1

Preface

1.1 Purpose

This guide is designed to help the user to quickly get acquainted with the Customer Standard Instructions maintenance process.

1.2 Audience

This guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at https://www.oracle.com/corporate/accessibility/.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

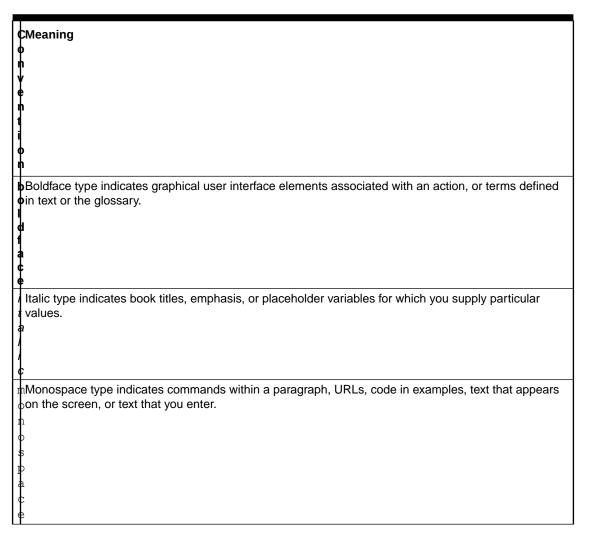

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Conventions

The following text conventions are used in this document:

Table 1-1 Conventions

1.7 Related Resources

For more information on any related features, refer to the following documents

- Oracle Banking Security Management System User Guide
- Routing Hub Configuration User Guide
- Oracle Banking Getting Started User Guide

1.8 Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1.9 Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1-2 Acronyms and Abbreviations

Abbreviation	Description
System	Core Maintenance Module
NLP	Natural Language Processing
REST	Representational State Transfer

1.10 Basic Actions

Table 1-3 Basic Actions

Action	Description
Approve	Used to approve the initiated report. This button is displayed, once the user click Authorize .
Audit	Used to view the maker details, checker details, and report status.
Authorize	Used to authorize the report created. A maker of the screen is not allowed to authorize the report. Only a checker can authorize a report, created by a maker.
Close	Used to close a record. This action is available only when a record is created.
Confirm	Used to confirm the performed action.
Cancel	Used to cancel the performed action.
Compare	Used to view the comparison through the field values of old record and the current record. This button is displayed in the widget, once the user click Authorize .
Collapse All	Used to hide the details in the sections. This button is displayed, once the user click Compare .
Expand All	Used to expand and view all the details in the sections. This button is displayed, once the user click Compare .
New	Used to add a new record. When the user click New , the system displays a new record enabling to specify the required data.
ок	Used to confirm the details in the screen.
Save	Used to save the details entered or selected in the screen.
View	Used to view the report details in a particular modification stage. This button is displayed in the widget, once the user click Authorize .
View Difference only	Used to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed, once the user click Compare .
Unlock	Used to update the details of an existing record. System displays an existing record in editable mode.

1.11 Symbols and Icons

The following symbols and icons are used in the screens.

Introduction

2.1 About Collateral Review Process

A brief introduction to the Collateral Review process.

As part of Credit Portfolio management, the banks undertake periodic / Event Triggered Review of collateral of its customers. This ensures that the bank can control and mitigate the inherent credit risk involved in collateral management.

The Collateral Review process can be triggered manually by the Credit Officer as well as automatically by the back office system (OBELCM). The various activities performed in the Collateral Review process are:

- Capturing application details
- Uploading related Mandatory and Non Mandatory documents
- Verifying documents and capture collateral details
- · Capturing Internal/External Legal Opinion
- Performing Risk Evaluation
- · Performing Internal/External Valuation of Collateral
- Performing Field Investigation
- Generating Collateral Agreement
- Receiving customer acceptance of Collateral Agreement
- Collateral Safekeeping

The flow chart illustrating various stages in the Collateral Review process is provided below for reference.

Figure 2-1 Process Flow Diagram

3

Data Enrichment

3.1 Data Enrichment

Detailed information about the Data Enrichment stage in the Collateral Review process.

In this stage, the Credit Officer can capture collateral details such as basic information, information specific to collateral type, and insurance details, upload collateral documents, and manage Covenants for the collateral.

The data segments available in the Data Enrichment stage are:

- Review Initiation
- Collateral Type (Property)
- Linked Customers
- Comments

3.2 Review Initiation

Information on the Review Initiation data segment in Data Enrichment stage.

