This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, and MySQL are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1

Preface

Purpose

This guide helps to get started with Oracle Banking applications. It explains the basic design of Oracle and the common operations that can follow while using it. The guide must be used as a supplement and read in conjunction with Common Core, Security Management System, and other application user guides.

Audience

This guide is intended for the Customer Service Representatives (CSR) and staff responsible for setting up new products in your bank.

List of Topics

This topic helps the user to understand the List of Topics.

This manual is organized as follows:

Table 1-1 Topics

Topics	Description
Access Application	This topic provides the information about installation of different kinds of services.
Application Environment	This topic provides the information about different types of screen environment.
How to's	This topic provides the information about how to access the screens.
Screen / Dashboard	This topic provides the information about screens / Dashboard.
Common Fields	This topic provides the information about common fields.
Common Buttons	This topic provides the information about common buttons

2

Access Application

The user can access any application using the link provided by the administrator. Contact the administrator for URL and the login credentials.

For more information on Users and Roles, refer to **Oracle Banking Security Management System User Guide**.

This topic contains the following subtopics:

- [Sign In](#)
- [Sign Out](#)

Sign In

This topic provides systematic instructions to sign into the application.

Make sure that the valid user name and password is created for the user.

1. Specify the URL in the browser address and press **Enter**.
The **Sign In** screen displays.

Figure 2-1 Sign In

The screenshot shows a web-based sign-in interface. At the top, the word "ORACLE" is displayed in a red, sans-serif font. Below the logo, the text "User Name" is positioned above a white rectangular input field. Underneath that, the text "Password" is positioned above another white rectangular input field. At the bottom of the form, there is a black rectangular button with the text "Sign In" in white.

2. Specify the fields **User Name** and **Password**.

For more information on fields, refer to the field description table.

Table 2-1 Sign In – Field Description

Field	Description
User Name	Specify the user name provided by the administrator.
Password	Specify the password provided by the administrator.

3. Click **Sign In** to login to the application.

The **Home** screen displays.

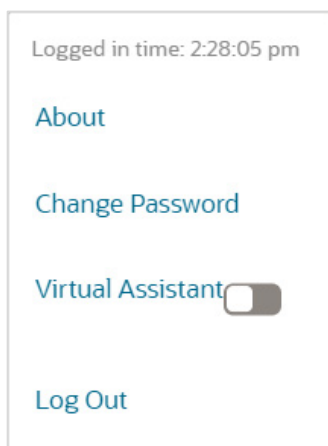

Sign Out

This topic provides systematic instructions to log out from the application.

Make sure that all the fields are entered and saved.

1. In the selected application, navigate to toolbar.
2. From toolbar, click user name logged into the application.

The **User Profile** fly-out screen displays.

Figure 2-2 User Profile

3. Click **Log out** to sign out from the application.

The application logs out.

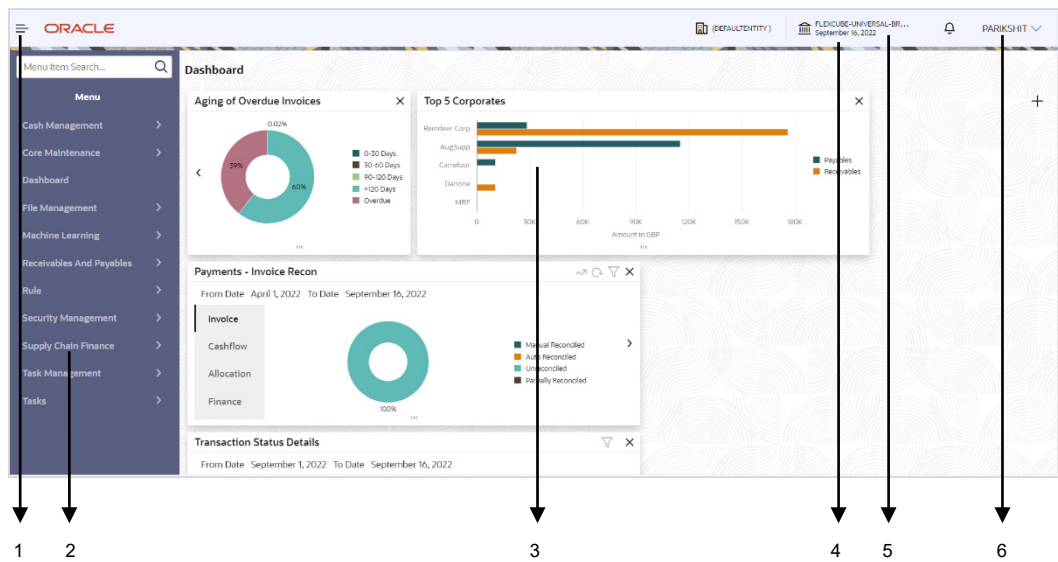

3

Application Environment

This topic describes about application environment.

