1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Guarantee SBLC Advised Claim Update process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Guarantee SBLC Advised - Claim Update

As part of update a claim lodged under a Guarantee/SBLC Advised process, the applicant can register an update to a claim against the Guarantee/SBLC advised.

In the subsequent sections, let's look at the details for update a claim lodged under Guarantee/SBLC Advised process:

This section contains the following topics:

[3.1 Common Initiation Stage](#)

[3.2 Registration](#)

[3.3 Data Enrichment](#)

[3.4 Multi Level Approval](#)

3.1 Common Initiation Stage

The user can initiate the new update a claim update under a Guarantee/SBLC request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot shows the Oracle OBTFPM application interface. The main content area is titled 'Initiate Task' and contains a 'Registration' section. There are two dropdown menus: 'Process Name' with 'Guarantee Claim' selected, and 'Branch *' with '300-International Payments-Fast...' selected. There are 'Proceed' and 'Clear' buttons on the right. A sidebar menu on the left has 'Initiate Task' highlighted with a red box.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

3.2 Registration

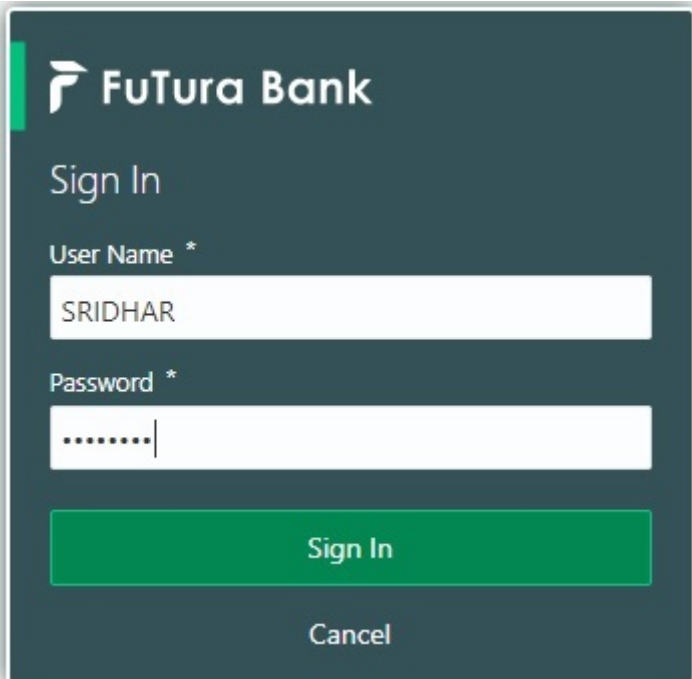

During the Registration stage, the user can register an update to the claim lodged under a Guarantee/SBLC Advised.

In this stage the user can initiate an update to the Guarantee/ SBLC Claim Lodged. The user can capture the basic details of the application, check the signature of the applicant and upload the related documents of the applicant.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for registration stage, login to the OBTFPM application.

3.2.5 Bi-Directional Flow for Offline Transactions Initiated from OBTFPM

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from OBTFPM.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in OBTFPM upon request received from the customer.

Pre- Conditions:

- Customer Maintenance details are replicated from OBTF to OBTFPM.
 - Task is initiated in OBTFPM, Customer ID is captured/populated and Process Reference Number is generated.
1. Customer Maintenance details are replicated from OBTF to OBTFPM.
 2. In OBTFPM, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is “Online”.
 3. In case submission mode is “Online”, the user can enter the clarification details in “Clarification Required” placeholder. In case submission mode is not “Online”, the system will validate if the counterparty is a OBDX customer by checking the flag “Trade Finance Portal” in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
 4. In case submission mode is not “Online”, and if the “Trade Finance Portal” flag is set to ‘No’ in Customer Maintenance Table, the system should display the error message that ‘The customer is not subscribed to Trade Finance Portal’. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

3.3 Data Enrichment

On successful completion of Registration of a Guarantee SBLC Advised - Claim update request, the request moves to Data Enrichment stage. At this stage the bank user can update the various claim fields. The user can input the transaction details.

