1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Import LC Cancellation process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Import LC Cancellation

Import LC Cancellation process enables the user to cancel an active import LC.

An active Import LC can be cancelled if further documents are not expected/required under a LC. In such scenarios this process is to be initiated.

Scenario 1 - Cancellation where part or full value of the LC is outstanding and further drawings can be booked.

Example: Original LC value USD 1, 00,000 and Outstanding LC value USD 1, 00,000

Scenario 2 - Cancellation where no more drawings are possible.

Example: Original LC value USD 1, 00,000 and Outstanding LC value USD 100

In the following sections, let's look at the details for Import LC Cancellation process.

This section contains the following topics:

[3.1 Common Initiation Stage](#)

[3.2 Registration](#)

[3.3 Data Enrichment](#)

[3.4 Multi Level Approval](#)

[3.5 Import LC Cancellation Acknowledgement Format](#)

[3.6 Import LC Cancellation Rejection Format](#)

3.1 Common Initiation Stage

The user can initiate the new Import LC Cancellation request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot displays the Oracle OBTFPM application interface. On the left is a dark navigation menu with 'Initiate Task' highlighted in red. The main content area is titled 'Initiate Task' and 'Registration'. It features three input fields: 'Process Name' (set to 'Import LC Cancellation'), 'LC Reference Number *' (with value 'PK25GLC19081AIWN' and a search icon), and 'Branch *' (set to 'PK2-FLEXCUBE UNIVERSAL BANK'). At the bottom right of the form are 'Proceed' and 'Clear' buttons. The top right corner shows the user's name 'JEEV' and email 'subham@gmail.com', along with a session timer '(PK2) Mar 22, 2019'.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

3.2 Registration

The user can register a request for an Import LC cancellation, received at the front desk (as an application received physically/received by mail/fax).

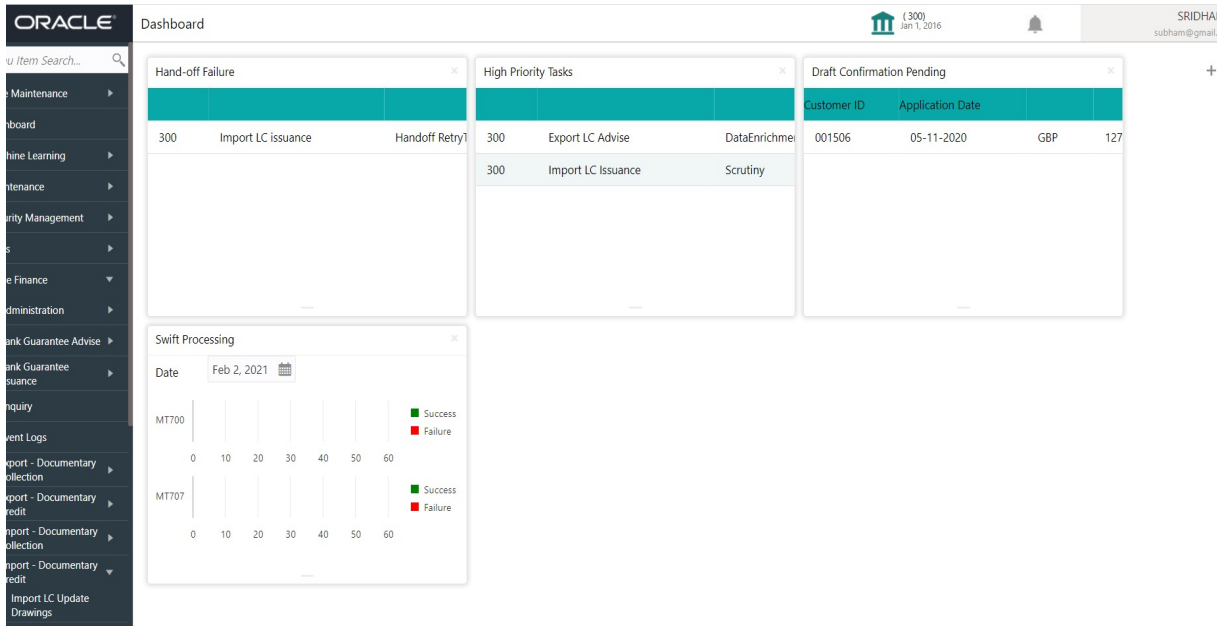

During Registration, the user captures the basic details of the application, check the signature of the applicant and upload related documents. On submit of the request, the customer should be notified with acknowledgement and the request should be available for an LC expert to handle in the next stage:

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

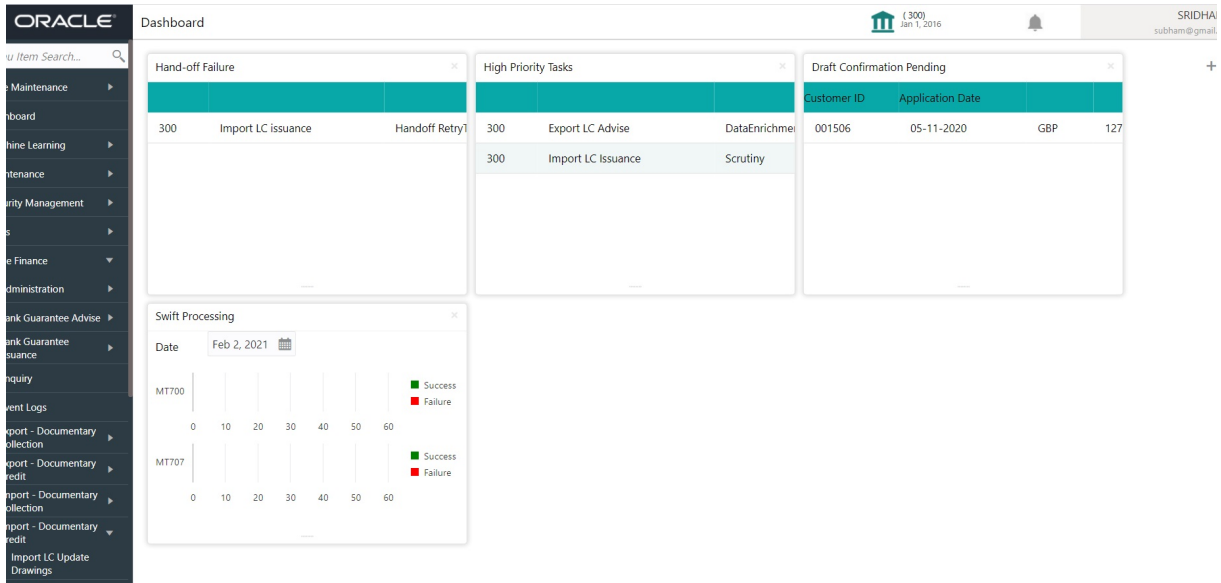

The screenshot shows a login interface for FuTura Bank. The header includes the bank's logo and name. The main heading is 'Sign In'. Below this, there are two required input fields: 'User Name *' containing the text 'SRIDHAR' and 'Password *' which is masked with dots. At the bottom of the form, there are two buttons: a prominent green 'Sign In' button and a smaller white 'Cancel' button.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click **Trade Finance > Import - Documentary Credit > Import LC Cancellation**.

The Registration stage has two sections Application Details, LC Details and Sender To Receiver. Let's look at the details of Registration screens below:

3.2.1 Application Details

Provide the Application Details based on the description in the following table:

Field	Description	Sample Values
Documentary Credit Number	<p>Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV.</p> <p>In LOV search/advanced LOV search, user can input Customer ID, Applicant, Currency, Amount and User Reference Number.</p> <p>System will display all the LC's outstanding against the given Applicant-Beneficiary combination. User can select the particular LC that can be canceled.</p> <p style="text-align: center;">Note:</p> <p style="text-align: center;">System should not display the Documentary Credit for whom Drawings has been listed either on OBTFPM or in Back Office system.</p>	
Received From Applicant Bank	<p>Read only field.</p> <p>System displays the value available in LC.</p>	001344

Field	Description	Sample Values
Received From - Customer ID	Read only field. Customer ID will be auto-populated based on the value available in LC.	001344
Received From - Customer Name	Read only field. System will default the name of the customer as available in LC.	EMR & CO
Branch	Read only field. System should display the LC issuance branch from LC details.	203-Bank Futura -Branch FZ1
Amendment No	Read only field. Amendment number sequence for this Letter of credit will be auto-populated. The amendment sequence number is simulated from the back-end system. The System to default based on the logic < Last Amendment Number +1>.	
Process Reference Number	Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.	
Priority	Priority attached to the transaction. System will default the Priority as Low/Medium/High based on maintenance. User is allowed to change the value.	High
Submission Mode	Select the submission mode of Import LC Cancellation request. By default the submission mode will have the value as 'Desk'. Desk- Request received through Desk Fax- Request received through Fax Email- Request received through Email Courier- Request received through Courier	Desk
Cancellation Date	Read only field. By default, the application will display branch's current date.	04/13/2018
Customer Reference Number	Specify a unique customer reference number.	
User Reference Number	Read only field. User Reference Number will be auto populated by the system based on selected LC.	

