Overview

2.1 About Credit Proposal

OBCFPM Credit proposal is a process to evaluate customers on the basis of their financial and non financial parameters and determine their credit worthiness.

2.2 Credit Proposal Stages

In **OBCFPM**, credit proposal application is passed through different stages from proposal initiation to hand over of liability, facility, collateral and covenants to Back office. Each of these stages can either be performed by the same or a different banking personnel based on the bank's structure.

The Credit Proposal Origination process explained in this user manual is a model flow. Banks can configure the data segments to appear in various stages of the process flow based on their requirement as part of implementation.

Proposal Initiation

In this stage, the RM captures basic details about the customer and initiates the credit application process after discussing the credit proposal with a new customer. The RM can perform the following activities in this stage.

Activities that can be performed by user

- Capture customer basic information
 - Basic demographic details
 - Sector to Sub Industry details
 - Rating details
- Capture other Bank details
 - Facilities availed
- · Capture connected party details
- Capture write up about customer
- Capture funding sought
- Capture collateral offered by customer
- Capture comments
- Upload customer documents

Steps to initiate credit proposal

1. Login to **OBCFPM**. Enter your User Name, Password and click Sign In

Document Upload and Checklist

In **OBCFPM**, supporting documents such as balance sheets and collateral documents can be uploaded in any stage of credit proposal process. Supporting documents help the senior officers in bank to accurately evaluate the credit worthiness of the party and approve the proposal. Documents added for the proposal can be removed whenever the document becomes invalid.

Steps to upload documents

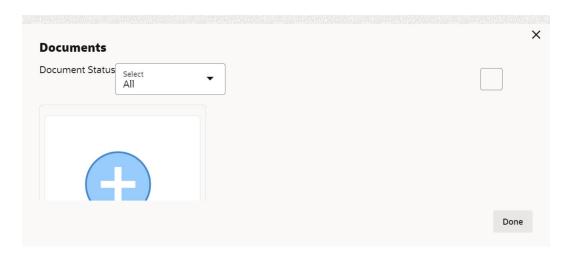

1. Click **Documents** Icon at the top right corner of any page.

Business Overrides

The system generates overrides to alert the user whenever there is a discrepancy in the requested, proposed and approved amounts based on configuration. The user authorized to approve the override must acquire the task and then view and accept the overrides in order to proceed further with the process.

Business Overrides can be viewed before or during submitting the task.

1. Click **Overrides** at the top right corner to view the business overrides after capturing the limit amounts.
