1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Guarantee Advise Amendment Beneficiary Consent process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Export LC Reopen

This process allows the user to register a request for an Export LC Reopen received at desk.

This section contains the following topics:

3.1 Common Initiation Stage	3.2 Registration
3.3 Data Enrichment	3.4 Multi Level Approval
3.5 Customer - Acknowledgement Format	3.6 Customer - Reject Format

3.1 Common Initiation Stage

The user can initiate the new Export LC Reopen from the common Initiate Task screen.

- Using the entitled login credentials, login to the OBTFPM application.
- Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM application interface. On the left is a sidebar with navigation options including 'Initiate Task'. The main header displays 'Initiate Task' and user information: 'ENTITY_ID1 (ENTITY_ID1)', 'Oracle Banking Trade Finan...', 'Aug 3, 2023', and 'ZARITA subham@gmail'. The main content area is titled 'Registration' and contains three input fields: 'Process Name' (dropdown menu with 'Export LC Reopen'), 'LC Reference Number *' (text input with '032ELCT232153001' and a search icon), and 'Branch *' (dropdown menu with '032-Oracle Banking Trade Finan...'). At the bottom right, there are two buttons: 'Proceed' and 'Clear'.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC reference number from the look-up.
Branch	Select the branch.

3.1.0.1 Action Buttons

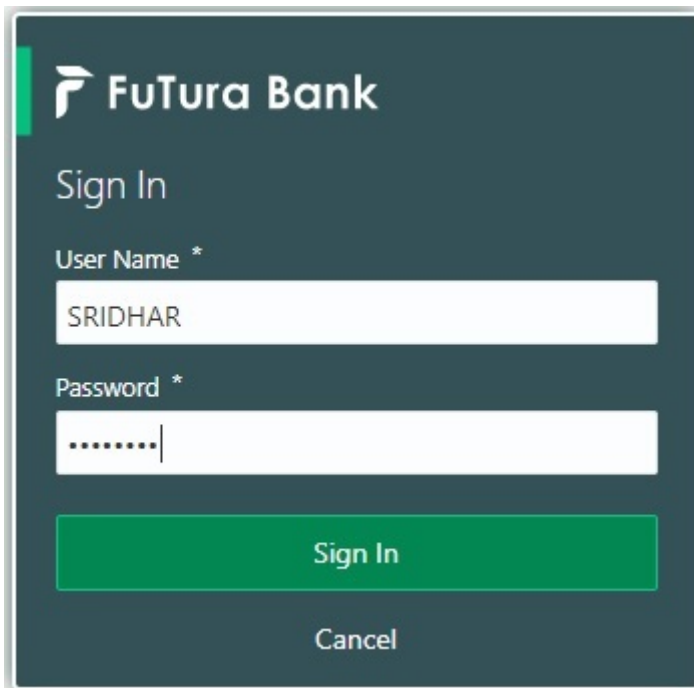

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

3.2 Registration

At the Registration stage, the user can register request for an Export LC Reopen received at the front desk (as an application received physically/received by mail/fax). During Registration, user can capture the basic details of the application, check the signature of the applicant and upload related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

FuTura Bank

System automatically close the contract on the specified "Closure Date" if "Auto Close" is selected as "Yes" for the specific contract.	

3.2.3 Miscellaneous

The screenshot shows the 'Import LC Reopen Application Details' form in the Oracle Banking Trade Finance system. The form is divided into several sections:

- Application Details:** Includes fields for Advising Bank Reference (032ELAC23215ARFD), Submission Mode (Desk), Beneficiary (032204 Air Arabia), Branch (032-Oracle Banking Trade Finan...), Process Reference Number (032ELCR000175928), Issuing Bank (032302 Abu Dhabi Islam), and Reopen Date (Aug 3, 2023).
- Details:** Includes fields for Advising Bank (032309 RAKBANK), Product Code (ELAC), Product Description (Export LC Sight Non Revolving), Form of Documentary Credit Details (40E - Applicable Rules, UCPURR LATEST VERSION), User Reference Number (032ELAC23215ARFD), Date of Expiry (Dec 28, 2023), Applicant (032205 Aldar Properties), and Amount In Local Currency (AED 100.00).
- Additional Fields:** Includes Date of Issue (Aug 3, 2023), Applicant Bank (032303 Dubai Bank), and Closure Date (Jan 27, 2024).

Buttons for 'Signatures', 'Documents', 'Remarks', and 'Customer Instruction' are located at the top right. At the bottom right, there are buttons for 'View LC', 'View LC Even', 'Hold', 'Cancel', 'Save & Close', and 'Submit'.

