# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

## Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM enables the customers to send request for new trade finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

## Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

---

## Import LC Amendment Islamic

Import LC Amendment Islamic process enables the user to make an amendment to the LC which had been already issued. The common amendments that are made to an Import LC are:

- Expiry date
- Latest Shipment Date
- Increase/Decrease in LC amount
- Tolerance percentage
- Confirmation instruction
- Available with bank
- Port of loading/discharge
- Goods quantity
- Related documents to be submitted

The amendments may need consent from the beneficiary of the amendment. In such scenarios, after the processing of amendment, the amended LC is parked awaiting beneficiary consent.

The various stages involved for Import LC Amendment are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input amendment application details
- Upload of related mandatory and non-mandatory documents
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of amendment of LC - Data Enrichment stage
- Check for limit availability
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges
- Capture remarks for other users to check and act
- Generate acknowledgements and draft LC copies
- Notify customer on any negative statuses in any of the stages to the applicant
- Hand off request to back office

The design, development and functionality of the Islamic Import LC Amendment process flow is similar to that of conventional Import LC Amendment process flow.

This section contains the following topics:

Common Initiation Stage	Registration
Bi-Directional Flow for Offline Transactions Initiated from OBTFPM	Data Enrichment
Customer Response - Draft Confirmation	Exceptions
Multi Level Approval	Customer - Acknowledgement
Customer - Reject Letter	Reject Approval

## Common Initiation Stage

The user can initiate the new import LC amendment request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

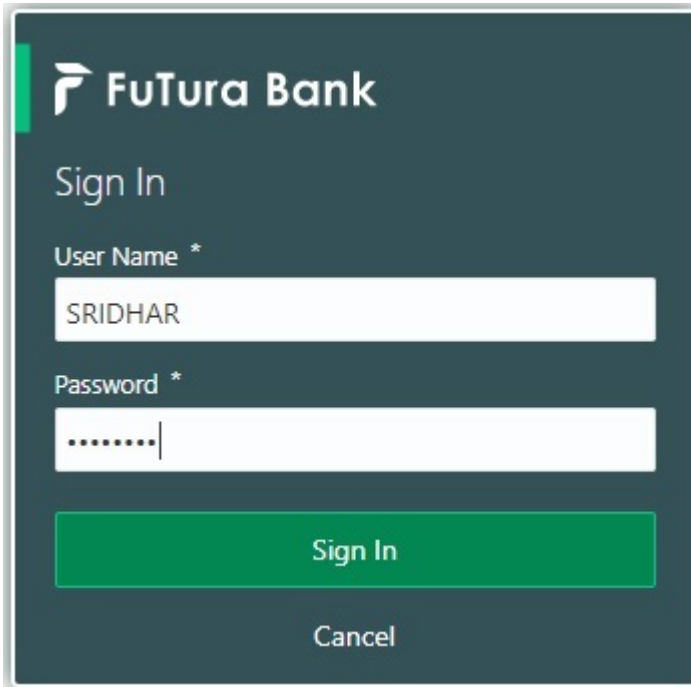

## Registration

At the Registration stage, User can register a request for an Islamic Import LC amendment received at the front desk (as an application received physically/received by mail/fax). During Registration stage, the user captures the basic details of the amendment application, checks the signature of the applicant and uploads the related documents. On submit of the amendment request, the customer should be notified with acknowledgement and the request should be available for an LC Amendment expert to handle in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E ( of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the FuTura Bank logo and the text "Sign In". Below the header, there are two input fields: "User Name \*" with the value "SRIDHAR" and "Password \*" with masked characters. At the bottom, there are two buttons: a green "Sign In" button and a white "Cancel" button.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The image displays the FuTura Bank dashboard. The left sidebar contains navigation options: Core Maintenance, Dashboard (selected), Maintenance, Tasks, and Trade Finance. The main dashboard area is titled "Dashboard" and shows several widgets. The top row includes "Draft Confirmation Pending", "Hand-off Failure", and "Priority Details". The middle row includes "High Value Transactions" (a bubble chart), "SLA Breach Details" (a table), and "Priority Summary". The bottom row includes "Hold Transactions", "SLA Status", and "Tasks Detailed".

Customer Name	Application Date	Stage Name
EMR & CO	25-06-2018	G
NA	25-06-2018	G
NA	21-06-2018	G

Branch	Process Name	Stage Name
Bank Futura	NA	Retry HandOf

Branch	Process Name	Stage Name
Bank Futura	NA	Amount Blo
Bank Futura	NA	Amount Blo
004	NA	Loan Applic

Customer Name	SLA Breached(mins)	Priority
NA	23474	H KEERTIV01
HSBC BANK	26667	M SHUBHAM
WALL MART	23495	M SHUBHAM

Branch	Process Name	Stage Name
203	Cucumber Testing	test descrip

### 3. Click Trade Finance> Import - Documentary Credit> Import LC Amendment.

The screenshot shows the FuTura Bank dashboard with the 'Import LC Amendment' option highlighted in the left-hand navigation menu. The main dashboard area contains three summary tables:

- Priority Summary:** A table with columns: Branch, Process Name, Stage Name, No of High Priority Items, No of Medium Priority Items, and No. It lists three entries for 'Export LC Amendment Beneficiary Consent' at stages 'Registration', 'Approval1', and 'Approval2'.
- High Priority Tasks:** A table with columns: Branch, Process Name, Stage Name, Process Reference Number, Customer Name, and User ID. It lists three tasks for 'NA' at the 'Scrutiny' stage, all for 'Marks and Spencer'.
- Pending Exception Approval:** A table with columns: Customer Name, Stage Name, Process Reference Number, Process Name, Branch Name, and Currency. It lists two entries for 'NESTLE' and 'EMR & CO' at the 'KYC Exception Approval' stage.

