1. Preface

1.1 Introduction

This user manual is designed to help you quickly get acquainted with Import LC Update Drawings Islamic process in Oracle Banking Trade Finance Process Management.

1.2 Audience

This manual is intended for the following User/User Roles:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

1.3 <u>Documentation Accessibility</u>

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

1.4 Organization

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

1.5 Related Documents

- Getting Started User Guide
- Common Core User Guide

1.6 <u>Diversity and Inclusion</u>

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry

standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.7 Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1.8 <u>Screenshot Disclaimer</u>

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Glossary of Icons

This User Manual may refer to all or some of the following icons.

Icons	Function
×	Exit
+	Add row
_	Delete row
Q	Option List

2. Oracle Banking Trade Finance Process Management

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

2.1 Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

2.2 Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

2.3 Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

3. Import LC Update Drawing Islamic

Details of Drawing under an Import LC can be updated before liquidation, this can be on account of applicant response on discrepancy or change of maturity date etc. The update can be requested through Online/Offline channels.

The various stages involved for Islamic Import LC Drawing update are:

- Receive and verify documents (Non Online Channel)- Registration stage
- Input application details
- Upload of related mandatory and non-mandatory documents received from the presenting bank
- Verify documents and capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of update Drawing Data Enrichment stage
- Check for limit availability if applicable
- Check balance availability for amount block if applicable
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

The Islamic Import LC Drawing Update process flow is similar to that of conventional Import LC Drawing Update process flow.

This section contains the following topics:

3.1 Registration	3.2 Scrutiny
3.3 Data Enrichment	3.4 Exceptions
3.5 Multi Level Approval	3.6 Reject Approval

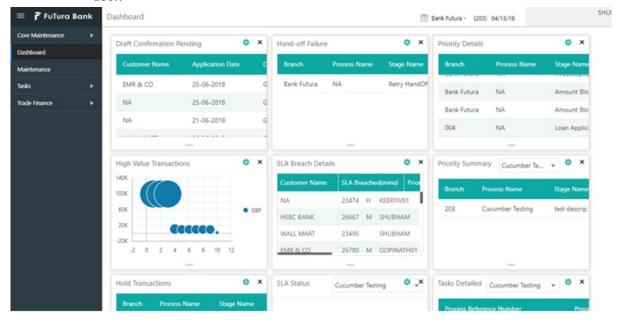

3.1 Registration

During Registration stage, user registers request for an Islamic Import LC Update Drawing at the front desk (as an application received physically/Courier). User can also capture the basic details, check the signature of the applicant and upload the documents received from presenting bank. System also enables the user to capture some additional product related details as an option. On submit of the request the request will be available for an LC expert to handle the request in the next stage.

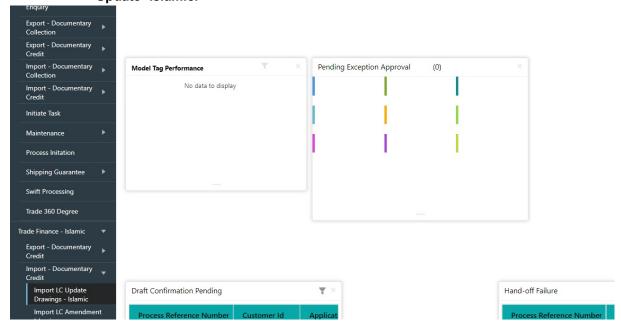

1. Using the entitled login credentials for Registration stage, login to the OBTFPM application.

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

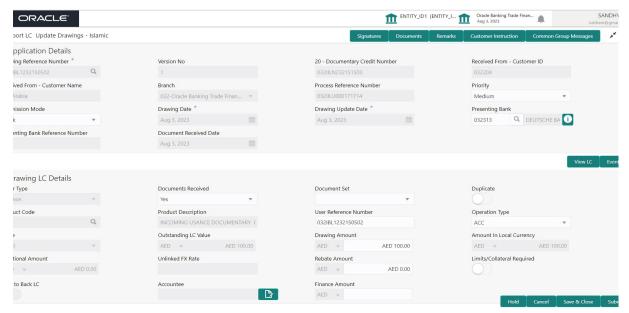

3. Click Trade Finance- Islamic > Import - Documentary Credit> Import LC Drawing Update- Islamic.

The Registration stage has two sections Basic Details and Drawing Details. Let's look at the details of Registration screens below:

3.1.1 Application Details

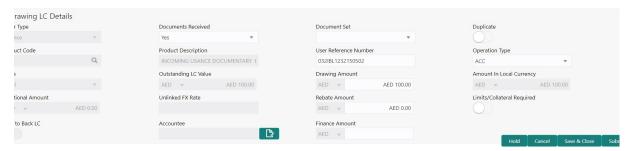

Provide the Basic Details based on the description in the following table:

Field	Description	Sample Values
Drawing Reference Number	Provide the drawing reference number. Alternatively user can search the drawing number using LOV. In the LOV, user can input Drawing Reference Number, LC Drawing Reference Number, Counter Party, Beneficiary, Currency, Amount, Issue Date and Ext Reference Number to fetch the LC details. Based on the search result, select the applicable LC for drawing. Note In case the selected Bank is not RMA Compliant, the system displays error message "RMA arrangement not available".	
Version Number	Read only field. Version number is the versions of the drawing update.	
Documentary Credit Number	Read only field. Documentary credit number will be auto-populated based on selected LC from the LOV.

Accountee	Read only field. This field displays the Accountee based on the selected LC.	
Finance Amount	Specify the value for finance amount.	

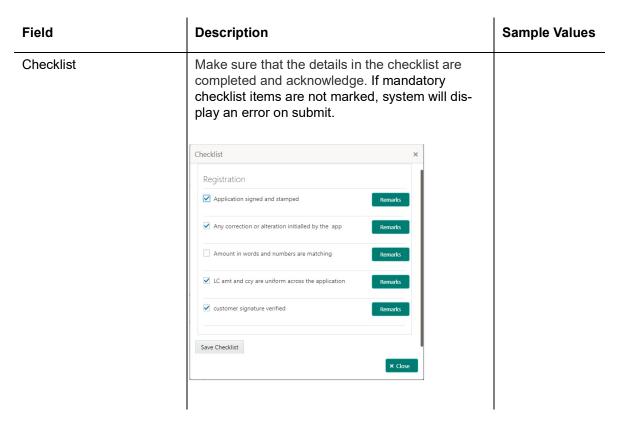

3.1.3 Miscellaneous

Provide the Miscellaneous Details based on the description in the following table:

Field	Description	Sample Values
Documents	Upload the documents received under the LC.	

