1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Import LC Issuance - Islamic process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Import LC Issuance Islamic

The design, development and functionality of the Islamic Import LC Issuance process flow is similar to that of conventional Import LC issuance process flow.

In the following sections, let's look at the details for Import LC Issuance Islamic process.

This section contains the following topics:

3.1 Common Initiation Stage	3.2 Registration
3.3 Scrutiny	3.4 Data Enrichment
3.5 Customer Response - Draft Confirmation	3.6 Exceptions
3.7 Multi Level Approval	3.8 Customer - Acknowledgement
3.9 Customer - Reject Advice	3.10 Reject Approval

3.1 Common Initiation Stage

The user can initiate the new shipping guarantee request from the common Initiate Task screen.

- Using the entitled login credentials, login to the OBTFPM application.
- Click **Trade Finance > Initiate Task**.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Customer Id	Select the customer id of the applicant or applicant's bank.
Branch	Select the branch.

3.1.0.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.

Field	Description
Clear	The user can clear the contents update and can input values again.

3.2 Registration

The user initiates the transaction from Registration Stage, if the LC Issuance request is received from the Applicant at the branch counters either by fax, mail or physical application.

During Registration stage, register request for an Islamic Import LC received at the front desk (as an application received physically/received by mail/fax). During registration, the user captures the basic details of the application, check the signature of the applicant and upload related documents. On submit of the request, the customer should be notified with acknowledgement and the request should be available for an LC expert to handle in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

The screenshot shows the FuTura Bank dashboard with a sidebar menu on the left containing options like Core Maintenance, Dashboard, Maintenance, Tasks, and Trade Finance. The main dashboard area contains several widgets:

- Draft Confirmation Pending:** A table with columns Customer Name, Application Date, and Stage Name. Data rows include EMR & CO (25-06-2018), NA (25-06-2018), and NA (21-06-2018).
- Hand-off Failure:** A table with columns Branch, Process Name, and Stage Name. Data row: Bank Futura, NA, Retry HandOf.
- Priority Details:** A table with columns Branch, Process Name, Stage Name, and Amount Blo. Data rows include Bank Futura, NA, Amount Blo, and 004, NA, Loan Applic.
- High Value Transactions:** A bubble chart showing transaction values for GBP. The y-axis ranges from -20K to 140K, and the x-axis ranges from -2 to 12.
- SLA Breach Details:** A table with columns Customer Name, SLA Breached(mins), and Prio. Data rows include NA (23474, H, KEERTIV01), HSBC BANK (26667, M, SHUBHAM), WALL MART (23495, M, SHUBHAM), and EMR & CO (26780, M, GOPINATH01).
- Priority Summary:** A table with columns Branch, Process Name, Stage Name, and test descrip. Data row: 203, Cucumber Testing, test descrip.
- Hold Transactions:** A table with columns Branch, Process Name, and Stage Name.
- SLA Status:** A table with columns Branch, Process Name, Stage Name, and Cucumber Testing.
- Tasks Detailed:** A table with columns Process Reference Number and Proc.

- Click **Trade Finance - Islamic > Import - Documentary Credit> Import LC Issuance Islamic.**

The screenshot shows the FuTura Bank dashboard with a sidebar menu on the left. The main dashboard area is focused on the 'Import LC Issuance' section. The widgets displayed are:

- Priority Summary:** A table with columns Branch, Process Name, Stage Name, No of High Priority Items, No of Medium Priority Items, and No. Data rows include GS1, Export LC Amendment Beneficiary Consent, Registration, Approval1, and Approval2.
- High Priority Tasks:** A table with columns Branch, Process Name, Stage Name, Process Reference Number, Customer Name, and User ID. Data rows include NA, Scrutiny, 203ILCIS0022468, Marks and Spencer, and OBDX01.
- Pending Exception Approval:** A table with columns Customer Name, Stage Name, Process Reference Number, Process Name, Branch Name, and Currency. Data rows include EMR & CO (KYC Exception Approval, GS1ILCIS0022081, NA, FBN UK, GBP), NESTLE (Amount Block Exception Approval, 203ILCAM0022380, NA, DEMO BANK, GBP), and NESTLE (KYC Exception Approval, 203ILCAM0022380, NA, DEMO BANK, GBP).
- High Value Transactions:** A table with columns Branch, Process Name, Stage Name, and Cucumber Testing.

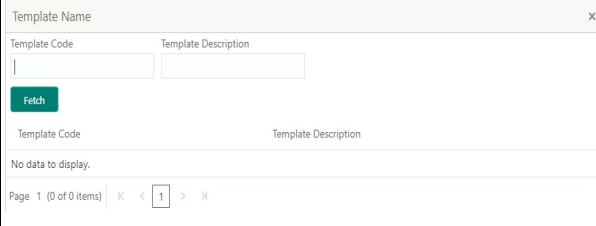

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

3.2.1 Application Details

Provide the Application Details based on the description in the following table. In case of MT798, Application Details are defaulted to SWIFT.

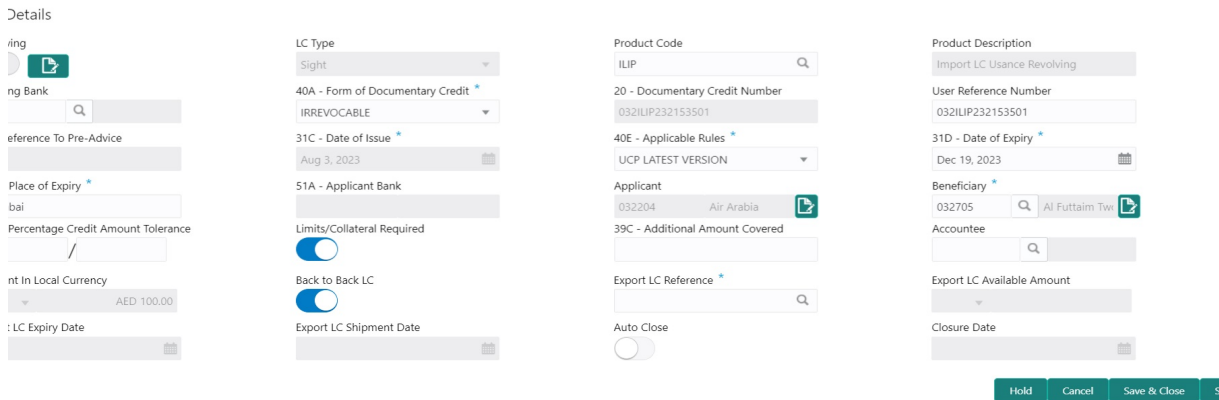

Field	Description	Sample Values
Received From Party	Import LC Issuance request can be received either from the applicant, applicant's bank or accountee. User can select the option from drop-down.	
Received From - Customer ID	Select the customer id of the applicant or applicant's bank. System allows only the customer of the bank for selection. If the selected customer/party is blacklisted the system displays a warning message.	001344
Received From - Customer Name	Name of the customer or applicant. This field will be auto populated based on the selected customer ID.	EMR & CO
Branch	Select the branch. Customer's home branch will be displayed based on the customer ID and it can be changed, if required. Note Once the request is submitted, Branch field is non-editable.	203-Bank Futura -Branch FZ1

Field	Description	Sample Values
Priority	Set the priority of the Import LC issuance request as Low/Medium/High. If priority is not maintained for a customer, 'Medium' priority will be defaulted.	High
Submission Mode	Select the submission mode of Import LC Issuance request. By default the submission mode will have the value as 'Desk'. Desk- Request received through Desk Fax- Request received through Fax Email- Request received through Email Courier- Request received through Courier	Desk
Currency Code, Amount	Select the currency code. Provide the value of LC (with decimal places) as per currency type and tab out.	GBP 1,000.00
Process Reference Number	Unique sequence number for the transaction. Process Reference Number is auto generated by the system based on process name and branch code.	203IL-CISS000000500
Customer Reference Number	Enables the user to provide a unique Customer Reference Number which will be the User Reference of the LC.	
Application Date	By default, the application will display branch's current date and enables the user to change the date to any back date. <hr/> Note Future date selection is not allowed.	04/13/2018
Copy LC	If an existing LC is to be copied, the details of the LC is captured here. Provide the LC number, the system populates the details of the LC. Alternately, the user can search the LC from the LOV.	

