1.2 Product Code WMU1 – Wakala to Murabaha Financing (Amortized)

1.2.1 Introduction

Wakala to Murabaha is a kind of sale where the Wakala agency contract is converted into actual sale and seller discloses its cost and profit charged thereon. The payment in this sale can be both on spot and deferred.

It is a contract wherein the bank, upon request by the customer, purchases an asset from the third party usually a supplier/vendor and resells the same to the customer either against immediate payment or on a deferred payment basis.

1.2.2 Business Scenario

Banks buys the asset like Goods, Equipment's, Vehicle or Real Estate on behalf of customer and disburses the amount immediately while converting the Wakala agreement into Murabaha by booking a finance contract. The amount can be disbursed directly to vendor or customer.

It's an Amortized type of financing where the customer repays the principal and profit in Equity Monthly Installment (EMI).

1.2.3 Synopsis

- This product is a medium to long term finance for acquisition of Goods, Equipment's, Vehicle or Real Estate by customers.
- Customers of both types (retail and corporate customers) covered under this product.
- Amount financed has to be disbursed with Single Auto disbursement schedule on value date of the contract.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 240 months.
- Collateral can be linked with the bank by the customers.
- Insurance details can be captured with this product.
- Multiple assets can be financed using the same Murabaha contract.
- 20 days grace period is given for the supplier and 10 days grace period is given for the customer.
- Repayment is done with equated monthly installments (EMI).
- By linking the customer's savings account to financing account, customer can save considerable amount in profit paid.
- Principal amount, Profit rate and total profit amount cannot be changed once Bank and Customer enter into the contract.
- On changing the Maturity date, the pre calculated profit amount is redistributed to the redefined schedules since profit amount cannot be changed.
- Murabaha sale contract can be transferred from source branch to any other branch.
- No compensation is applied on prepayment.

1.2.4 Detailed Coverage

Profit only payment – If the bank decides to give holiday period for principal then as per this product up to six months, anytime within the financing period the counterparty can pay only profit. The total schedules maintained for only profit should not exceed six months.

1.2.4.1 Preferences

- Disbursement Mode
 - Auto
- Rate (Cross currency transaction preference)

1.2.7 Additional Information

The amount financed can be disbursed into the Customer's account, which in turn will be paid to the vendor, by changing the settlement account for Disbursement.

1.3 Product Code WMU2 – Wakala to Murabaha Financing (Bearing)

1.3.1 Business Scenario

Banks buys the asset like Goods, Equipments, Vehicle or Real Estate on behalf of customer and disburses the amount immediately while converting the Wakala agreement into Murabaha by booking a finance contract. The amount can be disbursed directly to vendor or customer. Customer repays the financed amount with profit either in single or deferred payment.

It's a Normal Bearing type of financing where the customer can repay the Principal or Profit as per his convenience.

1.3.2 Synopsis

- This product is a medium to long term finance for acquisition of Goods, Equipments, Vehicle or Real Estate by customers.
- Customers of both types (retail and corporate customers) covered under this product.
- Amount financed has to be disbursed with Single Auto disbursement schedule on value date of the contract.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 240 months.
- No collateral is required to be furnished with bank by the customers.
- Insurance details can be captured with this product.
- Multiple assets can be financed using the same Murabaha contract.
- 30 days grace period is given for the supplier and 15 days grace period is given for the customer.
- Repayment is done with the schedules defined as per customer's convenience.
- By linking the customer's savings account to financing account, customer can save considerable amount in profit paid.
- Principal amount, Profit rate and total profit amount cannot be changed once Bank and Customer enter into the contract.

- On checking the Maturity date, the pre calculated profit amount is redistributed to the redefined schedules.
- Murabaha sale contract can be transferred from source branch to any other branch.

1.3.3 Detailed Coverage

Profit only payment – If the bank decides to give holiday period for principal then as per this product up to six months, anytime within the financing period the counterparty can pay only profit. The total schedules maintained for only profit should not exceed six months.

