1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Import LC Drawing Islamic process in Oracle Banking Trade Finance Process Management.

1.2 **Audience**

This manual is intended for the following User/User Roles:

- **Oracle Implementers**
- Customer Service Representatives (CSRs)
- Oracle user

1.3 **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/ lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

Organization 1.4

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 **Related Documents**

- Getting Started User Guide
- Common Core User Guide

1.6 **Diversity and Inclusion**

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 <u>Screenshot Disclaimer</u>

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
×	Exit
+	Add row
_	Delete row
Q	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Import LC Drawing Islamic

Under an import LC, the beneficiary of the LC after exporting the goods under LC submits the documents under the LC to the nominated bank. The nominated bank scrutinizes/negotiates and forwards the document to the Issuing bank. Issuing bank will lodge the same under import LC Drawing of Islamic process in OBTFPM.

The various stages involved for Islamic Import LC Drawing are:

- Receive and verify documents
- Input Import Drawing details
- Upload of related mandatory and non-mandatory documents.
- Verif/capture details and check documents for Discrepancies-Scrutiny Stage
- Input/Modify details of Import Drawing Data Enrichment stage
- Check for limit availability if applicable.
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The Islamic Import LC Drawing process flow is similar to that of conventional Import LC Drawing process flow.

This section contains the following topics:

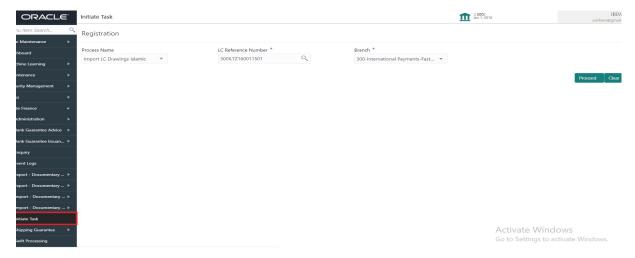

3.1 Common Initiation Stage	3.2 Registration
3.3 Scrutiny	3.4 Data Enrichment
3.5 Exceptions	3.6 Multi Level Approval
3.7 Reject Approval	

3.1 <u>Common Initiation Stage</u>

The user can initiate the new import LC drawing request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.

2. Click Trade Finance > Initiate Task.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
LC Reference Number	Select the LC Reference Number.
Branch	Select the branch.

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

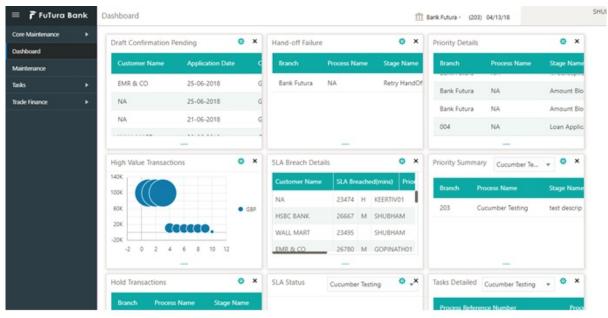

3.2 Registration

User can register a request for an Islamic Import LC Drawing at the front desk. During registration the user captures the basic details of the drawing and upload related documents. On submit of the request, the request should be available for an LC Drawing expert to handle in the next stage.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

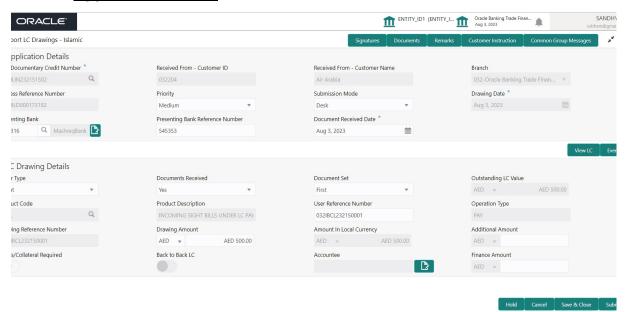

3. Click Trade Finance - Islamic > Import - Documentary Credit> Import LC Drawings Islamic.

The Registration stage has two sections Basic Details and LC Details. Let's look at the details of Registration screens below:

3.2.1 Application Details

Provide the Basic Details based on the description in the following table:

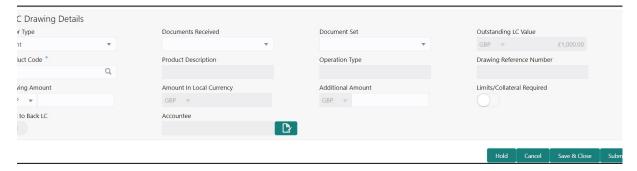

Field	Description	Sample Values
Documentary Credit Number	Provide the documentary credit number. Alternatively, user can search the documentary credit number using LOV.	
	In the LOV, user can input DCN Reference Number, Counter Party, Currency, Amount and User Reference to fetch the LC details. Based on the search result, select the applicable LC for drawing	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Related Reference Number (Tag 21) to the Documentary Credit Number field.	
Received From - Cus-	Read only field.	001344
tomer ID	Received from Customer ID will be auto populated based on contract detail as available in back office.	
Received From - Cus-	Read only field.	EMR & CO
tomer Name	Customer Name will be auto-populated based on the selected LC from the LOV.	
Branch	Read only field.	203-Bank
	Branch details will be auto-populated based on the selected LC from the LOV.	Futura -Branch FZ1
Process Reference Num-	Read only field.	
ber	Unique sequence number for the transaction.	
	This is auto generated by the system based on process name and branch code.	
Priority	System will populate the priority of the customer based on priority maintenance. If priority is not maintained for the customer, system will populate 'Medium' as the default priority.	High
	User can change the priority populated any time before submit.	
Submission Mode	Select the submission mode of Import LC Drawing request. By default the submission mode will have the value as 'Desk'.	Desk
	Desk- Request received through Desk	
	Courier- Request received through Courier	
	SWIFT - Non STP - Request received through SWIFT - Non STP	
Drawing Date	By default, the application will display branch's current date and does not enables the user to change the date to any back date.	04/13/2018

Field	Description	Sample Values
Presenting Bank	Select the Presenting Bank.	
	Click the look up icon to search the presenting bank based on Party ID/Party Name. You can also input the party ID and on tab out system will validate and populate the 'Presenting Bank' name.	
	Note	
	In case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available, Only MT999 messages can be sent to the bank".	
	Note	
	If the Presenting Bank and the Presenting Bank Reference is already available for another Drawing under the same LC, system displays an error message, "Drawing (Drawing Ref) already Exists with same Presenting Bank Reference Ref no. Please use Update Process and Mark the Documents as Duplicate".	
	Note	
	If the KYC non-compliant party is selected then the system immediately gives instant alert as "Customer ID - (CIF ID) is not KYC compliant."	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Presenting bank (Tag 2) in Message Header) to this field.	
Presenting Bank Reference Number	User can enter the reference number provided by the presenting bank.	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Senders Reference (Tag 20) to this field.	

Field	Description	Sample Values
Document Received Date	By default, the application will display branch's current date and enables the user to change the date to any back date.	
	Note	
	Future date selection is not allowed.	

3.2.2 LC Drawing Details

Registration user can provide drawing details in this section. Alternately, drawing details can be provided by Scrutiny user.

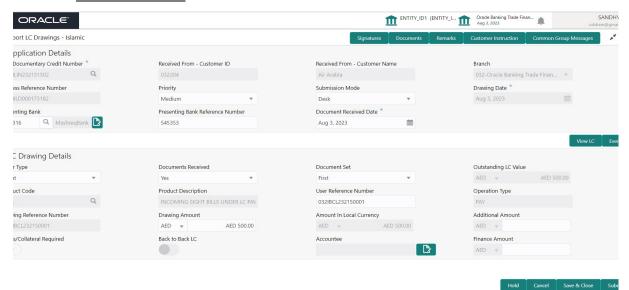

Provide the drawing LC Details based on the description in the following table:

Field	Description	Sample Values
Tenor Type	Select the Tenor Type from the LOV:	
	Sight	
	Usance	
	Multi Tenor	
Documents Received	Set the document received status as 'Yes' or 'No' from the LOV.	
Document Set	Enables to user to select the number of sets of documents received from the LOV:	
	First	
	Second	
	Both	
Outstanding LC Value	Read only field.	
	This field displays the value as per the LC.	
Product Code	Select the product code for the drawing.	
Product Description	Read only field.	
	This field displays the description of the product as per the product code.	

	I	l
Field	Description	Sample Values
User Reference Number	System defaults the user reference number based on the product code.	
	The user can change the user reference number.	
Operation Type	Read only field.	
	Operation Type will be auto-populated based on the selected LC.	
Drawing Reference Number	This is auto generated by the back end system.	
Drawing Amount	Provide the drawing amount under the LC for which documents have been submitted.	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Principle Amount (Tag 32B) to Drawing Amount field.	
Amount In Local Currency	Read only field. The amount in the Local Currency is displayed.	
Additional Amount	This field enables user to provide any additional amount to be processed under this LC drawing.	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Additional Amount(Tag 33B) to this field.	
Limits/ Collateral Required	Toggle On: Set the toggle 'On' to enable limit check.	
	Toggle Off: Set the toggle 'Off' to disable limit check.	
Back to Back LC	Flag to check if the Import LC is a back to back LC. Toggle On: Set the Toggle On if back to back LC is applicable. Toggle Off: Set the Toggle Off if back to back LC	
	is applicable.	
Accountee	Read only field. This field displays the operation type based on the selected LC.	
Finance Amount	Specify the value for finance amount.	

