2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Export LC Amendment Islamic

Conventional Export LC Amendment process enables the user to make an amendment to the LC which had been already advised.

The common amendments that are made to an Export LC are:

- Expiry date
- Latest Shipment Date
- Increase/Decrease in LC amount
- Tolerance percentage
- Confirmation instruction
- Available with bank
- Port of loading/discharge & Goods quantity
- Related documents to be submitted
- The amendments may need consent from the beneficiary of the amendment. In such scenarios, after the processing of amendment, the amended LC is parked awaiting beneficiary consent.

The various stages involved for Islamic Export LC Amendment are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input amendment application details
- Upload of related mandatory and non-mandatory documents
- Verify /capture details (SWIFT MT707, 708/Non Online Channels)- Scrutiny stage
- Input/Modify details of amendment of LC - Data Enrichment stage
- Check for limit availability if applicable
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Amendment process flow is similar to that of conventional Export LC Amendment process flow.

In the following sections, let's look at the details for Islamic Export LC amendment process.

This section contains the following topics:

3.1 Common Initiation Stage	Note 3.2 Registration

3.3 Scrutiny

Scrutiny user can scrutinize a request for Islamic Export LC Amendment.

As part of scrutiny, user can enter/update basic details of the Islamic LC Amend request and can verify if the request can be progressed further. The task initiated from the online channel (SWIFT MT707, 708 parsing) should be created in the Scrutiny stage directly as in conventional process flow.

MT707/708 Parsing-Conventional and Islamic Trade finance is applicable

When parsing the MT707/708, OBTFPM should read the SWIFT message,

- If 57A tag (ATB) value is available in the message, the task should be created in the Conventional Export LC Amendment process.
- If 57A tag (ATB) value is not available in the message, based on the Advising Bank Ref found in Tag 21 Receiver reference number, system should identify the product code from the Tag21 and create the task in Conventional/Islamic Export LC amendment.

MT707/708 Parsing-where Islamic Trade finance is applicable

When parsing the MT707/708, OBTFPM should read the SWIFT message and all the tasks should be created in the Islamic Export LC amendment process.

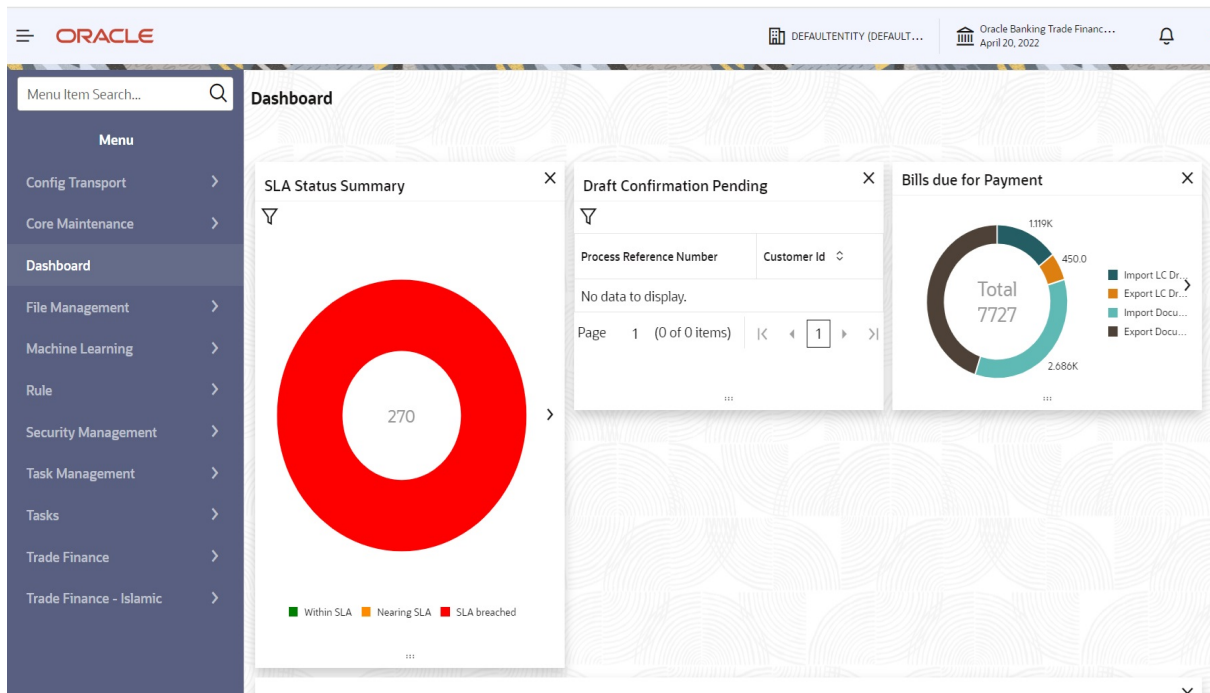

If the incoming message is MT 707, requests that are received via online channels like trade portal, external system and SWIFT should be available directly for further processing in OBTFPM from Scrutiny stage.

Do the following steps to acquire a task currently at Scrutiny stage:

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click **Trade Finance> Tasks> Free Tasks**.

The screenshot shows the Oracle Free Tasks page with a table of tasks. The table has columns: Acquire and Edit, Priority, Process Name, Process Reference Number, Application Number, Stage, and Applic.

3.3.5.5 FX Linkage Details

This section enables the user to link the existing FX contract(s) to the LC transactions. User can link multiple forward FX contracts. FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the Bill.

Following are the conditions of FX Linkage:

- If any LC Amendment is pending for beneficiary confirmation with FX changes, then the system, will not allow another amendment on this contract further.
- FX request will be processed in external system, only after successful amendment confirmation has been done.
- Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
- Delink of linked FX or Reduction of linked amount from the LC is allowed if the same is not attached to any Bills.
- Reduction of LC contract amount with FX, through LC amendment will be restricted, when the contract amount goes below the FX linkage amount. User will be intimated with the message.

3.5 Exceptions

The Export LC Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

3.5.1 Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values. On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account
