1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Export LC Drawing - Islamic process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Export LC Drawing Islamic

Under an Export LC, the beneficiary of the LC after exporting the goods under LC submits the documents under the LC to the nominated bank. The nominated bank scrutinizes/negotiates and forwards the document to the Issuing bank under Export LC Drawing Islamic process in OBTFPM

The various stages involved for Export LC Drawing are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents received from the presenting bank
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of Bill - Data Enrichment stage
- Check for limit availability
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges
- During Simulation, the following items are generated in OBTF and displayed in OBTFPM, based on data input in OBTFPM:
 - Charges, Interest, Advices, Preview message, Accounting entries and Settlement.
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Drawing process flow is similar to that of conventional Export LC Drawing process flow.

This section contains the following topics:

3.1 Common Initiation Stage	3.3 Scrutiny
3.2 Registration	3.4.11.2 Exceptions
3.4 Data Enrichment	3.6 Reject Approval
3.5 Multi Level Approval	

3.1 Common Initiation Stage

The user can initiate the new export LC drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click Trade Finance > Initiate Task.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

3.2 Registration

User can register a request for an Islamic Export LC Drawing at the front desk. During Registration stage, user can capture the basic details of the request and upload the documents received from beneficiary. It also enables the user to capture some additional product related details as an option. On submit of the request, the request will be available for an LC expert to handle the request in the next stage.

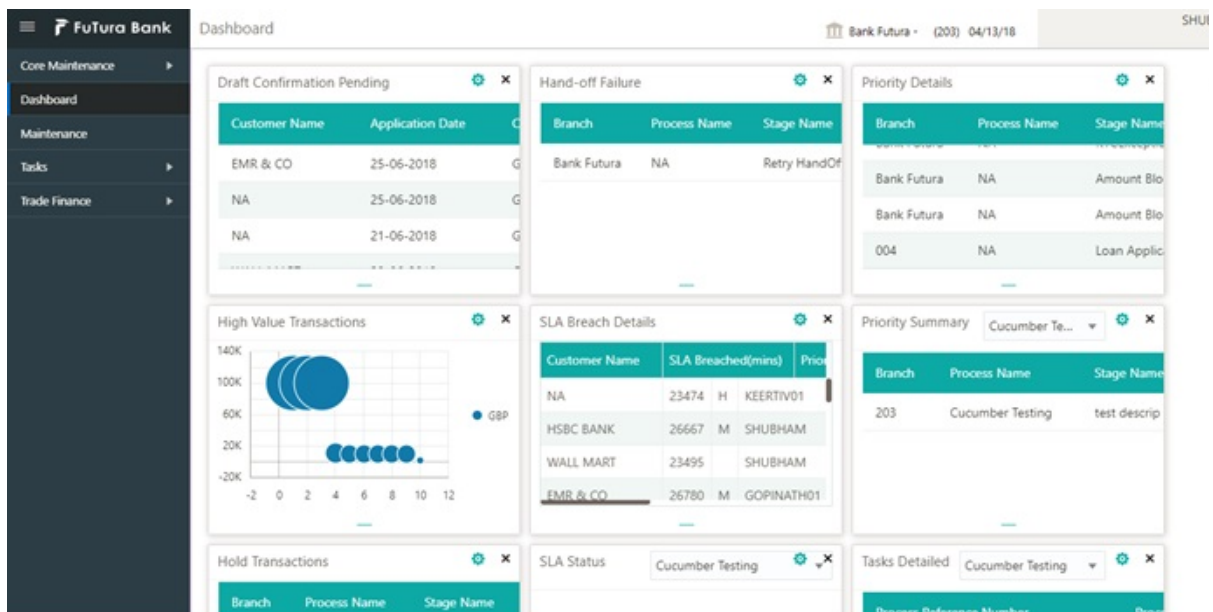

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance - Islamic > Export - Documentary Credit> Export LC Drawings - Islamic.

The screenshot shows the Oracle dashboard interface. On the left is a navigation menu with 'Trade Finance - Islamic' expanded to 'Export - Documentary Credit', and 'Export LC Drawing - Islamic' selected. The main area contains several widgets: 'Priority Summary' (empty table), '% Oversight Corrections' (line chart), 'Model Inference Time' (line chart), 'High Priority' (table with process references), 'Model Tag Performance' (empty table), 'Pending Exception Approval' (empty table), and 'Draft Confirmation Pending' (table with one row: PK2ILCI000003129, 001044).

