1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Export LC Closure process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

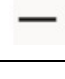

| Convention | Meaning |
|-----------------|--|
| boldface | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text. |
| <i>italic</i> | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |
| monospace | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

| Icons | Function |
|---|-------------|
|  | Exit |
|  | Add row |
|  | Delete row |

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Export LC Closure

Export LC Advised by the bank may be outstanding in the system past their Expiry Date and the outstanding LC can be closed either automatically on a pre-determined schedule or manually.

In the following sections, let's look at the details for Export LC closure process.

This section contains the following topics:

[3.1 Common Initiation Stage](#)

[3.2 Registration](#)

[3.2.4 Document Linkage](#)

[3.4 Multi Level Approval](#)

3.1 Common Initiation Stage

The user can initiate the new Export LC closure request from the common Initiate Task screen.

- Using the entitled login credentials, login to the OBTFPM application.
- Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

| Field | Description |
|--------------|---|
| Process Name | Select the process name to initiate the task. |
| Branch | Select the branch. |

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

| Field | Description |
|---------|--|
| Proceed | Task will get initiated to next logical stage. |

| Field | Description |
|-------|--|
| Clear | The user can clear the contents update and can input values again. |

3.2 Registration

User can register request for Export LC closure in the Registration stage. During Registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC expert to handle the request in the next stage. The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

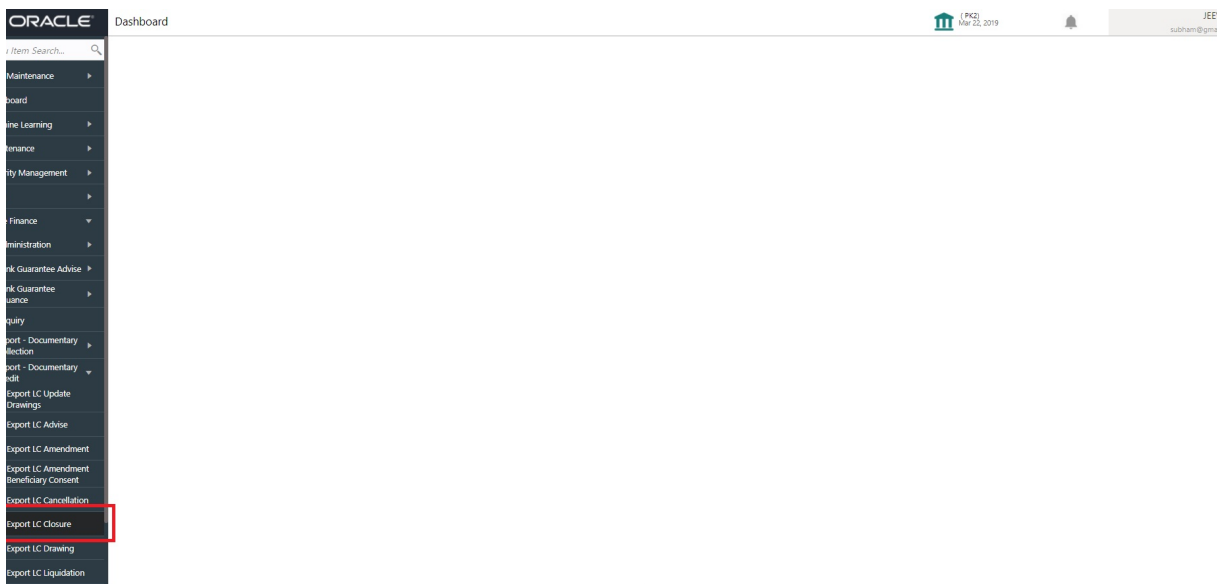

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The screenshot shows a dark-themed login interface for FuTura Bank. At the top left is the FuTura Bank logo. Below it, the text 'Sign In' is displayed. There are two input fields: 'User Name *' with the value 'SRIDHAR' and 'Password *' with masked characters. A prominent green 'Sign In' button is located below the password field, and a 'Cancel' button is positioned at the bottom center of the form area.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click Trade Finance > Export - Documentary Credit > Export LC Closure.