This data segment allows to add the review details and basic information about the collateral as a part of review initiation.

Upon clicking **Initiate Review** in the **Review Initiation** screen, the **Enrichment - Review Initiation** screen is displayed.

Figure 3-1 Enrichment - Review Initiation

1. Provide all the details in the Enrichment - Review Initiation screen.

For field level information, refer the following tables.

Table 3-1 Enrichment - Review Initiation - Field Description

Field	Description
Review Date	Specify the date on which the Collateral Review process is initiated.
Reason for Review	Specify the reason for initiating Collateral Review process.

Table 3-2 Enrichment - Review Initiation - Customer Details - Field Description

Field	Description
Customer ID	The system displays the Customer ID linked to the selected collateral.
Customer Name	The system displays the Customer Name linked to the selected collateral.

Table 3-3 Enrichment - Review Initiation - Collateral Details - Field Description

Field	Description
Collateral Type	Type of the selected collateral is displayed.

Table 3-3 (Cont.) Enrichment - Review Initiation - Collateral Details - Field Description

Field	Description
Agreed Collateral Value	Collateral value agreed at the time of perfection is displayed.
Purpose of Collateral	Purpose of Collateral mentioned at the time of collateral perfection is displayed.
Collateral Description	Description maintained for the collateral in the Perfection process is displayed.
Seniority of Charge	Seniority of Charge specified at the time of perfection is displayed.
Collateral Start and End Date	Collateral Start and End Date specified at the time of perfection is displayed.
Ownership Type	Ownership Type specified at the time of perfection is displayed.
Is Sharable Across Customers?	This flag if enabled indicates that the collateral is sharable across customers.
Applicable Business	This indicates Applicable Business for the collateral.
Bank Value	Bank value of the collateral is displayed.
Market Value	Market Value of the collateral is displayed.
Bank Haircut	This indicates Bank Haircut for the collateral category.
Category Haircut	This indicates market haircut for the collateral category.
Exposure Type	Exposure Type specified at the time of perfection is displayed.

You can modify collateral details in the **Enrichment - Review Initiation** screen, if the fields are configured as editable in Business Process maintenance.

2. After capturing all the details, click Next.

3.3 Property

Information on the Property data segment in Data Enrichment stage.

This data segment allows to modify collateral details added in the perfection process, and manage insurance details, covenants, and documents for the collateral.

Upon clicking **Next** in the **Enrichment - Review Initiation** screen, the Collateral Type data segment is displayed based on the collateral selected for review.

Figure 3-2 Enrichment - Property

To modify the collateral details, click the action icon in the collateral record and select **Edit**. The **Enrichment - Configure - Property** screen is displayed.

Figure 3-3 Enrichment - Configure - Property

- Adding Property Details
 Procedure to add/modify property details.
- Managing Collateral Insurance Details
 Procedure to add, edit, view and delete collateral insurance details.
- Managing Covenants
 Procedure to Add, Edit, and Delete covenants for the collateral.
- Managing Collateral Documents
 Procedure to Edit, Download, Delete, and Remove documents.

3.3.1 Adding Property Details

Procedure to add/modify property details.

 Provide/modify the property details about property in the Enrichment - Configure -Property screen.

For field level information, refer the following tables.

Table 3-4 Configure - Property - Field Description

Field	Description
Property ID	Specify the Property ID .
Property Type	Select the Property Type from the drop down list. The options available include but are not limited to: Residential Building Residential Plot
Property Category	Select the Property Category from the drop down list. The options available include but are not limited to: Individual Corporate
Description	Provide a brief description about the property.
Property Purpose	Select the purpose of the property from the drop down list. The options available include but are not limited to: Personal Commercial
Registered Owner	Specify the name of Registered Owner of the property.
Land Registry	Specify the property Land Registry details.
Purchase Date	Specify the date on which the property was purchased.
Zone Classification	Select the Zone Classification from the drop down list. The options available include but are not limited to: EARTH QUAKE ZONE FLOOD ZONE NORMAL
Flood Zone	Enable this flag, if the property is in flood zone.
Flood Zone Type	Select the Flood Zone Type from the drop down list, if the Flood Zone flag is enabled. The options available include but are not limited to:
Seismic Zone	Enable this flag, if the property is in seismic zone.
Seismic Zone Type	Select the Seismic Zone Type from the drop down list, if the Seismic Zone flag is enabled. The options available include but are not limited to: Low Damage Risk Moderate Damage Risk High Damage Risk Highest Damage Risk