3.2.3 Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signatures	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
Documents	Upload the documents received under the LC.	
Customer Instruction	Click to view/ input the following	
	 Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. 	
	 Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
	All fields displayed in LC details section are read only fields.	

Field	Description	Sample Values
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from LC Issuance.	
Action Buttons		
Submit	On submit, task will get moved to next logical stage of Import LC Drawing.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Drawing Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.	

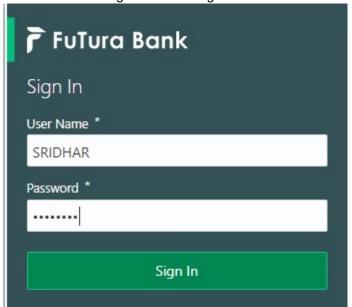

3.3 **Scrutiny**

On successful completion of Registration of an Import LC Drawing request, the request moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized for Islamic Import LC Drawing.

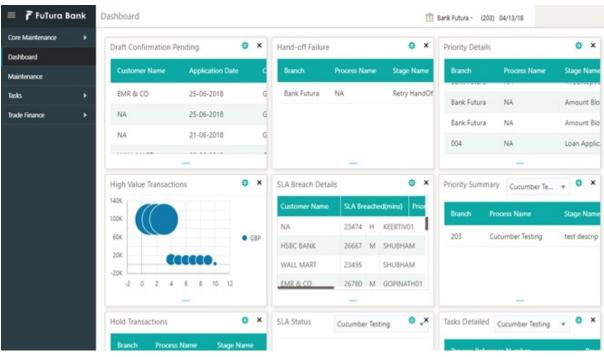

As part of scrutiny, the User will enter/update basic details of the Islamic LC Drawing request, check documents for discrepancies and can verify if the request can be progressed further.

Do the following steps to acquire a task currently at Scrutiny stage:

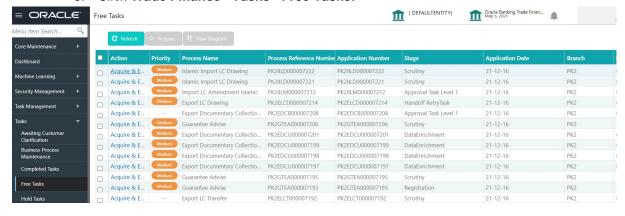

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

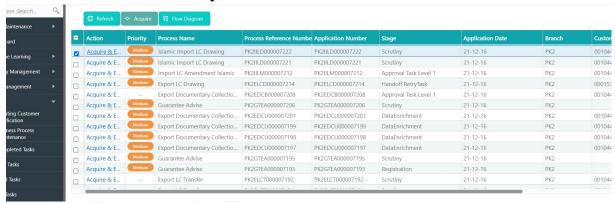

On login, user must be able to view the dashboard screen with widgets as mapped to the user.

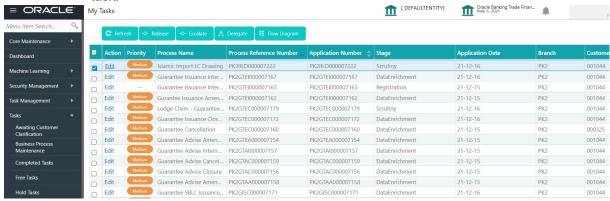

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.

The acquired task will be available in My Tasks tab. Click Edit to scrutinize the registered task.

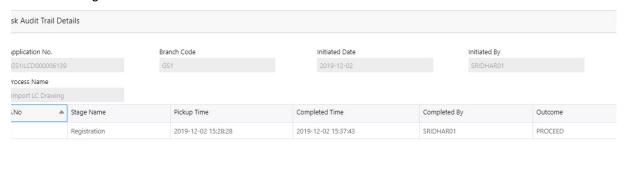

The Scrutiny stage has the following hops for data capture:

- Main Details
- Document Details
- Other Details
- Shipment Details
- Additional Conditions
- Additional Fields
- Discrepancy Details
- Maturity Details
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

Audit - This button provides information about user initiated the transaction, initiated date, stage wise detail etc.