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

3.2.1 Application Details

Provide the Application Details based on the description in the following table:

| Field | Description | Sample Values |
|--------------------------|---|-----------------------------|
| Advising Bank Reference | Provide the advising bank reference number of the LC to be closed. Alternatively, user can search the advising bank reference number using LOV. In the LOV, user can input Customer ID, Beneficiary name, Currency and amount or User Reference Number. System displays all the Export LC's outstanding against the given Applicant-beneficiary combination which are active and not closed. | |
| Beneficiary ID | Read only field. Beneficiary ID will be auto-populated from the value available in LC. | 001344 |
| Beneficiary Name | Read only field. Beneficiary Name will be auto-populated based on the value available in LC. | EMR & CO |
| Branch | Read only field. Branch details will be auto-populated based on the Export LC details. | 203-Bank Futura -Branch FZ1 |
| Process Reference Number | Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code. | |

| Field | Description | Sample Values |
|-----------------------|--|---------------|
| Priority | System will default the Priority as Low/Medium/High based on customer priority maintenance. | High |
| Submission Mode | The submission mode of Export LC Closure request. By default the submission mode will have the value as 'Desk', for the transactions created via registration. User can change the defaulted priority. Desk - Request received through Desk Fax - Request received through Fax Email - Request received through Email Courier - Request received through Courier | Desk |
| Transaction Date | By default, the application will display branch's current date. User cannot change the date to a back date or a future date. System should change the date to branch date as on approval if the task is approved on a date later than the registration date. | 04/13/2018 |
| User Reference Number | Read only field. User Reference Number will be auto populated by the system based on the selected Export LC. | |
| Issuing Bank | Read only field. Issuing Bank details will be auto-populated based on the value available in Export LC. | |

3.2.2 LC Details

Registration user can view the latest LC values defaulted in the respective fields in the LC Details section. All the fields in this section is read only.

The screenshot displays the 'LC Details' form with the following fields and their labels:

- Form of Documentary Credit
- Date of Issue
- Applicant Bank
- Percentage Credit Amount Tolerance
- Advising Bank
- Form of Documentary Credit Details
- 40C - Applicable Rules
- 50 - Applicant
- Limits Required
- Closure Date
- Product Code
- 20 - Documentary Credit Number
- 31D - Date of Expiry
- 32B - Currency Code, Amount
- 39C - Additional Amount Covered
- Product Description
- Contract Reference Number
- 31D - Place of Expiry
- Amount In Local Currency
- Sender's Reference

At the bottom right, there are four buttons: Hold, Cancel, Save & Close, and Submit.

Provide the LC Details based on the description in the following table:

| Field | Description | Sample Values |
|------------------------------------|--|---------------|
| LC Type | Read only field. LC type will be populated based on the latest LC details. | |
| Advising Bank | Read only field. The advising bank details of the selected Export LC. | |
| Product Code | Read only field. This field displays the product code used during issuance. | |
| Product Description | Read only field. This field displays the description of the product as per the product code displayed as in export LC issuance <u>advice</u> . | |
| 40A - Form of Documentary Credit | Read only field. This field displays the form of documentary credit details available in Export LC. | |
| Form of Documentary Credit Details | Read only field. This field displays the form of documentary credit details, if confirmation details are received from advising bank. | |
| Documentary Credit Number | Read only field. The documentary credit number as available in Export LC. | |
| Customer Reference Number | The 'Reference number' provided by the beneficiary bank. The unique Customer Reference Number which will be the User Reference Number in LC. | |
| Date of Issue | Read only field. This field displays the LC issuance date. | |
| Applicable Rules | Read only field. The rules of the selected Export LC as per the latest LC details. | |
| Date Of Expiry | Read only field. The expiry date as per the latest LC details. The Export LC should be allowed to be closed only if the LC is expired. | |
| Place of Expiry | Read only field. The place of expiry as per the latest LC details. | |

