Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Assign Contract Owner	Allows the running of the process that assigns and reassigns the contract owner.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract	Provides ability to initiate contract creation.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract Deliverable	Allows creation of a contract deliverable.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Create Contract in Wizard	Provides the ability to initiate contract creation using a wizard.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract	Allows the deletion of draft or canceled contracts.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Contract Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Delete Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract	Allows the editing of contracts, as well as other contract management tasks.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Edit Contract in Wizard	Provides the ability to edit a contract using a wizard.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Deliverable	Allows the management of contract terms deliverables after contract approval. This includes setting the status, adding comments, and uploading attachments for contractual deliverables such as proof of insurance and inspections.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Template	Allows management of a contract templates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Customer Assets	Allows creation and update of customer assets, related configurations and structures.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Electronic Signature	Allows management of electronic signature on a contract.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meter Reading History	Allows the management of meter reading history.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Meters	Allow the creation and update of meters.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Sales Credits	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Manage Supporting Documents	Not Available
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Merge Contract	Allows merging contracts
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Purge Contract Temporary Tables	Purges all contract temporary tables.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Record Meter Readings	Allows the recording of meter readings.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Renew Contract	Allows renewal of a contract
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contract Template	Allows search of a contract template.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Search Contracts	Allows searches in contracts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	Send Contract Expiration Notification	Allows the running of the process for sending automatic notifications about contracts with impending expiration dates.
Contract Authoring	Authors contracts, including terms and conditions, interactions, and customer account information.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.
Contract Request Review	Reviews the contract requests, seeks additional information and creates contract	Edit Contract Request	Allows the editing of contract requests.
Contract Request Review	Reviews the contract requests, seeks additional information and creates contract	Review Contract Request	Allows review of the contract request.
Contract Request Review	Reviews the contract requests, seeks additional information and creates contract	Search Contract Requests	Allows search of contract requests.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Contact	Allows the export of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Export Customer Account Relationship	Allows the export of customer account contact relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Manage Contract Work Area	Allows the navigation to the contracts work area. This work area provides quick access to relevant tasks and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Template	Allows search of a contract template.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract Text	This privilege is used to search contracts by text
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contract by Text	Allows searches in contracts by text.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Contracts	Allows searches in contracts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Relationships	Allows the search of customer account relationships. If assigning, also assign the ability to view the customer account relationship.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Customer Account Site	Allows the search of customer account sites. If assigning, also assign the ability to view the customer account site.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Purchase Agreement	Allows a procurement agent to search for purchase agreements including blankets and contracts.
Contract Search and View Access	Searches and views contracts for the assigned business units.	Search Trading Community Organization	Allows the search of organizations. If assigning, also assign the ability to view the trading community organization.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract	Allows viewing and printing of a contract and its history, including the contract's financial summary.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract Template	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Contract Terms	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account	Allows the viewing of customer account information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Contact	Allows the viewing of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Contact Responsibility	Allows the viewing of customer account contact information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Information	Not Available
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationship	Allows the viewing of customer account relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Relationships	Allows the viewing of customer account relationship information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site	Allows the viewing of the customer account site information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Account Site Use	Allows the viewing of the customer account site use information.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Customer Assets	Allows query and view of customer assets, related configurations and structures.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meter Reading History	Allow the query and view of meter reading history.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Meters	Allow the query and view of meters.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Agreement	Allows a user to review a blanket or contract purchase agreement.
Contract Search and View Access	Searches and views contracts for the assigned business units.	View Purchase Order	Allows a user to review a purchase order.
Contract Setup	Contract Setup	(OBSOLETE) Define Contract Collaboration Configuration	Allows the configuration of contract collaboration.
Contract Setup	Contract Setup	Administer Sandbox	Allows administration of all sandboxes.
Contract Setup	Contract Setup	Build Keyword Search Index for the Contract Terms Library	Allows the running of processes to synchronize and optimize the keyword index for clause and terms template searches in the Contract Terms Library.
Contract Setup	Contract Setup	Configure Contract UI	Allows the configuration of contract UI
Contract Setup	Contract Setup	Define Endpoint and Security Policy Information	Allows definition of endpoint and security policy information for an enterprise application.
Contract Setup	Contract Setup	Define Project Contract Billing Configuration	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Generate PDF Contract for Text Search	Allows the running of the process to generate PDFs of draft contracts, or contracts under amendment, so they are available during text searches.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Contract Setup	Contract Setup	Manage Application Common Lookup	Not Available
Contract Setup	Contract Setup	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Contract Setup	Contract Setup	Manage Application Document Sequence	Manage implementation of Application Document Sequences. Document Sequences are identifiers guarenteed to be unique, time-ordered, and gapless. This is in contrast to a database sequence which (for performance purposes) may contain gaps and which might not be ordered by time of document creation. Examples would include ID numbers for traffic tickets or other legal documents where gaps in the record may trigger an investigation.
Contract Setup	Contract Setup	Manage Application Document Sequence Category	Manage document sequence categories
Contract Setup	Contract Setup	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Contract Setup	Contract Setup	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Contract Setup	Contract Setup	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Contract Setup	Contract Setup	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Contract Currency Conversion Rate Types	Allows the definition of user-defined currency conversion rate types.
Contract Setup	Contract Setup	Manage Contract Customer Account	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Customer Account Site Usages	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Defaults	Allows management of contract defaults
Contract Setup	Contract Setup	Manage Contract Global Employee	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Interaction Reference Mapping	Allows the mapping of interaction types to applications where the interaction types can be used.
Contract Setup	Contract Setup	Manage Contract Layout Templates	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Item	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Line Type	Allows creating and managing of contract line types such as product and service.
Contract Setup	Contract Setup	Manage Contract Note Type Mapping	Allows creating and managing of the mapping that provides a tailored list of note type values for contracts. When no mapping is specified, note type values mapped to the object Note are used.
Contract Setup	Contract Setup	Manage Contract Organization Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Contact	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Location	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Party Role and Contact Sources	Allows the specification of the data sources for parties and contacts. A

Granted Role	Granted Role Description	Privilege	Privilege Description
			data source specifies the available list of values for parties or contacts of a given role.
Contract Setup	Contract Setup	Manage Contract Payment Terms	Allows creating and managing of payables payment terms for use in supplier contracts.
Contract Setup	Contract Setup	Manage Contract Person Party	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Request Type	Manage contract request types.
Contract Setup	Contract Setup	Manage Contract Risk Event	Allows creating and managing of contract risk events that can be associated to a contract.
Contract Setup	Contract Setup	Manage Contract Standard Clauses, Templates, and Contract Expert Rules	Allows the viewing of this task in the Functional Setup Manager.
Contract Setup	Contract Setup	Manage Contract Type	Allows the management of contract types to specify properties of different contracts such as the type of permitted contract lines, party roles, contract validation checks, and the contract acceptance and signature requirements.
Contract Setup	Contract Setup	Manage Contract and Pricing Integration	Not Available
Contract Setup	Contract Setup	Manage Coverage Times	Allows management of coverage times
Contract Setup	Contract Setup	Manage Default Coverage	Allows management of default coverage
Contract Setup	Contract Setup	Manage Electronic Signature Setup	Allows setting up electronic signature
Contract Setup	Contract Setup	Manage Matrix Classes	Allows creation, update, deletion, copy, and viewing of all matrix classes and child entities.
Contract Setup	Contract Setup	Manage Pricing Algorithms	Allows creation, update, deletion, copy, and viewing of all algorithms and child entities.

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	Manage Service Mappings	Allows creation, update, deletion, copy, and viewing of all service mappings and child entities.
Contract Setup	Contract Setup	Manage Standard Coverage	Allows management of standard coverage
Contract Setup	Contract Setup	Manage Time Unit Mappings	Allows management of time unit mappings
Contract Setup	Contract Setup	Manage User Statuses and Transitions	Manage user statuses and transitions
Contract Setup	Contract Setup	Process Installed Base updates	Processes installed base updates.
Contract Setup	Contract Setup	Specify Customer Contract Management Business Function Properties	Allows specifying and managing of currency conversion rules, project billing rules and default values, adoption rules for contract standards and policies, and other contract management functions during business unit setup.
Contract Setup	Contract Setup	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Contract Setup	Contract Setup	Track Purchasing Activity for Contract Fulfillment Line	Allows the running of the process that retrieves the number and the status of the purchasing document created by the integrated procurement application from the contract fulfillment line.
Contract Setup	Contract Setup	Update Contract Status	Updates the status of contracts that are dependent on time. For example, updates the status to expired when the end date is reached.
Contract Setup	Contract Setup	Update Enterprise Application Deployment Information	Allows updating deployment information of an enterprise application.
Contract Setup	Contract Setup	View Administration Link	Privilege to view administration link in UI shell

Granted Role	Granted Role Description	Privilege	Privilege Description
Contract Setup	Contract Setup	View Contract Type	Allows viewing of the contract type and its attributes.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Participate in Collaboration Conversation	Allows a user to participate in a collaboration conversation.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Participate in Customer Conversation	Allows a user to participate in a customer conversation.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	Use REST Service to View All Workers	Allows the user to view all workers using REST API.
Conversation Message Management	Has basic conversation message management capabilities such as create messages and reply to messages. Would not be able to change a reply to ready to send status or delete a message.	View Conversation Message	Allows a user to view a conversation message.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Close Contract	Allows the closing of contracts and contract lines.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Enable Administrator Access	Not Available
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Enable Buy Intent	Allows all actions permitted by other privileges for contracts with a buy intent. For example, granting this privilege to an individual with a view privilege permits the viewing of supplier contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of supplier contracts.

Granted Role	Granted Role Description	Privilege	Privilege Description
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Enable Sell Intent	Allows all actions permitted by other privileges for contracts with a sell intent. For example, granting this privilege to an individual with a view privilege permits the viewing of customer contracts. Granting this privilege to an individual with the delete contracts privilege permits the deletion of customer contracts.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Include Project Attributes in Contract Search Pages	Allows the inclusion of project attributes in contract search criteria. Without this privilege, no project attributes are enabled as search criteria.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Manage Contract Fulfillment	Allows the management of contract fulfillment. Also allows initiating the creation of purchase orders and purchase agreements from contract fulfillment lines, tracking the execution of purchase orders and agreements created in the procurement application, and sending contract fulfillment notifications.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Manage Contract and Procurement System Integrations	Not Available
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Manage Workload	Not Available
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Search Contract Text	This privilege is used to search contracts by text
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Send Contract Fulfillment Notification	Allows the running of the process for sending automatic contract fulfillment notifications.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export

Granted Role	Granted Role Description	Privilege	Privilege Description
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Set Up File Import Object and Mapping	Allows reviewing and registering business objects, such as sales leads and opportunities, intended for import from external files. Also allows creating and maintaining maps of external source file columns to target staging table columns for use in importing those business objects, such as sales leads, customers, contacts, and sales catalogs.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	Specify Procurement Contract Management Business Function Properties	Allows specification of supplier contract management properties during business unit setup. This includes the specification of contract standards, policies, and adoption rules.
Enterprise Contract Manager	Manages a team of enterprise contract administrators.	View Contract Fulfillment	Allows viewing of contract fulfillment.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Item Inquiry	Queries and views items in the enterprise.	GET Product Management Index REST	Allows access to view indexed attributes.
Item Inquiry	Queries and views items in the enterprise.	Get Search View REST	Allows query of search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Attachment	Allows access to view and manage item attachments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Item Inquiry	Queries and views items in the enterprise.	Manage Item Catalog	Allows access to view and manage item catalogs including categories and category hierarchies.
Item Inquiry	Queries and views items in the enterprise.	Manage Item Global Search	Allows access to search for items using secure enterprise search.
Item Inquiry	Queries and views items in the enterprise.	Manage Product Management Search	Allows access to view and edit Product Management Search.
Item Inquiry	Queries and views items in the enterprise.	Manage Search View REST	Allows access to view and manage search views.
Item Inquiry	Queries and views items in the enterprise.	Manage Trading Partner Item Reference	Allows access to manage trading partner item references for items.
Item Inquiry	Queries and views items in the enterprise.	Manage Unit of Measure	Allows configuration of UOMs, UOM classes, and definition of standard, interclass, and intraclass UOM conversions.
Item Inquiry	Queries and views items in the enterprise.	View Item	Allows access to product dashboard.
Item Inquiry	Queries and views items in the enterprise.	View Item Organization Association	Allows access to view item organization assignments.
Item Inquiry	Queries and views items in the enterprise.	View Item Relationship	Allows access to view item relationships.
Item Inquiry	Queries and views items in the enterprise.	View Product Management Search	Allows access to view Product Management Search.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.
Negotiation Viewing	View the negotiation summary and details pages.	Create Supplier Negotiation Online Message	Allows users to create an online message.
Negotiation Viewing	View the negotiation summary and details pages.	Reply Supplier Negotiation Online Message	Allows users to reply to an online message received.
Negotiation Viewing	View the negotiation summary and details pages.	Search Supplier Negotiation	Allows users to search supplier negotiations.
Negotiation Viewing	View the negotiation summary and details pages.	View Contract Terms	Not Available
Negotiation Viewing	View the negotiation summary and details pages.	View Supplier Negotiation	Allows users to review a supplier negotiation.
Negotiation Viewing	View the negotiation summary and details pages.	View Supplier Negotiation Online Message	Allows users to view and print online messages.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Additional Standard Contract Terms and Conditions	Allows authoring using standard terms and conditions in the contract. This includes adding and deleting standard clauses, selecting alternate clauses, managing sections that contain standard clauses, and moving contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Nonstandard Contract Terms and Conditions	Allows authoring of nonstandard terms and conditions in the contract. This includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Author Standard Contract Terms and Conditions	Allows authoring of contract terms and conditions using contract terms templates defined in the Contract Terms Library. Also includes using the Contract Expert and validating the contract terms.

Granted Role	Granted Role Description	Privilege	Privilege Description
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Delete Contract Documents	Not Available
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Delete Supporting Documents	Not Available
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Manage Contract Documents	Not Available
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	Manage Supporting Documents	Not Available
Nonstandard Contract Terms and Conditions Authoring	Authors nonstandard terms and conditions in addition to standard terms and conditions. Nonstandard terms authoring includes editing standard clauses, creating nonstandard clauses, deleting nonstandard clauses and sections, and removing contract terms.	View Contract Terms	Not Available
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning, also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the

Granted Role	Granted Role Description	Privilege	Privilege Description
			trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also

Granted Role	Granted Role Description	Privilege	Privilege Description
			assign the ability to view trading community resource details.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Enterprise Contract Manager job role.

Business Object	Policy Description	Policy Store Implementation
Activity	A Enterprise Contract Manager can view activity for all activities in the enterprise	Role: Enterprise Contract Manager Privilege: View Activity (Data) Resource: Activity
Activity	An Enterprise Contract Manager can view activity for all activities in the enterprise	Role: Contract Search and View Access Privilege: View Activity (Data) Resource: Activity
Application Attachment	A Enterprise Contract Manager can view application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Enterprise Contract Manager Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment	An Enterprise Contract Manager can read application attachment for the purchase document categories including document, from supplier, miscellaneous, to supplier, to buyer, to receiver, to approver, to payables, and internal to purchasing	Role: Contract Search and View Access Privilege: Read Application Attachment Resource: Application Attachment
Application Attachment Category	A Enterprise Contract Manager can delete application attachment category for all miscelleneous category attachments data	Role: Enterprise Contract Manager Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	A Enterprise Contract Manager can update application attachment category for all miscelleneous category attachments data	Role: Enterprise Contract Manager Privilege: Update Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	A Enterprise Contract Manager can view application attachment category for all miscelleneous category attachments data	Role: Enterprise Contract Manager Privilege: Read Application Attachment Resource: Application Attachment Category
Application Document Sequence Category	A Enterprise Contract Manager can manage application document sequence category for all applications common applications data	Role: Enterprise Contract Manager Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Document Sequence Category	An Enterprise Contract Manager can manage application document sequence category for all applications common applications data	Role: Contract Setup Privilege: Manage Application Document Sequence Category (Data) Resource: Application Document Sequence Category
Application Flexfield Value Set	A Enterprise Contract Manager can manage application flexfield value set for all applications common applications data	Role: Enterprise Contract Manager Privilege: Manage Application Flexfield Value Set (Data) Resource: Application Flexfield Value Set
Application Profile Value	A Enterprise Contract Manager can delete application profile value for all applications common applications data	Role: Enterprise Contract Manager Privilege: Delete Application Profile Value (Data) Resource: Application Profile Value
Application Profile Value	A Enterprise Contract Manager can update application profile value for all applications common applications data	Role: Enterprise Contract Manager Privilege: Update Application Profile Value (Data) Resource: Application Profile Value
Assignment Grade	A Enterprise Contract Manager can choose assignment grade for grades in their grade security profile	Role: Enterprise Contract Manager Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Business Unit	A Enterprise Contract Manager can choose business unit for business units in their organization security profile	Role: Enterprise Contract Manager Privilege: Choose Business Unit Organization (Data) Resource: Business Unit

Business Object	Policy Description	Policy Store Implementation
Business Unit	An Enterprise Contract Manager can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
Contract	A Enterprise Contract Manager can manage contract for the business units for which they are authorized	Role: Enterprise Contract Manager Privilege: Manage Contract (Data) Resource: Contract
Contract	A Enterprise Contract Manager can view contract for the business units for which they are authorized	Role: Enterprise Contract Manager Privilege: View Contract (Data) Resource: Contract
Contract	An Enterprise Contract Manager can manage contract for the business units for which they are authorized	Role: Contract Amendment Privilege: Manage Contract (Data) Resource: Contract
Contract	An Enterprise Contract Manager can manage contract for the business units for which they are authorized	Role: Contract Authoring Privilege: Manage Contract (Data) Resource: Contract
Contract	An Enterprise Contract Manager can view contract for the business units for which they are authorized	Role: Contract Search and View Access Privilege: View Contract (Data) Resource: Contract
Contract Expert Rule	A Enterprise Contract Manager can view contract expert rule for all the business units	Role: Enterprise Contract Manager Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Expert Rule	An Enterprise Contract Manager can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Expert Rule
Contract Export Object	A Enterprise Contract Manager can manage contract export object for all the contract export objects	Role: Enterprise Contract Manager Privilege: View Contract Export Object (Data) Resource: Contract Export Object

Business Object	Policy Description	Policy Store Implementation
Contract File Import Object	A Enterprise Contract Manager can view contract file import object for all contract file import objects	Role: Enterprise Contract Manager Privilege: View Contract Import (Data) Resource: Contract File Import Object
Contract Library Clause	A Enterprise Contract Manager can manage contract library clause for all non standard clauses irrespective of business unit	Role: Enterprise Contract Manager Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	A Enterprise Contract Manager can view contract library clause for all business units	Role: Enterprise Contract Manager Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	An Enterprise Contract Manager can manage contract terms library for all non standard clauses irrespective of business unit	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: Manage Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause	An Enterprise Contract Manager can view contract terms library for all business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause
Contract Library Clause Folder	A Enterprise Contract Manager can view contract library clause folder for all the business units	Role: Enterprise Contract Manager Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Library Clause Folder	An Enterprise Contract Manager can view contract terms library for all the business units	Role: Nonstandard Contract Terms and Conditions Authoring Privilege: View Contract Terms Library (Data) Resource: Contract Library Clause Folder
Contract Note	A Enterprise Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Enterprise Contract Manager Privilege: Manage Contract Note (Data) Resource: Contract Note

Business Object	Policy Description	Policy Store Implementation
Contract Note	An Enterprise Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Amendment Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Note	An Enterprise Contract Manager can manage contract note for notes that are not private or private notes where they are the author.	Role: Contract Authoring Privilege: Manage Contract Note (Data) Resource: Contract Note
Contract Request	An Enterprise Contract Manager can manage contract request for which they are an assignee or managers of such an assignee.	Role: Contract Request Review Privilege: Manage Contract Request (Data) Resource: Contract Request
Contract Request	An Enterprise Contract Manager can manage contract request for which they are part of the resource organization of such an assignee.	Role: Contract Request Review Privilege: Manage Contract Request (Data) Resource: Contract Request
Conversation	An Enterprise Contract Manager can manage conversation for all crm conversations	Role: Contract Request Review Privilege: Manage Conversation (Data) Resource: Conversation
Conversation Message	An Enterprise Contract Manager can manage conversation message for all crm collaboration messages	Role: Contract Request Review Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Default Coverage File Export Object	An Enterprise Contract Manager can manage default coverage export for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Export (Data) Resource: Default Coverage File Export Object
Default Coverage File Import Object	An Enterprise Contract Manager can manage default coverage import for all the default coverage objects	Role: Contract Setup Privilege: Manage Default Coverage Import (Data) Resource: Default Coverage File Import Object
Department	A Enterprise Contract Manager can choose department for departments in their organization security profile	Role: Enterprise Contract Manager Privilege: Choose Department (Data) Resource: Department