1.10 Product Code – MRH1 – Murabaha Financing (Amortized)

1.10.1 Introduction

Murabaha is a kind of sale where the seller discloses its cost and profit charged thereon. The payment in this sale can be both on spot and deferred.

It is a contract wherein the bank, upon request by the customer, purchases an asset from the third party usually a supplier/vendor and resells the same to the customer either against immediate payment or on a deferred payment basis.

1.10.2 Business Scenario

Banks buys the asset like Goods, Equipments, Vehicle or Real Estate on behalf of customer and disburses the amount immediately while booking a finance contract. The amount can be disbursed directly to vendor or to the customer who in turn pays the vendor. Customer repays the financed amount with profit either in single or deferred payment.

It's an Amortized type of financing where the customer repays the principal and profit in Equity Monthly Installment (EMI).

1.10.3 Synopsis

- This product is a medium to long term finance for acquisition of Goods, Equipments, Vehicle or Real Estate by customers.
- Customers of both types (retail and corporate customers) covered under this product.
- Sale has to be confirmed before the bank disburses the amount financed.
- Amount financed has to be disbursed with Single Auto disbursement schedule on value date of the contract.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 240 months.
- No collateral is required to be furnished with bank by the customers.
- Insurance details can be captured with this product.
- Multiple assets can be financed using the same Murabaha contract.
- 20 days grace period is given for the supplier and 10 days grace period is given for the customer.

- Repayment is done with equated monthly installments (EMI).
- By linking the customer's savings account to financing account, customer can save considerable amount in profit paid.
- Principal amount, Profit rate and total profit amount cannot be changed once Bank and Customer enter into the contract.
- On checking the Maturity date, the pre calculated profit amount is redistributed to the redefined schedules.
- Murabaha sale contract can be transferred from source branch to any other branch.
- No compensation is applied on prepayment.

1.10.4 Detailed Coverage

Profit only payment – If the bank decides to give holiday period for principal then as per this product up to six months, anytime within the financing period the counterparty can pay only profit. The total schedules maintained for only profit should not exceed six months.

- Profit is shared between the bank and the customer as per the agreed terms.
- Loss is shared as per equity invested.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 20 years.
- Insurance details can be captured with this product.
- Both fixed and floating profit rate are supported.
- Repayment is done with equated monthly installments (EMI).
- Multiple disbursements supported.
- Under construction stage, it would be treated as Moratorium Period where there would be no repayment of principal or profit.

1.16.3 Detailed Coverage

Competitive profit rates – We can maintain the pre-agreed profit rates which could be fixed or floating while creating the contract using this product.

Affordable Payment structure – Payment structure defined as monthly once in the product could be changed in account level as per the counterparty and bank convenience.

Profit only payment – If the bank decides to give holiday period for principal then as per this product up to six months, anytime within the financing period the counterparty can pay only profit. The total schedules maintained for only profit should not exceed six months.

Rate plan change – If the bank decides to change the profit rate then as per this product after each six months period within the first 5 days they can amend the rates like Fixed to Floating, Floating to Fixed, increasing or decreasing the fixed rate or spread, changing the rate code etc.,

NA

1.17 Product Code ISN1 – Istisna – Home Financing (Auto Disbursement and Amortized Method)

1.17.1 Introduction

Istisna is a sale transaction where a commodity is transacted before it is manufactured. It is an order to a manufacturer to manufacture a specific commodity for a purchaser. The manufacturer uses own material to manufacture the required goods. In this mode of financing, price must be fixed with consent of all parties involved.

1.17.2 Business Scenario

This product is used to finance medium term financial requirements of retail and corporate customers for construction of building and machineries, etc. Repayment period of the finance is 20 years. Since it is a progressive finance, this product facilitates calculation of Profit A till the construction end date and after that calculation of Profit B with the same or different rate.

Repayment schedule (Principal and Profit) would be on EMI Payment Method. This product is a long term in nature.

