# Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing trade finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle trade finance transaction.
- Help users to conveniently create and process trade finance transaction

## Overview

OBTFPM is a trade finance middle office platform, which enables bank to streamline the trade finance operations. OBTFPM facilitates its customers to initiate new Trade transactions/handle response to existing transaction through Trade portals, our by visiting the branch or through SWIFT.

## Benefits

OBTFPM helps banks to manage trade finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all trade finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

## Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

---

## Import LC Update Drawing Islamic

Details of Drawing under an Import LC can be updated before liquidation, this can be on account of applicant response on discrepancy or change of maturity date etc. The update can be requested through Online/Offline channels.

The various stages involved for Islamic Import LC Drawing update are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents received from the presenting bank
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of update Drawing - Data Enrichment stage
- Check for limit availability if applicable
- Check balance availability for amount block if applicable
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The Islamic Import LC Drawing Update process flow is similar to that of conventional Import LC Drawing Update process flow.

This section contains the following topics:

<a href="#">Action Buttons</a>	<a href="#">Registration</a>
<a href="#">Scrutiny</a>	<a href="#">Data Enrichment</a>
<a href="#">Exceptions</a>	<a href="#">Multi Level Approval</a>
<a href="#">Reject Approval</a>	

### Action Buttons

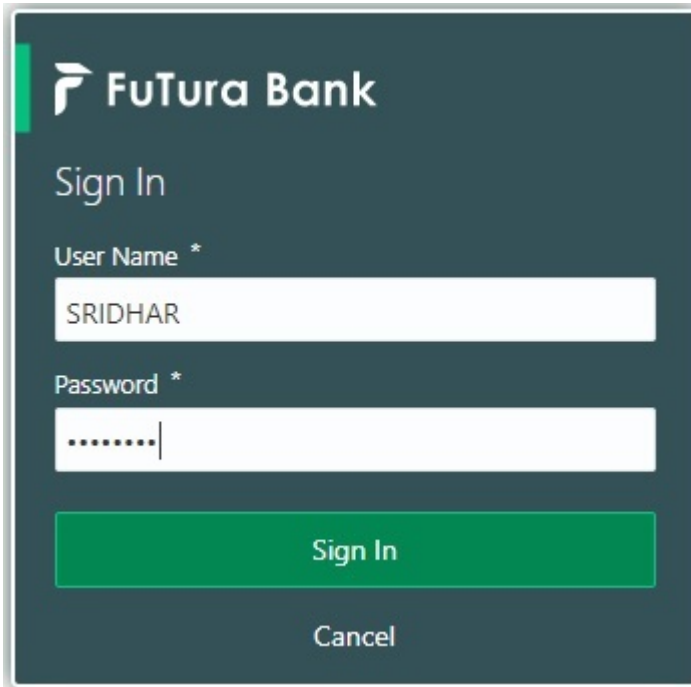

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

### Registration

During Registration stage, user registers request for an Islamic Import LC Update Drawing at the front desk (as an application received physically/Courier). User can also capture the basic details, check the signature of the applicant and upload the documents received from presenting bank. System also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

3. Click Trade Finance- Islamic > Import - Documentary Credit> Import LC Drawing Update- Islamic.

The Registration stage has two sections Basic Details and Drawing Details. Let's look at the details of Registration screens below:

### Application Details

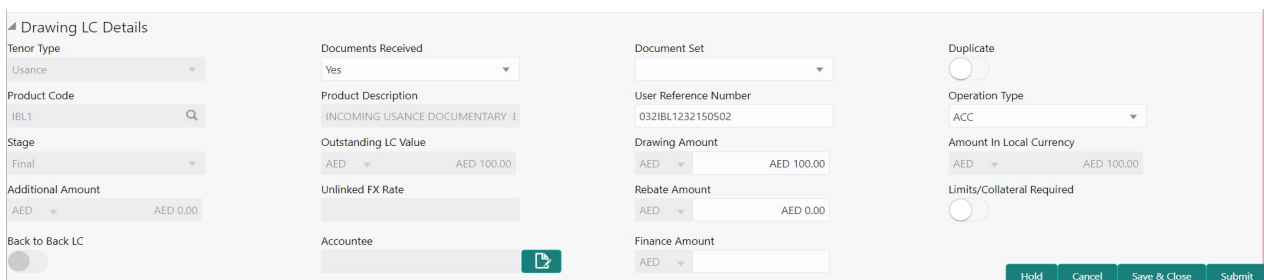

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
Drawing Reference Number	<p>Provide the drawing reference number. Alternatively user can search the drawing number using LOV.</p> <p>In the LOV, user can input Drawing Reference Number, LC Drawing Reference Number, Counter Party, Beneficiary, Currency, Amount, Issue Date and Ext Reference Number to fetch the LC details. Based on the search result, select the applicable LC for drawing.</p>  <p><b>Note</b> In case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".</p>	
Version Number	<p>Read only field.</p> <p>Version number is the versions of the drawing update.</p>	
Documentary Credit Number	<p>Read only field.</p> <p>Documentary credit number will be auto-populated based on selected LC from the LOV.</p>	
Received From - Customer ID	<p>Read only field.</p> <p>Customer ID will be auto-populated Customer ID will be auto populated based on contract detail as available in back office.</p>	001344
Received From - Customer Name	<p>Read only field.</p> <p>Customer Name will be auto-populated based on the selected LC from the LOV.</p>	EMR & CO
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC from the LOV.</p>	203-Bank Futura -Branch FZ1
Process Reference Number	<p>Read only field.</p> <p>Unique sequence number for the transaction.</p> <p>This is auto generated by the system based on process name and branch code.</p>	
Priority	<p>System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.</p>	High

Field	Description	Sample Values
Submission Mode	Select the submission mode of Import LC Drawing request. By default the submission mode will have the value as 'Desk'.  <b>Desk</b> - Request received through Desk <b>Courier</b> - Request received through Courier <b>Email</b> - Request received through Mail <b>Fax</b> - Request received through Fax	Desk
Drawing Date	Read only field. Drawing date will be auto-populated based on the selected drawing.	04/13/2018
Drawing Update Date	Read only field. By default, the application will display branch's current date and does not enables the user to change the date to any back date.	
Presenting Bank	Presenting bank details will be auto-populated based on the selected LC from the LOV. User can edit this field.   <b>Note</b> If the KYC non-compliant party is selected then the system immediately gives instant alert as "Customer ID - (CIF ID) is not KYC compliant."	
Presenting Bank Reference Number	Read only field. Presenting bank reference number will be auto-populated based on the selected LC from the LOV.	
Document Received Date	Read only field. By default, the application will display branch's current date.	

## Drawing LC Details

Drawing Details will be populated from the drawings. Registration user can update the fields if required.

**Drawing LC Details**

Tenor Type: Usance

Field	Description	Sample Values
Accountee	Read only field. This field displays the Accountee based on the selected LC.	
Finance Amount	Specify the value for finance amount.	

## Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from Issuance.	
<b>Action Buttons</b>		
Submit	On submit, task will get moved to next logical stage of Import LC Update Drawing Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Update Drawing Islamic Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.  	

## Scrutiny

A Scrutiny user can scrutinize the request for Islamic Import LC Drawing update.

As part of scrutiny, the user can enter/update basic details of the Islamic LC Drawing update request and can verify if the request can be progressed further. The task initiated from the online channel (OBDEX/ SWIFT MT798) should be created in the Scrutiny stage directly as in conventional process flow.

Do the following steps to acquire a task at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

### 3. Click Trade Finance> Tasks> Free Tasks.

The Scrutiny stage has hops which are as follows:

- Main Details
- Drawing Summary
- Other Details
- Maturity Details
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User must be able to enter/update the following fields. Fields with pre-defaulted values are non editable.

## Main Details

Main details section has two sub section as follows:

- Application Details
- Drawing LC Details

## Application Details

All fields displayed under Basic details section, would be read only except for the **Priority**. Refer to [Application Details](#) for more information of the fields.

Following field can be amended based on the description provided in the following table:

Field	Description	Sample Values
Drawing Reference Number	Read only field. The drawing reference number is auto-populated, as selected in the Registration stage.	
Version No.	Read only field. Version number is the versions of the drawing update.	
Documentary Credit Number	Read only field. Documentary credit number will be auto-populated based on selected LC from the LOV.	
Received From - Customer ID	Read only field. Customer ID will be auto-populated based on the selected LC from the LOV.	001344
Received From - Customer Name	Read only field. Customer Name will be auto-populated based on the selected LC from the LOV.	EMR & CO

Field	Description	Sample Values
Branch	Read only field. Branch details will be auto-populated based on the selected LC from the LOV.	203-Bank Futura -Branch FZ1
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.	High
Submission Mode	Select the submission mode of Import LC Drawing request. By default the submission mode will have the value as 'Desk'. <b>Desk</b> - Request received through Desk <b>Courier</b> - Request received through Courier <b>Email</b> - Request received through Mail <b>Fax</b> - Request received through Fax	Desk
Drawing Date	Read only field. Drawing date will be auto-populated based on the selected drawing.	04/13/2018
Drawing Update Date	Read only field. By default, the application will display branch's current date.	
Presenting Bank	Presenting bank details will be auto-populated based on the selected LC from the LOV. User can edit this field.	
Presenting Bank Reference Number	Read only field. Presenting bank reference number will be auto-populated based on the selected LC from the LOV.	
Document Received Date	Read only field. By default, the application will display branch's current date.	