Field	Description	Sample Values
Remarks	Provide any additional information regarding the drawing. This information can be viewed by other users processing the request.	
Customer Instructions	Click to view/ input the following	
	 Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. 	
	 Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions. 	
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
	A walk-in customer of the receiving bank can be sent a common group message by the BIC.	
View LC	Enables the user to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.	
Events	On click, system will display the details of LC issuance, amendments (if any), drawings (if any) and liquidations if any under the LC in chronological sequence from Issuance.	
Action Buttons		1
Submit	On submit, task will get moved to next logical stage of Import LC Update Drawing Islamic.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in you queue for working later. This option will not submit the request.	
Cancel	Cancels the Import LC Update Drawing Islamic Registration stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	

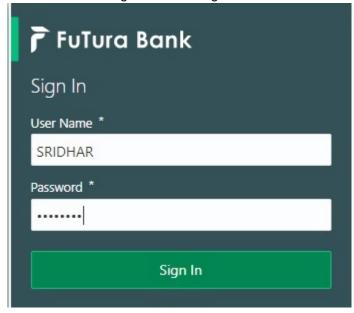

3.2 **Scrutiny**

A Scrutiny user can scrutinize the request for Islamic Import LC Drawing update.

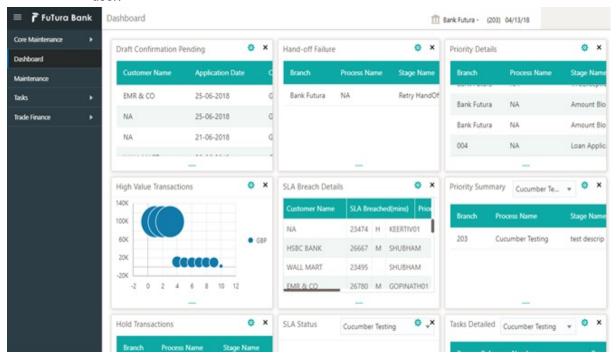

As part of scrutiny, the user can enter/update basic details of the Islamic LC Drawing update request and can verify if the request can be progressed further. The task initiated from the online channel (OBDX/SWIFT MT798) should be created in the Scrutiny stage directly as in conventional process flow.

Do the following steps to acquire a task at Scrutiny stage:

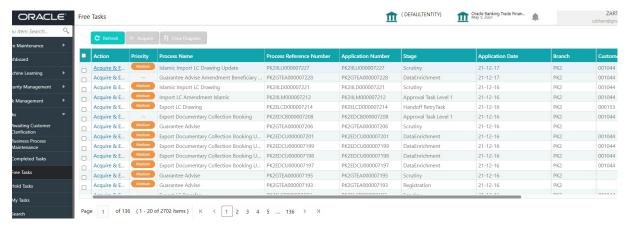

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

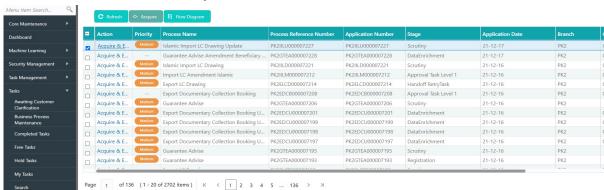

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Scrutiny stage has hops which are as follows:

- Main Details
- Drawing Summary
- Other Details
- Maturity Details
- Additional Details
- Summary

Let's look at the details for Scrutiny stage. User must be able to enter/update the following fields. Fields with pre-defaulted values are non editable.

3.2.2 Drawing Summary

3.2.2.1 **Document Details**

User can compare the document received with the required documents and identify the discrepancies, if any. Provide the information based on the description in the following table:

Field Description Sample Values

Document Details - As per LC

This table will fetches the document details as maintained in the underlying LC(LCDTRONL). User can modify the details only which are fetched from underlying LC.

User can not add or delete any document details.

Once bill drawing is authorized and if update drawing is processed, details of this table will be fetched from underlying bill drawing.

Field	Description	Sample Values
Document Code	Document code is auto-populated from the latest LC.	
Document Reference Number	Enables user to provide the reference number available in the documents.	
Document Date	Displays the document date.	
	The user can change the date.	
	Note	
	If "Document date" is more than "Shipment Date" system displays an override alert.	
Description	Description of the document required as per LC.	
	Click the link to view the description.	
First Mail Received Copy	Update the number of duplicate copies of documents received.	
First Mail Received Original	Update the number of originals of documents received.	
Document Clause	Displays the document clause.	
	Click the link to view the document clause.	
Received Description	Displays the description of the documents received from presenting bank.	
	Click the link to view the received description.	
Discrepant	System marks the discrepant toggle as 'Yes' if there is difference between number of documents required and number of documents received. It also enables the user to make the changes, if any discrepancy identified in the document.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
	This field is enabled if Discrepant option is enabled.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Resolved Under MT750	If the discrepancy has already been highlighted in the MT750 and the customer has 'Accepted/ Waived' the discrepancy then the user must set the value as 'Yes' in the toggle. The discrepancies which are resolved under MT750 will not be available in the Discrepancy summary field.	
Action	Edit: Click edit to edit the document code.	

Additional documents presented

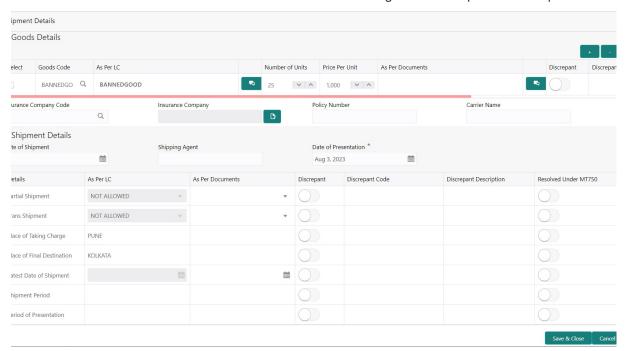

This table fetches document details as maintained for the specific bill drawing product (BCD-PRMNT). Here user can add/modify/delete additional document received, if any, during bill drawing. Once bill drawing is authorized, details from this table will be fetched in update drawing operation also.

The user can click + to add multiple document details.

	·	
Document Code	Click Search to search and select the document code based on the document received.	
	User can add or delete the code by deleting the line on the grid.	
	Note	
	The User is not allowed to add any document code which is already existing in any of the two tables.	
Document Reference Number	Enables to user to provide the reference number available in the documents.	
Document Date	Provide the document date of the underlying document.	
	Note	
	If "Document date" is more than "Shipment Date" system displays an override alert.	
Description	Displays the description of the additional docu-	
	ments based on the document code selected.	
	Click the link to view the description of the document.	
First Mail Received Copy	Provide the number of duplicate copies of documents received from first mail.	
First Mail Received Original	Provide the number of originals of documents received from first mail.	
Action	Edit: Click edit to edit the document code	
	Delete: Click Delete to delete the document code.	
	Note	
	The User can not be able to delete any document detail fetched from previous operation.	

3.2.2.2 Shipment Details

User must check whether the received documents of goods and shipment are as per the LC.

3.2.2.3 Goods Details

Provide the Goods Details based on the description in the following table:

Field	Description	Sample Values	
The user can click + to add	The user can click + to add multiple good details.		
Select	The check box to select the record.		
Goods Code	This field displays goods code as per latest LC.		
	User can click plus + icon and click Search to search and select the goods code.		
	User can add or delete the code by deleting the line on the grid.		
As per LC	This field displays description of the goods as per the latest LC.		
Number of Units	Enter the number of units being imported or exported.		
Price per Unit	Enter the value for price per unit.		
As per Documents	Provide the description of the goods as per the documents.		
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.		