Close

Refer to 3.2.2 LC Drawing Details for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

Following fields can be amended based on the description in the following table:

Field	Description	Sample Values
Tenor Type	This field defaults the details are already captured in Registration stage, user can update the same.	
	Select the Tenor Type from the drop down:	
	Sight	
	Usance	
	Mixed	
Documents Received	Set the document received status as 'Yes' or 'No' from the drop down.	
	In case of MT 750, the value in the Documents Received should be No .	
Document Set	Enables to user to select the number of sets of documents received from the LOV:	
	First	
	Second	
	Both	
Drawing Reference Number	This is auto generated by the back end system.	
Drawing Amount	This field defaults the value that is already captured in Registration stage, user can update the same.	
	Provide the amount to be drawn in this drawing.	
	If the incoming message is MT 750, system should extract the MT750 message tag values and map Principle Amount (Tag 32B) to Drawing Amount field.	
Additional Amount	This field enables user to provide any additional amount to be processed under the LC drawing.	
	In case of MT 750, system will populate the amount from the incoming message.	

Field	Description	Sample Values
Limits/ Collateral Required	Toggle On: Set the toggle 'On' to enable limit check.	
	Toggle Off: Set the toggle 'Off' to disable limit check.	

3.3.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
	The user can view and input/view application details simultaneously.	
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.	
	Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following	
	 Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	

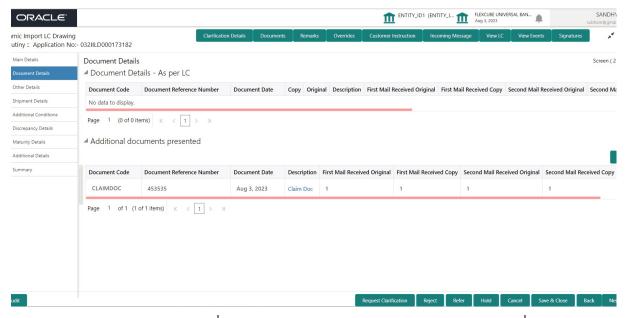

Field	Description	Sample Values
Incoming Message	Click Incoming Message to view the MT750 message should be displayed.	
	Message will be displayed only for SWIFT Channel.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	
Signature	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.	
	Reject Codes: R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.2 <u>Document Details</u>

User can enter/ update Documents and conditions details for Import LC Drawing. User can verify the documents received and identify discrepancies, if any.

User can compare the document received with the required documents and identify the discrepancies, if any. Provide the information based on the description in the following table:

Field Description Sample Values

Document Details - As per LC

This table will fetches the document details as maintained in the underlying LC(LCDTRONL). User can modify the details only which are fetched from underlying LC.

User can not add or delete any document details.

Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing.

Document Code	Document code is auto-populated from the latest LC.	
Document Reference Number	Specify the reference number available in the documents.	

Field	Description	Sample Values
Document Date	Displays the document date.	
	The user can change the date.	
	Note	
	If "Document date" is more than "Shipment Date" system displays an override alert.	
Сору	Number of duplicate copies of documents as required in LC.	
Original	Number of documents in original as required in LC.	
Description	Displays the description of the document required as per LC.	
	Click the link to view the description of the document.	
First Mail Received Original	The number of originals of documents received from first mail.	
First Mail Received Copy	The number of duplicate copies of documents received from first mail.	
Second Mail Received Original	The number of originals of documents received from second mail.	
Second Mail Received Copy	The number of duplicate copies of documents received from second mail.	
Document Clause	Displays the document clause of the documents.	
	Click the link to view the description of the document clause.	
Received Description	Defaults the description of the documents received from presenting bank. The user can edit the description.	
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
	This field is enabled if Discrepant option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

Field	Description	Sample Values
Action	Edit: Click edit to edit the document code	

Additional documents presented

This table fetches document details as maintained for the specific bill drawing product (BCD-PRMNT). Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also.

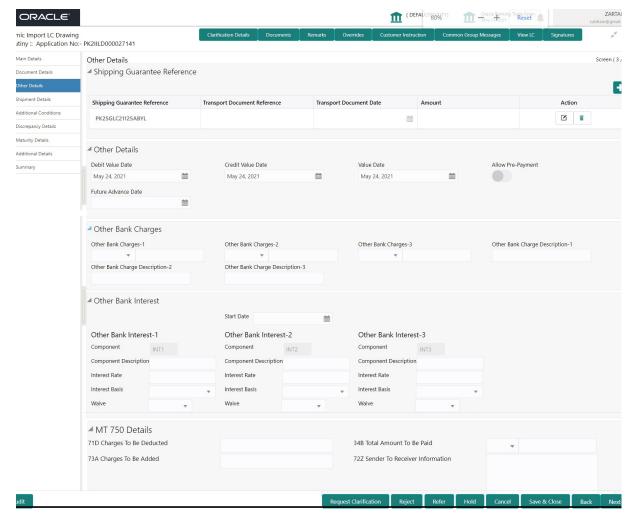

The user can click + to add multiple document details.

