# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

## Overview

OBTFPM is a Trade Finance Middle Office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Export LC Reopen

This process allows the user to register a request for an Export LC Reopen received at desk.

This section contains the following topics:

<a href="#">Common Initiation Stage</a>	<a href="#">Registration</a>
<a href="#">Data Enrichment</a>	<a href="#">Multi Level Approval</a>
<a href="#">Customer - Acknowledgement Format</a>	<a href="#">Customer - Reject Format</a>

## Common Initiation Stage

The user can initiate the new Export LC Reopen from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC reference number from the look-up.
Branch	Select the branch.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.

Field	Description
Clear	The user can clear the contents update and can input values again.

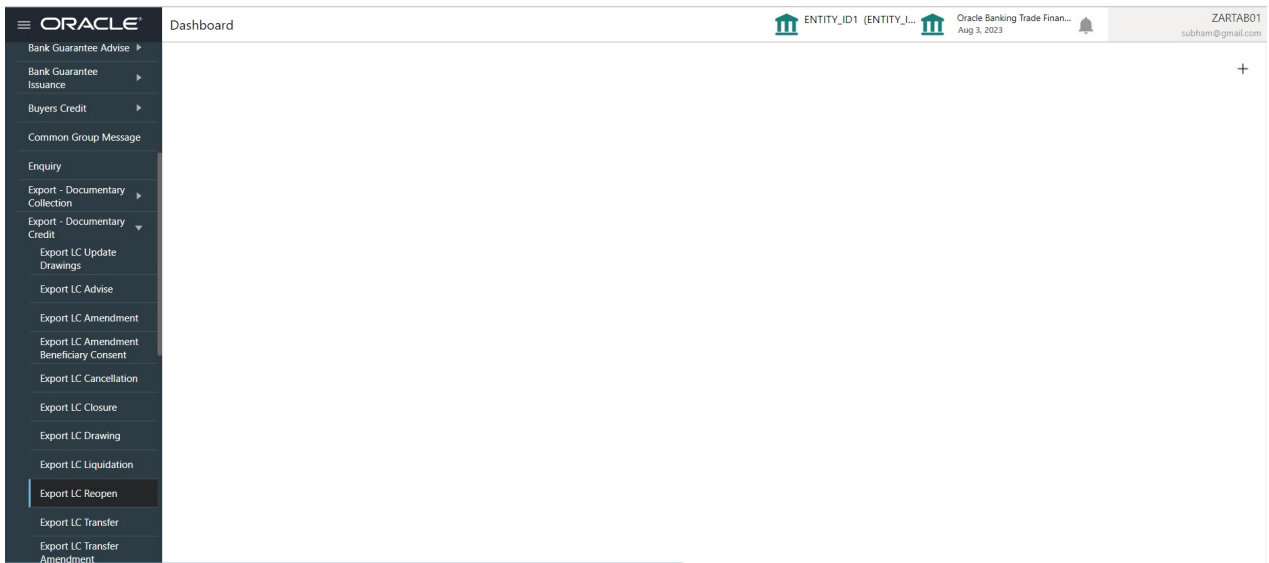

## Registration

At the Registration stage, the user can register request for an Export LC Reopen received at the front desk (as an application received physically/received by mail/fax). During Registration, user can capture the basic details of the application, check the signature of the applicant and upload related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Trade Finance > Export Documentary Credits > Export LC Reopen**.

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

# Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Advising Bank Reference	<p>Provide the Advising Bank Reference. Alternatively, user can search the Advising Bank Reference using LOV.</p> <p>In LOV search/advanced LOV search, user can input Export LC Reference Number, Beneficiary, Currency, Amount and User Reference to fetch the LC details. Based on the search result, select the applicable LC to be opened.</p> <p> <b>Note</b> System displays the LCs only which are in Closed status.</p>	
MT 720 – Transfer LC	<p>Read only field.</p> <ul style="list-style-type: none"> <li><b>Toggle On:</b> If it is an Export LC Transfer Advise request.</li> <li><b>Toggle Off:</b> If it is an Export LC Advise request.</li> </ul>	
Beneficiary	<p>Read only field.</p> <p>System displays the value available in export LC.</p>	001344
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC.</p>	203-Bank Futura -Branch FZ1
Priority	<p>System will default the Priority as Low/Medium/High based on maintenance.</p> <p>The user can change the priority.</p>	High