Business Object	Policy Description	Policy Store Implementation
Employee Resource File Import Activity	A Enterprise Contract Manager can view employee resource file import activity for all employee resource file import activities of object type 'employee resource'	Role: Enterprise Contract Manager Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Activity	An Enterprise Contract Manager can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	A Enterprise Contract Manager can view employee resource file import mapping for all employee resource file import mappings of object type 'employee resource'	Role: Enterprise Contract Manager Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Mapping	An Enterprise Contract Manager can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	A Enterprise Contract Manager can view employee resource file import object for all employee resource file import objects of object type 'employee resource'	Role: Enterprise Contract Manager Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Employee Resource File Import Object	An Enterprise Contract Manager can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
File Export Batch	A Enterprise Contract Manager can view file export batch for all export batches	Role: Enterprise Contract Manager Privilege: View File Export Batch (Data) Resource: File Export Batch

Business Object	Policy Description	Policy Store Implementation
File Export Object	A Enterprise Contract Manager can manage file export object for all export unit test objects	Role: Enterprise Contract Manager Privilege: Manage Export Unit Test (Data) Resource: File Export Object
File Import Activity	A Enterprise Contract Manager can view file import activity for all contract file import activity objects	Role: Enterprise Contract Manager Privilege: View Contract File Import Activity Object (Data) Resource: File Import Activity
File Import Activity	A Enterprise Contract Manager can view file import activity for all standard file import activities that are accessible for enterprise contract manager	Role: Enterprise Contract Manager Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	An Enterprise Contract Manager can manage default coverage import activity object for all the default coverage import activity objects	Role: Contract Setup Privilege: Manage Default Coverage Import Activity Object (Data) Resource: File Import Activity
File Import Mapping	A Enterprise Contract Manager can view file import mapping for all contract file import mapping objects	Role: Enterprise Contract Manager Privilege: View Contract File Import Mapping Object (Data) Resource: File Import Mapping
File Import Mapping	A Enterprise Contract Manager can view file import mapping for all standard file import maps that are accessible for enterprise contract manager	Role: Enterprise Contract Manager Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	An Enterprise Contract Manager can manage default coverage import mapping object for all the default coverage import mapping objects	Role: Contract Setup Privilege: Manage Default Coverage Import Mapping Object (Data) Resource: File Import Mapping
HR Job	A Enterprise Contract Manager can choose hr job for all jobs in the enterprise	Role: Enterprise Contract Manager Privilege: Choose HR Job (Data) Resource: HR Job

Business Object	Policy Description	Policy Store Implementation
HR Job	An Enterprise Contract Manager can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
Installed Base Asset	A Enterprise Contract Manager can manage installed base asset for all installed base assets	Role: Enterprise Contract Manager Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
Legal Employer	A Enterprise Contract Manager can choose legal employer for legal employers in their organization security profile	Role: Enterprise Contract Manager Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Legal Employer	An Enterprise Contract Manager can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
Location	A Enterprise Contract Manager can choose location for locations in their location security profile	Role: Enterprise Contract Manager Privilege: Choose Location (Data) Resource: Location
Partner File Import Activity	A Enterprise Contract Manager can view partner file import activity for all partner file import activities of object type 'partner company'	Role: Enterprise Contract Manager Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Activity	An Enterprise Contract Manager can view partner file import activity object type for all partner file import activities of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Activity Object Type (Data) Resource: Partner File Import Activity
Partner File Import Mapping	A Enterprise Contract Manager can view partner file import mapping for all partner file import mappings of object type 'partner company'	Role: Enterprise Contract Manager Privilege: View Partner File Import Mapping Object Type (Data) Resource: Partner File Import Mapping
Partner File Import Mapping	An Enterprise Contract Manager can view partner file import mapping object type for all partner file import mappings of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Mapping Object Type (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Partner File Import Mapping
Partner File Import Object	A Enterprise Contract Manager can view partner file import object for all partner file import objects of object type 'partner company'	Role: Enterprise Contract Manager Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner File Import Object	An Enterprise Contract Manager can view partner file import object type for all partner file import objects of object type 'partner company'	Role: Resource Administration Privilege: View Partner File Import Object Type (Data) Resource: Partner File Import Object
Partner Member File Import Activity	A Enterprise Contract Manager can view partner member file import activity for all partner member file import activities of object type 'partner member'	Role: Enterprise Contract Manager Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Activity	An Enterprise Contract Manager can view partner member file import activity object type for all partner member file import activities of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Activity Object Type (Data) Resource: Partner Member File Import Activity
Partner Member File Import Mapping	A Enterprise Contract Manager can view partner member file import mapping for all partner member file import mappings of object type 'partner member'	Role: Enterprise Contract Manager Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Mapping	An Enterprise Contract Manager can view partner member file import mapping object type for all partner member file import mappings of object type 'partner member'	Role: Resource Administration Privilege: View Partner Member File Import Mapping Object Type (Data) Resource: Partner Member File Import Mapping
Partner Member File Import Object	A Enterprise Contract Manager can view partner member file import object for all partner member file import objects of object type 'partner member'	Role: Enterprise Contract Manager Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Partner Member File Import Object	An Enterprise Contract Manager can view partner member file import object type for all	Role: Resource Administration

Business Object	Policy Description	Policy Store Implementation
	partner member file import objects of object type 'partner member'	Privilege: View Partner Member File Import Object Type (Data) Resource: Partner Member File Import Object
Person	A Enterprise Contract Manager can manage person for persons and assignments in their person and assignment security profile	Role: Enterprise Contract Manager Privilege: Manage Users (Data) Resource: Person
Person Assignment	A Enterprise Contract Manager can search person assignment for persons and assignments in their person and assignment security profile	Role: Enterprise Contract Manager Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	A Enterprise Contract Manager can view person assignment for persons and assignments in their person and assignment security profile	Role: Enterprise Contract Manager Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Assignment	An Enterprise Contract Manager can search worker for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: Search Worker (Data) Resource: Person Assignment
Person Assignment	An Enterprise Contract Manager can view person assignment for persons and assignments in their person and assignment security profile	Role: Manage Users Privilege: View Person Assignment (Data) Resource: Person Assignment
Person Type	A Enterprise Contract Manager can choose person type for person types in their person type security profile	Role: Enterprise Contract Manager Privilege: Choose Person Type (Data) Resource: Person Type
Person Type	An Enterprise Contract Manager can choose person type for person types in their person type security profile	Role: Manage Users Privilege: Choose Person Type (Data) Resource: Person Type
Position	A Enterprise Contract Manager can choose position for positions in their position security profile	Role: Enterprise Contract Manager Privilege: Choose Position (Data) Resource: Position

Business Object	Policy Description	Policy Store Implementation
Project Billing Exception	A Enterprise Contract Manager can view project billing exception access project plan milestone and event exceptions in the table pjb_errors for the contract business units	Role: Enterprise Contract Manager Privilege: View Project Billing Exception (Data) Resource: Project Billing Exception
Public Assignment	An Enterprise Contract Manager can search person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: Search Person Deferred (Data) Resource: Public Assignment
Public Assignment	An Enterprise Contract Manager can view person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: View Person Deferred (Data) Resource: Public Assignment
Public Person	A Enterprise Contract Manager can choose public person for persons and assignments in their person and assignment security profile	Role: Enterprise Contract Manager Privilege: View Person Deferred (Data) Resource: Public Person
Public Person	An Enterprise Contract Manager can search person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: Search Person Deferred (Data) Resource: Public Person
Public Person	An Enterprise Contract Manager can view person deferred for persons and assignments in their person and assignment security profile	Role: Use User Details Service Privilege: View Person Deferred (Data) Resource: Public Person
Public Person	An Enterprise Contract Manager can view person deferred for persons and assignments in their public person security profile	Role: Use REST Service - Public Workers Read Only Privilege: View Person Deferred (Data) Resource: Public Person
Sales Objects	A Enterprise Contract Manager can view sales objects for all standard file import export objects that are accessible for enterprise contract manager	Role: Enterprise Contract Manager Privilege: View Standard File Import Export Object Type Resource: Sales Objects
Service Interaction Header	An Enterprise Contract Manager can manage service interaction for all crm interactions	Role: Conversation Message Management

Business Object	Policy Description	Policy Store Implementation
		Privilege: Manage Service Interaction (Data) Resource: Service Interaction Header
Trading Community Customer Account	A Enterprise Contract Manager can view trading community customer account for all customer accounts in the enterprise	Role: Enterprise Contract Manager Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account	An Enterprise Contract Manager can view customer account for all customer accounts in the enterprise	Role: Contract Search and View Access Privilege: View Customer Account (Data) Resource: Trading Community Customer Account
Trading Community Customer Account Relationship	A Enterprise Contract Manager can view trading community customer account relationship for the reference data sets for which they are authorized	Role: Enterprise Contract Manager Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship
Trading Community Customer Account Relationship	An Enterprise Contract Manager can view customer account relationship for the reference data sets for which they are authorized	Role: Contract Search and View Access Privilege: View Customer Account Relationship (Data) Resource: Trading Community Customer Account Relationship
Trading Community Customer Account Site	A Enterprise Contract Manager can view trading community customer account site for the reference data sets for which they are authorized	Role: Enterprise Contract Manager Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site	An Enterprise Contract Manager can view customer account site for the reference data sets for which they are authorized	Role: Contract Search and View Access Privilege: View Customer Account Site (Data) Resource: Trading Community Customer Account Site
Trading Community Customer Account Site Use	A Enterprise Contract Manager can view trading community customer account site use for the reference data sets for which they are authorized	Role: Enterprise Contract Manager Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use

Business Object	Policy Description	Policy Store Implementation
Trading Community Customer Account Site Use	An Enterprise Contract Manager can view customer account site use for the reference data sets for which they are authorized	Role: Contract Search and View Access Privilege: View Customer Account Site Use (Data) Resource: Trading Community Customer Account Site Use
Trading Community Org Address Email Contact Preference	A Enterprise Contract Manager can manage trading community org address email contact preference for all trading community contact preferences not of type legal.	Role: Enterprise Contract Manager Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Email Contact Preference	An Enterprise Contract Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Email Contact Preference	An Enterprise Contract Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Resource Administration Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Email Contact Preference
Trading Community Org Address Phone Contact Preference	A Enterprise Contract Manager can manage trading community org address phone contact preference for all trading community contact preferences not of type legal.	Role: Enterprise Contract Manager Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Org Address Phone Contact Preference	An Enterprise Contract Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal.	Role: Contract Search and View Access Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Org Address Phone Contact Preference
Trading Community Org Address Phone Contact Preference	An Enterprise Contract Manager can manage trading community legal contact preference for all trading community contact preferences not of type legal. Internal Help Desk Administrator (Job Role)

Individual responsible for managing setup and configuration for Internal Help Desks.

Role Hierarchy

The Internal Help Desk Administrator job role directly and indirectly inherits these roles.

- Internal Help Desk Administrator
  - Access Groups Enablement
  - Conversation Message Administration
  - Internal Service Request Administration
    - Application Deployment Administration
    - Application Implementation Management
    - Functional Setups
    - Resource Administration
      - Application World Reference Administration
      - Manage Users
        - Manage User Account
          - Edit User Name
          - Manage User Roles
          - Use REST Service - Public Workers Read Only
      - Use User Details Service
    - Resource Organization Administration
    - Resource Team Administration
  - Interview Definition Authoring
  - Interview Definition Managing
  - Interview Definition Publishing
  - Interview Definition Viewing
  - Service Generative AI Administrator
  - Service Generative AI User
  - Upload data for Assignment Rule Import
  - Upload data for Message Import

Duties

This table lists the duties assigned directly and indirectly to the Internal Help Desk Administrator job role.

Duty Role	Description
Access Groups Enablement	Enables the Access Groups functionality.
Application Deployment Administration	Manages application instance configurations and enterprise applications.

Duty Role	Description
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.
Interview Definition Authoring	Manage access for authoring Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.
Manage User Account	Manages user roles.
Manage Users	Creates and updates users and assigns roles to users.
Resource Administration	Administers resource information.
Resource Organization Administration	Administers resource organizations.
Resource Team Administration	Defines resource teams.
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.
Upload data for Assignment Rule Import	Allows to upload data file to import Assignment Rule related data.
Upload data for Message Import	Allows to upload data file to import message related data.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Internal Help Desk Administrator job role.

Aggregate Privilege	Description
Edit User Name	Updates the user name associated with a person.
Manage User Roles	Allows management of user roles assignments.
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use User Details Service	Creates or updates users during person synchronizations.

Privileges

This table lists privileges granted to duties of the Internal Help Desk Administrator job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Activate Optional Enterprise Application	Allows activating optional enterprise applications.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Manage Application Instance	Allows management of application instances.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Manage Application Portlet Registration	Allows management of application portlet registration.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Manage Database	Allows management of databases.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Manage Deployed Domain	Allows management of deployed domains.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Manage Enterprise Environment	Allows management of enterprise environments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Review Topology Hierarchy	Allows review of topology hierarchies for enterprise applications.
Application Deployment Administration	Manages application instance configurations and enterprise applications.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Configure Oracle Fusion Applications Offering	Allows configuration of offerings and functional areas that will be implemented in the current environment.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Gather Implementation Requirements	Allows management of the Gather Implementation Requirements page.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Manage Implementation Project	Allows management of the implementation project, selection of offerings and features, assignment of task owners.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Review Applications Offering	Provides access to the Getting Started page.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Review Implementation Project Overview	Allows access to the Overview page for implementation projects.
Application Implementation Management	Manages implementation projects. Also responsible for assigning task owners, but does not perform setup tasks.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Currency	Manage currencies used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference ISO Language	Manage ISO Languages used by applications.
Application World Reference Administration	Manages application reference industry, territory, time zone,	Manage Application Reference Industry	Manage Industries used by applications

Granted Role	Granted Role Description	Privilege	Privilege Description
	currency, and language, including natural and ISO language.		
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Language	Manage Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Natural Language	Manage Natural Languages used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Territory	Manage Territories used by applications
Application World Reference Administration	Manages application reference industry, territory, time zone, currency, and language, including natural and ISO language.	Manage Application Reference Timezone	Manage Timezones used by applications
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.	Delete Conversation Message	Allows user to delete a message in a conversation.
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.	Participate in Collaboration Conversation	Allows a user to participate in a collaboration conversation.
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.	Participate in Customer Conversation	Allows a user to participate in a customer conversation.
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply	Use REST Service to View All Workers	Allows the user to view all workers using REST API.

Granted Role	Granted Role Description	Privilege	Privilege Description
	to messages, change a reply to ready to send status and delete a message.		
Conversation Message Administration	Has complete conversation message management capabilities including create messages, reply to messages, change a reply to ready to send status and delete a message.	View Conversation Message	Allows a user to view a conversation message.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Access Partner Media Toolbar	Allows access to the partner media toolbar
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Administer Sandbox	Allows administration of all sandboxes.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Administer SmartText	Allows the user to administer SmartText.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Assign Internal Service Request	Allows manual assignment of ISR service request to a resource.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Assign Internal Service Request to Queue	Allows manual assignment of ISR service request to a service queue.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Configure Help Desk Dashboard	Allows the user to create, update and delete custom help desk infolets. The out of the box application defined infolets cannot be edited or deleted.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Configure Setup UI	Allows configuration of setup UI
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Action Plan	Allows creation of an Action Plan.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Activity	Allows creating activities.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Article	Not Available
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Internal Service Request	Allows creation of an ISR service request.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Maintenance Work Request	Allows the user to create a maintenance work request.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Object Link	Allows the user to create an object link.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Create Tag	Allows the user to create tags.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Delete Activity	Allows deleting activities.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Delete Internal Service Request	Allows deleting of an ISR service request.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Delete Internal Service Request Attachment	Allows deleting an attachment from an ISR SR or ISR SR message.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Delete Object Link	Allows the user to delete an object link.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Edit Action Plan	Allows edit of an Action Plan.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Edit Internal Service Request	Allows editing of an ISR service request.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Edit Workflows	Allows creating, editing and reading of workflow automations.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Export Workspace Data	Allows users to export data in Workspace
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Get Enterprise Assets by Service	Allows the query of enterprise asset details using a service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Comparison Processes	Allows management of comparison processes
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Configuration Packages	Allows management of configuration packages.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Data Visualization Configuration	Allows creation, modification and deletion of data visualization configurations either through UI pages or through REST service calls. For example, a data visualization could be configured to be displayed as a Bar chart.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Extensible Object	Allows the extension of the base application using the CRM Application Composer. Includes the ability to manage custom objects, as well as the ability to manage business events and e-mail templates, and custom subject areas for reporting.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Inbound Message	Allows create, update, delete and view of inbound messages
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Interactive List Saved Search	Allows configuring interactive lists saved search
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Internal Help Desk Service Queues	Allows the user to manage internal help desk queues and queue memberships.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Internal SR Team Members	Allows adding/removing a team member from an ISR service request.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Omnichannel Capacities	Allows defining the maximum number of active objects or interactions assigned to a user.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Omnichannel Presence and Availability	Allows management of the omnichannel availability for new work, presence menu and indicator.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Outbound Message	Allows a user to create, update, delete and view outbound messages.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Product Groups	Allows management of product groups and their attributes, lookups, mapping, profile options, templates and usages.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Scheduled Processes	Allows managment of Scheduled Processes
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Sensing Agent	Allows administrator access to configure the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Service Queues	Allows management of service queues and queue memberships.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Setup Data Export and Import Processes	Allows management of the setup data export and import processes.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Signature	Allows the user to create or update a personal signature.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Smart Actions	Allows access to Smart Actions Framework REST operations.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage SmartText	Allows creation, update and delete of a SmartText.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Manage Tags	Allows the administrator to manage tags.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Perform Quick Setup	Allows performing quick setup to speed up application implementation
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Personalize Analytics Dashboard Display	Allows create, update and delete of custom CX service infolets. Also, allows show/hide and rearrange the display order of the infolets.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Personalize Help Desk Dashboard	Allows the user to show/hide and rearrange the display order of the help desk infolets.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Publish SmartText	Allows scope of SmartText to be set to GLOBAL so that all users can view/use it.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Receive Browser Notifications	Allows users to receive browser notifications from the notification framework. If notifications have links to objects, you will need appropriate privilege to view the object.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Run CRM Export Process	This privilege would grant a user the ability to schedule CRM object to export to a file

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Run File Import Scheduler	Allows scheduling and monitoring the process that schedules file import activities.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Run Purge Batch Assignment Information Process	Allows scheduling and monitoring of the process to purge the batch assignment data.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Schedule Service Jobs	Allows scheduling of service related jobs, such as, closing of old service requests
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Set Up CRM Objects for Export	This privilege would grant a user the ability to register CRM objects for Export
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Set Up File Import Activity	Allows creating and maintaining import activities that contain process criteria, file mapping, and schedule to import external files containing business objects, such as customers and contacts, into staging tables.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Set Up File Import Object and Mapping	Allows reviewing and registering business objects, such as sales leads and opportunities, intended for import from external files. Also allows creating and maintaining maps of external source file columns to target staging table columns for use in importing those business objects, such as sales leads, customers, contacts, and sales catalogs.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Setup Action Plan	Allows action plan setup.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer	Setup Object Links	Allows the user to setup object links.