Table 3-4 (Cont.) Configure - Property - Field Description

Field	Description
Income Producing	Enable this flag, if the property is producing income through rent or lease.
Environment Assessment Required	Enable this flag, if environment assessment is required for the property.
Restricted Property	Enable this flag, if the property is restricted by government authorities.
Under Construction	Enable this flag, if the property is under construction.
Nature of Property	Select the Nature of Property from the drop down list. The options available include but are not limited to: Fee Simple Leasehold
Property Status	Select the Property Status from the drop down list. The options available include but are not limited to: Rented Leased Self Owned
Wall Material	Select the property Wall Material from the drop down list. The options available include but are not limited to:

Table 3-4 (Cont.) Configure - Property - Field Description

Field	Description
Roof Type	Select the property Roof Type from the drop down list. The options available include but are not limited to: Ashpalt Shingles Bamboo Metal Bricks Built-Up Roof Clay Concrete Tiles Mud Rubber Slate Solar Tiles Solid Wood Stone Coated Steel Thatched Copper Others
Registration Date	Specify the date on which the property is registered.
Property Value	Select a currency and specify the value of property.
Adverse Comments	Catpture Adverse Comments about the property, if any.

Figure 3-4 Configure - Property Location

Table 3-5 Configure - Property Location - Field Description

Field	Description
Registration Number	Specify the property Registration Number .
House/Building	Specify the House/Building name.

Table 3-5 (Cont.) Configure - Property Location - Field Description

Field	Description
Street	Specify the Street in which the property is located.
Locality	Specify the Locality of the property.
Landmark	Specify the Landmark for the property.
Area	Specify the Area in which the property is located.
City	Specify the City in which the property is located.
State	Specify the State in which the property is located.
Zip-Code	Specify the Zip-Code of the property area.
Country	Specify the Country in which the property is located.

Figure 3-5 Configure - Property - Currency Details

Table 3-6 Configure - Property - Currency Details - Field Description

Field	Description
Currency	The system displays the collateral Currency in this field.
Amount in Collateral Currency	Property Value is displayed in collateral currency in case the property value is not specified in collateral currency.

Figure 3-6 Configure - Property - Property Dimension

Table 3-7 Configure - Property Dimension - Field Description

Field	Description
Number of Rooms	Specify the Number of Rooms available in the property.
Property Units	Select the unit in which property is measured. The options available include but are not limited to Square Meter Square Yard Hectare Acre
Property Size	Specify the Property Size in selected unit.
Area of Land	Specify the total Area of Land in which the property is constructed.
Number of Stories	Specify the Number of Stories available in the property.
Number of Garages	Specify the Number of Garages available in the property.
Total Dimension Length	Specify the total length of the property.
Total Dimension Width	Specify the total width of the property.
Floor Number	Specify the Floor Number of the property, in case the property is in shared building.
Dimension Length	Specify the length of the carpet area of property.
Dimension Width	Specify the width of the carpet area of property.

After adding the property dimension details, click + the add icon. The dimension details are added and displayed as shown below.

Figure 3-7 Configure - Property Dimension - Added

You can **Edit**, **View**, or **Delete** the property dimension details by clicking the action icon in the record and selecting the required option.

Figure 3-8 Configure - Property Valuation Details

Table 3-8 Configure - Property Valuation Details - Field Description

Field	Description
Valuation Date	Specify the date on which the property is valuated.
Valuation Source	Specify the property valuation source. For example, Public Institutions and Real Estate Agents
Valuation Amount	Specify the property Valuation Amount.
Other Lenders Charge Amount	Specify the Other Lenders Charge Amount in case the property is backing up the facility borrowed from other lenders.

Figure 3-9 Configure - Property Contact Details

Table 3-9 Configure - Property Contact Details - Field Description

Field	Description
Contact Person	Select the Contact Person from the drop down list. The options available include but are not limited to: Tenant Builder Real Estate Vendor Owner Others
First Name	Specify the First Name of the contact person in the property.
Last Name	Specify the Last Name of the contact person in the property.
Mobile	Specify the mobile number of the contact person in the property.
Work Phone	Specify the work phone number of the contact person in the property.
Home Phone	Specify the home phone number of the contact person in the property.
Email ID	Specify the Email ID of the contact person in the property.

Figure 3-10 Configure - Property - Residential Status

Table 3-10 Configure - Property - Residential Status - Field Description

Field	Description
Primary Residence	Enable this flag if the property is the customer's primary residence.
Occupancy	Select the Occupancy from the drop down list.