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
	This field is enabled if Discrepant option is set to 'Yes'.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
	Click the edit icon to edit the discrepancy description.	
Insurance Company Code	Click Search to search and select the insurance company code.	
Insurance Company	The details of insurance company is populated as per the selected Insurance Company Code.	
Policy Number	Provide the policy number of the insurance.	
Carrier Name	Provide the details of the carrier as per the documents received, if the goods got shipped via multiple carriers.	

3.2.2.4 Shipment Details

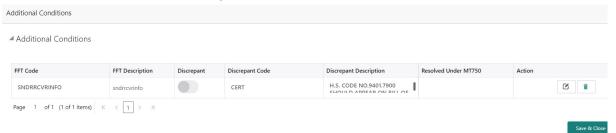

Provide the Shipment Details based on the description in the following table:

Field	Description	Sample Values
Date of Shipment	Provide the date of shipment as per the documents received.	
	This field is validated against the Latest Date of Shipment in LC to check for discrepancy.	
Shipping Agent	Provide the shipping agent details based on the documents received.	
Date of Presentation	Auto-populated based on the system date. If Place of expiry is Issuing bank, This field is validated against the Expiry Date in LC to check for discrepancy.	
Details	Details represent the fields in latest LC.	
As per LC	This field displays description of the fields as per the latest LC terms.	
As Per Document	Provide/Select the description of the field as per documents submitted.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	

Field	Description	Sample Values
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
	This field is enabled if Discrepant option is set to 'Yes'.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	
Resolved Under MT750	If the discrepancy has already been highlighted in the MT750 and the customer has 'Accepted/ Waived' the discrepancy then the user must set the value as 'Yes' in the toggle.	
	The discrepancies which are resolved under MT750 will not be available in the Discrepancy summary field.	

3.2.2.5 Additional Conditions

Enables the user to check the whether the documents received comply with the additional conditions mentioned in LC.

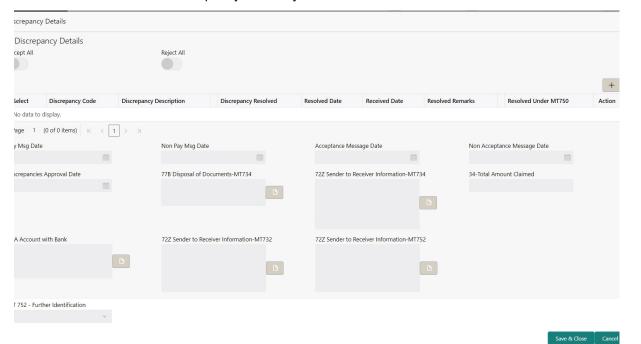

This section displays the list of additional conditions as per LC. Provide the Additional Conditions details as per the description in the following table:

Field	Description	Sample Values
FFT Code	This field displays the FFT code as per the latest LC.	
FFT Description	This field displays the description of the FFT code as per the latest LC.	
Discrepant	User shall mark the discrepant toggle as 'Yes' if there is difference between LC requirement and documents received.	
Discrepancy Code	Select the discrepancy code based on the discrepancy identified.	
	This field is enabled if Discrepant option is set to 'Yes'.	
Discrepancy Description	Description will be displayed based on the discrepancy code.	

Field	Description	Sample Values
Resolved Under MT750	If the discrepancy has already been highlighted in the MT750 and the customer has 'Accepted/ Waived' the discrepancy then the user must set the value as 'Yes' in the toggle.	
	The discrepancies which are resolved under MT750 will not be available in the Discrepancy summary field.	

3.2.2.6 <u>Discrepancy Details</u>

This section displays the list of discrepancies captured. This section displays the list of discrepancies captured. The discrepancies which are resolved under MT750 will not be available in the discrepancy summary.

3.2.2.7

Field	Description	Sample Values
Accept All	To accept all the discrepancy. System will auto update the Discrepancy status as 'Accepted' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any.	
Reject All	To reject all the discrepancy. System will auto update the Discrepancy status as 'Rejected' and Resolved Date to branch date for all the discrepancy records. User can capture the Resolved Remarks for individual discrepancy if any.	
Select	Read only field.	
	The option to select the record.	
Discrepancy Code	Read only field.	
	This field displays the discrepancy code based on the discrepancy identified.	
Discrepancy Description	Read only field.	
	This field displays the description based on the description code.	
Discrepancy Resolved	Toggle 'Yes' indicates discrepancy is resolved.	
Resolved Date	The date when discrepancy is resolved.	
Received Date	The discrepancy received date.	
	By default the system displays the current branch date.	
Resolved Remarks	The remarks for discrepancy resolution.	
Resolved Under MT750	The discrepancies which are resolved under MT750 are listed hers and will not be available in the Discrepancy summary field.	
Action	Click Edit icon to edit the discrepancy details.	
	Click Delete icon to delete the discrepancy details.	
Pay Msg Date	The pay message date.	
Non Pay Msg Date	The non pay message date.	
Acceptance Message Date	The acceptance message date.	
Non Acceptance Message Date	The non acceptance message date.	
Discrepancies Approval Date	The date of discrepancies approval.	

Field	Description	Sample Values
Disposal of Documents- MT734	Read only field.	
	Disposal of documents is auto populated.	
Sender to Receiver Infor- mation-MT734	Read only field.

cation	The options are:	
	Accept	
	Debit Negatiote	
	NegotiateReimburse	
	Remitted	
	• SEE72	

3.2.2.8 FX Linkage

This section enables the user to link the existing FX contract(s) to the drawing. User can link one or more FX deals to a drawing/bill. The linked value of an FX deal(s) must not exceed the value of the drawing/bill.

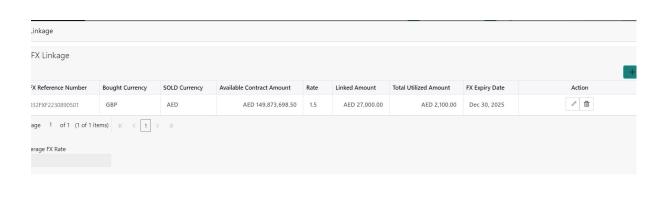

FX contract linkage with the Drawing/Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the drawing/bill.

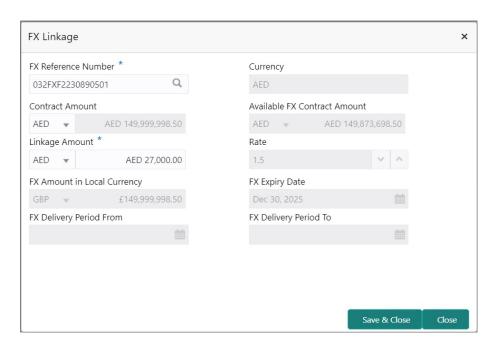

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.

- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate.