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Documents	<p>System displays the mandatory and optional documents. User to upload the applicable documents. If mandatory documents are not uploaded, system should display an error on submit. The possible documents submitted under an Import LC Reopen request are:</p> <ol style="list-style-type: none"> 1. Reopen request 2. Letter of Credit instrument copy 	
Remarks	<p>Provide any additional information regarding the collection. This information can be viewed by other users handling the request.</p>	

Field	Description	Sample Values
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
View LC	User can view the LC details.	
View LC Events	User can view the LC Events.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.	
Action Buttons		
Submit	On submit, task will move to next logical stage of Import LC Closure. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Closure. Details entered will not be saved and the task will be removed.	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	

3.2.4 Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.
2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	

Field	Description	Sample Values
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.
The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

3.3 Data Enrichment

As part of Data Enrichment, user can enter/update new Export LC Reopen request.

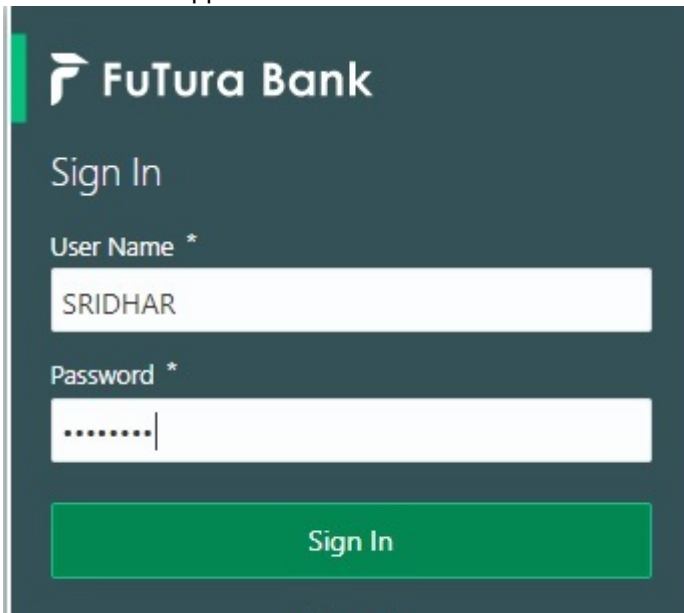

Export LC Reopen request that is received at the desk will move to DE stage post successful Registration stage. The transaction will have the details entered during the Registration stage.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

