# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

## Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Guarantee SBLC Advised - Claim Settlement

As a part of Guarantee SBLC Advised Claim Settlement process, the user can initiate Settlement of Claim under a Guarantee/SBLC Advise.

This section contains the following topics:

[Common Initiation Stage](#)

[Registration](#)

[Data Enrichment](#)

[Multi Level Approval](#)

## Common Initiation Stage

The user can initiate the new settlement for a claim lodged under a Guarantee/SBLC advised request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM 'Initiate Task' screen. The page title is 'Initiate Task'. The breadcrumb is 'Registration'. The 'Process Name' dropdown is set to 'Guarantee Claim' and the 'Branch' dropdown is set to '300-International Payments-Fast...'. There are 'Proceed' and 'Clear' buttons on the right. The left sidebar menu has 'Initiate Task' highlighted with a red box.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

## Registration

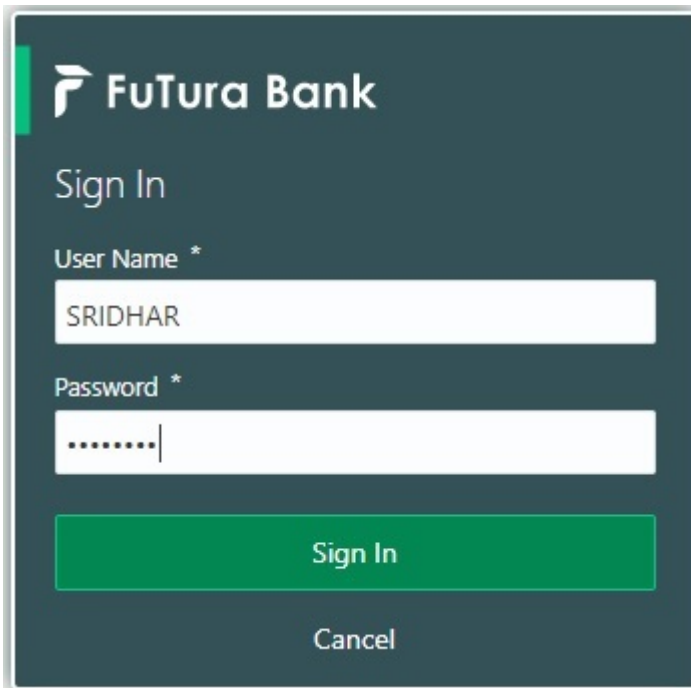

During the Registration stage, the user can register settlement of claim under a Guarantee/SBLC Advised.

In this stage the user can initiate Settlement of Claim under a Guarantee/ SBLC Advised. The user can capture the basic details of the application.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E ( of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name \*' with the value 'SRIDHAR' and 'Password \*' with masked characters. A prominent green button labeled 'Sign In' is positioned below the password field. At the bottom center, there is a 'Cancel' link.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Bank Guarantee Advise> Guarantee SBLC Advised - Claim Settlement.

The Registration stage has two sections Application Details and Guarantee Details. Let's look at the registration screens below:

## Application Details

The request is received at the Branch/ Front office or Processing centre. The user should be able to input the following details.

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Guarantee/SBLC Number	User can enter the undertaking number. The user can also search the undertaking number through LOV search.	
Claim Serial Number	Read only field. System defaults the claim serial number to which settlement has to be done.	
Beneficiary ID/ Name	Read only field. System defaults the Beneficiary ID/ Name from Guarantee/ SBLC Advise.	001345
Branch	Customer's home branch will be displayed. Read only field. System defaults the branch name from Guarantee/ SBLC Advise.	203-Bank Futura -Branch FZ1
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	203GTEISS000 001134
Priority	Priority maintained will be populated as either 'Low or Medium or High'. If priority is not maintained for a customer, 'Medium' priority will be defaulted. The user can change the priority.	High

