beneficiary.	
Special Payment conditions for receiving bank	Read-only field. This field specifies special payment conditions applicable to the receiving bank without disclosure to the beneficiary, for example, post-financing request/conditions for receiving bank only.	
Period for Presentation	Read-only field. Displays the period of presentation.  The field displays the event name in text along with the number of days in number, if the period of presentation is based on any event other than shipment.	

Field	Description	Sample Values
Confirmation Instructions	<p>Read-only field.</p> <p>Displays the confirmation instruction for the LC .</p> <p>The values can be CONFIRM, MAY ADD, WITHOUT.</p> <p>The system displays the</p> <p>a) SWIFT code (if available),</p> <p>b) Name and address of the bank</p>	
Partial Confirmation Allowed	<p>Read-only field.</p> <p>Indicates whether partial confirmation is allowed.</p>	
Silent Confirmation	<p>Read-only field.</p> <p>Indicates whether silent confirmation is added to an LC already advised to the beneficiary and Confirmation Percentage should default as 100 and Silent Confirmation Amount should display the full LC outstanding value.</p> <p>This field is added only for LC in which Issuing Bank does not request confirmation.</p>	
Confirmation%	<p>Read-only field.</p> <p>Displays the confirmation percentage.</p> <p>  <b>Note</b>  This field is alternate to '<b>Confirmation Amount</b>'.</p>	
Confirmation Amount	<p>Read-only field.</p> <p>Displays the confirmation amount.</p>	
Requested Confirmation Party Type	<p>Read-only field.</p> <p>Displays the requested confirmation party type.</p>	
Requested Confirmation Party	<p>Read-only field.</p> <p>Displays the requested confirmation party details</p>	
Confirmation Expiry Date	<p>Read-only field.</p> <p>Displays the confirmation expiry date.</p>	

Field	Description	Sample Values
Reimbursing Bank	Read-only field. Displays the reimbursing bank details.	
Advise Through Bank	Read-only field. Displays advise through bank details. In case of SWIFT MT707 message, this field is empty.	
Instructions to P/A/N Bank	Read-only field. Displays the instructions to P/A/N bank.	
Sender to Receiver Information	Read-only field. Displays the sender to receiver information details .	
Charges	Read-only field. Displays the charge details(FFT).	
Amendment charges payable by	Select the party to pay the amendment charges. The options are: <ul style="list-style-type: none"> <li>• Applicant</li> <li>• Beneficiary</li> <li>• Others</li> </ul>	

#### Information to Issuing Bank

Provide MT730 - Information to Issuing Bank details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver Information	Select a FFT to provide the additional information to receiver.	
Narrative	Select a FFT to provide the additional information from the advising bank to the issuing bank.	
Issuing Bank Account No	Select the issuing bank account number from the LOV.	
Charges to be Claimed	Select the currency and specify the amount for the charges to be claimed.	
Charges	Provide the charge details for advising.	

Field	Description	Sample Values
Issuing Bank Date	Select the issuing bank date.	
Account with Bank	Select the account to which the charges needs to be paid.	

### Information to Advise Through Bank

Provide Information to Advise Through Bank details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver Information	Read-only field. Displays the additional information to receiver.	

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Save & Close	Save the informations provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel Scrutiny stage inputs and return to dashboard.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>

## Limits & Collateral

Limit availability needs to be checked if involves increase in amount or tolerance or both. This is applicable for confirmation of the unconfirmed LC or increasing the amount or tolerance if already LC is already confirmed.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number "to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	
Component	Select the commission component	

Field	Description	Sample Values
Rate	<p>Defaults from product.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	<p>An amount that is maintained under the product code defaults in this field.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Charge Party	Charge party will be 'Beneficiary' by Default. You can change the value to Applicant	
Settlement Account	Details of the Settlement Account.	

## Charge Details

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Tag amount that is maintained under the product code.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Charge Party	Charge party will be beneficiary by default. You can change the value to applicant.	
Settlement Account	Details of the settlement account.	

## Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Tax details are defaulted from the back-end system.

Field	Description	Sample Values
Component	Tax Component type	
Type	This field displays the type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.  Application displays mandatory documents to be uploaded for cancellation. Place holders are also available to upload additional documents submitted by the applicant.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system.  Refer Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	

## Exceptions

The Export LC Cancellation request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

## Amount Block Exception

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance- Limits</li> <li>● R5 - Others</li> </ul>	
Cancel	Cancel the approval.	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

## Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export LC Cancellation in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

### Application Details

The application details data segment have values for requests received from both non-online and online channels.

### Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Payments - User can view and modify all details related to payments, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