Field	Description	Sample Values
Template name	<p>Select a template if the applicant details are already captured and the data can be reused with the template to reduce the effort.</p> <p>Click the look up icon to search the Template code with Template Code or Template Description.</p> 	

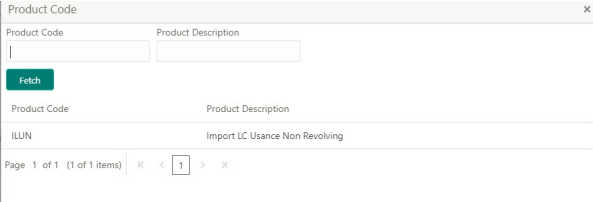

3.2.2 LC Details

Registration user can provide LC details in this section. Alternately, LC details can be provided by Scrutiny user.

Provide the LC Details based on the description in the following table:

Field	Description	Sample Values
Revolving	<p>Toggle On: LC type is Revolving.</p> <p>Toggle Off: LC is type Non Revolving.</p> <p>For more details on Revolving, see 3.2.2.1 Revolving.</p>	
LC Type	<p>Select the applicable LC Type from LOV:</p> <ul style="list-style-type: none"> Sight Usance 	

Field	Description	Sample Values
Product Code	<p>Select the applicable product code.</p> <p>Click the look up icon to search the product code with code or product description.</p>  <p>Alternatively, enter the product code and on tab out system will validate and populate the selected product code.</p>	ILUN
Product Description	Product Description will be auto populated by the application based on the Product Code.	Import LC Usance Non Revolving
Advising Bank	<p>Select the advising bank.</p> <p>Click the look up icon to search the advising bank based on Party ID/Party Name. You can also input the party ID and on tab out system will validate and populate the 'Advising Bank' name.</p> <hr/> <p style="text-align: center;">Note</p> <p>In case the selected Bank is not RMA Compliant, the system prompts the user to use a different advising bank or use non SWIFT Media to transmit the LC and displays error message “RMA arrangement not available, please change the bank or use MAIL Medium”.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the party is blacklisted the system displays a warning message.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	001342 -HSBC Bank
40A - Form of Documentary Credit	Select the type of LC (Documentary Credit) as per the requirement. Default LC type is Irrevocable .	Irrevocable
Documentary Credit Number	Simulated from the back office and displayed in the application. Number will be populated on the selection of Product Code .	203IL-UN18103ACCI

Field	Description	Sample Values
User Reference Number	User Reference Number will be auto populated by the system based on selection of Product Code .	
Reference to Pre-Advice	Provide details of Pre-Advice, if issued by the bank.	
Date Of Issue	Application will default the branch's current date in date of issue. User cannot change the defaulted date. Application will populate the Date of Issue field with branch date on approval if date of approval is later than date of Registration.	04/13/18
Applicable Rules	Select the applicable rules for the LC. Default rule as UCP Latest Version.	UCP Latest Version.
Rule Narrative	Enter the rules narrative. This field is available if the value in 'Applicable Rule' is 'OTHR'	UCP Latest Version.
Date Of Expiry	Provide the expiry date of the LC. The expiry date can be equal or greater than the issue date. If the Expiry Date is earlier than the issue date, system will provide an error and if the 'Expiry Date is equal to the Issue Date', system will provide a alert message.	09/30/18
Place of Expiry	Provide the place of expiry of LC.	London
Applicant Bank	In application details, if Received From Applicant Bank toggle is on, the applicant bank details will be displayed here. If request is not received from applicant bank, this field must be blank.	001343 Bank of America

Field	Description	Sample Values
Applicant	<p>Applicant details will be auto populated based on the details provided in Application Details section.</p> <p>If the request is received from Applicant bank, select the applicant from the List of Values.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the selected applicant/ party is blacklisted the system displays a warning message.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	001344 EMR & CO
Beneficiary	<p>Select the beneficiary of the LC.</p> <p>Click the look up icon to search the beneficiary based on Party ID/Party Name.</p> <p>If beneficiary is not a customer of the bank, then choose WALKIN customer id and provide the beneficiary details. If beneficiary is a customer and KYC status is not valid, then system will display alert message.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the selected Beneficiary/ party i is blacklisted the system displays a warning message.</p> <hr/> <p style="text-align: center;">Note</p> <p>If the KYC non-compliant party is selected then the system immediately gives instant alert as “Customer ID - (CIF ID) is not KYC compliant.”</p>	001346 Marks and Spencer
Percentage Credit Amount Tolerance	<p>Enables the user to provide tolerance (+/-) on the total LC value. Tolerance value must be either one or two digit value.</p> <p>If tolerance is more than 10%, alert message will be displayed.</p>	8/2

Field	Description	Sample Values
Limits/Collateral Required	Toggle On: Set the Toggle On to enable limit check during the process flow of this request. Toggle Off: Set the Toggle Off to disable limit check during the process flow of this request.	
Additional Amount Covered	Provide additional amount included in LC.	
Accountee	User can select the accountee from LOV. <hr/> Note If the KYC non-compliant party is selected then the system immediately gives instant alert as "Customer ID - (CIF ID) is not KYC compliant."	8/2
Amount In Local Currency	After the tab out of 'Currency Code, Amount' field, system populates the Local currency and amount value in this field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places).	
Back to Back LC	Flag to check if the Import LC is a back to back LC. Toggle On: Set the Toggle On if back to back LC is applicable. Toggle Off: Set the Toggle Off if back to back LC is applicable.	
Below Export LC related field appears, if Back to Back LC option is enabled.

Export LC Available Amount	System displays the available amount under the Export LC.	
Export LC Expiry Date	System displays the expiry date of the underlying export LC.	
Export LC Shipment Date	System displays the latest shipment date of the underlying export LC.	
Auto Close	Toggle On: Enable the toggle, if Auto close is required for that transactions. Toggle Off: Disable the toggle, if Auto close is not required for that transactions.	

Field	Description	Sample Values
Closure Date	<p>System default the “Closure Date” with the value “Expiry Date” + No of Closure days maintained in the respective Product in which the contract has been created.</p> <p>System automatically close the contract on the specified “Closure Date” if “Auto Close” is selected as “Yes” for the specific contract.</p> <p>User can modify the system defaulted “Closure Date” and system should validate the same for the below conditions,</p> <ul style="list-style-type: none"> • Closure Date must be after the Issue Date. • Closure Date must be after the Expiry Date. • Closure Date cannot be blank, when the “Auto Close” is checked. 	

3.2.2.1 Revolving

The user can enable the Revolving option for revolving LC. The revolving LC can be time based or value based.