Field	Description	Sample Values
Submission Mode	Select the submission mode of Guarantee Advise request. By default the submission mode will have the value as 'Desk'. <b>Desk</b> - Request received through Desk <b>Fax</b> - Request received through Fax <b>Email</b> - Request received through Email	Desk
Claim Settlement Date	By default, the application will display branch's current date for the claim settlement date. Read only field.   <b>Note</b> Future date and back date selection is not allowed.	04/13/2018
Beneficiary Reference Number	User can enter the Beneficiary Reference Number if available.	
Issuing Bank	Read only field. System defaults the Issuing Bank (applicable for CTB,LTB)	
Issuing Bank Reference Number	Read only field. System defaults the Issuing Bank Reference (applicable for CTB,LTB)	203GTEISS00001134
Version	Read only field. System defaults the version number.	

## Guarantee Details

Registration user can provide Guarantee details in this section.

Narrative - MT799	Specify or click <b>Search</b> to search and select the narrative.	

## Miscellaneous

The screenshot displays the Oracle Banking Trade Finance interface for a 'Guarantee SBLC Advised - Claim Settlement'. The application is divided into several sections:

- Application Details - Main:** Includes fields for Guarantee/SBLC Number (032GUAD23215A15U), Process Reference Number (032GADC00167459), Beneficiary Reference Number, User Reference Number (032GUAD23215A15U), Claim Serial Number (1), Priority (Medium), Issuing Bank (Abu Dhabi Islam), Beneficiary ID/Name (032204 Air Arabia), Submission Mode (Desk), Issuing Bank Reference Number, Branch (032-032-Oracle Banking Trade F...), Claim Settlement Date (Aug 3, 2023), and Version (1).
- Guarantee Details:** Includes fields for Guarantee Type (BILL), 31E Date of Expiry (Dec 28, 2023), 40C Applicable Rules (URDG - Uniform rules for dema...), Advising Bank, Accountee, 30 Date of Issue (Aug 3, 2023), Claim Date (Aug 3, 2023), Applicant Bank, Advise Through Bank, Claim Amount (AED 100.00), Purpose of Message (ADVI), Claim Expiry Date (Dec 28, 2023), 50 Applicant (032205 Aldar Properties), Counter Guarantee Issuing Bank, Claim Payment Amount (AED), 23B Expiry Type (FIXD), Outstanding Currency/ Amount (AED 100.00), 59A Beneficiary (032204 Air Arabia), Local Guarantee Issuing Bank, and Unlinked FX rate.
- Narrative:** A search field for '79 Narrative - MT799'.

Buttons at the bottom include 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	User can upload the claim documents. Application will display the mandatory and optional documents.	

Field	Description	Sample Values
Remarks	User can enter the additional information regarding the Claim Guarantee Advise Settlement. This information can be viewed by other users in other stages of the process.  Content from Remarks Field should be handed off to Remarks field in Backend application.	
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
View Guarantee/SBLC	User can view all the latest Guarantee/Standby LC details.	
Guarantee/SBLC Events	User can view all the previous events under the Guarantee/Standby LC.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant.	
Cancel	The Task gets cancelled and system should clear the details captured in the screen. The task will be deleted.	
Save & Close	Save the information provided and holds the task in 'My Task' for working later.  This option will not submit the request.	
Submit	On Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Guarantee/ SBLC Claim.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit. <ol style="list-style-type: none"> <li>1. Signatures on Claim verified</li> <li>2. Mandatory claim Documents received</li> </ol>	

## Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.

The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

5. Click **Fetch** to retrieve the details from DMS. System Displays all the documents available for the given Document Type and Document Code for the Customer.

Field	Description	Sample Values
Customer ID	This field displays the transaction Customer ID.	
Document ID	Specify the document Id.	
Document Type	Select the document type from list.	
Document Code	Select the document code from list.	
<b>Search Result</b>		
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	
Document ID	This field displays the document Code from meta data.	
Customer ID	This field displays the transaction Customer ID.	
Document Type	This field displays the document type from meta data.	
Document Code	This field displays the document code from meta data.	
Upload Date	The field displays the upload date of the document.	
Reference Number	The field displays the reference number of the document.	