2. After adding/modifying the property details, click **Next**.

The **Enrichment - Configure - Collateral Insurance** screen is displayed.

3.3.2 Managing Collateral Insurance Details

Procedure to add, edit, view and delete collateral insurance details.

Figure 3-11 Enrichment - Configure - Collateral Insurance

1. To add insurance details, click + the add icon.

The following window is displayed.

Figure 3-12 Collateral Details

2. Specify all the details in the **Insurance Details** screen.

For field level information, refer the following tables.

Table 3-11 Insurance Basic Details - Field Description

Fields/ Icons	Description
Policy Number	Specify the insurance Policy Number .
Policy Name	Specify the insurance Policy Name .
Insurance Provider	Specify the name of Insurance Provider.
Insurance Name	Specify the name of insurance.
Insurance Type	Select the Insurance Type from the drop down list. The options available include but are not limited to: Asset Insurance Life Insurance Corporate Insurance Borrower Insurance
Policy Status	Select the Policy Status from the drop down list. The options available include but are not limited to: Inforced Lapsed Paidup
Insurance Amount	Specify the Insurance Amount in selected insurance currency.
Start Date	Click the calendar icon and select the insurance Start Date.
End Date	Click the calendar icon and select the insurance End Date.
Grace Days	Specify the Grace Days for making insurance premium payment.
Notice Days	Specify the Notice Days for insurance premium payment.
Policy Assigned To Bank	Specify if the policy is assigned to your bank by selecting required option from the Policy Assigned To Bank drop down list.

Table 3-12 Collateral Details - Insurance Premium Details - Field Description

Fields/ Icons	Description	
Premium Currency	Click the search icon in the Premium Currency field and select the currency in which insurance premium is paid.	
Premium Amount	Specify the Premium Amount in selected premium currency.	
Premium Frequency	Select the Premium Frequency from the drop down list.	
Premium End Date.	Click the calendar icon and select the Premium End Date.	
Remarks	Type Remarks about the insurance, if any.	

3. Click **Add**. The insurance details are added and displayed in the **Enrichment - Configure - Collateral Insurance** screen.

You can **Edit**, **View**, or **Delete** the insurance record by clicking on the action icon and selecting the required option.

4. After performing necessary actions, click **Next** in the **Enrichment - Configure - Collateral Insurance** screen.

The **Enrichment - Configure - Covenants** screen is displayed.

3.3.3 Managing Covenants

Procedure to Add, Edit, and Delete covenants for the collateral.

Figure 3-13 Enrichment - Configure - Covenants

1. To add new covenant, click the add icon.

The **Covenant Details** window is displayed.

Figure 3-14 Covenant Details

Create Cancel

2. To link existing covenant, click the search icon and select the **Covenant Code**.

The covenant codes maintained in the **Covenant Maintenance** screen are displayed in LOV.

Upon selecting the Covenant Code, Covenant name, Covenant description and Classification type are defaulted.

To create new covenant, click the Click to add new covenant link and specify all the details.

For field level information, refer the following tables.

Table 3-13 Covenant Details - Field Description

Field	Description
Covenant code	Specify a unique code for the covenant to be created.
Covenant name	Specify a name for the covenant to be created.
Covenant description	Provide a brief description about the covenant.
Classification type	Specify the covenant Classification Type as Internal and External.

Figure 3-15 Covenant Details - Covenant Details

Table 3-14 Covenant Details - Covenant Details - Field Description

Field	Description
Covenant type	Select the Covenant Type . The following options are available in the drop down list: • Financial • Non-Financial In case of linking existing covenant, you cannot modify the Covenant Type .
Covenant Sub Type	Select the Covenant Sub Type from the drop down list.
	In case of linking existing covenant, you cannot modify the Covenant Sub Type .
Notice Days	Specify the number of days before which the covenant tracking task has to be created.
Revision Frequency	Select the frequency for reviewing the covenant, such as Quarterly, Monthly, Semi Annual, and Annual.
Revision Days	Specify the number of days in which the covenant must be reviewed.
Start Date	Specify the date on which the covenant becomes effective.
End Date	Specify the date on which the covenant expires.
Maximum Defer Days	Specify the number of days for which the covenant can be deferred.

Figure 3-16 Covenant Details - Monitoring Information Details

Table 3-15 Covenant Details - Monitoring Information Details - Field Description

Field Description

Select the monitoring information. Monitoring information maintained in the Monitoring Information Maintenance module are displayed in the LOV.