The Registration stage has two sections Application Details and LC Amendment Details. Let's look at the details of Registration screens below:

### Application Details

The screenshot shows the Oracle 'Application Details' screen for an 'Import LC Amendment Islamic'. The screen is divided into two main sections:

- Application Details:** Includes fields for Application Details (20 - Documentary Credit Number), Branch (032-Oracle Banking Trade Finan...), Submission Mode (Desk), Beneficiary Consent (radio button), Received From Party (Applicant), Amendment No (2), Application Date (Aug 3, 2023), Received From - Customer ID (032204), Process Reference Number (032IILM000173330), Customer Reference Number, Received From - Customer Name (Air Arabia), Priority (Medium), and User Reference Number (032IILN232156502).
- LC Details:** Includes fields for Revolving (radio button), Advising Bank (032305 - FIRST GULF B...), Date of Expiry (Oct 31, 2023), Beneficiary (032209 - Jumeirah Gro...), Limits/Collateral Required (radio button), Closure Date (Nov 27, 2023), LC Type (Sight), 40A - Form of Documentary Credit (IRREVOCABLE), 31D - Place of Expiry (UAE), Accountee, 39C - Additional Amount Covered, Product Code (ILIN), 31C - Date of Issue (Aug 3, 2023), 51A - Applicant Bank, 32B - Currency Code, Amount (AED 1,000.00), Amount In Local Currency (AED 1,000.00), Product Description (Islamic Import LC Sight Non Revolving), 40E - Applicable Rules (UCP LATEST VERSION), Applicant (032204 - Air Arabia), 39A - Percentage Credit Amount Tolerance (/), and Back to Back LC (radio button).

Provide the Application Details based on the description in the following table. In case of MT798, Application Details are defaulted to SWIFT

Field	Description	Sample Values
Documentary Credit Number	<p>Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV.</p> <p>In LOV search/advanced LOV search, user can input Applicant, Currency, Amount, User Reference and Contract Status to fetch the LC details. The user can also search the LC which are in 'Closed' contract status. On selecting a closed LC, system displays a confirmation message that 'The LC has been closed. Do you want to Reopen'.</p> <p>On confirmation, user can amend the required fields as in the case of amendment of an active LC</p> <p>Based on the search result, select the applicable LC to be amended.</p>	
Received From Party	<p>Read only field.</p> <p>System fetches counter party detail and party type from back office to display during Amendment.</p>	
Received From - Customer ID	<p>Read only field.</p> <p>Customer ID will be auto-populated based on the selected LC from the LOV.</p>	001344
Received From - Customer Name	<p>Read only field.</p> <p>Customer Name will be auto-populated based on the selected LC from the LOV.</p>	EMR & CO
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC from the LOV.</p>	203-Bank Futura -Branch FZ1
Amendment No.	<p>Read only field.</p> <p>Amendment number will be auto-populated based on selected LC using documentary credit number. Amendment number increases by 1 for each amendment.</p>	
Process Reference Number	<p>Read only field.</p> <p>Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.</p>	
Priority	<p>System will default the Priority as Low/Medium/High based on maintenance.</p>	High

Field	Description	Sample Values
Submission Mode	<p>Select the submission mode of Import LC Amendment request. By default the submission mode will have the value as 'Desk'.</p> <p><b>Desk-</b> Request received through Desk</p> <p><b>Fax-</b> Request received through Fax</p> <p><b>Email-</b> Request received through Email</p> <p><b>Courier-</b> Request received through Courier</p>	Desk
Application Date	<p>By default, the application will display branch's current date and enables the user to change the date to any back date.</p> <p> <b>Note</b> Future date selection is not allowed.</p>	04/13/2018
Customer Reference Number	<p>User can enter the 'Reference number' provided by the applicant/ applicant bank.</p> <p>Enables the user to provide a unique Customer Reference Number for the amendment.</p>	
User Reference Number	<p>Read only field.</p> <p>User Reference Number will be auto populated by the system based on selected LC using documentary credit number.</p>	
Beneficiary Consent	<p><b>Toggle on:</b> Beneficiary consent required for the amendment made to the fields. Toggle must be on if amendments are made to the following fields:</p> <ul style="list-style-type: none"> <li>• Beneficiary</li> <li>• Documentary Credit Amount</li> <li>• Expiry Date</li> <li>• Tolerance</li> <li>• Available By</li> <li>• Tenor</li> <li>• Mixed/Deferred Payment Detail</li> <li>• Latest Shipment Date</li> </ul> <p>Application will display warning message, if the toggle is not enabled for the amendments made to the above mentioned fields.</p> <p><b>Toggle off:</b> Switch off the toggle if beneficiary consent is not required for the amendments.</p>	

## LC Details

Details in this screen displays the data from the LC issued.

