U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

<i>EDA Option to Populate Stakeholder Data from External System</i>	<i>2</i>

1. Understanding Patch Releases

A patch release is an official Oracle patch release for Oracle Banking Credit Facilities Process Management. The fourth & fifth digit in a patch release string indicates the patch release number. The first three digits indicate the release to which the patch is applied. This is a consolidate release.

Each patch release includes libraries and files that have been rebuilt to implement one or more fixes. Each patch release is incremental. In other words, the latest patch release includes new fixes released after last patch released for the same release.

2. Patch Requirements

Customers can apply this patch over and above OBCFPM 14.7.0.0.0 Release.

3. Applying the Patch Release

Customers installing this patch release should refer to the "Installation Guide" chapter in the *Oracle Banking Credit Facilities Process Management Release 14.7.0.0.0 Installation Guide*, which is available here: https://docs.oracle.com/cd/F75096_01/index.htm.

4. Enhancements

As part of Oracle Banking Credit Facilities Process Management – December 2023 Release following enhancements were released:

PDS Integration on Interest / Charge / Commission

PDS Integration on Interest / Charge / Commission

- Oracle Banking Credit Facilities Process Management (OBCFPM) is now integrated with Pricing and Decision Services (PDS) to generate pricing for the facilities that are being sanctioned in the Credit application.
- Customer, Liability, Facility attributes captured as part of the application for party is used as facts and will be shared with PDS.
- PDS will run rule and return the derived pricing to OBCFPM which is associated with the facility. It will be first shared for approval and later for customer acceptance.

T&C Hand Off to ELCM

T&C Hand Off to ELCM

- Terms and Conditions (T&C) feature has been introduced in Oracle Banking Enterprise Limits and Collateral Management (OBELCM).
- OBCFPM will now hand off T&C for customer and facility to OBELCM.

EDA Indirect Exposure Tree View

EDA Indirect Exposure Tree View

- EDA Indirect Exposure Tree View feature will help bank user to view the impact of a single customer on the entire credit portfolio.
- Also, the impact of a company on another company though they are not transacting with each other and have a common stakeholder can be viewed using this feature.

EDA Option to Populate Stakeholder Data from External System

EDA Option to Populate Stakeholder Data from External System

- EDA Option to Populate Stakeholder Data from External System feature will help bank user to add stakeholder data from an external system through integration. Instead of manually capturing the stakeholder details for each customer.
- Also, it will improve manual intervention and save time in processing EDA applications.