On successful login, the application environment screen appears depending on the user privileges.

Figure 3-1 Application Environment

For more information on fields, refer to the field description table.

Table 3-1 Application Environment – Field Description

Field	Description
Hamburger Menu	Click expand/collapse the menu.
Menu	Click to navigate/open the screens associated with the application.
Sub-Menu	Click to navigate/open the screens associated with the application. These screens are associated with the menu depending on the user privileges.
Display Grid	Displays the screens/dashboards.

Table 3-1 (Cont.) Application Environment – Field Description

Field	Description
Bank Name	Displays the name of the bank and its branch code. Click to select the branches associated with the logged in user.  Note: Depending on the logged in user and the branches associated, the user can switch between branches and view the records.
Application Date	Displays the last performed application date of branch's EOD.
User Profile	Displays the user profile related options and actions.

This topic contains the following subtopics:

- [Screen Environment](#)

Screen Environment

This topic describes about screen environment.

This topic contains the following subtopics:

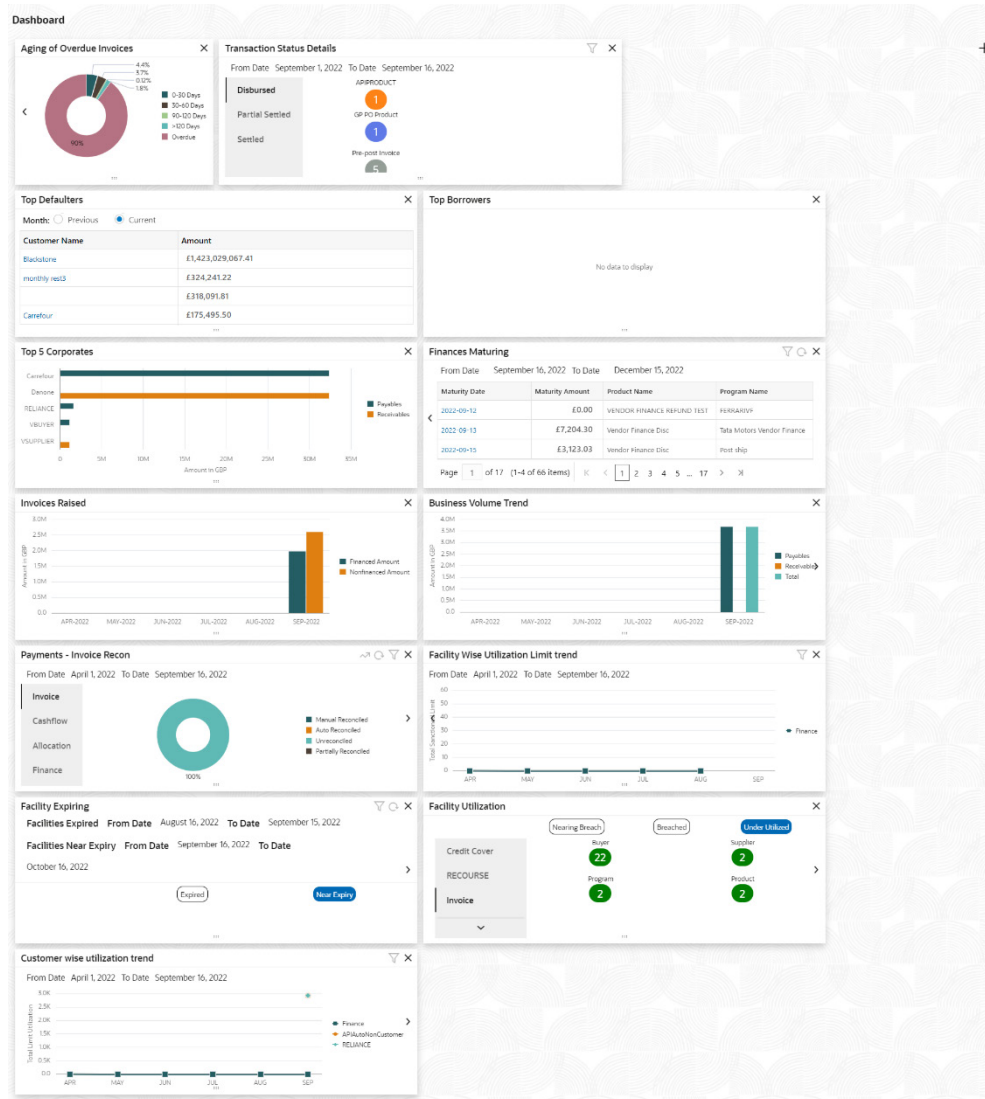

- [Dashboard](#)
- [View Screen](#)
- [Create Screen](#)

Dashboard

This topic describes about the dashboard.

Depending on the access/permission provided to the logged-in user, the user can view the dashboards associated with the user. These dashboard helps the user to analyse the situation and take the necessary actions.

Figure 3-2 Dashboard

View Screen

This topic describes about view screens.

Depending on the access/permission provided to the logged in user, the user can access the summary screen. The view screen provides information about the configured records, where the user can perform few common actions and view the records.

Figure 3-3 View Screen

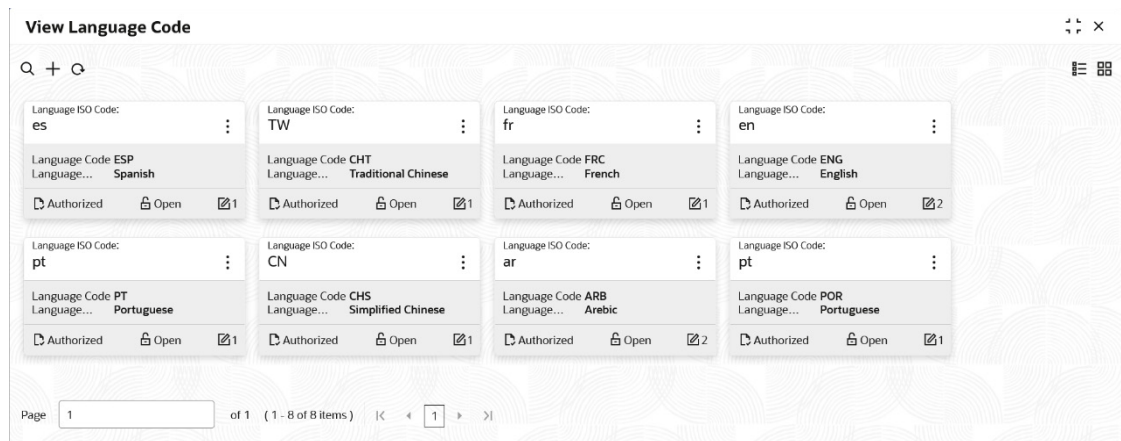

Table 3-2 View Screen – Field Description