The Registration stage has two sections Basic Details and LC Details. Let's look at the details of Registration screens below:

3.2.1 Application Details

The screenshot shows the 'Application Details' form for an 'Export LC Drawing - Islamic'. The form is divided into two main sections: 'Basic Details' and 'LC Details'.
Basic Details:
 - Issued by us: [Empty]
 - Export LC Reference Number: 032ELIC232150508
 - Submission Mode: Desk
 - Beneficiary: [Empty]
 - Drawing Date: Aug 3, 2023
 - Branch: 032-Oracle Banking Trade Finan...
 - Document Received Date: Aug 3, 2023
 - LC Reference Number: ELD000173656
LC Details:
 - Tenor Type: Sight
 - Product Code: EBPS
 - Product Description: OUTGOING CLEAN SIGHT BILLS UNDE...
 - User Reference Number: 032EBPS232150501
 - Applicant: [Empty]
 - Issuing Bank: [Empty]
 - Date of Expiry: Aug 3, 2023
 - Presenting Bank: CITI BANK NA
 - Presenting Bank Reference Number: 545465464
 - Drawing Amount: AED 1,000.00
 - Amount In Local Currency: AED 1,000.00
 - Outstanding LC Value: AED 100,000.00
 - Unlinked FX Rate: [Empty]
 - Customer Dispatch: [Checked]
 - Total Amount: AED 100.00

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
LC Advised by us	<p>Toggle On: Set the toggle to On, if LC is advised by negotiating bank.</p> <p>Toggle Off: Set the toggle to Off, if LC is not advised by the negotiating bank.</p>	
Export LC Reference Number	<p>Provide the Export LC Reference Number. Alternatively, user can search the export LC reference number using LOV.</p> <p>In the LOV, user can input Customer ID, Currency, Amount Issue Date and Issuing Bank Reference to fetch the LC details. Based on the search result, select the applicable LC for drawing.</p> <hr/> <p style="text-align: center;">Note</p> <p style="text-align: center;">This field is applicable only if LC Advised by us toggle is On.</p> <p>In case of silent confirmation, user receives an alert message as, "The LC has been Silently Confirmed."</p>	
Beneficiary	<p>LC Advised by us: Read only field. Beneficiary will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Select the beneficiary customer from the LOV.</p> <p>If beneficiary is a customer of the bank, system will check for valid KYC status. If KYC status is not valid, system will display alert message.</p>	
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC from the LOV.</p>	203-Bank Futura -Branch FZ1
Priority	<p>System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit.</p>	High
Submission Mode	<p>Select the submission mode of Export LC Drawing request. By default the submission mode will have the value as 'Desk'.</p> <p>Desk- Request received through Desk</p> <p>Courier- Request received through Courier</p> <p>Email - Request received through Email</p> <p>Fax - Request received through Fax</p>	Desk

Field	Description	Sample Values
Drawing Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018
Document Received Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	

3.2.2 LC Details

Registration user can provide drawing details in this section. Alternately, drawing details can be provided by Scrutiny user.

Provide the drawing LC Details based on the description in the following table:

Field	Description	Sample Values
Document Received	Enables to user to select the number of sets of documents received from the LOV: <ul style="list-style-type: none"> • First • Second • Both 	
Tenor Type	Select the Tenor Type from the LOV: <ul style="list-style-type: none"> • Sight • Usance • Multi Tenor 	
Product Code	Select the product code for the drawing.	
Product Description	Read only field. This field displays the description of the product as per the product code.	