Provide the FX linkage detail based on the description in the following table:

Field Description Sample Values

Click + plus icon to add new FX linkage details.

Below fields are displayed on the FX linkage pop-up screen, if the user clicks plus icon.

Field	Description	Sample Values
FX Reference Number	Select the FX contract reference number from the LOV.	
	On select and save and close, system defaults the available amount, bot currency, sold currency and rate.	
	Forward FX Linkage available for selection at bill would be as follows,	
	 Counterparty of the FX contract should be the counterparty of the Bill contract.

Common Group Message	Click Common Group Message button, to send MT799 and MT999 messages from within the task.	
Incoming Message	Displays the incoming message, if any.	
View Events	Click this button to view all the Undertaking events under the LC Issued till date.	

Field	Description	Sample Values
Signatures	Click the Signature button to verify the signature of the customer/ bank if required.	
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.	
	If more than one signature is required, system should display all the signatures.	
Submit	Task will get moved to next logical stage of Import LC Update Drawing.	
	If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.	
Save & Close	Save the information provided and holds the task in user's queue for working later. This option will not submit the request	
Cancel	Cancel the Data Enrichment stage inputs.	
Hold	The details provided will be registered and status will be on hold. This option is used, if there are any pending information yet to be received from applicant.	
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes: R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others. Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.	
Refer	User must select a Refer Reason from the values displayed by the system. Refer Codes: R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others.	

Field	Description	Sample Values
Next	On click of Next, system should validate if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.	

3.3 Data Enrichment

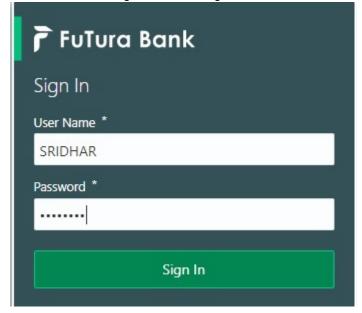

Data Enrichment is applicable only for non-discrepant drawings. A DE User can input Import LC update Drawing. As part of data enrichment user will enter/update basic details of the incoming request.

Note

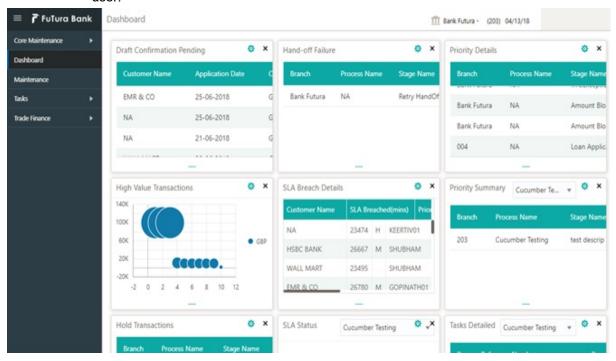

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task at Data Enrichment stage:

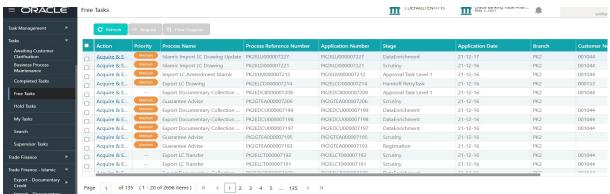

1. Using the entitled login credentials for Scrutiny stage, login to the OBTFPM application.

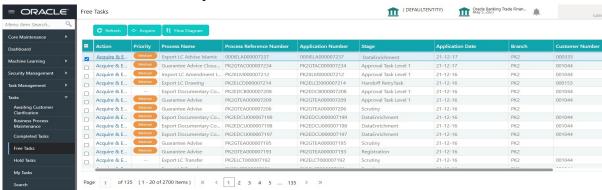

2. On login, user must be able to view the dashboard screen with widgets as mapped to the user.

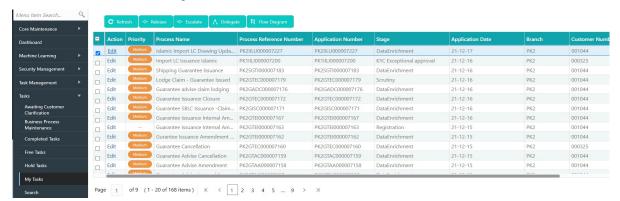

3. Click Trade Finance> Tasks> Free Tasks.

4. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks** tab.

5. The acquired task will be available in **My Tasks** tab. Click **Edit** to provide input for Data Enrichment stage.

The Data Enrichment stage has five sections as follows:

- Main Details
- Drawing Summary
- Other Details
- Advices
- Maturity Details
- Additional Details
- Settlement
- Summary

Let's look at the details for Data Enrichment stage. User must be able to enter/update the following fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

3.3.1 Main Details

Refer to 3.2.1 Main Details.

3.3.2 **Drawing Summary**

3.3.2.1 **Document Details**

Refer to 3.2.2.1 Document Details.

3.3.2.2 **Shipment Details**

Refer to 3.2.2.2 Shipment Details.

3.3.2.3 Additional Conditions

Refer to 3.2.2.5 Additional Conditions.

3.3.2.4 Discrepancy Details

Refer to 3.2.3 Other Details.

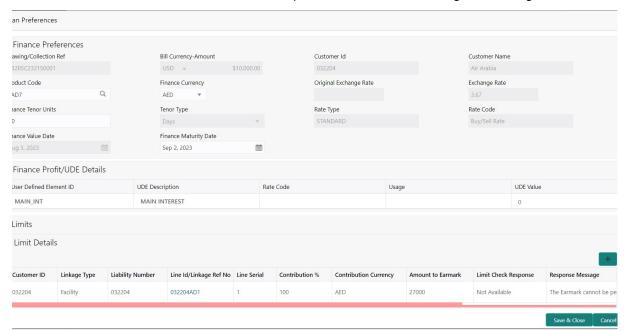

3.3.2.5 Payment DetailsRefer to 3.2.5.5 Payment Details.

3.3.2.6 FX Linkage

Refer to 3.2.2.8 FX Linkage.

3.3.2.7 Finance Preference

This section enables the user to request for a loan to liquidate the drawing under the LC. This section will be enabled based on the product selected for booking the drawing under the LC.

Provide the loan preference details based on the description in the following table:

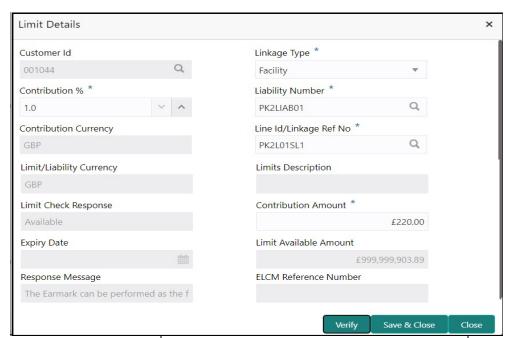

Field	Description	Sample Values
Drawing/Collection Ref	Read only field.	
	Defaults from the underlying task. User cannot change the value.	
Bill Currency-Amount	Read only field.	
	Outstanding Drawing/ Collection Currency and Amount. Defaults from the underlying task. User cannot change the value.	
Product	Read only field.	
	This field displays the loan product linked to the drawing product.	
Customer ID	Read only field.	
	This field displays the customer ID of the applicant/applicant bank.	
Customer Name	Read only field.	
	This field displays the applicant/applicant bank name.	