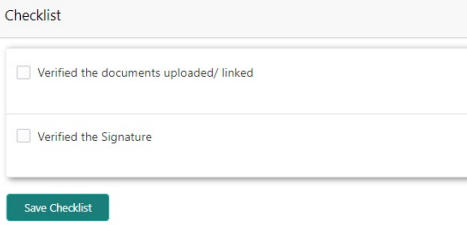

| Field | Description | Sample Values |
|------------------------------------|--|----------------------|
| Applicant Bank | Read only field. The applicant bank details if available as per the latest LC details. | |
| Applicant | Read only field. The details of the applicant as per the latest LC details. | |
| Currency Code, Amount | Read only field. The currency code and LC amount as per the latest LC details. | |
| Amount In Local Currency | System fetches the local currency equivalent value for the LC amount from back office (with decimal places). | |
| Percentage Credit Amount Tolerance | Read only field. The percentage credit amount tolerance details as per the latest LC details. | |
| Limits Required | Read only field. Limits Required (Y/N) will be auto-populated as per the latest LC details. | |
| Additional Amount Covered | Read only field. The details of additional amount covered as per the latest LC details. | |
| Sender's Reference | Read only field. The sender's reference value as in underlying LC. | |
| Auto Close | Read only field. System default the value from the previous versions of the contracts. | |
| Closure Date | Read only field. System default the value from the previous versions of the contracts. | |

3.2.3 Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

| Field | Description | Sample Values |
|-----------|---|---------------|
| Signature | <p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p> | |
| Documents | <p>Upload the required documents. System displays the mandatory and optional documents that have been maintained in Document Maintenance. If mandatory documents are not uploaded, system should display an error on submit. The possible documents submitted under an Export LC closure request are:</p> <p>Export LC Closure Request</p> | |
| Remarks | <p>Provide any additional information regarding the amendment request. This information can be viewed by other users processing the request.</p> | |

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Customer Instructions | <p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. | |
| Common Group Message | Click Common Group Message button, to send MT799 and MT999 messages from within the task. | |
| View LC | Enables the user to view the latest snap shot of the LC details in a page. | |
| View LC Events | Enables the user to view the latest snap shot of the various events under the LC. | |
| Action Buttons | | |
| Submit | <p>On submit, task will get moved to next logical stage of Export LC Closure.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p> | |
| Save & Close | <p>Save the information provided and displays the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Cancel | <p>Cancels the Export LC Closure Registration stage inputs.</p> | |
| Hold | <p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from beneficiary/customer and appropriate remarks must be provided.</p> | |

| Field | Description | Sample Values |
|-----------|---|---------------|
| Checklist | <p>Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.</p>  | |

3.2.4 Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.

2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

| Field | Description | Sample Values |
|---------------|---|---------------|
| Document Type | Select the Document type from list. Indicates the document type from metadata. | |
| Document Code | Select the Document Code from list. Indicates the document Code from metadata. | |

| Field | Description | Sample Values |
|----------------------|---|---------------|
| Document Title | Specify the document title. | |
| Document Description | Specify the document description. | |
| Remarks | Specify the remarks. | |
| Document Expiry Date | Select the document expiry date. | |
| Link Document | The link to link the existing uploaded documents from DMS to the workflow task. | |

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.
The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

3.3 Data Enrichment

On successful completion of Registration of an Export LC Closure request, the task moves to Data Enrichment stage. At this stage the gathered information during Registration are scrutinized.

As a part of Data Enrichment, the user can review and input/enrich Export LC closure request. The user can also verify the basic details of closure request and can verify if the request can be progressed further. The transaction will have the details entered during the registration stage.