Field	Description	Sample Values
Drawing Reference Number	<p>Read only field.</p> <p>This is auto generated by the back end system.</p>	
User Reference Number	<p>System defaults the user reference number based on the product code.</p> <p>The user can change the user reference number.</p>	
Applicant	<p>LC Advised by us: Read only field.</p> <p>Applicant will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Select the applicant from the LOV.</p>	
Issuing Bank	<p>LC advised by us: Read only field.</p> <p>Issuing bank will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised us: Select the issuing bank. Party type with banks will only be displayed in LOV.</p> <p>The system will display the</p> <ul style="list-style-type: none"> a) SWIFT code (if available) b) Name and address of the bank <p>On selection of the record if SWIFT code is available then SWIFT code will be populated, if SWIFT code is not available then the bank's name and address will be populated.</p>	
Issuing Bank Reference	<p>LC Advised by us: Read only field.</p> <p>Issuing bank reference will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Provide the issuing bank reference number.</p>	
Date of Expiry	<p>LC Advised by us: Read only field.</p> <p>Expiry Date reference will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Provide the expiry date.</p>	

Field	Description	Sample Values
Presenting Bank	<p>Select the Presenting Bank from the LOV.</p> <hr/> <p>Note</p> <p>In case the selected Bank is not RMA Compliant, the system displays error message “RMA arrangement not available”.</p> <hr/> <p>Note</p> <p>If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	
Presenting Bank Reference Number	Provide the Presenting Bank Reference Number.	
Confirming Bank	Click Search icon to search and select the confirming bank from the lookup.	
Available with Bank	<p>Click Search icon to search and select the value for available with bank from the lookup.</p> <p>The Available Bank details should be handed off against ‘Collecting Bank’ Party in OBTF.</p> <p>1) If the Bank selected in Confirming Bank and Available with Bank are same, system should hand off only the Confirming Bank details in Back office.</p> <p>2) If Confirming Bank/Available with Bank are the same as Issuing Bank/Presenting Bank, system should display an error.</p> <p>3) If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	
Drawing Amount	Provide the amount to be drawn in this drawing and select the currency.	
Amount In Local Currency	<p>Read only field.</p> <p>System fetches the local currency equivalent value for the LC amount from back office (with decimal places).</p>	
Operation Type	<p>Read only field.</p> <p>Operation Type will be auto-populated based on the selected LC from the LOV.</p>	

Field	Description	Sample Values
Nego/Finance Amount	<p>Read only field.</p> <p>Negotiation/Financing Amount will be auto-populated based on the selected LC from the LOV.</p>	
Unlinked FX Rate	<p>Read only field.</p> <p>Unlinked FX Rate will be auto-populated based on the selected LC from the LOV.</p>	
Outstanding LC Value	<p>LC Advised by us: Read only field.</p> <p>Outstanding LC Value reference will be auto-populated based on the selected LC from the LOV.</p> <p>LC not advised by us: Provide the outstanding LC value.</p>	
Additional Amount	<p>This field enables user to provide any additional amount to be processed under this LC drawing.</p>	
LC Transferred Amount	<p>This field captures the total LC transferred value.</p>	
LC Not Transferred Amount	<p>This field captures the capture the outstanding non Transferred LC Value.</p>	
Customer Dispatch	<p>The value will be populated from back office based on the maintenance.</p> <p>Toggle On: If the toggle is set to Yes, the customer has the option to dispatch the documents directly to the importer's bank.</p> <p>Toggle Off: If the toggle is set to No, the bank has to dispatch the documents to the importer's bank.</p> <p>Bank user is not allowed to edit the field, if the value defaulted from the back office is "No".</p> <p>This field is enabled, if LC Advised by us option is enabled.</p>	

3.2.3 Miscellaneous

The screenshot displays the Oracle application interface for 'Miscellaneous Details'. The top navigation bar includes the Oracle logo, user information '(DEFAULTIDENTITY)', and a notification bell. The main content area is divided into several sections:

- Application Details:** Includes fields for 'Export LC Reference Number' (PK2ERLI211250506), 'Beneficiary' (001044 GOODCARE PLC), 'Branch' (PK2-Oracle Banking Trade Finan...), 'Submission Mode' (Desk), 'Drawing Date' (May 24, 2021), and 'Document Received Date' (May 24, 2021).
- LC Details:** Includes fields for 'Tenor Type' (Sight), 'Product Code', 'Product Description', 'Issuing Bank' (001041 WELLS FARGO L), 'Issuing Bank Reference', 'Presenting Bank', 'Presenting Bank Reference Number', 'Confirming Bank', 'Operation Type', 'Amount In Local Currency' (GBP), and 'Outstanding LC Value' (GBP £1,000.00).

