Dear Douglas Lewis:

Our records indicate that you have reached, or will shortly reach, age 70 1/2. Section 401(a)(9) of the Internal Revenue Code requires all active employees who are participants in pension plans and who are 5 percent owners of the employer to receive a "minimum distribution" from such plans by April 1 of the calendar year following the year in which age 70 1/2 is reached.

Since you are currently an active employee and participating in the GBI Salaried Plan (Plan) you will be required to begin receiving payments by April 1, _____, in the monthly amount of \$_____.

Please note that as long as you are an active employee participating in the Plan, your pension benefit will be **recalculated** each year to take into account any additional service credit you earn, and any increases in salary, if applicable. However, your pension benefit will not be decreased from the amount shown above. Then, at the time you retire, further adjustments may be made to take into account any other pension benefits you have earned.

Title

PARTICIPANT'S OPTIONAL FORM OF BENEFIT PAYMENT
(Plans Required to Offer a Qualified Joint and Survivor Annuity)
(Sample Form)

Dear Douglas Lewis:

As a participant in the GBI Salaried Plan (Plan), you may select the form of payment you prefer from among those described below. However, this election is subject to some conditions:

Single participant:

- If you are not married, your benefits will be paid as a life annuity. This means that you will receive a monthly payment for life. After you die, no further benefits will be paid to any other person.

Married participant:

- Your benefits will be paid as a qualified joint and survivor annuity. This means that you will receive monthly payments for life; after your death, monthly payments will continue to your spouse for life. The benefit paid to your spouse will equal 50 percent of the monthly amount paid to you.
- If you and your spouse do not want to receive the qualified joint and survivor annuity, you should select another payment form and your spouse must complete the attached spousal consent form.
- If you and your spouse reject the qualified joint and survivor annuity, your benefits will be paid as a life annuity. This means that you will receive a monthly payment for life. After you die, no further benefits will be paid to any other person.

Death benefits:

If you select a payment form that provides a death benefit, your beneficiary will depend on your marital status.

- If you are **married**, your beneficiary will be your spouse, unless your spouse gives written consent for another beneficiary.
- If you are **not married**, the person receiving those benefits will be the person designated on the latest Beneficiary Designation Form filed with the Plan Administrator. Please review your current Beneficiary Designation Form to ensure that it reflects your current wishes.

Participant's Optional Form of Benefit Payment
(Page 2 of 7)

Normally, your benefits will begin shortly after you reach the Plan's retirement age. Federal law allows you to delay the payment of benefits by specifying a later distribution date. However, payment of your benefits must begin by April 1 of the calendar year following the later of:

- When you reach age 70 $\frac{1}{2}$; or
- Your the date of retirement.

If you elect to retire after you reach age 70 $\frac{1}{2}$ (and you are not a 5-percent owner of the employer), your pension benefit will be actuarially increased to take into account the period you worked after you reached age 70 $\frac{1}{2}$ -- for which you did not receive any pension benefits.

However, please note that if you are a 5-percent owner of the employer, you will be required to begin receiving distributions from the Plan no later than April 1 of the calendar year following the year in which you reach age 70 $\frac{1}{2}$.

If you have any questions about completing this form, please contact your Plan Administrator:

DISTRIBUTION REQUEST

In accordance with the provisions of the Plan, I request that my benefits be paid in the form selected from those listed below. I also request that my benefits begin on the date specified below.

IMPORTANT:

The Plan Administrator has attempted to calculate the amount payable under each option. **The amounts shown below are estimates only.** The actual payment amount may be slightly different, and will depend upon the final calculation. The actual amount of your benefit will be based strictly on the rules of the Plan.

Optional Forms of Payment (Choose one only):

Life Annuity

This is a monthly payment to you for the rest of your life. The **estimated monthly payment amount** is **\$13,020.34**. This benefit will end on your death and no further benefit will be paid to anyone after your death.

Joint and Survivor Annuity

This is a monthly payment to you for your life; and at your death, monthly payments continue to your beneficiary.

The payments to your beneficiary will be a percentage of the pension benefit you are receiving at the time of your death. The costs for a Joint & Survivor Annuity vary depending on the percentage you choose. The higher the percentage, the higher the cost to you. Be sure to ask your Plan Administrator about the costs involved before you actually elect a percentage.

(Check **only one** of the percentages shown below.)

