1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Export LC Closure - Islamic process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
	Exit
	Add row
	Delete row
	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Export LC Closure - Islamic

As part of Conventional Export LC Closure, System enables the user to Close the LC which had been already issued.

The various stages involved for Export LC Close are:

- Receive and verify documents and Input basic details (Non Online Channel)- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify details of Close of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Export LC Close process flow is similar to that of conventional Export LC Close process flow.

In the following sections, let's look at the details for Export LC closure process.

This section contains the following topics:

[3.1 Common Initiation Stage](#)

[3.2 Registration](#)

[3.3 Data Enrichment](#)

[3.4 Multi Level Approval](#)

3.1 Common Initiation Stage

The user can initiate the new Islamic Export LC closure request from the common Initiate Task screen.

1. Using the entitled login credentials, login to the OBTFPM application.
2. Click **Trade Finance > Initiate Task**.

The screenshot displays the Oracle OBTFPM application interface. On the left, a dark sidebar lists various tasks, with 'Initiate Task' selected. The main window has a header bar with 'Initiate Task' and user information. Below the header, the 'Registration' section contains two dropdown menus: 'Process Name' (selected as 'Export LC Closure - Islamic') and 'Branch' (selected as 'PK2-Oracle Banking Trade Finan...'). At the bottom right of the form area, there are two buttons: 'Proceed' and 'Clear'.

Provide the details based on the description in the following table:

Field	Description
Process Name	Select the process name to initiate the task.
Branch	Select the branch.

3.1.0.1 Action Buttons

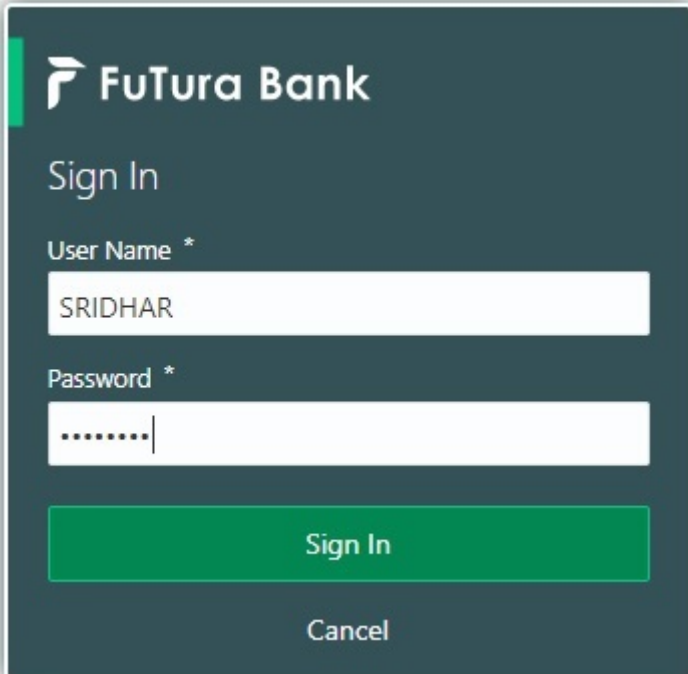

Use action buttons based on the description in the following table:

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	The user can clear the contents update and can input values again.

3.2 Registration

User can register request for Islamic Export LC closure in the Registration stage received at the front desk (as an application received physically/received by mail/fax). During Registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC close expert to handle the request in the next stage.