1.17.3 Synopsis

- This product is used for financing in the long running projects.
- Customers of both types (retail and corporate customers) covered under this product.
- Finance with bearing profit type can be booked.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 20 years.
- Insurance details can be captured with this product.
- Both fixed and floating profit rate are supported.
- Construction period profit is apportioned to all the payment schedules.
- Upfront profit booking can be done during disbursement.(UIDB)
- Profit calculation is based on principal expected and is amortized based on frequencies.
- Overdue compensation calculation based on principal schedule overdue and profit schedule overdue.
- Assigning status to finances based on overdue days.

- Income recognition is stopped based on status movement.
- Unrecognized profit is reversed based on status movement.
- Reporting assets in different heads based on status movement.
- Automatic reverse status movements and rebooking reversed profit amounts based on payments.

1.21.6 Additional Information

The amount financed can be disbursed into the Customer's account, which in turn will be paid to the vendor, by changing the settlement account for Disbursement.

1.22 Product Code IJ99 – Operational Ijarah (Arrear)

1.22.1 Introduction

Operating Ijarah is a lease that does not include a promise that the legal title in the leased asset will pass to the lessee at the end of the lease.

1.22.2 Business Scenario

Bank buys the asset from a vendor and leases the same to any retail or corporate customer. This lease should be treated like finance with no principal and the entire Lease amount as a special profit which is paid in installments. The rental amount which is treated as an Income to the bank would be calculated based on the principal amount divided by the number of profit schedules. The lessee will pay the profit amount during the end of the profit schedule period.

1.22.3 Synopsis

- Auto Liquidation.
- Pre-defined rent which remains same throughout the tenure.

1.22.4 Detailed Coverage

Repayment – The profit rate needs to be zero as the rent would be derived based on the financed amount divided by the number of repayment schedules.

1.22.4.1 Preferences

- Disbursement Mode
 - Manual
- Rate
 - Profit Rate needs to be maintained as 0.
- Liquidation
 - Auto liquidation

- Tenor
 - Minimum Tenor : 6

1.23 Product Code IJO2 – Operating Ijarah (Advance)

1.23.1 Business Scenario

Bank buys the asset from a vendor and leases the same to any retail or corporate customer. This lease should be treated like finance with no principal and the entire Lease amount as a special profit which is paid in installments. The rental amount which is treated as an Income to the bank would be calculated based on the principal amount divided by the number of profit schedules. The lessee will pay the profit amount during the beginning of the profit schedule period.

1.23.2 Synopsis

- Manual Liquidation.
- Pre-defined rent which remains same throughout the tenure.

1.23.3 Detailed Coverage

Single disbursement – Finance amount will get disbursed to the Vendor as the bank will buy asset from the vendor and owns the title of the asset.

Repayment – The profit rate needs to be zero as the rent would be derived based on the financed amount divided by the number of repayment schedules.

1.23.3.1 Preferences

- Disbursement Mode
 - Manual
- Rate
 - Profit Rate needs to be maintained as 0.
- Liquidation
 - Manual liquidation

1.24 Product Code IJAD – Advance Financial Ijarah with Pre-Defined Profit amount

1.24.1 Introduction

It is a lease that concludes with the legal title in the asset passing to the lessee after Ijarah.

1.24.2 Business Scenario

In this product the rental could be determined at the time of contract for the whole period of lease. It is permissible that different amounts of rent are fixed for different phases during the lease period, provided that the amount of rent for each phase is specifically agreed upon at the time of affecting a lease. The lessee will pay the rent in advance that is during the beginning of the profit schedule.

1.24.3 Synopsis

- Manual disbursement (Single) and Auto Liquidation.
- Repayment of rent with periodic increase needs to be defined upfront.

1.24.4 Detailed Coverage

Single disbursement – Finance amount will get disbursed to the Vendor as the bank will buy asset from the vendor and owns the title of the asset.

Repayment – The rent would be collected as per the amount defined in UDE PROFIT_AMOUNT for different effective dates. Bearing method would be used to repay the principal and profit.

1.27.6 Additional Information

NA.