50 percent

66 2/3 percent

75 percent

100 percent

**Participant's Optional Form of Benefit Payment
(Page 4 of 7)**

The **estimated** monthly pension benefit you will receive is shown below:

- If you elect a **50 percent benefit for your beneficiary**, your monthly benefit will be approximately **\$10,449.43** and your beneficiary's benefit will be approximately **\$5,224.72**.
- If you elect a **66 2/3 percent benefit for your beneficiary**, your monthly benefit will be approximately **\$0.00** and your beneficiary's benefit will be approximately **\$0.00**.
- If you elect a **75 percent benefit for your beneficiary**, your monthly benefit will be approximately **\$0.00** and your beneficiary's benefit will be approximately **\$0.00**.
- If you elect a **100 percent benefit for your beneficiary**, your monthly benefit will be approximately **\$0.00** and your beneficiary's benefit will be approximately **\$0.00**.

Lump Sum Payment

This is a one time payment to you. The lump sum is calculated to be the **equivalent dollar value** (i.e., the actuarial present value) of the all the payments that you would have received during your life had you elected a life annuity (above).

If you select the Lump Sum Payment, your estimated benefit will be **\$1,663,321.04**.

Period Certain Annuity

This is a payment to you for a certain amount of years. If you select this payment form, benefits will stop at the end of the period you select. But if you die before the end of the period you select, payments will continue to your beneficiary until the payments to you plus the payments to your beneficiary have been made for the period you select.

Select only one period from the following choices shown below:

5 years

10 years

- If you select payments for five years, your monthly pension benefit will be approximately **\$0.00**.

**QUALIFIED PRERETIREMENT SURVIVOR ANNUITY**  
**Election or Waiver of Benefit**  
**(Sample Letter)**

Douglas Lewis

Date: 09/05/2000

Social Security No: XXXXXXXXXX

The GBI Salaried Plan (Plan) will pay a benefit to your spouse if:

- you are married when you die;
- you die before you terminate employment; and
- you do not reject this benefit.

This benefit is called a “qualified preretirement survivor annuity.” Unless you reject this benefit, the amount that will be paid to your spouse at your death will be [description of the benefit].

You may decide that you do not want this benefit because of the cost involved. This benefit is very similar to a life insurance contract because it provides a death benefit. As with any life insurance contract, there is a cost associated with this death benefit protection. The Plan provides that you must pay the cost of the risk assumed by the Plan (i.e., the risk that this benefit will be paid if you die before retirement). This cost will be paid by means of a reduction in the retirement benefit you would otherwise receive at retirement. The cost of the benefit (i.e., the amount by which your benefit will be reduced) is [description of cost].

You can avoid this cost only by waiving the preretirement death benefit. However, if you do so, the Plan will not pay a death benefit to your spouse if you die before retirement.

You should discuss this matter with your spouse. If you decide to waive this benefit, you and your spouse must complete the following form and return it to the Plan Administrator at the address shown below. Your waiver of this benefit will be effective only if your spouse agrees in writing with this action. Your spouse’s written consent can be given below (see “Spouse’s Consent to Waiver of Qualified Preretirement Survivor Annuity”).

If you previously rejected the preretirement death benefit, you may reinstate this benefit by completing this form below. Your spouse’s consent is not required to reinstate the benefit.

⇒ **Check only item 1 or 2 below**

⇒ **Return this form to the Plan Administrator upon Completion**

1. If you are **not married** check the box and complete the "Certification of Single Status" shown below.

I am **not married** and therefore, the coverage does not apply to me.

2. If you **are married** complete the information below; check only one of the two boxes below, and sign and date this form.

Spouse's Name: \_\_\_\_\_

Date of Marriage: \_\_\_\_\_

Spouse's Date of Birth: \_\_\_\_\_

Spouse's Social Security No: \_\_\_\_\_

**I hereby elect the Qualified Preretirement Survivor Annuity.** I understand that if I should die prior to my retirement, or after separation from service - but before my vested benefits begin, **my spouse will receive a monthly annuity** in an amount equal to 50% of my benefit had I retired on my date of death. I also understand that , the benefit payable to my spouse will be reduced for:

- Early Retirement benefits (if applicable);
- 50% Joint & Survivor Annuity form of payment; and
- Qualified Preretirement Surviving Spouse's Coverage.

The coverage effective date is the date on which the Qualified Preretirement Survivor Annuity became effective -- and is the latest of the following dates:

- the date when I have completed 10 years of Service;
- the first anniversary of my marriage; or
- the date of reinstatement of previously rejected coverage.

The coverage ending date is the earliest of :

- my Normal Retirement Date;
- my benefit commencement date;
- my death, or divorce;
- the death of my spouse; or
- the first of the month following the date in which this coverage is revoked.