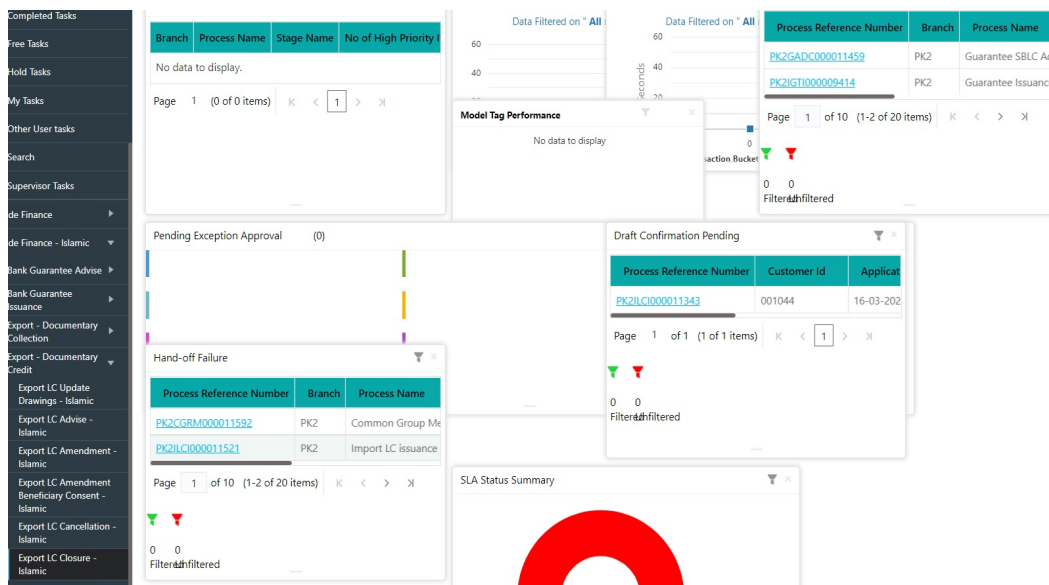

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

The image shows a login interface for FuTura Bank. At the top left is the FuTura Bank logo, which consists of a stylized 'F' icon followed by the text 'FuTura Bank'. Below the logo, the text 'Sign In' is displayed. There are two input fields: 'User Name *' with the text 'SRIDHAR' entered, and 'Password *' with masked characters '.....'. Below these fields are two buttons: a green 'Sign In' button and a 'Cancel' button.

- On login, user must be able to view the dashboard screen with widgets as mapped to the user.

- Click **Trade Finance - Islamic > Export - Documentary Credit > Export LC Closure - Islamic**.

The Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

View LC	Enables the user to view the latest snap shot of the LC details in a page.	
View LC Events	Enables the user to view the latest snap shot of the various events under the LC.	
Action Buttons		
Submit	On submit, task will get moved to next logical stage of Export LC Closure. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and displays the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Export LC Closure Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from beneficiary/customer and appropriate remarks must be provided.	
Checklist	<p>Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.</p> 	

3.3 Data Enrichment

On successful completion of Registration of an Export LC Closure request, the task moves to Data Enrichment stage. At this stage the gathered information during Registration are scrutinized.

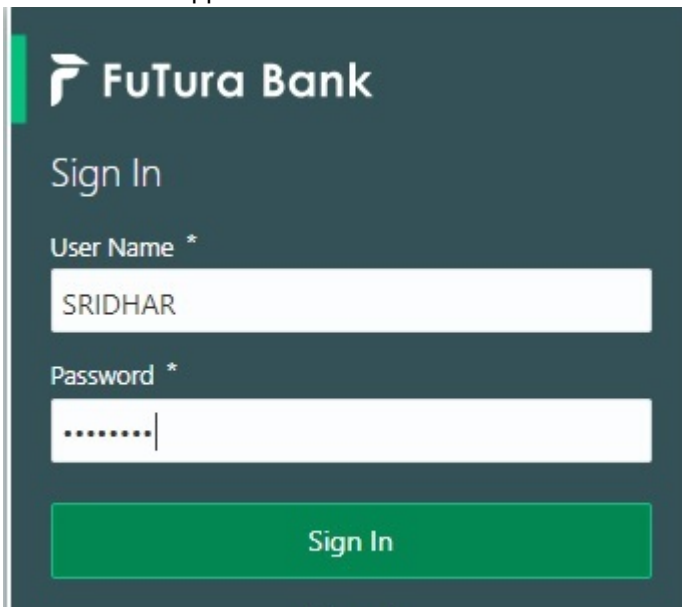

As a part of Data Enrichment, the user can review and input/enrich Export LC closure request. The user can also verify the basic details of closure request and can verify if the request can be progressed further. The transaction will have the details entered during the registration stage.