Field	Description	Sample Values
Product Code	Defaults from the underlying Collection/ Drawing Product maintenance.	
	The user can change the Product Code.	
	Click Search to search and select the product code.	
Finance Currency	Finance currency is defaulted from the bill currency. User can change this to Local Currency.	
	Note	
	Loan currency allowed either in contract currency or in local currency.

Exchange Rate	Read only field.	
	This field will be enabled only if the Drawing currency and Loan Currency are different. If FX linkage is available, system to display the Exchange rate from FX linkage. System will display the card rate, if FX linkage is not applicable.	
Finance Tenor Units	Period of loan.	
	System defaults the value as per the selected loan product. User can change the value within the variance of loan tenor. The numerical value for Days or months or Years is applicable.	
Tenor Type	Read only field.	
	System defaults the value as per the selected loan product. Values are Days, Months and Years. The numerical value for Days or months or Years is applicable.	
Rate Type	System defaults the rate type as part of simulation.	
Rate Code	System populates the Rate code as part of simulation.	
Finance Value Date	System defaults the branch date as Value date. User cannot change the value.	
Finance Maturity Date	Loan maturity date as default based on Tenor type and Tenor units.	

Finance Profit/UDE Details

Field	Description	Sample Values
User Defined Element ID	System populates the UDE Element ID as part of simulation. User are allowed to change the selection through LOV.	
UDE Description	System populates the UDE description as part of simulation. If a user changes the UDE ID, system should populate the description.	
Rate Code	System populates the Rate code as part of simulation.	
Usage	System populates the details as part of simulation.	
UDE Value	System populates the value as part of simulation.	

Limits

Field	Description	Sample Values
Plus Icon	Click plus icon to add new Limit Details.	
+		

Limit Details

Click + plus icon to add new limit details.

Below fields are displayed on the Limit Details pop-up screen, if the user clicks plus icon.

Customer ID	Applicant's/Applicant Bank customer ID will get defaulted.	
	User can change the customer ID.	

Field	Description	Sample Values
Linkage Type	Select the linkage type. Linkage type can be: Facility Liability	
Contribution%	System will default this to 100%. User can modify, if contribution is more than 100%. System will display an alert message, if modified.	
	Once contribution % is provided, system will default the amount.	
	System to validate that if Limit Contribution% plus Collateral% is equal to 100. If the total percentage is not equal to 100 application will display an alert message.	
Liability Number	Click Search to search and select the Liability Number from the look-up.	
Contribution Currency	Read only field.	
	The LC currency will be defaulted in this field.

Limit/ Liability Currency	Read only field.	
	Limit Currency will be defaulted in this field, when you select the Liability Number	
Limits Description	This field displays the limits description.	
Limit Check Response	Response can be 'Success' or 'Limit not Available' based on the limit service call response.	
Amount to Earmark	Amount to Earmark will default based on the contribution %.	
	User can change the value.	

Field	Description	Sample Values
Expiry Date	This field displays the date up to which the Line is valid	
Limit Available Amount	This field will display the value of available limit, i.e., limit available without any earmark. The Limit Available Amount must be greater than the Contribution Amount.	
Response Message	Detailed Response message.	
ELCM Reference Number	This field displays the ELCM reference number.	
Below fields appear in the Limit Details grid along with the above fields.		
Line Serial	Displays the serial of the various lines available and mapped under the customer id.	
	This field appears on the Limits grid.	
Edit	Click the link to edit the Limit Details	
Delete icon	Click delete icon to delete the existing limit details.	

3.3.3 Additional Fields

Refer to 3.3.3 Additional Fields.

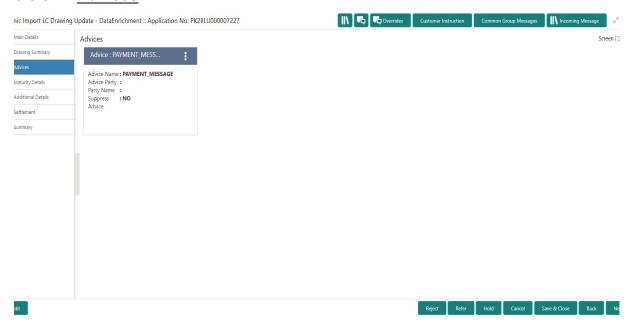

3.3.4 Other Details

Refer to 3.2.3 Other Details

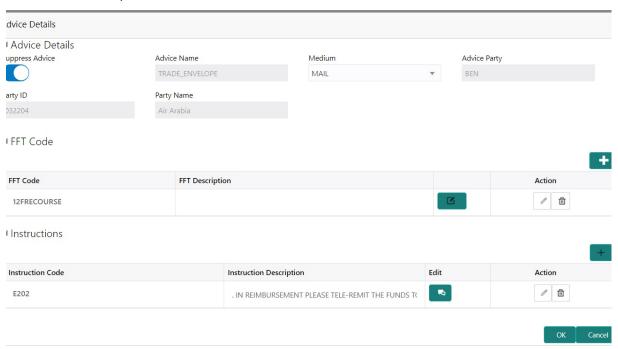

3.3.5 <u>Maturity Details</u>

Refer to 3.2.4 Maturity Details.

Advices 3.3.6

Advices menu displays the advices from the back office as tiles. User can edit the fields in the tile, if required.

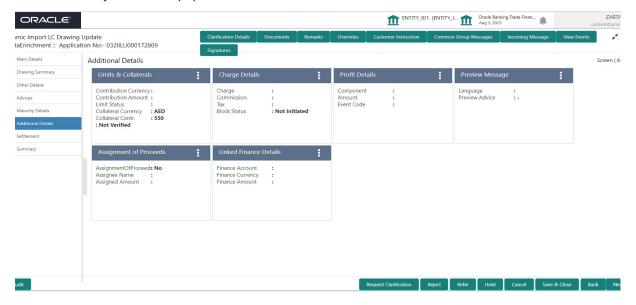

Field	Description	Sample Values
Suppress Advice	Toggle on : Switch on the toggle if advice is suppressed.	
	Toggle off : Switch off the toggle if suppress advice is not required for the amendments	

Field	Description	Sample Values
Advice Name	Read only field.	
	This field displays the advice name defaulted from drawing LC.	
Medium	The medium of advices is defaulted from the system.	
	User can update if required.	
Advice Party	Read only field.	
	Value be defaulted from drawing LC.	
Party ID	Read only field.	
	Value be defaulted from drawing LC.	
Party Name	Read only field.	
	Value be defaulted from drawing LC .	
Free Format Text	,	
	Click plus icon to add new FFT code.	
+		
FTT Code	User can select the FFT code as a part of free text.	
FFT Description	FFT description is populated based on the FFT code selected.	
D ₂	Click edit icon to edit any existing FFT code.	
Action	Click Edit icon to edit the FFT details.	
	Click Delete icon to delete the FFT details.	
Instruction Details		
+	Click plus icon to add new instruction code.	
Instruction Code	User can select the instruction code as a part of free text.	
Instruction Description	Instruction description is populated based on the Instruction code selected.	
D ₂	Click edit icon to edit any existing Instruction code.	

