Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction.

Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Claim Update Under Guarantee Issued - Islamic

The claim received under Guarantee/SBLC issued may undergo an amendment.

The various stages involved for Claim update of Guarantee Issued are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents
- Verify documents and capture details (Online/Non Online Channels)- Data Enrichment stage
- Check balance availability for amount block
- Check for sanctions & KYC status
- Create amount block for charges
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Issuance Lodge Claim Update process flow is similar to that of conventional Guarantee issuance Lodge Claim Update process flow.

In the subsequent sections, let's look at the details for update a claim lodged under a Guarantee/SBLC Issued process:

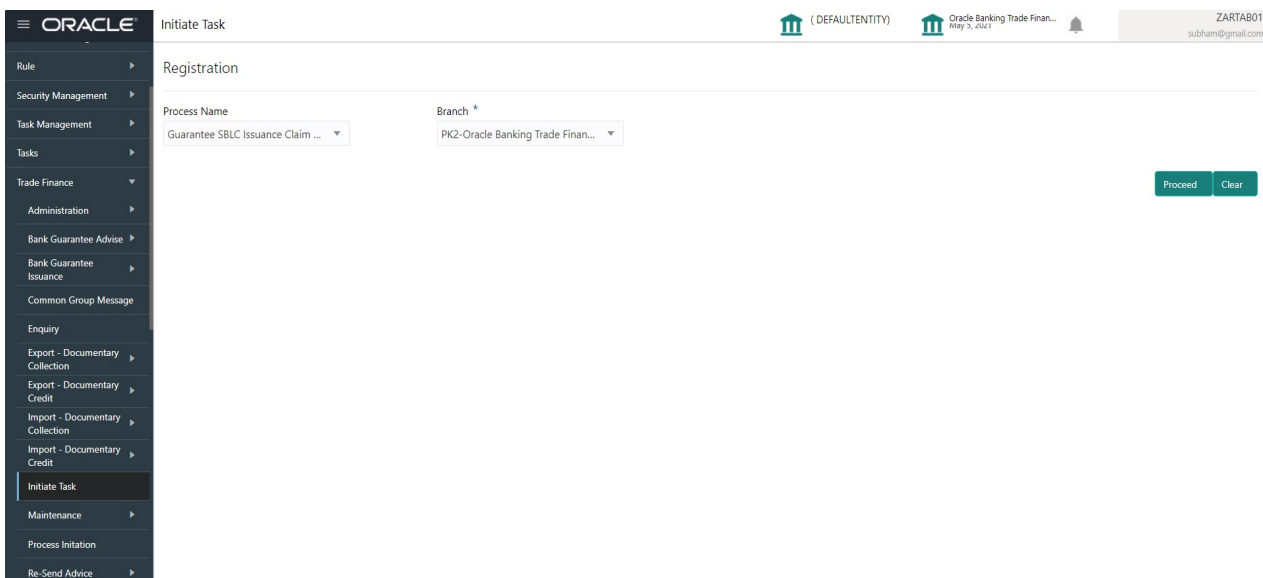

This section contains the following topics:

Common Initiation Stage	Registration
Data Enrichment	Multi Level Approval

Common Initiation Stage

The user can initiate the new update a Islamic claim lodged under a Guarantee/SBLC Issued request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

Registration

During the Registration stage, the user can register an update to the claim lodged under a Islamic Guarantee/SBLC Issued.

In this stage the user can initiate an update to the Islamic Guarantee/ SBLC Claim Lodged. The user can capture the basic details of the application, check the signature of the applicant and upload the related documents of the applicant.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Using the entitled login credentials for registration stage, login to the OBTFPM application.

Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
 - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
 2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is “Online”.
 3. In case submission mode is “Online”, the user can enter the clarification details in “Clarification Required” placeholder. In case submission mode is not “Online”, the system will validate if the counterparty is a OBDX customer by checking the flag “Trade Finance Portal” in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
 4. In case submission mode is not “Online”, and if the “Trade Finance Portal” flag is set to ‘No’ in Customer Maintenance Table, the system should display the error message that ‘The customer is not subscribed to Trade Finance Portal’. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

Data Enrichment

On successful completion of Registration of a Guarantee SBLC Claim update request, the request moves to Data Enrichment stage. At this stage the bank user can capture the basic information on claim update.

At this stage the gathered information during Registration stage and claim update request are scrutinized and enter the data as required.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

The Data Enrichment stage has sections as follows:

- Main Details
- Claim Details
- Document Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of Guarantee/SBLC claim update - Data Enrichment Stage. Some of the fields that are already having value from registration/ online channels may not be editable.

In case of requests received through SWIFT MT799, the task will be created in DE stage directly and the fields will be populated based on the incoming request.

Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [Application Details](#) in the Registration stage for more information of the fields.

Guarantee Details

The fields listed under this section are same as the fields listed under the [Guarantee Details](#) section in [Registration](#). Refer to [Guarantee Details](#) for more information of the fields. During registration, if user has not captured input, then user can capture the details in this section.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. Template ID	Specify the party type or click 'Search' to search and select the template ID in which the tracer has to be generated from the lookup. It is a lookup which lists all the possible templates maintained in the system. Template ID is nothing but the data that goes in Tag 79 in MT799. This template ID is applicable only for medium 'SWIFT' Template lookup displays all the template ids applicable for the given Tracer Code.	
Action	Click the Edit icon to edit the tracer details.	

Preview Message

The bank user can view a preview of the message and advice simulated from back office which is based on the guarantee Claim captured in the previous screen.

The Preview section consists of following.

Field	Description	Sample Values
Preview SWIFT Message		
Language	Read only field. English is set as default language for the preview	
Message Type	Select the message type.	
Message Status	Read only field. Display the message status of draft message of guarantee details.	
Repair Reason	Read only field. Display the message repair reason of draft message of guarantee details.	
Preview Message	Display a preview of the draft message.	
Preview Mail Device		
Language	Read only field. English is set as default language for the preview	
Advice Type	Select the advice type.	
Message Status	Read only field. Display the message status of advice message of guarantee details.	

Field	Description	Sample Values
Repair Reason	Read only field. Display the message repair reason of advice message of guarantee details.	
Preview Message	Display a preview of the advice.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	

Field	Description	Sample Values
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Settlement Details

As a part of Data Enrichment, user can verify the basic settlement details available in the incoming Claim Update request. In case the request is received through online channel, the user will verify the details populated.

The screenshot displays the Oracle Settlement Details interface. At the top, there's a navigation bar with 'ORACLE' and user information. Below that, a breadcrumb trail shows 'Guarantee SBLC Issuance-Claim Update Islamic DataEnrichment :: Application No:- 0911GCU000167377'. The main content area is divided into a left sidebar with navigation options (Main, Claim Details, Document Details, Advices, Additional Details, Settlement Details, Summary) and a main panel. The main panel has a 'Settlement Details' section with a 'Current Event' checkbox. Below this is a table of settlement components. The table has columns: Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, and Current Event. The table lists several components, all with 'AED' as currency and 'Agthia Group' as account description. Below the table is the 'AVL_SET_LCAMT - Party Details' form, which includes sections for Transfer Type, Charge Details, Netting Indicator, Ordering Customer, and various correspondent and beneficiary institutions. At the bottom, there are buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Component	Currency	Debit/Credit	Account	Account Description	Account Currency	Netting Indicator	Current Event
AGLIR_COM1_LIQD	AED	Debit	0912140012	Agthia Group	AED	No	No
AGLIR_COMM_LIQD	AED	Debit	0912140012	Agthia Group	AED	No	No
AVL_SET_LCAMT	AED	Debit	0912140012	Agthia Group	AED	No	No
AVL_SET_LCAMTEQ	AED	Credit	0912140012	Agthia Group	AED	No	No
CLAIM_CUST_AMT	AED	Debit	0912140012	Agthia Group	AED	No	No
CLAIM_CUST_AMT_FX	AED	Debit	0912140012	Agthia Group	AED	No	No
CLAIM_SETTLE_AMT	AED	Credit	0323100010	Union National Bank	AED	No	No
COLLAMT_OS	AED	Debit	0912140012	Agthia Group	AED	No	No
COLLAMT_OSEQ	AED	Credit	0912140012	Agthia Group	AED	No	No
COLLAMT_OSEQ_OBP	AED	Credit	0912140012	Agthia Group	AED	No	No