Note

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

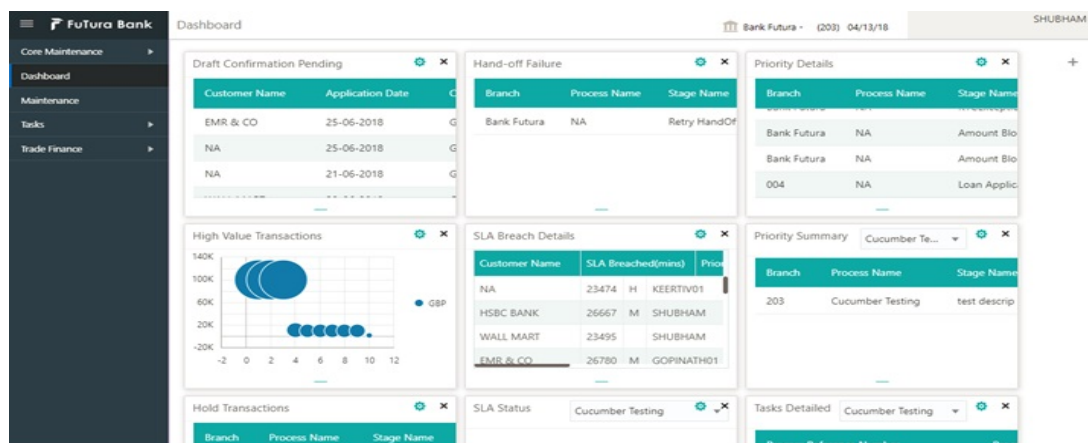

Do the following steps to acquire a task currently at Data Enrichment stage:

1. Using the entitled login credentials for Data Enrichment stage, login to the OBTFPM application.

The image shows the login interface for FuTura Bank. It features a dark blue header with the bank's logo and name. Below the header, the text "Sign In" is displayed. There are two input fields: "User Name *" with the value "SRIDHAR" and "Password *" with masked characters. A green "Sign In" button is located at the bottom of the form.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

The Data Enrichment stage has six sections as follows:

- Main Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the following sections. Some of the fields that are already having value from Registration/online channels may not be editable.

3.3.1 Main Details

Main details section has three sub section as follows:

- Application Details
- LC Details

This section provides a quick snapshot of details of LC. This Application section will be available in all the sections of Data Enrichment stage and the fields will be read only. This section is collapsible.

3.3.1.1 Application Details

All fields displayed under Application details section, would be read only except for the **Priority**. Refer to [3.2.1 Application Details](#) for more information of the fields.

Following fields are the additional new fields apart from the fields carried over from [3.2.1 Application Details](#) of [3.2 Registration](#). Provide the details for the two additional fields based on the description in the following table:

Field	Description	Sample Values
52a Issuing Bank	This field displays the issuing bank as available in LC.	

3.3.1.2 LC Details

The fields listed under this section are same as the fields listed under the [3.2.2 LC Details](#) section in [3.2 Registration](#). Refer to [3.2.2 LC Details](#) for more information of the fields. All fields displayed under LC Details section, would be read only.

3.3.1.3 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. <p>Select a Reject code and give a Reject Description.</p> <p>This reject reason will be available in the remarks window throughout the process.</p>	
Refer	<p>On click of Refer, user will be able to refer the task back to the selected stage user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others. 	

Field	Description	Sample Values
Hold	The details provided will be on hold. This option is used, if there are any pending information yet to be received from beneficiary/customer and appropriate remarks must be provided.	
Cancel	Cancel the Data Enrichment stage inputs.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	
Documents	Upload the required documents. Application displays mandatory documents to be uploaded for export LC Closure. Place holders are also available to upload additional documents submitted by the applicant. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.	
Remarks	Provide any additional information regarding the LC. This information can be viewed by other users processing the request.	
Overrides	Click to view the overrides accepted by the user.	
Customer Instructions	Click to view/ input the following <ul style="list-style-type: none"> ● Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. ● Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	

Field	Description	Sample Values
Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
View LC	Enables the user to view the latest snap shot of the LC details in a page.	
View LC Events	Enables the user to view the latest snap shot of the various events under the LC.

Refer	<p>User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance- Limits • R5 - Others 	
Cancel	Cancel the approval.	
Approve	<p>On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>	

3.4.1 **Handoff:**

On Approve, the task is handed off to the back office for postings. In the back office, the relevant accounting entries are posted, advises are generated, charges and tax to be collected are posted.

In case there is a failure in Handoff, the task lands to retry handoff queue. The user can manually try to initiate handoff.