6. Click **Link** to link the particular document required for the current transaction.

## Data Enrichment

On successful completion of Registration of a Guarantee SBLC Advise - Claim settlement request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details.

At this stage the gathered information during Registration stage and claim settlement request are scrutinized and enter the data as required.

**Note**

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

### 3. Click Trade Finance> Tasks> Free Tasks.

The Data Enrichment stage has five sections as follows:

- Main Details
- Additional Fields

- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of settlement of claim under Guarantee/SBLC - Data Enrichment Stage.

## Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

## Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [Application Details](#) in the Registration stage for more information of the fields.

The screenshot displays the Oracle application interface for a Guarantee/SBLC Advised - Claim Settlement. The main content area is divided into two sections: Application Details - Main and Guarantee Details. The Application Details - Main section includes fields for Guarantee/SBLC Number, Process Reference Number, Beneficiary Reference Number, User Reference Number, Claim Serial Number, Priority, Issuing Bank, Beneficiary ID/Name, Submission Mode, Issuing Bank Reference Number, Branch, Claim Settlement Date, and Version. The Guarantee Details section includes fields for Guarantee Type, 30 Date of Issue, Purpose of Message, 23B Expiry Type, 31E Date of Expiry, Claim Date, Claim Expiry Date, Outstanding Currency/ Amount, 40C Applicable Rules, Applicant Bank, 50 Applicant, 59A Beneficiary, Advising Bank, Advise Through Bank, Counter Guarantee Issuing Bank, Local Guarantee Issuing Bank, Accountee, Claim Amount, Claim Payment Amount, and Unlinked FX rate. The interface also features a navigation menu on the left, a top toolbar with buttons like Clarification Details, Documents, Remarks, Overrides, Customer Instruction, Incoming Message, and View Undertaking, and a bottom toolbar with buttons like Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

## Guarantee Details

The fields listed under this section are same as the fields listed under the [Guarantee Details](#) section in [Registration](#) except 'Status' field. Refer to [Guarantee Details](#) for more information of the fields.

Field	Description	Sample Values
Status	This field displays the status of the Guarantee claim settlement.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Data Enrichment stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	<p>Clicking this button allows the user to view the undertaking details.</p>	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Guarantee/ SBLC Claim update DE stage inputs.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

## Advices

This section defaults the advices maintained for the product based on the advices maintained at the Product level.

The user can also suppress the Advice, if required.

Field	Description	Sample Values
Suppress Advice	<p><b>Toggle on:</b> Switch on the toggle if advice is suppressed.</p> <p><b>Toggle off:</b> Switch off the toggle if suppress advice is not required for the amendments</p>	
Advice Name	<p>Read only field.</p> <p>Displays the advise name.</p>	
Medium	<p>The medium of advices is defaulted from the system. User can update if required.</p>	

Field	Description	Sample Values
Advice Party	Read only field. Value be defaulted from Guarantee /SBLC advise.	
Party ID	Read only field. Value be defaulted from Guarantee /SBLC advise.	
Party Name	Read only field. Value be defaulted from Guarantee /SBLC advise.	
Free Format Text		
	Click plus icon to add new FFT code.	
FFT Code	User can select the FFT code as a part of free text.	
FFT Description	FFT description is populated based on the FFT code selected.	
	Click edit icon to edit any existing FFT code.	
Action	Click Edit icon to edit the FFT details. Click Delete icon to delete the FFT details.	
Instruction Details		
	Click plus icon to add new instruction code.	
Instruction Code	User can select the instruction code as a part of free text.	
Instruction Description	Instruction description is populated based on the Instruction code selected.	
	Click edit icon to edit any existing Instruction code.	
Action	Click Edit icon to edit the instruction details. Click Delete icon to delete the instruction details.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Click the Remarks icon to view the remarks captured as part of Data Enrichment stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	Clicking this button allows the user to view the undertaking details.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>Click Next to move to next logical step in Data Enrichment stage.</p>	

