# 1. Preface

## 1.1 Introduction

This user manual is designed to help you quickly get acquainted with Export LC Update Drawing Islamic User Guide process in Oracle Banking Trade Finance Process Management.

## 1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## 1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## 1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

## 1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

## 1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## 1.7 Conventions

The following text conventions are used in this document:

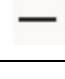

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## 1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## 1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

## 2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### 2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### 2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### 2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

---

## 3. Export LC Update Drawing Islamic

An Export LC Drawing can be updated on account of response from Beneficiary (Exporter) for handling discrepant documents. Beneficiary can submit new documents or can provide further instructions. Update can also happen for capturing information received from the issuing bank or any other party to the transaction.

The various steps involved for Export LC Drawing update are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input update request details
- Upload of related mandatory and non-mandatory documents received from the presenting bank
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of Bill - Data Enrichment stage
- Check for limit availability
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges
- During Simulation, the following items are generated in OBTF and displayed in OBTFPM, based on data input in OBTFPM:

Charges, Interest, Advices, Preview message, Accounting entries and Settlement.

- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Update Drawing process flow is similar to that of conventional Export LC Update Drawing process flow.

This section contains the following topics:

<a href="#">3.1 Common Initiation Stage</a>	<a href="#">3.2 Registration</a>
<a href="#">3.3 Scrutiny</a>	<a href="#">3.4 Data Enrichment</a>
<a href="#">3.5 Exceptions</a>	<a href="#">3.6 Multi Level Approval</a>
<a href="#">3.7 Reject Approval</a>	

### 3.1 Common Initiation Stage

The user can initiate the new export LC update drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

## 2. Click Trade Finance > Initiate Task.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Drawing Reference Number	Select the drawing reference number.
Branch	Select the branch.

### 3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

## 3.2 Registration

User can register a request for an Islamic Export LC Update Drawing at the front desk. During registration stage, user can capture the basic details of the request and upload the related documents. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

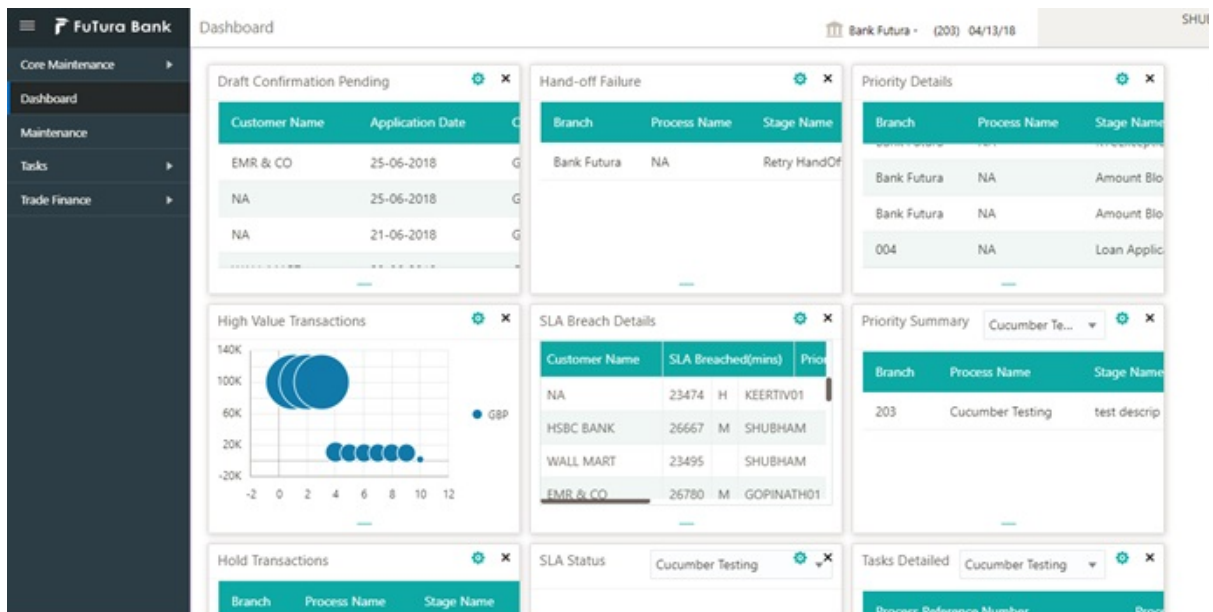

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E ( of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

### 3. Click Trade Finance - Islamic > Export - Documentary Credit > Export LC Update Drawings - Islamic.

The screenshot shows the Oracle dashboard with a sidebar menu on the left. The main area contains several widgets:
 

- Priority Summary:** A table with columns Branch, Process Name, Stage Name, and No of High Priority. It shows 'No data to display'.
- % Oversight Corrections:** A chart showing data filtered on 'All'.
- Model Inference Time:** A chart showing data filtered on 'All'.
- High Priority:** A section with a 'Process R' button and links for PK2GTEA00.
- Model Tag Performance:** A widget showing 'No data to display'.
- Pending Exception Approval:** A section with a '(0)' count.
- Draft Confirmation Pending:** A table with columns Process Reference Number and Customer Id. It shows PK2ILCI000003129 and 001044.
- Hand-off Failure:** A widget showing a table with columns Process Reference Number, Branch, and Process Name.

The registration stage has two sections Application Details and LC Details'. Let's look at the details of registration screens below:

#### 3.2.1 Application Details

The screenshot shows the Oracle application details screen. It is divided into two main sections: Application Details and LC Details.
 