Figure 3-17 Covenant Details - Formula Details

Table 3-16 Covenant Details - Formula Details - Field Description

Field	Description
Variable	Select a Variable from the drop down list. The options available are
Operators	Select the required operator from the available Operators .
Custom Value	Provide a Custom Value for building formula, if required. You can also select another Variable.

Table 3-16 (Cont.) Covenant Details - Formula Details - Field Description

Field	Description
Build Formula	Click Build Formula . The formula is built and displayed below the formula box. The system also displays whether the formula is valid expression or invalid expression below the formula box. You must change the formula in case it is invalid expression.
Target Type	Select the Target Type from the drop down list. The options available are: Value Percentage Ratio
Covenant Check Condition	Select the Covenant Check Condition from the drop down list. The options available are: Greater than, Greater than or equal to, Between, Less than or equal to, Equal to, and Less than.
Target Value	Specify the Target Value.
Target Value 1, Target Value 2	If Between is selected as the Covenant Check Condition , Target Value 1 and Target Value 2 fields appear. You need to specify the range of target values.

You can use any number of variables and operators to build the formula based on your requirement.

The system periodically derives the built formula with the values obtained from customer / customer prospect's financial documents and validate it against the set target values based on covenant check condition.

Figure 3-18 Covenant Details - Others

Table 3-17 Covenant Details - Others - Field Description

Field	Description
Compliance Status	Select the current covenant Compliance Status of the party / collateral. The options available are: Met Breach
Waiver Status	Select the Waiver Status from the drop down list. The options available are: Waive Waive all
Last Check Value	Specify the target value observed during the last covenant check.
Deferred Due Date	Specify the Deferred Due Date . The covenant review can be postponed till the mentioned date.
Remarks	Capture overall Remarks for the covenant.

Click Create.

Covenant details are added and displayed in the **Enrichment - Configure - Covenants** screen.

- 5. To edit the added covenant, select the covenant record and click the **Edit** icon.
- 6. To delete the added covenant, select the covenant record and click the **Delete** icon.
- After performing necessary actions in the Enrichment Configure Covenants screen, click Next.

The Enrichment - Configure - Documents screen is displayed.

3.3.4 Managing Collateral Documents

Procedure to Edit, Download, Delete, and Remove documents.

Figure 3-19 Enrichment - Configure - Documents

1. To upload new documents, click Add New Documents.

The **Document Upload** screen is displayed.

Figure 3-20 Document Upload

Upload Close

2. Provide all the details for adding document.

For field level information, refer the below table.

Table 3-18 Document Upload - Field Description

Field	Description
Document Type	Search and select the type of document to be uploaded.
Document Type Description	Description maintained for the selected Document Type is displayed.
Document Code	Search and select the Document Code from the list of document codes maintained in the system.
Document Code Description	Description maintained for the selected Document Code is displayed.
Document Expiry Date	Specify the date till which the document to be uploaded is valid.
Remarks	Capture Remarks for the document, if any.
Drop files here or click to select	In this section, drag and drop the documents or click and select the documents. Selected files are displayed at the bottom.

3. Click Upload.

The document is uploaded and displayed in **Enrichment - Configure - Documents** screen.

- To modify the document details, click the action icon in document record and select Edit.
- To download the uploaded document, click the action icon in document record and select Download.
- 6. To delete the document record, click the action icon in record and select **Delete**.
- To remove the uploaded document, click the action icon in document record and select Remove Document.
- 8. After performing necessary actions in the **Enrichment Configure Documents** screen, click **Submit**.

3.4 Substitution Linkages

Information on the Substitution Linkages data segment in the Data Enrichment stage.

This data segment displays the following details for the selected collateral.

- Linked Facilities Existing and proposed facilities collateral linkage
- Linked Collateral Pool Existing and proposed collateral collateral pool linkage
- Utilization Details Existing utilization from the linked collateral amount

Upon clicking **Next** in the **Enrichment - Property** screen, the Substitution Linkages data segment is displayed.

Figure 3-21 Enrichment - Substitution Linkages

- View the Linked Facilities, Linked Collateral Pool, and Utilization details by navigating to the corresponding tabs.
- 2. Click Next.

3.5 Comments

Information on the Comments data segment in the Data Enrichment stage.

The Comments data segment allows you to post your overall comments for the Data Enrichment stage. Posting comments helps the user of next stage to better understand the application.

Figure 3-22 Enrichment - Comments

- 1. Type your comments for the Data Enrichment stage in the **Comments** text box.
- 2. Click Post.

Comments are posted below the **Comments** text box.

