1 Welcome to Oracle Banking Credit Facilities Process Management

Welcome to the Oracle Banking Credit Facilities Process Management (OBCFPM) Exception Process User Manual. This manual provides an overview on the OBCFPM Exception Process flow and guides you through the various steps involved in creating and processing Credit Exception transactions.

If you need any information, look out for the help icon.

This document helps you to conveniently create and process credit exception transactions in OBCFPM

Overview of OBCFPM Exception Process Flow

OBCFPM Exception Process flow enables to streamline the facility exceptions that arises as a part of utilization.

2 Credit Exception

Credit Exception process is to handle business exceptions that occurs at the time of utilization and various options that the credit officer can make use. The various activities performed for credit exception are

- Capture Exception Details
- Upload of related Mandatory and Non Mandatory documents
- Verify Documents and Capture Details
- Credit approval
- Facility Amendment (Amount/Expiry Date)
- Earmarking
- Transfer of Limits
- Receive the customer acceptance for transfer of limit

2.1. Credit Exception - Process Flow Diagram

The Credit Exception process has the following stages.

1. Exception Initiation
2. Alternative Facility
3. Approval
4. Transfer Limit
5. Manual Retry

2.2. Exception Initiation

When a limit utilization/earmark request is failing due to insufficient limit, the system should initiate a request to Exception process to handle the exception. These requests will log into Exception process under the stage, Exception Initiation. The tasks will be available in the Free Tasks list. In this stage, Credit officer looks into the credit details of the customer for whom Limit utilization failed. Based on the credit history, credit officer may decide to perform one of the following actions:

1. Increase the limit amount of the facility utilized for the differential delta amount
2. Suggest transfer of limit from another existing line of the customer the line used for the transaction
3. Suggest additional cash collateral to be collected
4. Modify the limit amount or limit expiry date for the facility
5. Reject the request.

Credit officer to provide the remarks and select the desired action.

As a user, you will be able to login to the OBCFPM application with appropriate credentials. On login, you will be able to view the dashboard screen with dashboards, widgets mapped for your user profile.

Menu→Tasks→Free Tasks

Exception initiation happens from the calling module when limit utilization exception is trigger. Credit officer can open the task from my task after assigning it to self and proceed to capture the exception initiation details.

2.2.1 Exception Initiation - Details

The Credit officer can capture additional details on the exception submitted by the calling module.