Granted Role	Granted Role Description	Privilege	Privilege Description
	the Internal Help Desk service application, including setup.		
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Setup Omnichannel	Allows the administration of channel instances and defining presentation and labeling for Availability Groups.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Setup Service	Allows Service application setup
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Setup Service Assignment	Allows Service application assignment setup
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Setup Survey Integration Framework Template	Allows the user to setup survey integration framework.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Submit Export Setup Data Process	Secures the setup data export process.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Submit Import Setup Data Process	Secures the setup data import process.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Update Activity	Allows editing activities.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	Update Internal Service Request Business Unit	Allows updating the business unit on an ISR service request.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer	Use SmartText	Allows using SmartText.

Granted Role	Granted Role Description	Privilege	Privilege Description
	the Internal Help Desk service application, including setup.		
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Action Plan	Allows viewing of an Action Plan.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Activity	Allows viewing activities.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Adaptive Search Workspace	Allows users to view and access workspace powered by adaptive search
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Administration Link	Privilege to view administration link in UI shell
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Agent Internal Help Desk	Allows viewing of ISR Agent Help Desk.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Audit History	Allows to view the audit history of all the business object attributes enabled for auditing.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Chat Transcript	Allows the user to view chat transcripts.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Engagement Channel Dashboard	Allows the user to view engagement channel dashboard.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer	View Internal Service Request	Allows viewing of ISR service request(s).

Granted Role	Granted Role Description	Privilege	Privilege Description
	the Internal Help Desk service application, including setup.		
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Internal Service Request Agent Dashboard	Allows viewing of the ISR service representative dashboard. The dashboard contains analytical reports on service objects.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Internal Service Request Manager Dashboard	Allows viewing of the ISR service manager dashboard. The dashboard contains analytical reports on service objects.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Named Routes	Allows viewing and grouping all functional navigation flows across channels into a single name
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Navigator Menu	Allows viewing navigator metadata information
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Object Link	Allows the user to view an object link.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Sales Organization	Allows viewing of the sales organization.
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Sensing Agent	Allows access to the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application
Internal Service Request Administration	Manages all aspects of Internal service requests. In addition, can manage queues and administer the Internal Help Desk service application, including setup.	View Smart Actions	Allows read and view access to Smart Actions Framework data.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-in Interview Definitions	Allow access to check-in Interview definitions.

Granted Role	Granted Role Description	Privilege	Privilege Description
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-out Interview Definitions	Allow access to check-out Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Copy Interview Definitions	Allow access to copy Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Create Interview Definitions	Allow access to create Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Update Interview Definitions	Allow access to update Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Change Interview Definition Owner	Allow access to change the owner of Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Delete Interview Definitions	Allow access to delete Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Force Checkout Interview Definitions	Allow access to force checkout Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Publish Interview Definitions	Allow access to publish Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Unpublish Interview Definitions	Allow access to unpublish Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.	View Interview Definitions	Allow access to view the Interviews menu item and Interviews page.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Users	Creates and updates users and assigns roles to users.	Manage User Details	Allows management of user account information.
Resource Administration	Administers resource information.	Add Trading Community Resource to My Social Network	Allows the addition of a resource to their social network.
Resource Administration	Administers resource information.	Administer Sandbox	Allows administration of all sandboxes.
Resource Administration	Administers resource information.	Contact Trading Community Resource	Allows emailing, calling, and instant messenging a resource. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	Edit Trading Community Resource Profile	Allows the update of resource profile information. If assigning, also assign the ability to view the trading community resource profile.
Resource Administration	Administers resource information.	Enter Trading Community Resource Information	Allows the specification of resource information.
Resource Administration	Administers resource information.	Identify Trading Community Person as a Trading Community Resource	Allows the identification of existing people as resources.
Resource Administration	Administers resource information.	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Resource Administration	Administers resource information.	Manage Application Attachment Category	Manage application attachment categories
Resource Administration	Administers resource information.	Manage Application Attachment Entity	Manage application attachment entities
Resource Administration	Administers resource information.	Manage Application Common Lookup	Not Available
Resource Administration	Administers resource information.	Manage Application Data Security Policy	Allows management of security policies that restrict access to functions and data, such as preventing particular values from being accessed in a chart of account segment.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Application Database Resource	Manage application database resources for data security
Resource Administration	Administers resource information.	Manage Application Descriptive Flexfield	Allows management of application descriptive flexfields.
Resource Administration	Administers resource information.	Manage Application Extensible Flexfield	Manage implementation of the Extensible Flexfield feature on a given entity.
Resource Administration	Administers resource information.	Manage Application Flexfield Value Set	Allows management of value sets to validate the content of a flexfield segment. Value sets provide declarative validation for use in applications flexfield attributes and key segments.
Resource Administration	Administers resource information.	Manage Application Message	Manage an end-user message, shown in the User Interface. Messages can have different types, such as Error, Warning, Information. Messages are translated and can be re-used across products. Exampe: "File not found", "Table '&TABLE' does not exist".
Resource Administration	Administers resource information.	Manage Application Profile Category	Manage application profile option categories
Resource Administration	Administers resource information.	Manage Application Profile Option	Manage Application Profile Options: Manage the level the value can be changed
Resource Administration	Administers resource information.	Manage Application Reference Data Set	Manage Application Reference Data set. Maintain reference data set attributes.
Resource Administration	Administers resource information.	Manage Application Reference Data Set Assignment	Manage Application Reference Data Set Assignments. Create and edit reference data set assignments.
Resource Administration	Administers resource information.	Manage Application Set-Enabled Lookup	Manage sub-type entities stored in the Application Set-Enabled Lookup entity. Lookup Types are lists of values such as Days of the Week or Yes/No which can be used to validate column values.
Resource Administration	Administers resource information.	Manage Application Standard Lookup	Manage sub-type entities stored in the Application Standard Lookup

Granted Role	Granted Role Description	Privilege	Privilege Description
			Values entity. Lookup Types are lists of values such as "Days of the Week" or "Yes/No" which can be used to validate columns values.
Resource Administration	Administers resource information.	Manage Application Taxonomy	Manage hierarchical classification of Applications Taxonomy tree. A node in the Application Taxonomy Tree can be a Product Line, Product Family, Product or Logical Business Area.
Resource Administration	Administers resource information.	Manage Customer Data Management Foundation Custom Objects	Allows access to custom objects in Customer Data Management Foundation.
Resource Administration	Administers resource information.	Manage Goal Management Notifications	Manage Goal Management Notifications
Resource Administration	Administers resource information.	Manage My Application Profile Values	Manage My Application Profile Values. Access to manage profile values at the user level.
Resource Administration	Administers resource information.	Manage Person Talent Profile	Allows management of talent profile for a person.
Resource Administration	Administers resource information.	Manage Talent Education Establishment	Allows management of talent educational establishments.
Resource Administration	Administers resource information.	Manage Talent Notifications	Allows management of talent management notifications.
Resource Administration	Administers resource information.	Manage Talent Profile Content Item	Allows management of talent profile content items.
Resource Administration	Administers resource information.	Manage Talent Profile Rating Model	Allows management of talent profile rating models.
Resource Administration	Administers resource information.	Manage Talent Profile Sources	Allows management of talent profile subscribers.
Resource Administration	Administers resource information.	Manage Trading Community Resource	Allows the specification of resources for any employees or partner members who are to be associated to leads, opportunities, and territories and given sales credits or compensated for that work.
Resource Administration	Administers resource information.	Manage Trading Community Resource Address	Allows the management of resource addresses. If assigning,

Granted Role	Granted Role Description	Privilege	Privilege Description
			also assign the ability to view the trading community resource address.
Resource Administration	Administers resource information.	Manage Trading Community Resource Contact Information	Allows the management of resource contact information. If assigning, also assign the ability to view the trading community resource contact information.
Resource Administration	Administers resource information.	Manage Trading Community Resource History	Allows the management of resource historical information. If assigning, also assign the ability to view the trading community resource history.
Resource Administration	Administers resource information.	Manage Trading Community Resource Lookups	Allows the specification of lookup values that provide choices when defining resources, such as party usages available for resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note	Allows the specification of resource notes. If assigning also assign the ability to view the trading community resource note.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Descriptive Flexfields	Allows the specification of additional fields which enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type	Allows the specification of note types, such as person details, to categorize notes entered for resources. When mapped, note type values are limited to resources.
Resource Administration	Administers resource information.	Manage Trading Community Resource Note Type Mapping	Allows the specification of the mapping that provides a tailored list of note type values for resources. When no mapping is specified, note type values mapped to the object Note are used.
Resource Administration	Administers resource information.	Manage Trading Community Resource Organization Memberships	Allows the specification of resource organization members. If assigning, also assign the ability to view the trading community resource organization memberships.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	Manage Trading Community Resource Role Assignments	Allows the management of resource role assignments. If assigning also assign the ability to view the trading community resource role assignments.
Resource Administration	Administers resource information.	Manage Trading Community Resource Sales Representative Information	Allows the management of resource saleperson setup information. If assigning, also assign the ability to view the trading community resource sales representative information.
Resource Administration	Administers resource information.	Manage Trading Community Resource Skills	Allows the management of resource skills information. If assigning, also assign the ability to view the trading community resource skills.
Resource Administration	Administers resource information.	Manage Trading Community Resource Social Network	Allows the management of a resource social network. If assigning, also assign the ability to view the trading community resource social network.
Resource Administration	Administers resource information.	Manage Trading Community Resource Team Memberships	Allows the management of resource team members. If assigning also assign the ability to view the trading community resource team memberships.
Resource Administration	Administers resource information.	Remove Trading Community Resource	Allows the removal of resources.
Resource Administration	Administers resource information.	Reset Password	Allows reset password links to be emailed to users.
Resource Administration	Administers resource information.	Search Trading Community Resource	Allows the search of resources.
Resource Administration	Administers resource information.	Upload Trading Community Resource Picture	Allows the upload of resource pictures. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Administration Link	Privilege to view administration link in UI shell
Resource Administration	Administers resource information.	View Trading Community Resource Address	Allows viewing of resource addresses. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Administration	Administers resource information.	View Trading Community Resource Administration Detail Information	Allows viewing of resource administration setup information.
Resource Administration	Administers resource information.	View Trading Community Resource Collaboration Information	Allows viewing of resource social network information.
Resource Administration	Administers resource information.	View Trading Community Resource Contact Information	Allows viewing of resource contact information.
Resource Administration	Administers resource information.	View Trading Community Resource Details	Allows viewing of resource basic information, such as name, primary phone, primary address, and primary e-mail.
Resource Administration	Administers resource information.	View Trading Community Resource History	Allows viewing of archived resource information.
Resource Administration	Administers resource information.	View Trading Community Resource Note	Allows viewing of resource notes. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Organization Memberships	Allows viewing of sales, marketing, and partner organization information.
Resource Administration	Administers resource information.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Profile	Allows viewing of resource profile information. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Role Assignments	Allows viewing of resource role assignments. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Sales Representative Information	Allows viewing of salesperson setup information, such as sales credits.
Resource Administration	Administers resource information.	View Trading Community Resource Skills	Allows viewing of resource skills information, such as language, competencies, and product

Granted Role	Granted Role Description	Privilege	Privilege Description
			expertise. If assigning, also assign the ability to view trading community resource details.
Resource Administration	Administers resource information.	View Trading Community Resource Social Network	Allows viewing of a resource's social network.
Resource Administration	Administers resource information.	View Trading Community Resource Team Memberships	Allows viewing of resource team memberships. If assigning, also assign the ability to view trading community resource details.
Resource Organization Administration	Administers resource organizations.	Manage Application Tree	Manage application trees and tree versions
Resource Organization Administration	Administers resource organizations.	Manage Application Tree Label	Manage application tree labels
Resource Organization Administration	Administers resource organizations.	Manage Application Tree Structure	Manage application tree structures
Resource Organization Administration	Administers resource organizations.	Manage Resource Organization Member Descriptive Flexfields	Not Available
Resource Organization Administration	Administers resource organizations.	Manage Trading Community Resource Organization	Allows the specification of partner resource organizations used to create partner organization hierarchies. If assigning, also assign the ability to view the trading community resource organization
Resource Organization Administration	Administers resource organizations.	Manage Trading Community Resource Organization Hierarchy	Allows the specification of sales, marketing, and partner organization hierarchies used to automatically generate reporting hierarchies. If assigning, also assign the ability to view the trading community resource organization hierarchy.
Resource Organization Administration	Administers resource organizations.	Manage Trading Community Resource Organization Members	Allows the specification of resources, such as employee, contractor and partner member, to sales, marketing and partner organizations.
Resource Organization Administration	Administers resource organizations.	Run Trading Community Resource Reporting Hierarchy Generation	Allows the running of the process that generates the resource reporting hierarchy.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Organization Administration	Administers resource organizations.	Search Trading Community Resource Organization	Not Available
Resource Organization Administration	Administers resource organizations.	Search Trading Community Resource Organization Hierarchies	Allows the search of resource organization hierarchies. If assigning, also assign the ability to view the trading community resource organization hierarchies.
Resource Organization Administration	Administers resource organizations.	View Trading Community Organization Resource Members	Allows viewing sales, marketing, and partner organization members.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization	Allows viewing of sales, marketing, and partner organization information.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Details	Allows viewing of sales, marketing, and partner organization membership information.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Hierarchies	Allows viewing of organization hierarchies for sales, marketing, and partner organizations.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Hierarchy	Allows viewing of organization hierarchies for sales, marketing, and partner organizations.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Hierarchy Details	Allows viewing of organization hierarchy structures for sales, marketing, and partner organizations.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Team Memberships	Allows viewing of sales, marketing, and partner team membership information.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Organization Usage Information	Allows viewing of sales, marketing, and partner organization usage information.
Resource Organization Administration	Administers resource organizations.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.
Resource Team Administration	Defines resource teams.	Edit Trading Community Resource Team Basic Information	Allows the update of resource team information.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Team Administration	Defines resource teams.	Enter Trading Community Resource Team Information	Allows the specification of resource team information.
Resource Team Administration	Defines resource teams.	Manage Resource Team Descriptive Flexfields	Allows the specification of additional fields to enter and track information that is not otherwise captured. Descriptive flexfields can be validated and dependent on other values entered in other areas of the page.
Resource Team Administration	Defines resource teams.	Manage Resource Team Member Descriptive Flexfields	Not Available
Resource Team Administration	Defines resource teams.	Manage Trading Community Resource Team	Allows the specification of groups of resources that work together, usually across organization hierarchy boundaries. For example, define marketing teams for campaigns. If assigning, also assign the ability to view the trading community resource team.
Resource Team Administration	Defines resource teams.	Manage Trading Community Resource Team Members	Allows the management of resource team members. If assigning, also assign the ability to view the trading community resource team members.
Resource Team Administration	Defines resource teams.	Manage Trading Community Resource Team Usages	Allows the management of resource team usages. If assigning, also assign the ability to view the manage trading community resource team usages.
Resource Team Administration	Defines resource teams.	Remove Trading Community Resource Team	Allows the removal of resource teams. If assigning, also assign the ability to view the trading community resource team.
Resource Team Administration	Defines resource teams.	Search Trading Community Resource Team	Allows the search of resource teams. If assigning, also assign the ability to view the trading community resource team.
Resource Team Administration	Defines resource teams.	View Trading Community Resource Overview Information	Allows viewing of an overview for partner, marketing, and sales organization transaction information. If assigning, also assign the ability to view trading community resource details.

Granted Role	Granted Role Description	Privilege	Privilege Description
Resource Team Administration	Defines resource teams.	View Trading Community Resource Team	Allows viewing of resource team information.
Resource Team Administration	Defines resource teams.	View Trading Community Resource Team Details	Allows viewing of resource team details.
Resource Team Administration	Defines resource teams.	View Trading Community Resource Team Members	Allows viewing of resource team members.
Resource Team Administration	Defines resource teams.	View Trading Community Resource Team Usages	Allows viewing of resource team usages.
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.	Administer Case Summarization APIs	Allows access to the APIs to administer Case summarization feature
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.	Administer HR Help Desk Request Summarization APIs	Allows access to the APIs to administer HR Help Desk Request summarization feature
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.	Administer Internal Help Desk Request Summarization APIs	Allows access to the APIs to administer Internal Help Desk Request summarization feature
Service Generative AI Administrator	Administer activities related to Service Gen AI APIs such as configuration of prompts across all areas of Oracle Fusion Service, such as Service Center, Knowledge, and Chat.	Administer SR Summarization APIs	Allows administration of tasks such as payload to be passed on to APIs.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access Case Summarization APIs	Allows access to the APIs to use Case summarization feature
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management	Access HR Help Desk Request Summarization APIs	Allows access to the APIs to use HR Help Desk Request summarization feature

Granted Role	Granted Role Description	Privilege	Privilege Description
	and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.		
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access HRHD Automation Agent APIs	Allows access to APIs related to HRHD automation agent
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access ISR Automation Agent APIs	Allows access to APIs related to ISR automation agent
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access Internal Help Desk Request Summarization APIs	Allows access to the APIs to use Internal Help Desk Request summarization feature
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access SR Automation Agent APIs	Allows access to APIs related to SR automation agent
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Access SR Summarization APIs	Allows access to the APIs to fetch SR summarizations
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's	Chat Knowledge Article Summary Extraction Service	Allows for a generative AI-created answer extraction of Knowledge Management articles that can be included in chat messages along with a link to the source document.

Granted Role	Granted Role Description	Privilege	Privilege Description
	essential to input data and fetch results from the LLM model.		
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Chat Transcript Summary Service for Transfers and Conferences	Allows for the creation of a generative AI chat transcript summary that will be passed to agents when receiving chat transfer or conference offers.
Service Generative AI User	Can use generative AI features across Oracle Fusion Service including but not limited to Service Center, Knowledge Management and Chat areas. Usage requires access to all generative AI API's essential to input data and fetch results from the LLM model.	Generative AI Wrap Up Summary Service	Allows for the creation of a generative AI summary that will be inserted into wrap up notes at the end of an interaction.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Internal Help Desk Administrator job role.