- Application Details:**
  - Drawing Reference Number: PK2EUUD211250001
  - Priority: Medium
  - Process Reference Number: PK2ELCU000026814
  - Export LC Reference Number: PK2ELAC211250003
  - Submission Mode: Desk
  - Beneficiary: 001044 GOODCARE PLC
  - Drawing Date: May 24, 2021
- LC Details:**
  - Tenor Type: Usance
  - User Reference Number: PK2EUUD211252004
  - Date of Expiry: Aug 3, 2021
  - Available with Bank: [Search]
  - Outstanding LC Value: GBP £100,000.00
  - Nego/Finance Amount: GBP £3,000.00
  - Product Code: EUUD
  - Applicant: 001043 MARKS AND SPENCER
  - Presenting Bank: [Search]
  - Drawing Amount: GBP £10,000.00
  - Additional Amount: [Search]
  - Unlinked FX Rate: [Search]
  - Product Description: OUTGOING DOCUMENTARY USANCE E
  - Issuing Bank: 003763 CITIBANK IRELAND
  - Presenting Bank Reference Number: [Search]
  - Amount In Local Currency: GBP £10,000.00
  - Operation Type: DIS
  - Rebate Amount: GBP [Search]

In case of MT798 message(738) application details is defaulted to SWIFT.

Provide the Basic Details based on the description in the following table:

View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	
<b>Action Buttons</b>		
Submit	On submit, task will get moved to next logical stage of Export LC Update Drawing.  If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later.  This option will not submit the request.	
Cancel	Cancels the Export LC Update Drawing Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold.  This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

### 3.2.4 **Bi-Directional Flow for Offline Transactions Initiated from OBTFPM**

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

#### **Pre- Conditions:**

- Customer Maintenance details are replicated from OBTF to OBTFPM.
- Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.

1. Customer Maintenance details are replicated from OBTF to OBTFPM.
2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online".
3. In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

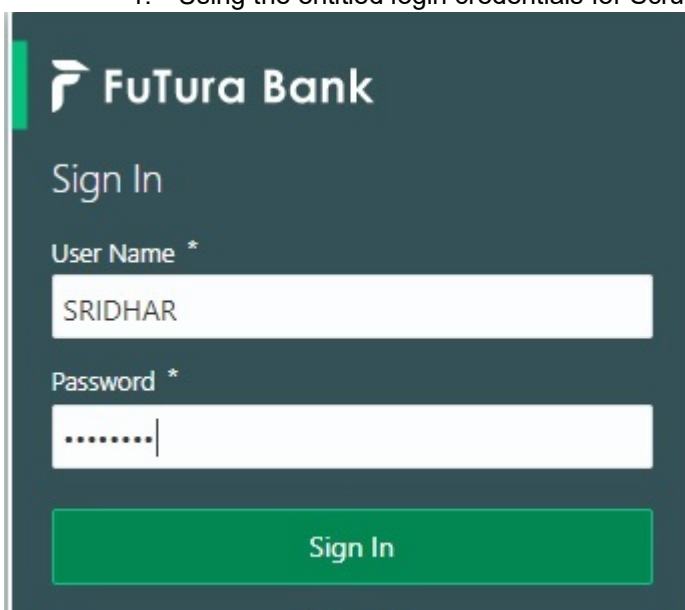

### 3.3 Scrutiny

As a Scrutiny user can scrutinize a request for Islamic Export LC Drawing update

As part of scrutiny, user can enter/update basic details of the Islamic LC Drawing update request and can verify if the request can be progressed further. The task initiated from the online channel should be created in the Scrutiny stage directly as in conventional process flow. The requests will have the details entered during the registration stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

**FuTura Bank**

Sign In

User Name \*

SRIDHAR

Password \*

.....

Sign In

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The screenshot shows the Futura Bank Dashboard with a sidebar menu on the left containing options like Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main dashboard area contains several widgets:
 

- Draft Confirmation Pending:** A table with columns Customer Name, Application Date, and Status. Rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns Branch, Process Name, and Stage Name. Row includes Bank Futura, NA, and Retry HandOf.
- Priority Details:** A table with columns Branch, Process Name, and Stage Name. Rows include Bank Futura, NA, Amount Blo; Bank Futura, NA, Amount Blo; and 004, NA, Loan Applic.
- High Value Transactions:** A bubble chart showing transaction values for GBP. The x-axis ranges from -2 to 12, and the y-axis from -20K to 140K.
- SLA Breach Details:** A table with columns Customer Name, SLA Breached(mins), and Priority. Rows include NA (23474, H, KEERTIV01), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns Branch, Process Name, and Stage Name. Row includes 203, Cucumber Testing, test descrip.
- Hold Transactions:** A table with columns Branch, Process Name, and Stage Name.
- SLA Status:** A dropdown menu currently set to Cucumber Testing.
- Tasks Detailed:** A dropdown menu currently set to Cucumber Testing.

- Click Trade Finance> Tasks> Free Tasks.

The screenshot shows the Oracle Free Tasks page. The sidebar menu on the left includes Oracle, Menu Item Search, Core Maintenance, Dashboard, Machine Learning, Security Management, Task Management, Tasks, Awaiting Customer Clarification, Business Process Maintenance, Completed Tasks, Free Tasks, and Hold Tasks. The main area displays a table of tasks with the following columns: Action, Priority, Process Name, Process Reference Number, Application Number, Stage, Application Date, Branch, and Customer. The table contains multiple rows of tasks, with the first row being 'Acquire & Edit' (Medium priority) for 'Islamic Export LC Drawing U...' with process reference PK2IELU000007251 and application number PK2IELU000007251.

- Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

This screenshot is similar to the previous one but shows the first task in the table selected. The 'Acquire & Edit' button for the first row is highlighted in blue, indicating it is the active selection.

- The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

The Scrutiny stage has the following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value may not be editable.

When customer initiates an Export LC discrepant presentation response through SWIFT (Corporate to SWIFT) channel, the MT798 message containing the request is parsed and based on the STP parameters maintained, can create an Update of Export LC Drawing Task in OBTFPM.

In OBTFPM, the task is verified, enriched and on approval the task is handed off to back office system to update a export LC drawing process and generate the required messages.