1.28 Product Code MRFB – Murabaha with Balloon Payment (Flat Method with XIRR)

1.28.1 Introduction

Murabaha is a kind of sale where the seller discloses its cost and profit charged thereon. The payment in this sale can be both on spot and deferred.

It is a contract wherein the bank, upon request by the customer, purchases an asset from the third party usually a supplier/vendor and resells the same to the customer either against immediate payment or on a deferred payment basis.

1.28.2 Business Scenario

Banks buys the asset like Goods, Equipments, Vehicle or Real Estate on behalf of customer and disburses the amount immediately while booking a finance contract. The amount can be disbursed directly to vendor or to the customer who in turn pays the vendor. Customer repays the financed amount with profit either in single or deferred payment.

1.28.3 Synopsis

- This product is a medium to long term finance for acquisition of Goods, Equipments, Vehicle or Real Estate by customers.
- Customers of both types (retail and corporate customers) covered under this product.
- Sale has to be confirmed before the bank disburses the amount financed.
- Amount financed has to be disbursed with Single Auto disbursement schedule on value date of the contract.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 240 months.
- No collateral is required to be furnished with bank by the customers.
- Insurance details can be captured with this product.

- Multiple assets can be financed using the same Murabaha contract.
- Customer can opt for Balloon Payment at the time of Booking Contract.
- Profit is arrived on Flat Rate basis.
- Payment Schedule redistribution is done based on XIRR.
- Once Contract is Saved and Authorized, Balloon details cannot be modified.
- Upfront profit booking can be done during disbursement.(UIDB)
- By linking the customer's savings account to financing account, customer can save considerable amount in profit paid.
- Principal amount, Profit rate and total profit amount cannot be changed once Bank and Customer enter into the contract.
- On checking the Maturity date, the pre calculated profit amount is redistributed to the redefined schedules.
- Murabaha sale contract can be transferred from source branch to any other branch.
- No compensation is applied on prepayment.

1.28.4 Detailed Coverage

Profit only payment – If the bank decides to give holiday period for principal then as per this product up to six months, anytime within the financing period the counterparty can pay only profit. The total schedules maintained for only profit should not exceed six months.

1.28.4.1 Preferences

- Disbursement Mode

The amount financed can be disbursed into the Customer's account, which in turn will be paid to the vendor, by changing the settlement account for Disbursement.

1.29 Product Code ISRX – Istisna – Home Financing (Reducing Balance method with XIRR)

1.29.1 Introduction

Istisna is a sale transaction where a commodity is transacted before it is manufactured. It is an order to a manufacturer to manufacture a specific commodity for a purchaser. The manufacturer uses own material to manufacture the required goods. In this mode of financing, price must be fixed with consent of all parties involved.

1.29.2 Business Scenario

This product is used to finance medium term financial requirements of retail and corporate customers for construction of building and machineries, etc. Repayment period of the finance is 20 years. Since it is a progressive finance, this product facilitates calculation of Profit A till the construction end date and after that calculation of Profit B with the same or different rate. Repayment schedule (Principal and Profit) would be on EMI Payment Method. This product is a long term in nature.

1.29.3 Synopsis

- This product is used for financing in the long running projects.
- Customers of both types (retail and corporate customers) covered under this product.
- Finance with bearing profit type can be booked.
- Hamish Jiddayah Minimum Percentage is 10%.
- Maximum repayment period is 20 years.
- Insurance details can be captured with this product.
- Both fixed and floating profit rate are supported.

- Construction period profit is apportioned to all the payment schedules.
- Upfront profit booking can be done during disbursement.(UIDB)
- Profit calculation is based on principal expected on Reducing Balance method.
- Payment Schedule redistribution is done based on XIRR.
- Overdue compensation calculation based on principal schedule overdue and profit schedule overdue.
- Assigning status to finances based on overdue days.
- Income recognition is stopped based on status movement.
- Unrecognized profit is reversed based on status movement.
- Reporting assets in different heads based on status movement.
- Automatic reverse status movements and rebooking reversed profit amounts based on payments.
