# 1. Release Notes

## 1.1 **Background**

Oracle Financial Services Software Limited has developed Oracle FLEXCUBE Universal Banking, which enable banks to create a distributed network of branches for effective marketing and efficient handling of customer transactions.

## 1.2 **Purpose**

The purpose of this Release Note is to propagate the enhancements in Oracle FLEXCUBE Universal Banking 14.7.3.0.0.

A patch release is an official Oracle patch release for Oracle FLEXCUBE Universal Banking. The fourth & fifth digit in a patch release string indicates the patch release number. The first three digits indicate the release to which the patch is applied. For example, release 14.7.3.0.0 is the first patch for Release 14.7.0.0.0 each patch release includes libraries and files that have been rebuilt to implement one or more fixes. Each patch release is incremental. In other words, the latest patch release includes new fixes released after last patch released for the same release.

## 1.3 **Patch Requirements**

Customers installing this release should refer to 14.6\_Patchset\_Deployment\_Guidelines.docx and 14.7.3.0.0 Java Services Deployment Guidelines.docx included in the Patch Release zip file. Confirm this patch release applied after applications of previous patch releases up to 14.7.0.0.0 completed successfully.

## 1.4 **Applying the Patch Release**

Customers installing this patch release should refer to the "Installation Guide" chapter in the Oracle FLEXCUBE Universal Banking Release 14.7 Install and Upgrade Guide, which is available here:

[https://docs.oracle.com/cd/F72109\\_01/install.htm](https://docs.oracle.com/cd/F72109_01/install.htm)

Customers installing this patch release should refer to the Readme, Patch set, and Java Services deployment guides included in the Patch Release zip file

## 1.5 **Release Highlights**

The rationale for the product release of Oracle FLEXCUBE Universal Banking version 14.7.3.0.0 is to support regulatory requirement and enhance features that are essential in competitive market.

Following are the features included in the release along with forward porting of applicable fixes related to the incidences reported in previous versions and technical qualification to comply with approved Tech Stack.

- Technical changes to product
- Support for BULK Accounting Upload from external system
- Debit/Credit Notification in MX format

### **1.5.1 Technical changes to product**

- Multiple changes are introduced as part of quality improvement and support of the product processors.
  - Issues Resolved: Please refer FLEXCUBE bug lists which has been appended with the new bugs for the overview of the bugs which were addressed part of this release.
  - Forward Porting has been applied to manage the solutions provided against CCB and other customer request/concerns.
  - Changes to Common Core modules are introduced where impacts for the CORE modules are originating from FLEXCUBE and other product processors.

### **1.5.2 Support for BULK Accounting Upload from External System**

- System has been enhanced to support processing of Multiple Transactions in Single Request during accounting hand-off from external system

### **1.5.3 Debit/Credit Notification in MX format**

- Enhancement for regulatory requirement of Camt messages to support Customer Debit/Credit Notification in ISO 20022 format (Camt.054)