### 3.3.1 Main Details

Main details section has two sub section as follows:

- Application Details
- Drawing Details

### 3.3.1.1 Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [3.2.1 Application Details](#) for more information of the fields.

Following field can be amended based on the description provided in the following table:

Field	Description	Sample Values
Priority	User can change the priority defaulted' Values are High, Medium and Low.	High

### 3.3.1.2 LC Details

The fields listed under this section are same as the fields listed under the [3.2.2 LC Details](#) section in [3.2 Registration](#). Refer to [3.2.2 LC Details](#) for more information of the fields. During registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Documents Received	Set the document received status as 'Yes' or 'No' from the LOV.	
Presenting Bank	<p>Read only field.</p> <p>Presenting Bank will be auto-populated based on the selected LC from the LOV.</p> <hr/> <p><b>Note</b></p> <p>If the user selects another bank and in case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".</p>	
Confirming Bank	Click icon to search and select the confirming bank from the lookup.	
Available with Bank	Click icon to search and select the value for available with bank from the lookup.	
Additional Amount	This field enables user to provide any additional amount to be processed under the LC drawing.	
Operation Type	Operation type will be auto-populated based on the selected LC from the LOV. User can edit the details, if required.	
Stage	<p>Select the stage from the LOV:</p> <ul style="list-style-type: none"> <li>• Initial</li> <li>• Final</li> </ul>	
Rebate Amount	<p>Read only field.</p> <p>Rebate to the bill outstanding amount.</p>	

### 3.3.1.3 **Action Buttons**

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>● <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system.  Refer Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

### 3.3.2 Document Details

Document details displays as available for the Drawing.

A Scrutiny user can enter/ update Documents and conditions details for Export LC Update Drawing:

Field	Description	Sample Values
-------	-------------	---------------

**Document Details - As per LC**

This table will fetches the document details as maintained in the underlying LC(LCDTRONL). User can modify the details only which are fetched from underlying LC.

User can not add or delete any document details.

Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing.

Document Code	Read only field. Document code is auto-populated from the latest LC.	
Document Reference Number	Enables user to provide the reference number available in the documents.	
Document Date	Displays the document date. The user can change the date.  <b>Note</b>  If "Document date" is more than "Shipment Date" system displays an override alert.	
Copy	Read only field. Number of duplicate copies of documents as required in LC.	
Original	Read only field. Number of documents in original as required in LC.	

Field	Description	Sample Values
Description	Read only field. Description of the document required as per LC.	
First Mail Received Original	Provide the original documents received from first mail.	
First Mail Received Copy	Provide the copy of the documents received from first mail.	
Second Mail Received Original	Provide the original documents received from second mail.	
Second Mail Received Copy	Provide the copy of the documents received from second mail.	
Document Clause	Read only field. System will populate the document Clause based on the document code.	
Received Description	System populates the description of the documents received from presenting bank. User can edit the description clause by clicking the link in the 'Received Description' column.	
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	Click Search to search and select the discrepancy code based on the discrepancy identified. This field is enabled, if Discrepant option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code. The user can change the description.	
Action	Click the Edit icon to edit the document details.	

Additional documents presented

The user can click + to add multiple document details.

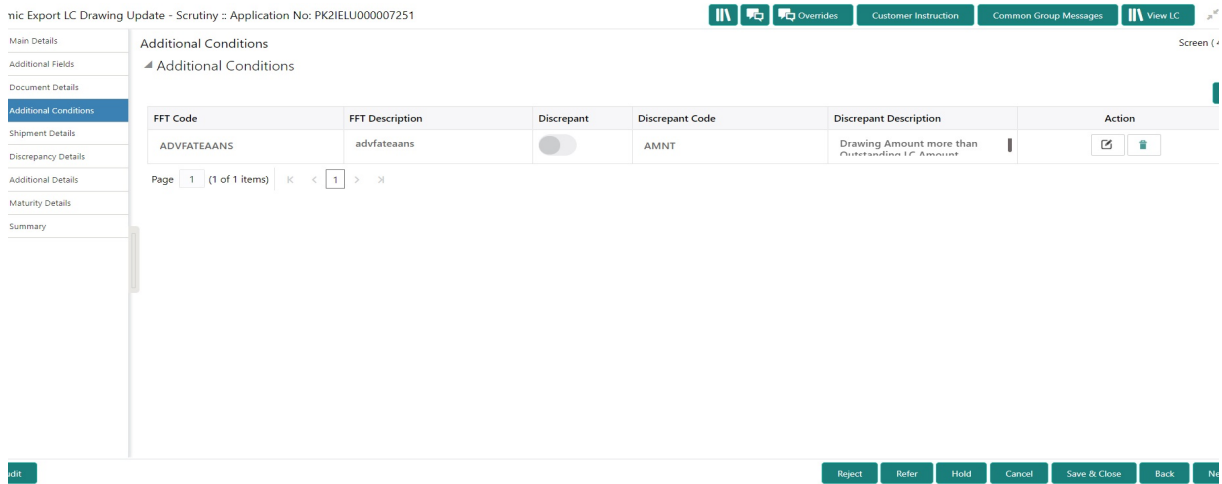

This table fetches document details as maintained for the specific bill drawing product (BCD-PRMNT). Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also.