Field	Description	Sample Values
Action	Click Edit icon to edit the instruction details.	
	Click Delete icon to delete the instruction details.	

3.3.7 Additional Details

As part of DE the user can verify and enter the basic additional details available in the Islamic Import LC Update Drawing. In case the request is received through online channel user will verify the details populated.

3.3.7.1 Limits & Collateral

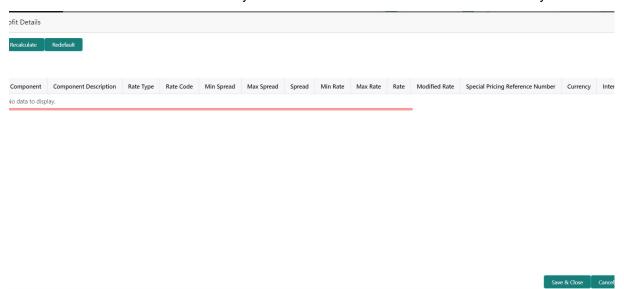

Refer to 3.2.5.1 Limits & Collateral.

3.3.7.2 Charge Details

Refer to Commission, Charges and Taxes Details.

3.3.7.3 Profit Details

The user can view and modify the Interest Details Simulated from Back Office system.

3.3.7.4

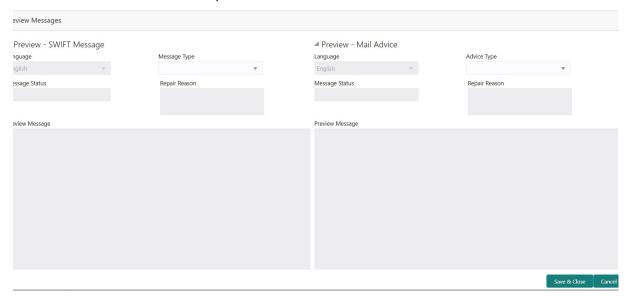

Field	Description	Sample Values
Component	This field displays the component maintained in the back office.	
Component Description	This description of the component.	
Rate Type	System defaults the rate type maintained for the component in back office.	
	Value can be:	
	Fixed Floating	
	Special	
Rate Code	This field displays the rate code applicable for the Componen.	
Min Spread	This field displays the minimum spread applicable for the Rate Code.	
	This field have value only if the Rate Type is Floating.	
Max Spread	This field displays the maximum spread applicable for the Rate Code.	
	This field have value only if the Rate Type is Floating .	
Spread	This field displays the spread applicable for the Component in case of Floating Rate Component. User can change the defaulted value.	
	System validates whether the spread input is within the Minimum to Maximum Spread.	
Min Rate	This field displays the minimum rate applicable for the Rate Code.	
Max Rate	This field displays the maximum rate applicable for the Rate Code.	
Rate	This field displays the value applicable for the Rate Code.	
	User can change the value if the Rate Type is Fixed . System validates whether the Rate input is between the Minimum and Maximum Rate.	
Modified Rate	This field displays the modified rate.	

Field	Description	Sample Values
Special Pricing Reference Number	Specify the Special Pricing Reference Number, when there is a special Interest rate to be provided for that customer against the interest component (Main Component).	
	Special Pricing Reference is not applicable for Penal Interest components.	
	For transactions initiated from OBDX, the Special Pricing Reference Number will be populated from OBDX and user cannot edit the same.	
	System displays an override as "Special Pricing Applicable", on clicking "Save" in the Interest Details screen, if Special Pricing Reference number has been provided.	
Currency	System defaults the Interest currency in this field.	
Interest Amount	User can input the interest amount, in case the Rate Type is Special, else user can not be able to input the amount. In such cases, the amount will be calculated by back office immediately only if the Interest is collected in Advance or if Back Dated Interest is collected. In that scenario, the Amount will be populated on Re-simulation from back office. Otherwise Interest will be calculated only in the batch as maintained.	
Waive	User can waive the Interest applicable. System displays an override, if the user has waived the Interest.

Settlement Currency	System defaults the Settlement Currency of the Charge Party for debit of Interest.	

Field	Description	Sample Values
Settlement Branch	System defaults the Settlement branch of the the settlement branch.	

3.3.7.5 <u>Preview</u>

User can view the draft preview of the advise.

3.3.7.6

Field	Description	Sample Values
Preview - SWIFT Message		
Language	Read only field. English is set as default language for the preview.	
Message type	Select the message type from the drop down. User can choose to see preview of different message like MT 700, MT 740 and MT 701.	
Message Status	Read only field. Display the message status of draft message of drawing details.	
Repair Reason	Read only field. Display the message repair reason of draft message of drawing details.	
Preview Message	Display a preview of the draft message.	
Preview - Mail Device		
Language	Read only field. English is set as default language for the preview.	
Advice Type	Select the advice type.	
Message Status	Read only field. Display the message status of draft message of drawing details.	
Repair Reason	Read only field. Display the message repair reason of draft message of drawing details.	
Preview Message	Display a preview of the advice.	

3.3.7.7 Assignment of Proceeds

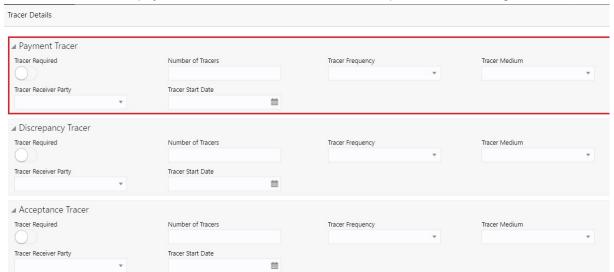

Refer to 3.3.7.8 Tracer Details 3.2.5.6 Assignment of Proceeds.

3.3.7.8 <u>Tracer Details</u>

User can trace the response for the discrepancies identified.