3. To submit the Data Enrichment task to next stage, click **Submit**.

The **Checklist** window is displayed.

Figure 3-23 Enrichment - Checklist

- 4. Manually verify all the checklist and enable the corresponding check box.
- 5. Select the Outcome as PROCEED and click Submit.

The application is moved to the next stage.

4

External Check

4.1 External Check

Detailed information about the External Check stage in Collateral Review process.

In this stage, the Credit Officer verifies if the collateral submitted by the customer has an existing charge in the external system and captures the external check details.

External systems are maintained by the external agencies like CERSAI of India and Land Registry of UK to store the data of mortgage registrations. The lenders inquire these external systems online to check if there is an existing charge on a property.

The following data segments are available in the External Check stage:

- Summary
- External Check
- Comments

4.2 Summary

Information on the Summary data segment in External Check stage.

In the Summary data segment, the following collateral details captured in the previous stages are displayed.

- Basic Information
- Collateral Type (Property) Details
- Linked Facilities Details
- Ownership
- Seniority of Details
- Covenants
- Insurance
- Configured Stage Status

The Configured Stage Status is updated based on the status of parallel tasks generated in the system.

 To launch the External Check - Summary screen, navigate to Tasks > Free Tasks from the left menu.

The **Free Tasks** screen is displayed.

Figure 4-1 Free Tasks

2. Click Acquire & Edit in the required External Check task.

The External Check - Summary screen is displayed.

Figure 4-2 External Check - Summary

3. View the Collateral Summary and click **Next**.

4.3 External Check

Procedure to add external check details.

Upon clicking **Next** in the **External Check - Collateral Summary** screen, the External Check data segment is displayed.

Figure 4-3 External Check

To capture the external check details for the collateral:

1. Click the action icon in the collateral record and select **Edit**.

The External Check - Configure - Collateral Type screen is displayed.

Figure 4-4 External Check - Configure - Collateral Type

2. Click **Next** and navigate to the **External Check** menu.

Figure 4-5 External Check - Configure - External Check

Click the add icon in the External Check - Configure - External Check screen.The External Check Details window is displayed.

Figure 4-6 External Check Details

4. Capture the external check details in the above screen.

For field level explanation, refer the below table.

Table 4-1 External Check Details - Field Description

Field	Description
Agency	Select the Agency from which the collateral registration details are obtained.

Table 4-1 (Cont.) External Check Details - Field Description

Field	Description
External Check Date	Specify the date on which the External Check is carried out.
External Check Outcome	Specify the External Check Outcome.
Remarks	Capture the Remarks for the collateral.
Asset ID	Specify the Asset ID . For example, Registration ID.
Security Interest ID	Specify the reference number of security interest registration at CERSAI.
Security Interest Creation Date	Specify the date on which security interest is created.
Amount of Charge	Specify the Amount of Charge created on the collateral.
Underlying Document Date	Specify the execution date of underlying document.
Charge Release Date	If the bank has released the charge on collateral by executing release deed or release letter, specify the date of execution of such document.
Underlying Document	Select the name of document executed to create charge on the collateral. The following options are available in the drop down list. Deed of Hypothecation Mortgage Deed
Charge Holder Name	Specify the name of bank which has created charge on the collateral.
External Check Status	Select the External Check Status of the collateral. The following options are available in the drop down list. Satisfied Creation Modification

5. Click Add in the External Check Details window.

The external check details are added and displayed as shown below.

Figure 4-7 External Check - Configure - External Check Details

You can **Edit**, **View**, or **Delete** the added external check details by clicking the action icon and selecting the required option.

6. After capturing the external check details, click Next.

The **External Check - Configure - Questionnaire Evaluation** screen is displayed.

Figure 4-8 External Check - Configure - Questionnaire Evaluation

Note:

In the above screen, the questionnaire linked to the External Check stage in Business Process configuration are displayed. You can manage the questionnaire process linkage in Maintenance module.

7. Click **Evaluate** in any of the tile.

The **Questionnaire** window is displayed.

Figure 4-9 Questionnaire

Cancel

8. Select answer for all the questions and click **Submit**.

In case of multiple questions, the right arrow appears in the **Questionnaire** screen. Click the right arrow to view next question.

Once the evaluation is completed, the system displays the overall score for evaluation in **External Check - Configure - Questionnaire Evaluation** screen based on the score generated for each answer provided in the **Questionnaire** screen.

You can click the Action icon in the tile and select **Edit** or **Comment** to modify the answers or capture comment for the evaluation, respectively.

After performing all the evaluation, click Submit.