Business Object	Policy Description	Policy Store Implementation
Activity	An Internal Help Desk Administrator can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	An Internal Help Desk Administrator can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	An Internal Help Desk Administrator can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment Category	An Internal Help Desk Administrator can delete application attachment for all service categories that are visible to internal users	Role: Internal Service Request Administration Privilege: Delete Application Attachment

Business Object	Policy Description	Policy Store Implementation
		Resource: Application Attachment Category
Application Attachment Category	An Internal Help Desk Administrator can read application attachment for all service categories that are visible to internal users	Role: Internal Service Request Administration Privilege: Read Application Attachment Resource: Application Attachment Category
Application Attachment Category	An Internal Help Desk Administrator can update application attachment for all service categories that are visible to internal users	Role: Internal Service Request Administration Privilege: Update Application Attachment Resource: Application Attachment Category
Business Unit	An Internal Help Desk Administrator can choose business unit organization for business units in their organization security profile	Role: Resource Administration Privilege: Choose Business Unit Organization (Data) Resource: Business Unit
CRM Asset	An Internal Help Desk Administrator can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	An Internal Help Desk Administrator can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	An Internal Help Desk Administrator can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	An Internal Help Desk Administrator can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	An Internal Help Desk Administrator can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	An Internal Help Desk Administrator can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Cases
Conversation	A Internal Help Desk Administrator can manage conversation for all internal help desk conversations	Role: Internal Help Desk Administrator Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	An Internal Help Desk Administrator can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation
Conversation	An Internal Help Desk Administrator can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	An Internal Help Desk Administrator can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Internal Help Desk Administrator can manage conversation message for all internal help desk collaboration messages	Role: Internal Help Desk Administrator Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Administrator can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Administrator can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Administrator can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Deal Registration Product	An Internal Help Desk Administrator can manage deal registration product a member	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	of an access group associated to the deal registration with update access	Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	An Internal Help Desk Administrator can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Administrator can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	An Internal Help Desk Administrator can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	An Internal Help Desk Administrator can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	An Internal Help Desk Administrator can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team
Department	An Internal Help Desk Administrator can choose department for departments in their organization security profile	Role: Resource Organization Administration Privilege: Choose Department (Data) Resource: Department
Employee Resource File Import Activity	An Internal Help Desk Administrator can view employee resource file import activity object type for all employee resource file import activities of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Activity Object Type (Data) Resource: Employee Resource File Import Activity
Employee Resource File Import Mapping	An Internal Help Desk Administrator can view employee resource file import mapping object type for all employee resource file import mappings of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Mapping Object Type (Data) Resource: Employee Resource File Import Mapping
Employee Resource File Import Object	An Internal Help Desk Administrator can view employee resource file import object type for all employee resource file import objects of object type 'employee resource'	Role: Resource Administration Privilege: View Employee Resource File Import Object Type (Data) Resource: Employee Resource File Import Object
Express Report Definitions	An Internal Help Desk Administrator can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions

Business Object	Policy Description	Policy Store Implementation
Express Report Definitions	An Internal Help Desk Administrator can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	An Internal Help Desk Administrator can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	An Internal Help Desk Administrator can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	An Internal Help Desk Administrator can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	An Internal Help Desk Administrator can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Export Batch	An Internal Help Desk Administrator can view file export batch for all export batches	Role: Internal Service Request Administration Privilege: View File Export Batch (Data) Resource: File Export Batch
File Import Activity	An Internal Help Desk Administrator can view standard file import activity object type for all standard file import activities that are accessible for conversation message administration	Role: Conversation Message Administration Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	An Internal Help Desk Administrator can view standard file import activity object type for all standard file import activities that are accessible for internal help desk administration	Role: Internal Service Request Administration Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	An Internal Help Desk Administrator can view standard file import mapping object type	Role: Internal Service Request Administration

Business Object	Policy Description	Policy Store Implementation
	for all standard file import activities that are accessible for internal help desk administration	Privilege: View Standard File Import Mapping Object Type Resource: File Import Activity
File Import Mapping	An Internal Help Desk Administrator can view standard file import mapping object type for all standard file import maps that are accessible for conversation message administration	Role: Conversation Message Administration Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
File Import Mapping	An Internal Help Desk Administrator can view standard file import mapping object type for all standard file import maps that are accessible for internal help desk administration	Role: Internal Service Request Administration Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
HR Job	An Internal Help Desk Administrator can choose hr job for all jobs in the enterprise	Role: Resource Administration Privilege: Choose HR Job (Data) Resource: HR Job
Inbound Message Detail	An Internal Help Desk Administrator can manage inbound message for all inbound messages sent to a internal help desk channel	Role: Internal Service Request Administration Privilege: Manage Inbound Message (Data) Resource: Inbound Message Detail
Installed Base Asset	A Internal Help Desk Administrator can manage installed base asset for all enterprise assets	Role: Internal Help Desk Administrator Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
Legal Employer	An Internal Help Desk Administrator can choose legal employer for legal employers in their organization security profile	Role: Resource Administration Privilege: Choose Legal Employer (Data) Resource: Legal Employer
MDF Budget	An Internal Help Desk Administrator can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	An Internal Help Desk Administrator can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget

Business Object	Policy Description	Policy Store Implementation
MDF Budget	An Internal Help Desk Administrator can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	An Internal Help Desk Administrator can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	An Internal Help Desk Administrator can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	An Internal Help Desk Administrator can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Claim	An Internal Help Desk Administrator can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Administrator can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Administrator can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Administrator can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Administrator can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data)

Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Action Plan	Allows viewing of an Action Plan.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Activity	Allows viewing activities.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Adaptive Search Workspace	Allows users to view and access workspace powered by adaptive search
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Agent Internal Help Desk	Allows viewing of ISR Agent Help Desk.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Audit History	Allows to view the audit history of all the business object attributes enabled for auditing.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Chat Transcript	Allows the user to view chat transcripts.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Engagement Channel Dashboard	Allows the user to view engagement channel dashboard.

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Internal Service Request	Allows viewing of ISR service request(s).
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Internal Service Request Manager Dashboard	Allows viewing of the ISR service manager dashboard. The dashboard contains analytical reports on service objects.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Named Routes	Allows viewing and grouping all functional navigation flows across channels into a single name
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Navigator Menu	Allows viewing navigator metadata information
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Object Link	Allows the user to view an object link.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Sales Organization	Allows viewing of the sales organization.
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Sensing Agent	Allows access to the sensingAgent REST service for the Oracle Assistant component embedded in Oracle Inside Sales application

Granted Role	Granted Role Description	Privilege	Privilege Description
Internal Service Request Analysis	Manages a group of Internal Help Desk agents. Can view Internal service requests, activities, and attachments. Monitors metrics and overall resource balancing, critical service requests, service level agreements.	View Smart Actions	Allows read and view access to Smart Actions Framework data.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-in Interview Definitions	Allow access to check-in Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-out Interview Definitions	Allow access to check-out Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Copy Interview Definitions	Allow access to copy Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Create Interview Definitions	Allow access to create Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Update Interview Definitions	Allow access to update Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Change Interview Definition Owner	Allow access to change the owner of Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Delete Interview Definitions	Allow access to delete Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Force Checkout Interview Definitions	Allow access to force checkout Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Publish Interview Definitions	Allow access to publish Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Unpublish Interview Definitions	Allow access to unpublish Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.	View Interview Definitions	Allow access to view the Interviews menu item and Interviews page.
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Knowledge Authoring	Manage Knowledge Articles

Granted Role	Granted Role Description	Privilege	Privilege Description
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Navigate to VB Page from Notification	Allows navigation to a VB page from a notification
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Use REST Service to View Products	Allows viewing product data using REST API

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Internal Help Desk Manager job role.

Business Object	Policy Description	Policy Store Implementation
Activity	An Internal Help Desk Manager can delete activity a member of an access group associated to the activity with delete access	Role: Access Groups Enablement Privilege: Delete Activity (Data) Resource: Activity
Activity	An Internal Help Desk Manager can update activity a member of an access group associated to the activity with update access	Role: Access Groups Enablement Privilege: Update Activity (Data) Resource: Activity
Activity	An Internal Help Desk Manager can view activity a member of an access group associated to the activity	Role: Access Groups Enablement Privilege: View Activity (Data) Resource: Activity
Application Attachment Category	An Internal Help Desk Manager can delete application attachment for all service categories that are visible to internal users	Role: Internal Service Request Analysis Privilege: Delete Application Attachment Resource: Application Attachment Category
Application Attachment Category	An Internal Help Desk Manager can read application attachment for all service categories that are visible to internal users	Role: Internal Service Request Analysis Privilege: Read Application Attachment Resource: Application Attachment Category

Business Object	Policy Description	Policy Store Implementation
Application Attachment Category	An Internal Help Desk Manager can update application attachment for all service categories that are visible to internal users	Role: Internal Service Request Analysis Privilege: Update Application Attachment Resource: Application Attachment Category
CRM Asset	An Internal Help Desk Manager can delete asset a member of an access group associated to the asset with delete access	Role: Access Groups Enablement Privilege: Delete Asset (Data) Resource: CRM Asset
CRM Asset	An Internal Help Desk Manager can update asset a member of an access group associated to the asset with update access	Role: Access Groups Enablement Privilege: Update Asset (Data) Resource: CRM Asset
CRM Asset	An Internal Help Desk Manager can view asset a member of an access group associated to the asset	Role: Access Groups Enablement Privilege: View Asset (Data) Resource: CRM Asset
Cases	An Internal Help Desk Manager can delete case header a member of an access group associated to the case with delete access	Role: Access Groups Enablement Privilege: Delete Case Header (Data) Resource: Cases
Cases	An Internal Help Desk Manager can update case header a member of an access group associated to the case with update access	Role: Access Groups Enablement Privilege: Update Case Header (Data) Resource: Cases
Cases	An Internal Help Desk Manager can view case header a member of an access group associated to the case	Role: Access Groups Enablement Privilege: View Case Header (Data) Resource: Cases
Conversation	A Internal Help Desk Manager can manage conversation for all internal help desk conversations	Role: Internal Help Desk Manager Privilege: Manage Conversation (Data) Resource: Conversation
Conversation	An Internal Help Desk Manager can delete conversation a member of an access group associated to the conversation with delete access	Role: Access Groups Enablement Privilege: Delete Conversation (Data) Resource: Conversation

Business Object	Policy Description	Policy Store Implementation
Conversation	An Internal Help Desk Manager can update conversation a member of an access group associated to the conversation with update access	Role: Access Groups Enablement Privilege: Update Conversation (Data) Resource: Conversation
Conversation	An Internal Help Desk Manager can view conversation a member of an access group associated to the conversation	Role: Access Groups Enablement Privilege: View Conversation (Data) Resource: Conversation
Conversation Message	A Internal Help Desk Manager can manage conversation message for all internal help desk collaboration messages	Role: Internal Help Desk Manager Privilege: Manage Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Manager can delete conversation message a member of an access group associated to the conversation message with delete access	Role: Access Groups Enablement Privilege: Delete Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Manager can update conversation message a member of an access group associated to the conversation message with update access	Role: Access Groups Enablement Privilege: Update Conversation Message (Data) Resource: Conversation Message
Conversation Message	An Internal Help Desk Manager can view conversation message a member of an access group associated to the conversation message	Role: Access Groups Enablement Privilege: View Conversation Message (Data) Resource: Conversation Message
Deal Registration Product	An Internal Help Desk Manager can manage deal registration product a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Product	An Internal Help Desk Manager can view deal registration product a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Product (Data) Resource: Deal Registration Product
Deal Registration Summary	An Internal Help Desk Manager can update deal registration approval details a member of an access group associated to the deal registration with update or full access and deal is in pending approval status	Role: Access Groups Enablement Privilege: Update Deal Registration Approval Details (Data) Resource: Deal Registration Summary

Business Object	Policy Description	Policy Store Implementation
Deal Registration Summary	An Internal Help Desk Manager can update deal registration deal details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Manager can update deal registration deal details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status	Role: Access Groups Enablement Privilege: Update Deal Registration Deal Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Manager can update deal registration opportunity details a member of an access group associated to the deal registration with full access	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Manager can update deal registration opportunity details a member of an access group associated to the deal registration with update access and deal is in pending approval or approved status	Role: Access Groups Enablement Privilege: Update Deal Registration Opportunity Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Manager can update deal registration partner details a member of an access group associated to the deal registration with update access and deal is in draft, returned or withdrawn status and the deal is created by an internal user	Role: Access Groups Enablement Privilege: Update Deal Registration Partner Details (Data) Resource: Deal Registration Summary
Deal Registration Summary	An Internal Help Desk Manager can view deal registration a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration (Data) Resource: Deal Registration Summary
Deal Registration Team	An Internal Help Desk Manager can manage deal registration team a member of an access group associated to the deal registration with update access	Role: Access Groups Enablement Privilege: Manage Deal Registration Team (Data) Resource: Deal Registration Team
Deal Registration Team	An Internal Help Desk Manager can view deal registration team a member of an access group associated to the deal registration	Role: Access Groups Enablement Privilege: View Deal Registration Team (Data) Resource: Deal Registration Team

Business Object	Policy Description	Policy Store Implementation
Express Report Definitions	An Internal Help Desk Manager can delete express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with delete access	Role: Access Groups Enablement Privilege: Delete Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	An Internal Help Desk Manager can update express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting with update access	Role: Access Groups Enablement Privilege: Update Express Report (Data) Resource: Express Report Definitions
Express Report Definitions	An Internal Help Desk Manager can view express report access the express reports for table zca_srt_report_def as a member of an access group associated to express reporting	Role: Access Groups Enablement Privilege: View Express Report (Data) Resource: Express Report Definitions
Field Service Work Order	An Internal Help Desk Manager can delete field service work order a member of an access group associated to the field service work order with delete access	Role: Access Groups Enablement Privilege: Delete Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	An Internal Help Desk Manager can update field service work order a member of an access group associated to the field service work order with update access	Role: Access Groups Enablement Privilege: Update Field Service Work Order (Data) Resource: Field Service Work Order
Field Service Work Order	An Internal Help Desk Manager can view field service work order a member of an access group associated to the field service work order	Role: Access Groups Enablement Privilege: View Field Service Work Order (Data) Resource: Field Service Work Order
File Import Activity	An Internal Help Desk Manager can view standard file import activity object type for all standard file import activities that are accessible for internal help desk analysis	Role: Internal Service Request Analysis Privilege: View Standard File Import Activity Object Type Resource: File Import Activity
File Import Activity	An Internal Help Desk Manager can view standard file import mapping object type for all standard file import activities that are accessible for internal help desk analysis	Role: Internal Service Request Analysis Privilege: View Standard File Import Mapping Object Type Resource: File Import Activity
File Import Mapping	An Internal Help Desk Manager can view standard file import mapping object type for all	Role: Internal Service Request Analysis

Business Object	Policy Description	Policy Store Implementation
	standard file import maps that are accessible for internal help desk analysis	Privilege: View Standard File Import Mapping Object Type Resource: File Import Mapping
Inbound Message Detail	An Internal Help Desk Manager can manage inbound message for all inbound messages sent to a internal help desk channel	Role: Internal Service Request Analysis Privilege: Manage Inbound Message (Data) Resource: Inbound Message Detail
Installed Base Asset	A Internal Help Desk Manager can manage installed base asset for all enterprise assets	Role: Internal Help Desk Manager Privilege: Manage Installed Base Asset (Data) Resource: Installed Base Asset
MDF Budget	An Internal Help Desk Manager can delete marketing budget a member of an access group associated to the mdf budget with delete access and budget status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Budget (Data) Resource: MDF Budget
MDF Budget	An Internal Help Desk Manager can update marketing budget a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget (Data) Resource: MDF Budget
MDF Budget	An Internal Help Desk Manager can view marketing budget a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget (Data) Resource: MDF Budget
MDF Budget Team	An Internal Help Desk Manager can delete marketing budget team a member of an access group associated to the mdf budget with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	An Internal Help Desk Manager can update marketing budget team a member of an access group associated to the mdf budget with update access	Role: Access Groups Enablement Privilege: Update Marketing Budget Team (Data) Resource: MDF Budget Team
MDF Budget Team	An Internal Help Desk Manager can view marketing budget team a member of an access group associated to the mdf budget	Role: Access Groups Enablement Privilege: View Marketing Budget Team (Data) Resource: MDF Budget Team

Business Object	Policy Description	Policy Store Implementation
MDF Claim	An Internal Help Desk Manager can delete marketing claim a member of an access group associated to the mdf claim with delete or full access and the claim status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Claim (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Manager can update marketing claim approval details a member of an access group associated to the mdf claim with update or full access and the claim status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Claim Approval Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Manager can update marketing claim details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Manager can update marketing claim partner details a member of an access group associated to the mdf claim with update or full access and the claim status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Claim Partner Details (Data) Resource: MDF Claim
MDF Claim	An Internal Help Desk Manager can view marketing claim a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim (Data) Resource: MDF Claim
MDF Claim Settlement	An Internal Help Desk Manager can delete marketing claim settlement a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	An Internal Help Desk Manager can update marketing claim settlement a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Settlement	An Internal Help Desk Manager can update marketing claim settlement details a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Settlement Details (Data) Resource: MDF Claim Settlement

Business Object	Policy Description	Policy Store Implementation
MDF Claim Settlement	An Internal Help Desk Manager can view marketing claim settlement a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Settlement (Data) Resource: MDF Claim Settlement
MDF Claim Team	An Internal Help Desk Manager can delete marketing claim team a member of an access group associated to the mdf claim with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	An Internal Help Desk Manager can update marketing claim team a member of an access group associated to the mdf claim with update access	Role: Access Groups Enablement Privilege: Update Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Claim Team	An Internal Help Desk Manager can view marketing claim team a member of an access group associated to the mdf claim	Role: Access Groups Enablement Privilege: View Marketing Claim Team (Data) Resource: MDF Claim Team
MDF Request	An Internal Help Desk Manager can delete marketing fund request a member of an access group associated to the mdf request with delete access and the request status is draft	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request (Data) Resource: MDF Request
MDF Request	An Internal Help Desk Manager can update marketing fund request approval details a member of an access group associated to the mdf request with update or full access and the request status is pending approval	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Approval Details (Data) Resource: MDF Request
MDF Request	An Internal Help Desk Manager can update marketing fund request details a member of an access group associated to the mdf request with update or full access and the request status is draft, returned, failed or withdrawn	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Details (Data) Resource: MDF Request
MDF Request	An Internal Help Desk Manager can update marketing fund request partner details a member of an access group associated to the mdf request with update or full access and request is in draft, returned, failed or withdrawn status and the request is created by an internal user	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Partner Details (Data) Resource: MDF Request

Business Object	Policy Description	Policy Store Implementation
MDF Request	An Internal Help Desk Manager can view marketing fund request a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request (Data) Resource: MDF Request
MDF Request Team	An Internal Help Desk Manager can delete marketing fund request team a member of an access group associated to the mdf request with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	An Internal Help Desk Manager can update marketing fund request team a member of an access group associated to the mdf request with update access	Role: Access Groups Enablement Privilege: Update Marketing Fund Request Team (Data) Resource: MDF Request Team
MDF Request Team	An Internal Help Desk Manager can view marketing fund request team a member of an access group associated to the mdf request	Role: Access Groups Enablement Privilege: View Marketing Fund Request Team (Data) Resource: MDF Request Team
Marketing Integration Campaign	An Internal Help Desk Manager can delete marketing integration campaign a member of an access group associated to the marketing integration campaign with delete access	Role: Access Groups Enablement Privilege: Delete Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	An Internal Help Desk Manager can update marketing integration campaign a member of an access group associated to the marketing integration campaign with update access	Role: Access Groups Enablement Privilege: Update Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Marketing Integration Campaign	An Internal Help Desk Manager can view marketing integration campaign a member of an access group associated to the marketing integration campaign	Role: Access Groups Enablement Privilege: View Marketing Integration Campaign (Data) Resource: Marketing Integration Campaign
Note	An Internal Help Desk Manager can delete note a member of an access group associated to the note with delete access	Role: Access Groups Enablement Privilege: Delete Note (Data) Resource: Note

Business Object	Policy Description	Policy Store Implementation
Note	An Internal Help Desk Manager can update note a member of an access group associated to the note with update access	Role: Access Groups Enablement Privilege: Update Note (Data) Resource: Note
Note	An Internal Help Desk Manager can view note a member of an access group associated to the note	Role: Access Groups Enablement Privilege: View Note (Data) Resource: Note
Opportunity	An Internal Help Desk Manager can manage opportunity general profile a member of an access group associated to the opportunity with update access	Role: Access Groups Enablement Privilege: Manage Opportunity General Profile (Data) Resource: Opportunity
Opportunity	An Internal Help Desk Manager can manage opportunity restricted profile a member of an access group associated to the opportunity with delete access	Role: Access Groups Enablement Privilege: Manage Opportunity Restricted Profile (Data) Resource: Opportunity
Opportunity	An Internal Help Desk Manager can manage opportunity revenue a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Revenue (Data) Resource: Opportunity
Opportunity	An Internal Help Desk Manager can manage opportunity team a member of an access group associated to the opportunity with full access	Role: Access Groups Enablement Privilege: Manage Opportunity Team (Data) Resource: Opportunity
Opportunity	An Internal Help Desk Manager can view opportunity a member of an access group associated to the opportunity	Role: Access Groups Enablement Privilege: View Opportunity (Data) Resource: Opportunity
Partner Profile	An Internal Help Desk Manager can manage partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Manage Partner Account (Data) Resource: Partner Profile
Partner Profile	An Internal Help Desk Manager can update partner account a member of an access group associated to the partner with update access	Role: Access Groups Enablement Privilege: Update Partner Account (Data) Resource: Partner Profile

Business Object	Policy Description	Policy Store Implementation
Partner Program Enrollment	An Internal Help Desk Manager can manage partner program enrollment a member of an access group associated to the partner program enrollment with delete access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	An Internal Help Desk Manager can manage partner program enrollment a member of an access group associated to the partner program enrollment with update access	Role: Access Groups Enablement Privilege: Manage Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Partner Program Enrollment	An Internal Help Desk Manager can view partner program enrollment a member of an access group associated to the partner program enrollment	Role: Access Groups Enablement Privilege: View Partner Program Enrollment (Data) Resource: Partner Program Enrollment
Price Book	An Internal Help Desk Manager can delete price book a member of an access group associated to the price book with delete access	Role: Access Groups Enablement Privilege: Delete Price Book (Data) Resource: Price Book
Price Book	An Internal Help Desk Manager can update price book a member of an access group associated to the price book with update access	Role: Access Groups Enablement Privilege: Update Price Book (Data) Resource: Price Book
Price Book	An Internal Help Desk Manager can view price book a member of an access group associated to the price book	Role: Access Groups Enablement Privilege: View Price Book (Data) Resource: Price Book
Product Group	An Internal Help Desk Manager can delete product group a member of an access group associated to the product group with delete access	Role: Access Groups Enablement Privilege: Delete Product Group (Data) Resource: Product Group
Product Group	An Internal Help Desk Manager can update product group a member of an access group associated to the product group with update access	Role: Access Groups Enablement Privilege: Update Product Group (Data) Resource: Product Group