The screenshot shows the 'LC Details' screen with the following fields and values:

- Revolving:**
- LC Type:** Sight
- Product Code:** ILIN
- Product Description:** Islamic Import LC Sight Non Revolving
- Advising Bank:** 032305 FIRST GULF B
- 40A - Form of Documentary Credit:** IRREVOCABLE
- 31C - Date of Issue:** Aug 3, 2023
- 40E - Applicable Rules:** UCP LATEST VERSION
- Date of Expiry:** Oct 31, 2023
- 31D - Place of Expiry:** UAE
- 51A - Applicant Bank:** [Empty]
- Applicant:** 032204 Air Arabia
- Beneficiary:** 032209 Jumeirah Gro
- 32B - Currency Code, Amount:** AED 1,000.00
- 39A - Percentage Credit Amount Tolerance:** /
- Accountee:** [Empty]
- Amount In Local Currency:** AED 1,000.00
- 39C - Additional Amount Covered:** [Empty]
- Limits/Collateral Required:**
- Back to Back LC:**
- Closure Date:** Nov 27, 2023

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
Revolving	<p>Read only field.</p> <p><b>Toggle On:</b> LC type is Revolving.</p> <p><b>Toggle Off:</b> LC is type Non Revolving.</p> <p> <b>Note</b> For more details on Revolving, see <a href="#">Revolving</a>.</p>	
LC Type	<p>Read only field.</p> <p>LC type will be populated based selected LC using documentary credit number.</p>	
Product Code	<p>Read only field.</p> <p>This field displays the product code of the selected LC.</p>	
Product Description	<p>Read only field.</p> <p>This field displays the description of the product as per the product code.</p>	

Field	Description	Sample Values
Advising Bank	<p>This field displays the advising bank details (if provided) of the selected LC and user can amend if required.</p> <p> <b>Note</b> In case the selected Bank is not RMA Compliant, the system prompts the user to use a different advising bank or use non SWIFT Media to transmit the LC and displays error message “RMA arrangement not available, please change the bank or use MAIL Medium”.</p> <p> <b>Note</b> If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p> <p> <b>Note</b> If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	
40A - Form of Documentary Credit	<p>Read only field.</p> <p>This field displays the form of documentary credit details of the selected LC.</p>	
Date of Issue	<p>Read only field.</p> <p>This field displays the LC issuance date.</p>	
Applicable Rules	<p>This field displays the rules of the selected LC and user can amend if required.</p>	
Date Of Expiry	<p>This field displays the expiry date of the selected LC. and user can amend if required.</p> <p> <b>Note</b> If amendment to the Expiry date (postponing the expiry date before expiry date of the underlying Export LC), field in the Import LC, system validates the amended value against the Export LC value and display configurable override.</p>	09/30/18
Place of Expiry	<p>This field displays the place of expiry of the selected LC and user can amend if required.</p>	

Field	Description	Sample Values
Applicant Bank	Read only field. This field displays the applicant bank details of the selected LC.	
Applicant	Read only field. This field displays the details of the applicant of the selected LC.	
Beneficiary	<p>This field displays the beneficiary details of the selected LC and user can amend if required.</p> <p> <b>Note</b> If the user amend this field and the selected beneficiary/ party is blacklisted the system displays a warning message.</p> <p> <b>Note</b> If the KYC non-compliant party is selected then the system immediately gives instant alert as "Customer ID - (CIF ID) is not KYC compliant."</p>	
Accountee	Click Search to search and select the accountee details from lookup.	
Currency Code, Amount	<p>This field displays the value of LC along with the currency details of the selected LC and user can amend if required.</p> <p> <b>Note</b> If amendment to the Amount (greater than the Export LC outstanding amount), field in the Import LC, system validates the amended value against the Export LC value and display configurable override.</p>	
Percentage Credit Amount Tolerance	This field displays the percentage credit amount tolerance details of the selected LC and user can amend if required.	
Limits/Collateral Required	<b>Read only field.</b> If enabled indicates, limit check during the process flow of this request is available.	
Additional Amount Covered	This field displays the details of additional amount covered of the selected LC and user can amend if required.	

Field	Description	Sample Values
Amount In Local Currency	<p>Read only field.</p> <p>After the tab out of 'Currency Code, Amount' field, system populates the Local currency and amount value in this field.</p> <p>System fetches the local currency equivalent value for the LC amount from back office (with decimal places).</p>	
Back to Back LC	<p>Read only field.</p> <p>Flag to check if the Import LC is a back to back LC.</p>	
Closure Date	<p>System default the "Closure Date" value from the previous version of the contract.</p> <p>User can modify the system defaulted "Closure Date" and system should validate the same for the below conditions,</p> <ul style="list-style-type: none"> <li>● Closure Date must be after the Issue Date.</li> <li>● Closure Date must be after the Expiry Date.</li> <li>● Closure Date cannot be blank, when the "Auto Close" is checked.</li> </ul>	
Closure Date	<p>System default the "Closure Date" value from the previous version of the contract.</p> <p>User can modify the system defaulted "Closure Date" and system should validate the same for the below conditions,</p> <ul style="list-style-type: none"> <li>● Closure Date must be after the Issue Date.</li> <li>● Closure Date must be after the Expiry Date.</li> <li>● Closure Date cannot be blank, when the "Auto Close" is checked.</li> </ul>	

## Revolving

The user can enable the Revolving option for revolving LC. The revolving LC can be time based or value based.

1. Click the **Edit** icon besides the **Revolving** field. The **Revolving Details** screen appears.

Field	Description	Sample Values
Revolving	Read only field. System displays, if the LC is revolving or not.	
Revolving In	Read only field. Displays the mode of revolving for the LC. The values are: <ul style="list-style-type: none"> <li>• Time</li> <li>• Value</li> </ul>	
Revolving Frequency	Read only field. Displays the value for the frequency in days and months by which the LC revolves. This field is enabled , if <b>Time</b> option is selected in <b>Revolving In</b> field.	
Revolve Units	Read only field. Displays the units by which the LC revolves.	
Next Reinstatement Date	Read only field. Displays the date of next instatement for the LC based on the revolving frequency selected.	
Cumulative	Read only field. This option indicates whether the LC value has to be cumulative or not on reinstatement.	
Automatic Reinstatement	Read only field. This option indicates whether to have automatic reinstatement on the reinstatement day without manual intervention.	