Note

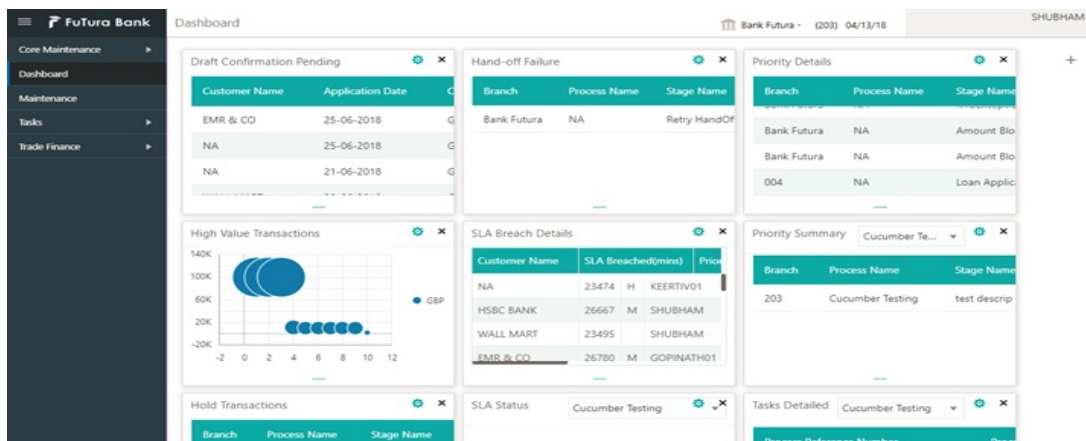

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task currently at Data Enrichment stage:

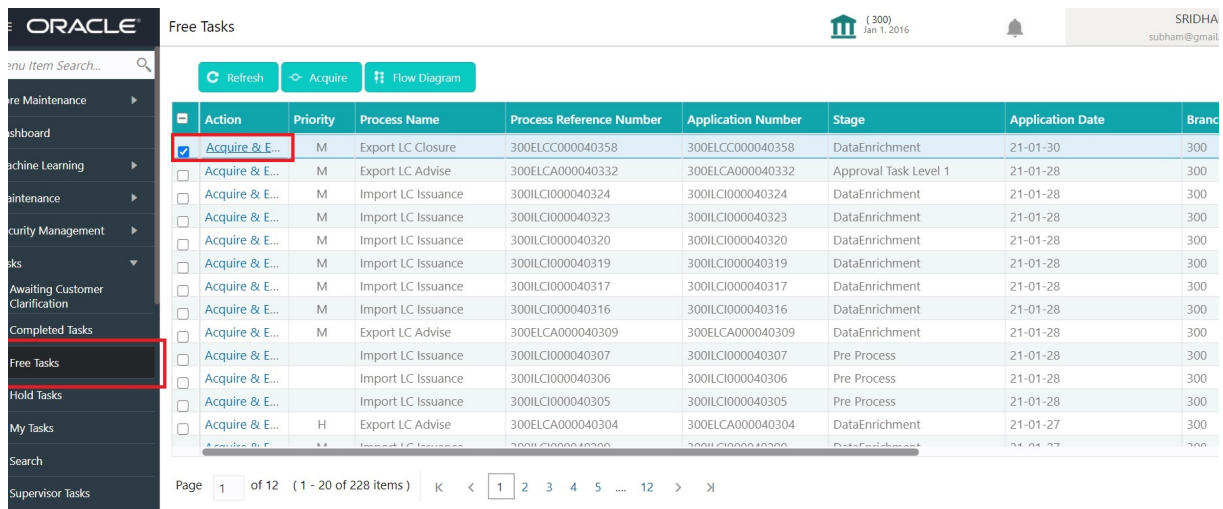

- Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click **Trade Finance > Tasks > Free Tasks**.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

The Data Enrichment stage has six sections as follows:

- Main Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following sections. Some of the fields that are already having value from Registration/online channels may not be editable.

3.3.1 Main Details

Main details section has three sub section as follows:

- Application Details
- LC Details

This section provides a quick snapshot of details of LC. This Application section will be available in all the sections of Data Enrichment stage and the fields will be read only. This section is collapsible.

3.3.1.1 Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [3.2.1 Application Details](#) for more information of the fields.

