Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Amendment

Export LC Amendment process enables the user to make an amendment to the LC which had been already advised.

The amendments may need consent from the beneficiary of the LC. In such scenarios, after the processing of amendment, the amended LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for Export LC amendment process.

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Exceptions
Multi Level Approval	Reject Approval

Common Initiation Stage

The user can initiate the new Export LC Amendment request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM application interface. The top navigation bar includes the Oracle logo, the page title 'Initiate Task', and user information (JEEVA02, subham@gmail.com). The left sidebar contains a menu with 'Initiate Task' highlighted. The main content area shows a registration form with the following fields: Process Name (Export LC Amendment), LC Reference Number (PK2ELCT19081A8VH), and Branch (PK2-FLEXCUBE UNIVERSAL BANK). There are 'Proceed' and 'Clear' buttons at the bottom right of the form.

Provide the details based on the description in the following table:

Field	Description

Scrutiny

On successful completion of Registration of an Export LC Amendment request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

Non-Online Channel - Export LC Amendment request that were received at the desk will move to Scrutiny stage post successful Registration. The requests will have the details entered during the Registration stage.

Online Channel - Requests that are received via like SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated. When customer initiates an Export LC amendment response through SWIFT (Corporate to SWIFT) channel, the incoming MT798 message Accept or Reject Export LC Amendment.

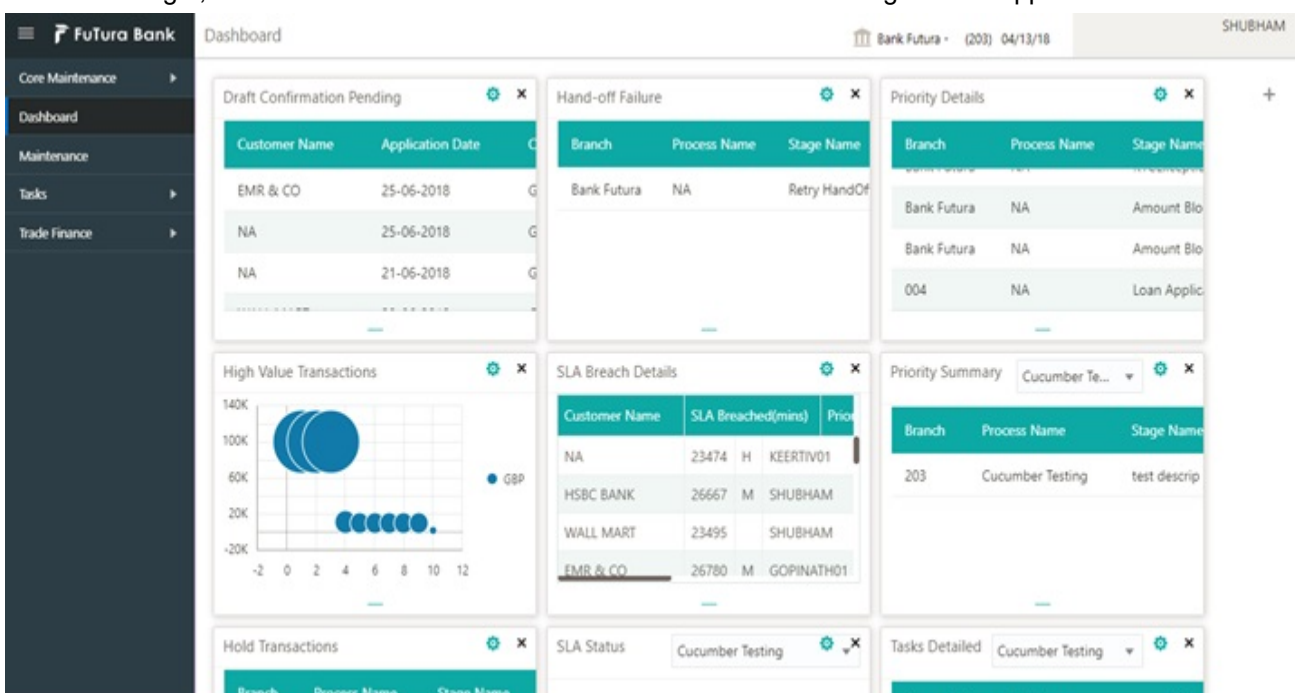

If the incoming message is MT 707, requests that are received via online channels like trade portal, external system and SWIFT should be available directly for further processing in OBTFPM from Scrutiny stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

Exceptions

The Export LC Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account