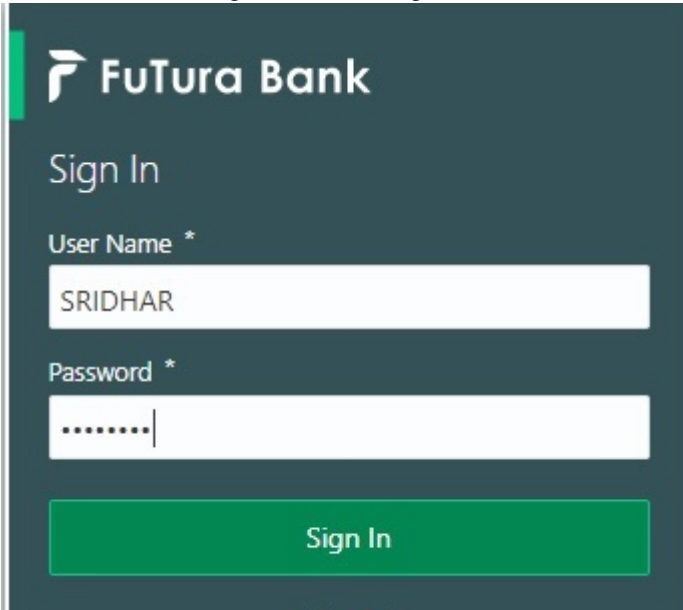

At this stage the gathered information during Registration stage and claim update request are scrutinized and enter the data as required.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

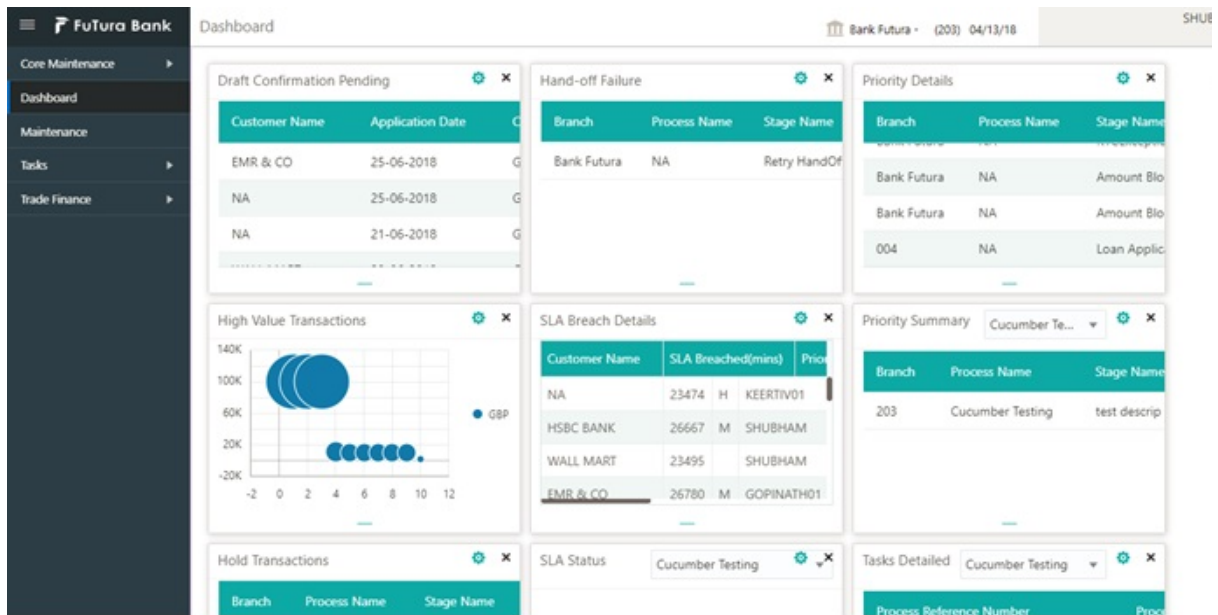

Do the following steps to acquire a task currently at Data Enrichment stage:

- Using the entitled login credentials for scrutiny stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features the bank's logo and name at the top. Below that, the text "Sign In" is displayed. There are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. A green "Sign In" button is positioned at the bottom.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The screenshot displays the FuTura Bank dashboard. On the left is a navigation menu with options like "Core Maintenance", "Dashboard", "Maintenance", "Tasks", and "Trade Finance". The main area contains several widgets:

- Draft Confirmation Pending:** A table with columns "Customer Name" and "Application Date".
- Hand-off Failure:** A table with columns "Branch", "Process Name", and "Stage Name".
- Priority Details:** A table with columns "Branch", "Process Name", and "Stage Name".
- High Value Transactions:** A bubble chart showing transaction values on the y-axis (ranging from -20K to 140K) and a category on the x-axis (ranging from -2 to 12). A legend indicates "GBP".
- SLA Breach Details:** A table with columns "Customer Name", "SLA Breached(mins)", and "Priority".
- Priority Summary:** A table with columns "Branch", "Process Name", and "Stage Name".
- Hold Transactions:** A table with columns "Branch", "Process Name", and "Stage Name".
- SLA Status:** A widget showing "Cucumber Testing".
- Tasks Detailed:** A widget showing "Cucumber Testing".