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Read only field. System defaults the value from Guarantee /SBLC claim.	
Currency	Read only field. System defaults the value from Guarantee /SBLC claim.	
Debit/Credit	Read only field. System defaults the value from Guarantee /SBLC claim.	

Field	Description	Sample Values
Account	Read only field. System defaults the value from Guarantee /SBLC claim.	
Account Description	Read only field. System defaults the value from Guarantee /SBLC claim.	
Account Currency	Read only field. System defaults the value from Guarantee /SBLC claim.

Current Event	System displays the current event as Y or N.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer 	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges 	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> • Yes • No 	

Field	Description	Sample Values
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	Clicking this button allows the user should to view the undertaking details.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

Summary

User can review the summary of details in Data Enrichment stage for Islamic Guarantee SBLC Issuance Claim update request.

In this section the user can see the summary tiles. The tiles must display a list of important fields with values. The tiles where fields have been amended is highlighted in different color, User must be also able to drill down from summary tiles into respective data segments.

The screenshot displays the Oracle application interface for a Guarantee SBLC Issuance Claim Update. The page is titled "Summary" and is divided into several sections, each containing key-value pairs for various fields. The sections are:

- Main:** Booking Date : 2023-08-03, Submission Mode : Desk, Amount : AED 30000
- Claim Details:** Demand Type : Settle, New ExpiryDate : , Intermediary :
- Document Details:** Document 1 : , Document 2 :
- Advices:** Advice 1 : GUA_CLAIM_RE...
- Commission, Charges and taxes:** Charge : , Commission : AED 254.79, Tax : , Block Status : Not Initiated
- Preview Messages:** Language : ENG, Preview Message : -
- Settlement Details:** Component : LISWIFTAMM_L..., Account Number : 0912140012, Currency : AED
- Party Details:** Beneficiary : Etsalat, Applicant : Aghthia Group, Advising Bank : MASHREQ BANK...
- Compliance:** KYC : Not Initiate..., Sanctions : Not Initiate..., AML : Not Initiate...
- Accounting Details:** Event : AMND, AccountNumber : 0912140012, Branch : 091
- Tracer Details:** Tracer Code : , Required : , Medium : , Frequency :

Tiles Displayed in Summary

- Main Details - User can view the application details and Guarantee/ Standby details. User can modify the details if required.
- Claim Details - User can view the claim details.
- Documents Details - User can view the Document details.
- Advices - User can view the advices details.
- Commission, Charges and taxes - User can view the details provided for charges. User can modify the details if required.
- Preview Message - User can drill down to view the message preview, legal verification and customer draft confirmation details. The message preview screen has the Legal Verification details.
- Settlement Details – User should be able to view the settlement details.
- Party Details - User can view party details like beneficiary, advising bank etc.

- Tracer Details - User can view the tracer details.
- Compliance – The compliance tile has the KYC, Sanctions and AML
- Accounting Details - User can see the accounting details.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “Value Date is different from Transaction Date for one or more Accounting entries.

Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.

Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Submit	<p>On clicking Submit, system validates for all mandatory field values and the task should move to the next logical stage. If the user submits without visiting other mandatory steps, then error message is displayed and force the user to visit mandatory tabs/update mandatory fields.</p>	

Multi Level Approval

This stage allows the approver user to approve a Claim Lodged under Guarantee Issued Transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Re-Key Authorization

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Claim Amount
- Currency

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.