1. Click the **Edit** icon besides the **Revolving** field. The **Revolving Details** screen appears.

Field	Description	Sample Values
Revolving	System displays, if the LC is revolving or not.	
Revolving In	<p>Select the mode of revolving for the LC.</p> <p>The values are:</p> <ul style="list-style-type: none"> • Time • Value 	
Revolving Frequency	<p>Specify the value for the frequency in days and months by which the LC revolves.</p> <p>This field is enabled , if Time option is selected in Revolving In field.</p>	

Field	Description	Sample Values
Revolve Units	Specify the units by which the LC revolves. This field is enabled , if Time option is selected in Revolving In field.	
Next Reinstatement Date	Displays the date of next instatement for the LC based on the revolving frequency selected.	
Cumulative	Enable this option, if the LC value has to be cumulative or not on reinstatement.	
Automatic Reinstatement	Enable this option, to have automatic reinstatement on the reinstatement day without manual intervention.	

3.2.3 Miscellaneous

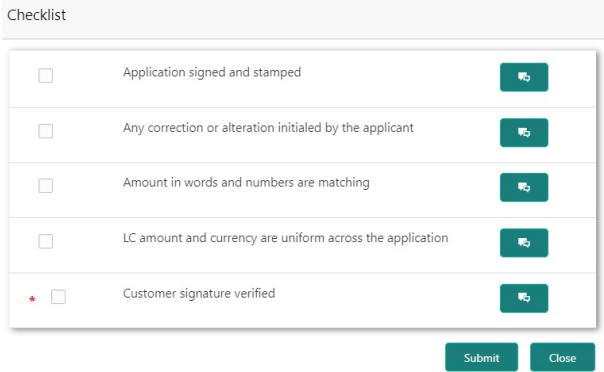

The screenshot displays the Oracle Trade Finance application interface for 'LC Issuance Islamic'. The 'Miscellaneous Details' section is active, showing various fields for customer information, application details, and LC specifications. Key fields include:

- Received From - Customer ID:** 032204
- Received From - Customer Name:** Air Arabia
- Branch:** 032-Oracle Banking Trade Finan...
- Submission Mode:** Desk
- Application Date:** Aug 3, 2023
- LC Type:** Sight
- Product Code:** ILIP
- Product Description:** Import LC Usance Revolving
- 40A - Form of Documentary Credit:** IRREVOCABLE
- 40E - Applicable Rules:** UCP LATEST VERSION
- 31C - Date of Issue:** Aug 3, 2023
- 51A - Applicant Bank:** (Empty)
- Limits/Collateral Required:** (Checked)
- Back to Back LC:** (Checked)
- Export LC Reference:** (Empty)
- Beneficiary:** Al Futtaim Tw

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is available, system should display all the signatures.	

Field	Description	Sample Values
Documents	<p>Upload the required documents.</p> <p>Application displays mandatory documents to be uploaded for Import LC Issuance. Place holders are also available to upload additional documents submitted by the applicant.</p>	
Remarks	<p>Provide any additional information regarding the LC. This information can be viewed by other users processing the request.</p>	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Action Buttons		
Submit	<p>On submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. Task will get moved to next logical stage of Import LC Issuance.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Save & Close	<p>Save the information provided and holds the task in 'My Task' queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancels the Import LC Issuance Registration stage inputs.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	

Field	Description	Sample Values
Checklist	<p>Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.</p> 	

3.2.4 **OBTF-OBTFPM Bi-Directional Flow**

1. In OBTFPM, user clicks on **Request Clarification**, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online". In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder.
2. In case submission mode is not "Online", the system will validate if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
3. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'.
4. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

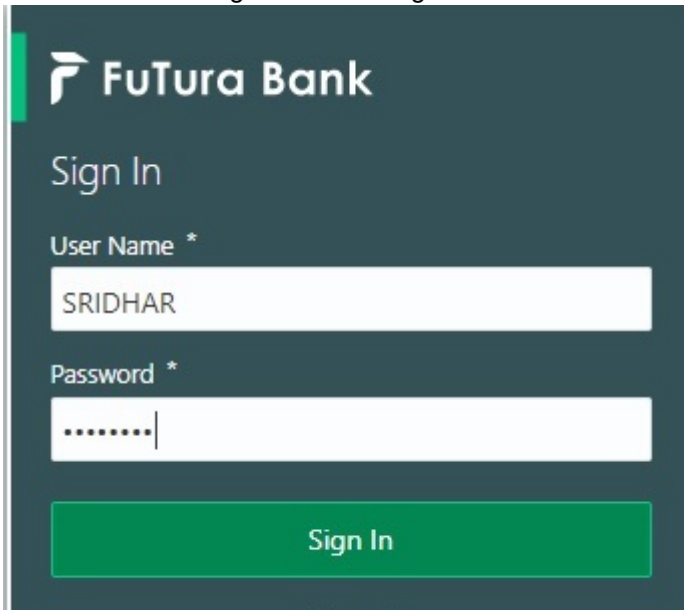

3.3 **Scrutiny**

On successful completion of Registration of an Import LC issuance request, the request moves to Scrutiny stage. At this stage the user can scrutinize the request for Islamic Import LC.

As part of scrutiny, the user can enter/update basic details of the Islamic LC request and can verify if the request can be progressed further.

Online Channel - Requests that are received via online channels like trade portal, external system and SWIFT are available directly for further processing from Scrutiny stage as in conventional process flow. The user verifies the data which gets auto populated for all data segments from Application stage to Data Enrichment stage.

- Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

The Scrutiny stage has five sections as follows:

- Main Details
- Availability
- Payment
- Additional Fields
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User can enter/update the following fields. User cannot edit the fields that are already having value from Registration/online channels.

Audit - This button provides information about user initiated the transaction, initiated date, stage wise detail etc..

Task Audit Trail Details					
Application No.	Branch Code	Initiated Date	Initiated By		
GS1LCI000005978	GS1	2019-11-28	SRIDHAR01		
Process Name					
Import LC Issuance					
S.No	Stage Name	Pickup Time	Completed Time	Completed By	Outcome
1	Registration	2019-11-28 10:50:06	2019-11-28 11:09:56	SRIDHAR01	PROCEED

3.3.1 Main Details

Main details section has two sub section as follows:

- Application Details
- LC Details

3.3.1.1 Application Details

All fields displayed under Application details section are read only except for the **Priority** and **Customer Reference Number**. Refer to [3.2.1 Application Details](#) for more information of the fields.

3.3.1.2 LC Details

The fields listed under this section are same as the fields listed under the [3.2.2 LC Details](#) section in [3.2 Registration](#). Refer to [3.2.2 LC Details](#) for more information of the fields. During Registration, if user has not captured input, then user can capture the details in this section.

3.3.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	<p>Click Common Group Message button, to send MT799 and MT999 messages from within the task.</p>	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>

Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	

Field	Description	Sample Values
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.2 Availability

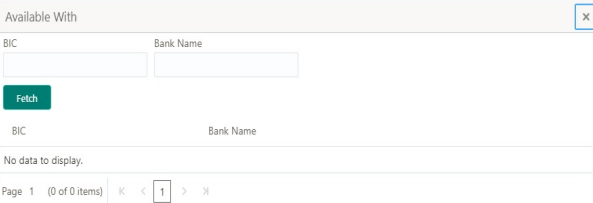

Scrutiny user can scrutinize the Availability and Shipment request for Islamic Import LC. In case the request is received through online channel, the user can verify the details populated.