Business Object	Policy Description	Policy Store Implementation
Product Group	An Internal Help Desk Manager can view product group a member of an access group associated to the product group	Role: Access Groups Enablement Privilege: View Product Group (Data) Resource: Product Group
Products	An Internal Help Desk Manager can delete product a member of an access group associated to the product with delete access	Role: Access Groups Enablement Privilege: Delete Product (Data) Resource: Products
Products	An Internal Help Desk Manager can update product a member of an access group associated to the product with update access	Role: Access Groups Enablement Privilege: Update Product (Data) Resource: Products
Products	An Internal Help Desk Manager can view product a member of an access group associated to the product	Role: Access Groups Enablement Privilege: View Product (Data) Resource: Products
Sales Business Plan	An Internal Help Desk Manager can delete sales business plan a member of an access group associated to the business plan with delete access	Role: Access Groups Enablement Privilege: Delete Sales Business Plan (Data) Resource: Sales Business Plan
Sales Business Plan	An Internal Help Desk Manager can update sales business plan general a member of an access group associated to the business plan with update access	Role: Access Groups Enablement Privilege: Update Sales Business Plan General (Data) Resource: Sales Business Plan

Sales Forecast	An Internal Help Desk Manager can delete sales forecast participants a member of an access group associated to the sales forecast with delete access	Role: Access Groups Enablement Privilege: Delete Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast	An Internal Help Desk Manager can update sales forecast participants a member of an access group associated to the sales forecast with update access	Role: Access Groups Enablement Privilege: Update Sales Forecast Participants (Data) Resource: Sales Forecast
Sales Forecast	An Internal Help Desk Manager can view sales forecast participants a member of an access group associated to the sales forecast with read access	Role: Access Groups Enablement Privilege: View Sales Forecast Participants (Data) Resource: Sales Forecast

Business Object	Policy Description	Policy Store Implementation
Sales Forecast Item	An Internal Help Desk Manager can manage sales forecast item a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Item (Data) Resource: Sales Forecast Item
Sales Forecast Participant	An Internal Help Desk Manager can manage sales forecast participant a member of an access group associated to the territory forecast with full access	Role: Access Groups Enablement Privilege: Manage Sales Forecast Participant (Data) Resource: Sales Forecast Participant
Sales Goal Participants	An Internal Help Desk Manager can delete sales goal participants a member of an access group associated to the goal participant with delete access	Role: Access Groups Enablement Privilege: Delete Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	An Internal Help Desk Manager can update sales goal participants a member of an access group associated to the goal participant with update access	Role: Access Groups Enablement Privilege: Update Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goal Participants	An Internal Help Desk Manager can view sales goal participants a member of an access group associated to the goal participant	Role: Access Groups Enablement Privilege: View Sales Goal Participants (Data) Resource: Sales Goal Participants
Sales Goals	An Internal Help Desk Manager can delete sales goal a member of an access group associated to the goal with delete access	Role: Access Groups Enablement Privilege: Delete Sales Goal (Data) Resource: Sales Goals
Sales Goals	An Internal Help Desk Manager can update sales goal a member of an access group associated to the goal with update access	Role: Access Groups Enablement Privilege: Update Sales Goal (Data) Resource: Sales Goals
Sales Goals	An Internal Help Desk Manager can view sales goal a member of an access group associated to the goal	Role: Access Groups Enablement Privilege: View Sales Goal (Data) Resource: Sales Goals
Sales KPI	An Internal Help Desk Manager can delete sales kpi a member of an access group associated to the kpi with delete access	Role: Access Groups Enablement Privilege: Delete Sales KPI (Data) Resource: Sales KPI

Business Object	Policy Description	Policy Store Implementation
Sales KPI	An Internal Help Desk Manager can update sales kpi a member of an access group associated to the kpi with update access	Role: Access Groups Enablement Privilege: Update Sales KPI (Data) Resource: Sales KPI
Sales KPI	An Internal Help Desk Manager can view sales kpi a member of an access group associated to the kpi	Role: Access Groups Enablement Privilege: View Sales KPI (Data) Resource: Sales KPI
Sales Lead	An Internal Help Desk Manager can convert sales lead a member of an access group associated to the sales lead with full access	Role: Access Groups Enablement Privilege: Convert Sales Lead (Data) Resource: Sales Lead
Sales Lead	An Internal Help Desk Manager can delete sales lead a member of an access group associated to the sales lead with delete access	Role: Access Groups Enablement Privilege: Delete Sales Lead (Data) Resource: Sales Lead
Sales Lead	An Internal Help Desk Manager can update sales lead a member of an access group associated to the sales lead with update access	Role: Access Groups Enablement Privilege: Update Sales Lead (Data) Resource: Sales Lead
Sales Lead	An Internal Help Desk Manager can view sales lead a member of an access group associated to the sales lead	Role: Access Groups Enablement Privilege: View Sales Lead (Data) Resource: Sales Lead
Sales Objective	An Internal Help Desk Manager can delete sales objective a member of an access group associated to the sales business plan with delete access	Role: Access Groups Enablement Privilege: Delete Sales Objective (Data) Resource: Sales Objective
Sales Objective	An Internal Help Desk Manager can update sales objective attainment a member of an access group associated to the sales business plan with full access	Role: Access Groups Enablement Privilege: Update Sales Objective Attainment (Data) Resource: Sales Objective
Sales Objective	An Internal Help Desk Manager can update sales objective general a member of an access group associated to the sales business plan with update access	Role: Access Groups Enablement Privilege: Update Sales Objective General (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Sales Objective
Sales Objective	An Internal Help Desk Manager can view sales objective a member of an access group associated to the sales business plan	Role: Access Groups Enablement Privilege: View Sales Objective (Data) Resource: Sales Objective
Sales Objects	An Internal Help Desk Manager can view standard file import export object type for all standard file import export objects that are accessible for internal help desk analysis	Role: Internal Service Request Analysis Privilege: View Standard File Import Export Object Type Resource: Sales Objects
Sales Objects	An Internal Help Desk Manager can view standard file import mapping object type for all standard file import export objects that are accessible for internal help desk analysis	Role: Internal Service Request Analysis Privilege: View Standard File Import Mapping Object Type Resource: Sales Objects
Sales Order	An Internal Help Desk Manager can view sales order a member of an access group associated to the sales order	Role: Access Groups Enablement Privilege: View Sales Order (Data) Resource: Sales Order
Sales Quota Plan	An Internal Help Desk Manager can view sales quota plan a member of an access group associated to the sales quota plan with read access	Role: Access Groups Enablement Privilege: View Sales Quota Plan (Data) Resource: Sales Quota Plan
Sales Resource Quota	An Internal Help Desk Manager can manage sales resource quota a member of an access group associated to the sales resource quota with delete access	Role: Access Groups Enablement Privilege: Manage Sales Resource Quota (Data) Resource: Sales Resource Quota
Sales Resource Quota	An Internal Help Desk Manager can manage sales resource quota a member of an access group associated to the sales resource quota with update access	Role: Access Groups Enablement Privilege: Manage Sales Resource Quota (Data) Resource: Sales Resource Quota
Sales Resource Quota	An Internal Help Desk Manager can view sales resource quota a member of an access group associated to the sales resource quota with read access	Role: Access Groups Enablement Privilege: View Sales Resource Quota (Data) Resource: Sales Resource Quota
Sales Territory	An Internal Help Desk Manager can manage sales territory a member of an access group	Role: Access Groups Enablement

Business Object	Policy Description	Policy Store Implementation
	associated to the sales territory with delete access	Privilege: Manage Sales Territory (Data) Resource: Sales Territory
Sales Territory	An Internal Help Desk Manager can manage sales territory a member of an access group associated to the sales territory with update access	Role: Access Groups Enablement Privilege: Manage Sales Territory (Data) Resource: Sales Territory
Sales Territory	An Internal Help Desk Manager can view sales territory a member of an access group associated to the sales territory with read access	Role: Access Groups Enablement Privilege: View Sales Territory (Data) Resource: Sales Territory
Sales Territory Proposal	An Internal Help Desk Manager can manage sales territory proposal a member of an access group associated to the sales territory proposal with delete access	Role: Access Groups Enablement Privilege: Manage Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Sales Territory Proposal	An Internal Help Desk Manager can manage sales territory proposal a member of an access group associated to the sales territory proposal with update access	Role: Access Groups Enablement Privilege: Manage Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Sales Territory Proposal	An Internal Help Desk Manager can view sales territory proposal a member of an access group associated to the sales territory proposal with read access	Role: Access Groups Enablement Privilege: View Sales Territory Proposal (Data) Resource: Sales Territory Proposal
Service Assignment Queue	An Internal Help Desk Manager can manage service queue for all internal help desk service queues	Role: Internal Service Request Analysis Privilege: Manage Service Queue (Data) Resource: Service Assignment Queue
Service Category	An Internal Help Desk Manager can delete service category a member of an access group associated to the service category with delete access	Role: Access Groups Enablement Privilege: Delete Service Category (Data) Resource: Service Category
Service Category	An Internal Help Desk Manager can manage service category for all internal help desk service categories	Role: Internal Service Request Analysis Privilege: Manage Service Category (Data) Resource: Service Category

Business Object	Policy Description	Policy Store Implementation
Service Category	An Internal Help Desk Manager can update service category a member of an access group associated to the service category with update access	Role: Access Groups Enablement Privilege: Update Service Category (Data) Resource: Service Category
Service Category	An Internal Help Desk Manager can view service category a member of an access group associated to the service category	Role: Access Groups Enablement Privilege: View Service Category (Data) Resource: Service Category
Service Interaction Header	An Internal Help Desk Manager can manage service interaction for all crm interactions	Role: Conversation Message Management Privilege: Manage Service Interaction (Data) Resource: Service Interaction Header
Service Interaction Header	An Internal Help Desk Manager can manage service interaction for all internal help desk interactions	Role: Internal Service Request Analysis Privilege: Manage Service Interaction (Data) Resource: Service Interaction Header
Service Profile	An Internal Help Desk Manager can delete service profile a member of an access group associated to the service profile with delete access	Role: Access Groups Enablement Privilege: Delete Service Profile (Data) Resource: Service Profile
Service Profile	An Internal Help Desk Manager can update service profile a member of an access group associated to the service profile with update access	Role: Access Groups Enablement Privilege: Update Service Profile (Data) Resource: Service Profile
Service Profile	An Internal Help Desk Manager can view service profile a member of an access group associated to the service profile	Role: Access Groups Enablement Privilege: View Service Profile (Data) Resource: Service Profile
Service Request Header	An Internal Help Desk Manager can delete service request header a member of an access group associated to the service request with delete access	Role: Access Groups Enablement Privilege: Delete Service Request Header (Data) Resource: Service Request Header
Service Request Header	An Internal Help Desk Manager can update service request header a member of an access group associated to the service request with update access	Role: Access Groups Enablement Privilege: Update Service Request Header (Data) Resource: Service Request Header

Business Object	Policy Description	Policy Store Implementation
Service Request Header	An Internal Help Desk Manager can view service request header a member of an access group associated to the service request	Role: Access Groups Enablement Privilege: View Service Request Header (Data) Resource: Service Request Header
Service Request Message	An Internal Help Desk Manager can delete service request message a member of an access group associated to the sr message with delete access	Role: Access Groups Enablement Privilege: Delete Service Request Message (Data) Resource: Service Request Message
Service Request Message	An Internal Help Desk Manager can manage service request message for all service request messages	Role: Internal Service Request Analysis Privilege: Manage Service Request Message (Data) Resource: Service Request Message
Service Request Message	An Internal Help Desk Manager can update service request message a member of an access group associated to the sr message with update access	Role: Access Groups Enablement Privilege: Update Service Request Message (Data) Resource: Service Request Message
Service Request Message	An Internal Help Desk Manager can view service request message a member of an access group associated to the sr message	Role: Access Groups Enablement Privilege: View Service Request Message (Data) Resource: Service Request Message
Service Request Resource	An Internal Help Desk Manager can manage service request resource for all service request resources	Role: Internal Service Request Analysis Privilege: Manage Service Request Resource (Data) Resource: Service Request Resource
Smart Text	An Internal Help Desk Manager can manage smart text all internal help desk smart texts	Role: Internal Service Request Analysis Privilege: Manage Smart Text (Data) Resource: Smart Text
Subscription	An Internal Help Desk Manager can manage subscription a member of an access group associated to the subscription with delete access	Role: Access Groups Enablement Privilege: Manage Subscription (Data) Resource: Subscription

Business Object	Policy Description	Policy Store Implementation
Subscription	An Internal Help Desk Manager can update subscription a member of an access group associated to the subscription with update access	Role: Access Groups Enablement Privilege: Update Subscription (Data) Resource: Subscription
Subscription	An Internal Help Desk Manager can view subscription a member of an access group associated to the subscription	Role: Access Groups Enablement Privilege: View Subscription (Data) Resource: Subscription
Trading Community Contact Preference	An Internal Help Desk Manager can manage trading community legal contact preference a member of an access group associated to contact preferences.	Role: Access Groups Enablement Privilege: Manage Trading Community Legal Contact Preference (Data) Resource: Trading Community Contact Preference
Trading Community Duplicate Identification Batch	An Internal Help Desk Manager can manage trading community duplicate identification batch a member of an access group associated to the duplicate identification batch with delete access	Role: Access Groups Enablement Privilege: Manage Trading Community Duplicate Identification Batch (Data) Resource: Trading Community Duplicate Identification Batch
Trading Community Duplicate Identification Batch	An Internal Help Desk Manager can manage trading community duplicate identification batch a member of an access group associated to the duplicate identification batch with update access	Role: Access Groups Enablement Privilege: Manage Trading Community Duplicate Identification Batch (Data) Resource: Trading Community Duplicate Identification Batch
Trading Community Duplicate Identification Batch	An Internal Help Desk Manager can view trading community duplicate identification batch a member of an access group associated to the duplicate identification batch with view access	Role: Access Groups Enablement Privilege: View Trading Community Duplicate Identification Batch (Data) Resource: Trading Community Duplicate Identification Batch
Trading Community Duplicate Resolution Request	An Internal Help Desk Manager can manage trading community duplicate resolution request a member of an access group associated to the duplicate resolution request with delete access	Role: Access Groups Enablement Privilege: Manage Trading Community Duplicate Resolution Request (Data) Resource: Trading Community Duplicate Resolution Request
Trading Community Duplicate Resolution Request	An Internal Help Desk Manager can manage trading community duplicate resolution request a member of an access group associated to the duplicate resolution request with update access	Role: Access Groups Enablement Privilege: Manage Trading Community Duplicate Resolution Request (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Trading Community Duplicate Resolution Request
Trading Community Duplicate Resolution Request	An Internal Help Desk Manager can view trading community duplicate resolution request a member of an access group associated to the duplicate resolution request with view access	Role: Access Groups Enablement Privilege: View Trading Community Duplicate Resolution Request (Data) Resource: Trading Community Duplicate Resolution Request
Trading Community Party	An Internal Help Desk Manager can manage sales party a member of an access group associated to the account with full access	Role: Access Groups Enablement Privilege: Manage Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can manage sales party a member of an access group associated to the contact with full access	Role: Access Groups Enablement Privilege: Manage Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can manage sales party a member of an access group associated to the household with full access	Role: Access Groups Enablement Privilege: Manage Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can manage sales party a member of an access group associated to the partner contact with delete access	Role: Access Groups Enablement Privilege: Manage Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can manage sales party a member of an access group associated to the partner contact with update access	Role: Access Groups Enablement Privilege: Manage Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the account with delete access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the account with update access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party

Business Object	Policy Description	Policy Store Implementation
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the contact with delete access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the contact with update access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the household with delete access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can update sales party a member of an access group associated to the household with update access	Role: Access Groups Enablement Privilege: Update Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the account	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the contact	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the household	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the partner	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the partner contact	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party

Business Object	Policy Description	Policy Store Implementation
Trading Community Party	An Internal Help Desk Manager can view sales party a member of an access group associated to the sales competitor	Role: Access Groups Enablement Privilege: View Sales Party (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view trading community contact a member of an access group associated to the contact	Role: Access Groups Enablement Privilege: View Trading Community Contact (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view trading community contact a member of an access group associated to the partner contact	Role: Access Groups Enablement Privilege: View Trading Community Contact (Data) Resource: Trading Community Party
Trading Community Party	An Internal Help Desk Manager can view trading community resource a member of an access group associated to the resource	Role: Access Groups Enablement Privilege: View Trading Community Resource (Data) Resource: Trading Community Party
Trading Community Relationship	An Internal Help Desk Manager can view trading community relationship a member of an access group associated to the account	Role: Access Groups Enablement Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship
Trading Community Relationship	An Internal Help Desk Manager can view trading community relationship a member of an access group associated to the contact	Role: Access Groups Enablement Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship
Trading Community Relationship	An Internal Help Desk Manager can view trading community relationship a member of an access group associated to the household	Role: Access Groups Enablement Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship
Trading Community Relationship	An Internal Help Desk Manager can view trading community relationship a member of an access group associated to the partner contact	Role: Access Groups Enablement Privilege: View Trading Community Relationship (Data) Resource: Trading Community Relationship

Business Object	Policy Description	Policy Store Implementation
Trading Community Resource Profile	An Internal Help Desk Manager can manage trading community resource address a member of an access group associated to the resource with update access	Role: Access Groups Enablement Privilege: Manage Trading Community Resource Address (Data) Resource: Trading Community Resource Profile
Trading Community Resource Profile	An Internal Help Desk Manager can manage trading community resource contact point information a member of an access group associated to the resource with update access	Role: Access Groups Enablement Privilege: Manage Trading Community Resource Contact Point Information (Data) Resource: Trading Community Resource Profile
Trading Community Resource Profile	An Internal Help Desk Manager can manage trading community resource skill a member of an access group associated to the resource with update access	Role: Access Groups Enablement Privilege: Manage Trading Community Resource Skill (Data) Resource: Trading Community Resource Profile
Trading Community Resource Profile	An Internal Help Desk Manager can remove trading community resource a member of an access group associated to the resource with delete access	Role: Access Groups Enablement Privilege: Remove Trading Community Resource (Data) Resource: Trading Community Resource Profile
Trading Community Resource Profile	An Internal Help Desk Manager can update trading community resource a member of an access group associated to the resource with full access	Role: Access Groups Enablement Privilege: Update Trading Community Resource (Data) Resource: Trading Community Resource Profile

Knowledge Analyst (Job Role)

Individual responsible for creation of knowledge articles.

Role Hierarchy

The Knowledge Analyst job role directly and indirectly inherits these roles.

- Knowledge Analyst
  - Knowledge Analytics
  - Knowledge Authoring
    - Interview Definition Authoring
    - Interview Definition Publishing
    - Interview Definition Viewing
  - Knowledge Home

Duties

This table lists the duties assigned directly and indirectly to the Knowledge Analyst job role.

Duty Role	Description
Interview Definition Authoring	Manage access for authoring Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.
Knowledge Analytics	User's ability to execute and create analytics reports
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion
Knowledge Home	Provides users with the ability to view and rate knowledge articles

Privileges

This table lists privileges granted to duties of the Knowledge Analyst job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-in Interview Definitions	Allow access to check-in Interview definitions.

Granted Role	Granted Role Description	Privilege	Privilege Description
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-out Interview Definitions	Allow access to check-out Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Copy Interview Definitions	Allow access to copy Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Create Interview Definitions	Allow access to create Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Update Interview Definitions	Allow access to update Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Publish Interview Definitions	Allow access to publish Interview definitions.

