Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Guarantee Issuance Amendment - Beneficiary Consent transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance Middle Office platform, which enables Bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Issuance Amendment - Beneficiary Consent

Guarantee/ SBLC issued by the Issuing Bank/Local Guarantee Bank can be amended to modify the underlying Terms and Conditions of the Guarantee/SBLC. Some of these amendments may require beneficiary to accept the terms of the amendment.

The Guarantee Issuance Amendment Beneficiary Consent process enables the bank user to capture the beneficiary response to the Guarantee amendment issued. Beneficiary Consent of Amendment Issued at the

- Issuing Bank
- Counter- Guarantee Issuing Bank (CIB)
- Local Guarantee Issuing Bank (LIB)

The consent may be either received direct from the beneficiary or through SWIFT messages.

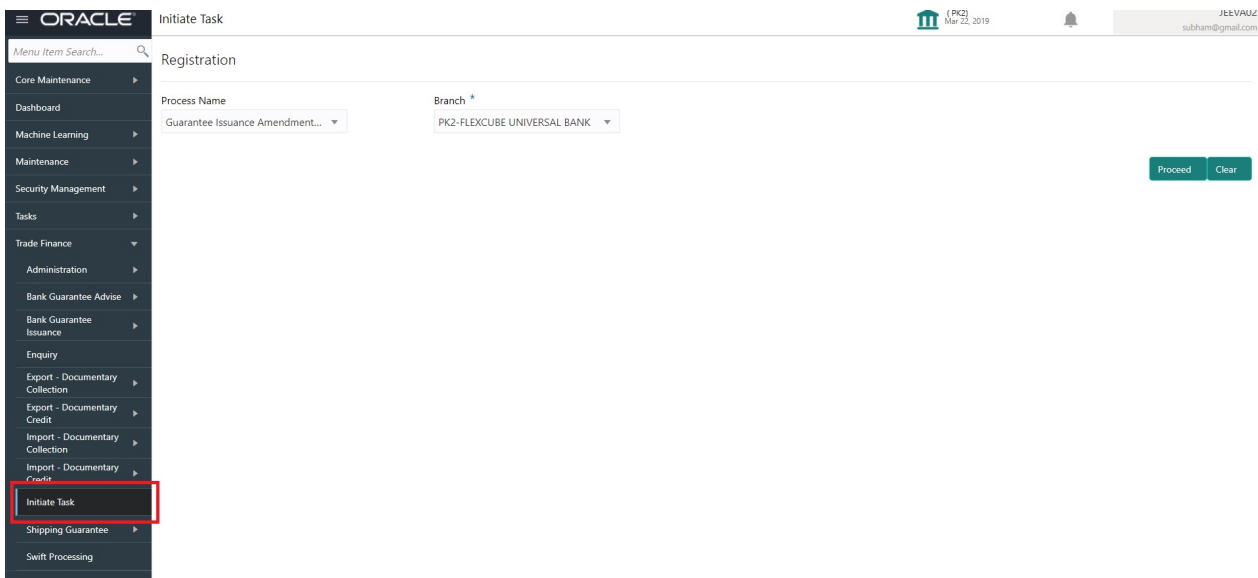

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Exceptions

Common Initiation Stage

The user can initiate the new Guarantee Issuance Amendment Beneficiary Consent request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