Buttons at the bottom right include 'View LC', 'Even', 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	
Action Buttons		
Submit	On submit, task will get moved to next logical stage of Export LC Drawing. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Export LC Drawing Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

3.2.4 **Bi-Directional Flow for Offline Transactions Initiated from OBTFPM**

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
 - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
 2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".

3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

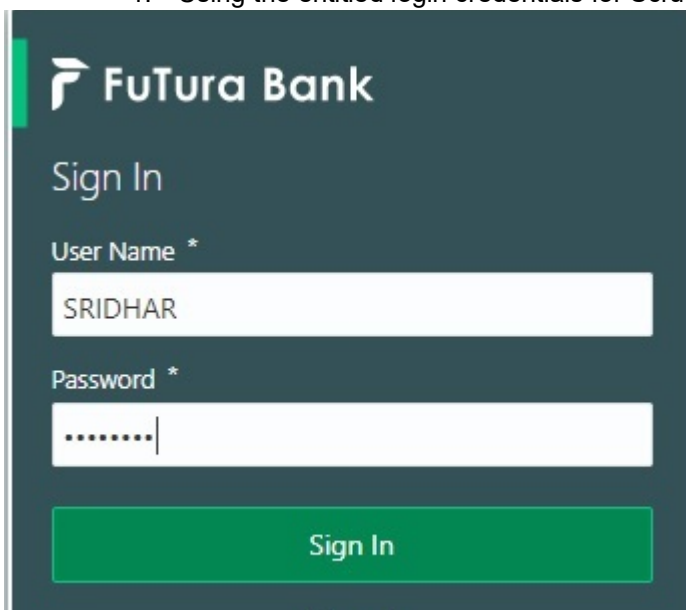

3.3 Scrutiny

On successful completion of Registration of an Islamic Export LC Drawing request, the request moves to Scrutiny stage. At this stage the Scrutiny user can scrutinize the request for Islamic Export LC Drawing.

As part of scrutiny, the user can enter/update basic details of the Islamic LC Drawing request and can verify if the request can be progressed further. The task initiated from the online channel should be created in the Scrutiny stage directly as in conventional process flow.

The following steps enable the user to acquire the task available-at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

FuTura Bank

Sign In

User Name *

SRIDHAR

Password *

.....

Sign In

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The dashboard displays several key performance indicators and task lists:

- Draft Confirmation Pending:** Table with columns: Customer Name, Application Date, Status.
- Hand-off Failure:** Table with columns: Branch, Process Name, Stage Name.
- Priority Details:** Table with columns: Branch, Process Name, Stage Name.
- High Value Transactions:** A bubble chart showing transaction values for GBP.
- SLA Breach Details:** Table with columns: Customer Name, SLA Breached(mins), Priority.
- Priority Summary:** Table with columns: Branch, Process Name, Stage Name.
- Hold Transactions:** Table with columns: Branch, Process Name, Stage Name.
- SLA Status:** A dropdown menu currently set to 'Cucumber Testing'.
- Tasks Detailed:** A dropdown menu currently set to 'Cucumber Testing'.

- Click Trade Finance> Tasks> Free Tasks.

The 'Free Tasks' page shows a list of tasks with the following columns:

The Scrutiny stage has following hops for data capture:

- Main Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Additional Fields
- Additional Details
- Maturity Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

3.3.1 Main Details

Main details section has two sub section as follows:

- Application Details
- LC Details

3.3.1.1 Application Details

All fields displayed under Application Details section, would be read only except for the **Priority**. Refer to [3.2.1 Application Details](#) for more information of the fields.

3.3.1.2 LC Details

The fields listed under this section are same as the fields listed under the [3.2.2 LC Details](#) section in [3.2 Registration](#). Refer to [3.2.2 LC Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Document Received	Enables to user to select the number of sets of documents received from the LOV: <ul style="list-style-type: none"> First Second Both 	

Field	Description	Sample Values
User Reference Number	System defaults the user reference number based on the product code. The user can change the user reference number.	
Presenting Bank	Select the Presenting Bank from the LOV.	
Presenting Bank Reference Number	Provide the Presenting Bank Reference Number.	
Available with Bank	Click icon to search and select the value for available with bank from the lookup.	
Drawing Amount	Provide the amount to be drawn in this drawing.	
Additional Amount	This field enables user to provide any additional amount to be processed under the LC drawing.	
Customer Dispatch	The value will be populated from back office based on the maintenance. Toggle On: If the toggle is set to Yes , the customer has the option to dispatch the documents directly to the importer's bank. Toggle Off: If the toggle is set to No , the bank has to dispatch the documents to the importer's bank. Bank user is not allowed to edit the field, if the value defaulted from the back office is "No". This field is enabled, if LC Advised by us option is enabled.	