Field	Description	Sample Values
Submission Mode	Select the submission mode of Export LC Reopen request. By default the submission mode will have the value as 'Desk'.  <b>Desk</b> - Request received through Desk <b>Courier</b> - Request received through Courier	Desk
Currency Code, Amount	Read only field.  This field displays the currency code of LC along with the currency details as per the latest LC details.	
Process Reference Number	Read only field.  Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Contract Reference Number	Read only field.  Contract reference number is defaulted based on the selected LC.	
Advising Date	Read only field.  By default, the application will display branch's current date.	04/13/2018
Reopen Date	Read only field.  By default, the application will display branch's current date.	04/13/2018
Issuing Bank	Read only field.  Issuing Bank name is defaulted based on the selected LC.	

## LC Details

The user can view the latest LC values displayed in the respective fields. All fields displayed in LC details section are **read only** fields.

The screenshot displays the 'LC Details' form with the following fields and values:

- LC Type:** Sight
- 40A/B - Form of Documentary Credit:** IRREVOCABLE
- 31C - Date of Issue:** Aug 3, 2023
- 51A - Applicant Bank:** 032303 Dubai Bank
- 39C - Additional Amount Covered:** (Empty)
- Advising Bank:** 032309 RAKBANK
- Form of Documentary Credit Details:** (Empty)
- 40E - Applicable Rules:** UCPURR LATEST VERSION
- Applicant:** 032205 Aldar Properties
- Amount In Local Currency:** AED 100.00
- Product Code:** ELAC
- User Reference Number:** 032ELAC23215ARFD
- Date of Expiry:** Dec 28, 2023
- 39A - Percentage Credit Amount Tolerance:** /
- Auto Close:** (Toggle off)
- Product Description:** Export LC Sight Non Revolving
- 23 - Reference To Pre-Advice:** (Empty)
- 31D - Place of Expiry:** LONDON
- Limits/Collateral Required:** (Toggle off)
- Closure Date:** Jan 27, 2024

Buttons at the bottom: Hold, Cancel, Save & Close, Submit

Field	Description	Sample Values
LC Type	Read only field. The value used for LC Type as per the latest LC details is displayed.	
Advising Bank	Read only field. This field displays the advising bank details as per the latest LC.	
Product Code	Read only field. This field displays the product code used during LC Reopen.	
Product Description	Read only field. This field displays the description as in Export LC.	
40A - Form of Documentary Credit	Read only field. This field displays the form of documentary credit available in LC record.	
Form of Documentary Credit Details	Read only field. This field displays the form of documentary credit details available in LC record.	
User Reference Number	Read only field. User reference number is defaulted based on the selected LC.	
Reference to Pre-Advice	Read only field. This field displays the details of Pre-Advice, if issued by the bank.	
Date of Issue	Read only field. This field displays the LC issuance date.	
Applicable Rules	Read only field. This field displays the applicable rule as per the latest LC details.	
Date Of Expiry	Read only field. This field displays the expiry date as per the latest LC details.	09/30/18
Place of Expiry	Read only field. This field displays the place of expiry as per the latest LC details.	
Applicant Bank	Read only field. This field displays the applicant bank details as per the latest LC details.	

