U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Checklist Maintenance

Checklist Maintenance process enables the OBTFPM user to maintain Checklist Items and map them to the process and stage level.

The user can Create Checklist, Map Checklist to Process- Stage and View Checklist Summary.

This section contains the following topics:

[Creating Checklist](#)

[Viewing Checklist](#)

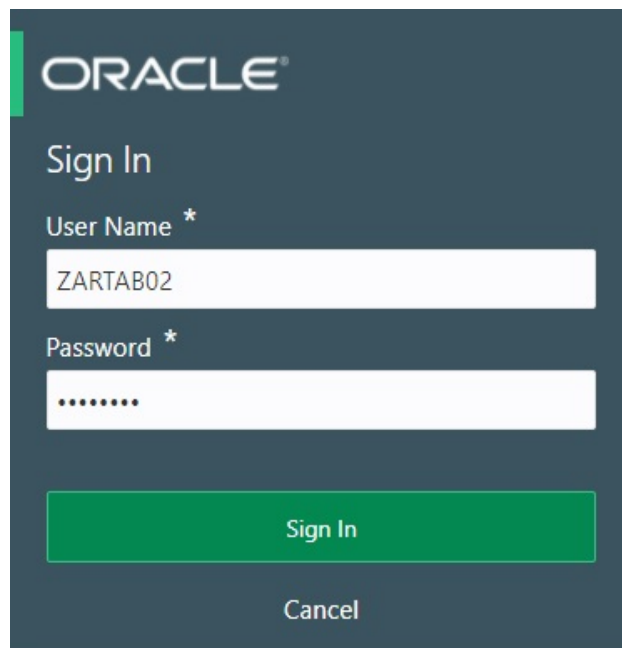

[Creating Checklist Linkage](#)

[Viewing Checklist Linkage](#)

Creating Checklist

This process allows the user to create a checklist. In the subsequent steps, let's look at the steps of creating a Checklist process:

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The screenshot shows the Oracle Sign In dialog box. It features the Oracle logo at the top left. Below the logo, the text "Sign In" is displayed. There are two input fields: "User Name *" with the value "ZARTAB02" and "Password *" with masked characters. At the bottom, there are two buttons: "Sign In" (highlighted in green) and "Cancel".

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Core Maintenance > Checklists > Checklist Maintenance**.

The Checklist maintenance screen appears.

4. Click Plus icon. The Checklist screen with fields appear.