Document Code	Click Search to search and select the document code for the additional documents presented.	
	User can add or delete the code by deleting the line on the grid.	
	Note	
	The User is not allowed to add any document code which is already existing in any of the two tables.	
Document Reference Number	Enables to user to provide the reference number of the documents linked.	
Document Date	Provide the document date of the additional documents.	
	Note	
	If "Document date" is more than "Shipment Date" system displays an override alert.	
Description	Displays the description of the additional documents based on the document code selected.	
	Click the link to view the description of the document.	
Сору	Number of duplicate copies of documents as required. User can edit the actual copies received.	
Original	Number of documents in original as required. User can edit the actual originals received.	
Description	Displays the description of the document required as per LC.	
First Mail Received Original	Provide the number of originals of documents received from first mail.	

Field	Description	Sample Values
First Mail Received Copy	Provide the number of duplicate copies of documents received from first mail.	
Second Mail Received Original	Provide the number of originals of documents received from second mail.	
Second Mail Received Copy	Provide the number of duplicate copies of documents received from second mail.	
Action	Edit: Click edit to edit the document code	
	Delete: Click Delete to delete the document code.	
	Note	
	The User can not be able to delete any document detail fetched from previous operation.	

3.3.3 Other Details

User can provide the shipping guarantee reference, other details and other bank charges.

Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes:	
	Refer Codes: R1- Documents missing	
	R2- Signature Missing	
	R3- Input Error	
	 R4- Insufficient Balance/Limits 	
	R5 - Others.	
Save & Close	Save the information provided and holds the task	
	in you queue for working later. This option will not submit the request.	
Cancel	Cancel the Import LC Drawing Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.	
	Reject Codes:	
	 R1- Documents missing 	
	R2- Signature Missing	
	R3- Input Error R4- Inputficient Belonce / Limits	
	R4- Insufficient Balance/LimitsR5 - Others.	
	Select a Reject code and give a Reject Description.	
	This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.5 Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC for Islamic Import LC Drawing.

3.3.5.1 Additional Conditions

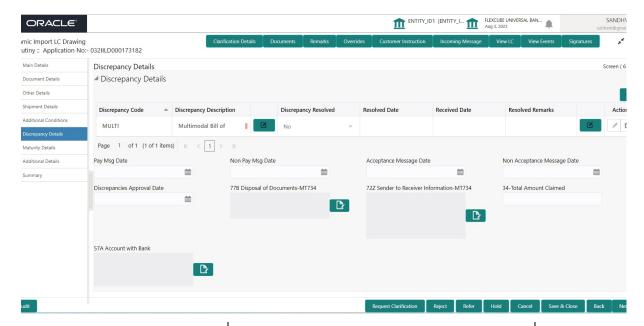

This section displays the list of additional conditions as per LC. Provide the Additional Conditions details as per the description in the following table:

Field	Description	Sample Values		
The user can click + to add multiple Additional Conditions.				
FFT Code	System defaults the FFT code as per the latest LC. The user can change the FFT Code.			
FFT Description	This field displays the description of the FFT code as per the latest LC.			
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.			
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.			
Discrepancy Description	Description will be displayed based on the discrepancy code.			

Field	Description	Sample Values
Action	Edit: Click edit to edit the additional condition.	
	Delete: Click Delete icon to delete the additional condition details.	

3.3.6 <u>Discrepancy Details</u>

This section displays the list of discrepancies captured for Islamic Import LC Drawing. User can add/update/review the discrepancies identified in the section.

Field	Description	Sample Values	
The user can click + to add	The user can click + to add multiple discrepancy details.		
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.		
Discrepancy Description	Description will be displayed based on the discrepancy code.		
Discrepancy Resolved	Read only field.		
	Discrepancy resolved is auto-populated based on the Discrepancy Code.		
Resolved Date	Read only field.		
	The date when discrepancy is resolved.		
Received Date	Specify the discrepancy received date.		
Resolved Remarks	Read only field.		
	The remarks for discrepancy resolution.		

Field	Description	Sample Values
Action	Edit: Click edit to edit the discrepancy details.	
	Delete: Click Delete to delete the discrepancy details.	
Pay Msg Date	Specify the pay message date.	
Non Pay Msg Date	Specify the non pay message date.	
Acceptance Message Date	Specify the acceptance message date.	
Non Acceptance Message Date	Specify the non acceptance message date.	
Discrepancies Approval Date	Specify the date of discrepancies approval.