Field	Description
Search	Click to search/view a record.
Refresh	Click to refresh all configured records.
Add	Click to create/configure a new record.
Pagination	Displays the number of items available and its page numbers.
Title bar	Displays the name of the screen, minimize, and remove actions. For more information, refer to Minimizing Records and Closing Records .
Records	Displays the configured records. The user can view the records in different format. For more information, refer to Viewing Records .
Tile view	Displays the configured records in the tile format.
List view	Displays the configured records in the list format.

Create Screen

This topic describes about create screens.

Depending on the access/permission provided to the logged-in user, the user can access the create screen. The create screen allows the user to create/configure the new records using the fields associated with the selected create screen. These new records can also be saved.

Figure 3-4 Create Screen

The screenshot shows a web form titled "Create Host Code". The form has a light gray background with a subtle pattern. It contains five input fields arranged in two rows. The first row has "Host Code" and "Description". The second row has "Country Code", "Processing Time Zone", and "Default Branch Code". Each field has a search icon and is labeled "Required". At the bottom right, there are "Cancel" and "Save" buttons.

For more information on fields, refer to the field description table.

Table 3-3 Create Screen – Field Description

Field	Description
Fields	Displays the fields associated with the selected create screen. There are several types of fields such as text box, drop-down, and so on. These fields are either mandatory or options fields. For more information, refer to Mandatory and Optional Fields .
Tile bar	Displays the name of the screen, minimize, and remove actions. For more information, refer to Minimizing Records and Closing Records .
Save	Click to Save the entered details.
Cancel	Click to reset the entered details.