Field	Description	Sample Values
Beneficiary Consent	<p>Toggle On: Set the Toggle On, if cancellation requires beneficiary's consent.</p> <p>Toggle Off: Set the Toggle Off, if cancellation does not requires beneficiary's consent. In this case, an override message will be populated. "Beneficiary Consent flag Turned OFF".</p> <p>Beneficiary Consent flag should be turned ON, if the cancellation is for full or part of the LC remaining value where further drawings are expected under the LC.</p>	

3.2.2 LC Details

Details in this screen displays the data from the LC issued. All fields displayed in LC details section are **read only** fields.

The screenshot shows the 'LC Details' screen with the following fields and values:

- LC Type:** Sight
- Product Code:** ILSR
- Product Description:** Import LC Sight - Revolving advance Per
- 40A - Form of Documentary Credit:** IRREVOCABLE
- 31C - Date of Issue:** May 5, 2021
- 40E - Applicable Rules:** UCP LATEST VERSION
- 31D - Place Of Expiry:** LONDON
- 51A - Applicant Bank:** (Empty)
- Applicant:** 001044 GOODCARE PLC
- 39A - Percentage Credit Amount Tolerance:** /
- 32B - Currency Code, Amount:** GBP £100,000.00
- Amount In Local Currency:** GBP £100,000.00
- Accountee:** (Empty)
- 39C - Additional Amount Covered:** (Empty)
- Beneficiary:** PK2WALKIN1
- Standing LC Value:** £100,000.00
- Sender To Receiver Information-707:** D2RECM707
- 72Z Sender to Receiver Information-747:** CANC

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
Revolving	<p>Read only field.</p> <p>The value used for 'Revolving' as per the latest LC details.</p>	
LC Type	<p>Read only field.</p> <p>LC type will be populated based on the latest LC details.</p>	
Product Code	<p>Read only field.</p> <p>The product code used during Issuance.</p>	
Product Description	<p>Read only field.</p> <p>The description of the product as in Import LC Issuance.</p>	
Advising Bank	<p>Read only field.</p> <p>The advising bank details as per the latest LC.</p>	

Field	Description	Sample Values
40A - Form of Documentary Credit	Read only field. The form of documentary credit value as available in LC record	
31C - Date of Issue	Read only field. The date on which the LC is issued.	
40E- Applicable Rules	Read only field. The applicable rule is as per the latest LC details.	
Date Of Expiry	Read only field. The expiry date is as per the latest LC details.	09/30/18
Place of Expiry	Read only field. The place of expiry is as per the latest LC details.	
Applicant Bank	Read only field. The Applicant Bank, if available as per the latest LC details.

Verify Signature	<p>System will display the details of Authorized signatories. The pop up box will display the signature id, signature title and image of the signature for verification</p>	

On Submit, acknowledgement is issued to the customer through customer's preferred media. A simple acknowledgment will be sent in case the user has entered only the Application details. If the user has captured additional information in LC Details data segment also, a detailed acknowledgment will be sent.

In case of request received through online channels, system would send the acknowledgment automatically on receipt of the request.

3.2.5 Document Linkage

The user can link an existing uploaded document in any of the process stages.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

1. Navigate to the Registration screen.

2. On the header of **Registration** screen, click **Documents** button. The Document pop-up screen appears.

3. Click the Add Additional Documents button/ link. The **Document** screen appears.

Field	Description	Sample Values
Document Type	Select the Document type from list. Indicates the document type from metadata.	
Document Code	Select the Document Code from list. Indicates the document Code from metadata.	

Field	Description	Sample Values
Document Title	Specify the document title.	
Document Description	Specify the document description.	
Remarks	Specify the remarks.	
Document Expiry Date	Select the document expiry date.	
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.	

4. Select the document to be uploaded or linked and click the **Link Document** link. The link Document pop up appears.
The value selected in Document Type and Document code of Document screen are defaulted in the Link Document Search screen.

3.3 Data Enrichment

On successful completion of Registration of an Import LC Cancellation task, the task moves to Data Enrichment stage. At this stage the gathered information during Registration are verified.

Non-Online Channel - Import LC Amendment request that were received at the desk will move to DE stage post successful Registration. The requests will have the details entered during the Registration stage.