	Enables user to capture the reimbursement date. If reimbursement date is later than the branch date, system will display an error.	
Liquidate using Collateral	Read only field.	
Settlement Details - Liquida	tion	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays debit/ credit for the component.	
Account	Customer account.	
Account Description	Description of the account.	
Branch	Branch of the customer's account.	
Account Currency	Currency of the account.	

3.3.7.10 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
	The user can view and input/view application details simultaneously.	
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.	
	Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following	
	Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.	
	 Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	Click Incoming Message to view the MT750 message should be displayed.	
	Message will be displayed only for SWIFT Channel.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	

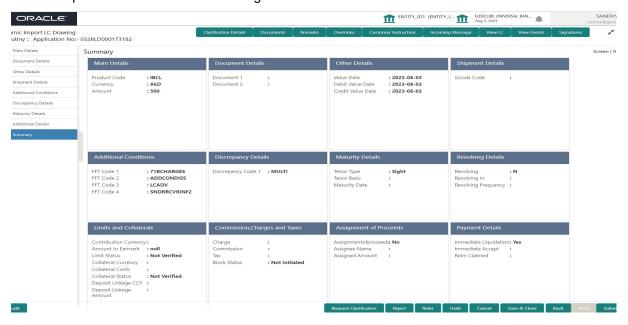

Field	Description	Sample Values
Signature	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.8 Summary

User can review the summary of details captured under Islamic Import LC Drawing stage.

The tiles must display a list of important fields with values. User can drill down the tile and view the details provided in the various data segments.

Tiles Displayed in Summary

- Main Details User can view the application details and LC details.
- Document Details User can view the document details.
- Other Details User can view other details. Shipment Details User can view the shipment details.
- Shipment Details User can view the shipment details
- Additional Conditions User can view additional conditions of the drawing.
- Discrepancy Details User can view the discrepancy noted for the current LC drawing.
- Maturity Details User can view the maturity details.
- Revolving Details User can view revolving details on revolving LC.
- Limits and Collaterals User can view limits and collateral details.
- Commission, Charges and Taxes User can view the charge details.
- Assignment of Proceeds User can view the assignment of proceeds details.
- FX Linkage User can view the details of FX Linkage.
- Payment Details User can view the payment details.

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents.	
	Application will display the mandatory and optional documents.	
	The user can view and input/view application details simultaneously.	
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.	
	Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following	
	 Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. 	
	Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.	
Incoming Message	Click Incoming Message to view the MT750 message should be displayed.	
	Message will be displayed only for SWIFT Channel.	
View LC	Enables the user to view the latest LC values displayed in the respective fields.	
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	

Field	Description	Sample Values
Signature	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Submit	Task will get moved to next logical stage of Import LC Drawing.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Refer	User must select a Refer Reason from the values displayed by the system.	
	Refer Codes:	
	R1- Documents missing	
	R2- Signature Missing	
	R3- Input ErrorR4- Insufficient Balance/Limits	
	R4- Insufficient Balance/Limits R5 - Others.	
Save & Close	Save the information provided and holds the task in you queue for working later.	
	This option will not submit the request	
Cancel	Cancel the Scrutiny stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
	appropriate remarks must be provided.	

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.	
	Reject Codes:	
	R1- Documents missing	
	 R2- Signature Missing 	
	R3- Input Error	
	 R4- Insufficient Balance/Limits 	
	R5 - Others.	
	Select a Reject code and give a Reject Description.	
	This reject reason will be available in the remarks window throughout the process.	

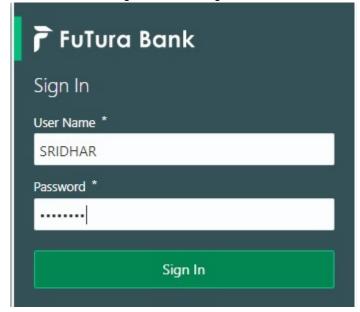

3.4 Data Enrichment

Note

The Data Enrichment stage has five sections as follows:

- Main Details
- Document Details
- Shipment Details
- Additional Conditions
- Discrepancy Details
- Maturity Details
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

3.4.1 Main Details

Refer to 3.3.1 Main Details.

3.4.2 Document Details

Refer to 3.3.2 Document Details.

3.4.3 Other Details

Refer to 3.3.3 Other Details.

3.4.4 Shipment Details

Refer to 3.3.3 Other Details.

3.4.5 Additional Conditions

Refer to 3.3.5 Additional Conditions.