Payment Tracer

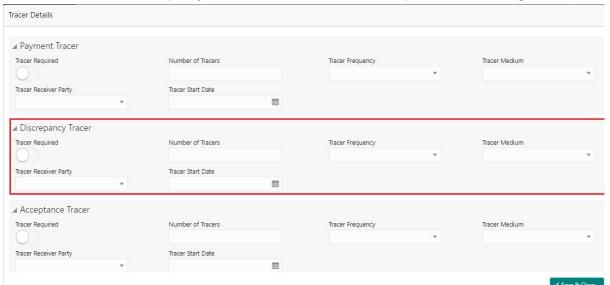

Provide the payment tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details.	
	Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV:	
	Mail For all	
	EmailSwift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

Discrepancy Tracer

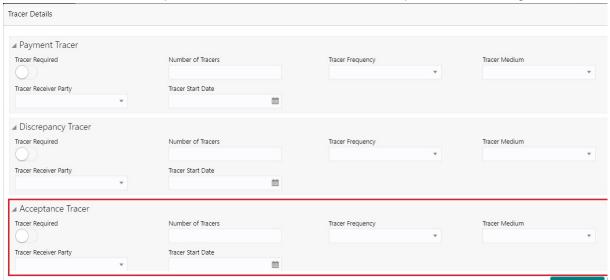

Provide the discrepancy tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details.	
	Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: • Mail • Email • Swift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

Acceptance Tracer

Provide the acceptance tracer details based on the description in the following table:

Field	Description	Sample Values
Tracer Required	Toggle on - Switch on the toggle to capture the tracer details.	
	Toggle off - Switch of the toggle, if user does not require to capture tracer details.	
Number of Tracers	Provide the number of tracers required.	
Tracer Frequency	System will default the days set up at the product level. Value can be 1, 2 etc. which represents daily, once in 2 days etc.	
Tracer Medium	Select the tracer medium from the LOV: Mail Email Swift	
Tracer Receiver Party	Read only field. 'Applicant' will be defaulted as tracer receiver party.	
Tracer Start Date	Capture the tracer start date. If the date is earlier than system date, system to display an error message.	

3.3.7.9

3.3.7.10 Linked Finance Details

This user can view the details of linked loan accounts.

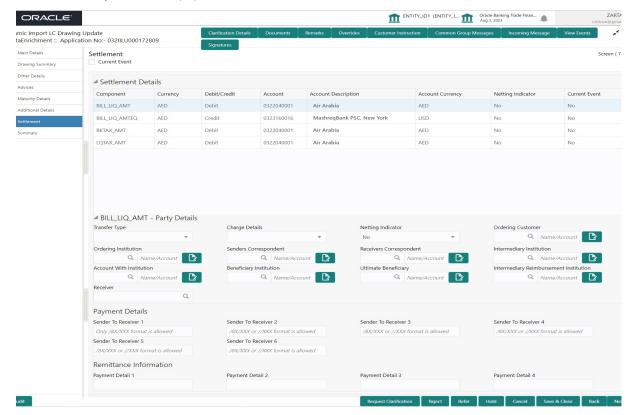

Provide the linked loan details based on the description in the following table:

Field	Description	Sample Values
Finance Account	The details of the linked finance account.	
Finance Currency	Finance Currency of the linked loan account.	
Finance Amount	Finance amount of the linked loan account.	

3.3.8 Settlement Details

As part of DE, the user will verify and enter the basic additional details available in the Islamic Import LC update drawing. In case the request is received through online channel user will verify the details populated.

Provide the settlement details based on the description in the following table:

Field	Description	Sample Values
Currency Event	The user can select the check box to populate the settlement details of the current event associated with the task. On De-selecting the check box, the system list all the accounts under the settlement details irrespective of the current event.	
Component	Components gets defaulted based on the product selected.	
Currency	Application displays the default currency for the component.	
Debit/Credit	Application displays the debit/credit indicators for the components.	
Account	Application Displays the account details for the components.	
Account Description	Application displays the description of the selected account.	
Account Currency	Application defaults the currency for all the items based on the account number.	
Netting Indicator	Application displays the applicable netting indicator.	
Current Event	Application displays the current event as Y or N.	
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF	
Exchange Rate	The exchange rate.	
Deal Reference Number	The exchange deal reference number.	

On click of any component in the grid, the application displays Party Details, Payment Details and Remittance Information.

3.3.8.1 Party Details

Provide the party details based on the description in the following table:

Description	Sample Values
Select the transfer type from the drop list:	
Customer Transfer	
Bank Transfer for own account	
Direct Debit Advice	
Managers Check	
 Customer Transfer with Cover 	
Bank Transfer	
	Select the transfer type from the drop list: Customer Transfer Bank Transfer for own account Direct Debit Advice Managers Check Customer Transfer with Cover

Field	Description	Sample Values
Charge Details	Select the charge details for the transactions:	
	Beneficiary All Charges	
	Remitter Our Charges	
	Remitter All Charges	
Netting Indicator	Select the netting indicator for the component:	
	Yes	
	• No	
Ordering Customer	Select the ordering customer from the LOV.	
Ordering Institution	Select the ordering institution from the LOV.	
Senders Correspondent	Select the senders correspondent from the LOV.	
Receivers Correspondent	Select the receivers correspondent from the LOV.	
Intermediary Institution	Select the intermediary institution from the LOV.	
Account with Institution	Select the account with institution from the LOV.	
Beneficiary Institution	Select the beneficiary institution from the LOV.	
Ultimate Beneficiary	Select the ultimate beneficiary from the LOV.	
Intermediary Reimburse- ment Institution	Select the intermediary reimbursement institution from the LOV.	

3.3.8.2 Payment Details

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Sender to Receiver 1	Provide the sender to receiver message.	
Sender to Receiver 2	Provide the sender to receiver message.	
Sender to Receiver 3	Provide the sender to receiver message.	
Sender to Receiver 4	Provide the sender to receiver message.	
Sender to Receiver 5	Provide the sender to receiver message.	
Sender to Receiver 6	Provide the sender to receiver message.	

3.3.8.3 Remittance Information

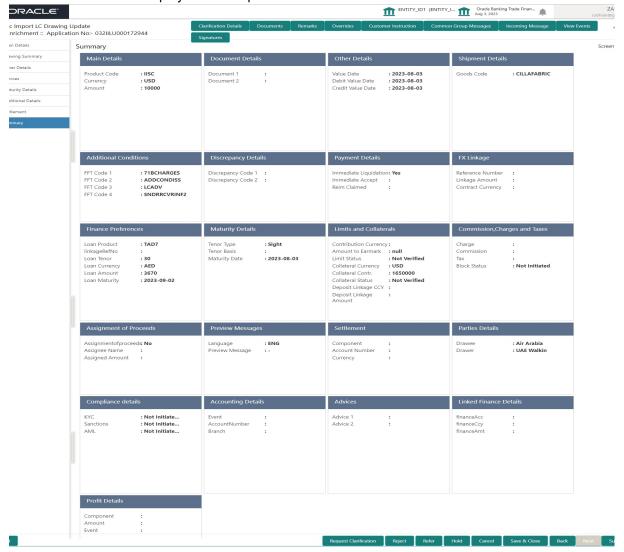

Provide the Payment Details based on the description in the following table:

Field	Description	Sample Values
Payment Detail 1	Provide the payment details.	
Payment Detail 2	Provide the payment details.	

Field	Description	Sample Values
Payment Detail 3	Provide the payment details.	
Payment Detail 4	Provide the payment details.	

3.3.9 Summary

User can review the summary of details updated in Data Enrichment stage Islamic Import LC Update Drawing request. As part of summary screen, the user can see the summary tiles. The tiles should display a list of important fields with values.

Tiles Displayed in Summary

- Main Details User can view details about application details and LC details.
- Other Details- User can view other details.
- Shipment Details User can view the shipment details.
- Additional Conditions User can view additional conditions of the drawing
- Discrepancy Details User can view the discrepancy details of the drawing.
- Payment Details User can view the payment details of the drawing.