## Drawing LC Details

The fields listed under this section are same as the fields listed under the [Drawing LC Details](#) section in [Registration](#). Refer to [Drawing LC Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Read only field. Displays the Tenor Type. <ul style="list-style-type: none"> <li>Sight</li> <li>Usance</li> <li>Multi Tenor</li> </ul>	
Documents Received	Set the document received status as 'Yes' or 'No' from the drop down.	
Document Set	Select the set of import document received: <ul style="list-style-type: none"> <li>First</li> <li>Second</li> <li>Both</li> </ul> <p>The user has to select the option as 'Second' and has to set the "Duplicate" toggle to Yes, if a Duplicate (second set) of Import document is received.</p>	
Duplicate	If documents received are duplicate and if the drawing is already completed, user can mark this as duplicate and submit.	
Product Code	Read only field. Product code will be auto-populated based on the selected drawing.	
Product Description	Read only field. This field displays the description of the product as per the product code.	
User Reference Number	System defaults the user reference number based on the product code. The user can change the user reference number.	

Field	Description	Sample Values
Operation Type	<p>Select the operation type from the LOV:</p> <ul style="list-style-type: none"> <li>• ACC</li> <li>• DIS</li> <li>• ADV</li> </ul>  <p><b>Note</b></p> <p>This field is non editable depending on the product.</p>	
Stage	<p>Select the stage.</p> <p>The options are:</p> <ul style="list-style-type: none"> <li>• Initial</li> <li>• Final</li> </ul>  <p><b>Note</b></p> <p>This field is non editable depending on the product.</p>	
Outstanding LC Value	<p>Read only field.</p> <p>Outstanding LC value will be auto-populated. This field displays the value as per the latest LC.</p>	
Drawing Amount	<p>Provide the drawing amount under the LC for which documents have been submitted.</p>  <p><b>Note</b></p> <p>This field is non editable, if there is Immediate Liquidation product under Import LC Sight bill and <b>Operation Type</b> should be “Pay”, <b>Stage</b> will be “Initial” and user have to select the stage as “Final” and user has to accept all the discrepancies.</p>	
Amount In Local Currency	<p>Read only field.</p> <p>System fetches the local currency equivalent value for the LC amount from back office (with decimal places).</p>	
Additional Amount	<p>Read only field.</p> <p>This field displays any additional amount to be included under the LC drawing.</p>	
Unlinked FX Rate	<p>Provide the unlinked FX rate, if value in the <b>Operation Type</b> field is <b>DIS</b>.</p>	
Rebate Amount	<p>Specify the value for rebate to the bill outstanding amount.</p>	

Field	Description	Sample Values
Limits/Collateral Required	Enable this option, if limits/collateral is required.	
Back to Back LC	Read only field. Flag to check if the Import LC is a back to back LC. Toggle On: Set the Toggle On if back to back LC is applicable. Toggle Off: Set the Toggle Off if back to back LC is applicable.	
Accountee	Read only field. This field displays the Accountee based on the selected LC.	
Finance Amount	Specify the value for finance amount.	

### Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Events	Click this button to view all the events under the LC Issued till date.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Events	Click this button to view all the Undertaking events under the LC Issued till date.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	

Field	Description	Sample Values
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

# Drawing Summary

## Document Details

User can compare the document received with the required documents and identify the discrepancies, if any. Provide the information based on the description in the following table:

Field	Description	Sample Values
	Document Details - As per LC	
	This table will fetches the document details as maintained in the underlying LC(LCDTRONL). User can modify the details only which are fetched from underlying LC.	
	User can not add or delete any document details.	
	Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing.	
Document Code	Document code is auto-populated from the latest LC.	