Following fields are the additional new fields apart from the fields carried over from [3.2.1 Application Details](#) of [3.2 Registration](#). Provide the details for the two additional fields based on the description in the following table:

| Field | Description | Sample Values |
|------------------|--|---------------|
| 52a Issuing Bank | This field displays the issuing bank as available in LC. | |

3.3.1.2 LC Details

The fields listed under this section are same as the fields listed under the [3.2.2 LC Details](#) section in [3.2 Registration](#). Refer to [3.2.2 LC Details](#) for more information of the fields. All fields displayed under LC Details section, would be read only.

3.3.1.3 Action Buttons

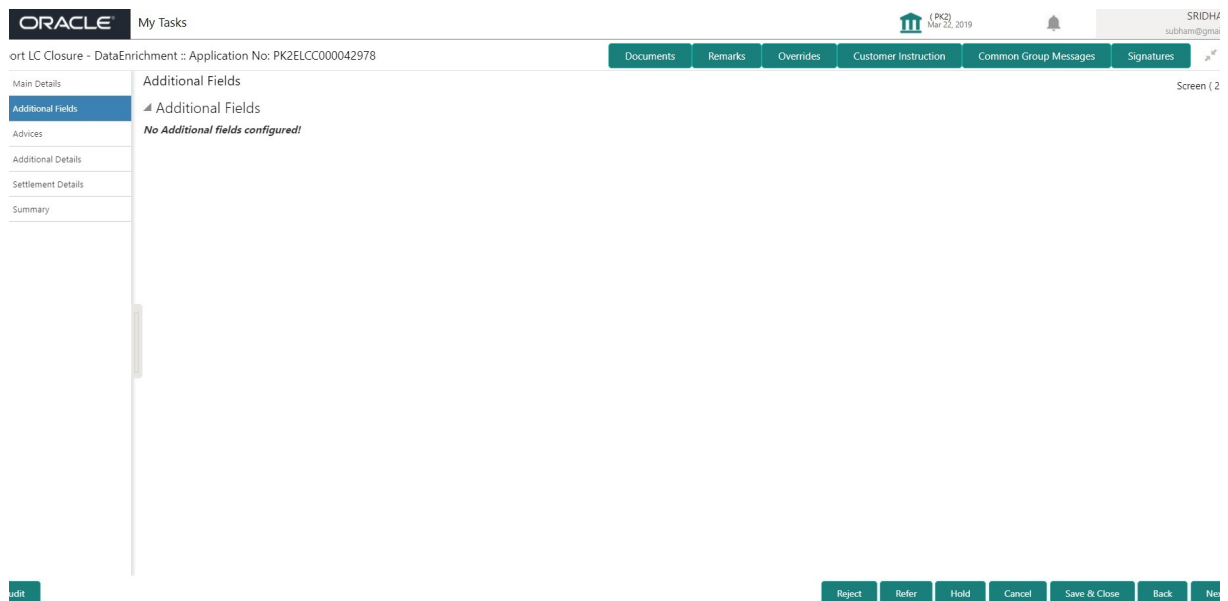

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Request Clarification | On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details. | |
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Refer | <p>On click of Refer, user will be able to refer the task back to the selected stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Hold | <p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from beneficiary/customer and appropriate remarks must be provided.</p> | |
| Cancel | Cancel the Data Enrichment stage inputs. | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Next | On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment. | |

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Clarification Details | Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested. | |
| Documents | <p>Upload the required documents.</p> <p>Application displays mandatory documents to be uploaded for export LC Closure. Place holders are also available to upload additional documents submitted by the applicant.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p> | |
| Remarks | Provide any additional information regarding the LC. This information can be viewed by other users processing the request. | |
| Overrides | Click to view the overrides accepted by the user. | |
| Customer Instruction | <p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. | |
| Signature | <p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p> | |
| View LC | Enables the user to view the latest snap shot of the LC details in a page. | |
| View LC Events | Enables the user to view the latest snap shot of the various events under the LC. | |