4

How to's

This topic describes about the different types of actions that the user can perform.

As a new user, the user need to perform a set of tasks that are similar in all the screens such as view, edit, delete existing records, and more.

When the user is working with records, it is important to remember that any records that user create, view, edit, delete, and more are determined by administrator settings such as user profile or permission set. Work with the administrator to ensure that the user have access to the records and data.

Now, you have learned how to work with your records, you might want to explore more advanced features.

This topic contains the following subtopics:

- [Access the Records](#)
- [View the Records](#)
- [Search the Records](#)
- [Refresh the Records](#)
- [Create/Configure the Records](#)
- [Copy the Records](#)
- [Unlock the Records](#)
- [Reopen the Records](#)
- [Delete the Records](#)
- [Print the Records](#)
- [Authorize the Records](#)
- [Minimize and Maximize the Records](#)
- [Close the Records](#)
- [Audit the Records](#)

Access the Records

This topic provides systematic instructions to access the records.

The user can access the screens on the permissions/rights provided for the user.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to the hamburger menu.
By default, the hamburger menu is expanded.
2. Click sub-menu, <name of the screen>.
The screens associated with the sub-menu appears.

3. Create <name of the screen>.

The screen appears. The user can create/configure the new records.
4. View <name of the screen>.

The screen appears. The user can view the configured records.

View the Records

This topic describes about viewing the records.

The user can view the summary of all configured records in the selected summary screen. This helps you to find the required record faster.

A few different formats to view the records are as follows:

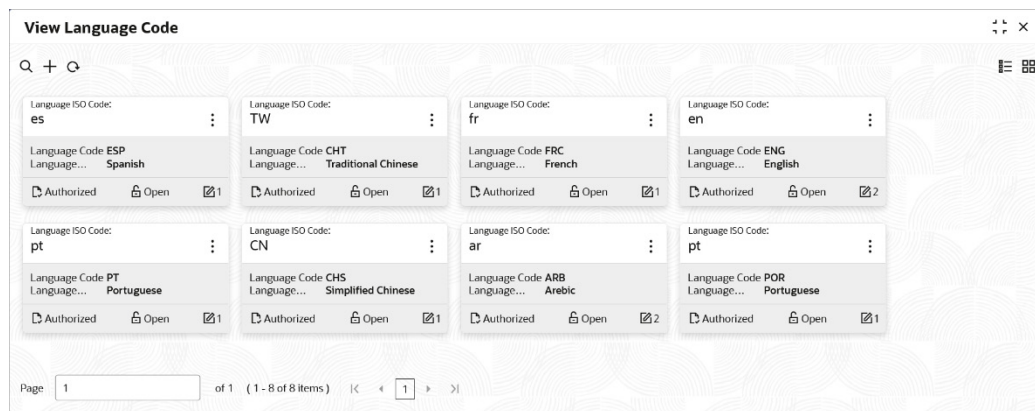

- [Tile View](#)
- [Tile View with Context Menu](#)
- [List View](#)

Tile View

This topic describes about view the record in tile view.

The default summary view of the records are tile view. Displays the configured records in a tile format with few key fields that are associated with the screen. The user can click a tile to open a record in a full screen and view the details.