Field	Description	Sample Values
Document Reference Number	Enables user to provide the reference number available in the documents.	
Document Date	<p>Displays the document date.</p> <p>The user can change the date.</p>  <p><b>Note</b> If “Document date” is more than “Shipment Date” system displays an override alert.</p>	
Description	<p>Description of the document required as per LC.</p> <p>Click the link to view the description.</p>	
First Mail Received Copy	Update the number of duplicate copies of documents received.	
First Mail Received Original	Update the number of originals of documents received.	
Document Clause	<p>Displays the document clause.</p> <p>Click the link to view the document clause.</p>	
Received Description	<p>Displays the description of the documents received from presenting bank.</p> <p>Click the link to view the received description.</p>	
Discrepant	System marks the discrepant toggle as ‘Yes’ if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	<p>Select the discrepancy code based on the discrepancy identified.</p> <p>This field is enabled if Discrepant option is enabled.</p>	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Resolved Under MT750	If the discrepancy has already been highlighted in the MT750 and the customer has ‘Accepted/ Waived’ the discrepancy then the user must set the value as ‘Yes’ in the toggle. The discrepancies which are resolved under MT750 will not be available in the Discrepancy summary field.	
Action	Edit: Click edit to edit the document code.	

Field	Description	Sample Values
<p>Additional documents presented</p> <p>This table fetches document details as maintained for the specific bill drawing product (BCDPRMNT). Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also.</p> <p>The user can click + to add multiple document details.</p>		
Document Code	<p>Click Search to search and select the document code based on the document received.</p> <p>User can add or delete the code by deleting the line on the grid.</p>  <p><b>Note</b></p> <p>The User is not allowed to add any document code which is already existing in any of the two tables.</p>	
Document Reference Number	<p>Enables to user to provide the reference number available in the documents.</p>	
Document Date	<p>Provide the document date of the underlying document.</p>  <p><b>Note</b></p> <p>If “Document date” is more than “Shipment Date” system displays an override alert.</p>	
Description	<p>Displays the description of the additional documents based on the document code selected.</p> <p>Click the link to view the description of the document.</p>	
First Mail Received Copy	<p>Provide the number of duplicate copies of documents received from first mail.</p>	
First Mail Received Original	<p>Provide the number of originals of documents received from first mail.</p>	
Action	<p>Edit: Click edit to edit the document code</p> <p>Delete: Click Delete to delete the document code.</p>  <p><b>Note</b></p> <p>The User can not be able to delete any document detail fetched from previous operation.</p>	

## Shipment Details

User must check whether the received documents of goods and shipment are as per the LC.

## Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
The user can click + to add multiple good details.		
Select	The check box to select the record.	
Goods Code	This field displays goods code as per latest LC. User can click plus + icon and click Search to search and select the goods code. User can add or delete the code by deleting the line on the grid.	
As per LC	This field displays description of the goods as per the latest LC.	
Number of Units	Enter the number of units being imported or exported.	
Price per Unit	Enter the value for price per unit.	
As per Documents	Provide the description of the goods as per the documents.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.  This field is enabled if <b>Discrepant</b> option is set to 'Yes'.	
Discrepancy Description	Description will be displayed based on the discrepancy code.  Click the edit icon to edit the discrepancy description.	
Insurance Company Code	Click Search to search and select the insurance company code.	
Insurance Company	The details of insurance company is populated as per the selected Insurance Company Code.	
Policy Number	Provide the policy number of the insurance.	
Carrier Name	Provide the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	

### Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Provide the date of shipment as per the documents received.  This field is validated against the Latest Date of Shipment in LC to check for discrepancy.	
Shipping Agent	Provide the shipping agent details based on the documents received.	
Date of Presentation	Auto-populated based on the system date. If Place of expiry is Issuing bank, This field is validated against the Expiry Date in LC to check for discrepancy.	
Details	Details represent the fields in latest LC.	
As per LC	This field displays description of the fields as per the latest LC terms.	
As Per Document	Provide/Select the description of the field as per documents submitted.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.  This field is enabled if Discrepant option is set to 'Yes'.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Resolved Under MT750	If the discrepancy has already been highlighted in the MT750 and the customer has 'Accepted/ Waived' the discrepancy then the user must set the value as 'Yes' in the toggle.  The discrepancies which are resolved under MT750 will not be available in the Discrepancy summary field.	

### Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

MT 752 - Further Identification	The further identification option. The options are: <ul style="list-style-type: none"> <li>● Accept</li> <li>● Debit</li> <li>● Negotiate</li> <li>● Reimburse</li> <li>● Remitted</li> <li>● SEE72</li> </ul>	

## FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.

- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate.

Field	Description	Sample Values
-------	-------------	---------------

Click + plus icon to add new FX linkage details.

Below fields are displayed on the FX linkage pop-up screen, if the user clicks plus icon.