3.3.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. 3.3.5.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

3.3.6 Maturity Details

A Scrutiny user can input the maturity details request for Islamic Export Bill.

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Read only field. This field displays the tenor type as per LC.	
Tenor Basis	Select the tenor basis, if the tenor is not sight. The user can view and edit the tenor base code description of the Tenor Basis Code selected by the user.	
Start Date	System defaults the start date. Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	
Maturity date	System displays the due date for the drawing based on tenor and tenor basis. If tenor is sight, system will calculate the maturity date as 5 working days from document Received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date. If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.	

Field	Description	Sample Values
Profit from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Profit to Date	Select the profit to date.	
Acceptance Commission From Date	Select the acceptance commission from date.	
Acceptance Commission To Date	Select the acceptance commission to date.	

3.3.6.1 Other Bank Charges

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -2 to 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	

3.3.6.2 Other Bank Profits

Provide the other bank profit based on the description in the following table:

Field	Description	Sample Values
Other Bank Profits - 1	Select the currency from the drop-down list and specify the profit.	
Other Bank Profits - 2	Select the currency from the drop-down list and specify the profit.	
Other Bank Profits - 3	Select the currency from the drop-down list and specify the profit.	

3.3.6.3 Other Details

Provide the other bank details based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	System defaults the debit value date. Provide the debit value date.	
Credit Value Date	System defaults the credit value date. Provide the credit value date.	
Value Date	System defaults the value date. Provide the value date.	
Allow Pre-Payment	Toggle On: Set the toggle 'On' to enable pre-payment. Toggle Off: Set the toggle 'Off' to disable pre-payment.	
Refund Interest	Toggle On: Set the toggle 'On' to refund the interest. Toggle Off: Set the toggle 'Off' to deny the interest refund.	
Transfer Collateral from LC	Toggle On: Set the toggle 'On' to enable the transfer collateral from LC. Toggle Off: Set the toggle 'Off' to disable the transfer collateral from LC.	

3.3.6.4 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values

When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

3.3.9 Summary

User can review the summary of details captured in Islamic Export LC Drawing Scrutiny stage. The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

The screenshot displays the Oracle Islamic Export LC Drawing Scrutiny Summary screen. The interface includes a top navigation bar with the Oracle logo and user information (ENTITY_ID1, ENTITY_L..., Oracle Banking Trade Finan..., Aug 3, 2023, PRADEI, subham@gmail). Below the navigation bar, there are tabs for Clarification Details, Documents, Remarks, Overrides, Customer Instruction, View LC, View Events, and Signatures. The main content area is titled 'Summary' and is divided into several data segments, each with a corresponding tile:

- Main Details:** Product Code : EBPS, Currency : AED, Amount : 1000
- Document Details:** Document 1, Document 2
- Additional Conditions:** FFT Code 1, FFT Code 2
- Shipment Details:** Goods Code
- Discrepancy Details:** Discrepancy Code 1 : UPLD3
- Maturity Details:** Tenor Type : Sight, Tenor Basis, Maturity Date
- Pre Shipment Details:** Preshipment Credit, OutstandingAmount, RepayAmount
- Additional Fields:** Click here to view, Additional fields
- Limits and Collaterals:** Contribution Currency, Amount to Earmark : null, Limit Status : Not Verified, Collateral Currency, Collateral Contr, Collateral Status : Not Verified, Deposit Linkage CCY, Deposit Linkage Amount
- Commission, Charges and Taxes:** Charge, Commission, Tax, Block Status : Not Initiated
- Assignment of Proceeds:** Assignment of proceeds : No, Assignee Name, Assigned Amount

At the bottom of the screen, there is a row of action buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

Tiles Displayed in Summary

- Main Details - User can view details about application details and LC details.
- Document Details - User can view document details.
- Additional Conditions - User can view the additional condition details.
- Shipment Details - User can view shipment details.
- Discrepancy Details - User can view the discrepancy noted for the current LC drawing.
- Maturity Details - User can view the maturity details.
- Pre Shipment Details - User can view the pre shipment details.
- Additional Fields - User can view the additional fields details.
- Limits and Collaterals - User can view the limits and collateral details.
- Commission, Charges and taxes - User can view commission, charges and taxes details.
- Assignment of Proceeds - User can view the details of assignment of proceeds.