2. Click **Close** to close the Revolving Details screen.

## Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	This button displays the multiple messages (MT760 + up to 7 MT761).  In case of MT798, the User can click and view the MT798 message(770,700/701).	
Signatures	Click the Signature button to verify the signature of the customer/ bank if required.  The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.  If more than one signature is required, system should display all the signatures.	
View LC	Enables user to view the details of the LC.	

Field	Description	Sample Values
<b>Action Buttons</b>		
Submit	<p>On submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Import LC Amendment.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and displays the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancels the Import LC Amendment Registration stage inputs.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Checklist	<p>Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.</p> 	

## Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

### Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.

- Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
  2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".
  3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
  4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

## Scrutiny

On successful completion of Registration of an Import LC Amendment request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized for Islamic Import LC Amendment.

As part of scrutiny, the user can enter/update basic details of the Islamic LC Amend request and can verify if the request can be progressed further.

**Online Channel** - Requests that are received via online channels like trade portal, external system and SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated as in conventional process flow.

Do the following steps to acquire a task currently at Scrutiny stage:

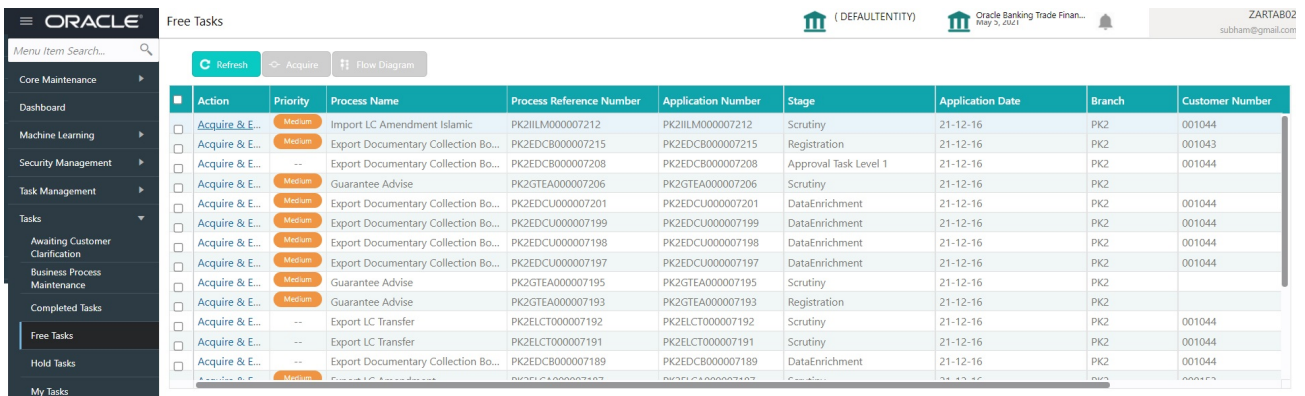

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

The image shows a login interface for FuTura Bank. It features a dark teal header with the bank's logo and name. Below the header, the text "Sign In" is displayed. There are two input fields: "User Name \*" containing the text "SRIDHAR" and "Password \*" containing masked characters ".....". A green "Sign In" button is positioned at the bottom of the form.

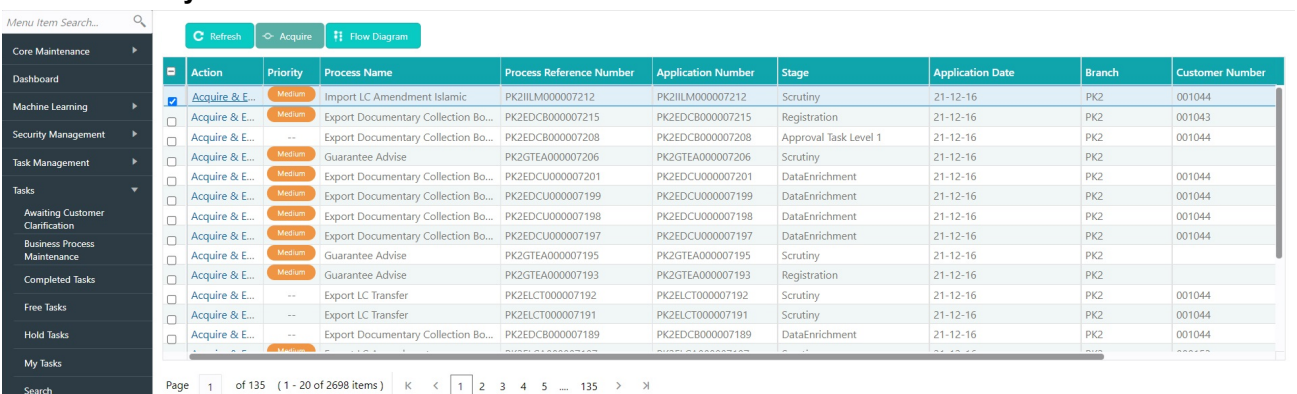

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance > Tasks > Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The Scrutiny stage has five sections as follows:

- Main Details
- Availability & Shipment
- Payment Details
- Amendment Details
- Additional Fields
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration /online channels may not be editable.

Audit - This button provides user audit trail transaction, initiated date, stage wise detail etc..

S.No	Stage Name	Pickup Time	Completed Time	Completed By	Outcome
1	Registration	2019-11-29 15:04:10	2019-11-29 15:14:07	SRIDHAR01	PROCEED

## Main Details

Main details section has three sub section as follows:

- Application Details
- LC Amendment Details

## Application Details

All fields displayed under Application details section, would be read only except for the **Priority** and **Beneficiary Consent**. Refer to [Application Details](#) for more information of the fields.