3.4.6 **Discrepancy Details**

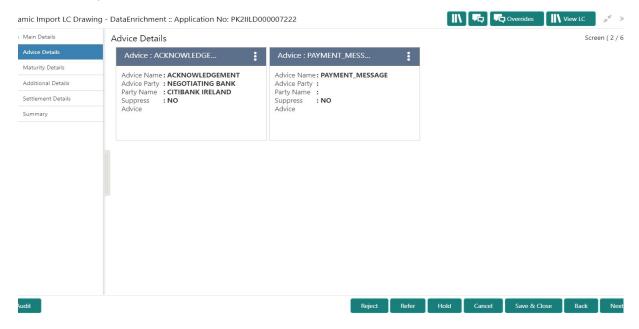

Refer to 3.3.6 Discrepancy Details.

3.4.7 <u>Maturity Details</u>

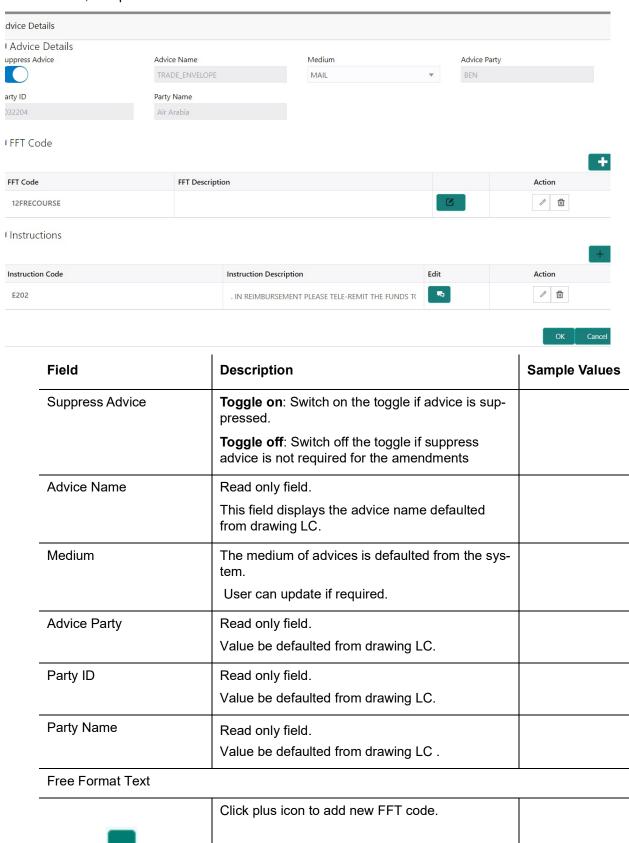

Refer to 3.3.7 Maturity Details.

3.4.8 Advices

A DE user can verify the advices details Data Segment of the Islamic Import LC Drawing request.

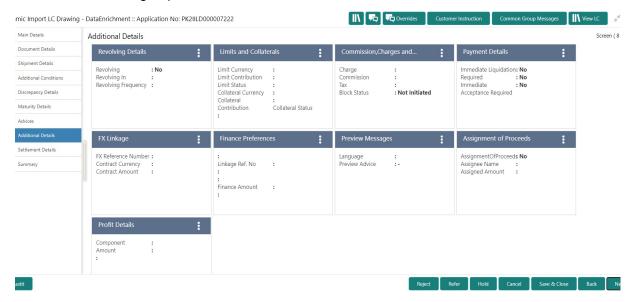

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

Field	Description	Sample Values
FTT Code	User can select the FFT code as a part of free text.	
FFT Description	FFT description is populated based on the FFT code selected.	
D	Click edit icon to edit any existing FFT code.	
Action	Click Edit icon to edit the FFT details.	
	Click Delete icon to delete the FFT details.	
Instruction Details		
+	Click plus icon to add new instruction code.	
Instruction Code	User can select the instruction code as a part of free text.	
Instruction Description	Instruction description is populated based on the Instruction code selected.	
D)	Click edit icon to edit any existing Instruction code.	
Action	Click Edit icon to edit the instruction details.	
	Click Delete icon to delete the instruction details.	

3.4.9 Additional Details

A DE user can verify and enter the basic additional details Data Segment of the Islamic Import LC Drawing request.

3.4.9.1 Revolving Details

Refer to 3.3.7.3 Revolving Details.

3.4.9.2 Limits & Collateral

Refer to 3.3.7.4 Limits & Collateral.

3.4.9.3 Charge Details

Refer to Deposit Linkage Details.

3.4.9.4 Payment Details

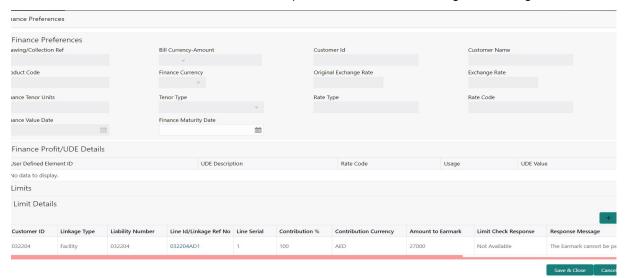

Refer to 3.4.9.4 Payment Details

3.4.9.5 FX Linkage

Refer to 3.4.9.12 Profit Details

3.4.9.6 Finance Preference

This section enables the user to request for a loan to liquidate the drawing under the LC. This section will be enabled based on the product selected for booking the drawing under the LC.