3.3.9.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Upload the required documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Provide any additional information regarding the LC. This information can be viewed by other users processing the request.</p>	
View LC	<p>Enables the user to view the latest LC values displayed in the respective fields.</p>	
Overrides	<p>Click to view the overrides accepted by the user.</p>	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	<p>Click Common Group Message button, to send MT799 and MT999 messages from within the task.</p>	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Submit	<p>Task will get moved to next logical stage of Export LC Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

3.4 Data Enrichment

A DE User can input new Export LC Drawing request. As part of data enrichment user can enter/update basic details of the incoming request.

Note

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task at Data Enrichment stage:

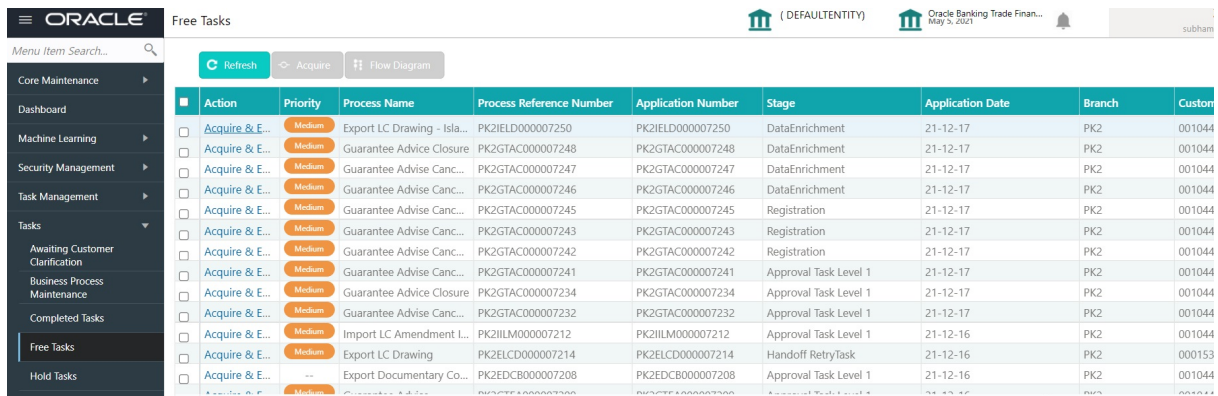

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

The Data Enrichment stage has following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

3.4.1 Main Details

Refer to [3.3.1 Main Details](#).

3.4.2 Document Details

Refer to [3.3.2 Document Details](#).

3.4.3 Additional Conditions

Refer to [3.3.3 Additional Conditions](#).

3.4.4 Shipment Details

Refer to [3.3.4 Shipment Details](#).

3.4.5 Discrepancy Details

Refer to [3.3.5 Discrepancy Details](#).

3.4.6 Maturity Details

Refer to [3.4.6 Maturity Details](#).

3.4.7 Additional Fields

Refer to [3.3.7 Additional Fields](#).

3.4.8 Advices

A DE user can verify the advice details data segment for Islamic Export Drawing request.

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Receiver Party	Click Search to search and select the tracers receiver party from the lookup.	

Field	Description	Sample Values
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	
Tracer Next Date	Capture the tracer next date.	

3.4.9.9 FX Linkage

Refer to [3.3.8.4 FX Linkage](#).

3.4.9.10 Pre-shipment Credit Linkage:

The Pre-shipment credit linkage functionality is not supported in the Islamic BC module in OBTF. Hence this functionality is not provided in Islamic Export LC drawing process flow.

3.4.9.11 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	

Field	Description	Sample Values
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

3.4.10 Settlement Details

A DE user can verify the Settlement details available in the Islamic Export LC Drawing. In case the request is received through online channel user can verify the details populated.