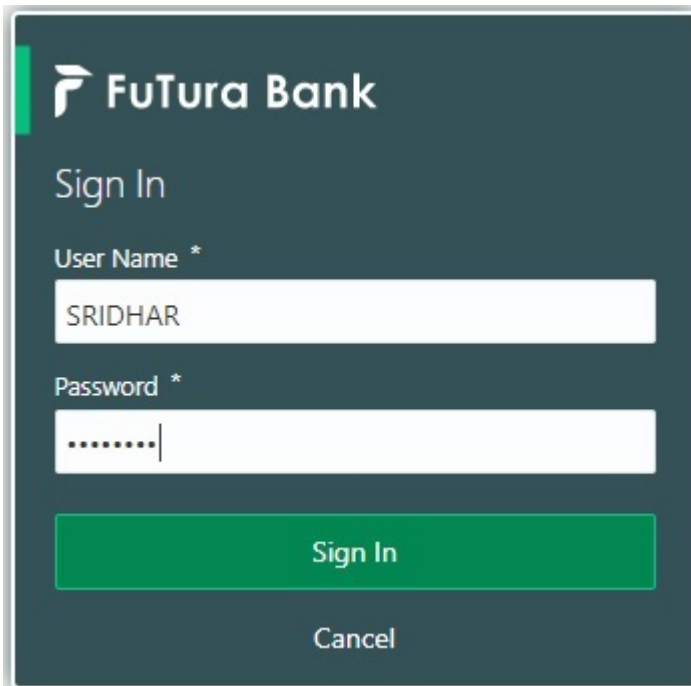

Registration

During Registration stage, user can register the Beneficiary's response for the amendment to the Guarantee. User can enter the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

Data Enrichment

SBLC/ Guarantee Amendment - Beneficiary Consent request that were received at the desk will move to Data Enrichment stage post successful Registration. The requests will have the details entered during the Registration stage. Registration user can input details in Application Details and in Beneficiary Response Capture section. If Registration user has entered details only in Application details, then DE user can input the details.

DE user can also change the details in Beneficiary Response Capture if already captured by Registration user.

The user can view the requests that are received via online channel like SWIFT are available directly in Data Enrichment for further processing from Beneficiary Consent Response Capture stage.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Beneficiary Consent Response Capture stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the FuTura Bank logo and name. Below the header, the text "Sign In" is displayed. There are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. A green "Sign In" button is located at the bottom of the form.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image displays the FuTura Bank dashboard. The left sidebar contains navigation options: Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main dashboard area is titled "Dashboard" and shows several widgets. The top row includes "Draft Confirmation Pending", "Hand-off Failure", and "Priority Details". The middle row includes "High Value Transactions" (a bubble chart), "SLA Breach Details", and "Priority Summary". The bottom row includes "Hold Transactions", "SLA Status", and "Tasks Detailed".