3. Click Trade Finance> Tasks> Free Tasks.

The Data Enrichment stage has five sections as follows:

- Main Details
- Claim Details
- Document Details
- Additional Fields

- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following fields as part of Guarantee/SBLC claim update - Data Enrichment Stage. Some of the fields that are already having value from registration/ online channels may not be editable.

In case of requests received through SWIFT MT765, the task will be created in DE stage directly and the fields will be populated based on the incoming request.

3.3.1 Main Details

Main details section has three sub section as follows:

- Application Details
- Guarantee Details

3.3.1.1 Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [3.2.1 Application Details](#) in the Registration stage for more information of the fields.

The screenshot displays the Oracle application interface for a Guarantee/SBLC claim update. The top navigation bar includes the Oracle logo, user information (ZART subhani@gm), and the current date (Aug 3, 2023). The breadcrumb trail shows the path: Home > (DEFAULTTENTITY) > FLEXCUBE UNIVERSAL BAN... > Aug 3, 2023 > ZART subhani@gm. The main content area is titled 'Application Details - Main' and is divided into two sections: 'Application Details - Main' and 'Guarantee Details'. The 'Application Details - Main' section includes fields for Guarantee/SBLC Number (032GUAD232141002), Branch (032-032-Oracle Banking Trade F...), Claim Update Date (Aug 3, 2023), Version (1), Guarantee Advised by Us (radio button), Process Reference Number (032GADC000167139), Beneficiary Reference Number, User Reference Number (032GUAD232141002), Claim Serial Number (2), Priority (Medium), Issuing Bank (MASHREQ BAN), Beneficiary ID/Name (032204 Air Arabia), Submission Mode (Desk), and Issuing Bank Reference Number. The 'Guarantee Details' section includes fields for Guarantee Type (BILL), 30 Date of Issue (Aug 2, 2023), Purpose of Message (ADVI), 23B Expiry Type (OPEN), 31E Date of Expiry (Aug 2, 2026), Claim Date (Aug 3, 2023), Outstanding Currency/ Amount (AED 80,000.00), 40C Applicable Rules (OTHR - Others), Applicant Bank, 50 Applicant (Emaar Properties), 59A Beneficiary (032204 Air Arabia), Advising Bank, Advise Through Bank, Counter Guarantee Issuing Bank, Local Guarantee Issuing Bank, and Accountee. The bottom of the screen features a toolbar with buttons for 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', and 'Back'.

3.3.1.2 Guarantee Details

The fields listed under this section are same as the fields listed under the [3.2.2 Guarantee Details](#) section in [3.2 Registration](#). Refer to [3.2.2 Guarantee Details](#) for more information of the fields.

3.3.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	<p>Clicking this button allows the user should to view the undertaking details.</p>	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>Cancel the Guarantee/ SBLC Advised - Claim update DE stage inputs.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.2 Claim Details

As part of DE, the bank user can update the various claim fields under guarantee advised. The user can also be able to input the transaction details.

The user can scrutinize the claim update request and input data as required.

Provide the Claim details based on the description in the following table:

Field	Description	Sample Values
Claiming Bank	Read only field. The Claiming Party from whom the claim under the Bank Guarantee issued is received while lodging the Guarantee Claim.	
Claiming Bank Name & Address	Read only field. Displays the claiming bank details.	
Claiming Bank Reference	Read only field. This field displays the claiming bank reference number.	
Date of Demand	Read Only field. System defaults value from Guarantee /SBLC Advise claim.	
Demand Indicator	Read Only field. System defaults value from Guarantee /SBLC claim.	
Demand Type	Read Only field. System defaults value from Guarantee /SBLC Advise claim.	
Claim Currency/ Amount	Read Only field. System defaults currency for claim and the claim amount from Guarantee /SBLC claim.	