- FX Linkage User can view FX linkage details. Finance Preferences User can view the loan preferences details. Maturity Details User can view the maturity details.
- Limits and Collaterals User can view limits and collateral details.
- Commission, Charges & Taxes User can view the charge details.
- Assignment of Proceeds User can view assignment of proceeds details.
- Preview Messages User can preview the draft message generated if any.
- Settlement User can view the settlement details.
- Parties Details User can view party details like applicant, advising bank etc.

	Select a Reject code and give a Reject Description.	
	This reject reason will be available in the remarks window throughout the process.	

3.4 Exceptions

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. The checks to external system/internal system is initiated after the Data Enrichment stage.

3.4.1 Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block

Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

3.4.1.1 Amount Bock Exception

3.4.2 Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

Log in into OBTFPM application, KYC exception queue. KYC exception failed tasks for trade finance transactions must be listed in your queue. Open the task, to see summary tiles that display a summary of important fields with values.

User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

3.4.2.1 **Summary**

Tiles Displayed in Summary:

- Main Details User can view details about application details and LC details.
- Party Details User can view party details like applicant, advising bank etc.
- Shipment Details User can view the shipment details.
- Limits and Collaterals User can view limits and collateral details.
- Charges User can view charge details.
- Discrepancy Details User can view the discrepancy details of the drawing.
- Revolving Details User can view the revolving details.
- Maturity Details User can view the maturity details.
- Payment Details User can view the payment details.
- Preview Details User can view the preview the draft message.
- Settlement Details User can view the settlement details.
- Preferences User can view set loan preferences.
- FX Linkage User can view the details of FX Linkage.
- Compliance User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details User can view the accounting entries generated by back office system.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries.

- Advices User can view and modify the advice details, if required.
- Linked Loan Details User can view the linked loan details.
- Profit Details User can view the profit details.

3.4.2.2 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.	
	Reject Codes:	
	R1- Documents missing	
	 R2- Signature Missing 	
	R3- Input Error	
	R4- Insufficient Balance/Limits	
	R5 - Others.	
	Select a Reject code and give a Reject Description.	
	This reject reason will be available in the remarks window throughout the process.	
Hold	The details provided will be registered and status will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes:	
	R1- Documents missing	
	 R2- Signature Missing 	
	R3- Input Error	
	R4- Insufficient Balance- Limits	
	R5 - Others	
Cancel	Cancel the Import LC Drawing KYC exception check.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage.	
Back	Task moves to previous logical step.	

3.5 Multi Level Approval

The user can view the summary of details updated in multilevel approval stage of Import LC update Drawing. Log in into OBTFPM application and open the task to see the summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

Note

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

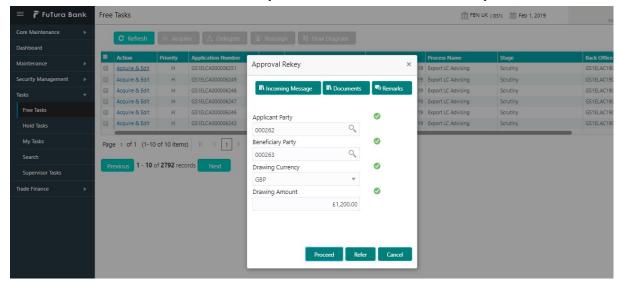

3.5.1 <u>Authorization Re-Key (Non-Online Channel)</u>

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

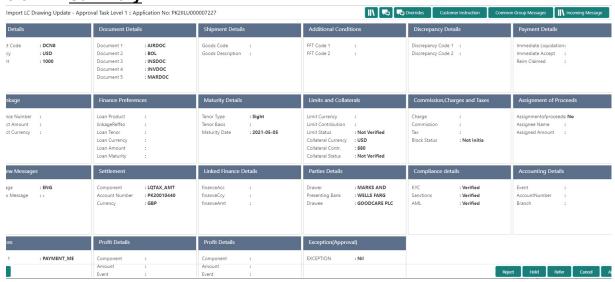

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Applicant Party
- Beneficiary Party
- Drawing Currency
- Drawing Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

3.5.2 Summary

Tiles Displayed in Summary:

- Main Details User can view details about application details and LC details.
- Party Details User can view party details like applicant, advising bank etc.
- Shipment Details User can view the shipment details.
- Limits and Collaterals User can view limits and collateral details.
- Charges User can view charge details.
- Discrepancy Details User can view the discrepancy details of the drawing.
- Revolving Details User can view the revolving details.
- Maturity Details User can view the maturity details.
- Payment Details User can view the payment details.
- Preview Details User can view the preview the draft message.
- Settlement Details User can view the settlement details.
- Preferences User can view set loan preferences.
- FX Linkage User can view the details of FX Linkage.
- Compliance User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Accounting Details User can view the accounting entries generated by back office system.

Note

When the Value Date is different from the Transaction Date for one or more accounting entries, system displays an Alert Message "Value Date is different from Transaction Date for one or more Accounting entries.

- Advices User can view and modify the advice details, if required.
- Linked Loan Details User can view the linked loan details.
- Profit Details User can view the profit details.

3.5.2.1 Action Buttons

Use action buttons based on the description in the following table:

Field	Description	Sample Values
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.	
	Reject Codes:	
	R1- Documents missing	
	 R2- Signature Missing 	
	R3- Input Error	
	 R4- Insufficient Balance/Limits 	
	R5 - Others.	
	Select a Reject code and give a Reject Description.	
	This reject reason will be available in the remarks window throughout the process.	
Hold	The details provided will be registered and status will be on hold.	
	This option is used, if there are any pending information yet to be received from applicant.	
Refer	User will be able to refer the task back to the Data Enrichment user. User must select a Refer Reason from the values displayed by the system. Refer Codes:	
	 R1- Documents missing 	
	 R2- Signature Missing 	
	R3- Input Error	
	R4- Insufficient Balance- Limits	
	R5 - Others	
Cancel	Cancel the approval.	
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.	

3.6 Reject Approval

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Import LC Update Drawing in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The tile containing the screen from where the reject was triggered will be highlighted in red.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

3.6.1 **Application Details**

The application details data segment have values for requests received from both non-online and online channels.

3.6.2 Summary

The data captured during handling of the transaction until the stage when reject is given will be available in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details User can view details about application details and LC details.
- Drawing Details User can view the drawing details.
- Documents Under LC User can view the documents received under the LC for this drawing, if required.
- Shipment User can view shipment details.
- Discrepancy Details User can view the discrepancy details of the drawing.
- Maturity Details User can view the maturity details.
- Limits and Collaterals User can view limits and collateral details.
- Charges User can view charge details.
- Compliance User can view compliance details. The status must be verified for KYC and to be initiated for AML and Sanction Checks.
- Payment Details User can view the payment details.
- Settlement Details User can view the settlement details.
- Preferences User can view set loan preferences.
- FX Linkage User can view the details of FX Linkage.