Action Buttons

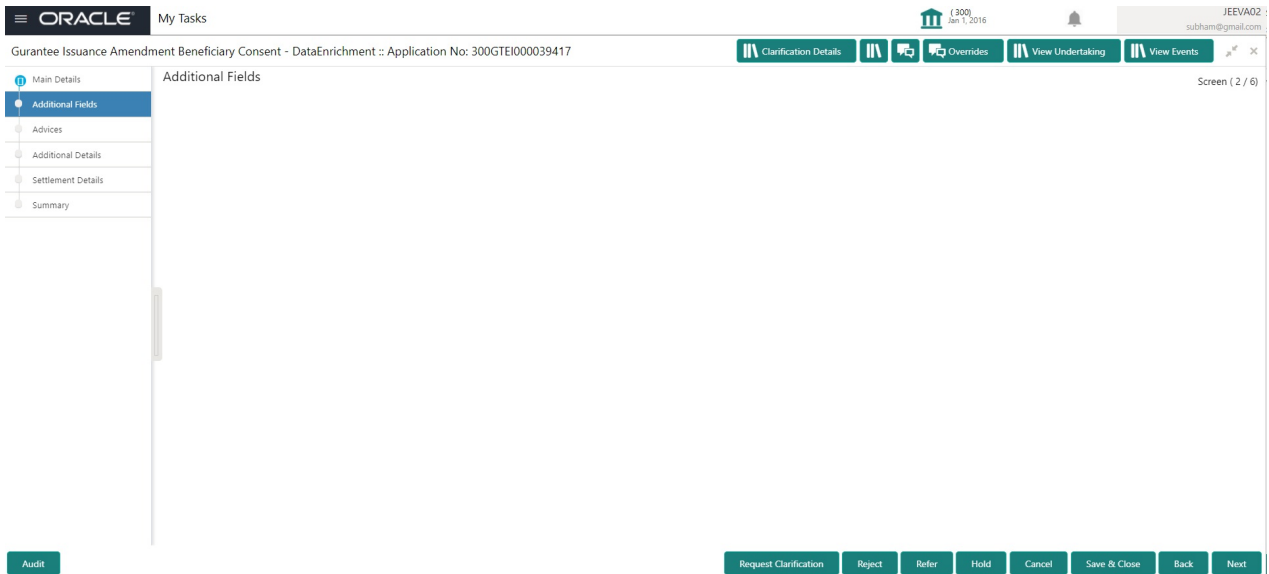

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View Undertaking	Clicking this button allows the user to view the undertaking details.	
View Events	Clicking this button allows the user to view the various events under the Guarantee amendment details.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	NA for beneficiary consent.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Registration/previous user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Cancel	Cancel the Beneficiary Consent Response Capture stage inputs.	
Save & Close	<p>Save the information provided and holds the task in 'My Task' for working later.</p> <p>This option will not submit the request.</p>	
Next	Click Next to move to next logical step in Beneficiary Consent Response stage.	

Additional Fields

This stage allows adding more fields that are required to process the request. These fields can be configured as part of implementation of the product.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View Undertaking	Clicking this button allows the user to view the undertaking details.	
View Events	Clicking this button allows the user to view the various events under the Guarantee amendment details.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	NA for beneficiary consent.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the Registration/previous stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others.

Additional Details

Following tiles are present in Additional Details section:

- Limits and Collateral section

- Charges, commission and Taxes simulated from back office and populated in this screen

Limit and Collateral

If the Guarantee Issuance is at Counter Issuing Bank (CIB), the user can enter the details.

On Approval, system should not release the Earmarking against each limit line and system should handoff the “Limit Earmark Reference Number” to the back office. On successful handoff, back office will make use of these “Limit Earmark Reference Number” to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Provide the Limit Details based on the description in the following table:

Language	Read only field. English is set as default language for the preview.	
Advice Type	Select the advice type.	
Message Status	Read only field. Display the message status of advice message of guarantee details.	
Repair Reason	Read only field. Display the message repair reason of advice message of guarantee details.	
Preview Message	Display a preview of the advice.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View Undertaking	Clicking this button allows the user to view the undertaking details.	
View Events	Clicking this button allows the user to view the various events under the Guarantee amendment details.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	NA for beneficiary consent.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	Cancel the Guarantee Issuance Amendment Beneficiary Consent inputs.	
Next	<p>Task will get moved to next logical stage of Guarantee Issuance Amendment Beneficiary Consent.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	

Settlement Details

The screenshot displays the Oracle Settlement Details interface. At the top, there's a navigation bar with 'ORACLE' logo and user information. Below that, a breadcrumb trail shows 'Guarantee Issuance Amendment Beneficiary Consent' and 'DataEnrichment :: Application No:- 032GTEI00002902'. A menu bar contains options like 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'View Undertaking', 'View Events', and 'Signatures'. The main content area is divided into a left sidebar with navigation options (Main Details, Additional Fields, Advices, Additional Details, Settlement Details, Summary) and a main panel. The main panel has a 'Settlement Details' section with a table of components and a 'Party Details' section with various input fields for transfer type, institutions, and payment details.