4.4 Comments

Information on the Comments data segment in the External Check stage.

The Comments data segment allows you to post overall comments for the External Check stage. Posting comments helps the user of next stage to better understand the application.

Upon clicking **Next** in the **External Check** screen, the Comments data segment is displayed.

Figure 4-10 External Check - Comments

- Type your comments for the External Check stage in the Comments text box.
- Click Post.

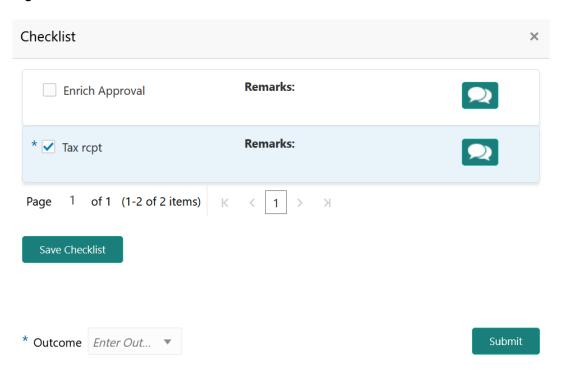

Comments are posted and displayed below the **Comments** text box.

Click Submit.

The Checklist window is displayed.

Figure 4-11 Checklist

- 4. Manually verify all the checklist and enable the corresponding check box.
- 5. Select the required **Outcome** and click **Submit**.

The options available in the drop down list are:

- PROCEED
- ADDITIONAL_INFO

If **PROCEED** is selected as the **Outcome**, the application is moved to the next stage after successful completion of all the parallel stages.

If **ADDITIONAL_INFO** is selected as the **Outcome**, the application is moved back to the previous stage.

5

External Valuation

5.1 External Valuation

Detailed information about the External Valuation stage in the Collateral Review process.

In addition to internal valuations performed by the bank users, the collaterals are valuated by the third-party external agencies with expertise in the field to determine the final collateral value.

In this stage, the Credit Officer or the user authorized to edit the External Valuation task must capture the valuation details from the external agencies.

The following data segments are available in the External Valuation stage.

- Summary
- External Valuation
- Comments

5.2 Summary

Information about the Summary data segment in the External Valuation stage.

In the Summary data segment, the following collateral details captured in the previous stages are displayed.

- Basic Information
- Collateral Type (Property) Details
- Linked Facilities Details
- Ownership
- Seniority of Details
- Covenants
- Insurance
- Configured Stage Status

The Configured Stage Status is updated based on the status of parallel tasks generated in the system.

 To launch the External Valuation - Summary screen, navigate to Tasks > Free Tasks from the left menu.

The **Free Tasks** screen is displayed.

4. Specify all the details in the External Valuation Details window.

For field level explanation, refer the below table.

Table 5-1 Basic Details - Field Description

Field	Description
Agency	Select the Agency which performed external valuation.
Valuation Type	Select the Valuation Type as External.
Valuation Date	Specify the date on which the external valuation is carried out.
Valuation Frequency	Select the Valuation Frequency from the drop down list.

Table 5-1 (Cont.) Basic Details - Field Description

Field	Description
Frequency Unit	Specify the number of times the valuation must be done in the selected Valuation Frequency .
Valuation Expiry Date	Specify the date till which the valuation is valid.
Next Valuation Date	Next Valuation Date is displayed based on the specified Valuation Date, Valuation Frequency and Frequency Unit.
Valuation Amount	Select a currency and specify the collateral Valuation Amount.
Insurable Value	Specify the Insurable Value of the asset.
Deviation Approval As Per Bank Policy	Provide the approval details in case there is any deviation in the construction from the approved plan and the bank has approved the deviation.
Estimated Age of Asset	Specify the Estimated Age of Asset.
Estimated Life Span of Asset	Specify the Estimated Life Span of Asset.
Remarks	Specify the bank user Remarks .
Valuer Remarks	Capture the Valuer Remarks for the collateral.