Field	Description	Sample Values
Document Code	<p>Click Search to search and select the document code based on the document received.</p> <p>User can add or delete the code by deleting the line on the grid.</p> <hr/> <p style="text-align: center;"><b>Note</b></p> <p>The User is not allowed to add any document code which is already existing in any of the two tables.</p>	
Document Reference Number	<p>Enables to user to provide the reference number available in the documents.</p>	
Document Date	<p>Provide the document date of the underlying document.</p> <hr/> <p style="text-align: center;"><b>Note</b></p> <p>If “Document date” is more than “Shipment Date” system displays an override alert.</p>	
Description	<p>Displays the description of the additional documents based on the document code selected.</p> <p>Click the link to view the description of the document.</p>	
First Mail Received Original	<p>Provide the number of originals of documents received from first mail.</p>	
First Mail Received Copy	<p>Provide the number of duplicate copies of documents received from first mail.</p>	
Second Mail Received Original	<p>Provide the number of originals of documents received from second mail.</p>	
Second Mail Received Copy	<p>Provide the number of duplicate copies of documents received from second mail.</p>	
Action	<p>Edit: Click edit to edit the document code</p> <p>Delete: Click Delete to delete the document code.</p> <hr/> <p style="text-align: center;"><b>Note</b></p> <p>The User can not be able to delete any document detail fetched from previous operation.</p>	

### 3.3.3 Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

This section displays the list of additional conditions as per LC. Provide the Additional Conditions details as per the description in the following table:

Field	Description	Sample Values
FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified. This field is enabled, if Discrepant option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Action	Click the Edit icon to edit the additional condition details.	

#### 3.3.3.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	

Field	Description	Sample Values
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Scrutiny stage inputs.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

### 3.3.4 Shipment Details

User must check whether the received documents of goods and shipment matches the requirement in LC.

#### 3.3.4.1 Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values
Goods Code	This field displays goods code as per latest LC.	
As per LC	This field displays the description of goods as per LC. User can edit the value, if required.	
No of Units	Enter the number of units being imported or exported.	
Price per Unit	Enter the value for price per unit.	
As per Documents	This field displays the description of the goods as per the documents. User can edit the value, if required.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.  This field is enabled, if <b>Discrepant</b> option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code.  The user can change the description.	
Insurance Company Code	Update the insurance company name, if applicable.	
Insurance Company	Update the insurance company details, if applicable.	
Policy Number	Specify the policy number of the insurance.	
Carrier Name	Update the carrier name through which the goods are shipped	

### 3.3.4.2 Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Update the date of shipment as per the documents received.  This field is mapped against the Latest Date of Shipment in LC to check for discrepancy.	
Shipping Agent	Update the shipping agent details.	
Date of Presentation	Read only field.  Auto-populated based on the system date. If Place of expiry is Issuing bank, This field is mapped against the Expiry Date in LC to check for discrepancy.	
Details	Details represent the fields in latest LC.	
As per LC	This field displays description of the fields as per the latest LC.	
As Per Document	Update the description of the field as per document.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC Terms and documents received.	

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.  This field is enabled, if <b>Discrepant</b> option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

### 3.3.4.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents.  Application will display the mandatory and optional documents.  The user can view and input/view application details simultaneously.  When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	

Field	Description	Sample Values
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

### 3.3.5 Discrepancy Details

This section displays the list of discrepancies captured. User can add/update/review the discrepancies identified in the section.

The screenshot displays the Oracle Trade Finance Portal interface for 'Discrepancy Details'. The top navigation bar includes the Oracle logo and user information (ENTITY\_ID1, ENTITY\_L..., Oracle Banking Trade Finan..., Aug 3, 2023, ZART, subham@gmail). The main header shows 'Discrepancy Details' and 'Screen (6)'. The left sidebar contains navigation options: Main Details, Additional Fields, Document Details, Additional Conditions, Shipment Details, Discrepancy Details (selected), Maturity Details, Additional Details, and Summary. The main content area features a 'Discrepancy Details' section with 'Accept All' and 'Reject All' buttons. Below this is a table with columns: Select, Discrepancy Code, Discrepancy Description, Discrepancy Resolved, Resolved Date, Received Date, Resolved Remarks, Resolved Under MT750, and Action. The table currently shows 'No data to display.' Below the table is a pagination control showing 'Page 1 (0 of 0 items)'. There are several date pickers: 'Pay Msg Date', 'Non Pay Msg Date', 'Acceptance Message Date', and 'Non Acceptance Message Date'. Below these are 'Discrepancies Approval Date' and 'Under Reserve' (with a radio button). The 'MT750 Details' section includes fields for '71D Charges to be recovered', '73A- Charges to be added', '34B Total Amount be paid', and '57A Account with Bank'. At the bottom, there is a '72 - Sender to Receiver Information' field. The bottom navigation bar contains buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

### 3.3.5.1

Field	Description	Sample Values
Accept All	To accept all the discrepancy. System will auto update the Discrepancy status as 'Accepted' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any	
Reject All	To reject all the discrepancy. System will auto update the Discrepancy status as 'Rejected' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Discrepancy Resolved	The option is set to 'Yes', if discrepancy is resolved.	
Resolved Date	System displays the date on which discrepancy is resolved.	
Resolved Remarks	The remarks for discrepancy resolution.	
Resolved Under MT750	Enable the option, if discrepancy is resolved under MT750.	
Action	Click the Edit icon to edit the discrepancy details. Click the Delete icon to delete the discrepancy details.	
Pay Msg Date	Select the pay message date.	
Non Pay Msg Date	Select the non pay message date.	
Acceptance Message Date	Select the acceptance message date.	
Non Acceptance Message Date	Select the non acceptance message date.	
Discrepancies Approval Date	Select the date on which discrepancies has been approved.	
Under Reserve	The option when selected, allows the system to send the stage as Final to OBTF on Hand off. By default, the check box is de-selected. System allows to check this field, when the discrepancy in Bill and Operation is NEG.	

MT750 Details

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Charges to be recovered	Click the edit icon and specify the charges to be recovered in Line 1-6 and click Save & Close to save the changes.  The user can edit the details by clicking the edit icon.	
Charges to be added	Click the edit icon and specify the charges to be added in Line 1-6 and click Save & Close to save the changes.  The user can edit the details by clicking the edit icon.	
Total Amount be paid	Click the edit icon and specify the total amount be paid in Line 1-6 and click Save & Close to save the changes.  The user can edit the details by clicking the edit icon.	
Account with Bank	Click the edit icon and specify the account with bank details in Line 1-6 and click Save & Close to save the changes.  The user can edit the details by clicking the edit icon.	
Sender to Receiver Information	Click the edit icon and specify the sender to receiver information in Line 1-6 and click Save & Close to save the changes.  The user can edit the details by clicking the edit icon.	