I understand that the amount of the pension benefit payable to me at retirement, or to my surviving spouse in the event of my death before my retirement, or after separation from service - but before my vested benefits begin, will be **reduced** to pay for the Qualified Preretirement Survivor Annuity protection during the period of coverage.

I hereby reject the Qualified Preretirement Survivor Annuity. I recognize that my spouse will not receive a pension if I should die before I retire, or after my termination of employment - but before my vested benefits begin.

**NOTICE TO PARTICIPANTS ELIGIBLE TO  
ROLL OVER RETIREMENT PLAN DISTRIBUTIONS  
(Sample Notice)**

**SPECIAL TAX NOTICE REGARDING PLAN PAYMENTS**

This notice contains important information you will need before you decide how to receive your benefits from GBI Salaried Plan.

**Summary**

A payment from the Plan that is eligible for "rollover" can be taken in two ways. You can have all or a portion of your payment either:

- Paid in a direct rollover; or
- Paid to you.

A rollover is a payment of your Plan benefits to your individual retirement plan (IRA) or to another employer plan. The choice you make will affect the tax you owe.

**If you choose a Direct Rollover:**

- Your payment will not be taxed in the current year and no income tax will be withheld.
- Your payment will be made directly to your IRA or, if you choose, to another employer plan that accepts your rollover.
- Your payment will be taxed later as you withdraw moneys from your IRA or the employer plan.

**If you choose to have your Plan benefits directly paid to you:**

- You will receive only 80% of the payment, because the Plan Administrator is required to withhold 20% of the payment and send it to the IRS as income tax withholding to be credited against any taxes you might owe.
- Your payment will be taxed in the current year unless you roll it over. You may be able to use special tax rules that could reduce the tax you owe. However, if you receive the payment before age 59-½, you may also have to pay an additional 10% penalty tax for early withdrawal.

- You can roll over the payment by paying it to your IRA or to another employer plan that accepts your rollover within 60 days of receiving the payment. The amount rolled over will not be taxed until you take it out of the IRA or employer plan.
- If you want to roll over 100% of the payment to an IRA or an employer plan, **you must find other money to replace the 20% that was withheld.** If you roll over only the 80% that you received, you will be taxed on the 20% that was withheld and that is not rolled over.

### I. Payments That Can and Cannot Be Rolled Over

Payments from the Plan may be "eligible rollover distributions." This means that they can be rolled over to an IRA or to another employer plan that accepts rollover. Your Plan Administrator should be able to tell you what portion of your payment is an eligible rollover distribution. The following types of payments **cannot** be rolled over:

#### **Nontaxable Payments**

In general, only the "taxable portion" of your payment is an eligible rollover distribution. If you have made "after-tax" employee contributions to the plan, these contributions will be nontaxable when they are paid to you, and they cannot be rolled over. (After-tax employee contributions generally are contributions you made from your own pay that were already taxed.)

#### **Payments Spread Over Long Periods**

You cannot roll over a payment if it is part of a series of equal (or almost equal) payments that are made at least once a year and that will last for

- your lifetime (or your life expectancy);
- your lifetime and your beneficiary's lifetime (or life expectancies); or
- a period of ten years or more.

## **Required Minimum Payments**

Beginning in the year you reach age 70½, a certain portion of your payment cannot be rolled over because it is a "required minimum payment" that must be paid to you.

## **II. Direct Rollover**

You can choose a direct rollover of all or any portion of your payment that is an "eligible rollover distribution," as described above. In a direct rollover, the eligible rollover distribution is paid directly from the Plan to an IRA or another employer plan that accepts rollovers. If you choose a direct rollover, you are not taxed on a payment until you later take it out of the IRA or the employer plan.

### **Direct Rollover to an IRA**

You can open an IRA to receive the direct rollover. (The term "IRA," as used in this notice, includes individual retirement accounts and individual retirement annuities.) If you choose to have your payment made directly to an IRA, contact an IRA sponsor (usually a financial institution) to find out how to have your payment made in a direct rollover to an IRA at that institution. If you are unsure of how to invest your money, you can temporarily establish an IRA to receive the payment. However, in choosing an IRA, you may wish to consider whether the IRA you choose will allow you to move all or a part of your payment to another IRA at a later date, without penalties or other limitations. See IRS Publication 590, *Individual Retirement Arrangements*, for more information on IRAs (including limits on how often you can rollover between IRAs).

### **Direct Rollover to a Plan**

If you are employed by a new employer that has a plan, and you want a direct rollover to that plan, ask the administrator of that plan whether it will accept your rollover. An employer plan is not legally required to accept a rollover. If your new employer's plan does not accept a rollover, you can choose a direct rollover to an IRA.