# Settlement Details

The screenshot displays the Oracle Settlement Details interface. At the top, there's a navigation bar with tabs like 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Incoming Message', and 'View Undertaking'. Below this is a table of settlement components with columns: Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, Current Event, Original Exchange Rate, Exchange Rate, and Deal. The table lists several components like AVLE\_SET\_LCAMTEQ, CLAIM\_CUST\_AMT, and COLL\_AMT\_OSEQ, all with a currency of AED and account description 'Air Arabia'. Below the table, there are several form sections: 'AVL\_SET\_LCAMTEQ - Party Details' with fields for 'Ordering Institution', 'Account With Institution', 'Receiver', 'Senders Correspondent', 'Beneficiary Institution', 'Receivers Correspondent', 'Ultimate Beneficiary', and 'Ordering Customer'; 'Payment Details' with fields for 'Sender To Receiver 1' through '4'; and 'Remittance Information' with fields for 'Payment Detail 1' through '4'. The interface also includes a sidebar on the left with navigation options like 'Main', 'Advices', 'Settlement Details', and 'Summary', and a bottom bar with buttons like 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Read only field. System defaults the value from Guarantee /SBLC claim.	
Currency	Read only field. System defaults the value from Guarantee /SBLC claim.	
Debit/Credit	Read only field. System defaults the value from Guarantee /SBLC claim.	
Account	Read only field. System defaults the value from Guarantee /SBLC claim.	
Account Description	Read only field. System defaults the value from Guarantee /SBLC claim.	
Account Currency	Read only field. System defaults the value from Guarantee /SBLC claim.	

Field	Description	Sample Values
Netting Indicator	Read only field. System defaults the value from Guarantee /SBLC claim.	
Current Event	System displays the current event as Y or N.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF.	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

### Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> <li>• Customer Transfer</li> <li>• Bank Transfer for own account</li> <li>• Direct Debit Advice</li> <li>• Managers Check</li> <li>• Customer Transfer with Cover</li> <li>• Bank Transfer</li> </ul>	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> <li>• Beneficiary All Charges</li> <li>• Remitter Our Charges</li> <li>• Remitter All Charges</li> </ul>	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul>	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	

Field	Description	Sample Values
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

### Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

### Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to view the remarks captured as part of Data Enrichment stage and also can input Remarks, which can be seen by other users.</p>	
Overrides	<p>Click to view overrides, if any.</p>	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>● <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	<p>Clicking this button allows the user to view the undertaking details.</p>	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

## Summary

User can review the summary screen for Guarantee /Standby Advise - Claim settlement request.

In this section the user can see the summary tiles. The tiles must display a list of important fields with values. The tiles where fields have been amended is highlighted in different color, User must be also able to drill down from summary tiles into respective data segments.

### Tiles Displayed in Summary

- Main - User can view the application details and Guarantee/ Standby details. User can modify the details if required.
- Advices - User can view the advices details.
- Commission, Charges and taxes - User can view the details provided for commission, charges and taxes. User can modify the details if required.
- Preview Message - User can drill down to view the message preview, legal verification and customer draft confirmation details.
- Payment Details - User can view the payment details.
- Settlement Details – User should be able to view the settlement details.
- Party Details - User can view the party details like beneficiary, advising bank etc.
- Compliance – The compliance tile has the KYC, Sanctions and AML.
- Accounting Details - User can see the accounting details.

**Note**

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries.

- FX Linkage – User can view the FX Linkages.Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.

Field	Description	Sample Values
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Submit	On clicking Submit, system validates for all mandatory field values and the task should move to the next logical stage. If the user submits without visiting other mandatory steps, then error message is displayed and force the user to visit mandatory tabs/update mandatory fields.	

## Multi Level Approval

This stage allows the approver user to approve a Claim settlement under Guarantee Advise Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

### Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

## Re-Key Authorization

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Claim Amount
- Currency

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

### Approval Rekey