Figure 5-7

Table 5-2 Immovable Collateral Valuation Details - Field Description

Field	Description
Type of Property	Select the Type of Property from the drop down list. The options available are: Urban Rural Semi-Urban
Date of Property Visit	Specify the date on which the valuation agency has visited the property.
Number of Blocks/Wings	Specify the number of blocks or wings in the property.
Number of Stories	Specify the Number of Stories available in the building.
Number of Units Per Floor	Specify the number of flats available per floor.
Age of the Property	Specify the present date of the property in years.
Residual Life	Specify the remaining life of the building in years.
Sanctioned Plan Details	Provide details about the plan sanctioned for building construction.
Construction Permission / Commencement Certificate	Provide details of construction permission from the local authority.
Permissible Usage As Per Sanctioned/ Approved Plan	Specify the purpose of building as per the permission obtained from the local authority.
Deviations If Any	If there is any deviation in the construction from the approved plan, specify the deviation details.
Land Rate	Specify the Land Rate in the locality.
Construction Rate	Specify the cost of construction per unit.
Amenity Value	Specify the value of other amenities provided to the customers.
Total Fair Market Value	Specify the fair market value of the building or apartment or unit.
Forced/Distress Sale Value	Specify the possible sale value in case of default by customer.
Realizable Value	Specify the value of realization in case of sale.
Ready Reckoner Rate/Circle Rate	Specify the indexed rate or prevailing rate in the locality.
Stage of Construction	Specify the current Stage of Construction.
Negative Remarks	Capture Negative Remarks from the External Valuator, if any

Figure 5-8

Table 5-3 Immovable Collateral Area Details - Field Description

Field	Description
Unit of Area	Select the Unit of Area from the drop down list. The options available are:
Land/Plot Area	Specify the Land/Plot Area in the selected unit.
Area per Agreement / Sale Deed	Specify the area as mentioned in the sale deed or agreement.
Area Per Plan	Specify the area covered per flat as per the building plan.
Area Per Measurement	Specify the proprty area as per measurement.
Land Area	Specify the Land Area in the selected unit.
Construction Area	Specify the total Construction Area on the land.

5. Click Add.

The external valuation details are added and displayed as shown below.

Figure 5-9 External Valuation - Configure - Valuation Added

You can **Edit**, **View**, or **Delete** the added external valuation details by clicking the action icon in the corresponding record and selecting the required option.

6. Click Next in the External Valuation - Configure - Valuation screen.

The **External Valuation - Configure - Questionnaire Evaluation** screen is displayed. For information on questionnaire based evaluation, refer **External Check** chapter.

If the minumum number of valuation record is not added, the system prompts an error message based on the configured rule. You can capture the appropriate remarks and proceed to the next stage by obtaining exception approval or add the valuation records at a later date.

7. After performing necessary actions in the External Valuation data segment, click Next.

5.4 Comments

Information about the Comments data segment in the External Valuation stage.

The Comments data segment allows you to post overall comments for the External Valuation stage. Posting comments helps the user of next stage to better understand the application.

Upon clicking **Next** in the **External Valuation - External Valuation** screen, the Comments data segment is displayed.

Internal Valuation

10

Risk Evaluation

10.1 Risk Evaluation

Detailed information about the Risk Evaluation stage in the Collateral Review process.

Risk Evaluation is performed by the bank for certain collateral types to check if the collateral can secure bank's exposure and identify the risk level. In this stage, the Risk Officer or the user authorized to edit the Risk Evaluation task must review the collateral and its documents, and capture the risk evaluation details.

The following data segments are available in the Risk Evaluation stage.

- Summary
- Risk Evaluation
- Comments

10.2 Summary

Information about the Summary data segment in the Risk Evaluation stage.

In the Summary data segment, the following collateral details captured in the previous stages are displayed.

- Basic Information
- Collateral Type (Property) Details
- Linked Facilities Details
- Ownership
- Seniority of Details
- Covenants
- Insurance
- Configured Stage Status

The Configured Stage Status is updated based on the status of parallel tasks generated in the system.

 To launch the Risk Evaluation - Summary screen, navigate to Tasks > Free Tasks from the left menu.

The Free Tasks screen is displayed.

Figure 10-1 Free Tasks

2. Click Acquire & Edit in the required Risk Evaluation task.

The Risk Evaluation - Summary screen is displayed.

Figure 10-2 Risk Evaluation - Summary

3. View the collateral summary and click **Next**.

10.3 Risk Evaluation

Procedure to add risk evaluation details for the collateral.

Upon clicking **Next** in the **Risk Evaluation - Summary** screen, the Risk Evaluation data segment is displayed.

Figure 10-3 Risk Evaluation - Risk Evaluation

Click the action icon in the required collateral record and select Edit.

The **Risk Evaluation - Configure - Collateral Type** screen is displayed based on the selected collateral.

Figure 10-4 Risk Evaluation - Configure - Property

For information on the **Property**, **Covenants**, and **Documents** menus, refer the **Data Enrichment** chapter.

2. Click **Next** and navigate to **Risk Evaluation** menu.