## LC Details

The fields listed under this section are same as the fields listed under the [LC Details](#) section in [Registration](#). Refer to [LC Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following are the fields which can be amended apart from the fields carried over from [LC Details of Registration](#). Provide the details for the amendable fields based on the description in the following table:

Field	Description	Sample Values
Advising Bank	<p>This field displays the advising bank details (if provided) of the selected LC and user can amend if required.</p> <p> <b>Note</b> In case the selected Bank is not RMA Compliant, the system prompts the user to use a different advising bank or use non SWIFT Media to transmit the LC and displays error message "RMA arrangement not available, please change the bank or use MAIL Medium".</p>	
Applicable Rules	This field displays the rules of the selected LC and user can amend if required.	
Date of Expiry	This field displays the expiry date of the selected LC. and user can amend if required.	
Place of Expiry	This field displays the place of expiry of the selected LC and user can amend if required.	
Beneficiary	<p>This field displays the beneficiary details of the selected LC and user can amend if required.</p> <p> <b>Note</b> If the user amend this field and the selected beneficiary/ party is blacklisted the system displays a warning message</p>	
Accountee	Click Search to search and select the accountee details from lookup.	
Currency Code, Amount	This field displays the value of LC along with the currency details of the selected LC and user can amend if required.	
Percentage Credit Amount Tolerance	This field displays the percentage credit amount tolerance details of the selected LC and user can amend if required.	
Additional Amounts Covered	This field displays the details of additional amount covered of the selected LC and user can amend if required.	

Field	Description	Sample Values
Closure Date	<p>System retain the “Closure Date” value from the registration stage and defaults the same in the Data Enrichment stage.</p> <ul style="list-style-type: none"> <li>• Closure Date must be after the Issue Date.</li> <li>• Closure Date must be after the Expiry Date.</li> <li>• Closure Date cannot be blank.</li> </ul>	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	

Field	Description	Sample Values
Incoming Message	This button displays the multiple messages (MT760 + up to 7 MT761. In case of MT798, the User can click and view the MT798 message(770,700/701).	
View LC	Enables user to view the details of the LC.	
Signatures	Click the Signature button to verify the signature of the customer/ bank if required.  The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.  If more than one signature is required, system should display all the signatures.

Revolving In	Read only field. The LC can revolve with Time or Units.	
Revolving Frequency	Read only field. This field captures the frequency in days and months by which the LC revolves.	
Revolving Units	Read only field. This field captures the units by which the LC revolves.	
Next Reinstatement Date	Read only field. This field defaults the date of next reinstatement for the LC based on the revolving frequency selected.	
Cumulative	Read only field. This field is a toggle to indicate if the LC value has to be cumulative or not on reinstatement.	
Automatic Reinstatement	Read only field. This field enables to have automatic reinstatement on the reinstatement day without manual intervention.	

## Limits & Collateral

Limit availability needs to be checked if amendment involves increase in amount or tolerance or both.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office. Provide the Limit Details based on the description in the following table:

### Commission, Charges and Taxes Details

On click of 'Next' in the previous screen, system will auto populate the charges, commission and tax components mapped to the product from the back office system.

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system. The system also default the Charges/Commission Party maintained for the customer as per defined Class Maintenance in OBTF. System simulates the Charges, Commission and Tax details from the Back office. At the time of contract initiation against respective commission and charge component, the OBTFPM by default captures the counter parties Account Description as the Charge Party.

The user can view the Account Description of the Charge Party of the respective Settlement Account holder, post successful handoff user can view the same Charge Party details against the commission and charges which were entered at the time of contract initiation in the BO/MO Enquiry screen of LC in OBTF.

### Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	

#### Commission Details

Commission Details are auto-populated from back-end system.

All charges, commission and margin are collected from the counter-party by default.

Component	Select the commission component	
-----------	---------------------------------	--

Field	Description	Sample Values
Rate	<p>Defaults from product. User can change the rate, if required.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	<p>An amount that is maintained under the product code defaults in this field.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Waive	<p>Select the check box to waive charges/ commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Split	The user can split the Commission by enabling/ disabling the flag as per the requirement.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	

Field	Description	Sample Values
Settlement Account	Details of the Settlement Account.	
Amend	The value is auto-populated as the commission can be amended or not.	

## Charge Details

Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified Amount	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Split	The bank User can split the Charges/Commission by enabling/disabling the flag as per the requirement.	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	

### Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Tax details are defaulted from the back-end system.

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.	

### Split Settlement

Once the user clicks on the Recalculate button to fetch the Split Settlement details from Backoffice, new section "Split Settlement" will appear below the 'Tax' section. The default parties in Split row should be fetched from OBTF.

Field	Description	Sample Values
Component	The split component type eligible for Split .	
Currency	The currency of split settlement.	
Amount	The amount of split settlement.	

## Split Settlement Details

Split Settlement details section appears from Back office, when the user clicks on the Recalculate button.

Contract Amount	<p>This field displays the FX SOLD currency and Amount.</p> <p>The user can change the currency.</p>	
Available FX Contract Amount	<p>This field displays the available FX contract amount.</p> <p>The value is from the "Available Amount" in FXDLINKG screen in OBTR.</p> <p>Available Amount SOLD currency and Amount is displayed.</p>	
Linkage Amount	<p>This field displays the amount available for linkage.</p> <p>The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone.</p> <p>The validation "Sum of Linked amount will not be greater than contract amount" or "Linkage amount will not be greater than the available amount for linkage" should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.</p>	
Rate	This field displays the exchange rate defaulted from the linked FX Contract.	
FX Amount in Local Currency	<p>This field displays the FX amount in local currency.</p> <p>The value is defaulted as FX BOT currency and Amount from FXDTRONL</p>	
FX Expiry Date	This field displays the expiry date from the linked FX contract.	