The screenshot shows the Oracle Banking Trade Finance interface for an Islamic Import LC. The main content area is divided into sections: Availability Details, Shipment Details, and Description of Goods and/or Services. The Availability Details section includes fields for '41a-Available with', '41a-Available By', '42C-Drafts At', and '42a-Drawee'. The Shipment Details section includes fields for '43P-Partial Shipments', '44A-Place of Taking in Charge', '44E-Port of Loading', and '44D-Shipments Period'. The Description of Goods and/or Services section includes a table with columns for Goods Code, Goods Type, Goods Description, No of Units, Price per Unit, Total Amount, and Action.

Goods Code	Goods Type	Goods Description	No of Units	Price per Unit	Total Amount	Action
ROLLNGCHAIR	G	ROLLNGCHAIR	5	£50.00	£250.00	

Provide the Availability Details based on the description in the following table:

Field	Description	Sample Values
Available With	<p>This field identifies the bank with which the credit is available.</p> <p>Online Channel - Read only</p> <p>Non Online Channel - User must capture the bank details or any free text.</p> <ul style="list-style-type: none"> If the LC is restricted to any particular bank,, search the bank with SWIFT code (BIC) or Bank Name. <div style="border: 1px solid #ccc; padding: 5px; margin: 5px 0;"> <p>Available With x</p> <p>BIC <input type="text"/> Bank Name <input type="text"/></p> <p>Fetch</p> <p>BIC <input type="text"/> Bank Name <input type="text"/></p> <p>No data to display.</p> <p>Page 1 (0 of 0 items) < 1 ></p> </div> <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address gets defaulted.</p> <ul style="list-style-type: none"> If the LC is not restricted to any bank, provide free text - (YOURSELVES, WITH ANY BANK etc.). 	

Field	Description	Sample Values
Available By	<p>Online Channel – Read-only</p> <p>Non Online Channel – Choose one of the following values from drop down.</p> <ul style="list-style-type: none"> ● BY ACCEPTANCE ● BY DEF PAYMENT ● BY MIXED PAYMENT ● BY NEGOTIATION ● BY PAYMENT <p>Validation:</p> <p>1) If By Mixed Payment option is selected, there must be a value in tag 42M- Mixed payment</p> <p>2) If By deferred payment is selected, there must be a value in tag 42P- Deferred payment</p> <p>3) If By payment is selected, payment at sight is applicable. It is applicable for Sight Type of product only.</p>	
Drafts At	<p>This field specifies the tenor of drafts to be drawn under the documentary credit.</p> <p>Provide the draft details.</p>	
Drawee	<p>This field will have value only if 'Drafts at' field has values.</p> <p>Select the Drawee bank (Advising bank or Confirming bank).</p> <ul style="list-style-type: none"> ● Search the bank with SWIFT code (BIC) or Bank Name.  <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p> <p style="text-align: center;">Note</p> <p style="text-align: center;">This field is mandatory if value is provided at Drafts At field.</p>	
Tenor	<p>Capture the tenor details. If Available by is Negotiation/Acceptance/Payment and can be modified if required.</p>	

Field	Description	Sample Values
Payment Details	This field is applicable if, Available By filed has Mixed Payment or Deferred Payment .	

3.3.2.1 Shipment Details

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Partial Shipments	<p>This field specifies whether or not partial shipments are allowed under the documentary credit.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Select the appropriate value from the drop down. Available values are:</p> <ul style="list-style-type: none"> • ALLOWED • CONDITIONAL • NOT ALLOWED 	
Transshipment	<p>This field specifies whether or not transshipment is allowed under the documentary credit.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Select the appropriate value from the drop down. Available values are:</p> <ul style="list-style-type: none"> • ALLOWED • CONDITIONAL • NOT ALLOWED 	
Place Of Taking In Charge	<p>This field specifies the place of taking in charge (in case of a multi-modal transport document), the place of receipt (in case of a road, rail or inland waterway transport document or a courier or expedited delivery service document), the place of dispatch or the place of shipment to be indicated on the transport document.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Provide the details of place of taking in charge.</p> <hr/> <p style="text-align: center;">Note</p> <p>This field is alternate to Port Of Loading. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	

Field	Description	Sample Values
Port Of Loading	<p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Provide the details of Port/ Airport of Loading.</p> <hr/> <p style="text-align: center;">Note</p> <p>This field is alternate to Place Of Taking In Charge. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	
Port Of Discharge	<p>This field specifies the port of discharge or airport of destination to be indicated on the transport document.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Provide the details of Port/ Airport of Discharge.</p> <hr/> <p style="text-align: center;">Note</p> <p>This field is alternate to Place Of Final Destination. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	
Place Of Final Destination	<p>This field specifies the final destination or place of delivery to be indicated on the transport document.</p> <p>Online Channel – Read only</p> <p>Non Online Channel - Provide the details of Place Of Final Destination.</p> <hr/> <p style="text-align: center;">Note</p> <p>This field is alternate to Port Of Discharge. Any of these fields must have value and if both the fields has values, application will display an error message.</p>	

Field	Description	Sample Values
Latest Date Of Shipment	<p>Provide the latest date for loading on board/dispatch/taking in charge.</p> <hr/> <p>Note</p> <p>This field is alternate to Shipment Period. Latest date of shipment or shipment period must have value and if both the fields has values, application will display an error message.</p>	
Shipment Period	<p>Online Channel – Read- only</p> <p>Non Online Channel - Provide the details of Shipment.</p> <hr/> <p>Note</p> <p>This field is alternate to Latest Date Of Shipment. Latest date of shipment or shipment period must have value and if both the fields has values, application will display an error message.</p>	
Transport Mode	<p>Select the transportation mode.</p> <p>The options are:</p> <ul style="list-style-type: none"> • Air • Sea • Road • Rail • Multimodal • Other 	
Transport Details	Specify the transportation details of shipment.	
Additional Shipment Details	Specify the transportation additional shipment details, if any.	

3.3.2.2 Description Of Goods And Or Services

This field contains a description of the goods and/or services. Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
INCO Terms	<p>Online Channel - Read only.</p> <p>Non Online Channel - Select the appropriate INCO terms.</p>	
INCO Term Description	The description of the INCO Term.	

Field	Description	Sample Values
+ Icon	Click + icon to add goods details.	
Delete Icon	Click - icon to remove goods details.	
Goods Code	Click look up icon to select the goods code. Once you select goods code, value will populate in Goods Type and Goods Description.	
Goods Type	The goods type is auto populated depending on selected goods code.	
Goods Description	The goods description is auto populated depending on selected goods code.	
No of Units	Enter the number of units being imported or exported.	
Price per Unit	Enter the value for price per unit.	
Total Amount	System to calculate the total price In case of online request, the system should populate the total amount from incoming request. System should validate that the total amount is equal to the value of the transaction (LC/Collection).	
Action	Click Edit icon to edit the goods detail. Click Delete icon to delete the goods detail.	

3.3.2.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	

Field	Description	Sample Values
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.3.3 Payment

The user can enter the Payment data segment details of an Import LC.

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Special Payment conditions for beneficiary	Online and Non Online Channels – If any special payment condition has to be provided to beneficiary, the details for the same must be captured in this field.	
Special Payment conditions for receiving bank	Online and Non-online channels –If any special payment condition has to be provided to receiving bank, the details for the same must be captured in this field. This field specifies special payment conditions applicable to the receiving bank without disclosure to the beneficiary, for example, post-financing request/conditions for receiving bank only.	
Period for Presentation	Online Channel – Read only. Non Online Channel – If the period of presentation is based on any event other than shipment, then you can capture the event name in text along with the number of days in number.	