Figure 4-1 Tile View

Tile View with Context Menu

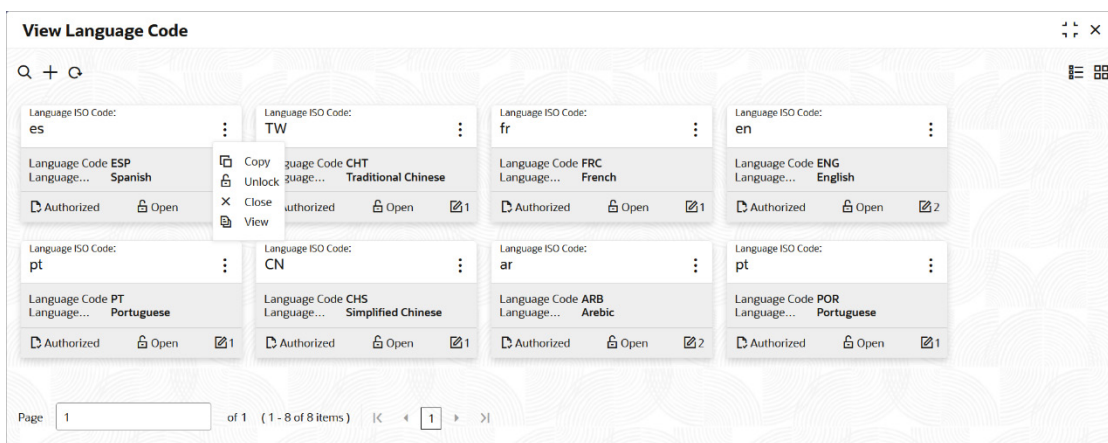

This topic describes about view the record in tile view with context menu.

Tile view with context menu is similar to any tile view summary record. The context menu allows the user to perform any actions that are associated with the records.

The content menu is available for:

- View Account Input
- View Account Closure
- View Account Product
- View Internal Credit Line
- View Line Account Linkage
- View Bank Parameters
- View Virtual Entity
- View Corporate Specific Account Number Range

Figure 4-2 Tile View with Context Menu

For more information on fields, refer to the field description table.

Table 4-1 Tile View with Context Menu - Field Description

Field	Description
Context Menu	This button appears only to a select the number of screens. The context menu allows the user to perform actions that are associated with the record.
Context Menu Flyout	A list of all actions appears. The list of actions depend on the status of the record.

List View

This topic provides systematic instructions to view the record in list view.

Specify **User ID** and **Password**, and login to **Home** screen.

The list view displays the configured records in a list format.

1. Navigate to **View** screen.
2. Click **List View** on the action toolbar to view the details.

The details in the screen appears in list view.

Figure 4-3 List View

Search the Records

This topic provides systematic instructions to search the records.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click **Search** button.

The fields associated with the screen displays.

Figure 4-4 Search

The screenshot shows a "Search Filter" dialog box with the following fields and controls:

- Language Code:
- Language Name:
- Authorization Status:
- Record Status:
- Search:
- Reset:

3. Specify the required fields.
4. Click **Search**.

The requested record displays.

Refresh the Records

This topic provides systematic instructions to refresh the records.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click **Refresh** button.

The records associated with the screen is updated with the latest details.

Create / Configure the Records

This topic provides systematic instructions to create / configure the records.

The user can create / configure records in any of the three ways:

1. In the selected **View** screen, click **Add** to create / configure a record.
2. In the selected **View** screen, click on a **configured record** and click **New** to create / configure a record.
3. On the **menu**, select a **sub-menu** and click **<Create name of the screen>**.

Copy the Records

This topic provides systematic instructions to copy the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click the record that need to copy.
3. Click **Copy** to copy the selected record details and do the required changes to the record.
4. Click **Save**.

The modified record is saved.

Unlock the Records

This topic provides systematic instructions to unlock the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click the record that need to unlock.
3. Click **Unlock** to unlock the selected record details and do the required changes to the record.
4. Click **Save**.

The modified record is saved.

Reopen the Records

This topic provides systematic instructions to reopen the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click the record that need to reopen.
3. Click **Reopen**.

The **Confirmation** screen appears.

4. Specify a remark.
5. Click **Confirm** to reopen the record.

Delete the Records

This topic provides systematic instructions to delete the record.

Specify **User ID** and **Password**, and login to **Home** screen.

Note:

Make sure that the records have privileges and know the guidelines for deleting the records.

1. Navigate to **View** screen.
2. Click the **Record** that need to delete.
3. Click **Delete**.

The selected record is deleted.

Print the Records

This topic provides systematic instructions to print the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click the record that need to print.
3. Click **Print** to view the record in a print format.

The selected record is printed.