Duty Role	Description
Knowledge Analytics	User's ability to execute and create analytics reports
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion
Knowledge Home	Provides users with the ability to view and rate knowledge articles
Knowledge Rest Administrator	This role is used by REST API users
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base
Knowledge User Management	Provides for the ability to manage users, internal knowledge roles, and user groups memberships

Privileges

This table lists privileges granted to duties of the Knowledge Manager job role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Configure Knowledge UI	Configure Knowledge UI	Administer Sandbox	Allows administration of all sandboxes.
Configure Knowledge UI	Configure Knowledge UI	Configure Knowledge UI	Not Available
Configure Knowledge UI	Configure Knowledge UI	Use REST Service to View Products	Allows viewing product data using REST API
Configure Knowledge UI	Configure Knowledge UI	View Administration Link	Privilege to view administration link in UI shell
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Execute Setup Tasks	Allows setup task execution and searching of tasks and tasks lists.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Applications Offering	Provides access to the Getting Started page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Review Setups Functional User Overview	Allows access to the Assigned Implementation Tasks page.
Functional Setups	Uses the functional user overview, and assigned tasks, and task lists.	Setup and Maintain Applications	Allows access to the Setup and Maintenance work area.

Granted Role	Granted Role Description	Privilege	Privilege Description
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-in Interview Definitions	Allow access to check-in Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Check-out Interview Definitions	Allow access to check-out Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Copy Interview Definitions	Allow access to copy Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Create Interview Definitions	Allow access to create Interview definitions.
Interview Definition Authoring	Manage access for authoring Interview definitions.	Update Interview Definitions	Allow access to update Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Change Interview Definition Owner	Allow access to change the owner of Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Delete Interview Definitions	Allow access to delete Interview definitions.
Interview Definition Managing	Manage access for deleting and forcing checkout of Interview definitions.	Force Checkout Interview Definitions	Allow access to force checkout Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Publish Interview Definitions	Allow access to publish Interview definitions.
Interview Definition Publishing	Manage access for publishing and unpublishing Interview definitions.	Unpublish Interview Definitions	Allow access to unpublish Interview definitions.
Interview Definition Viewing	Manage access for viewing Interview definitions.	View Interview Definitions	Allow access to view the Interviews menu item and Interviews page.
Knowledge Analytics	User's ability to execute and create analytics reports	Knowledge Analytics	Knowledge Analytics view and create
Knowledge Analytics	User's ability to execute and create analytics reports	Use REST Service to View Products	Allows viewing product data using REST API
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Knowledge Authoring	Manage Knowledge Articles

Granted Role	Granted Role Description	Privilege	Privilege Description
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Navigate to VB Page from Notification	Allows navigation to a VB page from a notification
Knowledge Authoring	Provides for the ability to participate in the life cycle of a knowledge article from creation to deletion	Use REST Service to View Products	Allows viewing product data using REST API
Knowledge Home	Provides users with the ability to view and rate knowledge articles	Access Knowledge Home	Not Available
Knowledge Home	Provides users with the ability to view and rate knowledge articles	Use REST Service to View Products	Allows viewing product data using REST API
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Access Knowledge from Shared Knowledge Panel	Allow knowledge access from shared KM Panel
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Administer Knowledge	Special privilege intended for business administrators.
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Close Article	Not Available
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Create Article	Not Available
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Create Knowledge Mass Updates	Allows authors to perform updates on multiple articles simultaneously.
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Create Knowledge Tasks	Allows users to suggest improvements to knowledge articles.
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Edit Article	Not Available
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Edit Knowledge Article Code	Gives authors the ability to edit the source code of articles including adding javascript.

Granted Role	Granted Role Description	Privilege	Privilege Description
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Manage Knowledge Tasks	Manage Knowledge Tasks
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Preview Article Publication Detail	Not Available
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Replace Text in Knowledge Articles via Mass Updates	Allows authors who can perform mass updates to additionally find and replace text in multiple articles simultaneously.
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Translate Article	Not Available
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	Use REST Service to View Products	Allows viewing product data using REST API
Knowledge Manager	Individual responsible for managing Knowledge Base activities.	View Articles	View knowledge article
Knowledge Rest Administrator	This role is used by REST API users	Knowledge Rest Administrator	Knowledge Rest Administrator Calls
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Knowledge Setup and Maintenance	Knowledge Set up and maintenance - FSM
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Manage All Application Profile Values	Allows management of all application profile option settings and values at various levels to control application behavior.
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Schedule Service Jobs	Allows scheduling of service related jobs, such as, closing of old service requests
Knowledge Setup and Maintenance	Provides the users with the ability to setup and manage knowledge base	Use REST Service to View Products	Allows viewing product data using REST API
Knowledge User Management	Provides for the ability to manage users, internal knowledge roles, and user groups memberships	Knowledge User Management	Knowledge User Management

Granted Role	Granted Role Description	Privilege	Privilege Description
Knowledge User Management	Provides for the ability to manage users, internal knowledge roles, and user groups memberships	Use REST Service to View Products	Allows viewing product data using REST API

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Knowledge Manager job role.

Business Object	Policy Description	Policy Store Implementation
Application Objects	A Knowledge Manager can manage application objects for all customer relationship management application objects	Role: Knowledge Manager Privilege: Manage Application Objects (Data) Resource: Application Objects
Knowledge Content Types	A Knowledge Manager can checkout knowledge content types all content types	Role: Knowledge Manager Privilege: Clear Checkout Article of a content type Resource: Knowledge Content Types
Knowledge Content Types	A Knowledge Manager can delete knowledge content types all content types	Role: Knowledge Manager Privilege: Delete Article of a content type Resource: Knowledge Content Types
Knowledge Content Types	A Knowledge Manager can publish knowledge content types all content types	Role: Knowledge Manager Privilege: Publish Article of a content type Resource: Knowledge Content Types
Knowledge Content Types	A Knowledge Manager can translate knowledge content types all content types	Role: Knowledge Manager Privilege: Translate Article of a content type Resource: Knowledge Content Types
Knowledge Content Types	A Knowledge Manager can update knowledge content types all content types	Role: Knowledge Manager Privilege: Update Article of a content type Resource: Knowledge Content Types

Business Object	Policy Description	Policy Store Implementation
Knowledge Content Types	A Knowledge Manager can view knowledge content types all content types	Role: Knowledge Manager Privilege: View Article of a content type Resource: Knowledge Content Types
Knowledge Departments	A Knowledge Manager can access knowledge departments the hcm department	Role: Knowledge Manager Privilege: Access Content with Department Resource: Knowledge Departments
Knowledge Departments	A Knowledge Manager can access knowledge departments the internal help desk department	Role: Knowledge Manager Privilege: Access Content with Department Resource: Knowledge Departments
Knowledge Departments	A Knowledge Manager can access knowledge departments the service department	Role: Knowledge Manager Privilege: Access Content with Department Resource: Knowledge Departments
Knowledge User groups	A Knowledge Manager can access knowledge user groups access to employee user group	Role: Knowledge Manager Privilege: Access Content with User Group Resource: Knowledge User groups
Knowledge User groups	A Knowledge Manager can access knowledge user groups access to internal hcm user group	Role: Knowledge Manager Privilege: Access Content with User Group Resource: Knowledge User groups
Knowledge User groups	A Knowledge Manager can access knowledge user groups access to internal service user group	Role: Knowledge Manager Privilege: Access Content with User Group Resource: Knowledge User groups
Knowledge Workflow Steps	A Knowledge Manager can approve_reject knowledge workflow steps all knowledge workflow steps	Role: Knowledge Manager Privilege: Approve or reject a Knowledge Workflow Step Resource: Knowledge Workflow Steps
Service Category	A Knowledge Manager can view service category for all service categories	Role: Knowledge Manager Privilege: View Service Category (Data) Resource: Service Category

Business Object	Policy Description	Policy Store Implementation

Line Manager (Abstract Role)

Identifies the person as a line manager.

Role Hierarchy

The Line Manager abstract role directly and indirectly inherits these roles.

- Line Manager
  - Absence Management Transaction Analysis
    - Business Intelligence Authoring
  - Access Learning Common Components
  - Access Person Gallery
  - Access Touchpoints by Manager
    - Manage HCM Person Note
    - Request Feedback
    - Use REST Service - Development Goals Read Only
    - Use REST Service - Feedback Requests by Worker or Manager
    - Use REST Service - Manager Connections Read Only
    - Use REST Service - Performance Goals Read Only
    - Use REST Service - Talent Worker Check-Ins
    - Use REST Service - Talent Worker Engagements by Manager Read Only
  - Add Worker Assignment
  - Availability Patterns Transaction Analysis
  - Career Development Transaction Analysis
  - Change Employment Start Dates
  - Change Worker Location
  - Change Worker Location and Position by Manager
  - Change Worker Manager
  - Change Worker Working Hour
  - Change Worker Working Hour and Position by Manager
  - Compare HCM Information
  - Compensation Transaction Analysis
    - Business Intelligence Authoring
  - Contingent Worker Addition
  - Create Non-Catalog Learning Request by Learner Manager
  - Create Succession Plan for Worker
  - Create Work Relationship
  - Documents of Record Transaction Analysis
  - Edit Person Career Planning
  - Edit Person Skills and Qualifications
  - Edit Succession Plan and Manage Candidates
  - Edit Time Zone Overrides

- Employee Hire
- Expense Approval
- Goal Management Line Manager
- Goal Management Transaction Analysis
  - Business Intelligence Authoring
- HCM Questionnaires General Survey Responses Transaction Analysis
- Individual Compensation Transaction Analysis
- Line Manager Workforce Compensation Management
- Maintain Absence Records
- Manage Availability Patterns
- Manage Cash Disbursements
- Manage Contextual Journey by Manager
  - Use REST Service - HR Document Types List of Values
  - Use REST Service - Journeys Read Only
  - Use REST Service - Public Workers Read Only
  - Use REST Service - Worker Journeys
  - Use REST Service - Workers List of Values
- Manage Costing of Position in Employment Processes
- Manage Development Goal by Manager
- Manage Direct Report
- Manage Donations
- Manage Eligible Jobs
- Manage Employee Payroll in Employment Processes
- Manage Individual Compensation
- Manage Journey By Manager
  - Use REST Service - All Tasks in Journey Task Library
  - Use REST Service - HR Document Types List of Values
  - Use REST Service - Journey Allocations
  - Use REST Service - Journey Categories List of Values
  - Use REST Service - Journey Scheduled Allocations
  - Use REST Service - Journeys
  - Use REST Service - Public Workers Read Only
  - Use REST Service - Worker Journeys
  - Use REST Service - Workers List of Values
- Manage Learning Communities
- Manage Learning Community Required Members
- Manage Learning Self-Service Tutorials
- Manage Learning Self-Service Videos
- Manage My Team Posts
- Manage My Vacancies

- Manage Offline Learning
- Manage Onboarding by Manager
- Manage Performance Goal by Manager
- Manage Person Documentation
- Manage Person Identifiers for External Applications
- Manage Recommended Learning
- Manage Required Learning by Learner Manager
- Manage Salaries
- Manage Schedules and Exceptions Assignment
- Manage Survey by Manager
  - Use REST Service - Journeys
  - Use REST Service - Worker Journeys
  - Use REST Service - Workers List of Values
- Manage Talent Pool
- Manage Time Cards by Line Manager
  - Use REST Service - Time Card Entry Details by Line Manager Read Only
  - Use REST Service - Time Card Searches by Line Manager
  - Use REST Service - Time Cards by Line Manager
- Manage Time Change Requests by Line Manager
- Manage User Account
  - Edit User Name
  - Manage User Roles
  - Use REST Service - Public Workers Read Only
- Manage Vacancy
- Manage Voluntary Learning by Learner Manager
- Manage Work Patterns
- Manage Worker Checklist
- Manage Worker Contract
- Manage Worker Information Sharing
- Manage Workforce Compensation Budgets by Line Manager
- Moderate User Generated Learning
- Nonworker Addition
- Pending Worker Addition and Hire
- Performance Management Line Manager
  - Create Anytime Performance Document
  - Manage Check-In Document
  - Mass Evaluate Performance Documents by Manager
    - Use REST Service - Talent Performance Mass Evaluations
    - Use REST Service - Talent Performance Mass Evaluations Read Only
  - Request Feedback

        - View Check-In Document

Duties

This table lists the duties assigned directly and indirectly to the Line Manager abstract role.

Duty Role	Description
Absence Management Transaction Analysis	Analyzes Workforce absences transactional information
Access Learning Common Components	Access common learning components.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.
Availability Patterns Transaction Analysis	Analyzes employee availability pattern transactional information
Business Intelligence Authoring	An author of Business Intelligence reports as presented in the web catalog. The role allows authoring within Business Intelligence Applications, Business Intelligence Publisher, Real Time Decisions, Enterprise Performance Management and Business Intelligence Office.
Career Development Transaction Analysis	HCM Career Development Transaction Analysis Duty Role
Compensation Transaction Analysis	Analyzes Compensation transactional information
Contingent Worker Addition	Adds contingent workers.
Documents of Record Transaction Analysis	Analyzes Documents of Records transactional information

Duty Role	Description
Employee Hire	Hires employees.
Expense Approval	Approves expense reports of Oracle Fusion Expenses users.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager
Goal Management Transaction Analysis	Analyzes Workforce Goals transactional information
HCM Questionnaires General Survey Responses Transaction Analysis	Analyses HCM Questionnaires General Survey Responses
Individual Compensation Transaction Analysis	Analyses individual compensation transactional information
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.
Manage Contextual Journey by Manager	Allows managers to access and manage worker contextual journeys.
Manage Journey By Manager	Allows managers to access and manage worker journeys.
Manage Offline Learning	Allows download and management of learning item content on mobile device in learning self-service
Manage Survey by Manager	Allows managers to access and manage their own surveys.
Manage Talent Pool	Allows to view, edit talent pools and add workers to the Talent Pools.
Manage Time Cards by Line Manager	Manages time cards that need to be adjusted or submitted for processing, when a worker cannot access their time card.
Manage User Account	Manages user roles.
Mass Evaluate Performance Documents by Manager	Allows mass manager evaluation of performance documents.
Nonworker Addition	Adds nonworkers.
Pending Worker Addition and Hire	Adds and hires pending workers.
Performance Management Line Manager	Views performance documents from line manager dashboard.
Performance Management Transaction Analysis	Analyzes Workforce Performance Management transactional information

Duty Role	Description
Time and Labor Transaction Analysis	HCM Time and Labor Transaction Analysis Duty Role
Use REST Service - HR Document Types List of Values	Allows the user to call the GET method associated with the HR document types list of values REST service. Use this duty role when granting manage access to person documentation data.
Use REST Service - Succession Management Lists of Values	Allows the user to call the GET method associated with the Succession Management list of values REST Services.
Use REST Service - Workers List of Values	Allows the user to call the GET method associated with the Workers list of values REST Service.
Vacancy Transaction Analysis	HCM Vacancy Transaction Analysis Duty Role
View Succession Org Chart by Manager	Allows a manager to view the succession org chart.
View Team Skills as Manager	Allows a manager to view team skills.
Workforce Assignment Salary Transaction Analysis	Analyses assignment and salary transactional information
Workforce Model Plan Line Manager	Manages workforce model plans, including creating and editing the plans.
Workforce Modeling Transaction Analysis	Analyzes Workforce Modeling transactional information
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.
Workforce Profile Transaction Analysis	Analyzes Workforce Profile transactional information.
Workforce Scheduling Transaction Analysis	Analyses workforce scheduling transactional information
Workforce Transaction Analysis	Analyzes Workforce transactional information.

Aggregate Privileges

This table lists aggregate privileges assigned directly and indirectly to the Line Manager abstract role.

Aggregate Privilege	Description
Access Person Gallery	Searches worker deferred data and views the portrait page.
Add Worker Assignment	Allows adding of a worker assignment.

Aggregate Privilege	Description
Change Employment Start Dates	Allows changing of employment start dates for workers.
Change Worker Location	Changes persons' locations.
Change Worker Location and Position by Manager	Allows managers to change worker assignment locations and change positions.
Change Worker Manager	Changes persons' managers.
Change Worker Working Hour	Changes the working hours of persons.
Change Worker Working Hour and Position by Manager	Allows managers to change worker assignment working hours and change positions.
Compare HCM Information	Compares workers, jobs, positions, and any combinations of these objects.
Create Anytime Performance Document	Allows creation of anytime performance documents
Create Non-Catalog Learning Request by Learner Manager	null
Create Succession Plan for Worker	Create succession plans.
Create Work Relationship	Adds work relationships to persons.
Edit Person Career Planning	Allows editing the Person Career Planning.
Edit Person Skills and Qualifications	Allows editing the Person Skills and Qualifications.
Edit Succession Plan and Manage Candidates	Manages succession plan candidates.
Edit Time Zone Overrides	Allows users to edit time zone overrides for a worker.
Edit User Name	Updates the user name associated with a person.
Maintain Absence Records	Allows workers to enter, update and delete their absence records.
Manage Availability Patterns	Allows users to create, delete, and update availability patterns.
Manage Cash Disbursements	Allows administrator to dispense part of an accrual plan balance for payment.

Aggregate Privilege	Description
Manage Check-In Document	Allows to create, view, edit and delete check-in document.
Manage Costing of Position in Employment Processes	Allows user to manage costing at position level within employment processes.
Manage Development Goal by Manager	Manages development goals of subordinates.
Manage Direct Report	Manages direct reports.
Manage Donations	Allows creation and viewing of absence donations.
Manage Eligible Jobs	Allows managing of eligible jobs for relief in higher class.
Manage Employee Payroll in Employment Processes	Allows user to manage employee's payroll within employment processes.
Manage HCM Person Note	Views and manages all types of HCM person notes
Manage Individual Compensation	Privilege to manage individual compensation awards for workers within the user's security profile.
Manage Learning Communities	Allows users to create learning communities.
Manage Learning Community Required Members	Allows adding required members to a community.
Manage Learning Self-Service Tutorials	Allows users to author tutorials.
Manage Learning Self-Service Videos	Allows users to publish and edit videos.
Manage My Team Posts	Allows managers to send posts to their team members.
Manage My Vacancies	Allows management of vacancies that report to the logged in user.
Manage Onboarding by Manager	Allows manager to manage the onboarding tasks.
Manage Performance Goal by Manager	Manages performance goals of subordinates.
Manage Person Documentation	Manages documents.
Manage Person Identifiers for External Applications	Manages person identifiers for external applications.
Manage Recommended Learning	Allows users to recommend learning and view recommendations received.

Aggregate Privilege	Description
Manage Required Learning by Learner Manager	Allows managers to create and manage required assignments.
Manage Salaries	Privilege to manage off-cycle salary adjustments as a stand alone transaction or as part of a larger business process such as a promotion or transfer.
Manage Schedules and Exceptions Assignment	Manages the association of schedules to an assignment. This role is associated with the line manager or HR specialist.
Manage Time Change Requests by Line Manager	Allows the line manager to see and approve time change requests data for workers.
Manage User Roles	Allows management of user roles assignments.
Manage Vacancy	Allows management of vacancies.
Manage Voluntary Learning by Learner Manager	Allows managers to create and manage voluntary assignments.
Manage Work Patterns	Allows users to create, edit and delete work patterns for a worker.
Manage Worker Checklist	Manages checklist definitions.
Manage Worker Contract	Allows update of worker's employment contract details and add, update and delete of contract extensions.
Manage Worker Information Sharing	Allows sharing of person information with internal and external recipients. Used in the non-responsive UI.
Manage Workforce Compensation Budgets by Line Manager	Manages compensation budgets by distributing and publishing budgets to lower manager.
Moderate User Generated Learning	Allows access to moderate and approve self-service learning items.
Plan Absences by Manager	Allows managers to plan absences for their reports.
Print Worker Portrait	Grants access to the portrait maintenance duties for the portrait cards.
Promote Worker	Promotes persons.
Promote Worker and Change Position by Manager	Allows managers to promote workers and change positions.