Field	Description	Sample Values
Applicant	Read only field. This field displays the details of the applicant as per the latest LC details.	
Percentage Credit Amount Tolerance	Read only field. This field displays the percentage credit amount tolerance details as per the latest LC details.	
Limits/Collateral Required	Read only field. Limits/Collateral applicable as per the latest LC details is displayed.	
Additional Amount Covered	Read only field. This field displays the details of additional amount covered as per the latest LC details.	
Amount In Local Currency	Read only field. Amount in local currency as per the latest LC details is displayed.	
Auto Close	Read only field. Toggle On: Enable the toggle indicates Auto close is required for that transactions. Toggle Off: Disable the toggle indicates Auto close is not required for that transactions.	
Closure Date	Read only field. System default the "Closure Date" with the value "Expiry Date" + No of Closure days maintained in the respective Product in which the contract has been created. System automatically close the contract on the specified "Closure Date" if "Auto Close" is selected as "Yes" for the specific contract.	

## Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Documents	<p>System displays the mandatory and optional documents. User to upload the applicable documents. If mandatory documents are not uploaded, system should display an error on submit. The possible documents submitted under an Import LC Reopen request are:</p> <ol style="list-style-type: none"> <li>1. Reopen request</li> <li>2. Letter of Credit instrument copy</li> </ol>	
Remarks	<p>Provide any additional information regarding the collection. This information can be viewed by other users handling the request.</p>	

Field	Description	Sample Values
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
View LC	User can view the LC details.	
View LC Events	User can view the LC Events.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.	
<b>Action Buttons</b>		
Submit	On submit, task will move to next logical stage of Import LC Closure.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later.  This option will not submit the request.	
Cancel	Cancels the Import LC Closure. Details entered will not be saved and the task will be removed.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.  This option is used, if there are any pending information yet to be received from applicant.	

## Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.

2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

## Data Enrichment

As part of Data Enrichment, user can enter/update new Export LC Reopen request.

Export LC Reopen request that is received at the desk will move to DE stage post successful Registration stage. The transaction will have the details entered during the Registration stage.

### Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task at Data enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

3. Click Trade Finance > Tasks > Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The Data Enrichment stage has sections as follows:

- Main Details
- Availability Shipment
- Document Details
- Payment Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields.

## Main Details

Main details section has two sub section as follows:

- Application Details
- LC Details

## Application Details

All fields displayed under Basic details section, would be read only except for the **Priority**.

The screenshot displays the Oracle application details for 'Export LC Reopen' (Application No: 032ELCR000175928). The interface is divided into two main sections: 'Main Details' and 'LC Details'. The 'Main Details' section includes fields for Advising Bank Reference (032ELAC23215ARFD), Priority (Medium), Contract Reference Number (032ELAC23215ARFD), MT 720 - Transfer LC (selected), Submission Mode (Desk), Advising Date (Aug 3, 2023), Beneficiary (032204 Air Arabia), Reopen Date (Aug 3, 2023), Branch (032-Oracle Banking Trade Finan...), Process Reference Number (032ELCR000175928), and Issuing Bank (032302 Abu Dhabi Islam). The 'LC Details' section includes LC Type (Sight), 40A/B - Form of Documentary Credit (IRREVOCABLE), 31C - Date of Issue (Aug 3, 2023), 51A - Applicant Bank (032303 Dubai Bank), 39C - Additional Amount Covered, Advising Bank (032309 RAKBANK), Form of Documentary Credit Details, 40E - Applicable Rules (UCPURR LATEST VERSION), Applicant (032205 Aldar Properties), Amount In Local Currency, Product Code (ELAC), User Reference Number (032ELAC23215ARFD), Date of Expiry (Dec 28, 2023), 39A - Percentage Credit Amount Tolerance, and Auto Close (disabled). The Closure Date is set for Jan 27, 2024. The interface includes a navigation menu on the left, a top header with the Oracle logo and user information, and a bottom toolbar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Advising Bank Reference	Read only field. Advising Bank Reference selected for reopen in Registration stage will be displayed as a read only field.	
MT 720 – Transfer LC	Read only field. Displayed as available from earlier stage.	
Beneficiary	Read only field. Displayed as available from earlier stage.	001344
Branch	Read only field. Displayed as available from earlier stage.	203-Bank Futura -Branch FZ1
Priority	Priority to default based on priority maintenance and user should be allowed to change. Values are High, Medium and Low.	High
Submission Mode	Read only field. Displayed as available from earlier stage.	Desk
Process Reference Number	Read only field. Displayed as available from earlier stage.	
Currency Code, Amount	Read only field. This field displays the currency code of LC along with the currency details as per the latest LC details.	