### **Direct Rollover of a Series of Payments**

If you receive eligible rollover distributions that are paid in a series for less than ten years, your choice to make or not make a direct rollover for a payment will apply to all later payments in the series until you change your election. You are free to change your election for any later payment in the series.

### III. Payment Paid to You

If you have the payment made to you, it is subject to 20% income tax withholding. The payment is taxed in the year you receive it unless, within 60 days, you roll it over to an IRA or another plan that accepts rollovers. If you do not roll it over, special tax rules may apply.

#### Income Tax Withholding:

##### Mandatory Withholding

If any portion of the payment to you is an eligible rollover distribution, the Plan is required by law to withhold 20% of that amount. This amount is sent to the IRS as income tax withholding. For example, if your eligible rollover distribution is \$10,000, only \$8,000 will be paid to you because the Plan must withhold \$2,000 as income tax. However, when you prepare your income tax return for the year, you will report the full \$10,000 as a payment from the Plan. You will report the \$2,000 as tax withheld, and it will be credited against any income tax you owe for the year.

##### Voluntary Withholding

If any portion of your payment is not an eligible rollover distribution but is taxable, the mandatory withholding rules described above do not apply. In this case, you may elect not to have withholding apply to that portion. To elect out of withholding, ask your Plan Administrator for the election form and related information.

##### Sixty-Day Rollover Option

If you have an eligible rollover distribution paid to you, you can still decide to roll over all or part of it to an IRA or another employer plan that accepts rollover. If you decide to roll over, **you must make the rollover within 60 days after you receive the payment.** The portion of your payment that is rolled over will not be taxed until you take it out of the IRA or the employer plan.

You can roll over up to 100% of the eligible rollover distribution, including an amount equal to the 20% that was withheld. If you choose to roll over 100%, you must find other money within the 60-day period to contribute to the IRA or the employer plan to replace the 20% that was withheld. On the other hand, if you roll over only the 80% that you received, you will be taxed on the 20% that was withheld.

### Example

Your eligible rollover distribution is \$10,000, and you choose to have it paid to you. You will receive \$8,000, and \$2,000 will be sent to the IRS as income tax withholding. Within 60 days after receiving the \$8,000, you may roll over the entire \$10,000 to an IRA or employer plan. To do this, you roll over the \$8,000 received from the Plan, and you will have to find \$2,000 from other sources (your savings, a loan, etc.). In this case, the entire \$10,000 is not taxed until you take it out of the IRA or employer plan. If you roll over the entire \$10,000 when you file your income tax return you may get a refund of the \$2,000 withheld. If, on the other hand, you roll over only \$8,000, the \$2,000 you did not roll over is taxed in the year it was withheld. When you file your income tax return you may get a refund of part of the \$2,000 withheld. (However, any refund is likely to be larger if you roll over the entire \$10,000.)

### **Additional 10% Tax If You Are Under Age 59 ½**

If you receive a payment before you reach age 59-½ and you do not roll it over, then, in addition to the regular income tax, you may have to pay an extra tax equal to 10% of the taxable portion of the payment. The additional 10% tax does not apply to your payment if it is:

- (1) paid to you because you separate from service with your employer during or after the year you reach age 55;
- (2) paid because you retire due to disability;
- (3) paid to you as equal (or almost equal) payments over your life or life expectancy (of your and your beneficiary's lives or life expectancies); or
- (4) used to pay certain medical expenses. See IRS Form 5329 for more information on the additional 10% tax.

### **Special Tax Treatment**

If your eligible rollover distribution is not rolled over, it will be taxed in the year you receive it. However, if it qualifies as a "lump sum distribution," it may be eligible for special tax treatment. A lump sum distribution is a payment, within one year, of your entire balance under the Plan (and certain other similar plans of the employer) that is payable to you because you have reached age 59-½, or have separated from service with your employer (or, in the case of a self-employed individual, because you have reached age 59-½ or have become disabled). For a payment to qualify as a lump sum distribution, you must have been a participant in the Plan for at least 5 years.

The special tax treatment for lump sum distributions is described below.

### **Five-Year Averaging**

If you receive a lump sum distribution after you are age 59½, you may be able to make a one-time election to figure the tax on the payment by using "5-year averaging." Five-year averaging often reduces the tax you owe because it treats the payment much as if it were paid over 5 years.

### **Ten-Year Averaging if You Were Born Before January 1, 1936**

If you receive a lump sum distribution and you were born before January 1, 1936, you can make a one-time election to figure the tax on the payment by using "10-year averaging" (using 1986 tax rates) instead of 5-year averaging (using current tax rates). Like the 5-year averaging rules, 10-year averaging often reduces the tax you owe.