Aggregate Privilege	Description
Record External Learning by Learner Manager	Allows to record external learning completion by learner manager
Report Manager Transaction Dashboard	Reports Manager Transaction Dashboard
Report My Vacancies	Allows reporting of vacancies that report to the logged in user.
Request Feedback	Allows to request feedback
Request a Position Change	Allows requesting a position change.
Share Personal Data Access	Allows sharing of access to personal data.
Share Personal Information	Allows sharing of personal information.
Submit Absence Bid by Manager	Allows managers to submit absence bids.
Submit a Payroll Flow	Allows users to run scheduled processes that are included in payroll flows. When granting this aggregate privilege to a custom role you should also grant the Submit a Payroll Process or Report aggregate privilege. ORA_PAY_PROCESS_AND_REPORT_SUBMISSION_DUTY.
Terminate Employment	Terminates work relationships or assignments.
Transfer Worker	Transfers persons.
Transfer Worker and Change Position by Manager	Allows managers to transfer workers and change positions.
Use REST Service - Absence Business Titles List of Values	Allows users to call the GET method associated with the Absence Business Titles REST service.
Use REST Service - Absence Types List of Values	Allows users to call the GET method associated with the Absence Types REST service.
Use REST Service - All Tasks in Journey Task Library	Allows the user to access all tasks in the task library and call all methods associated with the Journey Task Library REST Service.
Use REST Service - Development Goals Read Only	Allows users to call GET and describe methods with the Development Goals REST service.
Use REST Service - Feedback Requests by Worker or Manager	Allows the user to call the POST method associated with the Feedback Requests REST service.
Use REST Service - Guided Journey Responses	Allows the user to call all methods associated with the Guided Journey Responses REST service.

Aggregate Privilege	Description
Use REST Service - Guided Journeys Read Only	Allows the user to call the GET method associated with the Guided Journeys REST service.
Use REST Service - Journey Allocations	Allows the user to call all methods associated with the Journey Allocations REST Service.
Use REST Service - Journey Categories List of Values	Allows the user to call the GET method associated with the Journey Categories List of Values REST Service.
Use REST Service - Journey Scheduled Allocations	Allows the user to call all methods associated with the Journey Scheduled Allocations REST Service.
Use REST Service - Journeys	Allows the user to call all methods associated with the Journeys REST Service.
Use REST Service - Journeys Read Only	Allows the user to call the GET method associated with the Journeys REST Service.
Use REST Service - Legislative Data Groups List of Values	Allows the user to call the GET method associated with the Legislative Data Groups LOV REST Service.
Use REST Service - Manager Connections Read Only	Allows the user to call the GET method associated with the Manager Connections REST Service.
Use REST Service - Nudge Cards	Allows the user to call all methods associated with the Nudge Cards REST service.
Use REST Service - Performance Goals List of Values	Allows the user to call the GET method associated with the Performance Goals List of Values REST Service.
Use REST Service - Performance Goals Read Only	Allows the user to call the GET method associated with the Performance Goals REST service.
Use REST Service - Person Reference Data Lists of Values	Allows the user to call the GET method associated with the person reference data lists of values REST services.
Use REST Service - Person Skills Searches	Allows the user to call the Person Skills Searches REST Services.
Use REST Service - Public Workers Read Only	Allows the user to call the GET method associated with the Public Workers REST Service.
Use REST Service - Representatives Read Only	Allows the user to call the GET method associated with the Representatives REST Service.
Use REST Service - Salaries With Analytics Read Only	Allows the user to call the GET method associated with the worker salaries REST Service, that returns salary along with analytical attributes.
Use REST Service - Succession Org Chart Read Only	Allows the user to call the GET method associated with the Succession Org Chart REST Service.

Aggregate Privilege	Description
Use REST Service - Talent Performance Mass Evaluations	Allows users to call all methods to get and update performance evaluations with the Talent Performance Mass Evaluations REST service.
Use REST Service - Talent Performance Mass Evaluations Read Only	Allows users to call GET methods to access performance evaluations with the Talent Performance Mass Evaluations REST service.
Use REST Service - Talent Review Managers List of Values	Allows the user to call the GET method associated with the Talent Review Managers list of values REST Service.
Use REST Service - Talent Skill Assignments	Allows the user to call all methods associated with the Talent Skill Assignments REST Service.
Use REST Service - Talent Skill Assignments Read Only	Allows the user to call the GET method associated with the Talent Skill Assignments REST Service.
Use REST Service - Talent Worker Check-Ins	Allows users to call all methods with the Talent Worker Check-Ins REST service.
Use REST Service - Talent Worker Engagements by Manager Read Only	Allows the user to call the GET method associated with the Talent Worker Engagements REST Service as a manager.
Use REST Service - Team Skills Searches	Allows the user to call the Team Skills Searches REST Services.
Use REST Service - Time Card Entry Details by Line Manager Read Only	Lets the line manager call the Time Card Entry Details REST Service.
Use REST Service - Time Card Searches by Line Manager	Lets the line manager call the Time Card Searches REST Service.
Use REST Service - Time Cards by Line Manager	Lets the line manager call the Time Cards REST Service.
Use REST Service - Worker Assignments List of Values	Allows the user to call the GET method associated with the Assignments list of values REST Service.
Use REST Service - Worker Journeys	Allows the user to call all methods associated with the Worker Journeys REST Service.
Use REST Service - Workforce Structure List of Values	Allows the user to call the GET method associated with the Workforce Structure list of values REST Services.
View Accrual Type Absence Plan Balance	Allows workers to view balances of the accrual type absence plans.
View Additional Assignment Info	Allows viewing of additional assignment info.
View Check-In Document	Allows to view check-in document.

Aggregate Privilege	Description
View Compensation Change Statement	Allows workers to view compensation change statements after the workforce compensation cycle.
View Compensation Details for Worker	Views compensation data for a worker.
View Compensation History	Provides access to view compensation history for workers within the users security profile.
View Costing of Position in Employment Processes	Allows user to view costing at position level within employment processes.
View Development Goal by Manager	View development goals of subordinates.
View Employee Payroll in Employment Processes	Allows user to view employee's payroll within employment processes.
View Employment Information Summary	Grants access to view a worker's employment information summary.
View HCM Person Note	Views HCM person notes
View Learner Contributions	Allows users to view a person's learning contributions.
View Learning Communities	Allows users to view learning communities they are members of.
View Market Composites Summary	Allows viewing of market composite summary.
View Performance Goal by Manager	View performance goals of subordinates.
View Performance Summary	Allows viewing of workers performance summary information.
View Portrait Availability Card	Grants access to the availability card in the portrait, which includes schedule, absence, and accrual information.
View Portrait Contact Card	Grants access to view the contact card in the portrait, which includes phone number, e-mail, other communication methods, work location information, manager, directs and peers.
View Portrait Employment Information Card	Grants access to view the employment card in the Portrait, which includes assignment and contract information. This role is associated with the line manager and HR specialist.
View Portrait User Account Details Card	Views the User Account Details card in the Person Gallery.
View Positions	Views positions in the user's position security profile.
View Public Learning Communities	Allows users to view the learning communities a person is a member of.

Aggregate Privilege	Description
View Recommended Learning by Learner Manager	Allows managers to view recommendations received by people in their person security profile, and learning items recommended for people in their public person security profile.
View Requested Feedback	Allows workers and line managers to view requested feedback
View Required Learning by Learner Manager	Allows managers to view required learning assignments assigned to people in their person security profile.
View Salary Data Only	Views salary data embedded or used in non-compensation product pages or processes.
View Seniority Dates	Allows viewing of seniority dates.
View Succession Plan	Views succession plans.
View Talent Ratings	Grants access to view the talent ratings.
View Team Schedule by Line Manager	Allows line manager to view team schedule.
View Time Zone Overrides	Allows users to view time zone overrides for a worker.
View Total Compensation Statement Feedback by Line Manager	Allows viewing total compensation statement feedback survey by line manager.
View Voluntary Learning by Learner Manager	Allows managers to view voluntary learning assignments assigned to people in their person security profile.
View Worker Assignment History Details	Allows viewing of worker's assignment history details.
View Worker Calendar by Manager	Allows managers to view a worker calendar.
View Worker Contract	Allows viewing of worker's employment contract details and contract extensions.
View Workforce Predictions as Line Manager	Allows Line Manager to view worker predictions.
View Workforce Schedule by Line Manager	Allows line managers to view workforce schedules for the people in their management hierarchy.

Privileges

This table lists privileges granted to duties of the Line Manager abstract role.

Granted Role	Granted Role Description	Privilege	Privilege Description
Access Learning Common Components	Access common learning components.	Access Learning Common Components	Allows access to common components in learning self-service and administration work area.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Use REST Service - Feedback Templates List of Values	Allows the user to call the GET method associated with the Feedback Templates List of Values REST service.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Use REST Service - Feedback Templates Read Only	Allows the user to call the GET method associated with the Feedback Templates REST service.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Use REST Service - HCM Surveys List of Values	Allows the user to call the GET method associated with the HCM Surveys List of Values REST Service.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Use REST Service - Nudges	Allows the user to call all methods associated with the Nudges REST service.
Access Touchpoints by Manager	Allows managers to access touchpoints for the workers who report to them.	Use REST Service - Talent Check-In Templates Read Only	Allows users to call GET and describe methods with the Talent Check-In Templates REST service.
Contingent Worker Addition	Adds contingent workers.	Add Contingent Worker	Allows addition of new contingent worker records.
Contingent Worker Addition	Adds contingent workers.	Create User	Allows creation of users.
Contingent Worker Addition	Adds contingent workers.	Renew Placement	Allows renewal of contingent-worker placements.
Employee Hire	Hires employees.	Create User	Allows creation of users.
Employee Hire	Hires employees.	Hire Employee	Allows addition of new employee records.
Employee Hire	Hires employees.	Rehire Employee	Allows rehire of employees.
Expense Approval	Approves expense reports of Oracle Fusion Expenses users.	Approve Expense Report	Allows approval or rejection of expense reports, as well as

Granted Role	Granted Role Description	Privilege	Privilege Description
			requests for additional information about questionable expenses.
Expense Approval	Approves expense reports of Oracle Fusion Expenses users.	Approve Travel Authorization or Cash Advance	Allows approval or rejection of travel authorizations.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Assign Development Goal to Groups of Workers	Allows assignment of development goals to groups of workers en masse.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Manage Development Goal	Allows management of development goals of direct reports.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Manage Development Goal in Goal Library	Allows management of development goals in the goal library.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Manage Development Goal of Other Workers	Allows management of development goals of other workers.
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Manage Performance Goal	Manage Worker Performance or Development Goals
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	Manage Performance Goals of Others	Not Available
Goal Management Line Manager	Goal Management Line Manager - inherited by Line Manager	View Development Goal	Allows review of development goals and goal details.
Line Manager	Identifies the person as a line manager.	Absence Entry Using Calendar	Allows the button Schedule Absence in the TIME work area to be secured.
Line Manager	Identifies the person as a line manager.	Access FUSE My Team Page	Allows access to the FUSE My Team page.
Line Manager	Identifies the person as a line manager.	Access FUSE Team Talent Page	Allows access to the FUSE Team Talent page
Line Manager	Identifies the person as a line manager.	Access HCM Celebrate Manager Dashboard	Allows accessing the manager dashboard for recognitions and awards.
Line Manager	Identifies the person as a line manager.	Access HCM Common Components	Allows access to HCM common components.

Granted Role	Granted Role Description	Privilege	Privilege Description
Line Manager	Identifies the person as a line manager.	Access Learner Manager Self-Service Work Area	Allows access to the My Team tab in the learning self-service work area.
Line Manager	Identifies the person as a line manager.	Access Oracle Taleo Recruiting Cloud Service	Allows access to Oracle Taleo Recruiting Cloud Service from Oracle Fusion.
Line Manager	Identifies the person as a line manager.	Access Tap Application	Allows access to Tap application.
Line Manager	Identifies the person as a line manager.	Access Time Work Area	Allows access to the Time work area.
Line Manager	Identifies the person as a line manager.	Add New Task for Worker	Allows the addition of new tasks to a worker.
Line Manager	Identifies the person as a line manager.	Add Task for Worker from Task Library	Allows the addition of tasks to a worker from the task library.
Line Manager	Identifies the person as a line manager.	Align Performance Goals	Allows aligning of performance goals.
Line Manager	Identifies the person as a line manager.	Allocate Checklist to Worker	Allows the allocation of checklists.
Line Manager	Identifies the person as a line manager.	Analytical view of team's compliance violations	Analytical view of team's compliance violations
Line Manager	Identifies the person as a line manager.	Analyze Team Compensation	Allows managers to analyze compa-ratio versus performance ratings for their team.
Line Manager	Identifies the person as a line manager.	Approve Individual Compensation Award	Review and approve proposed individual compensation awards.
Line Manager	Identifies the person as a line manager.	Approve Salary Updates	Review and approve proposed salary changes.
Line Manager	Identifies the person as a line manager.	Assign Development Goals	Allows assigning of development goals to workers.
Line Manager	Identifies the person as a line manager.	Assign Performance Goal to Groups of Workers	Assign goals to groups of workers en masse
Line Manager	Identifies the person as a line manager.	Assign Performance Goals	Allows performance goals to be assigned to other workers.

Granted Role	Granted Role Description	Privilege	Privilege Description
Line Manager	Identifies the person as a line manager.	Assign Workers Goals Mass Process	Assign Workers Goals Mass Process
Line Manager	Identifies the person as a line manager.	Award People	Allows sending awards
Line Manager	Identifies the person as a line manager.	Cancel Performance Goals	Allows performance goals to be cancelled.
Line Manager	Identifies the person as a line manager.	Change Manager Mobile	Enables the change manager transaction in HCM Cloud Mobile
Line Manager	Identifies the person as a line manager.	Copy Development Goals	Allows copying of development goals.
Line Manager	Identifies the person as a line manager.	Copy Performance Goals	Allows copying of performance goals.
Line Manager	Identifies the person as a line manager.	Create Position Profile	Allows user to create position profiles.
Line Manager	Identifies the person as a line manager.	Delete Development Goals	Allow development goals to be deleted.
Line Manager	Identifies the person as a line manager.	Delete Performance Goals	Allow performance goals to be deleted.
Line Manager	Identifies the person as a line manager.	Edit Access Certification Manager Worksheet	Allows user to edit the manager worksheet for a certification.
Line Manager	Identifies the person as a line manager.	Enable worker searches using effective dates	Allows the user to perform searches on workers and assignments using effective dates.
Line Manager	Identifies the person as a line manager.	Extend Performance Goals	Allows performance goals to be extended to another goal plan.
Line Manager	Identifies the person as a line manager.	Manage Goal Management Notifications	Manage Goal Management Notifications
Line Manager	Identifies the person as a line manager.	Manage Learning Community Members using OTBI	Allows adding members to communities using OTBI analysis objects.
Line Manager	Identifies the person as a line manager.	Manage Learning Community Required Learning	Allows creation and management of required community assignments.

Granted Role	Granted Role Description	Privilege	Privilege Description
Line Manager	Identifies the person as a line manager.	Manage Outstanding Corporate Card Transaction	Allows management of corporate card transactions for which payment has not been made to the corporate card issuer.
Line Manager	Identifies the person as a line manager.	Manage Performance Goal	Manage Worker Performance or Development Goals
Line Manager	Identifies the person as a line manager.	Manage Salary Mobile	Enables the manage salary transaction in HCM Cloud Mobile
Line Manager	Identifies the person as a line manager.	Manage Social Network Connections	Manage social connections
Line Manager	Identifies the person as a line manager.	Manage Talent Review Content	Allows management of content used at the talent review meeting.
Line Manager	Identifies the person as a line manager.	Manage Team Compensation	Allows managers to view salary and compensation for their employees.
Line Manager	Identifies the person as a line manager.	Manage Team Compliance Violations List View	Manage and view team's compliance violations list view
Line Manager	Identifies the person as a line manager.	Manage Team Reputation Scores List View	Manage and view team's reputation scores list view
Line Manager	Identifies the person as a line manager.	Manage Team Reputation Tasks	Manage team reputation tasks
Line Manager	Identifies the person as a line manager.	Manager Suggest Mentorship Relationships	Suggest mentorship relationships
Line Manager	Identifies the person as a line manager.	Manager's View of Employee's Reputation Scores	Manager's view of employee's reputation scores
Line Manager	Identifies the person as a line manager.	Manager's View of Employee's Social Roles	Manager's view of employee's social roles
Line Manager	Identifies the person as a line manager.	Move Performance Goals	Allows performance goals to be moved to another goal plan.
Line Manager	Identifies the person as a line manager.	New Person Work Area As Line Manager	Allows line managers to access the New Person work area.
Line Manager	Identifies the person as a line manager.	Perform Performance Evaluations Mobile	Allows access to performance evaluations in HCM Cloud Mobile

Granted Role	Granted Role Description	Privilege	Privilege Description
Line Manager	Identifies the person as a line manager.	Promote Worker Mobile	Enables the promote transaction in HCM Cloud Mobile
Line Manager	Identifies the person as a line manager.	Request a New Position	Allows requesting a new position.
Line Manager	Identifies the person as a line manager.	Run Talent Profile Summary Report	Allows running of talent profile summary report.
Line Manager	Identifies the person as a line manager.	Search and Review Skills	Search and review skills
Line Manager	Identifies the person as a line manager.	Share Development Goals	Allows development goals to be shared with other workers.
Line Manager	Identifies the person as a line manager.	Share Performance Goals	Allows performance goals to be shared with other workers.
Line Manager	Identifies the person as a line manager.	Use Assignment Status Type Service	Allows the Assignment Status Type Service to be called
Line Manager	Identifies the person as a line manager.	Use Position lookup Service	Allows use of the position lookup service.
Line Manager	Identifies the person as a line manager.	Use REST Service - Collective Agreements List of Values	Allows the user to call the GET method associated with the Collective Agreements list of values REST Service.
Line Manager	Identifies the person as a line manager.	Use REST Service - Content Items List of Values	Allows the user to call the GET method associated with the Content Items list of values REST Service.
Line Manager	Identifies the person as a line manager.	Use REST Service - Individual Compensation Lists of Values	Allows the user to call the GET method associated with the Individual Compensation list of values REST Services.
Line Manager	Identifies the person as a line manager.	Use REST Service - Job Requisition Templates List of Values	Allows the user to call the GET method associated with the job requisition template lists of values REST Services.
Line Manager	Identifies the person as a line manager.	Use REST Service - Model Profiles List of Values	Allows the user to call the GET method associated with the Model Profiles list of values REST Service.