Field	Description	Sample Values
Confirmation Instructions	<p>Online Channel – Read only.</p> <p>Non Online Channel - Select the confirmation instruction for the LC from the available LOV values – CONFIRM, MAY ADD, WITHOUT.</p> <p>Applicable only if field 49 - confirmation instruction is 'confirm' or 'may add'. You can search through LOV, Party type with banks should only be displayed in LOV. The system must display the following:</p> <ul style="list-style-type: none"> a) SWIFT code (if available), b) Name and address of the bank <p>On selection of the record, if SWIFT code is available then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Requested Confirmation Party	<p>Online and Non-Online Channels – Provide requested confirmation party details. If the Requested Confirmation Party has the value as Others then appropriate value must be selected from the LOV.</p> <hr/> <p style="text-align: center;">Note</p> <p>This field is applicable if the Confirmation Instructions is Confirm or May Add.</p>	
Requested Confirmation Party	<p>Click Search to search and select the appropriate requested confirmation party, in case of online and non-online channels.</p> <p>This field is enabled if the Confirmation Instructions is CONFIRM or MAY ADD and 58A - Requested Confirmation Party is Others.</p>	
Advise Through Bank	<p>Online Channel – User can update the details received.</p> <p>Non-Online Channel -</p> <p>Search through LOV. Party type with banks must be displayed in LOV.</p> <ul style="list-style-type: none"> • SWIFT code (if available) • Name and address of the bank <p>On selection of the record if SWIFT code is available, then SWIFT code will be defaulted. If SWIFT code is not available then the bank's name and address to be defaulted.</p>	
Instructions to P/A/N Bank	<p>Online Channel- User can update details received.</p> <p>Non Online Channel – Provide the details in this field.</p>	

Field	Description	Sample Values
Sender to Receiver Information	Online Channel – User can update details received. Non Online Channel – Provide details (FFT).	
Charges	Online Channel – User can update details received. Non Online Channel – Provide details (FFT).	
Reimbursement Authorization		
Reimbursing Bank	Click Search icon and select the reimbursing bank, from the look-up.	
Reimbursing Bank Charge Type	Select the reimbursing bank charge type. The options are: <ul style="list-style-type: none"> ● Claimants - Select this option, if the charges are to be claimed from Beneficiary ● Ours - Select this option, if the charges are to be borne by Applicant This field is enabled only if Reimbursing Bank field has value.	
Reimbursing Bank Charge Details	Specify the additional details about reimbursing bank charges. This field is enabled only if Reimbursing Bank field has value.	
Sender to Receiver Information-MT740	Select the FFT maintained for MT740 and change the description if required.	

3.3.3.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

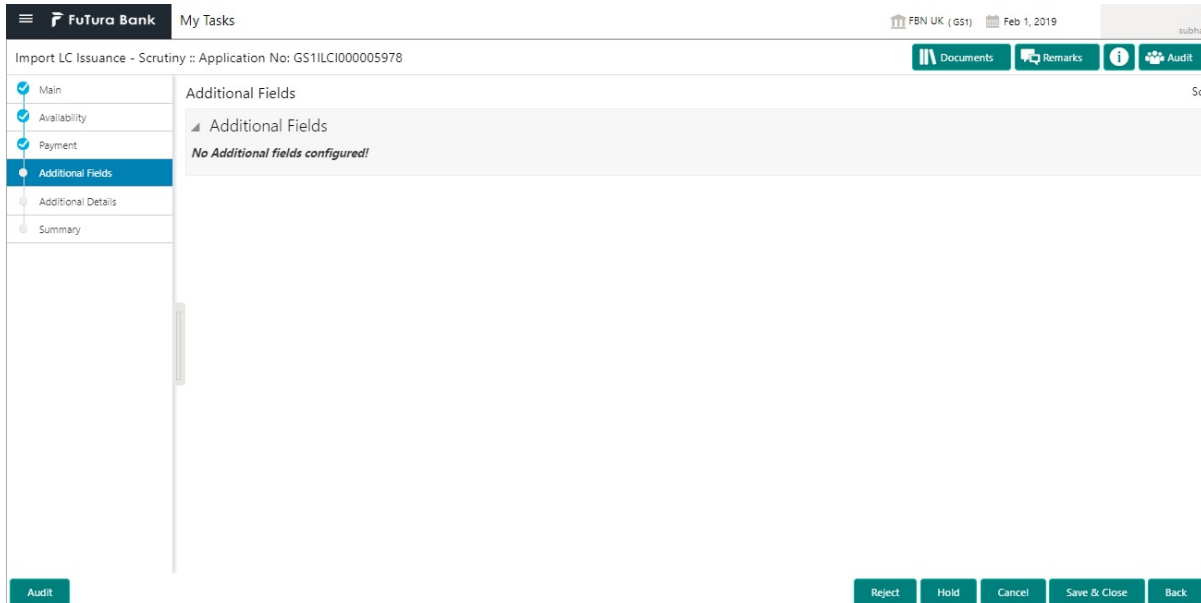

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	

Field	Description	Sample Values
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.4 Additional Fields

Banks can configure these additional fields during implementation.

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	

Field	Description	Sample Values
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.	

Field	Description	Sample Values
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

Additional Details

They user can verify/input/update the additional details Data Segment of the Import LC request. As part of Additional details section, LC may have impact on the Limits, Collaterals and Charge section.

3.3.4.1 Limits & Collateral

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number" to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

System defaults Counter party for Limit tracking, collateral and for Deposit Linkage. However, system should allow user to change customer ID from Counter party to Accountee, if Accountee is other than counter party.

Provide the Limit Details based on the description in the following table:

Customer ID	Linkage Type	Liability Number	Line Id/Linkage Ref No	Line Serial	Contribution %	Contribution Currency	Amount to Earmark	Limit Check Response

Commission Details

Provide the Commission Details based on the description provided in the following table:

Field	Description	Sample Values
Event	Read only field. This field displays the event name.	
Event Description	Read only field. This field displays the description of the event.	

Commission Details

All charges, commission and margin are collected from the counter-party by default.

Component	Select the commission component	
Rate	Defaults from product. The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate. If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.	

Field	Description	Sample Values
Modified Rate	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Currency	Defaults the currency in which the commission needs to be collected	
Amount	<p>An amount that is maintained under the product code defaults in this field.</p> <p>The commission rate, if available in Back Office defaults in OBTFPM. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPM.</p> <p>If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.</p>	
Modified	From the default value, if the rate or amount is changed, the modified value gets updated in the modified amount field.	
Defer	Select the check box, if charges/commissions has to be deferred and collected at any future step.	
Waive	<p>Select the check box to waive charges/commission.</p> <p>Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.</p> <p>If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.</p>	
Split	The user can split the Commission by enabling/disabling the flag as per the requirement.	
Charge Party	Charge party will be 'Applicant' by Default. You can change the value to Beneficiary	
Settlement Account	<p>Details of the Settlement Account is defaulted.</p> <p>User can change the settlement account.</p>	
Amend	The value is auto-populated as the commission can be amended or not.	