Field	Description	Sample Values
FX Reference Number	<p>Select the FX contract reference number from the LOV.</p> <p>On select and save and close, system defaults the available amount, bot currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> <li>• Counterparty of the FX contract should be the counterparty of the Bill contract.</li> <li>• Active Forward FX transactions authorized not marked for auto liquidation.</li> </ul> <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p> <p>For newly added value, Counter Party is used in FX contracts for FX linkage.</p>	
Currency	This field displays the FX SOLD currency from the linked FX contract.	
Contract Amount	<p>This field displays the FX SOLD currency and Amount.</p> <p>The user can change the currency.</p>	
Available FX Contract Amount	<p>This field displays the available FX contract amount.</p> <p>The value is from the “Available Amount” in FXDLINKG screen in OBTR.</p> <p>Available Amount SOLD currency and Amount is displayed.</p>	
Linkage Amount	<p>This field displays the amount available for linkage.</p> <p>The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone.</p> <p>The validation “Sum of Linked amount will not be greater than contract amount” or “Linkage amount will not be greater than the available amount for linkage” should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.</p>	
Rate	This field displays the exchange rate defaulted from the linked FX Contract.	
FX Amount in Local Currency	<p>This field displays the FX amount in local currency.</p> <p>The value is defaulted as FX BOT currency and Amount from FXDTRONL</p>	

Field	Description	Sample Values
FX Expiry Date	This field displays the expiry date from the linked FX contract.	
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.	
Below fields appear in the FX linkage grid along with the above fields.		
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Linked Amount	Sum of Linked amount will not be greater than LC contract amount.  Linked amount will not be greater than the available amount for linkage.	
Total Utilized amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.  The value is Total Utilized Amount SOLD currency and Amount for Import LC/Guarantee Issuance from FXDLINKG	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.	
Action	Click the Edit icon to modify the FX details.  Click the Delete icon to delete the FX details.	

## Action Buttons

This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Messages	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_ MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Events	Click this button to view all the events under the LC Issued till date.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Import LC Drawing Scrutiny stage inputs.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	

## Other Details

Provide the other bank charges based on the description in the following table:

### Shipping Guarantee Reference

Provide the Shipping Guarantees Details based on the description in the following table:

Field	Description	Sample Values
Click '+' sign to add multiple Shipping Guarantees to a Single Bill.		
Shipping Guarantee Reference	Click <b>Search</b> to search and select the shipping guarantee reference number. User can link an existing Shipping Guarantee using this field.	
Transport Document Reference	System defaults the Transport Document Reference details. System validates the Shipping Guarantee Transport Document reference number with Transport Document Reference number in a Bill, if user manually provides the Shipping Guarantee detail.	

Field	Description	Sample Values
Transport Document Date	System defaults the transport document date provided in the Bill, which is linked with the Shipping Guarantee.	
Amount	Shipping Guarantee amount is displayed in this field.	
Action	Edit: Click edit to edit the shipping guarantee details. Delete: Click edit to edit the shipping guarantee detail.	

### Other Details

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	Provide the debit value date.	
Credit Value Date	Provide the credit value date.	
Value Date	Provide the value date.	
Allow Pre-Payment	<b>Toggle On:</b> Set the toggle 'On' to enable pre-payment. <b>Toggle Off:</b> Set the toggle 'Off' to disable pre-payment.	
Future Advance Date	Select the future advance date to capture advanced requested Date.  Future Advance Date should be less than the Bill Maturity Date and should be greater than the current branch date.  System should default the "Future Advance Date" which has been captured already as part of the latest version of the contract and should allow the user to modify the same.  This field is enabled if the operation code is "ACC".  This field is disabled and read only for Immediate liquidation products.	

### Other Bank Charges

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	

Field	Description	Sample Values
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -2 to 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	

### Other Bank Profit

The user can enter the Interest details to be captured as a part of “Other Bank Interest” details section.

Provide the other bank interest based on the description in the following table:

Field	Description	Sample Values
Start Date	Provide the date from which the system starts calculating the Interest.	
Other Bank Profit-1, 2 and 3		
Component	This field displays the name of the interest Component.	
Component Description	Provide the description of the interest component.	
Profit Rate	Provide the rate to be applied for the interest component.	
Profit Basis	Select the calculation basis on which the Interest to be computed.	
Waive	Select whether the interest to be waived off. The options are: <ul style="list-style-type: none"> <li>• Yes</li> <li>• No</li> </ul>	

### MT 750 Details

Provide the MT 750 Details based on the description in the following table:

Field	Description	Sample Values
71D Charges To Be Deducted	Specify the charges to be deducted.	