### 3.3.5.2 **Action Buttons**

Use action buttons based on the description in the following table:

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	

Field	Description	Sample Values
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Scrutiny stage inputs.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	

### 3.3.6 Maturity Details

A Scrutiny user can enter the Payments data segment for Islamic Export Update Drawing request.

The screenshot shows the Oracle Islamic Export LC Drawing Update Maturity Details form. The form is divided into several sections:

- Maturity Details:** Includes fields for Tenor Type (Sight), Tenor Basis, Start Date (May 5, 2021), Tenor Days, Transit Days, Maturity Date (May 5, 2021), Profit From Date, Profit To Date, Acceptance Commission From Date, and Acceptance Commission To Date.
- Other Bank Charges:** Includes three columns for Other Bank Charges-1, -2, and -3, each with a description field.
- Other Bank Profits:** Includes three columns for Other Bank Profit-1, -2, and -3.
- Other Details:** Includes fields for Debit Value Date (May 5, 2021), Credit Value Date (May 5, 2021), Value Date (May 5, 2021), and Allow Pre-Payment (toggle).

Provide the maturity details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Read only field. This field displays the tenor type as per LC.	
Tenor Basis	Provide the tenor basis or select it from LOV. The tenor base code description is displayed based on the selected tenor basis.	
Start Date	Provide the tenor start date.	
Tenor Days	Provide the number of tenor days	
Transit Days	Provide the transit days, if the tenor is sight.	
Maturity date	System displays the due date for the drawing based on tenor and tenor basis.  If tenor is sight, system will calculate the maturity date as 5 working days from document Received date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date.  If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.	

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Profit from Date	Select the interest from date. The interest from date cannot be earlier than branch date and later than maturity date.	
Profit to Date	Select the profit to date.	
Acceptance Commission From Date	Provide the acceptance commission from date.	
Acceptance Commission To Date	Provide the acceptance commission to date.	

### **3.3.6.1 Other Bank Charges**

Provide the other bank charges based on the description in the following table:

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Other Bank Charges - 1	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 2	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Charges - 3	Charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -2 to 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	
Other Bank Description -3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.	

### **3.3.6.2 Other Bank Profits**

Provide the other bank profit based on the description in the following table:

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Other Bank Profits - 1	This field displays the other bank profit along with the currency.	
Other Bank Profits - 2	This field displays the other bank profit along with the currency.	
Other Bank Profits - 3	This field displays the other bank profit along with the currency.	

### 3.3.6.3 Other Details

Provide the other bank charges based on the description in the following table:

Field	Description	Sample Values
Debit Value Date	Provide the debit value date.	
Credit Value Date	Provide the credit value date.	
Value Date	Provide the value date.	
Allow Pre-Payment	<p><b>Toggle On:</b> Set the toggle 'On' to enable pre-payment.</p> <p><b>Toggle Off:</b> Set the toggle 'Off' to disable pre-payment.</p>	
Refund Interest	<p><b>Toggle On:</b> Set the toggle 'On' to refund the interest.</p> <p><b>Toggle Off:</b> Set the toggle 'Off' to deny the interest refund.</p>	
Transfer Collateral from LC	<p><b>Toggle On:</b> Set the toggle 'On' to enable the transfer collateral from LC.</p> <p><b>Toggle Off:</b> Set the toggle 'Off' to disable the transfer collateral from LC.</p>	

### 3.3.7 Additional Details

A Scrutiny user can enter/update/verify the Additional Details data segment for Islamic Export Update Drawing request.

As part of Additional details section, LC may have impact on the Limits, Collaterals and Charge section.

Account Currency	Application defaults the currency for all the items based on the account number.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	

Field	Description	Sample Values
Deal Reference Number	The exchange deal reference number.	

### 3.3.7.4 FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

System allows to link FX even if it is not immediate liquidation. System allows to link FX in booking/update and liquidate bill later manually.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate. Provide the FX linkage detail based on the description in the following table.

Linkage

Currency	This field displays the currency of the pre-shipment loan account number.	
Outstanding Amount	This field displays the pre-shipment credit outstanding amount.	
Event	This field displays the event.	
Settled Amount	This field displays the settled amount.	

### **3.3.7.7 Action Buttons**

Use action buttons based on the description in the following table:

<b>Field</b>	<b>Description</b>	<b>Sample Values</b>
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> Select a Reject code and give a Reject Description.  This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system.  Refer Codes: <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	

### 3.3.8 Summary

User can review the summary of details captured under Islamic Export LC Update Drawing Scrutiny Stage.

The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

The screenshot shows the Oracle Trade Finance Summary screen. The interface includes a top navigation bar with tabs for Clarification Details, Documents, Remarks, Overrides, Customer Instruction, Common Group Messages, View LC, and View Events. A left sidebar contains a menu with options like Main Details, Additional Fields, Document Details, Additional Conditions, Shipment Details, Discrepancy Details, Maturity Details, and Additional Details, with 'Summary' selected. The main content area is a grid of 12 data segments:

- Main Details:** Product Code : EBCA, Currency : AED, Amount : 10000
- Additional Fields:** Click here to view Additional fields
- Document Details:** Document 1, Document 2
- Additional Conditions:** FFT Code 1, FFT Code 2
- Shipment Details:** Goods Code : ROLLINGCHAIR
- Discrepancy Details:** Discrepancy Code 1, Discrepancy Code 2
- Maturity Details:** Tenor Type : Usance, Tenor Basis, Maturity Date : 2023-09-02
- Limits and Collaterals:** Contribution Currency, Amount to Earmark : null, Limit Status : Not Verified, Collateral Currency : AED, Collateral Contr., Collateral Status : Not Verified, Deposit Linkage CCY, Deposit Linkage Amount
- Commission, Charges and Taxes:** Charge, Commission, Tax, Block Status : Not Initiated
- Pre Shipment Details:** Preshipment Credit, OutstandingAmount, RepayAmount
- Payment Details:** Immediate Liquidation: Yes, Immediate Accept, Reim Claimed
- Assignment of Proceeds:** Assignmentofproceeds: No, Assignee Name, Assigned Amount

At the bottom, there is a row of action buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, Next, and Submit.