Charge Details		
Field	Description	Sample Values
Component	Charge Component type.	
Tag Currency	Defaults the tag currency in which the charges have to be collected.	
Tag Amount	Defaults the tag amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Currency	Defaults the currency in which the charges have to be collected.	
Amount	An amount that is maintained under the product code gets defaulted in this field. User can edit the value, if required.	
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.	
Billing	<p>If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can not select/de-select the check box if it is de-selected by default.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	
Defer	<p>If charges have to be deferred and collected at any future step, this check box has to be selected.</p> <p>On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPM.</p> <p>The user can select/de-select the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.</p>	
Waive	<p>If charges have to be waived, this check box has to be selected.</p> <p>Based on the customer maintenance, the charges should be marked for Billing or for Defer.</p> <p>This field is disabled, if 'Defer' toggle is enabled.</p>	

Field	Description	Sample Values
Split	The bank User can split the Charges/Commission by enabling/disabling the flag as per the requirement.	
Charge Party	Charge party will be applicant by default. You can change the value to beneficiary	
Settlement Account	Details of the settlement account.	
Amend	The value is auto-populated as the commission can be amended or not.	

Tax Details

The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/ commission will be available on click of Re-Calculate button or on hand off to back-end system.

Provide the Tax Details based on the information in the following table:

Field	Description	Sample Values
Component	Tax Component type	
Type	Type of tax Component.	
Value Date	This field displays the value date of tax component.	
Currency	The tax currency is the same as the commission.	
Amount	The tax amount defaults based on the percentage of commission maintained. User can edit the tax amount, if required.	
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing. This field is disabled, if 'Defer' toggle is enabled.	
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled. The user can enable/disable the option the check box. On de-selection the user has to click on 'Recalculate' charges button for re-simulation.	
Settlement Account	Details of the settlement account.	

Split Settlement

Once the user clicks on the Recalculate button to fetch the Split Settlement details from Backoffice, new section “Split Settlement” will appear below the ‘Tax’ section. The default parties in Split row should be fetched from OBTF.

Field	Description	Sample Values
Component	The split component type eligible for Split .	
Currency	The currency of split settlement.	
Amount	The amount of split settlement.	

Split Settlement Details

Split Settlement details section appears from Back office, when the user clicks on the Recalculate button.

Field	Description	Sample Values
-------	-------------	---------------

Click + plus icon to add new FX linkage details.

Below fields are displayed on the FX linkage pop-up screen, if the user clicks plus icon.

Field	Description	Sample Values
FX Reference Number	<p>Select the FX contract reference number from the LOV.</p> <p>On select and save and close, system defaults the available amount, bot currency, sold currency and rate.</p> <p>Forward FX Linkage available for selection at bill would be as follows,</p> <ul style="list-style-type: none"> • Counterparty of the FX contract should be the counterparty of the Bill contract. • Active Forward FX transactions authorized not marked for auto liquidation. <p>Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.</p>	
Currency	This field displays the FX SOLD currency from the linked FX contract.	
Contract Amount	<p>This field displays the FX SOLD currency and Amount.</p> <p>The user can change the currency.</p>	
Available FX Contract Amount	<p>This field displays the available FX contract amount.</p> <p>The value is from the “Available Amount” in FXDLINKG screen in OBTR.</p> <p>Available Amount SOLD currency and Amount is displayed.</p>	
Linkage Amount	<p>This field displays the amount available for linkage.</p> <p>The Linkage amount should default the LC Contract Currency and allowed to change the linkage amount alone.</p> <p>The validation “Sum of Linked amount will not be greater than contract amount” or “Linkage amount will not be greater than the available amount for linkage” should be triggered on save of the FX linkage screen when trying to link the single FX or multiple FX.</p>	
Rate	This field displays the exchange rate defaulted from the linked FX Contract.	
FX Amount in Local Currency	<p>This field displays the FX amount in local currency.</p> <p>The value is defaulted as FX BOT currency and Amount from FXDTRONL</p>	
FX Expiry Date	This field displays the expiry date from the linked FX contract.	

Field	Description	Sample Values
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.	
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.	
Below fields appear in the FX linkage grid along with the above fields.		
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.	
Total Utilized amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version. The value is Total Utilized Amount SOLD currency and Amount for Import LC/Guarantee Issuance from FXDLINKG	
Average FX Rate	Multiple forward FX contract could be linked, and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.	
Action	Click the Edit icon to modify the FX details. Click the Delete icon to delete the FX details.	

3.3.4.5 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	

Field	Description	Sample Values
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3.5 Summary

User can review the summary of details updated in Scrutiny Islamic Import LC Issuance request.

Log in to Oracle Banking Trade Finance Process Management (OBTfPM) system to see the summary tiles. The tiles must display a list of important fields with values. User can drill down from summary Tiles into respective data segments.

The Data Enrichment stage has six sections as follows:

- Main Details
- Availability
- Payment
- Documents & Conditions
- Additional Fields
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

3.4.1 Main Details

Refer to [3.3.1 Main Details](#).

3.4.2 Availability

Refer to [3.3.2 Availability](#).

3.4.3 Payment

Refer to [3.3.3 Payment](#).

3.4.4 Documents & Conditions

User must provide the required documents and additional conditions for Import LC (if applicable) in this section.

3.4.4.1 Documents Details

Based on the 'Product' selected, Application will default the documents required under the LC. User can edit the details, delete an existing document and also add additional documents to the defaulted list.

Note

Insurance document is available in Documents Details section, if value in the 'INCO Term' field is not 'CFR', 'FOB', 'FCA', 'FAS' or 'EXW' in the **Availability** stage. If not system gives the warning message.

Online Channel - System will default the details received in the Description column. Based on the details populated, user can pick corresponding values for document code, originals and copy.

Non Online Channel - User can further edit (add or remove) the documents or document description as per requirement. Application will display an alert message, if both 'Bill Of lading' and 'Airway Bill' are chosen.

Field	Description	Sample Values
Code	Click Search icon to search and select the document code based on the document received. User can add or delete the code by deleting the line on the grid.	
Document Description	System displays the document description based on the document code selection. User can edit the description.	

Field	Description	Sample Values
Copy	Specify the number copies received from the Drawer. User can edit the actual copies received.	
Original	Specify the number of original documents received from the Drawer. User can edit the actual originals received.	
Clause Details	Displays the description of the clause required as per LC.	
Original Doc. Required	System displays whether original document is required or not. The user can enable the option, if original document is required.	
Action	Click Edit icon to edit the document details. Click Delete icon to delete the document details.	

3.4.4.2 Additional Conditions

Online Channel - System will default the details received in the description column. System will parse the additional conditions required field into multiple line items based on line delimiter (+) and shall populate each line item as a separate description. User can read the description and make any changes required to the description, also must be able to add more conditions.

Non Online Channel - User can use FFT to capture additional conditions and can edit the description populated from FFT. You should also be able to add additional FFT.

Field	Description	Sample Values
FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Action	Click Edit icon to edit the additional conditions details. Click Delete icon to delete the additional conditions details.	

3.4.4.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	

Field	Description	Sample Values
Documents	<p>Click the Documents icon to View/Upload the required documents.</p> <p>Application will display the mandatory and optional documents.</p> <p>The user can view and input/view application details simultaneously.</p> <p>When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.</p>	
Remarks	<p>Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request.</p> <p>Content from Remarks field should be handed off to Remarks field in Backend application.</p>	
Overrides	Click to view overrides, if any.	
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	

Field	Description	Sample Values
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.4.5 Additional Fields

Refer to [3.3.4 Additional Fields](#).

3.4.6 Advices

Advices menu displays the advices available under a product code from the back office as tiles. The user can verify the advices details Data Segment of the Import LC Issuance request. User can edit the fields in the tile, if required.