The screenshot shows the Oracle Banking Trade Finance interface for Settlement Details. The top navigation bar includes Oracle logo, user information (ZARIFA subham@gmail), and date (May 24, 2021). The main content area displays a table of settlement details. The table has the following columns: Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, Current Event, Original Exchange Rate, Exchange Rate, and Deal Reference. The table contains 12 rows of data for various components like AMT_PURCHASEDEQ, BILL_AMT_EQUIV, BILL_LIQ_AMT, BKTAX_AMT, CASH_COLL_AMT, CHG1_LIQD, and COLL_AMNDAMT.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	Application displays the current event as Y or N.	

Field	Description	Sample Values
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

3.4.10.1 Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> ● Customer Transfer ● Bank Transfer for own account ● Direct Debit Advice ● Managers Check ● Customer Transfer with Cover ● Bank Transfer 	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> ● Beneficiary All Charges ● Remitter Our Charges ● Remitter All Charges 	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> ● Yes ● No 	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

3.4.10.2 Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

3.4.10.3 Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

3.4.10.4 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	

Field	Description	Sample Values
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

3.4.11 Summary

User can review the summary of details updated in Data Enrichment stage Export LC Drawing request.

As part of summary screen, the user can see the summary tiles. The tiles should display a list of important fields with values.

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

3.4.11.2 Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the DE Stage. The amount Block earmark and Limit Earmarks if applicable are also initiated after the DE stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

3.4.12 Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

3.4.12.1 **Amount Bock Exception**

This section will display the amount block exception details.

3.4.12.2 Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

3.4.12.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	<p>Cancel the Export LC Drawing Amount Block Exception check.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	

Field	Description	Sample Values
Back	Task moves to previous logical step.	

3.5 Multi Level Approval

User can view the summary of details updated in multilevel approval stage of Islamic Export LC Drawing.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

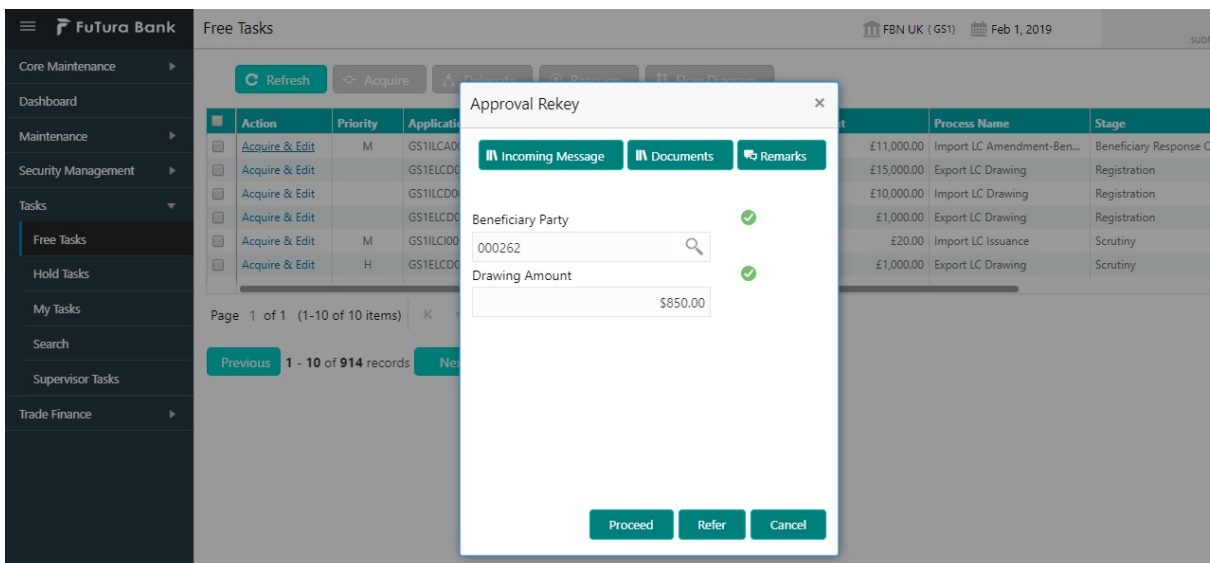

3.5.1 Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Beneficiary Party
- Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

3.5.1.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	
Action Buttons		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Cancel	Cancel the Import LC Drawing Approval Rekey.

Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

3.6 Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export LC Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

3.6.1 Application Details

The application details data segment have values for requests received from both non-online and online channels.

3.6.2 Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