Field	Description	Sample Values
Advising Date	Read only field. Displayed as available from earlier stage.	04/13/2018
Reopen Date	Read only field. System to default the branch's current date.	04/13/2018
Issuing Bank	Read only field. Displayed as available from earlier stage.	

## LC Details

The user can view the latest LC values displayed in the respective fields. All fields displayed in LC details section are **read only** fields.

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
LC Type	Read only field. The value used for LC Type as per the latest LC details is displayed.	
Advising Bank	Read only field. This field displays the advising bank details as per the latest LC.	
Product Code	Read only field. This field displays the product code used during LC Reopen.	
Product Description	Read only field. This field displays the description as in Export LC Reopen.	
40A - Form of Documentary Credit	Read only field. This field displays the form of documentary credit as per the selection done at the time of Export LC Reopen.	

Field	Description	Sample Values
Form of Documentary Credit Details	Read only field. This field displays the form of documentary credit details.	
User Reference Number	Read only field. Displayed as available from earlier stage.	
Reference to Pre-Advice	Read only field. This field displays the details of Pre-Advice, if issued by the bank.	
Date of Issue	Read only field. This field displays the LC issuance date.	
Applicable Rules	Read only field. This field displays the applicable rule as per the latest LC details.	
Date Of Expiry	Read only field. This field displays the expiry date as per the latest LC details.	09/30/18
Place of Expiry	Read only field. This field displays the place of expiry as per the latest LC details.	
Applicant Bank	Read only field. This field displays the applicant bank details as per the latest LC details.	
Applicant	Read only field. This field displays the details of the applicant as per the latest LC details.	
Percentage Credit Amount Tolerance	Read only field. This field displays the percentage credit amount tolerance details as per the latest LC details.	
Limits/Collateral Required	Read only field. Limits/Collateral applicable as per the latest LC details is displayed.	
Additional Amount Covered	Read only field. This field displays the details of additional amount covered as per the latest LC details.	
Amount In Local Currency	Read only field. Amount in local currency as per the latest LC details should be displayed.	

Field	Description	Sample Values
Auto Close	<p>Read only field.</p> <p>Toggle On: Enable the toggle indicates Auto close is required for that transactions.</p> <p>Toggle Off: Disable the toggle indicates Auto close is not required for that transactions.</p>	
Closure Date	<p>Read only field.</p> <p>System default the "Closure Date" with the value "Expiry Date" + No of Closure days maintained in the respective Product in which the contract has been created.</p> <p>System automatically close the contract on the specified "Closure Date" if "Auto Close" is selected as "Yes" for the specific contract.</p>	

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	<p>Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.</p>	
Documents	<p>Click to View/Upload the required document.</p> <p>Application displays the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>User can capture remarks as well as see remarks made in the earlier screens/stages.</p>	
Overrides	<p>Click to view overrides, if any.</p>	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
View LC	User can view the LC summary with the latest LC details values.	
View LC Events	User can view the LC Events.	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	

Field	Description	Sample Values
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	This button is disabled in this hop.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

## Availability Shipment

In this section user can view the basic details of Availability, Shipment and Goods description in the Export LC Reopen request.

Field	Description	Sample Values
Available With	Read only field. This field identifies the bank with which the credit is available.	
Available By	Read only field. This field displays how the credit is available.	
Drafts At	Read only field. This field displays drafts as per the latest LC details.	