Authorize the Records

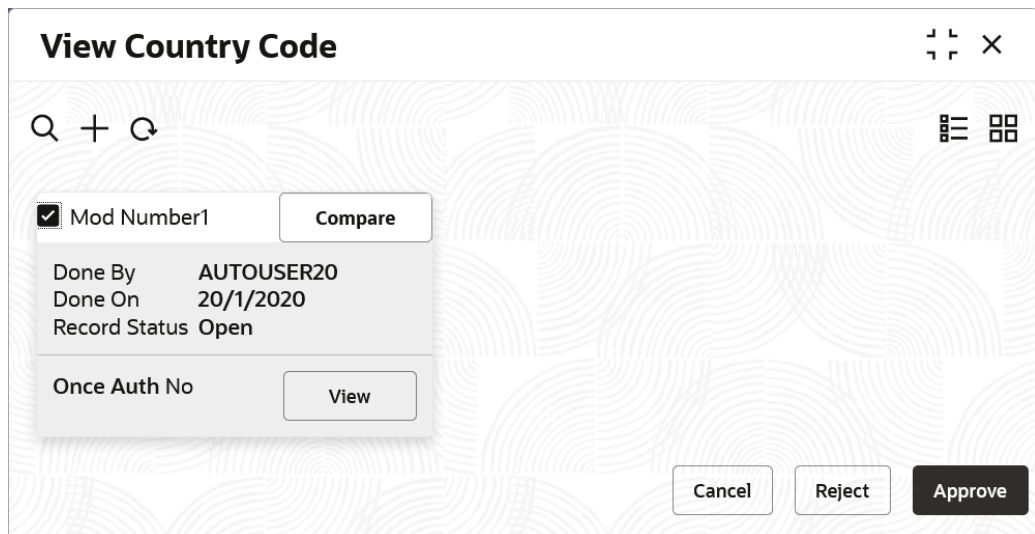

This topic provides systematic instructions to authorize the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click the record that need to authorize.
3. Click **Authorize**.

The authorized records associated with the screen appears.

Figure 4-5 Authorize

4. Select the required record that must be authorized.
5. Click **Approve** to authorize the record.

Minimize and Maximize the Records

This topic provides systematic instructions to minimize and maximize the screen.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click **Collapse** to minimize the screen.
3. Click **Maximize** button to maximize the screen.

The minimized screen appears at the bottom left corner of the screen.

The screen is maximized.

Close the Records

This topic provides systematic instructions to close the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click **Remove** button to close the record.

The selected record is closed.

Note:

If the user is in the middle of creating/modifying the records, an error/warning message appears prompting to save the changes.

Audit the Records

This topic provides systematic instructions to audit the record.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to **View** screen.
2. Click **Audit** to view the change history of the record.

The audit detail screen appears.

Figure 4-6 Audit

Maker	Checker
 ADMINUSER1	 ADMINUSER2
 2018-04-09 11:50:44	 2018-05-09 12:54:48
AMOUNT INCREASED FROM 10000 USD TO 20000 USD	AMOUNT VERIFIED
Status	Modification No
 Unauthorized	3
 Open	Show History

3. Click on the screen to close the audit detail screen.

5

Screen / Dashboard

This topic describes about Screen / Dashboard.

This topic contains the following subtopics:

- [Pagination](#)
- [Mandatory and Optional Fields](#)
- [Configure Tile](#)
- [Remove Tile](#)
- [Reorder Tile](#)
- [Expand Tile](#)
- [Add Tile](#)

Pagination

This topic describes about pagination.

The pagination displays the number of records on the bottom left corner of the selected view screen. The number of pages appears depending on the records available. The user can navigate to the first page, last page, previous page, or next page by using the number options.

Mandatory and Optional Fields

This topic describes about mandatory and optional fields.

There are mandatory and optional fields available for any screen. The user can identify the mandatory field with the asterisk (*) symbol. If the user tries to save the record without providing all the mandatory fields, a red exclamation mark or an error appears against the field to update the details.

Remove Tile

This topic describes the systematic instructions to remove the tile.

Specify **User ID** and **Password**, and login to **Home** screen.

- Click **Remove** to remove the dashboard widget from the landing page.
The removed widgets are available under the **Add Tiles** option.

Reorder Tile

This topic describes the systematic instructions to reorder the tile.

Specify **User ID** and **Password**, and login to **Home** screen.

- Select and drag the **Drag to Reorder** to drop the dashboard widget at the desired place.
The page is automatically refreshed and displays the updated order.

Expand Tile

This topic describes the systematic instructions to expand the tile.

Specify **User ID** and **Password**, and login to **Home** screen.

- Click **Expand Tile** to view all the information of the dashboard widget.
The expanded widget appears on a complete row to view more information.