Granted Role	Granted Role Description	Privilege	Privilege Description
Line Manager	Identifies the person as a line manager.	Use REST Service - Salary Bases List of Values	Allows the user to call the GET method associated with the Salary Bases list of values REST Service.
Line Manager	Identifies the person as a line manager.	Use REST Service - Scheduling Lists of Values	Allows the user to call the GET method associated with the Scheduling lists of values REST services.
Line Manager	Identifies the person as a line manager.	Use REST Service - Users and Roles Lists of Values	Allows the user to call the GET method associated with the Users and Roles lists of values REST Services.
Line Manager	Identifies the person as a line manager.	Use Time Card Templates	Allows the use of time card templates.
Line Manager	Identifies the person as a line manager.	View Calendar by Line Manager	Allows line manager to view worker calendar.
Line Manager	Identifies the person as a line manager.	View Career Overview by Manager	Allows managers to access to Career Overview page.
Line Manager	Identifies the person as a line manager.	View Employee Social Connections	View employee social connections
Line Manager	Identifies the person as a line manager.	View Notification Details	Allows product specific notification details.
Line Manager	Identifies the person as a line manager.	View Performance Overview by Manager	Allows managers to access the Performance Overview page.
Line Manager	Identifies the person as a line manager.	View Team Compliance Outlier Reports	View team's compliance outlier reports
Line Manager	Identifies the person as a line manager.	View Team Reputation Outlier Reports	View team's reputation outlier reports
Line Manager	Identifies the person as a line manager.	View Team Reputation Scores Analytic View	Analytical view of team's reputation scores
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Allocate Compensation Person Rate by Line Manager	Allows allocating compensation during a periodic compensation cycle.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating	Approve and Submit Compensation Allocation by Line Manager	Allows approving and submitting compensation proposals made

Granted Role	Granted Role Description	Privilege	Privilege Description
	performance, and promoting workers on a periodic basis.		during a periodic compensation cycle.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Assign Compensation Performance Rating by Line Manager	Allows rating worker performance during a periodic compensation cycle.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Award Compensation Promotion by Line Manager	Allows promotion of workers during a periodic compensation cycle by changing their job, grade, or position.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Create Compensation Distribution Model for Allocation by Line Manager	Allows creation of models to automatically allocate worker allocations, budget amounts, or defined targets.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Export Compensation Allocation Details to Spreadsheet by Line Manager	Allows exporting worksheet data and importing allocations, promotions, and performance ratings.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Generate Compensation Allocation Statements by Line Manager	Allows generation of compensation change statements to communicate compensation awards, promotions, and performance ratings given to workers during a periodic compensation cycle.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Print Performance Document	Allows printing of performance documents
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	Run Group Compensation Line Manager Reports by Line Manager	Allows viewing online reports to analyze the current status or results of a periodic compensation cycle.
Line Manager Workforce Compensation Management	Manages workforce compensation by allocating compensation, rating performance, and promoting workers on a periodic basis.	View Worker Performance Management Document	Allows viewing of performance documents.
Manage Contextual Journey by Manager	Allows managers to access and manage worker contextual journeys.	Use REST Service - Questionnaire Instructions Read Only	Allows access to the GET method associated with the Questionnaire Instructions REST Service.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Explore Journeys	Allows exploration of journeys.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Manage Personal Journey	Allows users to create and manage journeys.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Manage Worker Journey By Manager	Allows managers to access and manage worker journeys.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Use REST Service - Questionnaire Instructions Read Only	Allows access to the GET method associated with the Questionnaire Instructions REST Service.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Use REST Service - Worker Journey Tasks	Allows the user to call all methods associated with the Worker Journey Tasks REST Service.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	Use REST Service - Worker Journey Tasks Read Only	Allows the user to call the GET method associated with the Workers Journey Tasks REST Service, to retrieve journey tasks assigned to them.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	View Global Journeys	Allows users to view global journeys. Viewing of personal journeys is not restricted by this privilege.
Manage Journey By Manager	Allows managers to access and manage worker journeys.	View Journey Activity	Allows viewing of journey activities.
Manage Offline Learning	Allows download and management of learning item content on mobile device in learning self-service	Manage Offline Learning	Allows download and management of learning item content on mobile device in learning self-service
Manage Survey by Manager	Allows managers to access and manage their own surveys.	Manage Survey by Manager	Allows managers to access and manage their own surveys.
Manage Survey by Manager	Allows managers to access and manage their own surveys.	Use REST Service - Content Items List of Values	Allows the user to call the GET method associated with the Content Items list of values REST Service.
Manage Talent Pool	Allows to view, edit talent pools and add workers to the Talent Pools.	Manage Talent Pool	Allows to view, edit talent pools and add workers to the Talent Pools.
Manage Time Cards by Line Manager	Manages time cards that need to be adjusted or submitted for processing, when a worker cannot access their time card.	Manage Time Cards by Line Manager	Allows the line manager to create, edit, delete, and approve time cards for workers.

Granted Role	Granted Role Description	Privilege	Privilege Description
Manage Time Cards by Line Manager	Manages time cards that need to be adjusted or submitted for processing, when a worker cannot access their time card.	Use REST Service - Time Card Field Values Read Only	Lets the person call the Time Card Field Values REST Service.
Manage User Account	Manages user roles.	Copy Personal Data to LDAP	Allows copy of worker personal data to LDAP
Manage User Account	Manages user roles.	Manage User Account	Allows access to Manage User Account.
Manage User Account	Manages user roles.	Manage User Account and My Account	Allows access to the page components that are common to My Account and Manage User Account.
Manage User Account	Manages user roles.	Reset Password	Allows reset password links to be emailed to users.
Mass Evaluate Performance Documents by Manager	Allows mass manager evaluation of performance documents.	Mass Evaluate Performance Documents by Manager	Allows mass evaluations of performance documents by managers
Mass Evaluate Performance Documents by Manager	Allows mass manager evaluation of performance documents.	Use REST Service - Performance Template Document Names List of Values	Allows the user to call the GET method associated with the Performance Template Document Names List of Values REST service.
Mass Evaluate Performance Documents by Manager	Allows mass manager evaluation of performance documents.	Use REST Service - Review Periods List of Values	Allows the user to call the GET method associated with the Review Periods List of Values REST Service.
Nonworker Addition	Adds nonworkers.	Create Person Nonworker	Allows addition of new nonworker records.
Nonworker Addition	Adds nonworkers.	Create User	Allows creation of users.
Pending Worker Addition and Hire	Adds and hires pending workers.	Add Worker Pending Hire	Allows addition of new pending-worker records.
Pending Worker Addition and Hire	Adds and hires pending workers.	Correct Oracle Taleo Recruiting Candidate Import Errors	Allows correction of errors found during pending workers import.
Pending Worker Addition and Hire	Adds and hires pending workers.	Edit Pending Worker	Allows users to correct pending-worker records.
Pending Worker Addition and Hire	Adds and hires pending workers.	Hire Pending Worker	Allows hire or placement of pending workers.

Granted Role	Granted Role Description	Privilege	Privilege Description
Performance Management Line Manager	Views performance documents from line manager dashboard.	Approve Worker Performance Document	Allows approving of performance documents.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Cancel Worker Performance Document by Manager	Allows canceling performance documents by managers.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Change Participant Due Date by Manager	Allows a manager to change the due date for a participant to provide feedback in a 360 performance evaluation.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Complete Worker Performance Document by Manager	Allows completion of worker performance documents by managers.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Create Performance Document by Manager	Allows creation of performance documents by managers.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Delete Worker Performance Document by Manager	Allows deletion of worker performance documents by managers.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Print Performance Document	Allows printing of performance documents
Performance Management Line Manager	Views performance documents from line manager dashboard.	Reopen Performance Document by Manager	Allows reopening performance documents by managers.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Reset Worker Performance Evaluation Status by Manager	Allows resetting of the performance evaluation status by managers so that the evaluation can continue.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Restore Performance Document by Manager	Allows restoring canceled performance documents by managers so evaluations can continue.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Select Feedback Participants	Allows selection of feedback participants.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Track Participant Feedback Status	Allows tracking of participant feedback status.
Performance Management Line Manager	Views performance documents from line manager dashboard.	Transfer Performance Document by Manager	Allows transferring performance documents by managers from one manager to another.

Granted Role	Granted Role Description	Privilege	Privilege Description
Performance Management Line Manager	Views performance documents from line manager dashboard.	View Performance Information on Manager Dashboard	Allows viewing of performance information on the manager dashboard.
Performance Management Line Manager	Views performance documents from line manager dashboard.	View Performance Information on Worker Dashboard for Manager	Allows viewing of performance information on worker dashboard for manager.
Performance Management Line Manager	Views performance documents from line manager dashboard.	View Performance and Potential	Allows viewing of performance and potential data.
Use REST Service - HR Document Types List of Values	Allows the user to call the GET method associated with the HR document types list of values REST service. Use this duty role when granting manage access to person documentation data.	Use REST Service - HR Document Types List of Values	Allows the user to call the GET method associated with the HR document types list of values REST service.
Use REST Service - Succession Management Lists of Values	Allows the user to call the GET method associated with the Succession Management list of values REST Services.	Use REST Service - Succession Management Lists of Values	Allows the user to call the GET method associated with the Succession Management list of values REST Services.
Use REST Service - Workers List of Values	Allows the user to call the GET method associated with the Workers list of values REST Service.	Use REST Service - Workers List of Values	Allows the user to call the GET method associated with the Workers list of values REST Service.
View Succession Org Chart by Manager	Allows a manager to view the succession org chart.	Use REST Service - Workers List of Values	Allows the user to call the GET method associated with the Workers list of values REST Service.
View Succession Org Chart by Manager	Allows a manager to view the succession org chart.	View Succession Org Chart	Allows viewing of the succession org chart.
View Team Skills as Manager	Allows a manager to view team skills.	View Team Skills as Manager	Allows a manager to view team skills.
Workforce Model Plan Line Manager	Manages workforce model plans, including creating and editing the plans.	Manage Workforce Model Plan as Line Manager	Allows the management of workforce model plans.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Define Talent Profile	Allows definition of talent profile.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Define Talent Profile Item	Allows definition of talent profile item.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Manage Careers of Interest	Allows management of the careers of interest for a worker.

Granted Role	Granted Role Description	Privilege	Privilege Description
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Manage Person Talent Profile	Allows management of talent profile for a person.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Match Talent Profile	Allows access to perform best fit analysis.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	Update Talent Profile Item	Allows update to talent profile items.
Workforce Profile Line Manager	Performs workforce profile duties as a line manager.	View Talent Profile	Allows management of profile task flows that are common to model and person profiles.

Data Security Policies

This table lists data security policies and their enforcement across analytics application for the Line Manager abstract role.

Business Object	Policy Description	Policy Store Implementation
Absence Type	A Line Manager can choose absence types for subordinates in their person and assignment security profile	Role: Maintain Absence Records Privilege: Choose Absence Types (Data) Resource: Absence Type
Absence Type	A Line Manager can choose absence types for subordinates in their person and assignment security profile	Role: Submit Absence Bid by Manager Privilege: Choose Absence Types (Data) Resource: Absence Type
Absence Type	A Line Manager can choose absence types for subordinates in their person and assignment security profile	Role: Use REST Service - Absence Types List of Values Privilege: Choose Absence Types (Data) Resource: Absence Type
Application Reference Territory	A Line Manager can choose application reference territory for countries in their country security profile	Role: Line Manager Privilege: Choose Application Reference Territory (Data) Resource: Application Reference Territory

Business Object	Policy Description	Policy Store Implementation
Applied Cash Advance	A Line Manager can view applied cash advance for the employees for whom they are responsible	Role: Line Manager Privilege: View Employee Expense (Data) Resource: Applied Cash Advance
Assignment Grade	A Line Manager can choose assignment grade for all grades in the enterprise	Role: Line Manager Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can choose assignment grade for all grades in the enterprise	Role: Use REST Service - Workforce Structure List of Values Privilege: Choose Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Absence Management Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Availability Patterns Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Career Development Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Compensation Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Goal Management Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Individual Compensation Transaction Analysis Privilege: Report Assignment Grade (Data)

Business Object	Policy Description	Policy Store Implementation
		Resource: Assignment Grade
Assignment Grade	A Line Manager can report assignment grade for all grades in the enterprise	Role: Performance Management Transaction Analysis Privilege: Report Assignment Grade (Data) Resource: Assignment Grade

Person Assignment	A Line Manager can view team schedule by line manager for subordinates in their person and assignment security profile	Role: View Team Schedule by Line Manager Privilege: View Team Schedule by Line Manager (Data) Resource: Person Assignment
Person Assignment	A Line Manager can view worker assignment history details for subordinates in their person and assignment security profile	Role: View Worker Assignment History Details Privilege: View Worker Assignment History Details (Data) Resource: Person Assignment
Person Assignment	A Line Manager can view worker availability for subordinates in their person and assignment security profile	Role: Maintain Absence Records Privilege: View Worker Availability (Data) Resource: Person Assignment

Business Object	Policy Description	Policy Store Implementation
Person Assignment	A Line Manager can view worker availability for subordinates in their person and assignment security profile	Role: Submit Absence Bid by Manager Privilege: View Worker Availability (Data) Resource: Person Assignment
Person Assignment	A Line Manager can view worker availability for subordinates in their person and assignment security profile	Role: View Worker Calendar by Manager Privilege: View Worker Availability (Data) Resource: Person Assignment
Person Assignment	A Line Manager can view worker calendar for subordinates in their person and assignment security profile	Role: View Worker Calendar by Manager Privilege: View Worker Calendar (Data) Resource: Person Assignment
Person Availability Patterns	A Line Manager can manage availability patterns for subordinates in their person and assignment security profile	Role: Manage Availability Patterns Privilege: Manage Availability Patterns (Data) Resource: Person Availability Patterns
Person Availability Patterns	A Line Manager can report availability patterns for subordinates in their person and assignment security profile	Role: Availability Patterns Transaction Analysis Privilege: Report Availability Patterns (Data) Resource: Person Availability Patterns
Person Checklist	A Line Manager can manage onboarding for subordinates in their person and assignment security profile	Role: Manage Onboarding by Manager Privilege: Manage Onboarding (Data) Resource: Person Checklist
Person Checklist	A Line Manager can report person checklist for subordinates in their person and assignment security profile	Role: Workforce Transaction Analysis Privilege: Report Person Checklist (Data) Resource: Person Checklist
Person Citizenship	A Line Manager can manage person citizenship for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Citizenship (Data) Resource: Person Citizenship
Person Citizenship	A Line Manager can view person citizenship for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Citizenship (Data) Resource: Person Citizenship

Business Object	Policy Description	Policy Store Implementation
Person Contact Relationship	A Line Manager can manage person contact details for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Contact Details (Data) Resource: Person Contact Relationship
Person Contact Relationship	A Line Manager can view person contact details for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Contact Details (Data) Resource: Person Contact Relationship
Person Detail	A Line Manager can choose learner for persons in their person security profile	Role: Create Non-Catalog Learning Request by Learner Manager Privilege: Choose Learner (Data) Resource: Person Detail
Person Detail	A Line Manager can choose learner for persons in their person security profile	Role: Record External Learning by Learner Manager Privilege: Choose Learner (Data) Resource: Person Detail
Person Detail	A Line Manager can choose learner for subordinates in their person security profile	Role: Manage Learning Community Required Members Privilege: Choose Learner (Data) Resource: Person Detail
Person Detail	A Line Manager can choose learner for subordinates in their person security profile	Role: Manage Required Learning by Learner Manager Privilege: Choose Learner (Data) Resource: Person Detail
Person Detail	A Line Manager can choose learner for subordinates in their person security profile	Role: Manage Voluntary Learning by Learner Manager Privilege: Choose Learner (Data) Resource: Person Detail
Person Detail	A Line Manager can choose person for persons and assignments in their person and assignment security profile	Role: Use REST Service - Workers List of Values Privilege: Choose Person (Data) Resource: Person Detail

Business Object	Policy Description	Policy Store Implementation
Person Detail	A Line Manager can create work relationship for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Create Work Relationship (Data) Resource: Person Detail
Person Detail	A Line Manager can manage person biographical for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Biographical (Data) Resource: Person Detail
Person Detail	A Line Manager can manage worker journey for persons and assignments in their person and assignment security profile and journeys to which they have been granted access	Role: Use REST Service - Worker Journeys Privilege: Manage Worker Journey (Data) Resource: Person Detail
Person Detail	A Line Manager can report person extra information for persons and assignments in their person and assignment security profile	Role: Workforce Transaction Analysis Privilege: Report Person Extra Information (Data) Resource: Person Detail
Person Detail	A Line Manager can report person for subordinates in their person and assignment security profile	Role: Absence Management Transaction Analysis Privilege: Report Person (Data) Resource: Person Detail
Person Detail	A Line Manager can report person for subordinates in their person and assignment security profile	Role: Availability Patterns Transaction Analysis Privilege: Report Person (Data) Resource: Person Detail
Person Detail	A Line Manager can share personal data access for subordinates in their person and assignment security profile	Role: Share Personal Data Access Privilege: Share Personal Data Access (Data) Resource: Person Detail
Person Detail	A Line Manager can share personal information for subordinates in their person and assignment security profile	Role: Share Personal Information Privilege: Share Personal Information (Data) Resource: Person Detail
Person Detail	A Line Manager can view person biographical for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Biographical (Data) Resource: Person Detail

Business Object	Policy Description	Policy Store Implementation
Person Detail	A Line Manager can view person for persons and assignments in their person and assignment security profile	Role: Use REST Service - Nudge Cards Privilege: View Person (Data) Resource: Person Detail
Person Detail	A Line Manager can view seniority dates for subordinates in their person and assignment security profile	Role: View Seniority Dates Privilege: View Seniority Dates (Data) Resource: Person Detail
Person Detail	A Line Manager can view worker journey for persons and assignments in their person and assignment security profile and journeys to which they have been granted access	Role: Use REST Service - Worker Journeys Privilege: View Worker Journey (Data) Resource: Person Detail
Person Documentation	A Line Manager can manage person documentation for document types in their document types security profile belonging to subordinates in their person and assignment security profile	Role: Manage Person Documentation Privilege: Manage Person Documentation (Data) Resource: Person Documentation
Person Documentation	A Line Manager can manage person documentation for document types in their document types security profile belonging to subordinates in their person and assignment security profile	Role: Use REST Service - HR Document Types List of Values Privilege: Manage Person Documentation (Data) Resource: Person Documentation
Person Documentation	A Line Manager can report worker documents of record for document types in their document types security profile belonging to persons and assignments in their person and assignment security profile	Role: Documents of Record Transaction Analysis Privilege: Report Worker Documents of Record (Data) Resource: Person Documentation
Person Documentation	A Line Manager can view person documentation for document types in their document types security profile belonging to persons and assignments in their person and assignment security profile	Role: Manage Person Documentation Privilege: View Person Documentation (Data) Resource: Person Documentation
Person Documentation	A Line Manager can view person documentation for document types in their document types security profile belonging to subordinates in their person and assignment security profile	Role: Use REST Service - HR Document Types List of Values Privilege: View Person Documentation (Data) Resource: Person Documentation

Business Object	Policy Description	Policy Store Implementation
Person Ethnicity	A Line Manager can manage person ethnicity for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Ethnicity (Data) Resource: Person Ethnicity
Person Ethnicity	A Line Manager can view person ethnicity for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Ethnicity (Data) Resource: Person Ethnicity
Person Identifier for External Applications	A Line Manager can manage person identifiers for external applications for subordinates in their person and assignment security profile	Role: Manage Person Identifiers for External Applications Privilege: Manage Person Identifiers for External Applications (Data) Resource: Person Identifier for External Applications
Person Identifier for External Applications	A Line Manager can view person identifiers for external applications for subordinates in their person and assignment security profile	Role: Manage Person Identifiers for External Applications Privilege: View Person Identifiers for External Applications (Data) Resource: Person Identifier for External Applications
Person Legislative Data	A Line Manager can manage person legislative for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Legislative (Data) Resource: Person Legislative Data
Person Legislative Data	A Line Manager can view person legislative for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Legislative (Data) Resource: Person Legislative Data
Person Name	A Line Manager can change person name for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Change Person Name (Data) Resource: Person Name
Person Name	A Line Manager can view person name for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Name (Data) Resource: Person Name

Business Object	Policy Description	Policy Store Implementation
Person Plan Accrual	A Line Manager can manage cash disbursements for subordinates in their person and assignment security profile	Role: Manage Cash Disbursements Privilege: Manage Cash Disbursements (Data) Resource: Person Plan Accrual
Person Plan Accrual	A Line Manager can manage donations for subordinates in their person and assignment security profile	Role: Manage Donations Privilege: Manage Donations (Data) Resource: Person Plan Accrual
Person Plan Accrual	A Line Manager can view accrual plan balance for subordinates in their person and assignment security profile	Role: Manage Cash Disbursements Privilege: View Accrual Plan Balance (Data) Resource: Person Plan Accrual
Person Plan Accrual	A Line Manager can view accrual plan balance for subordinates in their person and assignment security profile	Role: Manage Donations Privilege: View Accrual Plan Balance (Data) Resource: Person Plan Accrual
Person Plan Accrual	A Line Manager can view accrual plan balance for subordinates in their person and assignment security profile	Role: View Accrual Type Absence Plan Balance Privilege: View Accrual Plan Balance (Data) Resource: Person Plan Accrual
Person Plan Enrollment	A Line Manager can choose enrolled absence plans for subordinates in their person and assignment security profile	Role: Manage Cash Disbursements Privilege: Choose Enrolled Absence Plans (Data) Resource: Person Plan Enrollment
Person Plan Enrollment	A Line Manager can choose enrolled absence plans for subordinates in their person and assignment security profile	Role: Manage Donations Privilege: Choose Enrolled Absence Plans (Data) Resource: Person Plan Enrollment
Person Religion	A Line Manager can manage person religion for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: Manage Person Religion (Data) Resource: Person Religion
Person Religion	A Line Manager can view person religion for subordinates in their person and assignment security profile	Role: Create Work Relationship Privilege: View Person Religion (Data) Resource: Person Religion

Business Object	Policy Description	Policy Store Implementation