Field	Description	Sample Values
Drawee	Read only field. This field displays drawee as per the latest LC details.	
Payment Details	Read only field. This field displays the payment details.	
Shipment Details		
Partial Shipments	Read only field. Partial Shipment as per the latest LC details is displayed.	
Transshipment	Read only field. Transshipment as per the latest LC details is displayed.	
Place Of Taking In Charge	Read only field. The Place of Taking Charge as per the latest LC details is displayed.	
Port Of Loading	Read only. The Airport/Port of loading as per the latest LC details is displayed.	
Port Of Discharge	Read only field. The Airport/Port of discharge as per the latest LC details is displayed.	
Place Of Final Destination	Read only field. The place of final destination as per the latest LC details is displayed.	
Latest Date Of Shipment	Read only field. The latest date for shipment as per the latest LC details is displayed.	
Shipment Period	Read only field. Shipment period as per the latest LC details is displayed.	
Transport Details	Read only field. The transportation details of shipment.	

## Description Of Goods And Or Services

This field contains a description of the goods and/or services. Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
INCO Terms	Read only field. Default INCO Terms as per the latest LC details is displayed.	
INCO Description	Read only field. Defaults INCO terms description as in LC Issuance.	
Goods Code	Read only field. Displays the goods code.	
Goods Type	Read only field. Displays the goods type depending on goods code.	
Goods Description	Read only field. The goods description is auto populated depending on selected goods code.	
No of Units	Read only field. Number of units being imported or exported.	
Price per Unit	Read only field. The value for price per unit.	
Total Amount	Read only field. System calculates the total price. In case of online request, the system should populate the total amount from incoming request. System should validate that the total amount is equal to the value of the transaction (LC/ Collection).	
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	

Field	Description	Sample Values
Documents	<p>Click to View/Upload the required document.</p> <p>Application displays the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>● <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

## Documents Details

User can view the Documents and conditions details for Export LC reopen.

The screenshot displays the Oracle Export LC Reopen application interface. The top navigation bar includes the Oracle logo, user information (ENTITY\_ID1, ENTITY\_J...), and the date (Aug 3, 2023). The main header shows the application name 'Export LC Reopen' and the application number '032ELCR000175928'. The interface is divided into several sections:

- Document Details:** A table with columns: Code, Document Description, Copy, Original, Clause Details, Original Doc. Required, and Action. The table is currently empty, displaying 'No data to display.'
- Additional Conditions:** A table with columns: FFT Code, FFT Description, and Action. This table is also empty, displaying 'No data to display.'

The bottom of the interface features a navigation bar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'. A left sidebar contains a menu with options like 'Main Details', 'Availability Shipment', 'Document Details', 'Payment Details', 'Additional Fields', 'Advices', 'Additional Details', 'Settlement Details', and 'Summary'. The 'Document Details' option is currently selected.

## Document Details

Documents details as per the latest LC details is displayed.

Field	Description	Sample Values
Code	Document code is auto-populated from the latest LC.	
Document Description	Description of the document is auto-populated from the latest LC.	
Copy	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	
Clause Details	Description of the clause required as per LC.	
Original Doc Required	System defaults the value to display whether original documents are required or not.	
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

## Additional Conditions

Additional conditions as per the latest LC details is displayed.

FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	

Field	Description	Sample Values
Documents	<p>Click to View/Upload the required document.</p> <p>Application displays the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. Partial Confirmation Allowed	Read only field. Partial confirmation allowed/not allowed as per the latest LC details is displayed.	
Confirmation %	Read only field. Confirmation percent as per the latest LC details is displayed.	

Field	Description	Sample Values
Confirmation Amount	Read only field. Confirmation amount as per the latest LC details is displayed.	
Reimbursing Bank Charge Type	Read only field. Displays the reimbursing bank charge type. The options are: <ul style="list-style-type: none"> <li>• Claimants - Select this option, if the charges are to be claimed from Beneficiary</li> <li>• Ours - Select this option, if the charges are to be borne by Applicant</li> </ul> This field should be enabled only if <b>Reimbursing Bank</b> field has value.	
Requested Confirmation Party	Read only field. Requested Confirmation Party, as per the latest LC details is displayed.	
Reimbursing Bank	Read only field. Displays the reimbursing bank details.	
Advise Through Bank	Read only field. Advise Through Bank, as per the latest LC details is displayed.	
Instructions to P/A/N Bank	Read only field. Instructions to P/A/N Bank, as per the latest LC details is displayed.	
Sender to Receiver Information	Read only field. Sender to Receiver Information as per the latest LC details is displayed.	
Charges	Read only field. Charges as per the latest LC details is displayed.	