The screenshot shows the Oracle back office interface. The top header includes the Oracle logo, 'MV Tasks', and user information for 'SRIDHA subham@gmail' on 'Jan 1, 2014'. The main content area displays a tile for 'Advice : PAYMENT_MESSAGE' with the following details: Advice Name : PAYMENT_MESSAGE, Advice Party : , Party Name : , Suppress : N, and Advice : . The interface includes a navigation menu on the left with options like 'Main', 'Availability', 'Payment', 'Documents and Conditions', 'Additional Fields', 'Advices', 'Additional Details', and 'Summary'. The bottom toolbar contains buttons for 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

The user can also suppress the Advice, if required.

3.4.6.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.

3.4.7.6 Preview

User can preview the draft SWIFT message based on message type and the draft mail advice based on the advice type.

The OBTFPM user can send the draft of the message to the registered email id of the corporate customer as an attachment containing PDF. The PDF sent to the corporate customer is protected by a password. Password to be generated with first four digits of Customer Name and last four digits of Customer Number.

Note

A bank user can share the Draft SWIFT message to the customer through email, before the actual transmission of SWIFT message to the Advising Bank.

Provide the tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Code	Tracer code is auto-populated from the latest LC.	
Description	Tracer description is auto-populated from the latest LC.	
Party Type	Click Search to search and select the party type of the tracers from the lookup.	
Required	Toggle on - Switch on the toggle to capture the tracer details. Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Maximum Tracers	Provide the value for maximum number of tracers.	

Field	Description	Sample Values
Number Sent	Provide the number of tracers sent.	
Start Days	Capture the tracer start days.	
Last Sent On	Capture the date on which the tracer is last sent.	
Medium	Select the tracer medium from the LOV: <ul style="list-style-type: none"> • Mail • Swift 	
Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Template ID	Click Search to search and select the party type of the template ID from the lookup.	

3.4.7.9 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Click the Remarks icon to provide any additional information. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.	
Overrides	Click to view overrides, if any.	

Field	Description	Sample Values
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Message	<p>Click Common Group Message button, to send MT799 and MT999 messages from within the task.</p>	
Incoming Message	<p>This button displays the multiple messages (MT760 + up to 7 MT761).</p> <p>In case of MT798, the User can click and view the MT798 message(770,700/701).</p> <p>In case of MT798-MT726-MT759 request, user can view MT798 message(726-759) in this placeholder in Header of the task.</p> <p>In case of MT798_MT788-MT799 request, user can view MT798 message (788-799) in this placeholder in Header of the process-task.</p>	
Signature	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is required, system should display all the signatures.</p>	
Request Clarification	<p>User should be able to submit the request for clarification to the “Trade Finance Portal” User for the transactions initiated offline.</p>	
Refer	<p>User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. 	

Field	Description	Sample Values
Save & Close	<p>Save the information provided and holds the task in you queue for working later.</p> <p>This option will not submit the request.</p>	
Cancel	<p>Cancel the LC Issuance Scrutiny stage inputs and the task gets landed in My Task menu.</p>	
Hold	<p>The details provided will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R4- Insufficient Balance/Limits ● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Next	<p>On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>	

3.4.8 Settlement Details

The user will verify and enter the basic settlement details available in the LC. In case the request is received through online channel i will verify the details populated.

The screenshot displays the Oracle Settlement Details interface. At the top, there is a navigation bar with the Oracle logo and user information: ENTITY_ID1 (ENTITY_ID...), FLEXCUBE UNIVERSAL BAN..., Aug 3, 2023, and POORNIM subham@gmail. Below the navigation bar, there are tabs for Clarification Details, Documents, Remarks, Overrides, Customer Instruction, Incoming Message, and Signatures. The main content area is titled 'Settlement Details' and includes a 'Current Event' checkbox. A table lists settlement components with the following data:

Component	Currency	Debit/Credit	Account	Account Description	Account Currency	Netting Indicator	Current Event
BILL_AMT_EQUIV	GBP	Credit	PK1000328012	HSBC BANK	GBP	No	No
BILL_LIQ_AMT	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No
BKTAX_AMT	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No
CHG1_LIQD	GBP	Credit	PK20010440017	GOODCARE PLC	GBP	No	No
CHG1_LIQD_AMTEQ	GBP	Debit	PK1000328012	HSBC BANK	GBP	No	No
LQTAX_AMT	GBP	Debit	PK20010440017	GOODCARE PLC	GBP	No	No
REFUND_INTEREST	GBP	Credit	PK20010440017	GOODCARE PLC	GBP	No	No

At the bottom of the interface, there is a navigation bar with buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

3.4.9 Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Current Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	System displays the default currency for the component.	
Debit/Credit	System displays the debit/credit indicators for the components.	
Account	System displays the account details for the components.	
Account Description	System displays the description of the selected account.	
Account Currency	System defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	System defaults the current event as Y or N.	

3.4.9.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.	
Documents	Click the Documents icon to View/Upload the required documents. Application will display the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.

3.4.10.2

3.5 Customer Response - Draft Confirmation

The user can review and handle the customer's response received for the draft confirmation for LC issuance transactions, which is sent to the customer for their verification and confirmation. The OBTFPM system sends Draft MT700 along with up to seven MT701 messages as attachment to the customer.

The Transaction Reference Number is masked, before sending the Draft Import LC for Customer approval.

The customer response can be received both by online and offline mode. In non-online mode, user receives the response in the branch.

In online mode the customer will share their response online that will be automatically updated in the customer response field in the task, which is available in the customer response pending stage.

Log in into OBTFPM application, and open the task to see customer response screen.

3.5.1 Customer Response

Language - Read only field

Draft Message - Read only field

3.5.1.1 Draft Confirmation

Draft Confirmation required - Read only field

Customer Response - This field will be available for you to update any of the below response based on the customer's reply

- Accepted
- Changes Required - Change and proceed

For non-online response – User can select customer response from one of the three drop list values mentioned above.

For Online response – Read only

Customer Remarks - Capture the remarks of the customer.

Response Date - Non-Online channel – Update the date on which the customer response has been received.

Online Channel – Read only

3.5.1.2 Summary

- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

Documents – User must be able to view the documents uploaded in the system and upload documents if customer response has been received through non- online channel.

Remark - Capture remarks if required and must be able to view the remarks captured during earlier stages.

3.5.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Submit	<p>Task will get moved to next logical stage of Import LC Issuance.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>	
Cancel	Cancel the Draft Confirmation.	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none">● R1- Documents missing● R2- Signature Missing● R3- Input Error● R4- Insufficient Balance/Limits● R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none">● R1- Documents missing● R2- Signature Missing● R3- Input Error● R4- Insufficient Balance- Limits● R5 - Others	

3.6 Exceptions

The Import LC Issuance request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

3.6.1 Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

3.6.1.1 Amount Bock Exception

This section will display the amount block exception details.

3.6.1.2 Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charge Details - User can view and modify details provided for charges, if required.

3.6.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	

Field	Description	Sample Values
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the Import LC issuance Amount Block Exception check and the task gets landed in My Task menu.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

3.6.2 **Exception - Know Your Customer (KYC)**

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for Trade Finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the Back End application (outside this process).
- Without changing the KYC status in the Back End application.
- Reject (with appropriate reject reason).

3.6.2.1 **Summary**

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Limits and Collaterals - User can view and modify limits and collateral details, if required.

- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

3.6.2.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	<p>Cancel the Import LC issuance KYC exception check and the task gets landed in My Task menu.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

3.6.3 Exception - Limit Check/Credit

The transactions that have failed limit check due to non-availability of limits will be available in limit check exception queue for further handling.