### Tiles Displayed in Summary

- Main Details - User can view the application details and LC details.
- Party Details - User can view party details like applicant, advising bank etc.
- Document Details - User can view document details.
- Shipment Details - User can view shipment details.
- Additional Conditions - User can view additional conditions of the drawing.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Additional Fields - User can view the additional field details.
- Pre Shipment Details - User can view the pre shipment details.
- Limits and Collaterals - User can view limits and collateral details.
- Commission, Charges and Taxes - User can view charge details.
- Assignment of Proceeds - User can view the details of assignment of proceeds.
- FX Linkage - User can view the FX linkage details.
- Interest Details - User can view the interest details.
- Payment Details - User can view the payment details.

### 3.3.8.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
Incoming Message	<p>Displays the incoming message, if any.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	

Field	Description	Sample Values
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the Scrutiny stage inputs.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul>	
Submit	<p>Task will get moved to next logical stage of Export LC Update Drawing.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	

Field	Description	Sample Values
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	

### 3.4 Data Enrichment

A DE User can input new Islamic Export LC Update Drawings - Islamic request. As part of data enrichment user can enter/update basic details of the incoming request.

---

#### Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

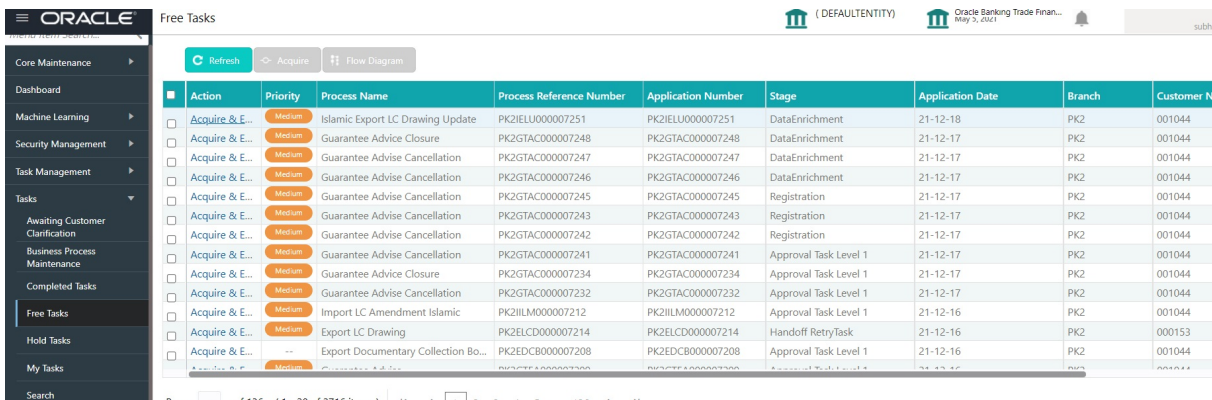

Do the following steps to acquire a task at Data Enrichment stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

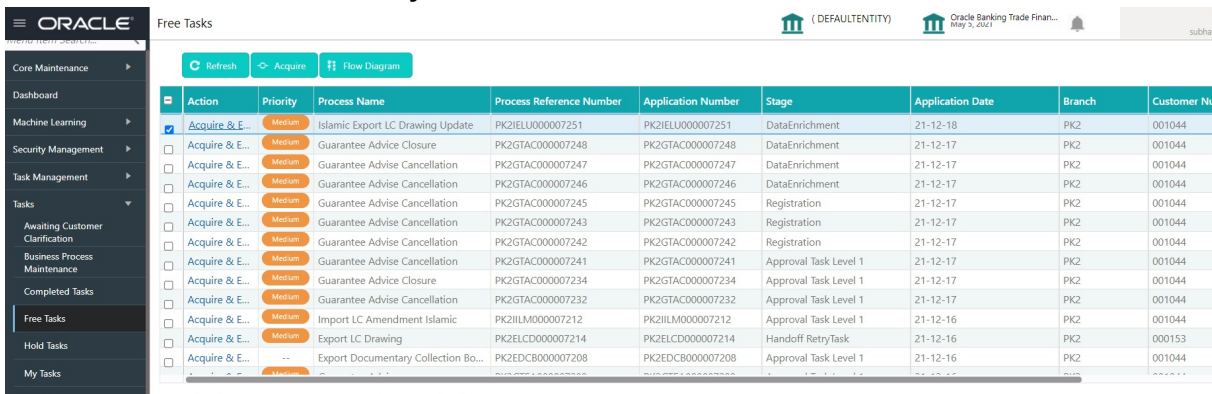

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click Trade Finance> Tasks> Free Tasks.

- Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

- The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Data Enrichment stage hop has following hops for data capture:

- Main Details
- Document Details
- Additional Conditions
- Shipment Details
- Discrepancy Details
- Maturity Details
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

### 3.4.1 Main Details

Refer to [3.3.1 Main Details](#).

### 3.4.2 Document Details

Refer to [3.3.2 Document Details](#).

### 3.4.3 Additional Conditions

Refer to [3.3.7 Additional Details](#).

### 3.4.4 Shipment Details

Refer to [3.3.4 Shipment Details](#).