MT730- Acknowledgment Sent

Sender to Receiver Information	Read only field. Displays the sender to receiver information.	
Narrative	Read only field. Displays the narrative.	
Issuing Bank Account No	Read only field. Displays the issuing bank account number.	
Charges to be Claimed	Read only field. Displays the charges that is to be claimed.	

Field	Description	Sample Values
Charges	Read only field. Displays the Charges as per the latest LC details	
Issuing Bank Date	Read only field. Displays the date of issuing.	04/13/2018
Account with Bank		
MT710 - Information to Advise Through Bank		
Sender to Receiver Information	Read only field. Displays the sender to receiver information.	
Instructions to Intermediary Bank	Read only field. Displays the instructions to Intermediary Bank.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	

Field	Description	Sample Values
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

## Additional Fields

In this section, the user can input in the additional fields implemented by the bank for Export LC Reopen.

Any user defined fields maintained at the bank level should be available in this Additional field details.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	

Field	Description	Sample Values
Documents	<p>Click to View/Upload the required document.</p> <p>Application displays the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

## Advices

DE user can view the Advices generated during Import LC Reopen request. Advices menu displays the advices available under a product code from the back office as tiles. Some of the possible advices could be of LC closure, payment message, etc.

The screenshot shows the Oracle Data Enrichment interface. At the top, there is a navigation bar with the Oracle logo, user information (ENTITY\_ID1, ENTITY\_ID2, FLEXCUBE UNIVERSAL BAN., Aug 3, 2023), and a user profile (ZARTAB01, subham@gmail.com). Below the navigation bar, there is a header for the current application: 'Export LC Reopen' and 'DataEnrichment :: Application No:- 032ELCR000175962'. The main content area is divided into a sidebar and a main panel. The sidebar contains a list of navigation options: Main Details, Availability Shipment, Document Details, Payment Details, Additional Fields, Advices (highlighted), Additional Details, Settlement Details, and Summary. The main panel displays the 'Advices' menu, which shows a list of advices. One advice is visible: 'Advice : PAYMENT\_MESS...' with details: Advice Name: PAYMENT\_MESSAGE, Advice Party: Party Name, Suppress: NO, and Advice. The bottom of the interface has a navigation bar with buttons for Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

The user can also suppress the Advice, if required.

## Revolving Details

The 'Revolving Details' form contains the following fields:

- Revolving: No (dropdown)
- Revolving In: (dropdown)
- Revolving Frequency: (dropdown)
- Revolve Units: (dropdown)
- Next Reinstatement Date: (calendar icon)
- Cumulative:
- Automatic Reinstatement:

Provide the Revolving Details based on the description in the following table:

Field	Description	Sample Values
Revolving	Select if the LC is revolving or not using the drop down.	
Revolving In	Select the mode of revolving in this field. The LC can revolve with Time or Units.	

Field	Description	Sample Values
Revolving Frequency	In case the LC revolves with time, then this field should be updated. This field captures the frequency in days and months by which the LC revolves.	
Revolving Units	You can capture the units by which the LC revolves.	
Next Reinstatement Date	This field defaults the date of next reinstatement for the LC based on the revolving frequency selected.	
Cumulative	This field is a toggle to indicate if the LC value has to be cumulative or not on reinstatement.	
Automatic Reinstatement	This field enables you to have automatic reinstatement on the reinstatement day without manual intervention.	

## Limits and Collaterals

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

## Summary

User can review the summary of details updated in Data Enrichment stage Import LC Reopen request.

As part of summary screen, the user can see the summary tiles. The tiles should display a list of important fields with values and the user can drill down from summary Tiles into respective data segments.