Online Channel - Requests that are received via online channels like trade portal, external system and SWIFT are available directly for further processing from DE stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated.

Note

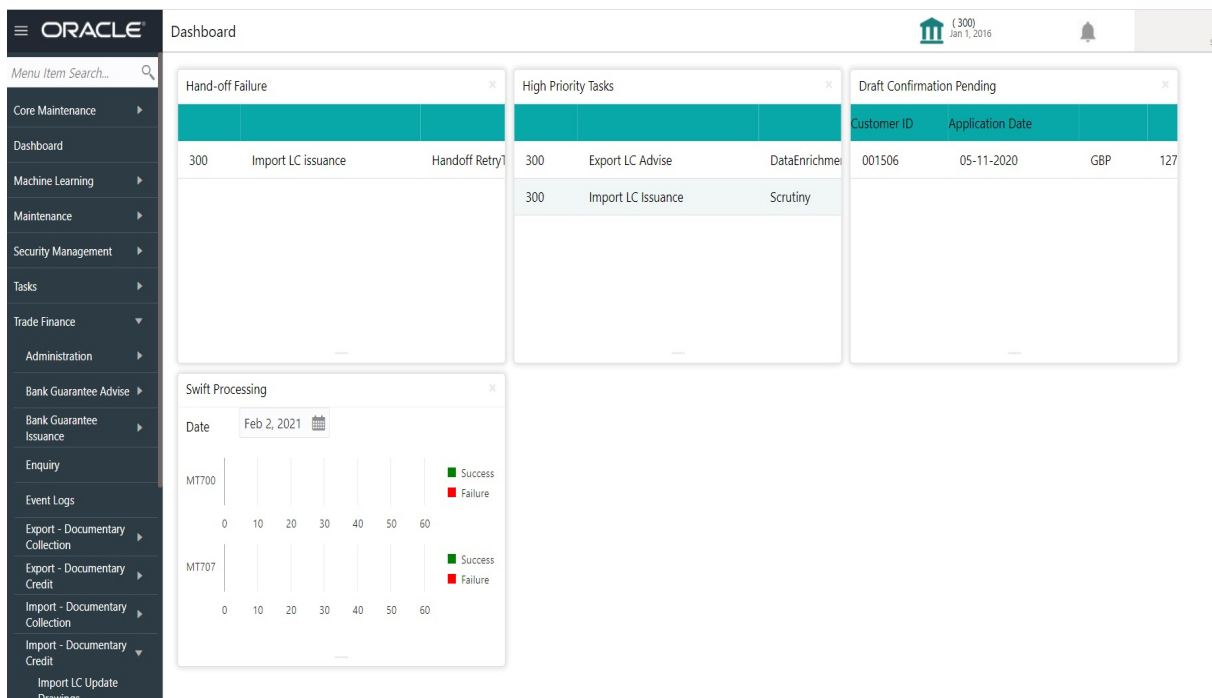

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task currently at Data Enrichment stage:

- Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance > Tasks > Free Tasks.

Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the previous stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Cancel	<p>Cancel the task window and return to dashboard. The data entered will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.2 Additional Fields

Banks can configure these additional fields during implementation. Data Enrichment user can verify the additional fields implemented by the bank. Any user defined fields maintained at the bank level will be available in this Additional field details.

3.3.2.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	Click to view the incoming messages.	
View LC	Clicking on View LC button enables user to view the details of the LC.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	On click the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the previous stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Cancel	<p>Cancel the task window and return to dashboard. The data entered will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Task' for working later.</p> <p>This option will not submit the request.</p>	
Back	<p>Click Back to move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.3 Advices

This section defaults the advices maintained for the product based on the advices maintained at the Product level. The user can view the advices generated during Import LC

Cancellation request. Some of the possible advices could be of cancellation, payment message, etc.

The screenshot shows the Oracle Financials 'Advices' screen. The main header includes 'ORACLE My Tasks', a date 'Mar 22, 2019', and a user profile 'JEEV subham@gmail.com'. The page title is 'Port LC Cancellation - DataEnrichment :: Application No: PK2ILCC000044955'. A navigation bar contains buttons for 'Clarification Details', 'Overrides', and 'View LC'. On the left, a sidebar lists 'Main Details', 'Additional Fields', 'Advices', 'Additional Details', 'Settlement Details', and 'Summary'. The 'Advices' section is active, displaying a card for 'Advice : LC_AMND_INSTR'. The card details are: 'Advice Name : LC_AMND_INSTR', 'Advice Party : ABK', 'Party Name : HSBC Bank', 'Suppress : NO', and 'Advice'. At the bottom, a row of buttons includes 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

The user can also suppress the Advice, if required.