Component	Currency	Debit/Credit	Account	Account Description	Account Currency	Netting Indicator	Current Event
AGUIR_COM1_LIQD	AED	Debit	0322040001	Air Arabia	AED	No	No
AGUIR_COMM_LIQD	AED	Debit	0322040001	Air Arabia	AED	No	No
AVL_SET_LCAMT	AED	Debit	0322040001	Air Arabia	AED	No	No
AVL_SET_LCAMTEQ	AED	Credit	0322040001	Air Arabia	AED	No	No
CLAIM_CUST_AMT	AED	Debit	0322040001	Air Arabia	AED	No	No
CLAIM_CUST_AMT_FX	AED	Debit	0322040001	Air Arabia	AED	No	No
CLAIM_SETTLE_AMT	AED	Credit	0323020032	Abu Dhabi Islamic Bank	AED	No	No
COLLAMT_OS	AED	Credit	0322040001	Air Arabia	AED	No	No
COLLAMT_OSEQ	AED	Debit	0322040001	Air Arabia	AED	No	No
COLLAMNDAMT	AED	Debit	0322040001	Air Arabia	AED	No	No

Provide the settlement details based on the description in the following

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	System displays the default currency for the component.	
Debit/Credit	System displays the debit/credit indicators for the components.	
Account	System displays the account details for the components.	
Account Description	System displays the description of the selected account.	

Field	Description	Sample Values
Account Currency	System defaults the currency for all the items based on the account number.	
Netting Indicator	System displays the applicable netting indicator.	
Current Event	System displays the current event as Y or N.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer • None 	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges 	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> • Yes • No 	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

Field	Description	Sample Values
Receiver	Click Search to search and select the receiver.

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	

Exceptions

The Guarantee Amendment Beneficiary Consent request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view the application details and Guarantee details. User can only view but cannot modify the details.
- Additional Fields – User can view the User Defined Field maintained.
- Limits and Collaterals - User can view the limits and collateral details. User can only view but cannot modify the details.
- Commission Charges and Taxes - User can view the details provided for charges. User can only view but cannot modify the details.
- Advices - User can view the advice details.
- Preview Messages - User can have the preview of message.
- Settlement Details - User can view the Settlement details.
- Accounting Details - User can view the accounting entries generated by back office system.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “ Value Date is different from Transaction Date for one or more Accounting entries.

- Party Details - User can view the party details like beneficiary, advising bank etc. User can only view but cannot modify the details.
- Compliance Details - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	
Remarks	Click the Remarks icon to view the remarks captured as part of Exception stage and also can input Remarks, which can be seen by other users.

Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance- Limits ● R5 - Others 	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for Trade Finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

Summary

Tiles Displayed in Summary:

- Main Details - User can view the application details and Guarantee details. User can only view but cannot modify the details.
- Additional Fields – User can view the User Defined Field maintained.
- Limits and Collaterals - User can view the limits and collateral details. User can only view but cannot modify the details.
- Commission Charges and Taxes - User can view the details provided for charges. User can only view but cannot modify the details.
- Advices - User can view the advice details.
- Preview Messages - User can have the preview of message.
- Settlement Details - User can view the Settlement details.
- Accounting Details - User can view the accounting entries generated by back office system.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message " Value Date is different from Transaction Date for one or more Accounting entries.

- Party Details - User can view the party details like beneficiary, advising bank etc. User can only view but cannot modify the details.
- Compliance Details - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents.	

Field	Description	Sample Values
Remarks	Click the Remarks icon to view the remarks captured as part of Exception stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View Undertaking	Clicking this button allows the user to view the undertaking details.	
View Events	Clicking this button allows the user to view the various events under the Guarantee amendment details.	
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is available, system should display all the signatures.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	

Field	Description	Sample Values
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application, limit check exception queue. Limit check exception failed tasks for Trade Finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

Note

On Approval of the exception task, system should validate the Limit Availability, Limit Expiry Date in the Limit System and create Earmark in the ELCM system. In case if the Limit is not available or the Limit is expired, then system should display an error message and should not allow the user to approve and proceed.

Limit check Exception approver can do the following actions:

Approve

- Limit enhanced in the back end (outside this process).
- Without enhancing limit in the back end.

Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

Reject

The transaction due to non-availability of limits capturing reject reason.

Summary