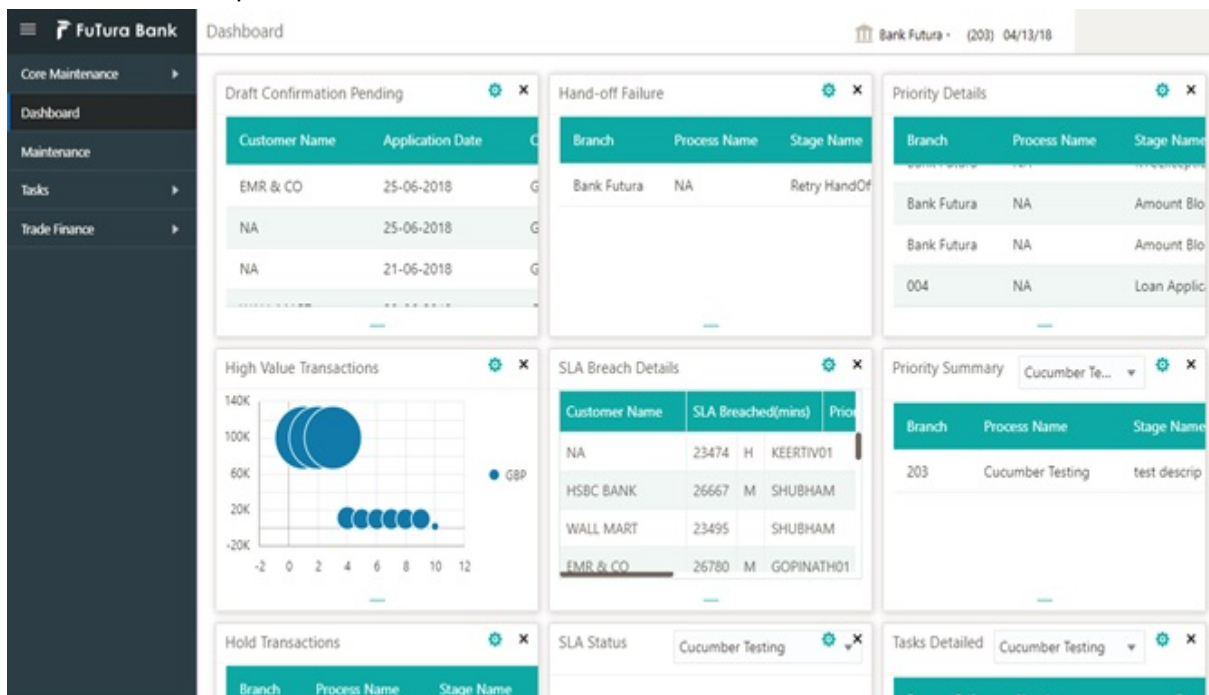

Do the following steps to acquire a task at Data enrichment stage:

- Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the FuTura Bank logo and the text 'FuTura Bank'. Below the header, the text 'Sign In' is displayed. There are two input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' containing a masked password '.....'. A green 'Sign In' button is located at the bottom of the form.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user profile.

The image shows the dashboard interface for FuTura Bank. The dashboard is titled 'Dashboard' and includes a sidebar menu with options like 'Core Maintenance', 'Dashboard', 'Maintenance', 'Tasks', and 'Trade Finance'. The main content area displays several widgets:

- Draft Confirmation Pending:** A table with columns 'Customer Name' and 'Application Date'. Data rows include 'EMR & CO' (25-06-2018), 'NA' (25-06-2018), and 'NA' (21-06-2018).
- Hand-off Failure:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data row includes 'Bank Futura', 'NA', and 'Retry HandOf'.
- Priority Details:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data rows include 'Bank Futura', 'NA', 'Amount Blo', 'Bank Futura', 'NA', 'Amount Blo', '004', 'NA', and 'Loan Applic'.
- High Value Transactions:** A bubble chart showing transactions for 'GBP' with values ranging from -20K to 140K.
- SLA Breach Details:** A table with columns 'Customer Name', 'SLA Breached(mins)', and 'Prio'. Data rows include 'NA' (23474, H, KEERTIV01), 'HSBC BANK' (26667, M, SHUBHAM), 'WALL MART' (23495, SHUBHAM), and 'EMR & CO' (26780, M, GOPINATH01).
- Priority Summary:** A table with columns 'Branch', 'Process Name', and 'Stage Name'. Data row includes '203', 'Cucumber Testing', and 'test descrip'.
- Hold Transactions:** A table with columns 'Branch', 'Process Name', and 'Stage Name'.
- SLA Status:** A widget showing 'Cucumber Testing'.
- Tasks Detailed:** A widget showing 'Cucumber Testing'.

3. Click Trade Finance> Tasks> Free Tasks.

Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

3.3.2.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	

Field	Description	Sample Values
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	

Field	Description	Sample Values
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

3.3.3 Documents Details

User can view the Documents and conditions details for Export LC reopen.

3.3.3.1 Document Details

Documents details as per the latest LC details is displayed.

Field	Description	Sample Values
Code	Document code is auto-populated from the latest LC.	
Document Description	Description of the document is auto-populated from the latest LC.	
Copy	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	
Clause Details	Description of the clause required as per LC.	
Original Doc Required	System defaults the value to display whether original documents are required or not.	

Field	Description	Sample Values
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

3.3.3.2 Additional Conditions

Additional conditions as per the latest LC details is displayed.

FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

3.3.3.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	

Field	Description	Sample Values
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

3.3.4 Payment Details

In this section, user can view the Payment data segment for Export LC Reopen request. The user can verify the basic details available in the Export LC reopen request.

Field	Description	Sample Values
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.	
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.	
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

3.3.5 Additional Fields

In this section, the user can input in the additional fields implemented by the bank for Export LC Reopen.

Any user defined fields maintained at the bank level should be available in this Additional field details.

3.3.5.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	

Field	Description	Sample Values
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Next	Click Next to move to next logical screen of Data Enrichment stage.	

3.3.6 Advices

DE user can view the Advices generated during Import LC Reopen request. Advices menu displays the advices available under a product code from the back office as tiles. Some of the possible advices could be of LC closure, payment message, etc.