Field	Description	Sample Values
New Expiry Date	<p>System defaults value from Guarantee /SBLC Advise claim.</p> <p>If the applicant has accepted the extension in expiry date, then the new expiry date should be updated in the Guarantee Amend module in OBTF. Any additional commission for the extension to be calculated from the Amendment module..</p>

Intermediary	<p>Read Only field.</p> <p>System defaults value from Guarantee /SBLC Advise claim.</p>	
Account with Institution	<p>Read Only field.</p> <p>System defaults value from Guarantee /SBLC Advise claim.</p>	
File Identification	<p>Read Only field.</p> <p>System defaults value from Guarantee /SBLC claim.</p>	
Sender to Receiver Information	<p>Read Only field.</p> <p>System defaults value from Guarantee /SBLC claim.</p>	

3.3.2.1 Claim Update Details

Provide the Claim Update details based on the description in the following table:

Field	Description	Sample Values
Guarantor Response	<p>The user can select the guarantor response.</p> <p>This values are:</p> <ul style="list-style-type: none"> • Accept Extension • Reject Extension • Invalid Claim 	
Status	<p>Read Only field.</p> <p>System with default status based on the user acceptance or rejection of the extension request.</p> <p>If the applicant has accepted the extension, the status of the claim update should be Extension – Accepted and handoff from OBTFPM should be provided to the Guarantee Amendment function id in OBTF.</p> <p>If the applicant has rejected the extension, the status of the claim update should be Extension – Rejected and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF.</p> <p>If the applicant has provided the legal injunction, the status of the claim update should be Injunction and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF.</p> <p>If the bank has found discrepancy in the claim, user selects Invalid Claim. The status should be Rejected and handoff from OBTFPM should be provided to the Guarantee Claim Update function id in OBTF.</p>	
Legal Injunction	<p>User can update the claim status if there is any legal injunction in processing the claim.</p> <p>Toggle On: If Legal injunction toggle is set to 'Yes' all other subsequent fields will be ready only. User cannot update any other field.</p>	
Reason for Refusal	<p>User can enter the reason for refusal.</p> <p>This field appears if you select Reject Claim option in Guarantor Response field.</p>	
Disposal of Documents	<p>User can enter the mode in which the documents have to be disposed in case of rejection of claim.</p>	
Sender to Receiver Information	<p>Specify the details of sender to receiver Information.</p>	

3.3.2.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	

Field	Description	Sample Values
View Undertaking	Clicking this button allows the user should to view the undertaking details.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.3 Document Details

In Document Details, the user can to view the Documents required for a claim and verify if the Claim Documents are submitted as per documents required. The user, can scrutinize the claim request and input data as required.

The user can capture documents as part of claim under Guarantee/SBLC Advised - DE Stage.

If documents to be submitted were provided in the Guarantee Advised they will be defaulted, else the user can capture the documents submitted under the claim in this section.

Provide the Document details based on the description in the following table:

Field	Description	Sample Values
Code	User can enter the document code.	
Document Description	System defaults the document name based on the document code.	
Copy	Copy of the document.	

Field	Description	Sample Values
Original	Original claim document.	
Documents Received	System displays whether original document is received or not.	
Action	Click Edit icon to edit the document details. Click Delete icon to delete the document details.	

3.3.3.1 Additional Conditions

Field	Description	Sample Values
FFT Code	FFT code is auto-populated,	
FFT Description	System defaults the FFT description based on the FFT code.	
Action	Click Edit icon to edit the FFT details. Click Delete icon to delete the FFT details.	

3.3.3.2 Action Buttons

Use action buttons based on the description in the following table:

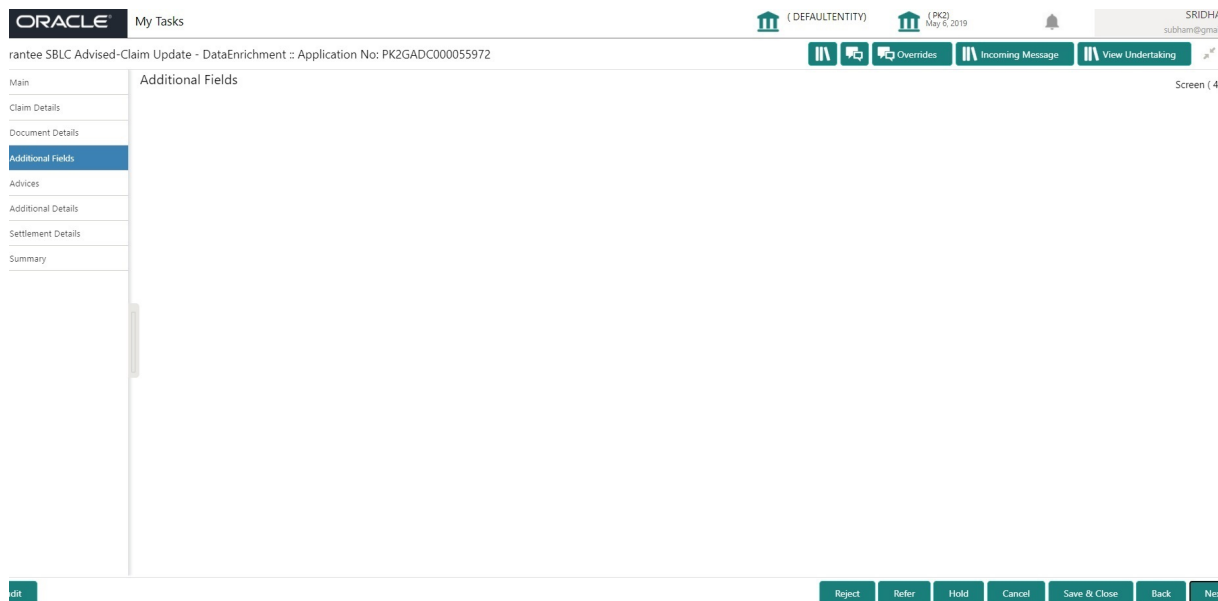

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	<p>Clicking this button allows the user should to view the undertaking details.</p>	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.4 Additional Fields

3.3.4.1 This stage displays the additional fields based on the User defined fields maintained in the system.

3.3.4.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
View Undertaking	<p>Clicking this button allows the user should to view the undertaking details.</p>	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>

Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.6 Additional Details

As a part of Additional details section, Guarantee /Standby claim may have impact on Charges.

If any of the fields in the financial section of the pop up screen is checked then the limits and collaterals screen will be enabled.

The screenshot shows the Oracle Financials interface. At the top, there's a navigation bar with the Oracle logo and user information: (DEFAULTTENITY), Oracle Banking Trade Finan, May 24, 2021, and OBTFFP subham@gmail. Below this is a header with 'rantee SBLC Advised-Claim Update' and 'Enrichment :: Application No:- PK2GADC000025330'. A menu bar contains 'Classification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Common Group Messages', 'Incoming Message', and 'View Undertaking'. A 'Signatures' button is also present. The main area is titled 'Additional Details' and contains four panels: 'Limit & Collateral', 'Tracer Details', 'Charge Details', and 'Preview Message'. The 'Limit & Collateral' panel shows fields for Contribution Currency, Contribution Amount, Limit Status, Collateral Currency, Collateral, Contribution, and Collateral Status. The 'Tracer Details' panel shows Tracer Code, Required, Medium, and Frequency. The 'Charge Details' panel shows Charge, Commission, Tax, and Block Status. The 'Preview Message' panel shows Language and Preview Message. Below these panels is an 'FX Linkage' section with fields for FX Reference Number, Contract Currency, and Linked Amount. At the bottom, there's a 'dit' button and a row of action buttons: 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'. The screen number 'Screen (6,' is visible in the top right corner.

3.3.6.1 Commission, Charges and Taxes Details

Click on **Default Charges** button to the default commission, charges and tax if any, will get populated.

If default charges are available under the product, they should be defaulted here with values. If customer or customer group specific charges are maintained, then the same will be defaulted from back end system.

The screenshot shows the Oracle Financials interface for 'Commission Details' and 'Charge Details'. The 'Commission Details' section has 'Recalculate' and 'Redefault' buttons. It shows fields for 'ent' and 'ent Description'. Below is a table with columns: Component, Rate, Mod. Rate, Currency, Amount, Modified, Defer, Waive, Charge Party, Settl. Acct, and Amendable. The table is empty with the text 'No data to display.' and a pagination bar showing 'Page 1 of 1 (0 of 0 items)'. The 'Charge Details' section has a table with columns: Component, Tag currency, Tag Amount, Currency, Amount, Modified, Billing, Defer, Waive, Charge Party, and Settlement Account. The table contains one row: Component: LCGCLM, Tag currency: AED, Tag Amount: 89000, Currency: GBP, Amount: £50.00, Billing: , Defer: , Waive: , Charge Party: Air Arabia, Settlement Account: 0322040001. Below the table is a pagination bar showing 'Page 1 of 1 (1 of 1 items)'. The 'Tax Details' section has a table with columns: Component, Type, Value Date, Ccy, Amount, Billing, Defer, and Settl. Acct. The table is empty with the text 'No data to display.' At the bottom right, there are 'Save & Close' and 'Close' buttons.