Field	Description	Sample Values
34B Total Amount To Be Paid	Select the currency and specify the total amount to be paid.	
Charges To Be Added	Specify the charges to be added.	
72Z Sender To Receiver Information	Specify the sender to receiver information.	

## Maturity Details

This field displays the maturity details and this section. A Scrutiny user can input the Maturity details data segment of an Islamic Import LC Update Drawing.

The screenshot displays the Oracle Islamic Import LC Drawing Update interface. The main content area is titled "Maturity Details" and is divided into two sections:

- Draft Details:** A table with columns for Draft Code, Draft Amount, and Action. The Action column contains an edit icon and a delete icon.
- Maturity and Multi Tenor Liquidation Details:** A table with columns for S.No, Tenor Basis, Tenor Description, Start Date, Tenor Days, Transit Days, Maturity Date, Bill Amount, Liquidated Amount, Exchange Rate, Liquidation Date, and Liquidation. Below this table are fields for Interest From Date, Interest To Date, Acceptance Commission From Date, and Acceptance Commission To Date.

The bottom of the screen features a navigation bar with buttons: Audit, Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

## Draft Details

Update the maturity details based on the description in the following table:

Field	Description	Sample Values
Draft Code	Update the draft code. Alternatively, user can search the draft details using LOV.	
Draft Amount	Update the draft amount.	
Action	Click Edit icon to edit the draft code. Click Delete icon to delete the draft code.	

## Maturity and Multi Tenor Liquidation Details

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
Tenor Basis	Update the tenor basis, if the tenor is not sight.	
Tenor Description	The tenor base code description is displayed based on the selected tenor basis.	
Start Date	Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	
Maturity Date	<p>System displays the due date for the drawing based on tenor and tenor basis.</p> <p>If tenor is sight, system will calculate the maturity date as 5 working days from document received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date.</p> <p>If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.</p>	
Bill Amount	Provide the bill amount.	
Liquidated Amount	Provide the liquidation amount.	
Exchange Rate	Provide the Exchange Rate.	
Liquidation Date	Provide the liquidation date.	
Liquidation Amount	Provide the bill amount.	
Rebate Amount	Provide the rebate amount for the LC value as per the tenor basis.	
<del>Profit</del> Interest from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Interest To Date	Select the interest to date.	
Accept Commission From Date	Provide the acceptance commission start date.	
Accept Commission To Date	Provide the acceptance commission to date.	

## Additional Details

A Scrutiny user can verify/input/update the additional details Data Segment of the Islamic Import LC update Drawing request.

As part of Additional details section, LC may have impact on the Limits, Collaterals and Charge section.

The screenshot shows the Oracle application interface for 'Islamic Import LC Drawing Update'. The 'Additional Details' section is active, displaying four sub-sections:

- Limits & Collaterals:** Contribution Currency, Contribution Amount, Limit Status, Collateral Currency (AED), Collateral Contr.
- Charge Details:** Charge, Commission, Tax, Block Status (Not Initiated)
- Payment Details:** Reim Claimed (No), Auto Liquidate (No), Repay Freshment Credit (No)
- Assignment of Proceeds:** AssignmentOfProceeds (No), Assignee Name, Assigned Amount

### Limits & Collateral

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

**Note**

For newly added values, Counter Party is used in 'Limit details' for limit tracking, Account for Collateral margin and Deposit detail for Deposit Linkage.

The screenshot shows the 'Limits & Collaterals' section with three sub-sections:

- Limit Details:** A table with columns: Customer ID, Linkage Type, Liability Number, Line Id/Linkage Ref No, Line Serial, Contribution %, Contribution Currency, Amount to Earmark, Limit Check Response, Response Message. One row is visible: Customer ID 032204, Linkage Type Facility, Liability Number 032204, Line Id/Linkage Ref No 032204AD1, Line Serial 1, Contribution % 100, Contribution Currency AED, Amount to Earmark 100000, Limit Check Response Not Available, Response Message The Earmark cannot b...
- Cash Collateral Details:** A table with columns: Sequence Number, Settlement Account Currency, Settlement Account, Exchange Rate, Collateral %, Contribution Amount, Contribution Amount in Account Currency, Account Balance Check Resp. No data to display.
- Deposit Linkage Details:** A table with columns: Deposit Account, Deposit Currency, Deposit Maturity Date, Transaction Currency, Deposit Available in Transaction Currency, Linkage Amount(Transaction Currency), Edit, Delete. No data to display.

### Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Document Details - User can view the document details.
- Other Details - User can view and modify the other details.
- Shipment Details - User can view the shipment details. Additional Conditions - User can view additional conditions of the drawing
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Commission, Charges & Taxes - User can view charge details.
- Parties Details - User can view party details like applicant, advising bank etc.
- Payment Details - User can view the payment details.
- Assignment of Proceeds - User can view assignment of proceeds details.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>● <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	Displays the incoming message, if any.	
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Submit	<p>Task will get moved to next logical stage of Import LC Update Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in user's queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

## Data Enrichment

Data Enrichment is applicable only for non-discrepant drawings. A DE User can input Import LC update Drawing. As part of data enrichment user will enter/update basic details of the incoming request.

### Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

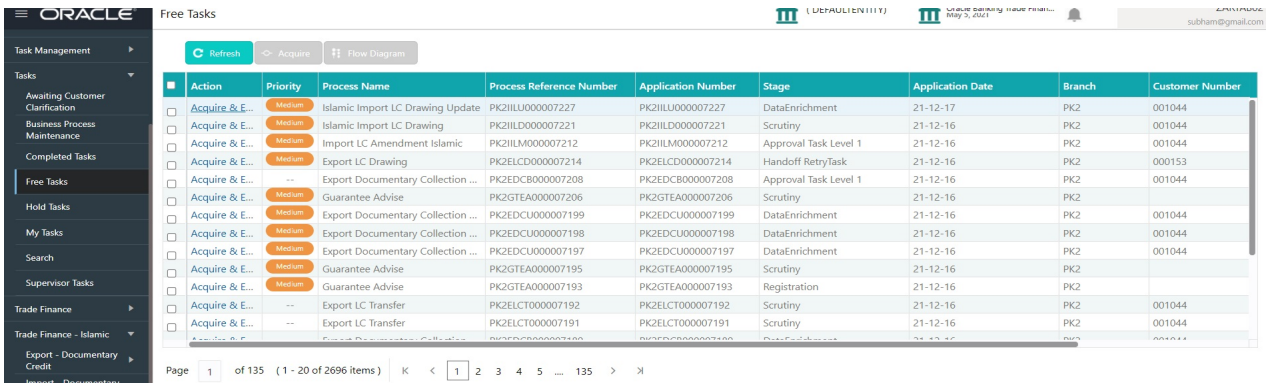

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

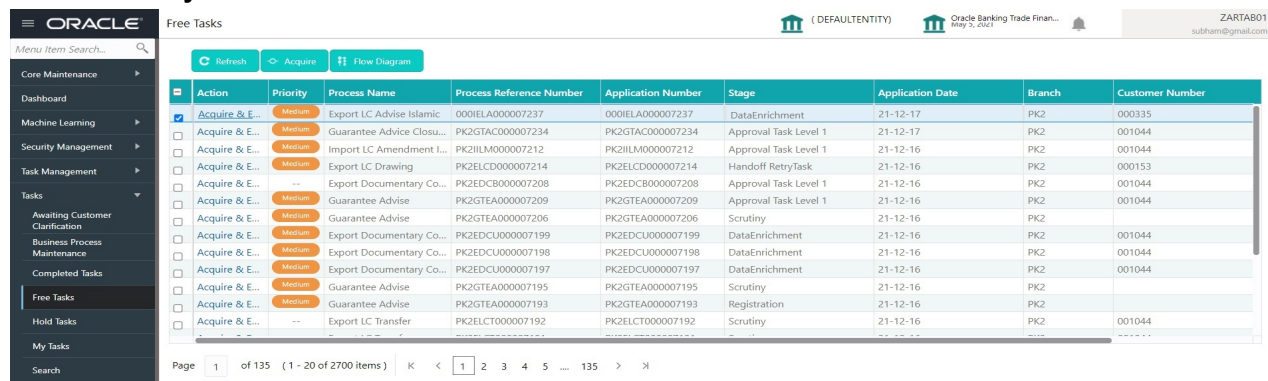

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

Finance Amount	Finance amount of the linked loan account.	

## Settlement Details

As part of DE, the user will verify and enter the basic additional details available in the Islamic Import LC update drawing. In case the request is received through online channel user will verify the details populated.

The screenshot displays the Oracle Islamic Import LC Drawing Update interface. The main content area is titled 'Settlement' and includes a 'Current Event' checkbox. Below this is a 'Settlement Details' table with columns for Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, and Current Event. The table lists components like BILL\_LIQ\_AMT, BILL\_LIQ\_AMTEQ, BK TAX\_AMT, and LQ TAX\_AMT. Below the table are sections for 'BILL\_LIQ\_AMT - Party Details' (including Transfer Type, Ordering Institution, and various counterpart details) and 'Payment Details' (including Sender To Receiver and Remittance Information).