Field	Description	Sample Values
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.	
Below fields appear in the FX linkage grid along with the above fields.		
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Linked Amount	Sum of Linked amount will not be greater than LC contract amount.  Linked amount will not be greater than the available amount for linkage.	
Total Utilized amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.  The value is Total Utilized Amount SOLD currency and Amount for Import LC/Guarantee Issuance from FXDLINKG	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.	
Action	Click the Edit icon to modify the FX details.  Click the Delete icon to delete the FX details.	

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

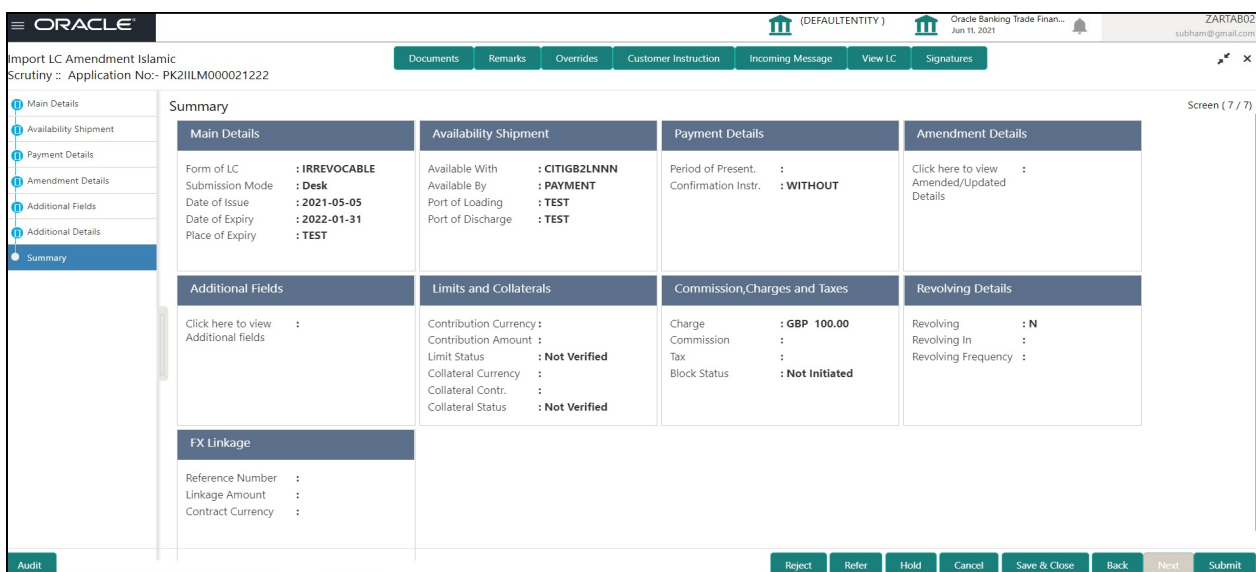

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761.</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p>	
View LC	Enables user to view the details of the LC.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to specify the clarification details for requests received online.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system.  Refer Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

## Summary

User can review the summary of details updated in Scrutiny Islamic Import LC Amendment request.

Log in to Oracle Banking Trade Finance Process Management (OBTFPM) system to see the Summary tiles. The tiles must display a list of important fields with values. User can drill down from Summary Tiles into respective data segments.

### Tiles Displayed in Summary

- Main Details - User can view and modify details about application details and LC details, if required.
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Amendment Details - User can view the amended details of issued LC.
- Additional Fields - User can view and modify the details of additional fields, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Commission, Charges and taxes - User can view and modify charge details, if required.
- Revolving Details - User can view revolving details on revolving LC, if applicable.
- FX Linkage Details - User can view FX the linkage details.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761.</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p>	
View LC	Enables user to view the details of the LC.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to specify the clarification details for requests received online.	

Field	Description	Sample Values
Submit	Task will get moved to next logical stage of Import LC Amendment. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	

## Data Enrichment

As part of Data Enrichment, user can enter/update basic details of the incoming request for new Islamic Import LC Amend.

### Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

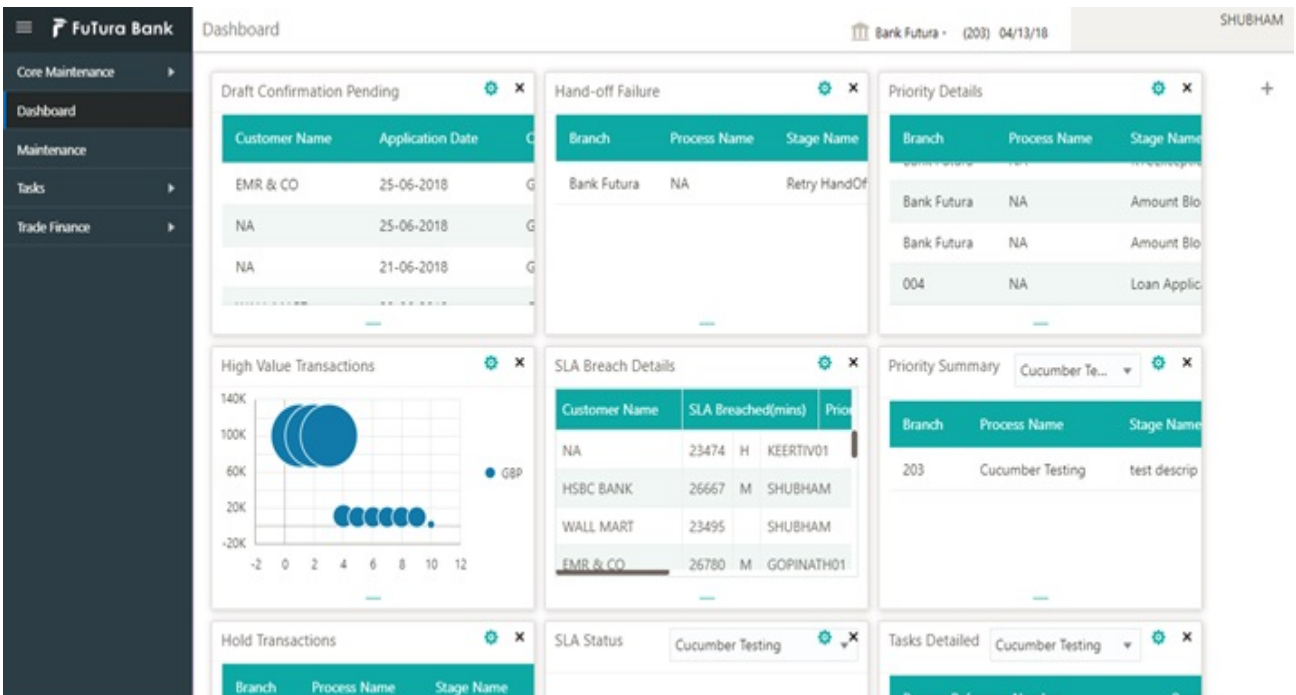

Do the following steps to acquire a task at Data Enrichment stage:

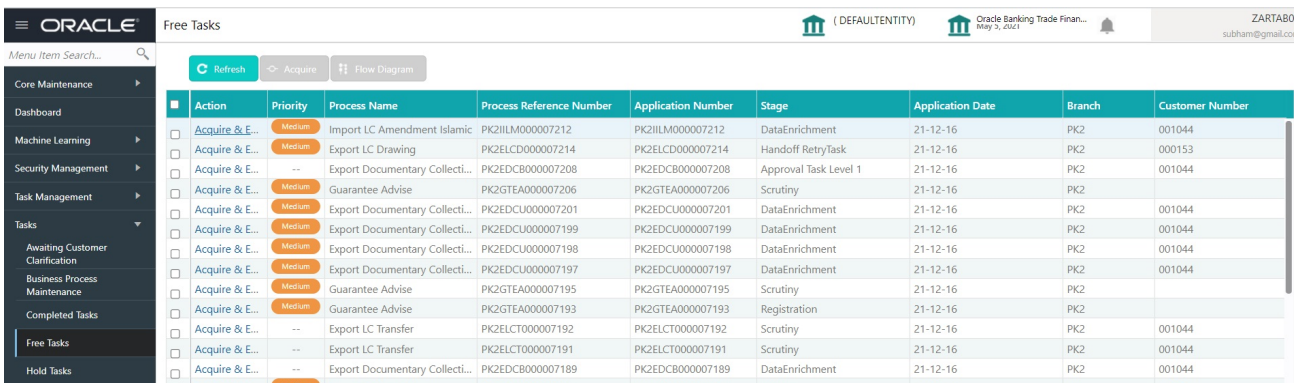

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click **Tasks > Free Tasks.**

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The Data Enrichment stage has six sections as follows:

- Main Details
- Availability & Shipment
- Documents & Conditions
- Payment Details
- Amendment Details
- Additional Fields
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

## Main Details

Refer to [Main Details](#).

## Availability & Shipment

Refer to [Availability Shipment](#).

## Documents & Conditions

User must provide details of the required documents and additional conditions (if applicable) in this section.

The screenshot shows the Oracle system interface for 'Documents and Conditions'. The top navigation bar includes 'ORACLE', user information (SANDHYA02), and various tabs like 'Clarification Details', 'Documents', 'Remarks', etc. The main content area is titled 'Documents and Conditions' and contains two tables. The first table, 'Document Details', has columns for Code, Document Description, Copy, Original, Clause Details, Original Doc. Required, and Action. The second table, 'Additional Conditions', has columns for FFT Code, FFT Description, and Action. A sidebar on the left lists navigation options like 'Main Details', 'Availability Shipment', 'Documents and Conditions', etc.

Code	Document Description	Copy	Original	Clause Details	Original Doc. Required	Action
CLAIMDOC	Claim Doc	1	1	CLAIMDOC	<input type="checkbox"/>	

FFT Code	FFT Description	Action
71BCHARGES		
ADDCONDISS		
LCADV		
SNDRRCVRINF2		

## Documents Required

Documents required section displays the list of documents required as per the issued LC and can be amended if required.

### Note

Insurance document is available in Documents Details section, if value in the 'INCO Term' field is not 'CFR', 'FOB', 'FCA', 'FAS' or 'EXW' in the Availability stage. If not system gives the warning message.

Online Channel - System will default the details received in the Description column. Based on the details populated, user can pick corresponding values for document code, originals and copy.

Non Online Channel - User can further edit (add or remove) the documents or document description as per requirement. Application will display an alert message, if both 'Bill Of lading' and 'Airway Bill' are chosen.

Field	Description	Sample Values
Code	Document code is auto-populated from the latest LC.	
Document Description	Description of the document is auto-populated from the latest LC.	
Copy	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	

Field	Description	Sample Values
Clause Details	System displays the clause details. User can view and edit the clause description by clicking the link.	
Original Doc. Required	System defaults the value to display whether the original document is required or not. The user can enable the option, if document is required.	
Action	Click Edit icon to edit the document details. Click Delete icon to delete the document details.	

### Additional Conditions

Additional Conditions section displays the conditions of the issued LC and can be amended if required.

Online Channel - System will default the details received in the description column. System will parse the additional conditions required field into multiple line items based on line de-limiter (+) and shall populate each line item as a separate description. User can read the description and make any changes required to the description, also must be able to add more conditions.