User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	<p>On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Tasks' for working later.</p> <p>This option will not submit the request</p>	
Back	<p>On clicking Back, system should move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.7 Settlement Details

The screenshot displays the Oracle Settlement Details interface. At the top, there's a navigation bar with 'ORACLE' logo and user information. Below it, a breadcrumb trail shows 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Incoming Message', 'View Undertaking', and 'Signatures'. The main content area is titled 'Settlement Details' and includes a 'Current Event' checkbox. A table lists settlement components with columns for Component, Currency, Debit/Credit, Account, Account Description, Account Currency, Netting Indicator, and Current Event. Below the table are sections for 'CLAIM_CUST_AMT - Party Details' (Transfer Type, Charge Details, Netting Indicator, Ordering Customer, etc.), 'Payment Details' (Sender To Receiver 1-6), and 'Remittance Information' (Payment Detail 1-4). A bottom navigation bar contains buttons like 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	System populates the components based on the product selected.	
Currency	System displays the currency for the component.	
Debit/Credit	System defaults the debit/credit indicators for the components	
Account	System defaults the value based on the product selected.	
Account Description	System displays the account description for the account chosen.	
Account Currency	System displays the account currency for all items based on account number	
Netting Indicator	System displays the netting indicator applicable.	
Current Event	System displays the current event as Y or N.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

3.3.7.1 Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none"> • Customer Transfer • Bank Transfer for own account • Direct Debit Advice • Managers Check • Customer Transfer with Cover • Bank Transfer 	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none"> • Beneficiary All Charges • Remitter Our Charges • Remitter All Charges 	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none"> • Yes • No 	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

3.3.7.2 Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	

Field	Description	Sample Values
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

3.3.7.3 Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

3.3.7.4 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to view the remarks captured as part of Registration stage and also can input Remarks, which can be seen by other users.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. 3.3.8 Summary

User can review the summary screen for Guarantee SBLC Advised Claim update request.

In this section the user can see the summary tiles. The tiles must display a list of important fields with values. The tiles where fields have been amended is highlighted in different color, User must be also able to drill down from summary tiles into respective data segments.

The screenshot shows the Oracle Flexcube Universal Banking interface. The top navigation bar includes 'Clarification Details', 'Documents', 'Remarks', 'Overrides', 'Customer Instruction', 'Incoming Message', 'View Undertaking', and 'Signatures'. The main content area is titled 'Summary' and contains a grid of 12 summary tiles. The tiles are: Main, Claim Details, Document Details, Advices, Commission, Charges and taxes, Preview Messages, Settlement Details, Party Details, Tracer Details, Compliance, and Accounting Details. Each tile displays key data points such as Booking Date, Demand Type, Document 1, Advice 1, Charge, Commission, Tax, Block Status, Language, Preview Message, Component, Account Number, Currency, Beneficiary, Issuing Bank, Applicant, Tracer Code, Required, Medium, Frequency, KYC, Sanctions, AML, Event, Account Number, Branch, Reference Number, Linkage Amount, and Contract Currency.

Tiles Displayed in Summary

- Main Details - User can view the application details and Guarantee/ Standby details. User can modify the details if required.
- Claim Details - User can view the claim details.
- Documents Details - User can view the Document details.
- Advices - User can view the advices details.

User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>Clicking this button allows the user should be able to see the message in case of STP of incoming MT 767.</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	

Field	Description	Sample Values
View Undertaking	Clicking this button allows the user should to view the undertaking details.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Reject	<p>On click of Reject, user must select a reject reason from a list displayed by the system and the task may be terminated or moved to Reject Approval Stage.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a reject description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>	
Cancel	On click of Cancel the user can cancel the task window and return to the dashboard. The data input will not be saved.	

Field	Description	Sample Values
Save & Close	Save the information provided and holds the task in 'My Tasks' for working later. This option will not submit the request	
Back	On clicking Back, system should move the task to the previous segment.	

3.4 Multi Level Approval

This stage allows the approver user to approve a Guarantee SBLC Advised - Claim Update transaction.

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

3.4.1 Re-Key Authorization

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Claim Amount
-
- Currency
-

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.