3.3.2 Additional Fields

3.3.2.1 Any user defined fields mapped as per bank's requirement can be viewed in this section.

3.3.2.2 Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|--------|---|---------------|
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |

| Field | Description | Sample Values |
|--------------|---|---------------|
| Refer | <p>On click of Refer, user will be able to refer the task back to the any of the previous stages user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Hold | <p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from beneficiary/customer and appropriate remarks must be provided.</p> | |
| Cancel | <p>Cancel the Data Enrichment stage inputs.</p> | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Next | <p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p> | |
| Documents | <p>Upload the required documents.</p> <p>Application displays mandatory documents to be uploaded for export LC Closure. Place holders are also available to upload additional documents submitted by the applicant.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p> | |
| Remarks | <p>Provide any additional information regarding the LC. This information can be viewed by other users processing the request.</p> | |
| Overrides | <p>Click to view the overrides accepted by the user.</p> | |

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Customer Instructions | <p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. | |
| Signature | <p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p> | |
| View LC | Enables the user to view the latest snap shot of the LC details in a page. | |
| View LC Events | Enables the user to view the latest snap shot of the various events under the LC. | |

3.3.3 Advices

This section defaults the advices maintained for the product/event simulated from the advices maintained at the Product level.

The user can also suppress the Advice, if required.

This user can view the details of linked loan accounts.

| linked Loan Details | | | | | |
|--------------------------|------------------|----------------|--------------|---------------|-------------|
| Drawing Reference Number | Drawing Currency | Drawing Amount | Loan Account | Loan Currency | Loan Amount |
| No data to display. | | | | | |

Provide the linked loan details based on the description in the following table:

| Field | Description | Sample Values |
|--------------------------|---|---------------|
| Drawing Reference Number | Drawing reference number is displayed. | |
| Drawing Currency | Drawing currency is displayed. | |
| Drawing Amount | Drawing amount is displayed. | |
| Loan Account | The details of the linked loan account. | |
| Loan Currency | Loan Currency of the linked loan account. | |
| Loan Amount | Loan amount of the linked loan account. | |

3.3.4.5 Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|--------------|---|---------------|
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |
| Refer | <p>On click of Refer, user will be able to refer the task back to the previous stages user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. | |
| Hold | <p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p> | |
| Cancel | <p>Cancel the Data Enrichment stage inputs.</p> | |
| Save & Close | <p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p> | |
| Next | <p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p> | |

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Documents | <p>Upload the required documents.</p> <p>Application displays mandatory documents to be uploaded for export LC Closure. Place holders are also available to upload additional documents submitted by the applicant.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p> | |
| Remarks | <p>Provide any additional information regarding the LC. This information can be viewed by other users processing the request.</p> | |
| Overrides | <p>Click to view the overrides accepted by the user.</p> | |
| Customer Instructions | <p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. | |
| Signature | <p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p> | |
| View LC | <p>Enables the user to view the latest snap shot of the LC details in a page.</p> | |
| View LC Events | <p>Enables the user to view the latest snap shot of the various events under the LC.</p> | |

3.3.5 Settlement Details

System simulates the settlement details from back office and display the same in this screen.

The screenshot displays the Oracle Settlement Details screen. At the top, there is a navigation bar with buttons for Documents, Remarks, Overrides, Customer Instruction, Common Group Messages, and Signatures. The main content area shows a table titled 'Settlement Details' with the following data:

| Component | Currency | Debit/Credit | Account | Account Description | Account Currency | Netting Indicator | Current Event | Original Exchange Rate | Es |
|-----------------|----------|--------------|--------------|---------------------|------------------|-------------------|---------------|------------------------|----|
| AELAC_COMM_LIQD | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| COLLAMT_OSEQ | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| COLL_AMNDAMTEQ | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| COLL_AMT | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| COLL_AVALAMTEQ | GBP | Credit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| LCADVBC_LIQD | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |
| LCEXADV_LIQD | GBP | Debit | PK1000325025 | NATIONAL FREIGHT CI | GBP | No | No | | |