### 3.4.5 Discrepancy Details

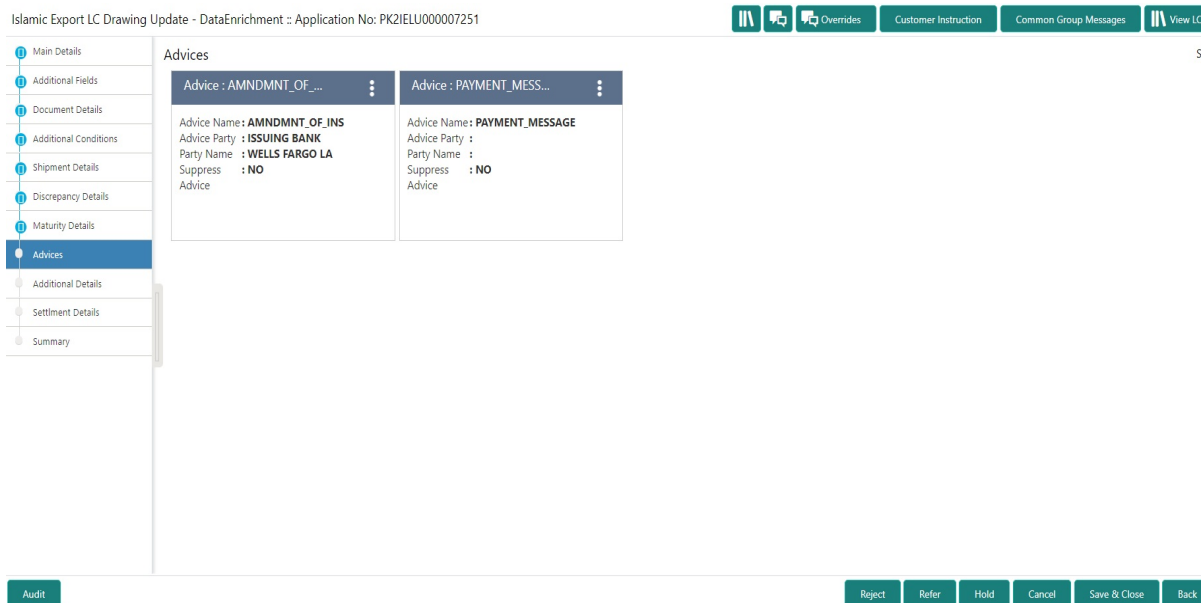

Refer to [3.3.5 Discrepancy Details](#).

### 3.4.6 Maturity Details

Refer to [3.3.7 Additional Details](#).

### 3.4.7 Advices

A DE user can verify the advices Details data segment for Islamic Export Drawing Update request.

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

#### 3.4.7.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>● <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>● <b>Transaction Level Instructions</b> – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>	
Common Group Message	Click Common Group Message button, to send 759, 790, 791, 792, 795, 796, 798, 799, 999 messages from within the task.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values

### 3.4.8.4

Field	Description	Sample Values
Component	This field displays the component maintained in the back office.	
Component Description	This description of the component.	
Rate Type	System defaults the rate type maintained for the component in back office. Value can be: <ul style="list-style-type: none"> <li>• Fixed Floating</li> <li>• Special</li> </ul>	
Rate Code	This field displays the rate code applicable for the Component.	
Min Spread	This field displays the minimum spread applicable for the Rate Code. This field have value only if the <b>Rate Type</b> is <b>Floating</b> .	
Max Spread	This field displays the maximum spread applicable for the Rate Code. This field have value only if the <b>Rate Type</b> is <b>Floating</b> .	
Spread	This field displays the spread applicable for the Component in case of Floating Rate Component. User can change the defaulted value. System validates whether the spread input is within the Minimum to Maximum Spread.	
Min Rate	This field displays the minimum rate applicable for the Rate Code.	
Max Rate	This field displays the maximum rate applicable for the Rate Code.	
Rate	This field displays the value applicable for the Rate Code. User can change the value if the <b>Rate Type</b> is <b>Fixed</b> . System validates whether the Rate input is between the Minimum and Maximum Rate.	
Modified Rate	This field displays the modified rate.	

Field	Description	Sample Values
Special Pricing Reference Number	<p>User can capture the Special Pricing Reference Number, when there is a special Interest rate to be provided for that customer against the interest component (Main Component).</p> <p>Special Pricing Reference is not applicable for Penal Interest components.</p> <p>For transactions initiated from OBDX, the Special Pricing Reference Number will be populated from OBDX and user cannot edit the same.</p> <hr/> <p style="text-align: center;"><b>Note</b></p> <p style="text-align: center;">System shows an override as “Special Pricing Applicable”, on clicking “Save” in the Interest Details screen, if Special Pricing Reference number has been provided.</p>	
Currency	System defaults the Interest currency in this field.	
Interest Amount	User can input the interest amount, in case the <b>Rate Type</b> is <b>Special</b> , else user can not be able to input the amount. In such cases, the amount will be calculated by back office immediately only if the Interest is collected in Advance or if Back Dated Interest is collected. In that scenario, the Amount will be populated on Re-simulation from back office. Otherwise Interest will be calculated only in the batch as maintained.	
Waive	User can waive the Interest applicable. System displays an override, if the user has waived the Interest.	
Charge Party	<p>System displays the Charge Party based on the type of transaction.</p> <p>In case of Export Transactions, Drawer should be the defaulted Charge Party for Collection Bills and Beneficiary for the LC Bills. In case of Import Transactions, Drawee should be the Charge Party for Collection and Applicant for the LC Bills..</p>	

Field	Description	Sample Values
Settlement Account	System defaults the Settlement Account of the Charge Party for debit of Interest. User can change the value. System should display an error if a different customer is chosen. If different account of the Charge Party is selected, system should display a override.  In case the user modifies the Interest Rate, the user should click on Recalculate button to get the modified amount from the back office and display the new Amount.(Recalculation is done in back office and not in OBTFPM).	
Settlement Currency	This field displays the settlement account currency.	
Settlement Branch	This field displays the settlement account branch.	