Provide the loan preference details based on the description in the following table:

Field	Description	Sample Values
Drawing/Collection Ref	Read only field.	
	This field displays the loan product linked to the drawing product.	
Bill Currency-Amount	Read only field.	
	Outstanding Drawing/ Collection Currency and Amount. Defaults from the underlying task. User cannot change the value.	
Customer ID	Read only field.	
	This field displays the customer ID of the applicant/applicant bank.	
Customer Name	Read only field.	
	This field displays the applicant/applicant bank name.	
Product Code	Defaults from the underlying Collection/ Drawing Product maintenance. User cannot change the value.	
Finance Currency	Finance currency is defaulted from the bill currency.	
	Note	
	Loan currency allowed either in contract currency or in local currency.

Settlement Currency	This field displays the settlement account currency.	
Settlement Branch	This field displays the settlement account branch.	

3.4.9.11 Tracer Details

User can trace te response for the discrepancies identified.

Payment Tracer

Provide the payment tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Select the option, whether the tracer details to be captured or not.	
	The options are:	
	Required	
	Not Required	
	Till Resolved	
Tracers to be sent	Provide the number of tracers to be sent.	
Tracer Medium	Select the tracer medium from the LOV:	
	Mail	
	Swift	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	
Tracer Receiver Party	Click Search to search and select the tracers receiver party from the lookup.	
Tracer Next Date	Capture the tracer next date.	

Acceptance Tracer

Provide the acceptance tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Select the option, whether the tracer details to be captured or not.	
	The options are:	
	Required	
	Not Required	
	Till Resolved	
Tracers to be sent	Provide the number of tracers to be sent.	
Tracer Medium	Select the tracer medium from the LOV:	
	Mail	
	Swift	

Field	Description	Sample Values
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Receiver Party	Click Search to search and select the tracers receiver party from the lookup.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	
Tracer Next Date	Capture the tracer next date.	

Discrepancy Tracer

Provide the discrepancy tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Select the option, whether the tracer details to be captured or not.	
	The options are:	
	Required	
	Not Required	
	Till Resolved	
Tracers to be sent	Provide the number of tracers to be sent.	
Tracer Medium	Select the tracer medium from the LOV:	
	Mail	
	Swift	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Receiver Party	Click Search to search and select the tracers receiver party from the lookup.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	
Tracer Next Date	Capture the tracer next date.	
Discrepancies Approval Date	Provide the discrepancies approval date.	

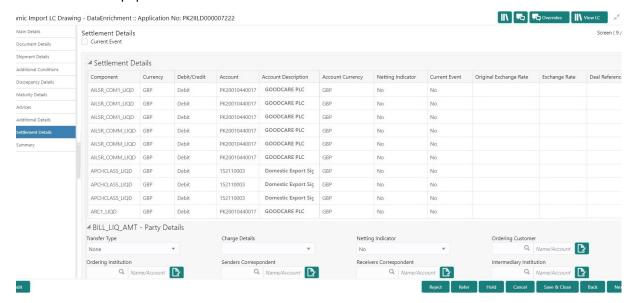

3.4.9.12 Profit Details

Refer to 3.4.9.12 Profit Details.

3.4.10 Settlement Details

As part of DE, the user will verify and enter the basic additional details available in the Islamic Import LC drawing. In case the request is received through online channel user will verify the details populated.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	System defaults the current event as Y or N.	

Field	Description	Sample Values
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

3.4.10.1 Party Details

Provide the party details based on the description in the following table:

Field	Description	Sample Values
Transfer Type	Select the transfer type from the drop list: Customer Transfer Bank Transfer for own account Direct Debit Advice Managers Check Customer Transfer with Cover Bank Transfer	
Charge Details	Select the charge details for the transactions: Beneficiary All Charges Remitter Our Charges Remitter All Charges	
Netting Indicator	Select the netting indicator for the component: • Yes • No	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimburse- ment Institution	Select the intermediary reimbursement institution from the LOV.	

3.4.10.2 Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.

3.5 **Exceptions**

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

The amount Block Earmark and Limit Earmarks, if applicable are also initiated after the Data Enrichment stage.

If a negative response is received for any of the checks, the task lands in respective exceptional queue which require further manual handling/approval.

3.5.1 <u>Exception - Amount Block</u>

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account