The screenshot shows the Oracle Flexcube Universal Banking interface. At the top, there is a navigation bar with the Oracle logo on the left and user information (ZART subham@gmail) on the right. Below the navigation bar, there is a breadcrumb trail: 'Import LC Reopen' > 'Data Enrichment :: Application No:- 032ELCR000175962'. A horizontal menu contains buttons for 'Clarification Details', 'Documents', 'Remarks', 'Overrides', and 'Customer Instruction'. On the left side, there is a vertical sidebar menu with options: 'Main Details', 'Availability Shipment', 'Document Details', 'Payment Details', 'Additional Fields', 'Advices' (highlighted), 'Additional Details', 'Settlement Details', and 'Summary'. The main content area displays the 'Advices' section, which contains a single advice tile. The tile has a title 'Advice : PAYMENT_MESS...' and a list of details: 'Advice Name: PAYMENT_MESSAGE', 'Advice Party :', 'Party Name :', 'Suppress : NO', and 'Advice'. At the bottom of the interface, there is a toolbar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'. The text 'Screen (6)' is visible in the top right corner of the main content area.

The user can also suppress the Advice, if required.

Instruction Description	<p>Read only field.</p> <p>The Instruction description is populated based on the FFT code.</p>	

Field	Description	Sample Values
Edit icon	This button is disabled.	
Action	Edit icon - This button is disabled. Delete icon - This button is disabled.	

3.3.6.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	
Save & Close	<p>Save the details provided and holds the task in 'My Task' queue for further update.</p> <p>This option will not submit the request.</p>	
Back	<p>Click Back to move to the previous screen of Data Enrichment stage.</p>	
Next	<p>Click Next to move to next logical screen of Data Enrichment stage.</p>	

3.3.7 Additional Details

DE user can view the additional details available for the Export LC Reopen request. Some of the possible details could be related to

- Revolving Details

- Limits and Collateral ((Verification Applicable))
- Commission, Charges and Taxes
- Tracer Details
- Preview Messages
- FX Linkage

3.3.7.1 Revolving Details

Provide the Revolving Details based on the description in the following table:

Field	Description	Sample Values
Revolving	Select if the LC is revolving or not using the drop down.	
Revolving In	Select the mode of revolving in this field.The LC can revolve with Time or Units.	

Field	Description	Sample Values
Revolving Frequency	In case the LC revolves with time, then this field should be updated. This field captures the frequency in days and months by which the LC revolves.

Field	Description	Sample Values
Limit Details		
Below fields are displayed on the Limit Details pop-up screen.		
Customer ID	Applicant's/Applicant Bank customer ID will get defaulted.	
Linkage Type	<p>The linkage type. Linkage type can be:</p> <ul style="list-style-type: none"> • Facility • Liability <p>By default Linkage Type should be "Facility".</p>	
Contribution%	<p>System will default this to 100%. Once contribution % is provided, system will default the amount.</p> <p>System to validate that if Limit Contribution% plus Collateral% is equal to 100. If the total percentage is not equal to 100 application will display an alert message.</p>	
Liability Number	System will default the Liability Number.	
Contribution Currency	The LC currency will be defaulted in this field.	

Field	Description	Sample Values
Line ID/Linkage Ref No	System will default the Line ID/Linkage Ref No from the various lines available and mapped under the customer id.	
Line Serial	Displays the serial of the various lines available and mapped under the customer id. This field appears on the Limits grid.	
Limit/ Liability Currency	Limit Currency will be defaulted in this field, when you select the Liability Number	
Limits Description	This field displays the limits description.	
Limit Check Response	Response can be 'Success' or 'Limit not Available' based on the limit service call response.	
Amount to Earmark	This field defaults the amount to earmark value.. Amount to earmark value will default based on the contribution %.	
Expiry Date	This field displays the date up to which the Line is valid	
Limit Available Amount	This field will display the value of available limit, i.e., limit available without any earmark. The Limit Available Amount must be greater than the Contribution Amount. The value in this field appears, if you click the Verify button.	
Response Message	Detailed Response message. The value in this field appears, if you click the Verify button.	
ELCM Reference Number	This field displays the ELCM reference number.	
Below fields appear in the Limit Details grid along with the above fields.		
Line Serial	Displays the serial of the various lines available and mapped under the customer id.	
View	Click the link to view the Limit Details.	

3.3.7.3 Collateral Details

3.3.7.4

Field	Description	Sample Values
Cash Collateral Details		
Collateral Percentage	The percentage of collateral to be linked to this transaction.	
Collateral Currency and amount	System populates the contract currency as collateral currency by default.	
Exchange Rate	System populates the exchange rate maintained. User can modify the collateral Currency and amount. System validates for the Override Limit and the Stop limit if defaulted exchange rate is modified.	
Collateral Details		
Below fields are displayed on the Collateral Details pop-up screen.		
Customer Id	Customer ID is defaulted from the system.	
Total Collateral Amount	Read only field. This field displays the total collateral amount provided by the user.	
Collateral Amount to be Collected	Read only field. This field displays the collateral amount yet to be collected as part of the collateral split.	