### 3.4.8.5 Payment Details

Refer to [3.3.7.3 Payment Details](#).

### 3.4.8.6 Preview Message

User can view the draft message (outgoing MT754 and MT742/MT750/MT742 SWIFT message format) being displayed on the preview message text box.

Field	Description	Sample Values
Preview - SWIFT Message

## 3.5 Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the DE Stage.]\

The amount Block earmark and Limit Earmarks if applicable are also initiated after the DE stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

### 3.5.1 Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

### 3.5.1.1 Amount Block Exception

This section will display the amount block exception details.

### 3.5.1.2 Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

### 3.5.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values

Cancel	Cancel the Export LC Update Drawing Amount Block Exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

### 3.5.2 **Exception - Know Your Customer (KYC)**

As part of KYC validation, application will check if necessary KYC documents are available and valid for the customer. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can select a transaction and do the following actions:

#### **Approve**

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

#### 3.5.2.1 **Summary**

Tiles Displayed in Summary:

- Main Details - User can view details about application details and LC details.
- Document Details - User can view the details of the document.
- Additional Conditions - User can view the details of additional conditions.
- Shipment Details - User can view the shipment details.
- Discrepancy Details - User can view the discrepancy details of the drawing.

- Advices - User can view the details of the advices.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Payment Details - User can view the payment details.
- Preview - User can view the preview of the message.
- Settlement Details - User can view the settlement details.
- FX Linkage - User can view the details of FX Linkage.
- Compliance - User can view the compliance details.
- Party Details - User can view party details like applicant, advising bank etc.

### 3.5.2.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance- Limits</li> <li>• R5 - Others</li> </ul>	
Cancel	<p>Cancel the Export LC Update Drawing KYC exception check.</p>	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

## 3.6 Multi Level Approval

User can view the summary of details updated in multilevel approval stage of Islamic Export LC Drawing Update.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

---

### Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

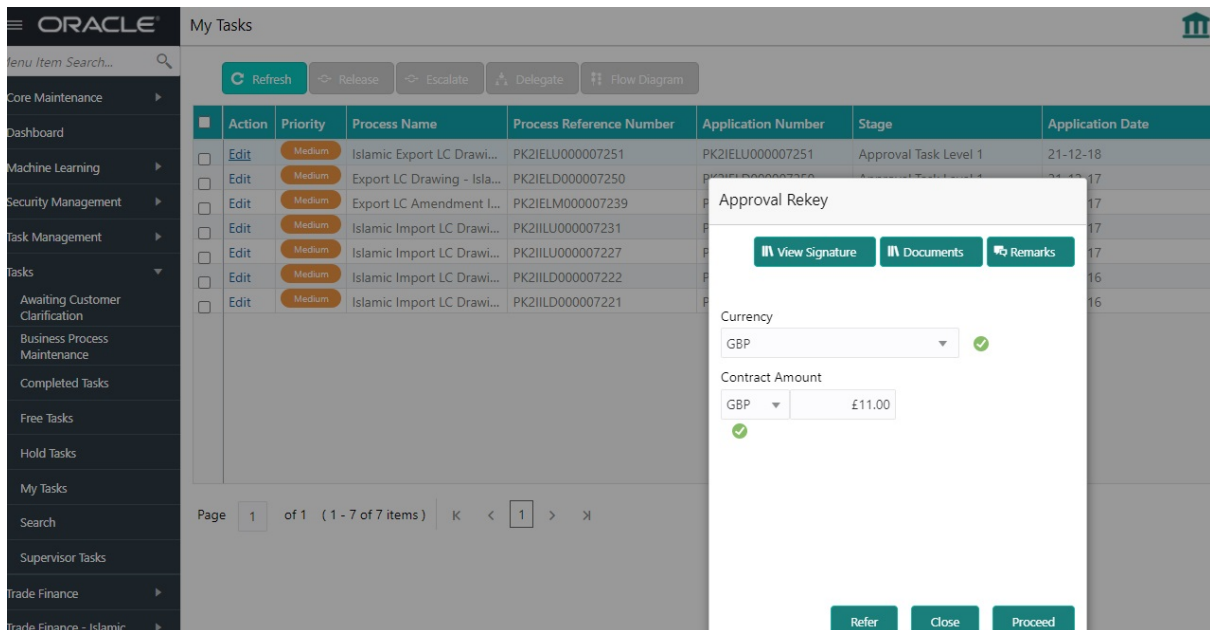

### 3.6.1 Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Bill Currency Code
- Applicant Party
- Bill Amount
- Beneficiary Party
- Drawing Currency
- Drawing Amount
- Expiry Date

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able to see the summary tiles and the details in the screen by drill down from tiles.

### 3.6.1.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.

- Compliance - User can view compliance validation response. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

### 3.6.2.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance/Limits</li> <li>● R5 - Others.</li> </ul> <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> <li>● R1- Documents missing</li> <li>● R2- Signature Missing</li> <li>● R3- Input Error</li> <li>● R4- Insufficient Balance- Limits</li> <li>● R5 - Others</li> </ul>	
Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

## 3.7 Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export LC Update Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

### 3.7.1 **Application Details**

The application details data segment have values for requests received from both non-online and online channels.

### 3.7.2 **Summary**

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view details about application details and LC details.
- Drawing Details - User can view the drawing details.
- Documents Under LC - User can view the documents received under the LC for this drawing, if required.
- Shipment - User can view shipment details.
- Discrepancy Details - User can view the discrepancy details of the drawing.
- Maturity Details - User can view the maturity details.
- Limits and Collaterals - User can view limits and collateral details.
- Charges - User can view charge details.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Payment Details - User can view the payment details.
- Settlement Details - User can view the settlement details.
- Preferences - User can view set loan preferences.
- FX Linkage - User can view the details of FX Linkage.