### **Capital Gain Treatment If You Were Born Before January 1, 1936**

In addition, if you receive a lump sum distribution and you were born before January 1, 1936, you may elect to have the part of your payment that is attributable to your pre-1974 participation in the Plan (if any) taxed as long-term capital gain at a rate of 20%.

There are other limits on the special tax treatment for lump sum distributions. For example, you can generally elect this special tax treatment only once in your lifetime, and the election applies to all lump sum distributions that you receive in that same year. If you have previously rolled over a payment from the Plan (or certain other similar plans of the employer), you cannot use this special tax treatment for later payments from the Plan. If you roll over your payment to an IRA, you will not be able to use this special tax treatment for later payments from the IRA. Also, if you roll over only a portion of your payment to an IRA, this special tax treatment is not available for the rest of the payment. Additional restrictions are described in IRS Form 4972, which has more information on lump sum distributions and how you elect the special tax treatment.

### **Employer Stock or Securities**

There is a special rule for a payment from the Plan that includes employer stock (or other employer securities). To use this special rule, (1) the payment must qualify as a lump sum distribution, as described above (or would qualify except that you do not yet have 5 years of participation in the Plan), or (2) the employer stock included in the payment must be attributable to "after-tax" employee

contributions, if any. Under this special rule, you must have the option of not paying tax on the "net unrealized appreciation" of the stock until you sell the stock.

Net unrealized appreciation generally is the increase in the value of the employer stock while it was held by the Plan. For example, if employer stock was contributed to your Plan account when the stock was worth \$1,000 but the stock was worth \$1,200 when you received it, you would not have to pay tax on the \$200 increase in value until you later sold the stock.

You may instead elect not to have the special rule apply to the net unrealized appreciation. In this case, your net unrealized appreciation will be taxed in the year you receive the stock, unless you roll over the stock. The stock (including any net unrealized appreciation) can be rolled over to an IRA or another employer plan either in a direct rollover or a rollover that you make yourself.

If you receive employer stock in a payment that qualifies as a lump sum distribution, the special tax treatment for lump sum distributions described above (such as 5-year averaging) also may apply. See IRS Form 4972 for additional information on these rules.

#### **IV. Surviving Spouses, Alternate Payees, and Other Beneficiaries**

In general, the rules summarized above that apply to payments to employees also apply to payments to surviving spouses of employees and to spouses or former spouses who are "alternate payees." You are an alternate payee if your interest in the Plan results from a "qualified domestic relations order," which is an order issued by a court, usually in connection with a divorce or legal separation. Some of the rules summarized above also apply to a deceased employee's beneficiary who is not a spouse. However, there are some exceptions for payments to surviving spouses, alternate payees, and other beneficiaries that should be mentioned.

If you are a surviving spouse, you may choose to have an eligible rollover distribution paid in a direct rollover to an IRA or paid to you. If you have the payment paid to you, you can keep it or roll it over yourself to an IRA but you cannot roll it over to an employer plan. If you are an alternate payee, you have the same choices as the employee. Thus, you can have the payment paid as a direct rollover or paid to you. If you have it paid to you, you can keep it or roll it over yourself to an IRA or to another employer plan that accepts rollovers. If you are a beneficiary other than the surviving spouse, you **cannot** choose a direct rollover, and you **cannot** roll over the payment yourself.

If you are a surviving spouse, an alternate payee, or another beneficiary, your payment is not subject to the additional 10% tax described in section III above, even if you are younger than age 59½.

If you are a surviving spouse, an alternate payee, or another beneficiary, you may be able to use the special tax treatment for lump sum distributions and the special rule for

payments that include employer stock, as described in section III above. If you receive a payment because of the employee's death, you may be able to treat the payment as a lump sum distribution if the employee met the appropriate age requirements, whether or not the employee had 5 years of participation in the Plan.

## **HOW TO OBTAIN ADDITIONAL INFORMATION**

This notice summarizes only the federal (not state or local) tax rules that might apply to your payment. The rules described above are complex and contain many conditions and exceptions that are not included in this notice. Therefore, you may want to consult with a professional tax advisor **before** you take a payment of your benefits from the Plan. Also, you can find more specific information on the tax treatment of payments from qualified retirement plans in IRS Publication 575, *Pension and Annuity Income*, and IRS Publication 590, *Individual Retirement Arrangements*. These publications are available from your local IRS office or by calling 1-800-TAX-FORMS.