Field	Description	Sample Values
Sequence Number	Read only field. The sequence number is auto populated with the value, generated by the system.	
Collateral Split %	The collateral split% to be collected against the selected settlement account.	
Collateral Contribution Amount	Collateral contribution amount will get defaulted in this field.	
Settlement Account	The settlement account for then collateral.	
Settlement Account Currency	The Settlement Account Currency.	
Exchange Rate	Read only field. This field displays the exchange rate, if the settlement account currency is different from the collateral currency.	
Contribution Amount in Account Currency	Read only field. This field displays the contribution amount in the settlement account currency as defaulted by the system.	
Account Available Amount	Account Available Amount will be auto-populated based on the Settlement Account selection.	
Response	Response can be 'Success' or 'Amount not Available'.	
Response Message	Detailed Response message.	
Cancel	Click to cancel the entry.	
Below fields appear in the Cash Collateral Details grid along with the above fields.		
Collateral%	The percentage of collateral to be linked to this transaction. If the value is more than 100% system will display an alert message	
Contribution Amount	This field displays the collateral contribution amount. The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.	
Account Balance Check Response	This field displays the account balance check response.	
View Link	Click the View link to view the Collateral Details.

- FX Linkage - User can view the FX linkage details.

3.3.10.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be ‘Clarification Requested’.	
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	User can capture remarks as well as see remarks made in the earlier screens/stages.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.</p>	

Field	Description	Sample Values
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.	
Back	Click Back to move to the previous screen of Data Enrichment stage.	
Submit	Task will move to next logical stage of Import LC Reopen. If mandatory fields have not been captured, system will display an error message highlighting that the mandatory fields have to be updated. In case of duplicate documents' system will terminate the process after handing off the details to back office.	

On submit of DE Stage, if Limits Earmark or Amount block fails, system should park the task in Limit Exception stage or Amount Block exception stage as required.

3.4 Multi Level Approval

This stage allows the approver user to review and approve the Export LC Reopen request.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

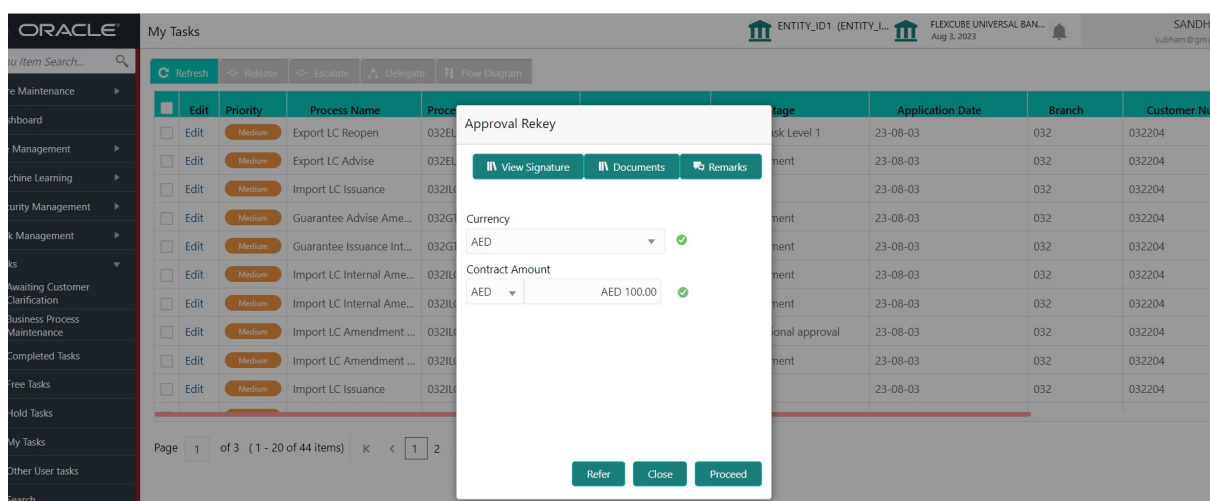

3.4.1 Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

3.4.1.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
View Signatures	<p>Click the View Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Action Buttons		
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Proceed	On proceed, the screen navigates to approval summary screen.	
Close	Close the Export LC Reopen Approval Rekey screen.