The screenshot shows the Oracle Summary screen for an Export LC Reopen application. The interface includes a top navigation bar with the Oracle logo, user information (ENTITY\_ID1, FLEXCUBE UNIVERSAL BAN., Aug 3, 2023), and a ZARTAB01 user profile. Below the navigation bar, there are tabs for Clarification Details, Documents, Remarks, Overrides, and Customer Instruction. The main content area is titled 'Summary' and contains a grid of 16 summary tiles arranged in four rows and four columns. A left sidebar shows a navigation menu with options like Main Details, Availability Shipment, Document Details, Payment Details, Additional Fields, Advices, Additional Details, Settlement Details, and Summary (which is currently selected). The bottom of the screen features an 'Audit' button and a row of action buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

- Parties Details - User can view party details like applicant, advising bank etc.,.
- Compliance: User can see the compliance details tiles. The status should be verified for KYC, AML and Sanction Checks.
- Accounting Details: User should be able to view the accounting details.

**Note**

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “Value Date is different from Transaction Date for one or more Accounting entries.

- Settlement Details: User can see the Settlement details.
- FX Linkage - User can view the FX linkage details.

**Action Buttons**

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Save & Close	<p>Save the details provided and holds the task in 'My Task' queue for further update.</p> <p>This option will not submit the request.</p>	
Back	Click Back to move to the previous screen of Data Enrichment stage.	

Field	Description	Sample Values
Submit	<p>Task will move to next logical stage of Import LC Reopen.</p> <p>If mandatory fields have not been captured, system will display an error message highlighting that the mandatory fields have to be updated. In case of duplicate documents' system will terminate the process after handing off the details to back office.</p>	

On submit of DE Stage, if Limits Earmark or Amount block fails, system should park the task in Limit Exception stage or Amount Block exception stage as required.

## Multi Level Approval

This stage allows the approver user to review and approve the Import LC Reopen request.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

### Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

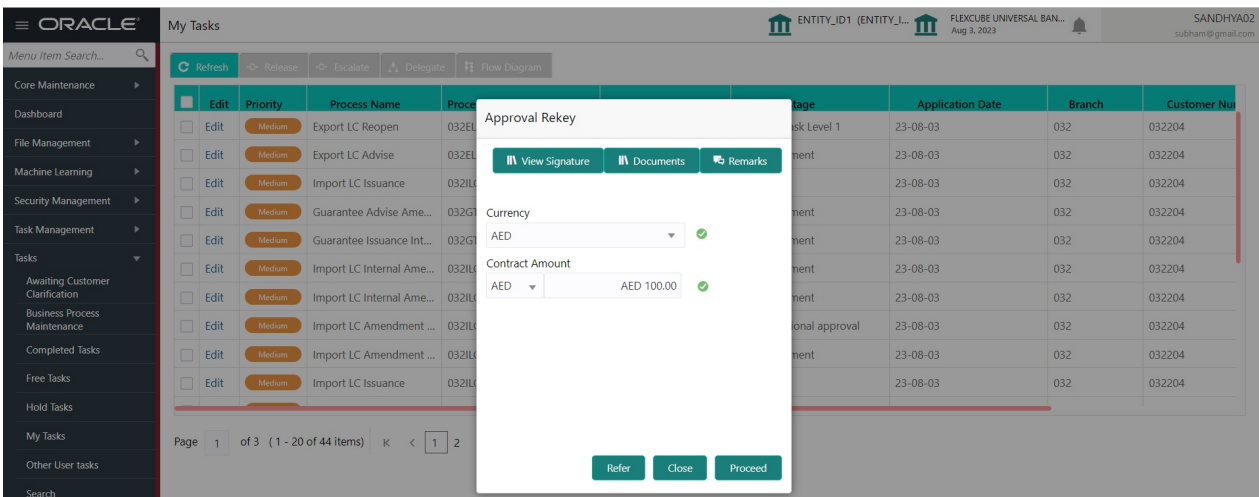

## Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
View Signatures	<p>Click the View Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	

### Action Buttons

Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R5 - Others</li> </ul>	
Proceed	On proceed, the screen navigates to approval summary screen.	
Close	Close the Export LC Reopen Approval Rekey screen.