Log in into OBTFPM application, limit check exception queue. Limit check exception failed tasks for Trade Finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

Note

On Approval of the exception task, system should validate the Limit Availability, Limit Expiry Date in the Limit System and create Earmark in the ELCM system. In case if the Limit is not available or the Limit is expired, then system should display an error message and should not allow the user to approve and proceed.

Limit check Exception approver can do the following actions:

Approve

- Limit enhanced in the Back End (outside this process).
- Without enhancing limit in the Back End.

Refer

- Refer back to DE providing alternate limit id to map
- Refer additional collateral to be mapped

Reject

The transaction due to non-availability of limits capturing reject reason.

3.6.3.1 Summary

Tiles Displayed in Summary:

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability - User can view and modify availability and shipment details, if required.
- Payment - User can view and modify all details related to payments, if required.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits Details - User can view and modify limits details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details - User can view the accounting entries generated in back office.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries.

3.6.3.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process. On reject, a reject notification gets generated to the applicant.</p>	
Hold	<p>The details provided will be registered and status will be on hold.</p> <p>This option is used, if there are any pending information yet to be received from applicant and appropriate remarks must be provided.</p>	
Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	<p>Cancel the Import LC Issuance Limit exception check and the task gets landed in My Task menu.</p>	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage.</p>	
Back	<p>Task moves to previous logical step.</p>	

3.7 Multi Level Approval

Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

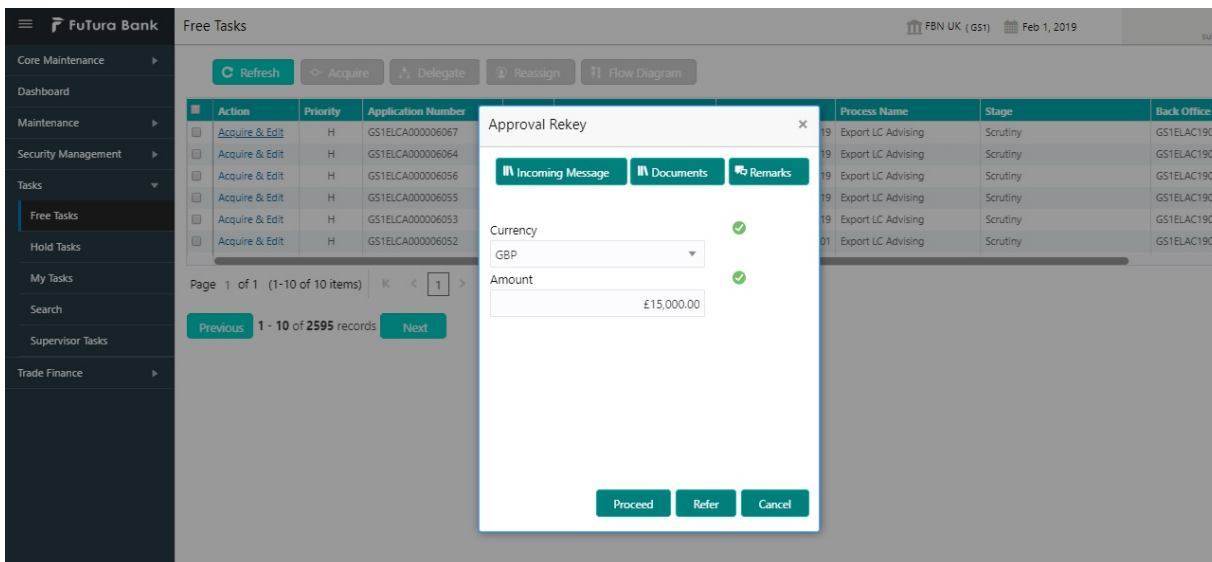

3.7.1 Authorization Re-Key

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

3.7.1.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the required documents. Application displays mandatory documents to be uploaded for Import LC Issuance. Place holders are also available to upload additional documents submitted by the applicant.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Incoming Message	Displays the incoming message, if any.	

Field	Description	Sample Values
Action Buttons		
Proceed	On proceed, the screen navigates to approval summary screen.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes: <ul style="list-style-type: none"> ● R1- Documents missing ● R2- Signature Missing ● R3- Input Error ● R5 - Others 	
Cancel	Cancel the Import LC Issuance Approval Rekey.

Cancel	<p>Cancel the approval and the task gets landed in My Task menu.</p>	

Field	Description	Sample Values
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the Back End system for posting.	

3.8 Customer - Acknowledgement

Customer Acknowledgment is generated every time a new Import LC Issuance is requested from the customer. The acknowledgment letter format is as follows:

To:

<CUSTOMER NAME>

DATE: DD-MM-YYYY

<CUSTOMER ADDRESS>

Dear Sir,

SUB: Acknowledgement to your LC Application number <CUSTOMER REFERENCE NUMBER> dated <APPLICATION DATE>

This letter is to inform you that we have received your application for issue of Import LC with the below details:

CUSTOMER NAME: <CUSTOMER NAME>

CURRENCY/AMOUNT: <LC CCY/AMT>

YOUR REFERENCE NO: <CUSTOMER REFERENCE NUMBER>

OUR REF NUMBER: <PROCESS REFERENCE NUMBER>

We have also received the following Documents from you for processing the request:

Document Name 1

Document Name 2

Document Name n

We have registered your request. Please quote our reference < PROCESS REF NUMBER> in any future correspondence.

This acknowledgment does not constitute issuance of LC.

Thank you for banking with us.

Regards,

<DEMO BANK>

Thank you

3.9 Customer - Reject Advice

Reject Letter is generated by the system and addressed to the customer, when a task is rejected by the user. The Reject Letter format is as follows:

FROM:

<BANK NAME>

<BANK ADDRESS>

TO:

DATE <DD/MM/YYYY>

<CUSTOMER NAME>

<CUSTOMER ADDRESS>

<CUSTOMER ID>

Dear Sir,

SUB: Your Import LC Application <Customer Reference Number> under our Process Ref <Process Ref No> - Rejected

Further to your recent Import LC application request dated <Application Date -DD/MM/YYYY>, under our process ref no <process ref no>, this is to advise you that we will not be able to issue the required LC.

After a thorough review of your application and the supporting documents submitted, we have concluded we will not be able to issue the LC due to the below reason

<Reject Reason >

On behalf of Demo Bank, we thank you for your ongoing business and trust we will continue to serve you in future.

For any further queries about details of your Import LC application review, please contact us at our bank customer support ph.no xxxxxxxxxxxx

Yours Truly

Authorized Signatory

3.10 Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Issuance in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

3.10.1 Application Details

The application details data segment have values for requests received from both non-online and online channels.

3.10.2 Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details - User can view and modify details about application details and LC details, if required.
- Party Details - User can view and modify party details like beneficiary, advising bank etc., if required
- Availability and Shipment - User can view and modify availability and shipment details, if required.
- Payments - User can view and modify all details related to payments, if required.
- Documents & Condition - User can view and modify the documents required grid and the additional conditions grid, if required.
- Limits and Collaterals - User can view and modify limits and collateral details, if required.
- Charges - User can view and modify charge details, if required.
- Revolving Details - User can view and modify revolving details on revolving LC, if applicable.
- Preview Messages - User can view and modify preview details, if required.
- Compliance - User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.

3.10.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject Approve	On click of Reject Approve, the transaction is rejected.	

Field	Description	Sample Values
Reject Decline	On click of Reject Decline, the task moves back to the stage where it was rejected. User can update the reason for reject decline in remarks.	
Hold	User can put the transaction on 'Hold'. Task will remain in Pending state.	
Cancel	Cancel the Reject Approval.
