U.S. GOVERNMENT END USERS: Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are “commercial computer software” pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate failsafe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

1. Innovation Patch Release

1.1 Understanding Patch Release

A patch release is an official Oracle patch release for Oracle Banking Enterprise Limits and Collateral Management. Every quarter, an innovation or upgrade patch set is released. This patch set consists of new features and changes apart from the regular bug fixes that is being provided. An innovation or upgrade patch set is determined by the third digit in the release number. For example, 14.7.5.0.0 would indicate the third upgrade patch set under 14.7 release.

1.2 Patch Requirements

Customers installing this release must refer to ***14.7_Patchset_Deployment_Guidelines.docx*** included in the Patch Release zip file. Innovation patch set release starts from 14.7.0.0.0.

1.3 Applying the Patch Release

Customers installing this patch release must refer to the "Installation Guides" chapter in the Oracle Banking Enterprise Limits and Collateral Management 14.7 Install and Upgrade Guide, which is available here:

https://docs.oracle.com/cd/F75024_01/install.htm

Customers installing this patch release should refer to the Readme and Patch set deployment guides included in the Patch Release zip file.

2.Release Enhancements

Following enhancements are released as part of OBELCM 14.7.5.0.0 innovation patch set.

2.1 Drawing Power

- OBELCM now supports creation of facilities backed by Drawing Power (DP).
 - Provision to capture if the facility is DP backed by signifying DP amount.
 - New effective line amount basis as min (Limit amount, DP Amount) introduced which is applicable for DP backed facilities.
 - Signifying stock statement submission at facility maintenance (for DP backed facilities) by updating last stock statement submission date and DP amount.
 - Provision to specify the number of days for zeroization of drawing power and zeroizing the DP amount if configured number of days crossed since last stock submission date as part of the batch process.
 - System capability to restore drawing power on submission of latest stock statement.
 - Changes to inventory and account receivable collaterals to signify values based on stock statement submission.
 - Linkage of the collaterals to DP backed facility with handling of effective line amount.

2.2 Covenant Linkage Modification

- Covenants functionality is now enhanced to support modification of the existing covenant linkage attributes.
 - The modification is applicable at all covenant linkage levels – Facility, Collateral and Customer.
 - Below set of attributes are now allowed for modification, post linkage and during covenant lifecycle.
 - Frequency - change the frequency during the covenant period.
 - Notice Days - change a covenant's 'Notice days' during the covenant period.
 - Grace Days - change a covenant's 'Grace days' during the covenant period.
 - End Date – modify the covenant's end date.
 - Covenant Target Condition – modify the covenant's existing target condition value during the covenant period.
 - Covenant Target Value – modify the covenant's existing target value based on target condition.
 - System considers modification impact on current/next instance considering tracking.

3.Components of the Software

For information on software components, refer Components of the Software section in ***Oracle Banking Enterprise Limits and Collateral Management 14.7.0.0.0 Release Notes***.

4. Environment Details

For information on environment details, refer Annexure – A: Environment Details section in ***Oracle Banking Enterprise Limits and Collateral Management 14.7.0.0.0 Release Notes***.

5. Tech Stack

For information on Technical stack, refer ***Oracle Banking Enterprise Limits and Collateral Management 14.7.5.0.0 License Guide***.

6. Third Party Software Details

For information on third party software used, refer ***Oracle Banking Enterprise Limits and Collateral Management 14.7.0.0.0 License Guide***.

7. JEE Dependency Removal

The SMS, Common Core and ELCM modules have been updated to ensure compatibility for deployment on non-JEE application servers.