Non Online Channel - User can use FFT to capture additional conditions and can edit the description populated from FFT. You should also be able to add additional FFT.

Field	Description	Sample Values
FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Action	Click Edit icon to edit the additional conditions details. Click Delete icon to delete the additional conditions details.	

### Payment Details

Refer to [Payment Details](#).

### Amendment Details

Refer to [Amendment Details](#).

### Additional Fields

Refer to [Additional Fields](#).

## Preview

User can view the draft LC amendment message (outgoing MT707 SWIFT message format) being displayed on the preview message text box.

A copy of draft LC amendment can be sent for customer confirmation and the same can be done by choosing the customer response toggle as 'yes'. The Draft MT707 message along with up to seven MT708 messages is sent to the applicant by Email as an attachment to the customer.

The OBTFPM user can send the draft of the message to the registered email id of the corporate customer as an attachment containing PDF. The PDF sent to the corporate customer is protected by a password. Password to be generated with first four digits of Customer Name and last four digits of Customer Number.

On submit, the message will be sent to the customer. The task will be moved to 'pending customer response' stage. Upon receipt of customer's confirmation, the transaction moves to approval.

In case the customer has requested for changes, the transaction will move to Data Enrichment and once the necessary changes made, the request moves to approval stage.

**Note**

A bank user can share the Draft SWIFT message to the customer through email, before the actual transmission of SWIFT message to the Advising Bank.

The screenshot displays the 'Preview Messages' window, which is divided into several sections:

- Preview - SWIFT Message:** Includes fields for Language (English), Message Type (707), Message Status (GENERATED), and Repair Reason.
- Preview - Mail Advice:** Includes fields for Language (English), Advice Type (DEBIT\_ADVICE), Message Status (GENERATED), and Repair Reason.
- Preview Message (Left):** Shows a detailed SWIFT message header and text, including 'Instance Type and Transmission', 'Original Received from Application - Outgoing Draft', 'Priority/Delivery: Normal', 'Swift Input: FIN 707 Amendment to a Documentary Credit', and 'Receiver Swift address: FGBMAEAXXX FIRST GULF BANK'.
- Preview Message (Right):** Shows a 'DEBIT ADVICE/TAX INVOICE' with details like DATE: 03-AUG-23, BRANCH ID, BRANCH NAME, BANK TRN: 100282764800003, and TRANS TIME.
- Draft Confirmation:** Features a 'Draft Confirmation Required' toggle, a 'Customer Response' dropdown, 'Customer Remarks', 'Response Date', and two 'Customer Email ID' search fields.

At the bottom right, there are 'Save & Close' and 'Cancel' buttons.

Provide the Preview details based on the description in the following table:

Field	Description	Sample Values
Language	Select the language for the SWIFT message.	
Language	Read only field. English is set as default language for the preview.	
Message type	Select the message type from the drop down. User can choose to see preview of different message like MT 700, MT 740 and MT 701.	
Message Status	Read only field. Display the message status of draft message of LC amendment details.	
Repair Reason	Read only field. Display the message repair reason of draft message of LC amendment details.	
Preview Message	Display a preview of the draft message.	
Preview - Mail Advice		
Language	Read only field. English is set as default language for the preview.	
Advice Type	Select the advice type.	
Message Status	Read only field. Display the message status of mail advice of LC amendment details.	
Repair Reason	Read only field. Display the message repair reason of draft advice of LC amendment details.	
Preview Message	Display a preview of the advice.	
Draft Confirmation		
Draft Confirmation Required	This toggle enables the user to select if draft confirmation is required or not	
Following fields will have values on receipt of customer response.		
Customer Response	User can enter the response received from customer. If the response is received online, the response is auto populated in this field by the system.	
Customer Remarks	Remarks from the customer for the draft.	
Response Date	Customer Response received date.	

Field	Description	Sample Values
Customer Email ID 1	Default email address of the customer. System fetches the Email ID from Customer Address maintenance in Back office and auto populates the available Email ID.	
Customer Email ID 2	By default this field is blank. User can search and select the Email ID from lookup from the Customer Email Address field of the customer maintenance in Back Office and replicated in OBTFPM.	

## Settlement Details

As part of DE, the user verifies and enter the basic additional details available in the Islamic LC Amend. In case the request is received through online channel he user verifies the details populated.

Component	Currency	Debit/Credit	Account	Account Description	Account Currency	Netting Indicator	Current Event
AILIN_COM1_LIQD	AED	Debit	0322040001	Air Arabia	AED	No	No

## Exceptions

The Import LC Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

## Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

### Amount Block Exception

This section will display the amount block exception details.

## Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

### Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

### Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance- Limits</li> <li>• R5 - Others</li> </ul>	

Field	Description	Sample Values
Cancel	Cancel the Import LC Amendment KYC exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

## Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application, limit check exception queue. Limit check exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

### Note

On Approval of the exception task, system should validate the Limit Availability, Limit Expiry Date in the Limit System and create Earmark in the ELCM system. In case if the Limit is not available or the Limit is expired, then system should display an error message and should not allow the user to approve and proceed.

Limit check Exception approver can do the following actions:

### Approve

- Limit enhanced in the back end (outside this process).
- Without enhancing limit in the back end.

### Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

### Reject

The transaction due to non-availability of limits capturing reject reason.

## Limit/Credit Check

This section will display the amount block exception details.

## Summary

Cancel	<p>Cancel the Import LC Amendment Limit exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

## Multi Level Approval

User can view the summary of details updated in multilevel approval stage of Import LC Amend Islamic request.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

## Authorization Re-Key

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Party
- Application Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

Action	Priority	Application Number	Process Name	Stage	Back Office Ref No.