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Currency Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	

Field	Description	Sample Values
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	Application displays the current event as Y or N.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

### Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> <li>● Customer Transfer</li> <li>● Bank Transfer for own account</li> <li>● Direct Debit Advice</li> <li>● Managers Check</li> <li>● Customer Transfer with Cover</li> <li>● Bank Transfer</li> </ul>	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> <li>● Beneficiary All Charges</li> <li>● Remitter Our Charges</li> <li>● Remitter All Charges</li> </ul>	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> <li>● Yes</li> <li>● No</li> </ul>	
Ordering Customer	Select the ordering customer from the LOV.	

Field	Description	Sample Values
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

### Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

### Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

## Summary

User can review the summary of details updated in Data Enrichment stage Islamic Import LC Update Drawing request. As part of summary screen, the user can see the summary tiles. The tiles should display a list of important fields with values.

### Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Other Details- User can view other details.
- Shipment Details - User can view the shipment details.
- Additional Conditions - User can view additional conditions of the drawing
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Payment Details - User can view the payment details of the drawing.
- FX Linkage - User can view FX linkage details.
- Finance Preferences - User can view the loan preferences details.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Commission, Charges & Taxes - User can view the charge details.
- Assignment of Proceeds - User can view assignment of proceeds details.
- Preview Messages - User can preview the draft message generated if any.
- Settlement - User can view the settlement details.
- Parties Details - User can view party details like applicant, advising bank etc.

- Compliance Details - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details – User can view the accounting entries generated by back office system.

**Note**

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message “Value Date is different from Transaction Date for one or more Accounting entries.

**Action Buttons**

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.

User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	Displays the incoming message, if any.	

Field	Description	Sample Values
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Submit	<p>Task will get moved to next logical stage of Import LC Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

## Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

### Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit

charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

### **Amount Block Exception**

This section will display the amount block exception details.

### **Summary**

Tiles Displayed in Summary:

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Shipment Details - User can view the shipment details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Revolving Details - User can view the revolving details.
- Maturity Details - User can view the maturity details.
- Payment Details - User can view the payment details.
- Preview Details - User can view the preview the draft message.
- Settlement Details - User can view the settlement details.
- Preferences - User can view set loan preferences.

- FX Linkage - User can view the details of FX Linkage.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details – User can view the accounting entries generated by back office system.

**Note**

- Advices - User can view and modify the advice details, if required.
- Linked Loan Details - User can view the linked loan details.
- Profit Details - User can view the profit details.

**Action Buttons**

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance- Limits</li> <li>● R5 - Others</li> </ul>	
Cancel	<p>Cancel the Import LC Drawing Amount Block Exception check.</p>	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

## Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

### Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

## Summary

Tiles Displayed in Summary:

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Shipment Details - User can view the shipment details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Revolving Details - User can view the revolving details.

Cancel	<p>Cancel the Import LC Drawing KYC exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

## Multi Level Approval

The user can view the summary of details updated in multilevel approval stage of Import LC update Drawing. Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTfM displays the Handoff failure error during the Approval of the task.

## Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Party
- Beneficiary Party
- Drawing Currency
- Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

The screenshot displays the Futura Bank interface. On the left is a navigation menu with options like Core Maintenance, Dashboard, Maintenance, Security Management, Tasks, Free Tasks, Hold Tasks, My Tasks, Search, Supervisor Tasks, and Trade Finance. The main area shows a 'Free Tasks' table with columns for Action, Priority, Application Number, Process Name, Stage, and Rack Office Ref No. An 'Approval Rekey' dialog box is open in the center, containing fields for Applicant Party (000262), Beneficiary Party (000263), Drawing Currency (GBP), and Drawing Amount (£1,200.00). Each field has a green checkmark indicating it is correct. The dialog also has buttons for 'Proceed', 'Refer', and 'Cancel'.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance- Limits</li> <li>● R5 - Others</li> </ul>	
Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

## Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Update Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

## Application Details

The application details data segment have values for requests received from both non-online and online channels.

## Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
- Drawing Details - User can view the drawing details.
- Documents Under LC - User can view the documents received under the LC for this drawing, if required.
- Shipment - User can view shipment details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Payment Details - User can view the payment details.
- Settlement Details - User can view the settlement details.
- Preferences - User can view set loan preferences.
- FX Linkage - User can view the details of FX Linkage.

## Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject Approve	On click of Reject Approve, the transaction is rejected.	
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.