Add Tile

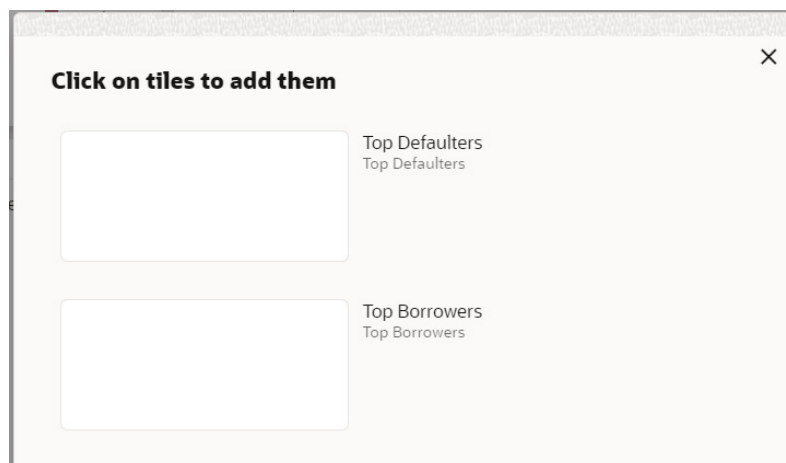

This topic describes the systematic instructions to add the tile.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Click **Add Tiles to Dashboard** to add more available dashboard widget to the dashboard landing page.

The **Click on tiles to add them** screen displays.

Figure 5-2 Click on tiles to add them

2. Click on the dashboard that the user wants to add to the dashboard-landing page.
The page is automatically refreshed and displays the added dashboard widget.

6

Common Fields

This topic provides information about all the common fields used in the application.

The list of common fields are as follows.

Table 6-1 Common Fields

Fields	Description
Branch Code	The user can select a configured branch code which the user wants to associate with the selected screen.
Maker	Displays the name of the logged in user who created the record.
Customer Number	The user can select a configured customer number which the user wants to associate with the selected screen. The user can configure the customer number using the Create External Customer screen.
Account Number	The user can select a configured account number which the user wants to associate with the selected screen. The user can configure the account number using the Create External Customer Account screen.
Source System	The user can select a configured source system which the user wants to associate with the selected screen. The user can configure the source system using the Create Upload Source screen.
Host Code	The user can select a configured host code which the user wants to associate with the selected screen. The user can configure the host code using the Create Host Code screen.
Currency	The user can select a configured currency which the user wants to associate with the selected screen. The user can configure the currency using the Create Currency Definition screen.
Status	Displays the status of the record: <ul style="list-style-type: none">• Authorized: The record is verified and authorized.• Unauthorized: The record is not verified.• Open: The record is open and waiting for verification.• Locked: The record is locked.• Closed: The record is closed.

7

Common Buttons

This topic provides information about all the common buttons used in the application.

The list of common buttons are as follows.

Table 7-1 List of Buttons

Button	Description
New	Creates a new record for the selected screen.
Query	View all the configured records for the selected screen.
Unlock	Unlock the configured record for the selected screen.
Search	Search the configured record and select the required record for the selected screen.
Copy	Copy the configured record, modify the details, and save with a different name for the record.
Delete	Remove the configured record for the selected screen.
Reopen	Reopens a closed record for the selected screen.
Close	Closes the configured record for the selected screen.
Print	Print view the configured record for the selected screen.
Authorize	Authorize the configured record for the selected screen.
Collapse	Minimizes the opened screen to the bottom left corner of the screen.
Remove	Closes the opened screen.
Audit	Check the history of the configured records for the selected screen.
Save	Save the configured record for the selected scree
Cancel	Discard the configured record before saving it.
+	Add a row in the grid to provide the required record for the selected screen.
-	Remove a row in the grid for the selected screen.
>	Select a record and move it to the required selected list grid.
<	Select a record and move it back to the available list grid.
> 	Move all the available list of records to the selected list of grid.
 <	Move back all the selected list of records to the available list of grid.

Glossary

Display Grid

It is a container that consists of fields and action buttons that allows you to view/perform actions.

Hamburger Menu

Is placed in the top corner of the application. You can click to access the menu and sub-menu associated with the application.

Menu

Is a list of features that are organized for easy access. Generally, there are several sub-menus associated with a menu, each sub-menu has a set of features either in a sequence or non-sequence manner.

Records

Is a piece of information that is configured using the application.

Sign In

Log in to an application to access the application/records.

Sign Out

Log out/leave the application.

User Profile

Provides information associated with the logged in user and provides few action that a user can perform.