The screenshot shows the 'Advice Details' form. It includes a 'Suppress Advice' toggle switch. The form fields are: 'Advice Name' (LC_AMND_INSTR), 'Medium' (SWIFT), 'Advice Party' (ABK), 'Party ID' (J06218), and 'Party Name' (HSBC Bank). Below the form is an 'FFT Code' section with a table:

Select	FFT Code	FFT Description
<input type="checkbox"/>	INSTRUCTION3	
<input type="checkbox"/>	SND2RECINFO	

At the bottom, there are 'OK' and 'Cancel' buttons.

Field	Description	Sample Values
Suppress Advice	Toggle on: Switch on the toggle if advice is suppressed. Toggle off: Switch off the toggle if suppress advice is not required for the amendments	
Advice Name	User can select the instruction code as a part of free text.	
Medium	The medium of advices is defaulted from the system. User can update if required.	
Advice Party	Value be defaulted from import LC. User can update if required.	

Field	Description	Sample Values
Party ID	Value be defaulted from import LC. User can update if required.	
Party Name	Read only field. Value be defaulted from import LC.	
Free Format Text		
FFT Code	User can select the FFT code as a part of free text.	
FFT Description	FFT description is populated based on the FFT code selected.	
	Click plus icon to add new FFT code.	
	Click minus icon to remove any existing FFT code.	
Instruction Details		
Instruction Code	User can select the instruction code as a part of free text.	
Instruction Description	Instruction description is populated based on the FFT code selected.	
	Click plus icon to add new instruction code.	
	Click minus icon to remove any existing instruction code.	

3.3.3.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	Click to view the incoming messages.	
View LC	Clicking on View LC button enables user to view the details of the LC.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>

```

At the bottom right of the preview area, there are 'Save & Close' and 'Cancel' buttons.

Field	Description	Sample Values
Preview SWIFT Message		
Language	Read only field. English is set as default language for the preview.	
Message Type	Select the message type.	
Message Status	Read only field. This field displays the message status of draft message of cancellation details.	
Repair Reason	Read only field. This field displays the message repair reason of draft message of cancellation details.	
Preview Message	Display a preview of the draft message.	
Preview Mail Device		
Language	Read only field. English is set as default language for the preview.	
Advice Type	Select the advice type.	
Message Status	Read only field. This field displays the message status of draft message of cancellation details.	
Repair Reason	Read only field. This field displays the message repair reason of draft message of cancellation details.	

Field	Description	Sample Values
Preview Message	Display a preview of the draft message.	

3.3.5.1 FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate

Provide the FX linkage detail based on the description in the following table.

FX Reference Number	Bought Currency	SOLD Currency	Available Contract Amount	Rate	Linked Amount	Total Utilized Amount	FX Expiry Date	Action
132FXF2230890501	GBP	AED	AED 149,873,698.50	1.5	AED 27,000.00	AED 2,100.00	Dec 30, 2025

User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Cancel	<p>Cancel the task window and return to dashboard. The data entered will not be saved.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Task' for working later.</p> <p>This option will not submit the request.</p>	
Back	<p>Click Back to move the task to the previous segment.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.6 Settlement Details

System should simulate the settlement details from back office and display the same in this screen. The user can view the settlement details during Import LC Cancellation request.

Following fields are displayed in the Settlement Details section.

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	System displays the the current event as Y or N.	

3.3.6.1 Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: <ul style="list-style-type: none">• Customer Transfer• Bank Transfer for own account• Direct Debit Advice• Managers Check• Customer Transfer with Cover• Bank Transfer	
Charge Details	Select the charge details for the transactions: <ul style="list-style-type: none">• Beneficiary All Charges• Remitter Our Charges• Remitter All Charges	
Netting Indicator	Select the netting indicator for the component: <ul style="list-style-type: none">• Yes• No	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimbursement Institution	Select the intermediary reimbursement institution from the LOV.	

3.3.6.2 Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	

Field	Description	Sample Values
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

3.3.6.3 Remittance Information

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

3.3.6.4 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Request Clarification	On click of the Request Clarification button the user can request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instructions	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	Click to view the incoming messages.	
View LC	Clicking on View LC button enables user to view the details of the LC.	
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	

Field	Description	Sample Values
Refer	<p>On click of Refer, user will be able to refer the task back to the previous stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others.