Provide the settlement details based on the description in the following table:

| Field | Description | Sample Values |
|---------------------|---|---------------|
| Current Event | The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event. | |
| Component | Components gets defaulted based on the product selected. | |
| Currency | Application displays the default currency for the component. | |
| Debit/Credit | Application displays the debit/credit indicators for the components. | |
| Account | Application Displays the account details for the components. | |
| Account Description | Application displays the description of the selected account. | |
| Account Currency | Application defaults the currency for all the items based on the account number. | |
| Netting Indicator | Application displays the applicable netting indicator. | |
| Current Event | System defaults the current event as Y or N. | |

| Field | Description | Sample Values |
|------------------------|---|---------------|
| Original Exchange Rate | System displays the Original Exchange Rate as simulated in settlement details section from OBTF | |
| Exchange Rate | The exchange rate. | |
| Deal Reference Number | The exchange deal reference number. | |

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

3.3.5.1 Party Details

Provide the party details based on the description in the following table:

| Field | Description | Sample Values |
|--|---|---------------|
| Transfer Type | Select the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer | |
| Charge Details | Select the charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges | |
| Netting Indicator | Select the netting indicator for the component: <ul style="list-style-type: none"> • Yes • No | |
| Ordering Customer | Select the ordering customer from the LOV. | |
| Ordering Institution | Select the ordering institution from the LOV. | |
| Senders Correspondent | Select the senders correspondent from the LOV. | |
| Receivers Correspondent | Select the receivers correspondent from the LOV. | |
| Intermediary Institution | Select the intermediary institution from the LOV. | |
| Account with Institution | Select the account with institution from the LOV. | |
| Beneficiary Institution | Select the beneficiary institution from the LOV. | |
| Ultimate Beneficiary | Select the ultimate beneficiary from the LOV. | |
| Intermediary Reimbursement Institution | Select the intermediary reimbursement institution from the LOV. | |

3.3.5.2 Payment Details

Provide the Payment Details based on the description in the following table:

| Field | Description | Sample Values |
|----------------------|---|---------------|
| Sender to Receiver 1 | Provide the sender to receiver message. | |
| Sender to Receiver 2 | Provide the sender to receiver message. | |
| Sender to Receiver 3 | Provide the sender to receiver message. | |
| Sender to Receiver 4 | Provide the sender to receiver message. | |
| Sender to Receiver 5 | Provide the sender to receiver message. | |
| Sender to Receiver 6 | Provide the sender to receiver message. | |

3.3.5.3 Remittance Information

Provide the Payment Details based on the description in the following table:

| Field | Description | Sample Values |
|------------------|------------------------------|---------------|
| Payment Detail 1 | Provide the payment details. | |
| Payment Detail 2 | Provide the payment details. | |
| Payment Detail 3 | Provide the payment details. | |
| Payment Detail 4 | Provide the payment details. | |

3.3.5.4 Action Buttons

Use action buttons based on the description in the following table:

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Request Clarification | On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details. | |

| Field | Description | Sample Values |
|-----------------------|---|---------------|
| Reject | <p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p> | |

3.4 Multi Level Approval

The Approval user can review and approve a Export Closure request.

Log in into OBTFPM application to view and acquire the task to see the summary tiles. If rekey authorization set up is available, then on acquire of task it will land on the rekey authorization screen else the task will land on the summary screen.

The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user should be able to view the Approval summary.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

3.4.0.1 Summary

| Main Details | Parties Details | Limits and Collaterals | Commission, Charges and Taxes | Preview Message |
|---|---|--|---|---------------------------------------|
| Term of LC : S Commission Mode : Desk Date of Issue : 2019-03-22 Date of Expiry : 2019-03-28 | Beneficiary : GOODCARE PLC Applicant : MARKS AND Confirming Bank : WELLS FARG | Limit Currency : GBP Limit Contribution : 1001 Limit Status : Not Verified Collateral Currency : GBP Collateral Contr. : 80.08 Collateral Status : Not Verified | Charge : Not Available Commission : Not Available Tax : Not Available Block Status : Not Available | Language : ENG Preview Message : - |
| Accounting Details | Settlement Details | Linked Loan Details | | |
